Click the blocks below to jump to relevant page.

WE ARE

at the heart of building.

We offer a diverse range of building products, solutions and expert technical and design services that enable our customers to create inspirational spaces and places.

Everything we do revolves around our valued customers and we continuously strive to exceed their expectations. We pride ourselves on leading for new, innovative and sustainable products and solutions, both for today and for a new era of building.

WE ARE at the heart of building. WE ARE Istock.

Bricks and Masonry

Our bricks and masonry range is truly comprehensive. Take the widest brick range in the UK and add in walling stone, architectural masonry, cast stone products and specials and you are sure to find a product for your project.

Facade Systems

With the establishment of Istock Futures, Istock is demonstrating a clear ambition to grow into the Facades sector. With Istock Telling GRC, Mechslip, Nexus and Genbrix we already have some fantastic solutions for this space.

Roofing

Our wide range of concrete roof tiles for the new build housing market, including the innovative SL8 EVO and Gemini products, added to our high quality chimney options from Istock Kevington mean we've really got roofing covered.

Flooring and Lintels

A comprehensive range of flooring solutions and lintel products, including high fire rated options – with nationwide coverage delivered through our Supreme and Longley brands.

Staircases and Lift Shafts

Our bespoke high quality, Longley precast staircases and lift shafts are designed to meet your projects exact requirements.

Fencing and Landscaping

Istock offers a wide range of products for the fencing and landscaping sector – including high quality concrete fence posts from our Supreme brand or beautiful cast stone balustrades and pier caps from our Forticrete brand.

Retaining Walls

Whether it is a retaining wall solution to prepare a new site or for a major infrastructure scheme – our Anderton brand gives us the products and technical expertise to deliver.

Rail and Infrastructure

Istock Rail and Infrastructure combines rail troughs, signal bases, platform copers and other products for infrastructure from our Anderton range – all harnessing the latest in concrete technology to minimise embodied carbon without compromising performance.

Design and Technical Services

We are committed to providing the best possible design and technical support to our customers. From expert advice to a sector-leading training and CPD provision, Istock's range of design and technical services are especially configured to give architects and specifiers the access to the support they need at every stage on their project journey – from concept to build.

IBSTOCK – PROUD TO BE THE NUMBER 1 BRICK MAKER IN THE UK

Ibstock is the largest brick manufacturer in the UK.

With over **200 years of brickmaking heritage** and the widest range of UK produced bricks available, we are able to offer the ideal product whatever the project. This, coupled with our unparalleled technical and design expertise, is why we are the **UK's number 1 brick maker**.

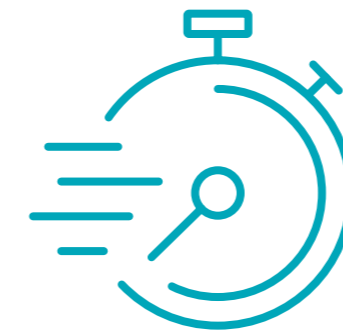

OVER 200 YEARS OF
BRICKMAKING HERITAGE
AND EXPERTISE

PROUD TO BE THE
NO. 1 BRICK MAKER IN
THE UNITED KINGDOM

KNOW YOUR BRICKS: **CLAY VS CONCRETE**

Building with clay brick is 30% quicker

than concrete brick – equivalent
to a **saving of 8 working days**
for an average house.

Comparable full lifecycle CO² emissions

when a like for like analysis
compares **concrete and clay brick**
over a buildings lifetime.

BOW RIVER VILLAGE, LONDON

GET TO KNOW YOUR BRICKS: WHY CLAY?

The UK as we know it today was built on brick. The literal foundation of our contemporary built environment, and the material which overwhelmingly comprises not just our homes and places of work, but also some of our most iconic landmarks.

It is the simplicity of brick that is perhaps the key to its endurance. There is a latent power in a product made from **earth, fire and water**; a product that is at once ancient and yet, increasingly, applied in new and exciting ways. It is also that durability that has seen brick become the building material of choice for British architects, and why the UK manufactured **1.9 billion bricks in 2019 alone**.

The figures on this page are taken from the Brick Development Association's 'Know Your Bricks' findings and infographic. For more information, [click here](#).

DURABLE

150 years life expectancy

FLEXIBLE

12 metre movement joint spacing for clay brick façades

DIVERSE

1000's of colours, textures and finishes available

LOCALLY MADE

68 miles average delivery distance

FAMILIAR

77% of new homes are built with Clay Bricks

RELIABLE

150,000 UK homes built with Clay brick in 2019

THE FACE OF THE UK

1.9 billion clay bricks manufactured in the UK in 2019

PRIVATE HOUSING, HAMPSHIRE

BRICKMAKERS QUALITY CHARTER: TOP MARKS FOR IBSTOCK BRICK

We are incredibly proud to be a founding signatory of the BDA's Brickmakers Quality Charter.

It was with significant honour that we became one of the first brickmakers nationwide to achieve accreditation from this new charter, securing a **three-star rating** – the highest possible level of accreditation.

This certification bears testament to the robustness of both our supply chain and manufacturing processes, and demonstrates our continued commitment to ensuring the ethical manufacture of best quality bricks.

