ON THE COVER: **Artwork by Sam DeCarlo**
Instagram: **@sgdecarlo**

Chicago-based artist Samantha DeCarlo employs acrylic and oil to create captivating works inspired by nature's textures and colors. Drawing from Chuck Close's pixelated style, her self-portrait is composed of 192 two-inch boxes, each individually painted using diverse media like Blickrylic paint, various modeling pastes, stencils, and sand, as well as tools such as forks, spoons, and palette knives. Each box stands as a mini painting, but together, they reveal a striking portrait of the artist, reflecting her innovative approach to mixed media.

OUR TEMPERA PAINT CARE & STORAGE TIPS

Tempera paints and poster paints that are intended for children and classroom use often contain organic binders that are subject to spoilage and degradation if not used or stored properly or used within the recommended period of time. While a slight odor is natural, a strong, very unpleasant odor indicates the paint has spoiled. It should be discarded.

Proper Storage:

- Store paint in a cool, dry place.
- Extreme temperatures (above 90°F or below 32°F) can harm the paint.
- **Remove** the cardboard piece from the lid when storing, especially in hot or humid conditions.
- Date and rotate paint stock, using the oldest first.
- Open paint containers should be used within six months. Use unopened paint containers within two years.
- If paint is near its shelf life when opened, use it promptly.

Prevent Contamination:

- Portion paint into smaller, resealable containers as needed.
- Avoid working directly from the original product container. Do not place brushes, hands, used pumps, used paint, or different types of paint in the original container.
- Do not dilute paint in the original container.
- Use clean utensils when handling paint.
- Tightly seal the cap between uses.

See pages 84-85 for paint storage containers

Reductive Weaving inspired by Lenore Tawney

Grades 5-12

Reverse the weaving process! Remove select fibers to create negative spaces as important as the fibers themselves.

Lenore Tawney was a groundbreaking artist who pioneered an unconventional, "open warp" approach to weaving. With her work as inspiration, this lesson teaches the non-traditional process of deconstructing areas without unraveling and re-designing a solid piece of burlap using a balance of positive and negative spaces.

Materials Include

Brightly Colored Burlap, assorted colors, 46" x 1-yd (63202-)

Blick Artists' Fluid Acrylics, assorted colors, 6.76 oz (09422-)

Hemptique Hemp Cord Spools, assorted colors, 205-ft, 0.5mm (63830-)

Creativity Street Wood Beads, assorted colors, 1 lb pkg (80937-1001)

Over and Over the Edge

Grades K-5

Repeating lines create patterns and a variety of colors with the help of an ordinary wet wipe.

Blick Essentials Tempera Paint Sticks have bright, bold colors that dry quickly and easily "smear" from the edge of a stencil using a wet wipe. Watch new colors appear through layers of transparent paint. The best part? No brushes, no drips, no mess!

Materials Include

Blick Essentials Tempera Paint Stick Sets, assorted colors (00130-)

Pacon Art1st Mixed Media Paper, 80-lb, 12" x 18", pkg of 500 sheets (09701-1006)

Blick White Sulphite Drawing Paper, 60-lb, 12" x 18", pkg of 100 sheets (10209-1007)

Wet Wipes

Wire and Watercolor Forms

Grades 5-12

Learn how a line becomes a shape that transitions to a form in this simple abstract sculpture lesson.

Developing sculptors will be able to grasp concepts of 3D art when they bend wires into lines, twist them into shapes, then cover them with paper to make forms. This process takes advantage of the starch found in rice paper to make crisp, rigid, paintable paper sculpture.

Materials Include

Aitoh Hanshi Paper, 9.5" x 13.25", 7-lb, pkg of 100 sheets (09658-1001)

Blick Armature and Sculpture Wire, 12-guage, 350-ft spool (33401-1014)

Blick Liquid Watercolor, 8-oz bottles, assorted colors including metallics (00369-)

DIY Art Stencils

Grades 3-12

Design unique tools for fast, repetitive printing and pattern-making.

Create repeating patterns in artwork, on journal pages, and as fabric or surface design using a stencil styled from your own hand. Fashioned with gel medium, these stencils can be used with acrylics, acrylic inks, gel printmaking, spray application, texture rubbing techniques, and more.

Materials Include

Blickrylic Gel Medium, quart (00711-1007)

Blick Scholastic White Stencil Brush, 1/2" (05691-4012)

Detailer Writers, pkg of 6 bottles (32929-1009)

Artful Aerodynamics

STEAM Grades 5-12

The combination of lift and drag that makes kites fly also makes designers' minds soar.

Humans spent centuries dreaming and envying the capabilities of birds before flight took place. From the first tethered flights in ancient Asian cultures, to the machines imagined by Leonardo Da Vinci, to the Wright brother's first manned flight – kites have been built as a means of lifting the imagination into the sky.

The variety of kites is nearly endless – but they all function with the same forces. Learn the science that makes a kite fly, prepare a design that represents your own creative spirit, then build and launch an artistic kite!

Materials Include

Creativity Street Wooden Dowel Rods, package of 12, 1/4" dia, 36" long (60448-1436)

Midwest Products Genuine Basswood Strips, 36 pieces, 5/32" x 5/32", 24" long (33300-2532)

P.L. Butte Round Reed, #3 Round Reed, 1/8" x 750 ft (83312-1003)

Blick Colored Tissue, 100 sheets, assortment of 20 colors, 20" x 30" (11308-1003)

Black Ink Thai Unryu Papers, assorted colors , 25 gsm, 25" x 37" (11234-)

Nature Mâché Mash Up

ECO friendly Grades 3-12

Explore texture and form in this fusion of papier mâché, natural elements, and weaving.

Blick's Mix Instant Papier Mâché offers all the properties of traditional papier mâché, without the mess and hassle of preparation. The clay-like pulp is sculpted over a mold. Then, while still wet, natural elements such as dried flowers and bark are pressed into the surface. Twigs and reed, anchored into the papier mâché, lend a dramatic sculptural element, and provide a base for weaving.

Materials Include

Blick's Mix Instant Papier Mâché, 5 lb (33102-1005)

Mayco Slump and Hump Molds, Circle Mold, 5 3/4" Diameter x 2 1/4"High (30391-1030)

P.L. Butte Round Reed, assorted sizes (83312-)

Blickrylic Polymer Gloss Medium, 32 oz (00711-1027)

Black Ink Egyptian Papyrus Papers, assorted colors and sizes, (11239-)

Inner Space Books

Grades 5-12

This sculptural art book reveals "rooms" that express the inner being.

Carousel book binding is an amalgamation of the accordion book and a pop-up book. It might look like any other book from the outside, but open one up to discover the pages form three-dimensional panoramic scenes. Each page is like a miniature stage set, and all four pages come together to tell a larger story.

Just like the carousel book we all have inner "rooms", filled with interests, dreams, and aspirations. In this lesson, students depict different aspects of themselves on stage-like pages that read as a visual biography.

Materials Include

- **Blick All-Media Paper,** 22" x 30" (10210-1003)
- **Bic Intensity Permanent Markers,** set of 36 (22165-1036)
- **Staedtler Double-Ended Watercolor Brush Pen,** set of 36 (82357-1369)
- **Blick Studio Artists' Colored Pencils,** set of 36 (22063-0369)
- **Decorative Paper Assortments,** 1 lb (12440-1001)

Printed Sculpey Silhouettes

Grades 5-12

Design a wall plaque featuring a profile of great significance – yours!

Design a self-portrait in silhouette. Make a photocopy of the image, using an inkjet printer. Cut the image out, leaving as little white paper as possible. Roll out Sculpey clay, and press the image, ink side down into the clay. Spray the backside of the paper with water, and gently rub, until all of the paper pulp has been removed, and the image transfer is revealed.

Materials Include

- **Sculpey Premo,** assorted colors and sizes (33920-)
- **Sculpey Tools Classroom Pack** (84321-1000)
- **Sculpey Tools Dual End Detail Tools,** set of 3 (34208-1003)
- **Sculpey Glaze,** gloss, 1 oz (33218-1013)

BLICKRYLIC mixing colors

Great for teaching color theory!

Blickrylic® Student Acrylics

A true acrylic paint, priced for the budget-minded. Extremely pourable and non-toxic, versatile Blickrylic is great for an unlimited range of projects. Brighten up artwork on paper, canvas, wood, and cardboard — you can even use it on T-shirts when properly heat-set with an iron. It's mixable with other brands of acrylic and dries quickly to a permanent, waterproof, semi-gloss finish. Caution: Blickrylic will stain clothing if not washed out immediately. **Colors can be assorted for quantity pricing.**

LIQUITEX®

Liquitex® Basics®

Developed for students and artists who require dependable quality at an economical price, each color is uniquely formulated to bring out the maximum brilliance and clarity of the individual pigment. These acrylics have a buttery consistency for easy blending, a medium viscosity, and are made with lightfast fine art pigments. They dry to a satin finish, eliminating surface glare. Great for a variety of techniques, including watercolor, airbrush, and printmaking, sketching and underpainting, color theory, and mixed media. When dry, these acrylics are permanent, water-resistant, and flexible. Non-toxic. For more sizes and sets, visit DickBlick.com. **Colors can be assorted for quantity pricing.**

Utrecht® Artists' Acrylic Colors

Among the first to develop and produce artists' acrylics, Utrecht has been making these professional-quality paints in Brooklyn, New York, since the late 1950s. Skilled craftspeople use only the finest pigments to create each and every color. The heavy-bodied paints offer excellent tinting strength, superior intensity and opacity, a buttery texture, and outstanding lightfastness. **Colors can be assorted for quantity pricing.**

GOLDEN®

Golden® High Flow Acrylics

Incredibly flexible, Golden High Flow Acrylics have an ink-like consistency that lends itself to a wide range of techniques — painting, drawing, staining, glazing, inking, hand-lettering, spraying, and more. They move effortlessly from airbrush to dip pen, from paintbrush to refillable marker, and from fine line detail to broad strokes. Offered in a palette of 49 colors, including four iridescents and five fluorescents, they are fully compatible with Golden Heavy Body, Fluid, and Open Acrylics as well as Golden Mediums.

Royal Talens® Cobra™ Study Water Mixable Oil Colours

Cobra Study Oils can be applied using all the usual oil painting techniques, yet they require no solvents and clean up with soap and water. They perform in the same way as traditional oil paints, and provide great results with a uniform drying time. Rated with the highest degree of lightfastness, colors will remain unchanged for at least 100 years under museum conditions.

Utrecht mediums

A Utrecht® Linseed Oil
Mix this alkali-refined linseed oil with oil colors to give them a more transparent, fluid consistency and extend their drying time (useful for wet-in-wet techniques).

NUMBER	SIZE	EACH
A01765-1096	16 OZ (473 ML)	$14.55

B Utrecht® Safflower Oil
Naturally neutral in color, Utrecht Safflower Oil is a good vehicle for painting with whites and transparent colors. It has less of a tendency to yellow over time than linseed oil.

NUMBER	SIZE	EACH
A01765-1166	16 oz (473 ml)	$15.10

C Utrecht® Stand Oil
Use instead of linseed oil for a smooth, enamel-like finish with less visible brushwork. Non-yellowing and 100% pure.

NUMBER	SIZE	EACH
A01765-1176	16 OZ (473 ML)	$11.90

Utrecht® Oil Painting Medium

Utrecht's exclusive blend of damar gum, linseed oil, and artist's pure gum turpentine makes oil colors more fluid, enhances their gloss level, and increases their brilliance. Paint dries to a more flexible and durable film. A great general-purpose medium.

NUMBER	SIZE	EACH
A01765-1125	8 oz (237 ml)	$17.81

Gamblin® Cold Wax Medium
This soft paste formulated to knife consistency is used to make oil colors thicker and more matte. It can be thinned with mineral spirits to brush consistency.

NUMBER	SIZE	EACH
A00456-1006	16.9 oz (500 ml)	$34.99
A00456-1014	4 oz (118 ml)	12.43
A00456-1019	Gallon (3.78 Liter)	163.78

Gamblin® Galkyd Medium

An alkyd resin painting medium that increases the fluidity of oil colors and speeds their drying time. Viscosity is similar to traditional painting mediums made from linseed stand oil. It levels brushstrokes, creates a strong flexible paint film, and leaves an enamel-like glossy finish. Glass bottles.

Galkyd Medium

NUMBER	SIZE	EACH
A00456-1106	16.9 oz (500 ml)	$35.55
A00456-1007	33.8 oz (1 Liter)	59.99
A00456-1015	8.5 oz (250 ml)	20.25

Galkyd Lite

NUMBER	SIZE	EACH
A00456-1116	16.9 oz (500 ml)	$35.55
A00456-1304	4.2 oz (125 ml)	13.46
A00456-1005	8.5 oz (250 ml)	20.25

Blick Studio® Linseed Oil

Pressed from top-quality flax seeds, this oil contains no free mineral acids. Mix it with oil and alkyd colors for smoother color application and better blending. Or combine it with turpentine or mineral spirits to create your own custom painting mediums. Use it full strength to remove oil paint from brushes. Made with certified non-toxic raw materials.

NUMBER	SIZE	EACH
A01566-1060	16 oz (473 ml)	$18.24
A01566-1050	8 oz (237 ml)	12.92

Blick Studio® Damar Varnish

Made from high-quality natural resins, this varnish provides surface protection for oil and alkyd paintings by preventing dust and airborne contaminants from adhering. The high-gloss finish increases color brilliance. Removable with turpentine.

