Trends | Tips | Insights

Every year around October, like clockwork, gift-givers and celebrators alike turn their attention to “the holidays.”

But what are the holidays, really? The word means something different to everyone, but for Snapchatters, there’s no denying it’s a season for festive shopping and purchasing — a LOT of it.

At Snapchat, our path to purchase is more effective and unique than other platforms because of the **Snapchat Celebration Cycle**.

Our community’s path to purchase isn’t a straight line. Sharing is part of every step in the purchase journey, from awareness, purchase, and, best of all, celebration. And this cycle inspires others’ shopping journeys too, creating a network of close friends and family influenced by one another. Snapchat is here to help your brand shine when it matters most.

This guide will help you get everything on your wish list this season: **the gift of results**, no matter your objectives. May your festive shopping season be merry and bright!

Happy Snapping! ❤️ Team Snapchat

Three Trends to Expect This Festive Shopping Season

1. Global Optimism Is on the Rise

The economy is expected to see its fastest growth in over two decades during the back-half of 2021.¹ And this year, the festive shopping season celebrations will be bigger than ever, with wish lists far longer than they were last year.

2. Mobile Commerce Will Dominate Transactions

Mobile is so much more than a single touchpoint in the shopping journey — it's now integrated into every touchpoint, including the moment of purchase. This is an extraordinary shift, and as more and more retailers take their focus from desktop-driven to mobile-optimized landing pages, transactions made on mobile phones can only increase from here.

3. Shoppers Will Expect Immersive, Contextual Experiences

When it comes to the customer journey, mobile devices are powerful tools to turn inspiration into purchase. Having shoppers see your ads is one thing, but creating immersive shopping and celebratory experiences for consumers is another — and one that will drive lasting and impactful results all season long.
