Swapped DIY Planter

Eco tips!

Reuse plastic bottles to make planters and other crafts!

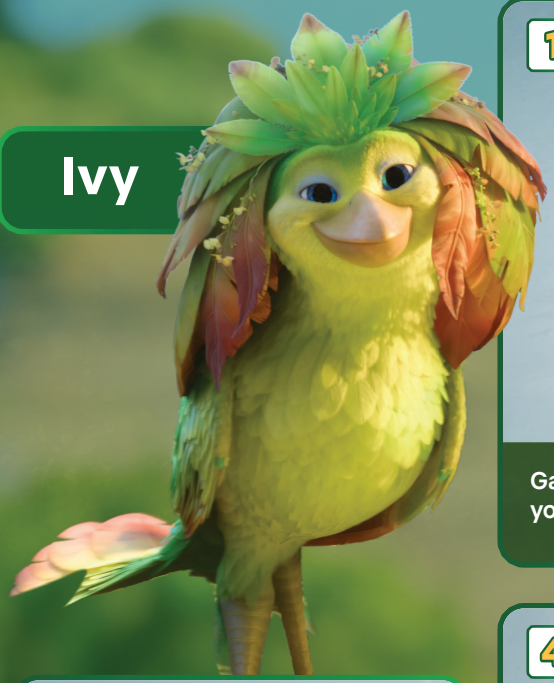

Supplies:

- [ ] Scissors
- [ ] Acrylic paint
- [ ] Paint brush
- [ ] Plastic bottle
- [ ] Marker
- [ ] Hot glue (low-temp)

Have an adult help with this project

Ivy

1

Gather your supplies! Make sure your bottle is clean and dry.

2

Look at your bottle and imagine the bird it could become. Use a marker to draw the bird's head shape and map out where you will cut. Cut along the perimeter.

3

Poke a few small holes in the bottom so water can drain out. Save any larger scraps you cut away.

TIP:
For poking holes, use the tip of a hot glue gun

4

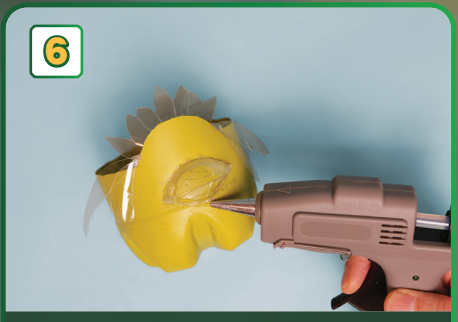

Paint a base coat. Apply two coats of paint, letting each coat dry before adding the next.

5

Use your plastic scraps to cut simple bird features, like a beak or feathers. Bend or shape the pieces however you like.

6

Using the lowest temperature setting, hot glue the features onto your bird.

7

Paint the eyes, beak, and feathers, and add any other decorations you want.

8

Once dry, fill with soil, add your plant or seeds, and water lightly. Set it in a sunny spot to grow.