NUMBER	SIZE	EACH
A01566-1010	8 oz (237 ml)	$18.14

Blick Studio® Quick Glaze

A soft, translucent gel that thins and extends colors and speeds drying time. Ideal for glazing and underpainting, it dries to a durable, flexible film that resists yellowing.

NUMBER	SIZE	EACH
A01566-1040	16 oz (473 ml)	$26.15
A01566-1030	8 oz (237 ml)	20.55

Dorland's Wax Medium

Dorland's adds translucency to oil paints, making them more brilliant. It may also be used as a final coat on dry paintings, metal sculpture, wood carvings, and antiques. May be buffed to a gloss finish. Thins with turpentine.

NUMBER	SIZE	EACH
A00428-1016	16 oz (473 ml)	$28.90
A00428-1004	4 oz (118 ml)	11.53
A00428-1009	Gallon (3.78 Liter)	146.16

Gamblin® Solvent-Free Mediums

Available in Fluid or Gel. The Fluid Medium moderately speeds drying time. The Gel Medium gives colors more gloss, flow, and transparency. Both are non-toxic.

Solvent-Free Gel

NUMBER	SIZE	EACH
A00456-1023	1.25 oz (37 ml)	$6.77
A00456-1120	4.2 oz (124.20 ml)	13.46
A00456-1804	5 oz (150 ml)	22.54
A00456-1121	8.5 oz (251.37 ml)	20.25

Gamblin® Refined Linseed Oil

Pressed from American flax seeds and refined using an alkali process, this light, pure, low-acid oil is ideal for thinning oil colors and increasing brilliance and transparency.

NUMBER	SIZE	EACH
A00456-1206	16.9 oz (500 ml)	$24.66
A00456-1207	33.8 oz (1 L)	37.55

A00456-1205	8.5 oz (250 ml)	14.63

Gamblin® Galkyd Gel Medium
This gelled alkyd resin medium creates transparent impasto of approximately a quarter inch thick. Holds marks and brush strokes. Does not dry as fast as most gel mediums, and can be applied in multiple layers.

NUMBER	EACH
A00456-1024	$22.54

Krylon® Gallery Series™ UV Archival Varnish

Offers the highest UV protection available in a protective coating. Its non-yellowing formula protects against fading, dirt, moisture, and discoloration in artworks created using acrylic, oil, watercolor, pastel, and colored pencil. Removable for conservation purposes. 11 oz (311 g) cans.

NUMBER	DESCRIPTION	EACH	12/EA
A01743-2010	■ Gloss	$18.30	$16.47

Gamblin® Gamvar Varnish

Developed in collaboration with the National Gallery of Art, this gloss varnish saturates and provides greater depth to the colors in your painting and gives your work a unified and protective semi-gloss surface.

DYNASTY®

Dynasty® Faux Camel Watercolor Brushes

SHORT handle

Ideal for teaching students about physical health and emotional health while learning to paint with watercolors, these brushes are vegan, cruelty-free, and comprised of biodegradable components. The unpainted wood handles are sourced from FSC-managed forests, making them healthy for children and the planet. These brushes allow for teachable moments regarding allergens, chemical exposure from dyes and lacquer, and emotional health (no animals were hurt, the Earth was not hurt). Dynasty addresses these concerns with eco-friendly, cruelty-free synthetic camel hair. These unique watercolor brushes come in handy canisters for ease of distribution and storage in the classroom. Blick® Masterstroke® Wonder White Rounds — Series 2026 SHORT handle

Blick's Wonder White Taklon has a texture and responsiveness comparable to red sable, but with greater durability. The sharp point has good spring and is great for waterbased media (expect some staining of the filaments — it won't affect the performance of the brush, just the appearance).

BRUSHES FOR THE BEGINNING STUDENT

Brushes shown actual size, except brush sets.

A-D Blick® Economy Sable — LONG handle

Strength, spring ("snap"), and ability to retain its shape make sable a top painter's choice in virtually all media. Though priced for a student budget, our economy sable brush holds a point or edge well. The highly resilient, pure red sable hair is hand-cupped.

H-M Blick® Scholastic Wonder White LONG handle

Blick's white taklon delivers the texture and responsiveness of red sable, yet holds up to the caustic nature of solvents and acrylic paints with greater durability, making these brushes a must-have for the classroom. The sharp point has good spring; the selection of shapes and sizes means there's a Wonder White brush for every medium and application.

Colour Shapers™

Invented by artists for artists, Colour Shapers combine tradition with exciting new technology. The durable tips are made of an advanced rubber composite, ideal for carving back into oil or acrylic paint and creating surface effects. Don't worry — dried color just peels away! The soft ivory-colored tip is designed for responsiveness with fluid and soft colors, and the firm gray tip offers better control over heavy-bodied paints. All are encased in seamless nickel ferrules, attached to lacquered hardwood handles. Choose your size, shape, and firmness from the chart below, or try a sampler set of five.

Sakura® Koi® Water Brush

SHORT handle

This handy brush carries the water for you! Designed for easy transport and storage, the Koi Water Brush separates into two parts — a fine, flexible brush tip and a barrel handle with a plug. The comfortable grip is great for controlled blending, shading, and highlighting. All three sizes have a 9 ml water tank.

A-B Linzer™ Mini Paint Rollers

Great for getting into hard-to-reach areas and covering large areas quickly, Linzer Mini Paint Rollers work well for both general use and fine art applications. Choose foam for thin coats on smooth surfaces and high-touch areas. Choose microfiber for 3× paint-holding ability and a minimum of splatter on both smooth and semi-smooth surfaces. Both measure 4" wide and include a frame and handle.

D Blick® Gesso Brushes

SHORT handle

Pure white bristle with naturally flagged ends provides a smooth, continuous stroke for priming canvas, varnishing finished works, or employing glazing techniques. Permanently bonded in steel ferrules, so the bristles won't find their way into your painting. The short handles are lacquer-sealed to protect against moisture damage.

Blick Premier Cotton Canvas Now available in two stretching methods!

1. Back-Stapled
Back-stapled canvases are gallery-wrapped with uncut corners and generous selvage, which allows for future restretching on a larger frame if desired. Keys are included for tension adjustments over time.

2. Splined
Splined canvases have a rubber gasket that holds the fabric neatly in place. They hang tight to the wall and are often preferred by artists who display their work unframed.

Ampersand™ Value Series Artist Panels — Unprimed Basswood

This panel is handcrafted using a thick, non-flexible basswood top, sanded perfectly smooth. It's ready to seal and prime with the ground of your choice. The fine, uniform characteristics of basswood offer a better, imperfection-free surface. Thick and durable, this panel gives you superior stability. It won't flex, even with heavy paint and wax layers. The cradle is crafted from solid pine that can be finished with paint or stain.

Ampersand™ Value Series Artist Panels — Primed Canvas Texture

A great introduction to panel painting, this ready-to-use panel features a 1/8" (3 mm) MDF surface coated with premium acrylic gesso, applied to simulate a canvas texture. This canvas-like tooth provides a bit of brush drag for superb control, and results in brighter, truer-looking colors. Flat panels have a built-in hanging hole. Cradled panels are braced by strong, stable birch plywood. Excellent for palette-knife painting, mixed media, and more.

Ampersand™ Aquabord™

This textured clay surface absorbs watercolors like a fine paper, but with significant advantages. This unique surface can never be overworked and it will not tear, shrink, or buckle even under heavy water application like regular papers. Lift, change, and reapply colors endlessly. Aquabord can be gently rinsed off and then used a second time if needed. Spray finished artwork with fixative to seal and eliminate the need for expensive framing. Archival and acid-free.

Ampersand™ Claybord™ for Mixed Media

Forgiving and interactive, Claybord is perfect for students of all ages. The workable, ultra-smooth kaolin clay-coated panel has a velvety smooth finish that's very absorbent. Add inks or thin paint and then scratch through to the clay surface to add texture or tonal value. Remove paint completely using Ampersand's oil-free steel wool. Use this multimedia panel with pencil, acrylics, gouache, watercolor, collage, photo transfers, inks, Scratchbord tools, and more. Archival and acid-free.

Ampersand™ Pastelbord™

Pastelbord is a versatile and rigid panel for pastels. The textured surface has marble dust granules like a fine sandpaper and is perfect for both soft pastels (stick or pencil) and oil pastels. Pastels go on smooth, blend beautifully, and colors stay rich and vibrant while holding tight to the surface, layer after layer. Pastelbord is forgiving — the surface can be gently rinsed and used a second time. Dark Green and Sand make the perfect background for portraits and landscapes. White can be toned with soft pastels and water. Gray is a middle value, suitable for all subjects.

understanding paper

Whether you use papers professionally, academically, or for your own enjoyment, the paper you choose is a crucial component in achieving your desired result. The best plan is to learn everything you can about a paper before you buy. Here are some of the things artists look for when choosing papers:

Fiber

Paper is made from a variety of plant sources. Whether the fibers are cotton, linen, flax, jute, hemp, bamboo, rice straw, or rattan, they all provide cellulose fibers or plant cells of varying dimensions. A sheet of paper is basically a thin layer of mingled cellulose fibers. Most commonly, three types of fibers are used to produce papers for drawing and painting: cotton, cellulose, and a combination of fibers.

- **Cotton** papers, made from the longest cotton fibers, are generally considered the highest quality and referred to as 100% cotton rag. Able to withstand heavy erasing, they also resist tearing and wear. High-quality 100% cotton paper can last more than 100 years. However, not all cotton papers are the same. Those made from the lesser-quality, shorter cotton fibers can become fuzzy when reworked.
- **Cellulose** papers are usually made of wood pulp and have a natural acid component that will destroy the paper over time. The more acidic a paper is, the shorter its life expectancy. Buffers can be added to make the paper neutral.

Finish

Manufacturers of watercolor paper typically offer three or more finishes, labeled **rough, cold press, not/cold press, and hot press**.

- **Rough** paper is chosen for its definite texture. It is the natural result when a sheet is allowed to air dry without smoothing or pressing. Rough surface paper is a good choice for transparent watercolors used in a bold and immediate style, as it allows the pigment of color washes to settle into the hollows of the paper. Pastel artists also generally prefer a paper with "tooth" or texture to grab onto the pastel pigment.
- **Cold Press** paper, which is the most popular and versatile, has a slight texture. Handmade papers achieve this by re-pressing a new wet sheet, which smoothes the surface to some degree. Machine-made papers achieve a similar effect by placing the wet sheets between cold metal rollers.
- **Not/Cold Press**: A "Not" sheet means it is "not hot press," and the term is often used instead of cold press.
- **Hot Press** paper is very smooth, made by running a freshly formed sheet through heated metal rollers or plates to smooth out any texture and create a flat, hard, featureless surface. A good choice for highly detailed illustrations, it is also used for printmaking, etching, drafting, sketching, and drawing. Other characteristics come into play with bristol, which is usually available in a plate or vellum finish, in a variety of weights.
- **Drawing and Sketching** papers are available in a variety of weights and have surface characteristics that depend on the type of media being used, such as pen-and-ink, pencils, crayons, charcoal, markers, or even light washes.

Size & Absorbency

Sizing is added to make paper more water-resistant. It keeps the paper from absorbing too much moisture or pigment and helps to keep watercolors or inks brilliant. It also keeps lines and edges looking crisp. It is less important for papers used for dry media. Sizing also can factor into a paper's archival qualities — whether it will sustain or deteriorate over time.

- **Internal sizing** is added while the paper pulp is still in a liquid state and is maintained in the matter of the paper.
- **External, Surface, or Tub sizing** is applied to the surface of the paper after the sheet is formed and dried. Some paper is both internally and surface-sized.

Formats & Stretching

Art papers come in a variety of formats, including single sheets, pads or sketchbooks, blocks, rolls, or board-mounted. For watercolor or acrylic painting, it's important to stretch your paper before painting so it stays flat, which also makes a more professional presentation when framed.

- **Single sheets** are a great way to experiment using a small amount of paper. They may require stretching and taping to remain flat if wet media is used.
- **Pads or Sketchbooks** are a convenient way to bring your work wherever you go — a good choice for dry techniques that use minimal amounts of water.
- A **Block** is a stack of paper glued or bound together on two or more sides and mounted onto a backing board. A block keeps the paper stretched outdoors. Only one sheet can be used at a time.
- **Rolls** are an economical way to work with your favorite papers.

Paper Weight

Thicker or heavier papers can handle more water or paint without buckling, curling, or falling apart. Traditionally, papers are measured by the **weight in pounds** of one ream, approximately 500 sheets. If a paper comes in different sizes, its weight will vary even though the thickness has not changed. Each sheet would have a weight of 1,114 lb for the ream of paper. Its weight changed due to the size of the sheets, not the paper's thickness, but the paper is still designated as 300 lb.

The inconsistency of this traditional method has led to the use of metric measurements or **grams per square meter or gsm**. When paper is measured in gsm, its weight will not change with the size of the sheet. The same 22" x 30" sheet of watercolor paper described above would weigh 640 gsm, meaning that a square meter of this paper would weigh 640 grams. Larger sheets of the same paper, such as a 40" x 60" sheet, would also weigh 640 gsm. While different sizes, the square meter remains constant, as does the thickness.