ACHIEVING THE HIGHEST LEVEL OF ACCREDITATION

Securing this accreditation was a uniquely involved process, in which we had to demonstrate our adherence with eight globally recognised Critical Assessment Points (CAP). These included the Responsible Sourcing Systems (BES 6001), Health & Safety Management Systems (ISO 45001) and the Anti-Modern Slavery Policy and Procedures, in line with existing national standards.

BES 6001

Responsible Sourcing Systems

ISO 45001

Health & Safety Management Systems

Anti-Slavery Policy

SECURING CHARTER ACCREDITATION IS AN IMPORTANT STEP FORWARD FOR OUR BUSINESS, AND SIGNALS OUR ONGOING COMMITMENT TO LEADING THE WAY ON QUALITY.

IBSTOCK'S SUSTAINABILITY ACHIEVEMENTS

Sustainability is a key strategic driver for Istock plc.

Our products have been central to the creation of new homes and workspaces enabling people to live in comfort and safety for almost **200 years**. We are proud of our role in shaping the look and feel of our built environment. We know that we are facing some big challenges not least the loss of natural habitats and the impacts of climate change.

Our ambition is to be the **most sustainable manufacturer** of clay and concrete building products in the UK. As a market leader it is our responsibility to be at the **forefront** in this vital area, a responsibility we take very seriously.

HOW TO CHOOSE THE RIGHT BRICK FOR YOU: USING THE BRICK SELECTOR

We have arranged our bricks throughout this brick selector in order of colour, type of manufacture and texture.

1

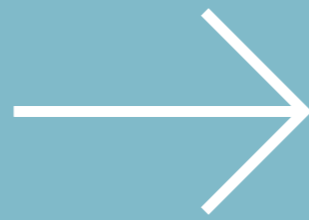

Brick type

Produced using a variety of manufacturing techniques to suit any project.

2

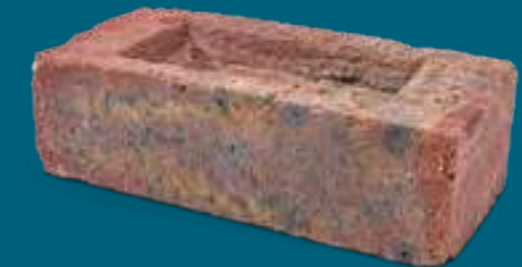

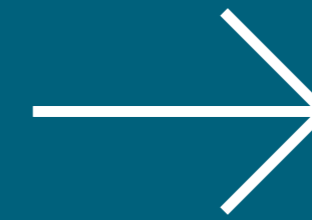

Brick size

Where bricks are available in different sizes we have indicated this by a simple table.

3

Colour & texture

Look closely at the brick you are matching to establish the type, colour and texture.

HOW TO CHOOSE THE RIGHT BRICK FOR YOU:

BRICK TYPES

Wirecut

Defined edges are formed within the manufacturing process although a softer edge can be achieved by rumbling; perforations through the body of the brick easily identify if the brick is wirecut. Can also be a solid brick.

Waterstruck

Often a solid brick, although a few products are made frogged. Commonly a lip is evident at the bottom of the face.

Stock

Commonly has soft edges, **ALWAYS a frogged body.**
(Indent in the top of the brick).

Handmade

Commonly has soft edges, **OFTEN a frogged body.**
(Indent in the top of the brick).

Glazed

Smooth textured with a gloss face and header, glazed bricks are typically wirecut and come in a variety of high impact colours.

