PAINT CARE TIPS

- Always store paint in a cool, dry place. Extreme temperatures, such as freezing or above 120 °F, can cause pigment settling and viscosity changes that may make the paint unusable.
- Opened paint containers should be used within 6 months. Unopened paint containers may be stored for up to 2 years. If opened at the end of the shelf life (2 years), the paint should be used as quickly as possible.
- To prevent cross contamination of the paint, which may cause it to degrade and spoil, follow these steps:
 - Pour amount of paint to be used into smaller, resealable containers. And be sure to use fresh water to clean your brushes when working out of the smaller containers.
 - Do not pour used paint back into the original container.
 - Do not dilute product in the original container.
 - Do not dip brushes or other applicators into the original container.By following these steps, if contamination occurs, only a small amount of paint will be lost, not the entire container.

- Always be sure to close cap/lid tightly after each use and to permanently remove and dispose of any seal on the container or in the cap/lid.

2023 PRICING NOTE

Blick is committed to doing our best to make the necessary sacrifices so that prices in this catalog can be honored throughout the term of the publication. However, as vendors provide mid-year price increases, we cannot guarantee printed prices in this catalog — all prices are subject to change without notice. As of now, no more than a handful of products required mid-year adjustments, but this year may be an exception. Further, continuing supply chain disruptions have made it difficult to stay in stock on select items, and unfortunately vendors are taking much longer than usual to fill back orders. We ask for your understanding in these unprecedented times. As always, Blick reserves the right to correct typographical errors.

Take the guesswork out of relief printing! Created by fusing a thin layer of a traditional gray carving block to a thicker white block, Readycut lets artists simply carve away the gray layer to reveal the white and instantly see how their image will look printed. It has an infinite shelf life and is soft enough for students of all levels to work with. The plates measure 3/16" thick.

Speedball® Ceramic Underglazes Class Packs

Cone 06–10 (1855°–2381°F)

Bright, intense colors that are highly saturated for spectacular results, these underglazes are compatible with Speedball Earthenware Glazes, and can be used for a variety of decorating techniques. They may be applied to greenware or bisque and can be blended. The liquid, opaque colors will not move or bleed, making them perfect for detailed painting, design work, and sgraffito. Because they're lead-free and clean up easily with water, they're ideal for classroom use. These underglazes are dinnerware safe when used and fired as directed. However, tableware producers should have finished ware lab tested to determine dinnerware suitability due to firing variances and contamination.

BLICK® ESSENTIALS GLOSS GLAZES

Blick® Essentials Gloss Glazes

Cone 06–05 (1828°–1888°F)

Blick Essentials Gloss Glazes come in a variety of bright, true colors that can be intermixed to create an infinite palette of colors. Non-toxic, non-hazardous, and food safe, these glazes glide smoothly onto bisque, with a self-leveling formula that eliminates brushstrokes from the fired finish. They dry quickly, speeding up handling time and allowing for the application of additional decoration. They also won't dissolve or pick up previous coats of glaze. Because they fire to a high-gloss finish, no clear glaze is required. ACMI-certified. Pints.

National Public Seating® Fixed-Height Stool

Quality, durability, and style are the standards for this superior stool. Its seam-welded 18 gauge steel frame and gray enamel finish with polyethylene feet stand up to heavy use. The 14" diameter seat is fastened to the frame with eight rivets — double the number found in most stools — which helps prevent warping. It also includes a foot ring that's welded to each leg giving the stool the added strength to withstand daily use. FOB Factory. See page 47 for details.