Shizen Professional Watercolor Paper

Shizen paper is handmade in India from 100% recycled materials using a pollution-free process. This acid-free, 100% cotton, white watercolor paper is both internally and externally sized. The 9" × 12" and 12" × 18" sizes have a heavy deckle edge on four sides. The 5" × 7" has no deckle. 140 lb (300 gsm).

Legion™ Stonehenge® Aqua Watercolor Blocks

Stonehenge Aqua is as finely crafted as it is affordable. Wet-on-wet or wet-on-dry, it has a crispness that anchors your work across every task and technique. It accepts multiple layers of color in a controllable manner, and watercolors can be easily manipulated without drying out. Blending is effortless, lifting is no longer a chore, and it welcomes masking without relinquishing control. Bright colors remain bright after they're dry. This 100% cotton paper is pH-neutral, acid-free, lignin-free, chlorine-free, and contains no optical brightening agents. It starts out flat and dries flat. 15-sheet blocks.

Blick® Premier Watercolor Paper

This professional-quality paper is made on a traditional cylinder mould in a European mill that has been making paper since the 1700s. Both internally and externally sized, its surface is created using natural woolen felts, helping it withstand scrubbing and other wet techniques without tearing. Ideal for watercolors, gouache, inks, and acrylics, this paper is 100% cotton, acid-free, and archival. The blocks are great for painting on location — no soaking required. 140 lb (300 gsm).

Arches® Watercolor Pads

Perfect for plein air painting and convenient for travel, Arches Watercolor Pads are ideal for both professional artists and students. Each pad holds 12 sheets of natural white, 100% cotton, acid-free paper. The paper is ideal for watercolor, gouache, ink, acrylics, drawing, and printmaking, and strong enough to handle multiple washes of color, masking fluid, scrubbing, and artist's tape without damage to the surface. Gelatin sizing gives each fiber a consistent feel and absorbency. A long-time favorite of artists, Arches watercolor paper is produced on a cylinder mould machine and has been manufactured in the same French paper mill since 1492. 140 lb (300 gsm).

Hahnemühle® Oil and Acrylic Paper Pads

For artists with good taste, nothing is better for presenting oil and acrylic paints than this paper. A canvas-like structure prevents colors from being completely absorbed, so there's no bleedthrough. A glossy linen finish helps colors retain their high luminosity without a halo effect. Colors can be mixed on the paper and oil patches won't appear. 110 lb (230 gsm). 10-sheet pads.

UArt® Sanded Pastel Paper

A premium, neutral-colored, sanded pastel paper offering high quality, consistency, and durability. The 240 grade has the largest tooth, the 280 grade is for a heavier hand and texture, the 320 grade is for extra layering, the 400 and 500 grade have a moderate "bite," the 600 grade is great for details, and the 800 grade is super fine. All accept many layers of hard or soft pastels and also work well with other mediums. The low-profile surface allows for easy erasing. pH-neutral and acid-neutral. **Colors can be assorted for quantity pricing.**

UArt® Sanded Pastel Paper Pads

UArt's premium sanded pastel paper combines quality, consistency, and durability. Ideal for a wide range of media, including pastels, colored pencils, and charcoal, the 400 grade has a moderate "bite," while the 600 grade is super fine. Each sheet is pH-neutral and acid-free, with a low-profile surface that erases easily. The 9" × 12" flip-pads hold 10 sheets, separated by acid-free sheets to protect work from smudging and flaking.

UArt® Dark Premium Sanded Pastel Paper

This is the perfect surface for those artists looking for a dark sanded substrate. The color of the paper fluctuates depending on the grit — the higher the grade, the smaller the pigment. The 400 provides a rich, dark black color, and the 600 and 800 grit tend toward a charcoal color. **Colors can be assorted for quantity pricing.**

Art Spectrum® Colourfix Smooth Pastel Papers

Ideal for artists looking for a less toothy surface, this paper is less abrasive than Colourfix Coated Pastel Paper yet still holds multiple layers of pastels (but with minimum harm to fingertips when blending). The smooth yet toothy surface is ideal for pastels, pencil, or charcoal, as it will hold multiple overlays of color without the need to fix between layers. Use also with oils, acrylics, gouache, inks, silverpoint, even watercolors. Apply a final light spray of fixative if desired. Acid-free. 230 lb (340 gsm).

japanese papers

Japanese paper is like no other paper in the world. Often, it's handmade using centuries-old traditions, using the finest-quality fibers from plants found only in the Far East. Japanese paper is prized for lino and wood block printing, sumi painting, brush calligraphy, book binding, interleaving, fly leaf, end leaf, and many decorative and conservation applications.

Kinwashi

Machine-made of short, thick manila fibers. Paper has bark inclusions which provide texture on one side of the sheet while remaining smooth on the other side. Deckle edges, 25" × 37" sheets (30 gsm), sized.

NUMBER	EACH	10/EA
A10414-1005	$8.91	$7.99

Kitakata

Mitsumata fibers produce a soft, smooth surface with a natural gloss. The silky touch makes this paper a favorite. Sized, acid-free, four deckle edges. 16" × 20" sheets (30 gsm), sized.

NUMBER	EACH	10/EA
A10416-1008	$6.27	$5.64

Unryu

Literally meaning "Cloud Dragon Paper," Unryu is made by adding long, swirling fibers to a basic kozo pulp. White, translucent, unsized, acid-free. 24" × 39" sheets.

NUMBER	EACH	10/EA
A10404-1005	$7.35	$6.62

Sekishu

This is one of the oldest papers in the world and is still made today by hand. It is a strong, crisp, deep cream-colored paper made from kozo fibers. Sized, naturally acid-free, with deckle edges. 24" × 39" sheets (30 gsm).

NUMBER	EACH	10/EA
A10413-1005	$14.70	$11.63

Masa

Machine-made in Japan of sulphite pulp. Versatile and very reasonably priced. A strong paper with an even formation. Sized, 21" × 31" sheets (77 gsm).

NUMBER	EACH	25/EA
A10409-1003	$3.65	$3.29

Okawara

Handmade of kozo fibers and sulphite. Soft, supple, strong. Laid lines are almost invisible. Natural white, sized, acid-free, deckle edges. 12" × 16" sheets (55 gsm).

NUMBER	EACH	10/EA
A10411-1006	$8.12	$7.30

Mulberry

Handmade from the inner fiber of the mulberry plant to produce an exceptionally pure, translucent paper, used by paper and painting conservators in repair and lamination. Mulberry is very strong despite its light weight. Not sized, acid-free, four deckle edges. 24" × 33-1/2" sheets (45 gsm).

NUMBER	EACH	10/EA
A10410-1005	$10.82	$9.99

Hosho

A traditionally high-quality kozo paper, strong and absorbent, Hosho does not shrink or tear easily, making it a good paper for woodblock or lino printing. Sized, acid-free, four deckle edges. 19" × 24" sheets (85 gsm).

NUMBER	EACH	10/EA
A10415-1009	$10.11	$9.11

Hosho Student Grade

Similar to Hosho but slightly heavier and coarser. Sized, acid-free. Four deckle edges. 17" × 22" sheets (95 gsm).

NUMBER	EACH	10/EA
A10405-1008	$8.08	$7.27

Awagami Shiramine Select

Crafted at the Awagami mill in Japan, this paper has 300 years of washi papermaking experience behind it. Traditional Japanese fibers such as kozo and gampi are combined to create a paper that adds subtle refinements to finished work. Acid-free and archival, Shiramine Select is suitable for both drawing and printmaking. Four deckle edges. 20-1/2" × 17" sheet. 110 gsm.

NUMBER	EACH	10/EA
A11324-1001	$9.81	$8.82

Yasutomo Sumi Painting Paper Rolls

These Japanese-made paper rolls are made in a traditional fashion. The Hosho is a mulberry fiber paper that doesn't shrink or tear easily, making it great for woodblock or line printing. The Kozo is made of rice paper, ideal for calligraphy and watercolor painting.

Roaring Spring Composition Notebooks

These 100-page composition notebooks with a classic marbled pattern on the cover are great for recording notes — or choose unruled pages for sketching. The smooth, 15 lb writing paper works well for both. Pages are center-sewn and tapebound into a hard board cover. The insides of the covers are printed with a blank class schedule and other useful information. Pages are not intended to be removed. 9-3/4" × 7-1/2". Made in the USA.

Grafix® Dura-Lar™

The acetate alternative!

For all of its usefulness, acetate does cause a few headaches: ink that won't stay, yellowing or graying with age, edges that curl. The alternatives are expensive and sometimes just don't suit the purpose. Dura-Lar is the acetate alternative. It combines the best features of Mylar® and acetate, and offers a variety of products so that you can purchase the film that suits your needs precisely. It is always consistent in color and overall clarity, and won't discolor with age. Dura-Lar is archival-quality, safe for overlaying artwork, and it lays flat. It will remain dimensionally stable for as long as you need.

Grafix® Dura-Lar™ Clear Film

Designed for layouts, color separations, and overhead transparencies. Can also be used for screen printing or as a protective covering for your work.

Grafix® Stencil Film

This tough, non-tearing polyester stencil film lets you create or copy designs and turn them instantly into templates. Simply draw or trace your design with a pen, cut it out, and you're ready to stencil. Cuts easily with scissors, craft knife, die-cut machine, or stencil cutter. Can be used over and over without tearing or losing its ability to lay flat. Package of four 9" × 12" sheets in light blue or matte finish.

Grafix® Drafting Film

Polyester-based film with matte translucent drawing surface on one side or two. This film is anti-static and accepts ink or lead, erases cleanly, and provides excellent dimensional stability. Since it won't tear or discolor, it's great for many engineering and architectural applications, and is highly translucent for sharp reproductions. For use with most black-and-white laser printers and plain paper copiers. A test should be done with your printer before printing finished work.

Multimedia Artboard®

Multimedia Artboard accepts both oil-based and waterbased paints without buckling or warping. It is made with paper and thermal-set epoxy resin, allowing media to adhere to the surface without penetration. Whatever media you are using holds a definite edge with no bleed. The surface can be erased, scraped, and sanded, and both front and back are usable surfaces (one side is smoother than the other). Rated archival quality, with a neutral pH factor of 6.5. Boards are 1/32" thick.

Rainbow® Duo-Finish® Economy Kraft Paper

This 40 lb paper is a great economical alternative to ArtKraft. Designed to be versatile, it has two distinct surfaces, one smooth (ideal for chalk, markers, and pen), and one rough (perfect for wet media such as tempera paints or watercolors). It's a great choice for displays, table covers, crafts, school projects, and more. The Kraft fibers make it easy to cut cleanly, while the durable storage carton dispenses the paper easily and keeps it clean when not in use. Does not qualify for free shipping offer. **Colors can be assorted for quantity pricing.**

Blick® 3-in-1 Display System Archival Mat Kits

Show your work in a better light, easily and economically. A beveled mat is packaged with a foam board backing in a heavy-duty, archival-quality acetate bag. At art shows, it allows for a professional, matted presentation while protecting artwork from fingerprints, wind, and rain. And once the sale is made, customers can transport their purchases easily and safely. The actual opening size allows for an overlap of 1/4" (L × W). For example, the opening will be 4-3/4" × 6-3/4" for 5" × 7" artwork.

Value Pre-Cut Mats

Great for school art shows and temporary matting of prints and drawings. Each mat is cut from high-quality, lightweight white pebble board. The inside edge has been die-cut and scored, allowing you to bend the border inward or, if desired, simply bend the border to the back, color it with a marker or paint and return it to the front for a double mat effect. Backing sheets are not included. 50 mats per pack.

C Caran d'Ache® Technalo Water Soluble Graphite Pencils

Technalo Water Soluble Graphite Pencils contain an aquarelle lead, allowing uniform darkening of large surfaces, and regular, intense lines. Technalo Water Soluble Colored Graphite Pencils combine the qualities of a colored pencil with a watersoluble graphite lead. Used dry, they retain the original properties of graphite. Used wet, the black is tinted with subtle shades of Carmine Lacquer, Dark Phthalo Green, and Prussian Blue for subtle colored washes. The end result is exceptionally lightfast.

C BIC® Xtra-Life Mechanical Pencil Classroom Pack

Enjoy smooth writing, dependability, and value with these mechanical pencils. These durable pencils last two and a half times longer than wood case pencils and a fresh 0.7 mm point is only a click away. They're also great for writing, drawing, sketching, and doodling! Their smooth, #2 graphite lead is ideal for use on tests and eliminates the need for sharpening. Pencil marks erase cleanly and won't smudge. Great for use in large classrooms, testing environments, art rooms, and more.

This chunky pencil functions as a colored pencil, watercolor pencil, and wax crayon all in one — perfect for a variety of techniques. The extra-thick, 10 mm core is as thick as eight standard colored pencils, resists breakage, and provides soft, rich strokes that exhibit high luminosity, opacity, and color intensity even on dark papers. Outstanding watercolor properties make it ideal to paint with. It also writes on smooth surfaces such as glass, metal, leather, and more. Ideal for large surfaces — and for small hands!

Westcott® iPoint Halo™ Colored Pencil Sharpener

Quickly sharpen your colored pencils without damaging them! Equipped with non-stick titanium bonded blades that stay sharp 5× longer than conventional blades, the iPoint Halo Electric Colored Pencil Sharpener has an auto shut-off feature that prevents oversharpening when the perfect point has been achieved. Its vertical design takes up less space on desks and work surfaces, and a clear EZ View shavings reservoir tells you when it's full.