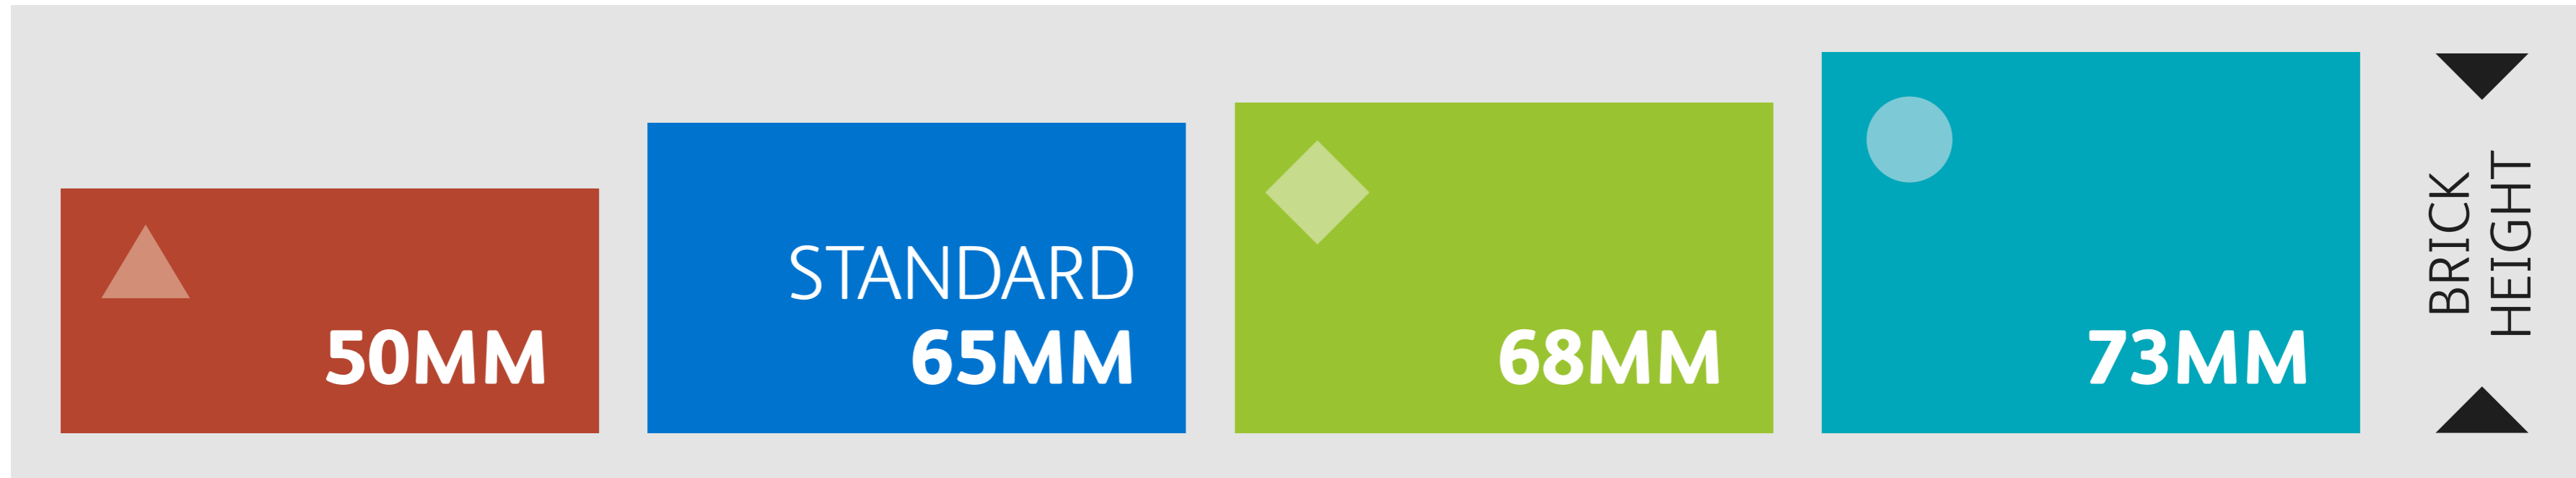

Long format

Long format bricks come in a variety of lengths, colours and textures – the majority of our long format bricks are solid or wirecut.

IMAGE: NEUXS SOFFIT AND LINTEL SYSTEMS AND A MIX OF GLAZED BRICKS

HOW TO CHOOSE THE RIGHT BRICK FOR YOU: BRICK SIZES

CHOOSING THE RIGHT BRICK

Bricks are made in a number of sizes, the **standard being 215mm x 102mm x 65mm**. Matching the height to existing brickwork creates a more continuous appearance. A selection of products are also available in **50mm, 68mm** and **73mm**. We have indicated which of our bricks come in alternative sizes throughout the brochure using the symbols shown above. We also have a range of **longer format bricks** from **240mm to 490mm long**.

