Build your career with Ibstock plc

Building the face of Britain for over 200 years.
- Ibstock plc -

Ibstock Plc (the Group) is the UK's leading manufacturer of clay and concrete building products and solutions to the UK construction industry.

With 37 factory locations across the UK, the Group specialise in products and systems for the residential building envelope and infrastructure markets - building the face of Britain for over 200 years, at the heart of building.

Joe Hudson
CHIEF EXECUTIVE OFFICER
AT IBSTOCK PLC

"I am incredibly proud of our long standing, award-winning Apprenticeship programme here at Ibstock plc. With a proud heritage that dates back over 200 years, we have exciting times ahead in our industry, as we help people to live and work better for generations to come."

I would definitely recommend an Apprenticeship with Ibstock as the support from the staff is amazing.
- Max -

It's a great way to gain experience and opens up many opportunities once you have completed your time.
- Jayden -

Our Apprentice testimonials

Max

CUSTOMER SERVICE APPRENTICE

"So far on my Apprenticeship I have loved my time here and have been made to feel welcome by all my colleagues. I personally enjoy learning from other colleagues including placing orders and processing samples. The reason I chose an Apprenticeship with Ibstock is there is lots of scope to work my way up with the business and to learn new things along the way. I would definitely recommend an Apprenticeship with Ibstock as the support from the staff is amazing."

Jayden

MANUFACTURING MANAGEMENT TRAINEE

"I chose an Apprenticeship because I wanted to learn both the theory and practical parts of the job. Gaining the hands on experience has allowed me to learn parts of the job quickly and helped me to become more confident in the tasks I will complete after my Apprenticeship. I have really enjoyed doing my Apprenticeship and am glad that was the pathway I chose. The thing I have most enjoyed is being given the responsibility to run the lab here at Throckley Factory. Being chosen as Apprentice of the Year is a massive achievement and I am proud of myself for this. It's nice to be recognised for the hard work that I have put into my Apprenticeship over the past few years. I would recommend an Apprenticeship to anyone, it's a great way to gain experience and opens up many opportunities once you have completed your time."

Our Apprentice testimonials

Danny

AUTOMATION AND CONTROLS SYSTEM ENGINEER

"I chose Ibstock as I could tell by the Apprenticeship scheme they were offering that they were very focussed and willing to invest in securing the future generation of engineers. After completing a 4-year Apprenticeship programme, I took the position of Group Automation and Control System Engineer. My day-to-day activities can be anything from working on machinery breakdowns to supporting on large scale investment projects."

Alicia

PROCUREMENT APPRENTICE

"My typical day consists of a variety of jobs, such as speaking to the factories to make sure suppliers are meeting our business requirements and obtaining the data for potential tenders. Since being here at Ibstock I have developed my communication and organisational skills, learnt how to build relationships with suppliers, and how to carry out data analysis. It's such a friendly environment and you've got support throughout the business."

Ziaur

APPRENTICE ENGINEERING OPERATIVE

"I didn't really want to go to University, I wanted real work experience. I'm getting hands on experience, sometimes mechanical, sometimes electrical, and I'm learning by doing rather than reading from a textbook. My long-term goal is leading a team of Apprentices."

Ibstock are very focused and willing to invest in securing the future generation of engineers.
- Danny -

It's such a friendly environment and you've got support throughout the business.
- Alicia -

I'm learning by doing rather than reading from a textbook. My long-term goal is leading a team of Apprentices.