Caran d'Ache® Luminance Colored Pencil Sets

These pencils combine the smoothness of a permanent lead with excellent lightfastness. Every shade has been formulated using finely ground pigments chosen for their purity, intensity, and resistance to UV rays. Strong coverage and mixing capacity allow for intense applications, blending, and burnishing, while extreme softness enables subtle blending and gradations. Cases are made of California cedar. Conforms to ASTM D-6901.

These highly pigmented artist-quality pastels come in handy jars that stack and interlock. Their ultra-soft, low-dust formulation blends and applies easily, and it affords more control than traditional sticks. Compatible with all pastels, pastel surfaces, and conventional fixatives, PanPastels mix, blend, and layer like paint for an infinite palette of colors. They're erasable, clean up with ease, and are extremely lightfast. Each pack includes free tools. Jars contain 0.3 oz (9 ml) of pastel.

PanPastel® Mediums

These are true pastel mediums for creating pearl (fine) and sparkly (coarse) effects in your pastel paintings. Use White to create tints, and Black to create darks and shades for rich, jewel-like effects. The Colorless Blender can be mixed with any PanPastel color to create a variety of transparent effects. It's also great for softening and blending edges.

PanPastel® Sofft® Tools

Sofft tools have been specifically developed for use with PanPastel soft pastels. Versatile, inexpensive, and reusable, these tools can also be used with most waterbased art and craft materials, including watercolors and acrylic paints, to create exciting new techniques, marks, and effects. Finished effects are different from those achieved with brushes, as the brushstroke is completely eliminated.

Knives and Cover Sets — A multi-use and absorbent applicator for art and craft techniques. Made of a flexible, durable plastic material, with handles shaped like traditional wooden-handled knives for maximum comfort. Also may be used without Sofft Covers as traditional painting knives.

Unison® Handmade Pastel Sets

John Hersey began producing handmade pastels by lightly rolling each pastel so that the pigment was softly compressed, resulting in fluid color unlike any other pastel. While other manufacturers add white or black to make up a color set, Unison uses pure pigments with a cycle of related hues and a very minimal amount of binder for intense, strong color. Sticks are approximately 2"L × 1/2"Dia.

FW™ Empty Markers and Nibs

Empty markers allow artists to create and customize their color palettes, and FW Mixed Media Markers from Daler-Rowney are great for doing that. Available in a range of nib widths, and nib types that include hard, round, chisel, and flat. Ideal for use with FW Acrylic Water-Resistant Artists Inks, and other brands of ink and liquid watercolor. Extend the life of the markers with replacement nibs. For best results, shake well and pump gently. Store markers horizontally. Do not use with FW Pearlescent Inks.

Empty Marker Sets — Contains two empty markers and two replacement nibs.

Winsor & Newton™ Promarker

Flawless, even application and coverage makes ProMarkers ideal for design, illustration, comic art, and crafts. Filled with high performance, alcohol-based, permanent ink, they have a broad chisel nib on one end and a rounded bullet nib on the other. Use on paper, cards, glass, acetate, plastic, ceramic, wood, or metal. Secure "click-fit" caps prevent marker dryout.

Blick® Studio Marker Ink Refills

Bring your Blick Studio Art Markers and Brush Markers back to life! The water-resistant, fade-resistant ink is the same as that used in the manufacture of Blick Studio Markers and Blick Studio Brush Markers, ensuring the same beautiful colors and the same results. Each bottle contains 0.85 oz (25 ml) of alcohol-based, permanent ink, enough to refill a marker 7–9 times. The cap colors match the marker caps for easy reference. **Colors can be assorted for quantity pricing.**

Classique by Spectrum Noir™ Markers

Designed for detailed coloring, blending, and super-smooth coverage, these premium-quality markers contain alcohol-based dye ink in a range that includes bold hues, subtle tints, and neutral colors. Each marker has two tips that work well on a variety of papers and art boards — a fine bullet nib for details and a broad chisel nib for large color fills. The ergonomic no-slip barrel was designed for comfort and control during long sessions. The double-locking caps precisely match the color of the marker ink, making it quick and easy to identify the exact color you need.

A-F Sakura® Pigma® Micron® Pen Sets

Permanent, waterproof, pigmented ink in a fine-point drawing and writing pen. Unlike dye-based ink found in most pens and markers, Pigma ink will not feather or bleed through the thinnest paper. Derived from a single pigment to ensure color consistency, it's also fadeproof when exposed to sunlight or UV light. These pens won't clog or dry out like most mechanical pens. Non-refillable. Black ink.

M Uni® Pin Fine Liners

Ideal for drawing, illustration, drafting, or general use, Uni Pin Fine Liners are artist-quality pens that can be used and enjoyed by both professionals and non-professionals. These pigment ink-based pens provide intensity, depth, and water-resistance without bleedthrough. The quick-drying ink means smudge-free erasing while inking over drawings. They can also be used with watercolors, as the ink will not smudge when wet. Their nibs are protected by steel collars.

B Sakura® Pen-Touch™ Calligrapher Metallic Ink Calligraphy Pens

A calligraphy pen with a flat nib that allows you to produce beautiful lettering with very little practice. The opaque ink dries quickly on paper, and is permanent on most surfaces, including plastic, wood, glass, and metal. The fine point makes a 1.8 mm line with a nib made from a special plastic that won't split or fray. The medium point produces a 5.0 mm line with a fiber nib cut into a rectangular block. ×ylene-free and low odor.

H-I Tom Norton Walnut® Drawing Ink

Walnut Ink has a full, warm color that looks great with either a pen or brush and is very lightfast. The Walnut Drawing Stick is two tools in one — a bamboo-tipped nib on one end and a felt pen on the other. Change from drawing to washing with a twist of the wrist!

K Daniel Smith® Walnut Ink

The warm character of walnut ink is reminiscent of drawings by Rembrandt. This rich, finely pigmented ink has a sepia color that resembles traditional walnut-based inks, but it will not fade. Use Walnut Ink for drawings with both dip pens and brushes. Because it's waterbased, it handles like a watercolor on washes, with good layering and lifting capabilities. 2 oz (59 ml) bottle.

Ranger™ Tim Holtz® Distress Inks

These acid-free, fade-resistant, waterbased inks are perfect for the vintage, stained, aged effects for scrapbook pages, cards, and altered art projects. Use them on papers, photos, fiber, ribbon, wood, and more to create a weathered look. They're also great for embossing, photo tinting, and layering. The pads feature a raised felt pad for direct-to-paper techniques.

Ranger™ Tim Holtz® Distress Re-Inkers

Transform ordinary projects into extraordinary masterpieces with these versatile dye-based colors. Whether you are refreshing your ink supplies or experimenting with watercolor techniques, each re-inker promises intense hues and seamless blending.

Taskboard®

The board of choice for interior and set design, architectural and topographical models, dioramas, and more. Taskboard is non-warping, easy to cut, and ideal for creating precise, invisible joints. Highly absorbent, it creates strong bonds with any glue, can be sanded easily, and accepts any waterbased or solvent-based paint, stain, or finish. Its ISO brightness of 62°/62° enhances shades, shadows, and details. Biodegradable and forested from a sustainable source, Taskboard's unique pulp stratification allows forming over steam or after soaking in cold water; it regains rigidity seconds after removal from steam, or overnight if soaked.

The HP-BCS (bottom feed) is equipped with a wider 0.5 mm needle/nozzle combo making it perfect for T-shirt art. The HP-BS (gravity feed) is ideal for fine artists, fingernail artists, and students with its fine 0.35 mm needle/nozzle combo. The HP-CS (gravity feed) handles heavier acrylics and has a 0.35 mm needle/nozzle combo. The HP-SBS (side feed) has a 0.35 mm needle/nozzle combo and comes in a standard model and an "Auto Graphics" model that features a larger cup and additional 1 oz (30 ml) bottle (both are ideal for all types of custom automotive graphics). Airbrushes available separately online.

BLICK® block printing essentials for all your block printing needs

readycut

Blick® Readycut

Blick proudly presents an innovative new idea in relief printmaking. Blick Readycut is an exclusive product developed to take the guesswork out of relief printing. Created by fusing a thin layer of a traditional gray carving block to a thicker white block, Blick Readycut allows artists to simply carve away the gray layer to reveal the white, and instantly see how their image will look printed. Trace an image on the block — or carve directly for spontaneous creativity. Blick Readycut eliminates repetitive inking, proofing, and cleaning because adjustments and additions are easy to see. Blick Readycut has an infinite shelf life and is soft enough for students at all levels to work with. Available in a variety of sizes, the plates measure 3/16" (5 mm) thick.

wonder-cut

Blick® Wonder-Cut Linoleum in Pre-Cut Pieces

An ideal surface for students and teachers to practice on, Blick Wonder-Cut Linoleum offers softness and consistency with no slippage. It's easier to cut than our softer Golden-Cut, yet holds sharp lines with no crumbles, for clear, sharp prints. Pencil-drawn cut lines are easily visible on its light color — and a slower hardening process offers the longest shelf life of any Blick linoleum. Natural jute unmounted backing. 1/4" thick.

BLICK® battleship gray

Artwork by Tina Browder

Specially formulated for Blick, we import it from Europe several times a year to provide the softest quality possible. It gives a finely detailed, sharp, clear print. For best results, be sure your blades are sharp! Dull blades are dangerous and frustrating, especially to students. Because of the natural aging process, linoleum should be used within a year of its purchase to take advantage of its peak softness. For your convenience, we offer our 1/8" thick linoleum in pre-cut pieces, by the roll, and mounted on blocks.

BLICK® golden-cut

The fine-textured surface produces sharp, clear prints and won't distort when subjected to high pressure in the printmaking press. And the lighter golden color makes pencil marks easily visible — no need to paint the surface white. Finally, the inevitable hardening-with-age process has been significantly reduced with Blick Golden-Cut Linoleum.

BLICK®
EASY-TO-CUT

Blick® Blue Easy-to-Cut Blocks
An innovative block printing surface that's easy for artists of all ages to carve on. It can be carved on both the front and back side, allowing two images per piece — great savings and less wasted material. Working with traditional lino tools, Easy-to-Cut cuts beautifully whether mounted or unmounted, leaving smooth, clean edges. Works well on curves and tight corners. Its shelf life can be up to 10 times longer than that of traditional linoleum.

E-Z CUT

Blick® E-Z Cut Printing Blocks
The original soft printmaking material!
These blocks of synthetic rubber-like material are so easy to carve that even young students can safely do it. E-Z Cut is 3/8" thick — thick enough that both sides can be carved if desired. It won't slip and slide on the table. It works great with Blick Water-Soluble Inks (see page 375). Two blocks per pack.

Inovart® Printfoam for Block Printing
This soft but dense foam material easily takes an impression made by a pencil, stick, or other object. The surface is so sensitive that any shape can be pressed into it for printing textures. Because it requires only the slightest pressure to create a working impression, it's great for young children — no need for sharp tools. Use waterbased inks and any kind of paper to produce dozens of sharp prints. Cleans easily with running water.

Gyotaku Fish Printing Replicas
Learn the Japanese art of fish rubbing.
Enjoy making impressions from these extremely lifelike rubber fish replicas. Cast from real fish and reptiles, these life-size replicas are detailed and dimensional on one side for printing and flat on the other. Sizes range from 4-1/2" (Scallop Shell) to 12" long (Trout). Using tempera or block printing ink, apply colors directly to the rubber form with a foam brayer or soft brush. The results will be different and original each time. Press them into clay to create 3-D impressions.

CRANFIELD™

Cranfield® Caligo Safe Wash Relief Inks

These oil-based relief inks feel and work like traditional oil-based inks, yet clean up with soap and water — no solvents required! Made from the finest single pigments and polymerized vegetable oil, they're suitable for all kinds of block printing, including wood engraving, linocut, woodcut, and letterpress printing with photopolymer plates. These colors stay bright and clean when mixed. They're made without driers, dry like traditional etching inks, and can be printed on a wide range of papers with the quality, intensity, and precision of an oil-based ink.

Charbonnel® Water Washable Printing Inks

Water-washable inks with an oil emulsion that allows work similar to traditional solvent-based inks. Made from extra-fine quality pigments, they're very lightfast and permanent when dry. Excellent for all techniques, including intaglio, relief, etching, and woodcut on linoleum, monotype, aquatint, and more. Formulated especially for artists and students working in groups, the inks clean up without solvents and are non-toxic, odorless, and easy to wipe.

Speedball® Professional Relief Ink

This new line of artist-quality, water-miscible, oil-based printmaking inks was developed using only the highest-quality, lightfast pigments and no fillers. The results are rich, intense, crisp prints with archival qualities. Formulated to achieve the working properties artists desire, Speedball Professional Relief Inks roll out consistently, transfer beautifully, and hold even the finest details. And they clean up easily with just soap and water. The flagship of the line is Supergraphic Black, created in collaboration with world-renowned relief artist Bill Fick.