IMAGE: NEW CHAILEY RUSTIC STOCK,
LONG FARM, REYDON

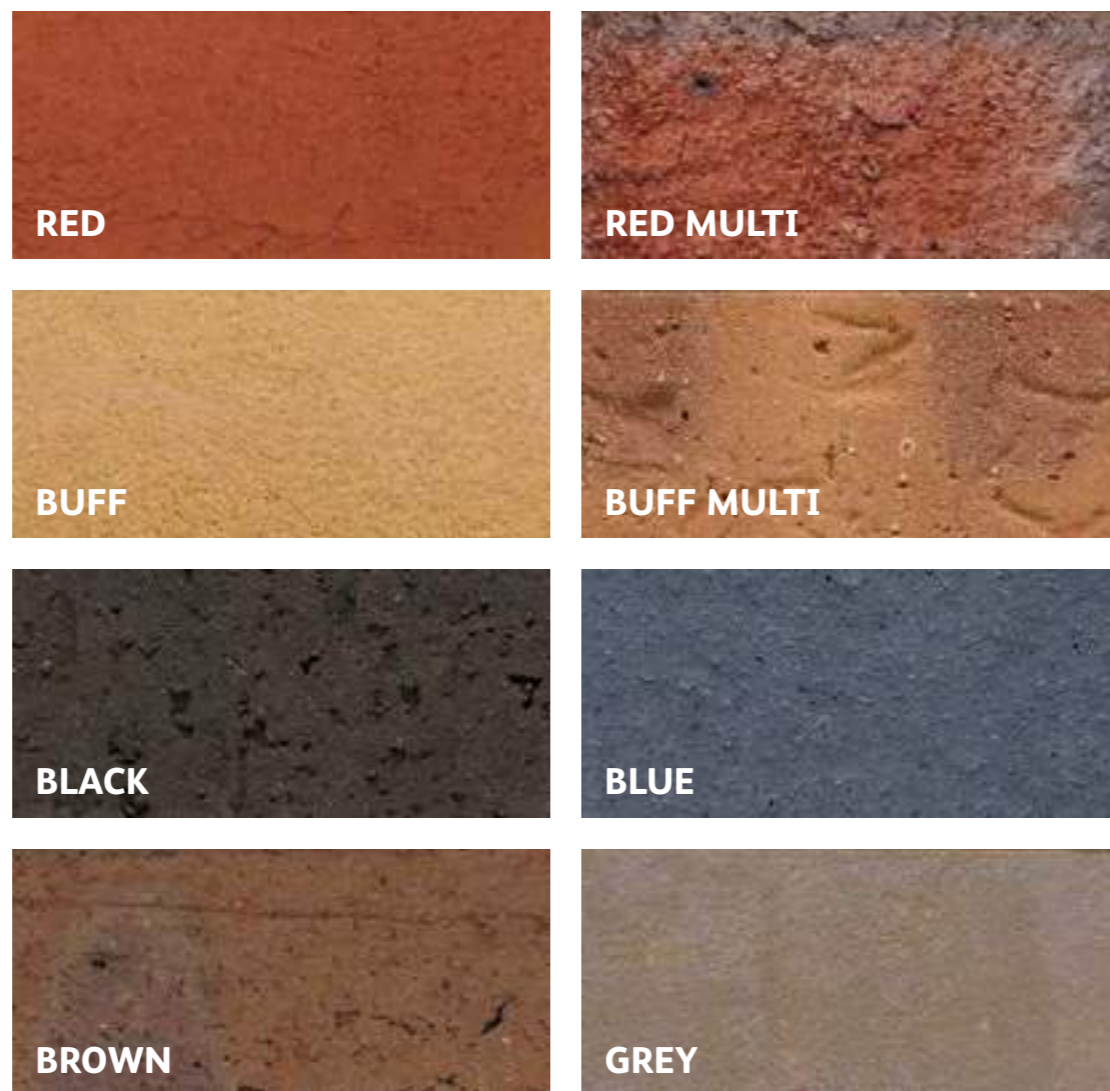

HOW TO CHOOSE THE RIGHT BRICK FOR YOU: COLOUR AND TEXTURE

Colours

There are eight basic body colours to choose from. We then add variations of darker and lighter shades to create a wider choice.

NOTE: Bricks are made from natural materials so colours will vary slightly from batch to batch.

1

Textures

Bricks are available in several textures. Identifying the texture of the brickwork you are matching to will help to narrow down your choices.

