PISA table

Design Desigence

ISKU

MEASURES

1400: the table comprises a pair of end trestles, possibly an intermediate set and the table top. The table top depth can be either 70 or 80 cm and the width 120–200 cm.

1401: Depending on the size and model of the table top, three or four legs are used. It is recommended to use primarily O table tops (three legs with tops O6 and O9, and four legs with top O11), but legs can also be combined with square table tops if necessary.

1402: Pisa 1-person and 2-person lecture tables can be stacked and linked together easily. Pisa lecture tables are linked with the legs without any additional fittings. The tables can be fitted with hooks for backpacks on one or both sides. Table top sizes:

60x45 cm Pisa 1-person lecture table (V6 top)
120x45 cm Pisa 2-person lecture table (V12 top)

70x50 cm Pisa 1-person lecture table (cast edge top)
130x50 cm Pisa 2-person lecture table (cast edge top)

MATERIALS

Metallic parts: graphite, silver, black, white, blue, green, burgundy or chrome. Iskus wide selection of table tops can be used.

MORE INFORMATION

Pisa product family also includes pipe frame, sled base and cross base. The chairs can have the feature, where they can be fastened on the edge of the table, which makes it easier to clean the floors. The table tops are melamine-coated or laminate. Available antimicrobial.

MIX

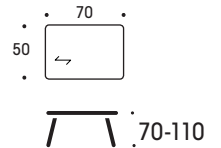

1522

MATERIALS

The frame colour options are silver and white. Pads are always black. The desk height can be easily and quickly adjusted using the plastic adjustment lever on the right side of the desktop.

ISKU

MORE INFORMATION

The gas spring allows the desk height to be optimised for students with different heights for working while both standing up and sitting down. The desk features trigger-operated gas-spring adjustment, 40 cm adjustment range. The table leg does not extend past the table top area, so the desks can also be easily arranged into group workstations with individual working height adjustment for each user. Suitable table tops: 70x50 cm top with normal edge or with cast edge. Available with antimicrobial top.

MEASURES

The height of the screen is 214 cm and the screens have four optional widths: 51 cm, 81 cm, 101 cm and 121 cm. The Air screen system contains also lockable sliding doors. The width of the sliding door has three options: 80 cm, 100 cm or 120 cm. When the sliding door is installed, the width of the actual doorway is 72 cm, 92 cm or 112 cm.

MATERIALS

The elements of Air screen are 1 cm thick hardened safety glass.

MORE INFORMATION

The visibility through the screen can be reduced with stripes.

Christian Halleröd

29693

COLOUR OPTIONS

LTH = Blazer Lite. LDS = Synergy.

MORE INFORMATION

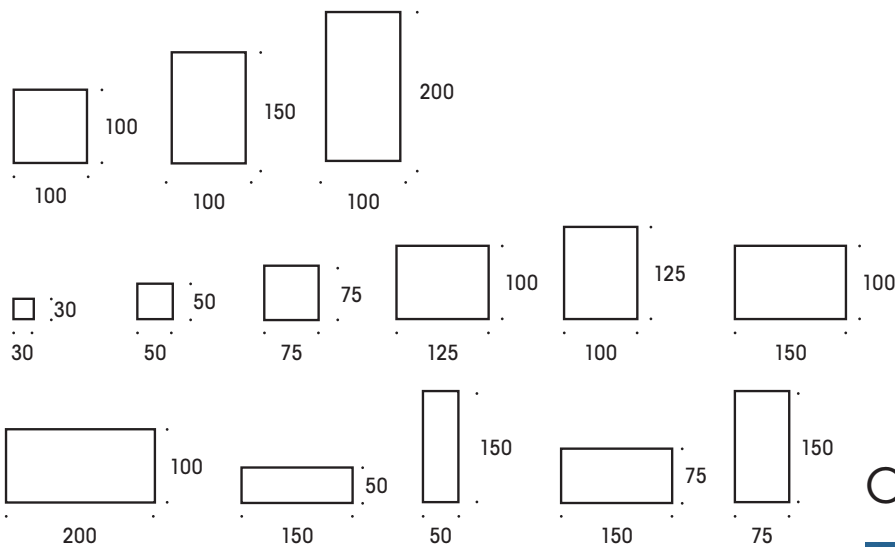

Mobile glass writing board with a fabric-covered, sound-absorbent back. The Mood Fabric is a versatile and flexible screen that offers a seamless combination of materials and functions. The Mood Fabric is available in two sizes: a small model with a full glass front and a large model with a glass and fabric front. Both have a fabric-covered back with a sound-absorbent filling. Choose from 10 selected colour combinations. Feet with castors in black or grey.

MOOD WALL

ISKU

29693

COLOUR OP-

MORE INFORMATION

Mood Wall is a magnetic and stylishly minimalist glass writing board, available in 24 carefully selected colours. Concealed fittings and the absence of a frame accentuate the clean lines. The board can be used as it is or combined with boards in other sizes and colours. Mood Wall comes in two different shapes square or rectangular. The range includes 14 sizes. Depth from wall 12 mm.

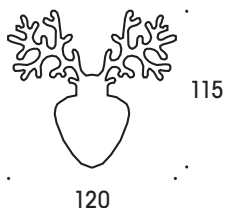

DEERHEAD