AKUA®

Akua® Liquid Pigment

These exceptionally rich, non-toxic, waterbased inks work great for all types of monotype techniques. Unique slow-drying formula allows plenty of time to create an image on the plate. Because Akua stays wet on the plate, there's no need to soak paper before printing. Clean, brilliant, lightfast colors that are exceptionally strong yet transparent; no chalk, fillers, or polymers added. Use Akua modifiers to adjust sheen, thickness, and transparency. Cleans up fast and easy with water. Can also be used for Japanese woodcut and drawing on paper. 4 oz (118 ml) plastic bottles. **Colors can be assorted for quantity pricing.**

We recommend that you use three blankets — a cushion, a pusher, and a catcher — to equalize the pressure and lessen the strain on the upper roll shaft of your press. If you are purchasing a Blick press, the cushion blanket is included. You will need to purchase a catcher and a pusher. The catcher blanket should be placed directly on top of your damp printing paper to catch the sizing from the paper, the cushion blanket on top of the catcher, and the pusher on the very top. The catcher blanket should be washed regularly so it doesn't become stiff from the paper's sizing residue.

WOODZILLA™

NEW! Woodzilla Hand Lino Press

Manufactured from heavy-duty steel, these presses apply stable, uniform pressure for brilliant printing results every time. The presses can be easily mounted to tables or workbenches, and the bases feature anti-skid shoes for added stability without the risk of scratches. When not in use, fold the press up for compact storage! Each press comes with a felt blanket.

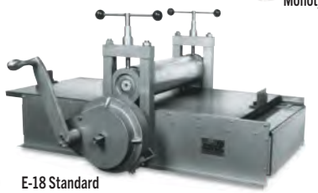
CONRAD™

Conrad™ Presses

Small professional presses with the features and quality demanded by the professional artist, built to withstand the rigors of classroom use.

Backed by a 25-year manufacturer's warranty, Conrad presses are made entirely in the USA with no outsourced parts. All presses are shipped FOB from Whitehall, Michigan. Most other small etching presses are made with inadequate gearing or no gearing at all, but Conrad presses are designed with the same professional features available on much larger presses. The most remarkable feature is the planetary all gear 6:1 reduction drive available on Deluxe models. The base of the press extends the full length of the bed plate. The vertical frame is constructed of 1-1/4" square Aircraft Alloy Aluminum for maximum strength with minimum weight. The upper roll is spring counter-balanced to maintain height adjustment. Optional micro-gauges offer the barrel-thimble design calibrated to .005" per line. This means that you can adjust each pressure screw by about the same thickness as a human hair! Now, due to the ever-increasing popularity of the monotype press, Conrad is offering a line of these inexpensive, large-capacity, portable tabletop presses (see below for details). Truck Shipment and FOB Factory. See page 504 for details.



25-year WARRANTY on all Conrad Presses

DUROMETERS

45 is Extra Soft; 75 is Bone Hard.

Soft blades deposit more color than hard blades and are better for textile printing. Hard blades are better for hard, smooth surfaces and will conserve your ink.

Speedball® Graphic Squeegees

The Speedball Graphic Squeegee is designed for graphic screen printing but can also be used on paper, cardboard, or wood. Available in a variety of sizes, it features a wood handle and a firm, durable urethane blade that is suitable for shorter print runs and high-usage applications. The blade is impervious to acids, turpentine, and thinners.

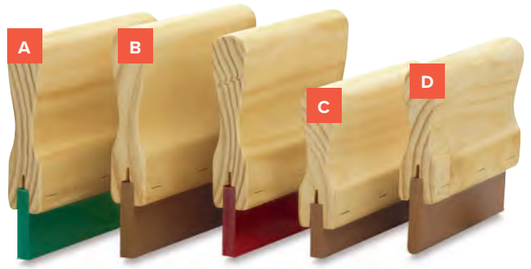
BLICK® squeegees



A-D Blick® Squeegees

Blick Squeegees are manufactured to our high standards. Kiln-dried and precision-cut lumber is used for the non-warp handles, which are smooth, comfortably shaped, and easy to work with. The blades are molded under high heat and pressure and have a tensile strength of more than 2,000 lb, which eliminates ink streaking and provides a superior, long-lasting printing edge. They're inserted into the wood handle and stapled in position, then professionally sharpened after assembly. Use for both graphic and textile applications, for all hand printing, and for many machine applications. Excellent abrasion and solvent-resistance. (Squeegee blade color may vary from image shown.)

A 70-75 Durometer Squeegee — Medium. 3/8"W × 1-7/8" thick color-coded blade. Used for general printing. Medium ink deposit.

Blick® Assembled Frame with 110 Monofilament Polyester Mesh

Monofilament fabric consists of single strands of manmade fibers with uniform construction and spacing, plus the finest uniform diameter threads. Holds fine details for printing four-color process work. Includes a stretch-tite cord for easier re-stretching. Excellent where tight register of colors is required. Also used for graphic applications where clean, crisp definition is required, such as decals, signs, and book covers. Baluster size is 1-1/8" × 1-1/8".

Blick® Wooden Balusters

Make your own economical screen frames from Blick's already mitered and grooved frame pieces. They can be assembled any way you choose, using nails, staples, or glue. Be sure to order two for width and two for length. Four are required for a frame. Pick your fabric by the yard, and use cordsetter and cord to finish the frame. Baluster size is 1-1/8" × 1-1/8". Larger 1-5/8" balusters are available by special order — call for prices.

Speedball® Drawing Fluid and Screen Filler

A "tusche-like" or positive screen printing method. Brush Drawing Fluid on all areas you want to print and let dry. Next, spread Screen Filler over the entire bottom side of the screen and let dry. Finally, spray cold water onto the top of the screen to wash out the areas covered by Drawing Fluid. Use filler to touch up any pin holes. When dry, the screen is ready for printing with any waterbased ink. Remove filler by scrubbing with hot water and kitchen cleanser.

Smart-Fab® Art and Decoration Fabric Rolls

Smart-Fab is the smart alternative to paper and cloth. Pleasantly cloth-like to the touch, it's an innovative non-woven fabric that's easy to cut, fold, glue, staple, and sew. Use it for indoor/outdoor projects, such as bulletin boards, displays, decorations, costumes, and stage scenery. The 36" × 600 ft rolls ship directly from the manufacturer. FOB Factory. See page 504 for details.

Worbla's Finest Art

A favorite for cosplay and classroom use, with the quickest and easiest learning curve, Worbla's Finest Art is brown in color with an orange peel-like texture. It's non-toxic, skin-safe, and can be shaped by hand without special safety equipment to form rigid, strong pieces. When heated with a heat gun, hot air, water, an iron, or steam, it takes complex curves without requiring a vacuform, and is self-adhesive when activated — meaning that glues are not required to join the pieces. It can be painted with just about any paint, wax, or finish after priming.

FloraCraft® SmoothFom Foam Heads

Use to create masks or busts by applying non-hardening model clay to form facial features. Cover with plaster or other mold-making material, and remove clay for a perfect negative impression of the mask to be cast. Unlike Styrofoam, this expanded polystyrene (EPS) foam head can also be painted and glued without melting the material. The surface can also be sanded. Life-size foam head is non-toxic and 100% recyclable.

Smooth-On™ Mold Star® 16 Fast

This easy-to-use platinum silicone rubber requires no weighing scale. Ideal for casting wax, gypsum, resins, concrete, and more, it has a relatively low viscosity, a six-minute pot life, a 30-minute cure time, and cures to a soft, strong rubber that is tear-resistant, long-lasting, and has very low shrinkage. Vacuum degassing is not required for most applications. Cured molds are heat-resistant up to 450°F, suitable for casting low-temperature melt metal alloys. Not intended for brush-on moldmaking.

Smooth-On™ Rebound 25 Silicone Rubber

A self-thickening, platinum-cure silicone for making brush-on molds. Apply with a brush or spatula — it holds onto vertical surfaces without sagging. Quick cures to a soft, flexible rubber with negligible shrinkage. Four thin layers yield a stretchy, strong, and durable mold for casting wax, gypsum, concrete, low-temperature melt metal alloys, or resins. One-to-one mix ratio by volume. Warning: Not for use in making molds of models containing sulfur, e.g., sulfur-bearing clays. Package of two 16 oz (473 ml) jars.

Smooth-On™ Smooth-Cast® 300

Exceptionally hard white liquid plastic casting compound for fine detail.

Yield virtually bubble-free castings in 7–10 minutes with this ultra-low-viscosity casting resin. Easy to mix and pour, with a 1:1 mix ratio, it readily accepts fillers and can be pigmented. It is superior for cold cast metal applications that are tough, durable, paintable, and resist moisture and mild solvents. Use Smooth-Cast 300 for reproducing small to medium-size sculptures, cold cast bronze, making prototype models, special effects props, decorative jewelry, and more. Two 16 oz (473 ml) jars.

C Super Sculpey® Medium Blend

Firm enough to hold details beautifully, yet soft and workable enough to shape and blend pieces together easily, Medium Blend is the perfect marriage of Super Sculpey and Super Sculpey Firm. Ideal for additive methods (particularly in small increments), it can be carved, painted, sanded, and drilled after oven baking. Bars are scored for easy cutting. Resists chipping and shattering. 1 lb box.

NUMBER	EACH	6/EA
A30496-1001	$20.26	$18.25

D Super Sculpey® Firm

This extra-firm gray sculpting clay is perfect for catching the tiniest details. Shatter-resistant and chip-resistant, it bakes to a very durable finish and can be carved, sanded, painted, and drilled after baking. 1 lb box.

NUMBER	EACH	6/EA
A33273-1009	$20.26	$18.25

I Liquid Sculpey® Liquid Polymer Clay

A liquid form of polymer clay, Liquid Sculpey is a versatile product that can be poured into bakeable molds, dribbled onto raw or baked Sculpey, used as a grout, or used for window clings. After baking, it becomes a strong medium for making home décor or jewelry. The bottles have a twist cap for precise flow control that opens completely to fill molds. Open it half-way for writing and other detail work. Use Liquid Sculpey as a glue to bond both cured and uncured pieces to one another. Baking will form a strong and lasting bond. Sets include three 1 oz squeeze bottles.

Mayco® Designer Silkscreens

These intricate, highly illustrative designs printed on a fine mesh screen are great for silkscreening onto greenware or bisque. Each 12" × 15" silkscreen contains images within a common theme such as woodland animals, botanicals, or symbols. The screens are reusable and easy to clean. To use, simply cut out the desired design, place it over the item to be silkscreened, and apply glaze that has been thickened with Silkscreen Medium for crisp, detailed designs.

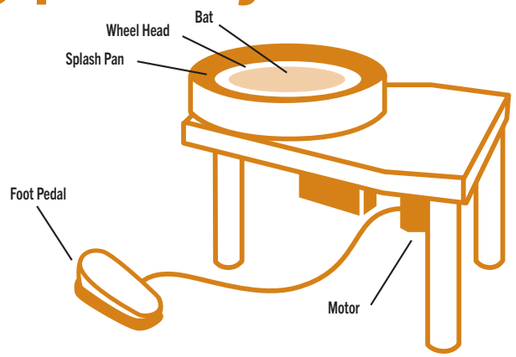
understanding pottery wheels

Ceramicists usually know what they like about a particular pottery wheel, but they may not know everything they should know when buying their first wheel or replacing an existing one. We asked some of the most recognized and respected names in the industry to help us take the mystery out of buying a pottery wheel. Here's what the experts had to say.



Pottery Wheel Key	
Splash Pan	Keeps water and trimmings contained. One-piece or two-piece.
Wheel Head	The rotating disc on which clay is thrown and shaped.
Bat	A removable disc for removing and transporting finished pieces.
Foot Pedal	Controls the speed of the wheel head while throwing.
Motor	Powers the wheel. Horsepower (HP) varies by model.

Q. How important is motor size? And how does it relate to throwing capacity?

A. This may be the most important decision of all, and it can be confusing. Generally speaking, the higher the horsepower (HP), the larger the amount of power — or torque — your wheel will have. The most important thing is to choose the size that meets your needs, with power to spare as your skill level increases or as you begin throwing larger or more complex pieces.

The difference between "peak-duty" and "continuous-duty" horsepower ratings is also an important distinction. Continuous-duty motors are designed to run fully loaded 24 hours a day without overheating, while peak-duty motors will provide power for a shorter period of time. Look for this information on the motor's nameplate.

A wheel's throwing capacity can range from 25 lbs up to 300 lbs and even more. Keep in mind — the average mug weighs approximately 1 lb, so be realistic about the amount of power you need. Throwing capacity is a subjective measure that may vary based on the experience and ability of the artist — keep this in mind when choosing motor size.

A good rule of thumb is that a 1/3 HP motor is adequate for most hobbyists and beginning and intermediate students throwing vessels smaller than 50 lbs, while 1/2–1 HP motors are best suited for advanced students and professional potters who may be throwing larger pieces.

Q. Direct drive or belt-driven — which is better?

A. Many pottery wheels feature a belt-driven motor that has a mechanically controlled commutator (or rotor) system based on brushes. The latest innovation in pottery wheel motors is the DC (direct-current) direct-drive motor, which is brushless, beltless, electronically controlled, and extremely quiet. When the motor is turned off, the wheel head will spin freely, much like a banding or decorating wheel.

Wheels with belt-driven motors have served the pottery community dependably for many years, and recent innovations have eliminated some of the noise they produce. Direct-drive motors lack the torque of belt-driven motors and are much more expensive to repair; however they have been proven to require less maintenance, thus extending the useful life of the wheel.

The decision to purchase a belt-driven or direct-drive wheel is a personal one that depends upon your budget, how much and how long you intend to use your wheel, and how important the quietness factor is to you.