2

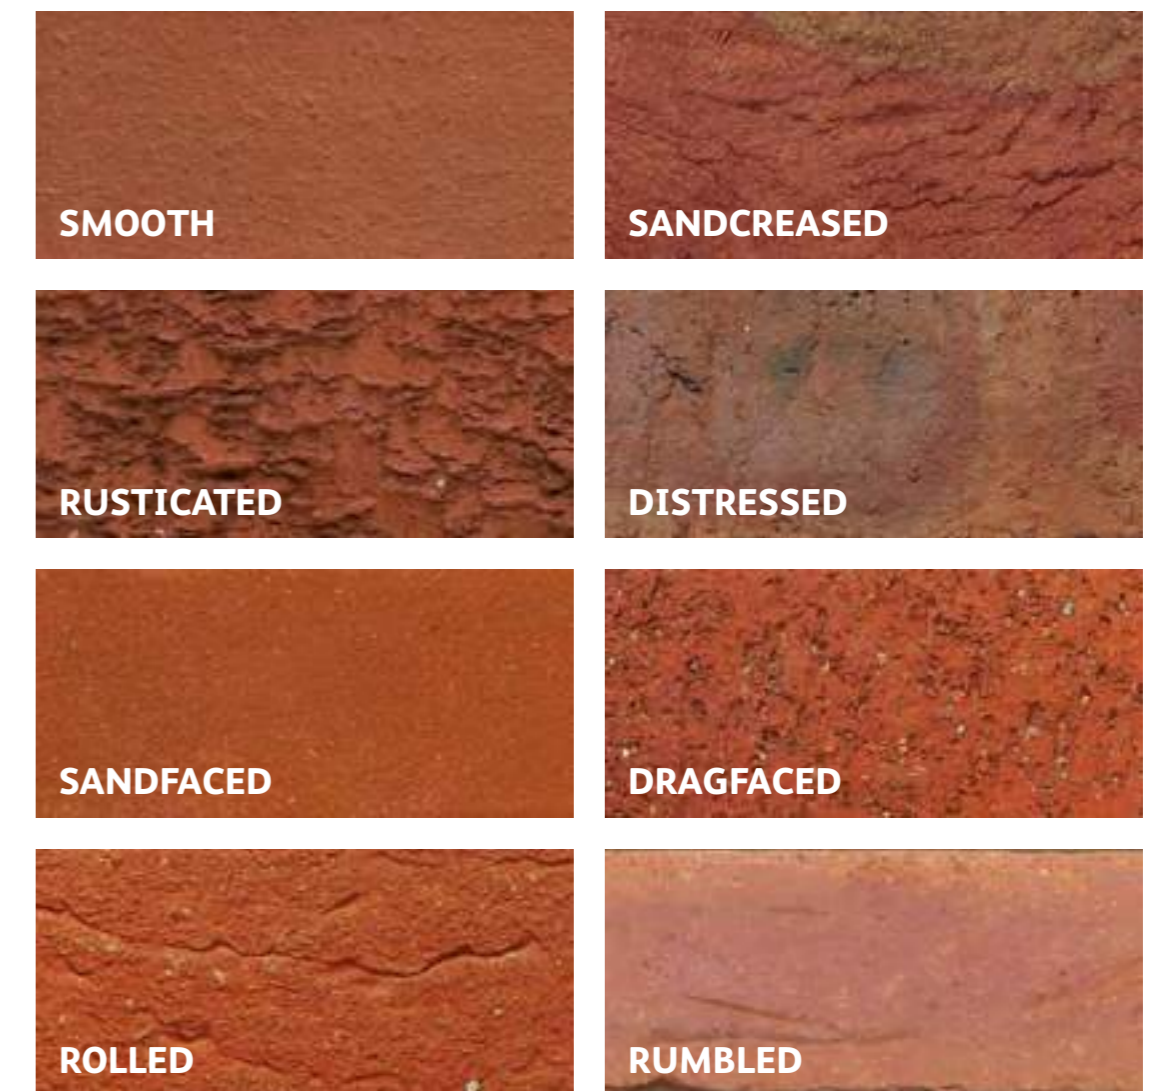

IMAGE: IVANHOE OLDE VILLAGE,
ALDERWOOD, PRESTBURY

COMMONLY USED JOINT PROFILES

Choosing the correct mortar joint profile

One of the factors that influence the long term performance of brickwork is the correct mortar joint profile for efficient shedding of rainwater.

MORTAR COLOURS

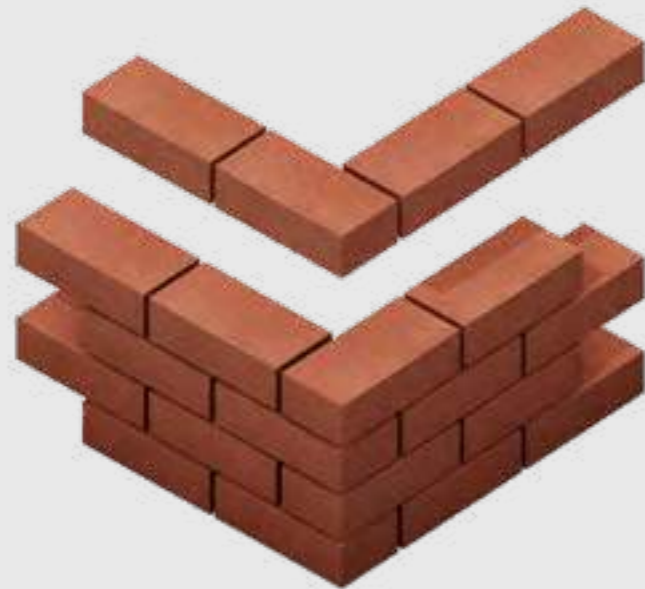

Consideration should be given to mortar colour, as this will influence the appearance of the completed brickwork. The mortar colour will help new brickwork blend in to existing brickwork, as the colour of the bricks can appear to change depending upon mortar colour. The bricks shown here are all the same colour, **only the mortar colour is different.**

IMAGE: MIX OF BIRTLEY OLDE ENGLISH BUFF & WHITE ENGOBE, STUDENT ACCOMMODATION, MAYNOOTH UNIVERSITY, IRELAND

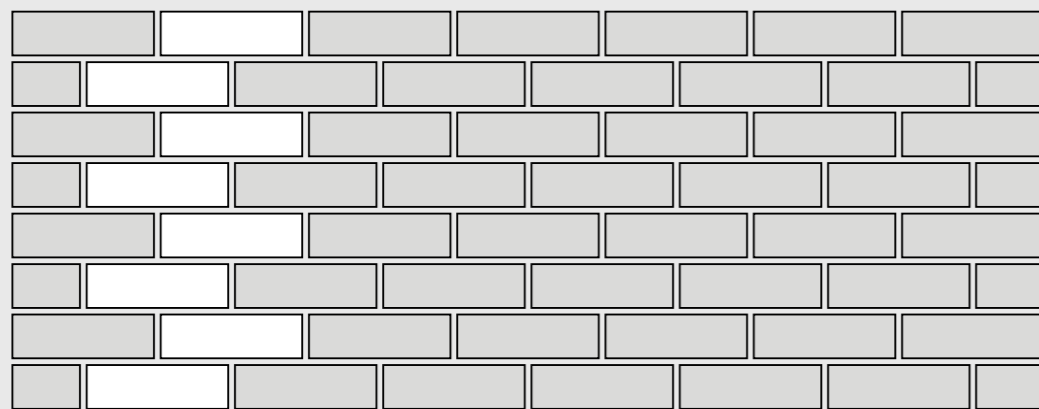

BRICKWORK BONDING PATTERNS

Bonding in brickwork refers to the pattern in which they are laid. They usually overlap between courses in order to distribute load and provide stability. Bonding can also be used for decorative purposes.

