Retailer Catalogue
Collection 2026

Off to a new
strong
school backpack-
season

Trust you can feel. joy you can see.

Parents look for reliability in a school bag. Children want a school bag that brings them joy. ergobag fulfils both these wishes – on more than 170 school days in the year and beyond.

Along with you, we accompany hundreds of thousands of children to their first day at school every year – with outstanding advice and products that combine the requirements of parents and children alike.

For 15 years, ergobag has successfully combined ergonomic expertise and thoughtfully designed functionality with child-friendly, cheerful designs like no other brand, while never losing sight of one thing: Values that count. With ergobag, we set standards for the sustainable use of resources and responsible treatment of all people involved in the production of our products.

**Welcome to the world
of ergobag.**

What makes ergobag so special?

We have your back... and strengthen it too

Children carry an average of 5.5 kg on their shoulders at school.¹⁾ We can't change this, but we can offer a great solution. This is why we developed an ergonomic carrying system that protects small backs from the first to the last day of primary school, adapted to the size of the child.

Colorful, just like life on the school playground

Every child is unique – and so are our backpacks. We have a great range of prints and colors, so each child can find its personal match. With different accessories they can even customize their bags according to their own ideas and wishes.

Fair and green – for our children

We want to achieve great things, while leaving the smallest possible ecological footprint. We give our all to create fair working conditions at our production sites. For this reason, the independent Fair Wear Foundation has continuously awarded us Leader status since 2018.

Simple organization
Everything in the right place thanks to thoughtfully designed features

Snack-safe
Waterproof front pocket

ergobag ergonomic system
Even weight distribution, anatomical design, and individual size adjustment

Reflectors
for greater visibility in traffic

For more individuality
Hook-and-loop surfaces can be individually designed

Splash protect
Puddle-proof and stable base

¹⁾ Source: Techniker Krankenkasse (German health insurance) - 25.07.2023

²⁾ The outer fabrics of our school bags are made from 100% recycled textiles or recycled PET bottles.

The ABC of ergonomics

Schoolchildren carry a lot of weight on their shoulders. This is why they need an ergonomic carry system that allows optimum weight distribution, has a perfect anatomical fit, and offers outstanding height adjustment.

Certified by
IGR Institut für Gesundheit und Ergonomie
 German Institute for Health and Ergonomics

A Even weight distribution

Weight is distributed across the shoulders, chest ...

... back ...

... and hips.

B Anatomical design

3D back support
 rests optimally against the lower lumbar region thanks to the S design.

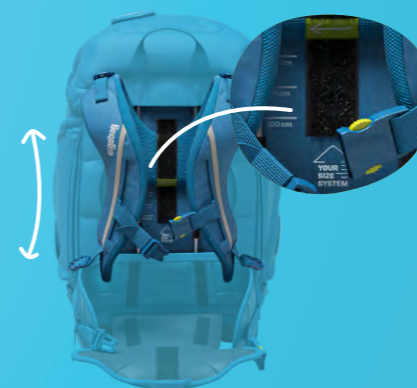

Wide hip belt
 sits perfectly on the pelvis thanks to its large surface area and stable design.

Butterfly straps
 fit snugly against the torso.

C Individual size adjustment

Your-Size-System
 enables individual size adjustment from 100 to 150 cm (120–170 cm with the ergobag maxi).

Adjustment straps
 guarantee optimum fit and a perfectly straight backpack.

Collect. Recycle. Rethink.

Leading the way at school with ergobag. And also when it comes to recycling: thanks to school bags made from recycled bottles (prime), and now also from recycled old textiles (flex).

Fabrics made from recycled **PET bottles**

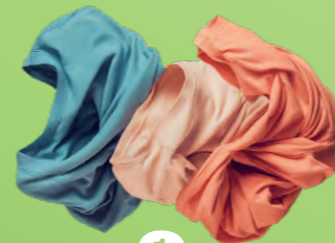

Fabrics made from **old textiles**

Yarn production

4

Fabric production for school bags

The further we go, the smaller the ecological footprint.

Award-winning

Together with the Fair Wear Foundation, we are working to ensure fair and safe working conditions in our production facilities. Only a few textile companies have Fair Wear Leader status. And we are one of them. In addition, our leisure backpacks are German Green Button-certified.

Durable

Our development team specifically selects robust fibers and yarns that are comprehensively tested in the textile laboratory for abrasion resistance, pilling, color fastness, tear resistance, and water resistance. This ensures that the school bag can withstand the rigors of everyday school life.

Environmentally friendly

We use PFC-free waterproofing and bluesign®-certified fabrics to ensure chemically safe and environmentally friendly production.

prime

The ergonomic

The school backpack has space for everything needed at school, and grows with the children during primary school.

Height-adjustable
Thanks to the "Your-Size-System", the backpack grows with the child from 100 to 150 cm.

Flexible
The interior layout can be flexibly arranged.

Clever
Gym bag can be attached to the schoolbag.

flex

The flexible

This school backpack features a carry system that is inspired by outdoor backpacks. And weighing in at 870 g, it is a real lightweight.

NEW
PRODUCT

Flexible top
emphasizes the cool
backpack look

Magnetic buckle
closes magically easily

Water-repellent
thanks to
PFC-free coating

Two hook-and-loop areas
for the favorite Kletties

Hangie loop
for personal lucky
charms

Fix side pockets
for an umbrella
or small items.

Front pocket
with space
for a lunch box

Height-adjustable
Thanks to the "Your-Size-System",
the backpack grows with the child
from 100 to 150 cm.

Flexible
With its 23-liter capacity and
flexible layout, it holds everything
needed for school.

Gym bag can
be attached to the
schoolbag.