Q. What size wheel head?

A. The wheel head is the rotating disc on which clay is thrown, shaped, and sometimes decorated. Made of metal and marked with concentric circles, the size of the wheel head you choose (typically 12" or 14" in diameter) depends on how large the pieces are that you'll be throwing. Most wheel heads are drilled with at least two bat pin holes for attaching a bat — the removable disc that allows you to remove completed pieces without damaging or deforming them.

Q. What's a reversing switch and how important is it?

A. A reversing switch allows easy switching from one direction to the other, as well as providing a neutral position for smooth transitions when changing directions. In teaching environments, a reversing switch allows for both left-handed and right-handed potters to use the same wheel interchangeably. While in the neutral position, the wheel head will spin freely in both directions, to allow banding or decorating. A reversing switch is generally an optional feature, depending on the manufacturer.

Q. What about portability?

A. How portable your wheel needs to be depends upon the size of your room or studio and how much space you can dedicate to it. Some pottery wheels are more or less stationary because of their weight or configuration, while some have removable legs or "booties" that allow them to be used on a tabletop or floor and stored out of the way when not in use. Some wheels incorporate work surfaces, seats, and splash pans into their design, which adds to their overall size.

For potters who ascribe to the "simpler is better" school, a small tabletop wheel might be best. For those who want their tools, clay, and water containers close at hand, a larger wheel with an attached work surface for these items might be the best choice.

The goal is to find the wheel that is most comfortable for you while throwing, in a configuration that suits your working style and your space.

Q. How important is the manufacturer's warranty?

A. Warranties vary widely from manufacturer to manufacturer. As with any important purchase, be sure to fill out and return the warranty form immediately to make sure you're protected against defects in materials and workmanship. There may be other stipulations, so read the fine print, keep your purchase receipt in a safe place, and make sure all warranty work is performed appropriately (i.e., by the manufacturer or an authorized dealer recommended by the manufacturer). Also ask if the wheel can be repaired locally, or if you'll be required to ship it elsewhere for repair.

SHIMPO®

Shimpo® Pugmill
This pugmill's high-quality wedging function features stainless steel twin augers typically found in larger industrial machines. They increase the wedging capacity and produce practically air-free clay (up to 880 lb per hour) without a vacuum. The forceful, direct gear-driven motor provides maximum mechanical force with minimal operator effort. A safety limit switch automatically cuts power to the pugmill when the augers are exposed. A stop button allows for immediate operator control. A compact design with a removable case allows easy access to the mixing chamber for fast and easy cleanup and maintenance. One-year manufacturer's warranty. 25-1/2" × 12" × 22-1/2" with a 3-1/2" × 3-1/2" hopper. 1/4 HP, 60 Hz, 115V, AC. FOB Factory. See page 504 for details.

Shimpo® NVA-04S De-Airing Pug Mill
This studio-sized, professional-grade, de-airing pugmill removes 100% of the air from the clay and extrudes up to 440 lbs per hour. It features a 1/2HP 400W 230V single-phase motor and a 200W 230V single-phase vacuum pump motor. A dual safety system with limit switch automatically stops the motor when the augers are exposed, and an overload switch protects the motor. Additional features include a clay stand with rollers for easy bagging, a cut-off wire, covers for the clay hopper and clay nozzle to prevent clay from drying out, and an instruction manual. 29-1/2"H × 16-1/2"W × 36"L. Weighs 320 lb.

what you should know before buying a kiln

A kiln is an important purchase for school or studio — one that the purchaser will live with for many years to come. Considering that it's an important investment, buying one can be a daunting task. Here are a few points that will help you make the right choice for your application and budget.

Q. Where will the kiln be located?
A. First, you must decide where your kiln is going to be installed. For a school, that might be in the classroom or in the boiler room. In a studio, where space selection is more limited, the size of the available area will help determine the size of the kiln. But the following points remain constant:
1. Kilns should be located in a separate, well-ventilated room other than in an immediate work area.
2. Never install a kiln on any combustible floor such as wood or carpet.
3. The spacing between the kiln and wall must be a minimum of 18" regardless of what room it's in.
4. Measure carefully to make sure the kiln will fit through all doors leading to the placement location. Sectional kilns can be easily taken apart to fit through narrow doorways or staircases.

A CAREFUL CHECK BY A QUALIFIED ELECTRICIAN OR THE LOCAL POWER COMPANY IS RECOMMENDED.

Q. What power is available at your location?
A. It is important to check with maintenance personnel or a professional electrician to find out the following electrical information for the destination of placing your kiln.
Voltage — Voltage services can be 120V, 208V or 240V. Most residences only have 120V and 240V, whereas commercial and institutional buildings may have all three available. It is important to check the voltage available in the area where the kiln will be located as different buildings may have different supplies. Some 240V kiln models will have a higher temperature rating.
Phase — All 208V and 240V service will be either single-phase or three-phase. Nearly all residential service is single-phase, whereas commercial and institutional services may have both available. Single-phase has two current-carrying wires and a ground and three-phase has three current-carrying wires and a ground. They are both equally efficient; however, three-phase supplies allow for smaller wire and some kiln models designed for three-phase will have higher temperature ratings.
Amps — The kiln size you are considering could determine the amperage supplied to the building. Additional amperage may be added to the location by expanding the existing service. Again, refer to your maintenance personnel or electrician to determine the existing amps that are supplied.

Q. What is the maximum temperature you will require?
A. It depends on what type of clay and glazes will be fired in the kiln. Whether you use high or low fire clays will help determine the maximum temperature for your needs.
Clay – High Fire – Cone 5 (2167°F) and higher
Low Fire – Cone 05–06 (1828°F–1888°F)
Glazes – High Fire – Cone 5 (2167°F) and higher
Low Fire – Cone 04–05 (1888°F–1945°F)

Q. What is the maximum chamber size required?
A. The quantity of pieces you want to fire at one time and the size of the artwork being produced must be evaluated to determine maximum chamber size. Keep in mind the volume of work that will need to be fired in busy months.

Q. What safety measures should be taken when firing?
A. Always be present during the end of the firing cycle and cool-down period, to prevent over-firing. The kiln surface emits heat. Do not install near combustible surfaces or under a sprinkler head. Do not touch the surface while firing — wait until cooled to 130°F before opening the lid and always wear heat-resistant gloves.

Q. What is the recommended procedure for firing with a manual kiln?
A. 1. Place the correct jr. cone in the kiln sitter and set the falling weight.
2. Set the timer to 30 minutes past the anticipated firing time.
3. Prop the lid if kiln is not equipped with a downdraft vent.
4. Turn switches to LOW.
5. Two hours later, turn switches to MEDIUM.
6. Two hours later, remove the prop with a gloved hand and turn the switches to HIGH.
7. The kiln will shut off automatically when the proper heatwork has been achieved.

Q. What are the advantages of an automatic kiln?
A. An automatic controller allows the user to create precise, repeatable schedules. This provides consistent results, or more creative control when experimenting. Delay and auto shut-off features increase convenience and safety.

Q. Why vent a kiln?
A. Fumes, odors, and vapors are created when clay bodies and glazes are fired. It is important to clear them out of inhabited spaces for the comfort and safety of those around. Additionally, the venting process affects the firing results. A venting hood will dispel most of the fumes as they escape the kiln. Mechanical downdraft systems improve consistent heat distribution and circulation, as well as remove fumes before they can enter the room, or transfer color from one glaze to another inside the kiln.

Q. Why is it important to have air in the kiln?
A. Clay bodies, glazes, decals, lusters, etc. need air to fire properly. Many problems with color, glaze fit, and porcelain mildew occur because of too little oxygen in the kiln.

Q. What happens to air in the kiln?
A. The products we fire contain carbon and organics. These react with oxygen to form carbon monoxide early in the firing. During firing, the gases in the kiln expand — just like air in a hot air balloon. These gases are forced out through cracks and holes, making it difficult for new air to enter the kiln. A downdraft vent system pulls out the fumes, allowing fresh air to enter.

Q. Are there any health and safety issues?
A. Testing has shown that carbon monoxide produced during firing can be higher than accepted government (OSHA) standards. [35 PPM (0.0035%) for continual exposure or 200 PPM for short term exposure.] Carbon monoxide can produce headaches, fatigue, sore throats, and nausea. Fumes from kilns may also contain organics, volatile metals, fluorides, and sulphur oxides, which should be removed from the work area.

Q. What's the difference between a downdraft vent and a hood?
A. A downdraft vent removes fumes and odors from the kiln while at the same time bringing in air to improve firing conditions in the kiln. A hood system does not vent the kiln. It simply removes fumes that have already entered the room. There are no firing benefits, and only about 85% of the fumes are removed. Conditions in the kiln are not improved with hoods.

Q. What are some of the benefits of a downdraft vent?
A. Air brought into the kiln replaces carbon monoxide and adds oxygen needed for best fired results.
Hot gases are circulated, providing more uniform temperatures.
Oxygen in the kiln reduces corrosion of metal heating elements and kiln sitter parts, increasing their life.
A downdraft vent costs less than two cents per hour to operate. It requires 80% less makeup air than a hood above the kiln and saves up to $1.00 per day for heating or cooling makeup air as compared to a hood.
Manual venting is eliminated — no more touching the hot kiln to lower the lid or replace peephole plugs. The kiln stays closed throughout the firing and cool down is quicker (4-10 hours less) without opening the lid.
Downdraft venting is much more effective than a hood in removing fumes. It does not significantly increase firing time or affect the ability of the kiln to reach temperature.
Most kiln manufacturers recommend and sell downdraft venting. It is easily installed with no overhead pulleys.

ONLY DOWNDRAFT VENTING IMPROVES FIRING CONDITIONS IN THE KILN WHILE REMOVING FUMES FROM THE KILN AND WORKROOM!

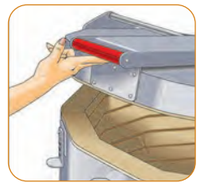
upgrades

PK Power

- **Increased Power.** Power to fire-dense loads to high-fire temperatures without the kiln slowing down.
- **Built Tough.** Equipped with industrial Mercury Relays and heavy-gauge high temperature wire to handle the added power.
- Shown in chart with a "PK" designation. Standard on KM1627 and KM1231 models. Optional upgrade on KM1227.



Lid Lifter Upgrade Kit

• Two-Finger Lifting. Easily lift your kiln lid with just two fingers. Available as an upgrade for your existing Skutt 10- and 12-sided kilns. (This feature is now standard on newly purchased 10- and 12-sided Skutt kilns.) FOB Factory. See page 504 for details.

Skutt® KilnMaster Touchscreen Controller Upgrade

• Upgrade Your Kiln Master Kiln. This kit features touchscreen technology that is super-intuitive and easy to use. A Guided Start feature helps even first-time users successfully enter programs, and an innovative hinge mount allows for positioning the controller to the proper angle for viewing, which eliminates awkward angles when entering programs. A downloadable app allows for remote temperature monitoring. Help Screens walk users through every procedure.

Skutt® Rolling Kiln Stands

Most kiln stands are meant to stay put — not so with these rolling kiln stands from Skutt! Every stand is constructed from heavy-duty, powder-coated, welded steel square tubing and fitted with high-quality, locking polyurethane casters that won't develop flat spots like rubber or plastic wheels. The stands provide the recommended clearances from the kiln to the floor. Ideal for moving your kiln to clean under it, or just for moving it out of the way when not in use. FOB Factory. See page 504 for details.

Skutt® EnviroVent 2 Kiln Venting System

The EnviroVent 2 downdraft ventilation system extracts and vents fumes from your electric kiln that can be emitted from certain clay bodies and glazes when fired. Kiln venting is not only desirable but required by many state building codes. The EnviroVent 2 is UL listed and meets all state and federal requirements for fume ventilation. Downdraft ventilation provides the following added benefits:

- Removes fumes and odors.
- Better bisque, brighter colors, fewer defects.
- Improved heat uniformity.
- UL listed and recommended for every classroom.
- Vent Accessories:

- 8 ft Extension for installations that require longer ducting runs.
- Dual Intake Kit for venting kilns between 12 and 24 cubic feet or two kilns with chamber volumes each smaller than 12 cubic feet.
- EnviroLink automatically turns the vent off when the kiln is done firing. Also can be programmed through the kiln to turn on or off during key segments of custom firing programs. FOB Factory. See page 504 for details.

Amaco® LEAD-FREE LUG Underglazes

Cone 06–10 (1855°–2381°F) LEAD-FREE

Brilliant, ready-to-use colors for covering large areas. Good for detailed painting, sgraffito, watercolor effects, free brush, wax resist, and mishima decoration. These opaque colors may be applied to greenware or bisque. Finish with a clear glaze or experiment with colored glazes for a deeper effect. All are sprayable and food safe when applied under Amaco LG-10 Clear glaze. **Colors can be assorted for quantity pricing.**

MAYCO®

Mayco® Elements® Glazes

Cone 06–05 (1828°–1888°F)

Designed to simulate the aesthetic, movement, and interest of mid-range and high-fire glazes in a Cone 06/05 oxidation kiln firing, Mayco Elements Glazes produce lush, organic, earthy hues inspired by nature. The application, firing temperature, and shape of each pottery piece will influence the outcome of the finished work. Surfaces may vary from gloss to matte, with subtle variations occurring in each color for a truly one-of-a-kind look. These glazes can also be combined or layered to create unique hues. **Colors can be assorted for quantity pricing.**

Amaco® LEAD-FREE High-Fire Glazes

Food safe! Cone 5–6 (2205°–2269°F)

Developed for use on stoneware, these glazes are a beautiful collection of bright and pastel colors that are as colorful as earthenware glazes. The final appearance will change depending on the clay body to which they're applied. These glazes are great when used with contrasting colors, next to, or on top of one another. Excellent results can also be achieved when used over Potter's Choice glazes.