GOOD PRACTICE AND SAFE STORAGE FOR YOUR IBSTOCK BRICKS

1 Brick storage and protection

Bricks should be inspected on delivery. They should be unloaded directly onto a hard standing that is:

- ✓ Firm and level
- ✓ Well drained
- ✓ Puddle free

IMPORTANT!
ALWAYS COVER
OPEN PACKS

2 Mix bricks from THREE different packs to achieve a consistent appearance

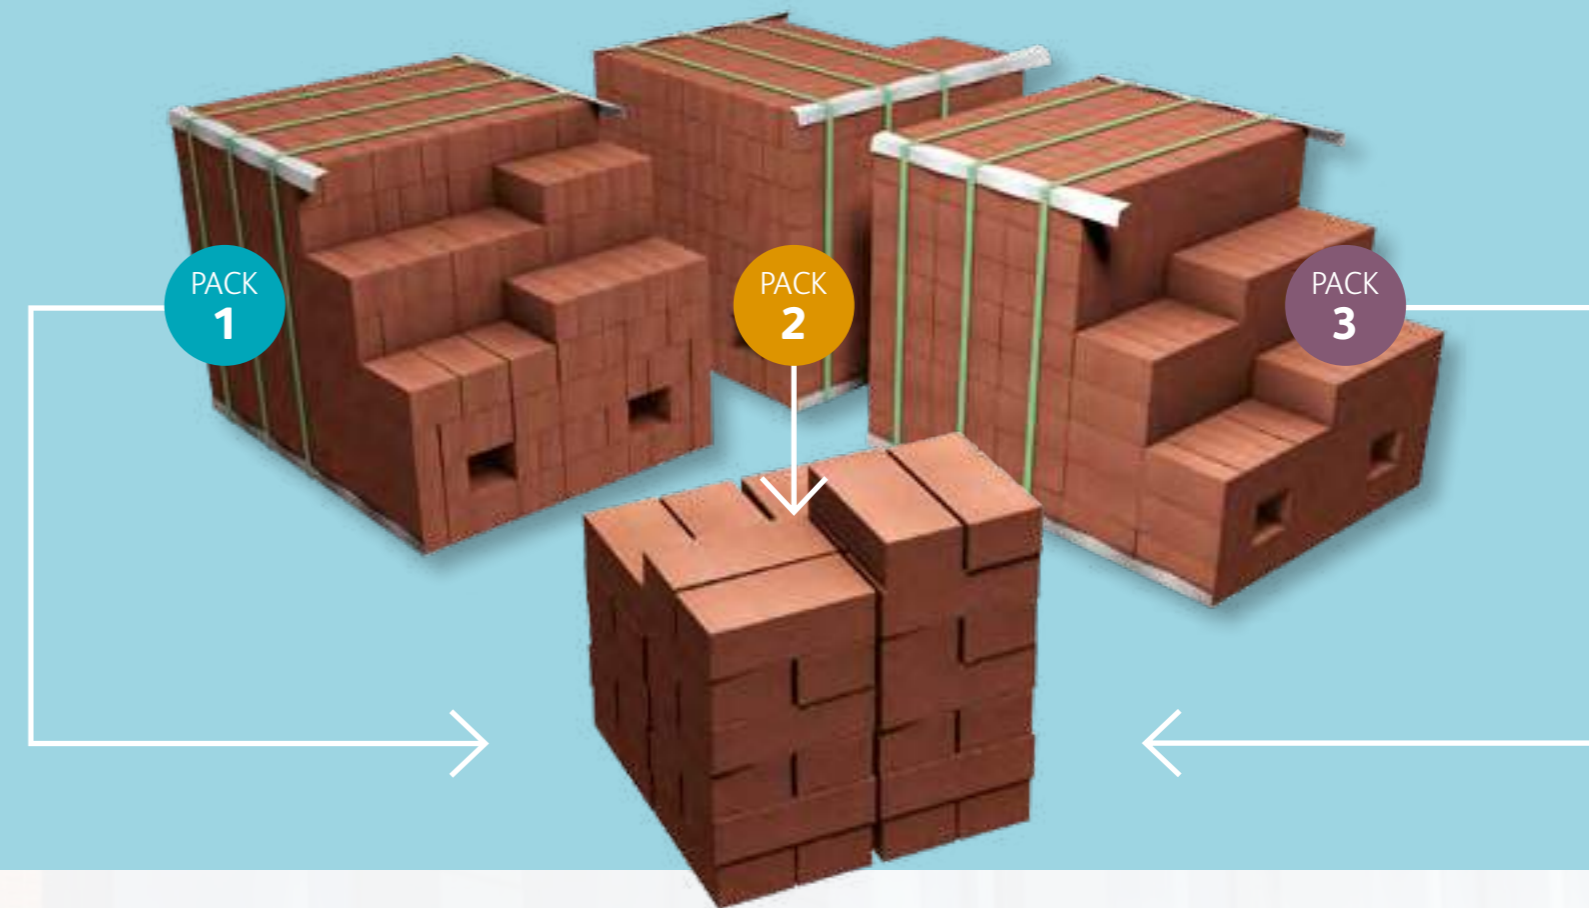

IMAGE: CHESTER RED BLEND,
OFFICES, SOVEREIGN STREET, LEEDS

GOOD PRACTICE AND SAFE STORAGE FOR YOUR IBSTOCK BRICKS

3

Protection of newly built brickwork

All walls must be covered when work stops. Rain on new work can cause:

- ✗ Colour change of mortar
- ✗ Lime stains
- ✗ Saturation
- ✗ Efflorescence

REMEMBER

- Cover your brickwork!
- In rain, snow and frost use a water resistant cover
- In dry weather, use hessian or a similar product

4

Design and technical advice

Design and technical teams offer advice on the performance and properties of all products within the Brick Selector including British Standards and Codes of Practice.

