MEDICATIONS TAKEN:  None							
MEDICATIONS GIVEN:  Recommend ibuprofen or aspirin for pain to be taken as directed on bottle.							
HISTORY & PHYSICAL FINDINGS:  Saw Patient on 7/23/XX at 2235 hr. Patient upset and had been crying. Pt. states that her husband, Samuel Griffith, attacked her. Pt. states, "He grabbed me with both hands on my neck and squeezed hard." Pt says that she begged him to stop and he kept yelling at her that she should stop "bitching about how he spent." She reports "felt dizzy and thought I was going to pass out." She said that "once before he slapped me in the face when we argued about money." Pt states that husband finally stopped strangling her. Husband told her: "I'll kill you if she ever tell anyone I abused you in any way." Husband left and Pt went to neighbor Levi's house. Pt's complaint is that her "throat really hurts." Examined neck and slight erythema (too minor to photograph). But no lesions and palpation yields no sign of serious injury. Pt's voice is hoarse and she states, "It's difficult to swallow." Sent Pt for X-ray.							
TREATMENT & ORDERS:  Further spoke with Pt. Asked her to contact Ruston PD and report the domestic violence. Pt. refuses. She states that her husband will calm down.  X-ray returned and no sign of injury. Advised Pt again to call police. Told her that she would likely show bruising and to call if pain persists after 3 or 4 days.