Colors can be assorted for quantity pricing.

AMACO®

Amaco® Celadon LEAD-FREE Mid/ High-Fire Glazes

Cone 5–6 (2205°–2269°F)

Amaco's high-fire celadon glazes are transparent gloss glazes formulated to be 100% mixable. Create your own "celadons" from a palette of 17 hues. Celadon highlights surface textures and brings out the color of the clay. Use C-11 Mixing Clear to adjust transparency and soften colors. Thin with water and Amaco Gum Solution if needed. Shake well before use. Apply three coats of glaze to Cone 04 bisque (let glaze dry between coats). Food safe. AP colors are safe for spray application. **Colors can be assorted for quantity pricing.**

health & safety information

THE ART & CREATIVE MATERIALS INSTITUTE, INC.

The Art and Creative Materials Institute (ACMI) is a non-profit trade association of art and craft materials manufacturers. Since 1940, ACMI has conducted a certification program in which product formulas are analyzed by a renowned toxicologist and certified by ACMI as non-toxic or properly labeled. ACMI certification also ensures compliance to state and federal labeling regulations.

Your safety is our priority. As a member of The Art and Creative Materials Institute (ACMI), Blick strives to ensure that our products comply with all state and federal labeling regulations. In an effort to provide our customers with the latest safety information, we label products with the following ACMI symbols when applicable:

Conforms to ASTM D4236

THE APPROVED PRODUCT (AP) SEAL

Products bearing the AP seal of The Art & Creative Materials Institute, Inc. (ACMI) are certified non-toxic. A medical expert evaluates each product and its ingredients. A product can be certified non-toxic only if it contains no materials in sufficient quantities to be toxic or injurious to humans, or to cause acute or chronic health problems when used as intended. AP certification is reviewed by ACMI's Toxicological Advisory Board. These products are certified by ACMI to be labeled in accordance with the chronic hazard labeling standard, ASTM D-4236 and federal law P.L. 100-695.

Conforms to ASTM D4236

THE CAUTIONARY LABELING (CL) SEAL

Products bearing the CL seal of The Art & Creative Materials Institute ("Caution Label") contain ingredients that are toxic or hazardous, but they can be used safely with appropriate caution. Materials that bear the CL seal should be used only by those persons who are able to read, understand, and follow suggested safety precautions for handling those materials. The Caution Label signifies that although the product contains a toxic element, it can be handled safely if the directions on the container or packaging are followed. Many such art products cannot be made non-hazardous, but are necessary for certain creative activities.

When purchasing art materials for classroom and institutional use, we advise customers to carefully consider the ultimate consumer. In cases where a product may be used in pre-school or primary school classes (K-6), or in environments with physically, mentally, or developmentally challenged persons who may be unable to read or understand safety labeling, we strongly suggest purchasing materials that are AP certified non-toxic products. This will ensure that even the most sensitive populations can safely enjoy art and craft activities.

ASTM

ASTM International, formerly known as American Society for Testing and Materials, is an international standards organization that develops and publishes voluntary consensus technical standards for a wide range of materials, products, systems, and services. Some 12,575 ASTM voluntary consensus standards operate globally. The standards presented here were developed by industry leaders in coatings and manufacturing plus scientists, artists and toxicologist for the betterment and safety of art materials.

ASTM D4236

The Standard Practice for Labeling Art Materials for Chronic Health Hazards describes a procedure for developing cautionary labeling for chronic health hazards in art materials. All art materials sold in the U.S. are required by Federal law (the Labeling of Hazardous Art Materials Act of 1988, also called LHAMA) to conform to this standard, and to display on the container label a statement to that effect: "Conforms to ASTM D4236."

ASTM D4236 requires that a qualified toxicologist, who determines which products must carry a warning statement and safe handling instructions, must evaluate all art materials. The standard includes tables of chronic hazards and precautionary statements that companies are required to place on product labels — these hazards and precautionary statements are based on current and developing knowledge that exists in the scientific and medical communities. The Consumer Product Safety Commission has been charged by Congress to enforce use of this standard.

ART MATERIALS FOR ALL AGES

Federal law requires that all art materials offered for sale to consumers of all ages in the United States undergo a toxicological review of the complete formulation of each product to determine the product's potential for producing adverse chronic health effects and that the art materials be properly labeled for acute and chronic hazards, as required by the Labeling of Hazardous Art Materials Act (LHAMA) and the Federal Hazardous Substances Act (FHSA), respectively. Art materials that are designed or intended primarily for children 12 years of age or younger must meet additional requirements (see below). After the chronic hazard review has been performed, the toxicologist will then recommend the appropriate statement to label that the product conforms to ASTM D4236. The FHSA also requires that a manufacturer affix cautionary labeling to art materials for certain acute and chronic hazards if those substances meet the definition of "hazardous substance" under the FHSA.

ART MATERIALS FOR CHILDREN UNDER 12 YEARS OF AGE & THE CPSIA

In addition to the LHAMA requirements detailed above, art materials that are designed or intended primarily for children 12 years of age or younger are also required to comply with the requirements of the Consumer Product Safety Improvement Act of 2008 (CPSIA). The CPSIA requires that manufacturers (this term includes importers) of children's art materials must test and certify compliance of such products before importing the products or distributing them in commerce. Manufacturers must submit samples of their product to a third-party laboratory whose accreditation has been accepted by the Consumer Product Safety Commission (CPSC).

PROPOSITION 65 WARNINGS

The State of California requires clear and reasonable warnings on products and/or storage containers containing chemicals that have been shown to cause cancer, birth defects, or other reproductive harm. Even if these products contain only trace levels of harmful chemicals, a warning is required by the State of California. Manufacturers of certain products have included warnings pursuant to California Proposition 65, and caution is recommended when using products marked with the Prop 65 icon. For more information, go to **P65Warnings.ca.gov.** Products marked with either of these symbols (■ or ▼) carry the Proposition 65 warning.

metric to U.S. conversion

To compare the most common sizes of paint tubes, brushes, and other art materials, refer to the charts below.

ASTM D4302

Standard Specification for Artists' Oil, Resin-Oil, and Alkyd Paints. A standard for the labeling, composition, physical properties, lightfastness and performance requirements for these types of paints. Artists' paints that conform to this specification will have the following statement on container labels: "Conforms to ASTM D4302."

ASTM D5067

Standard Specification for Artists' Watercolor Paints. A standard for the labeling, composition, physical properties, lightfastness and performance requirements for these types of paints. Artists' paints that conform to this specification will have the following statement on container labels: "Conforms to ASTM D5067."

ASTM D5098

Standard Specification for Artists' Acrylic Emulsion Paints. A standard for the labeling, composition, physical properties, lightfastness and performance requirements for these types of paints. Artists' paints that conform to this specification will have the following statement on container labels: "Conforms to ASTM D5098."

ASTM D5724

Standard Specification for Artists' Gouache Paints. A standard for the labeling, composition, physical properties, lightfastness and performance requirements for these types of paints. Artists' paints that conform to this specification will have the following statement on container labels: "Conforms to ASTM D5724."

POISON CONTROL CENTERS

If you have a poisoning emergency, call 1-800-222-1222. If the victim has collapsed or is not breathing, call 911. By dialing the above toll-free telephone number, you will be connected to the closest poison control center to your calling location. All poison control centers and emergency room physicians in the U.S. have 24-hour access to toxicological information and generic formulas for products certified by The Art & Creative Materials Institute, Inc. (ACMI) on behalf of its members, including Dick Blick Art Materials. For additional poison control information visit www.aapcc.org.

CE MARKING

CE Marking on a product is a manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety, and environmental protection legislation. The letters "CE" are an abbreviation of "Conformité Européene," which literally means "European Conformity." CE Marking on a product indicates to government officials that the product may be legally placed on the market in their country, ensures the free movement of the product within the European Free Trade Association and European Union single market, and permits the withdrawal of non-conforming products by customs and enforcement/vigilance authorities.

SAFETY DATA SHEETS

In response to the Right-to-Know laws concerning toxic substances in the workplace, Blick Art Materials will supply this information to you.

In an effort to make SDS information more easily accessible to our customers, all Safety Data Sheets are now posted online and can be easily accessed directly from our product pages.

To find SDS sheets online, simply go to the page of any product in which you are interested. If an item has an SDS sheet on file, you will see the SDS icon in the item listing table. Click on the icon to directly access the SDS information for that product.

To submit a request for SDS by mail, phone, or fax, please specify the Blick item numbers and give a description of each product for which you need a data sheet. We will review your request and supply sheets for those items that require them. Direct your request to our SDS Coordinator:

VOC RESTRICTIONS

Due to state laws that place limits on the shipping of Volatile Organic Compounds (VOCs), Blick Art Materials cannot ship some sizes of paint thinners or multi-purpose solvents to addresses within the following states: California, Connecticut, Delaware, Maryland, New Hampshire, and Utah.

TEMPERA PAINT CARE & STORAGE TIPS

Tempera paints and poster paints that are intended for children and classroom use often contain organic binders that are subject to spoilage and degradation if not used or stored properly or used within the recommended period of time. While a slight odor is natural, a strong, very unpleasant odor indicates the paint has spoiled. It should be discarded.

Proper Storage:

- Store paint in a cool, dry place.
- Extreme temperatures (above 90°F or below 32°F) can harm the paint.
- Remove the cardboard piece from the lid when storing, especially in hot or humid conditions.
- Date and rotate paint stock, using the oldest first.
- Open paint containers should be used within six months. Use unopened paint containers within two years.
- If paint is near its shelf life when opened, use it promptly.

Prevent Contamination:

- Portion paint into smaller, resealable containers as needed.
- Avoid working directly from the original product container. Do not place brushes, hands, used pumps, used paint, or different types of paint in the original container.
- Do not dilute paint in the original container.
- Use clean utensils when handling paint.
- Tightly seal the cap between uses.

Scholastic Art & Writing Awards

Alliance for Young Artists & Writers

Blick is proud to sponsor the prestigious Scholastic Art Portfolio Gold Medal Sponsorship, provide awards to more than 70 regional Art Affiliates and 1,000 Gold & Silver Medal teachers, and sponsor the yearly traveling exhibition.

Mission: To identify students with exceptional artistic and literary talent and present their remarkable work to the world through the Scholastic Art & Writing Awards.

artandwriting.org

Fresh Artists

In partnership with Fresh Artists, our national Give & Get program provides a way for customers to donate art supplies to local, underfunded public schools.

Mission: To empower K-12 children as philanthropists and change makers, to advocate for quality public education by displaying reproductions of their art in highly visible and unexpected places, and to ensure all children have access to art by delivering art supplies and innovative art programs to severely under-funded public schools.

freshartists.org

Youth Art Month

An annual observance held every March, Youth Art Month (YAM), directed by The Council for Art Education, emphasizes the value of art education for all youth and encourages support for quality school art programs. Blick is proud to support YAM events throughout the year.

Mission: The Council for Art Education, Inc. promotes visual art education for all K-12 students, and encourages funding for quality school art programs.

DonorsChoose

Need art supplies for your classroom? Meet the funding community as big as your students' imaginations. Blick is honored to be a select vendor supporting the DonorsChoose vision.

Mission: We make it easy for anyone to help a teacher in need, moving us closer to a nation where students in every community have the tools and experiences they need for a great education.

information | SUPPORT FOR EDUCATORS

Lesson Plans & Video Library

Bring creativity to any teaching experience with Blick Lesson Plans. Created for all ages and skill levels, every project also meets National Core Arts Standards – Visual Arts. Download a PDF or view videos at **DickBlick.com/lesson-plans.**

Find eight new Lesson Plans for 2025 on pages 4-6.

Write a Review!

Product reviews are an important source of information for those who purchase art supplies and other products and services. Blick product reviews serve a variety of purposes, but most importantly, they give our customers a way to share their opinions with us — and to help fellow artists and teachers make future purchase decisions.

Future Orders

A future order is a terrific way to have what you need, when you need it — without scrambling at the start of the semester. Simply send us your order and tell us when you'd like it to ship. We'll hold your supplies until that date, and you won't be invoiced until your order ships. Plus, product availability is much better when you order in advance!

National Art Education Association

and State Art Education Organizations

The National Art Education Association is the leading professional membership organization exclusively for visual arts, design, and media arts education professionals.

Blick is proud to be a Diamond Sponsor of the NAEA National Convention, where thousands of art educators from around the U.S. and the world come together each year for professional learning, connectivity, creativity, and inspiration. Blick awards two annual grants for art educators to attend the conference.

Blick also provides sponsorship, resource exhibits, workshops, advertising support, professional development support, product samples and more to State AEA organizations for their conferences and professional development events throughout the year.

