

6 reasons to fall in love with AmFiber™ Performance Paper

There's lots to love about our recycle-ready, paper-based packaging solution. Discover six reasons why it's the perfect partner for your confectionery products.

1

Recyclability

It contains over **80%** paper fiber content and is **PVDC-free**, meaning it can be recycled in many countries.

2

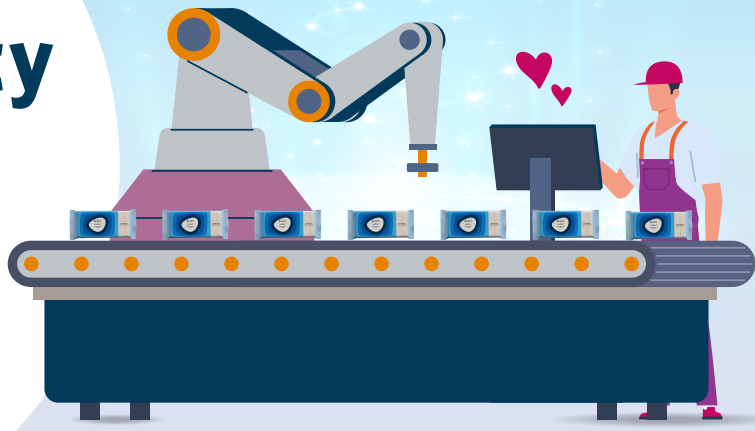

Freshness

With high moisture, oxygen, and grease barrier properties, it **preserves freshness and shelf life** comparably to plastic solutions.

3

Machinability

It's designed to **run efficiently on your existing packing and filling lines** – without compromising on speed.

4

Applications

It's great for sweet treats like chocolate and cereal bars with a **flow wrap cold seal focus**.

5

Sustainability

Sourced from **FSC®-certified materials**, it helps us – and you – responsibly manage renewable resources.

6

Consumers adore it

Demand is rising for **paper-based packaging**. AmFiber™ Performance Paper offers a more sustainable option which **retains freshness and stands out on the shelf**.

The material structure includes paper for repulpability, a barrier layer, and a cold seal coating.

- Recyclable
- Easy to Run
- High Barrier Properties
- Appeals to Consumers
- Retains Freshness
- More Sustainable

Your perfect partner for recycle-ready, paper-based packaging awaits.