Our team of Design Advisors can offer creative and cost-effective solutions to any design project. Quality assured to ISO 9001, they can offer practical advice on a diverse range of issues including movement joints, brick and mortar specification through to architectural details involving special shapes.

FOR MORE INFORMATION AND ADVICE VISIT
www.ibstockbrick.co.uk/literature

DESIGN AND TECHNICAL SERVICES

We are committed to providing the best possible design and technical support to our customers.

From expert advice to a sector-leading training and CPD provision, Istock's range of Design & Technical services have been especially configured to ensure architects and specifiers have access to the **support** they need at every stage of their project journey – from Concept to Build.

Our design and technical offering comprises a range of services designed to provide complete, **end-to-end** support throughout the project lifecycle.

TRADESMAN®

TRADITIONAL FINISHES FOR THE MODERN BUILDER

The UK's historic housing stock has been built with bricks made from distinctive Lower Oxfordshire Clay, and our Tradesman® Range has been meticulously designed to blend in with these bricks.

Made to exacting standards, the whole Tradesman Range is **rated F2** and therefore has a **superior durability**, along with a **high compressive strength** and **low water absorption**. This means they can be used with confidence in almost all settings and can handle the **harshest weather conditions**.

OFFERING SUPERIOR **DURABILITY AND STRENGTH**

A brick range that delivers a perfect match

Matching with extensions and refurbishments, along with new builds and boundary walls is made simple due to excellent consistency of both **colour** and **texture**, along with ease of laying, and **minimal waste**.

TRADESMAN[®]

WHY USE THE IBSTOCK BRICK TRADESMAN[®] RANGE?

1

Price

All products are competitively priced enabling our customers to compete on every project without compromising quality.

2

Durability

All products are rated F2, ensuring that they can be used in any application without fear of damage from extreme weather.

3

Range

Replicating traditional aesthetics, the Tradesman range provides high quality modern solutions for traditional builds.

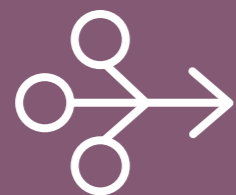

TRADESMAN®

TRADITIONAL FINISHES FOR THE MODERN BUILDER

4

Mixed loads

The Tradesman range can be conveniently mixed to make up a full load, making stocking easier for merchants with less yard space.

5

Product Consistency

Consistent colour, texture and quality, giving customers greater confidence in the long term, both for depot stock and sites.

6

Low breakages

With very few breakages across the entire Tradesman range, this saves our customers money with wasted products.

TRADESMAN®

TRADITIONAL FINISHES FOR THE MODERN BUILDER

7

Special shapes

Ibstock Kevington's Cut & Bond service ensures customers can offer solutions where a non-standard brick type or size is required.

8

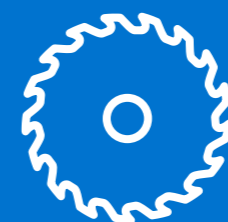

Support

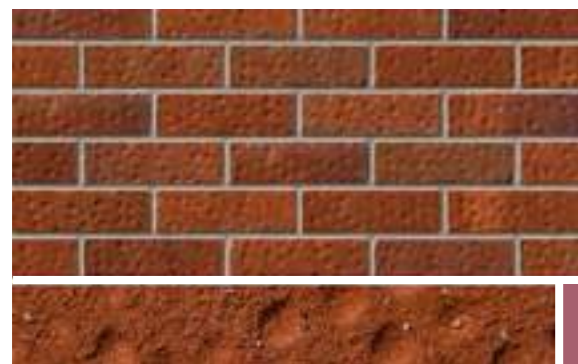

Range supported by samples, literature and it's own website – customers have the support they need to promote the products.

9

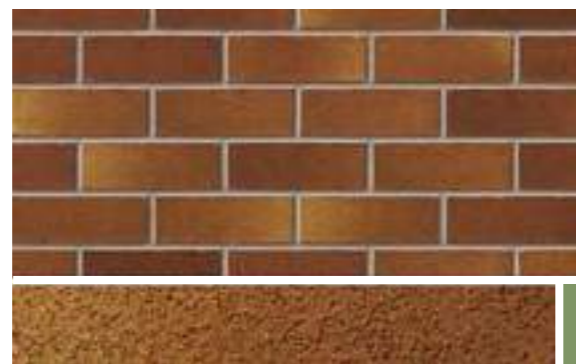

Perforations

Product perforations make the product easier to lay and cut when required – ensuring projects can progress quickly.

KEVINGTON PRODUCTS

FASTSTACK CHIMNEYS

Ibstock's Faststack Chimneys offer a market leading, high performance, safe and beautiful alternative to traditionally constructed chimneys.