Quick Quote

Shop → Quote → Order

Quick Quote is an on-demand quote and requisition tool for schools and organizations.
In a few easy steps, you can take your shopping list from quote to order. Learn how to get an instant quote and discover flexible options for sharing, placing orders, and editing lists at **DickBlick.com/lists/quick-quote.**

1. **Build a Shopping List** – Sign into your account to curate a shopping list of needed items.
2. **Get a Quick Quote** – Obtaining a quote is quick, easy and carries no obligations.
3. **Download or Share Quote** (optional) – Useful for sharing your quote with an order approver or placer. Download, print, or email your quote in seconds.
4. **Edit Your Quote** (optional) – Forgot an item or need to trim your list before ordering? Add or remove items and get an updated quote for as long as your quote is valid.
5. **Place Order** – Quick Quote orders can be placed by the list creator or a list reviewer. Order the entire list or select items.

BLICK® U
COURSE SUPPLY LISTS

Blick U Course Supply Lists are an easy way for instructors to collect and publish a list of all the supplies needed for a course. Students simply search for their state, school, and course, select the list, and move the materials into their shopping cart in just one click! To learn more, visit **DickBlick.com/lists/blick-u.**

BLICK® wish lists

Wish lists are a convenient way for individuals to keep track of items they would like to have. You can share these lists with others (a public Wish List), making gift-giving easy, or you can keep the lists to yourself (a private Wish List) to keep track of your own needs. You can create as many Wish Lists as you'd like and use them for different occasions or needs!

on-account purchasing

Schools and business that have established an account with Blick and have completed a credit application may purchase on-account at DickBlick.com or through traditional purchasing channels.

HOW DO I SET UP AN ACCOUNT?

If you are a school or business and have never purchased from us, follow these simple steps:

1. **Contact our Customer Care Department:** Call the Customer Care Department at **800-447-8192** (7am-9pm CST) to speak with a Blick representative, who will ask you to provide basic information about your school or company and create an account for you.
2. **Fill out a Credit Application:** Download and complete the Credit Application document. Email the completed credit application to **credit@dickblick.com** or fax it to 888-467-3190. Allow 3-5 business days for the credit application to be processed. Once approved, any pending orders will be filled.

ePROCUREMENT INTEGRATION

If you are interested in integrating your eProcurement system, email **contracts@dickblick.com** to investigate available options.

DOWNLOADABLE ORDER TO CSV FILE

When shopping at DickBlick.com, cart contents may be downloaded in CSV file format, which is often compatible for requisitions and approvals within procurement systems. At the top of the shopping cart page is an option to “Download Cart”. Once clicked, cart contents will be exported to a CSV file.

STATEMENT, INVOICE, & PAYMENT SITE

Schools and businesses purchasing on-account may register on our Statements Management Site at **DickBlick.com/statements** for 24/7 access to:

- View, print, download, and email statements and invoices
- Submit E-check payments
- View on-account balance and details

Note: Once you’ve created your account, add **credit@dickblick.com** to your verified senders list and avoid emails blocked by spam filters. Please share your login details with your accounting supervisor.

FUTURE ORDERS

Skip the stress of ordering classroom supplies when the school year starts – place an order ahead of time and we’ll send it to you when you need it.

Advantages of Future Orders:

- Best Product Availability
- Just-In-Time Delivery
- Invoices Align with Budgetary Timing

How it Works:

1. Prepare your supply list in advance of the date needed.
2. Place your order as soon as you are able and indicate the date you would like your order to ship. If ordering online, select “I would like this order to be billed and shipped to me at a future date” in the shipping address section of checkout.
3. Blick will pack and hold your order until the selected date.
4. You won’t be invoiced until your order ships.
5. Your order arrives on time and complete.

contracts, quotes & school discounts

CONTRACTS:

Blick provides proposals for numerous national, regional, and local contracts. Contact our team with your upcoming procurement opportunity at **contracts@dickblick.com**.

QUOTES:

Use our online **Quick Quote** tool to receive an official quote instantly. Simply add desired items to your shopping cart, select “Move All to List - Create a New Quick Quote”, and then follow the prompts to complete your online quote.

For personal assistance, contact your Account Specialist – see contact information to the right. When requesting a quote, be sure to include the name and address of your school or business, along with a list of items including the Blick item numbers and quantities desired. You may attach a copy of your Blick shopping cart. Please allow up to two business days for this service.

DISCOUNTS:

If your school or organization purchases a large quantity of art materials from Blick throughout the year, contact us about discount eligibility for stocked items, or to discuss your account’s current discount status.

ORDERING/ACCOUNT QUESTIONS

If you have placed an order but have not received it, or if you are checking on a backorder, call our Order Department at

800-447-8192

Monday-Friday, 6 a.m. – 10 p.m. (CST)
Saturday-Sunday 7 a.m. – 6 p.m. (CST)
or email custservice@dickblick.com.
or visit DickBlick.com.

DAMAGE AND SHORTAGE

Be sure to count parcels and inspect the shipment before signing the delivery receipt. If damage or shortage is apparent upon receiving your shipment, please note it on the delivery receipt. Have the delivery driver sign the receipt and verify that there is damage. Save the damaged package or carton for inspection. **Open all packages immediately and inspect merchandise to verify it is in good condition.** If concealed damage (damage to materials inside a package with no external damage evident) is uncovered, notify us at once. Pictures of the damage is encouraged for all truck shipments. Check your merchandise against the packing slip. If an overage or shortage exists, we require you notify Blick Customer Service at

800-723-2787

within 30 days after receipt of the merchandise.

OUR RETURN POLICY

Blick will refund the full merchandise value up to one year from the time of purchase. For faster processing, we recommend items be returned within 30 days of receipt and in their original packaging and resalable condition. Return freight that is sent back to Blick is the responsibility of the customer unless: a) Blick Customer Service is notified within 30 days of receipt, AND b) the item received arrived damaged, OR c) the item received was not what was ordered. Factory direct merchandise returned as a result of a customer order error will be subject to a minimum 15% restocking fee and is the responsibility of the customer. Blick is not responsible for any lost or stolen packages.

For more ordering information, see page 504.

TO REQUEST A CATALOG

Call 800-447-8192, 24 hours a day, seven days a week, email **circulation@dickblick.com**, or visit **DickBlick.com/customer-service/catalogs**

SAFETY DATA SHEETS

In an effort to make SDS information more easily accessible to our customers, all Safety Data Sheets are now posted online and can be easily accessed directly from our product pages. **To submit a request for SDS** by mail, phone, or fax, please specify the Blick item numbers and give a description of each product for which you need a data sheet. We will review your request and supply sheets for those items that require them. Direct your request to ATT: SDS Coordinator: Blick Art Materials, PO Box 1769, Galesburg, IL 61402-1769. You may also call 309-343-6181, send a fax to 800-621-8293 or email **sds@dickblick.com**.

Attention: Order Department
PO Box 1769
Galesburg IL 61402-1769

When ordering by mail, please use the adjacent order form. Be sure to include:
1. "SOLD-TO" INFORMATION (the name and address of the party responsible for paying for the order), and the **"SHIP-TO" INFORMATION** (if the delivery of the order is to another party). To avoid billing errors, always use the same individual or institution name that you have used on previous orders. If you have your customer number, please include it on the order form — your order will be processed faster! (Your customer number may appear on the back cover of this catalog.)
2. METHOD OF PAYMENT. If you are paying with a credit card, fill in your complete number, expiration date, address to which your credit card company mails your statement, and sign your name on the signature line. If you are using a mail order gift certificate, please indicate the amount of the certificate on the order form and enclose the gift certificate with the order. If you are using a gift card or e-gift card please include the number and amount.
3. ITEMS ORDERED. Fill in the entire item number and description of each item ordered. Also, include the quantity, page number, size/color, unit price, and total. For items ordered by the "set," indicate the number of "sets" desired — not the number of articles in the "set."
When you place an order through our catalog, we collect your name and contact information to record your purchase and fulfill your order. We also collect credit or debit card information to complete your purchase. For more information on how we collect and use your personal information, please see our Privacy Policy at https://www.dickblick.com/privacy/.

TO ORDER BY PHONE:

NOTE: Shipping offer is valid on orders from this catalog only.
*Residential shipments may be shipped by FedEx Economy.
**Orders shipping to Alaska, Hawaii, Puerto Rico, the Virgin Islands, APO/FPO addresses, and the U.S. Pacific Territories will require a freight quote, with a minimum charge of $14.95.
***Only available for residential deliveries.

Some products and orders may only be shipped via specific carriers and must be delivered to a physical address. Please provide both a mailing address and a physical address to ensure timely delivery of your order.
Due to continuing volatility in fuel costs, shipping charges are subject to change without notice.

• Items that have "AF" included in the item number will receive a freight quote for air shipment. Air orders shipping to Alaska and Hawaii, as well as orders with a total weight of more than 40 lbs, will receive a freight quote.

TERMS OF PAYMENT — We accept personal and institutional checks, money orders, Blick gift cards, Blick gift certificates, PayPal, Apple Pay, and VISA, Mastercard, Discover/NOVUS, American Express, Optima, Diners Club, and JCB credit cards. No C.O.D. shipments. No individual open accounts. Schools, institutions, government agencies, and businesses with suitable credit may be extended net 30-day payment terms (with accompanying purchase orders) upon approval of a credit application. Customers who don't maintain accounts within terms are subject to suspension or cancellation of credit. Credit customers may opt to use our Customer Account Website (DickBlick.com/statements) for 24/7 access to account details, to download/view/print/email copies of invoices, and to pay invoices with a credit card or e-check. Credit customers may register to receive invoices and statements by email. For a credit application, or for any other credit inquiry, contact Credit@dickblick.com or call **800-447-1892.**

CHECK POLICY: Upon receipt, your check may be converted into an electronic debit and processed according to Federal Reserve rules. Receipt of the check will be deemed to be your authorization for an Automated Clearing House (ACH) debit entry to your account, which in most cases will be posted to your account the following day. If your check is dishonored or returned for any reason, we will electronically debit your account for the amount of the check plus a legal limit of a processing fee as per state law.

PRICING/AVAILABILITY — All Prices Are Subject To Change Without Notice. Blick is committed to doing our best to make the necessary sacrifices so that prices in this catalog can be honored throughout 2025. However, should vendors provide unanticipated price increases, we cannot guarantee printed prices in this catalog – all prices are subject to change without notice. As always, Blick reserves the right to typographical errors.

SHIPPING AND HANDLING CHARGES — **Merchandise orders totaling $69 or more ship freight-free via FedEx Economy whenever possible. Oversized or overweight orders will ship via a freight line. In those cases, the free freight offer includes curbside delivery only. Other services performed at the time of the delivery such as lift gate and inside delivery will incur additional charges. The average transit times will be extended for freight line deliveries and a delivery signature will be required. All other orders, see shipping charges above.**
EXCEPTIONS: Additional shipping charges will be added to factory-direct (FOB) shipments; oversized or overweight orders that require lift gate and/or inside delivery; international and U.S. Territory orders; and shipments to Alaska, Hawaii, and Puerto Rico. Shipment of the following stocked art materials will be billed at an additional cost: linoleum rolls; stretched canvas 36" x 36" and larger; oversized panels; select oversized frames; any combination of clay, plaster, and molding material totaling 50 lbs or more; packages of foamboard; all GBC Classiccut Ingento Cutters and Trimmers; the Blick 906 Model II Etching Press, the Blick 999 Model II Etching Press, the Blick Master Etch Model II Press, and all Blick Model II Benches; all kilns and pottery wheels; and some shelters. Paper or boards may be assorted to reach the quantity of 10. Some stocked furniture items will be shipped by truck and billed at an additional cost.

SHIPPING METHODS — Depending upon the items ordered and destination, shipments to a residential address may be delivered by the local post office. Oversized or overweight orders may ship via freight line. In those cases average transit times will be extended and a delivery signature is required. Items shipped using FedEx Fast2Day service will be received by the customer within two business days, and will be shipped via air or ground. Please note that hazardous items cannot be shipped to destinations outside the continental U.S. Schools should allow two to three weeks delivery time for orders placed from July 1 through September 30.

PAPER & BOARD ORDERS — When ordering sheets of paper or board larger than 18" x 24" in quantities of less than 10, a per order handling fee applies. Paper or boards may be assorted to reach the quantity of 10.

TRUCK SHIPMENT — Delivers your order to your curb or dock. The charge varies based on distance,weight, bulk, and other factors. While all carriers establish their own rates for delivery, our shipping department selects the best carrier based on service, price, and availability. A physical address and phone number are required for delivery. The minimum charge to a commercial address is approximately $200. For an additional $45 charge, a smaller truck with a lift gate will lower your merchandise from the truck to the ground. For certain zip codes in NY and NJ, the lift gate fee is $75. For an additional $30 charge, your order can be moved from the curb to a ground-level location just inside your door. Delivery drivers cannot move items up or down stairs or to a specific location. Uncrating and disposing of packing materials is not included. Consolidating two or more orders should be considered to make the most of the minimum charge. Schools should allow three weeks delivery time for truck shipment orders placed between July 1 and September 10. Questions? **Call 800.447.8192**.

FOB FACTORY AND OVERSIZED ITEMS — Items that include "AF" in front of the item number will, in most cases, be shipped directly from the factory and will not qualify for our free freight offer unless otherwise stated. Additional shipping charges do apply for these items. If you have any questions call 800-447-8192. Please allow additional time for delivery. Some items shipped directly from the factory may not be available for express shipping.
