

Tutorial

Critter Bookmarks

When it's time to tuck your book away, this cute little critter will hold your spot. You can add a personal touch by writing your name on their belly, and make extras for your friends and family.

(It makes a great teacher gift, too!)

Materials needed:

① Printer

② Heavy print paper/regular print paper and cardstock

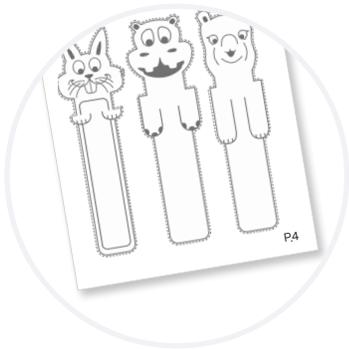

③ Colouring materials (like crayons, coloured pencils, markers or paints)

④ Scissors and glue

Instructions:

① Print the bookmark on page 3 and outline in black and white on heavy print paper. Or, print it on regular paper and glue it to cardstock. Also, you can make your own critter by cutting out shapes with construction paper.

② Colour your bookmark with the colouring material of your choice.

③ Cut out your bookmark, and grab a book!
