SMART SOLUTIONS FOR EVERY SCHOOL

ABOUT OCEAN SPRAY

Ocean Spray® Cranberries, Inc., is a cooperative that began with just three farmers in 1930 and has grown to over 700 family-owned farms across North America. We've been committed to delivering the highest quality fruit-based products while supporting the people and places that make it all possible.

Still rooted in real fruit, and still committed to doing good through every product we make, our purpose is simple: connect farms to families through better food. That means putting people, planet, product, and prosperity at the heart of everything we do.

WE'RE PROUD TO BE:

- **Farmer-Owned:** Every purchase supports American agriculture
- **Rooted in Real Fruit:** Cranberries are a superfruit powerhouse
- **Committed to Quality:** We comply with all relevant food and safety standards, delivering safe, compliant, premium-quality products, year-round.
- **Focused on What Matters to You:** Shelf-stable, convenience, easy-to-serve packaging, and a variety of flavors kids love
- **Trusted Since 1930:** A brand schools and families know and rely on

Whether it's juice or dried fruit, we're here to help schools serve tastier options that kids enjoy, and nutrition directors can feel good about.

HARVEST PROCESS

EVERY AUTUMN

Cranberries reach their peak of color and flavor and are ready for harvesting.

BOG IS FLOODED

Bog is flooded with up to 18" of water the night before the berries are harvested.

LOOSEN FROM THE VINE

The growers use "eggbeaters" to loosen the cranberries from the vine. Because cranberries contain four pockets of air they float to the top of the surface.

CORRALLED & SHIPPED

Ocean Spray uses 95% of the berry to use in a mix of branded products and cranberry ingredients.