Ibstock Kevington was the first to gain **BBA Certification** for its brick-clad chimneys, giving you total confidence for in **excess of 25 years**.

ibstockbrick.co.uk/kevington

FASTSTACK CHIMNEYS TIME SAVING CHIMNEY BUILDING

Easy installation

- ✓ Can be used on timber frame buildings where traditionally constructed chimneys cannot
- ✓ Stainless steel lifting sockets and certified loops
- ✓ No descending stack to consume valuable room space

Design flexibility

- ✓ Available as both fully working or decorative chimneys
- ✓ Range of clay pots available
- ✓ Available in a wide range of finishes including brick, stone and render
- ✓ Bespoke options available
- ✓ Flashing styles including stepped can be accommodated

High quality

- ✓ Marine grade one piece GRP
- ✓ Fully waterproof sealed units
- ✓ Integrated flashing channel
- ✓ All fixings and high quality PU lead coloured sealant supplied

Approved by NHBC

Endorsed by BBA

Quality assured

We also offer a range of chimneys specifically for developers. [Click here for more information.](#)

HYPERLITE ARCHES

Ibstock's Hyperlite is a revolutionary, outstandingly light, arch system which allows quick and simple arch construction with minimal skills.

Arches are a **traditional feature** of brickwork over openings and can vary from the simple flat arch detail to the highly decorative.

ibstockbrick.co.uk/kevington

HYPERLITE ARCHES OUTSTANDINGLY LIGHT, REMARKABLY QUICK

CONSTRUCTED USING A HIGH TECH BACKING MATERIAL THIS SYSTEM ALSO INCORPORATES 20MM BRICK ARCH SLIPS WHICH ARE BONDED TO THE FACE TO FINISH. POINTED ON THE GROUND AND USED IN CONJUNCTION WITH A STANDARD STEEL CAVITY LINTEL.

They have a compressive strength in excess of 13.0N/mm². The Hyperlite arch can be produced in one piece to a maximum 2000mm span and can be sectionalised to any length. Maximum 20mm fair faced soffit.

ECOHABITAT RANGE

Our EcoHabitats help to encourage safe spaces for specific wildlife, allowing them to live in harmony with people.

We are passionate about supporting increased biodiversity wherever our products are used. Our range of EcoHabitat products are a great complement to any project, and can help satisfy **Special Environmental Needs** – now commonly a requirement of the planning process.

AT THE FOREFRONT OF CONCRETE BUILDING PRODUCTS

Ibstock Concrete comprises of the Forticrete, Supreme, Anderton and Longley concrete brands, covering a range of products including; fencing, roofing, flooring and rail solutions.

Ibstock is a leading manufacturer and supplier of **concrete building products** to customers in the UK residential construction sector.

For more information on the full range of products and services offered by Ibstock Concrete, which includes the Forticrete, Supreme, Anderton and Longley brands, please visit: www.ibstockplc.co.uk

Rail solutions

- ✓ Widest range of complementary precast products into the UK Rail Industry
- ✓ Lightweight and fire-resistant cable troughing systems, signal bases, ballast boards, posts and more
- ✓ Manufactured in the UK – Network Rail approved.

Fence posts

- ✓ Strong and durable
- ✓ Smooth surface finish
- ✓ Pyramid at one end and a bobble top at the other, giving the option of which is visible on the finished fence.

Roof tiles

- ✓ Durable and lightweight
- ✓ Authentic appearance and affordable
- ✓ Innovative **SL8** and **PAN8** roof tiles boast superior coverage whilst **Gemini** gives the appearance of traditional plain tiles.

Floor beams

- ✓ Highly practical solution
- ✓ For ground and upper floors
- ✓ Quick and easy to install in all weather conditions without the need for special skills.

Cast Stone

- ✓ Wide range of standard profiles of semi-dry cast stone products which replicate the traditions of natural stone
- ✓ No compromise to aesthetic appeal
- ✓ Unrivalled quality.

IBSTOCK BRICK'S COMMITMENT TO QUALITY

Ibstock Registered Firms – The first Quality Assurance Scheme in the industry, operating in accordance with BS EN ISO 9001 to be awarded Registered Firm Status for the design and the manufacture of bricks, pavers and special shapes.

IBSTOCK BRICK'S COMMITMENT TO THE ENVIRONMENT

In being the first UK brick manufacturer to achieve ISO 14001, the internationally recognised standard for all production sites and fully embracing the Government's strategy for sustainability, Ibstock Brick leads the way in demonstrating environmental responsibility. Ibstock Brick's commitment to responsible sourcing is demonstrated through their accreditation to BES 6001.

ABOUT THIS PUBLICATION

Although the instructions contained in this publication and any other information published by Ibstock are believed to be accurate at the date of publication, they are strictly for guidance only and (the Company) accepts no liability in relation to their use or for any losses, howsoever caused. You are responsible for taking all reasonable steps to ensure your use of the goods/products conforms to all applicable health and safety requirements from time to time. If in doubt, please consult appropriately qualified persons. All products sold by Ibstock Brick are sold subject to Ibstock Brick's Terms and Conditions of Sale, a copy of which is available on request.

The product photographs represent as accurately as possible, within the limitations of photography and printing, the colour of a representative sample of this range of products. However, Ibstock does not warrant that all bricks produced in this range will match exactly the colours reproduced in this brochure. View CE marking information at www.ibstock-ca.co.uk
