The following report is a deep dive into how Snapchatters are using AR in Australia based on the Snap Consumer AR Global Report. For a more comprehensive market view, please read the Snap Consumer AR Global Report.
| 01 | Introduction | AR is the next form of mobile engagement, elevating the consumer experience and setting new expectations for digital engagement. |
| 02 | AR’s Impact on Brands | AR is a critical tool for brands to stand out and deliver customer value and confidence. |
| 03 | AR is Evolving Fast | AR cannot be ignored as the new, rapidly-growing consumer experience that will soon be everywhere, all the time. |
| 04 | AR is Here Today and Here to Stay | AR is already here, widely recognized as both fun and useful and driving fast adoption and growth. |
| 05 | Conclusion | There is an imperative to meet consumer’s AR demand, and now is the time to act for brands, platforms, and developers. |
Introduction
Key Takeaways

AR adoption is tracking with the mobile usage boom - by 2025, nearly 65% of the Australian population and almost all people who use social / communication apps will be frequent AR users.

75% of people successfully identify AR when they see it, but when talking about it, they have a hard time defining or describing what it is.

67% of Snapchatters in Australia and across generations use AR to have fun; the majority are discovering AR through social / communications apps.

AR is generally seen as a “toy”, but 72% of people expect and desire to use it as a practical “tool” in their everyday lives.

Interacting with products that have AR experiences leads to a 94% higher conversion rate.

There is something really unique happening right now – an incredible number of hobbyists and professionals are using AR. Downloading tools across the Snap AR platform. They’re taking time to learn, they’re curious.”

AR is growing

By 2025, nearly 65% of the Australian population* and almost all people who use social / communication apps will be frequent AR users.¹

Frequent AR Consumers

Based on people ages 13-69 who use social / communication apps

---

¹: See additional methodology details in appendix.

*Global population includes people ages 13-69 (based on UN World Population Prospects 2019)

Note: 2021 AR Consumers based on people who use AR weekly or daily from 2021 Global Deloitte Digital Study commissioned by Snap Inc.

2022 to 2025 forecasted to be with 2000 to 2003 growth rate of smartphone users since AR is in the Toy phase of adoption. The shift took place with mobile phones, one can argue for the same time frame when games like ‘Snake’ started being available (e.g., 1997 Nokia 6110 device released, 1999 emojis were invented, 2000 Nokia 3310 launched, and the first commercially available camera phone launched in Japan).

Younger generations and Snapchatters are driving AR growth

Age Differences

Younger people are **63% more** likely to use AR,¹ and they are **17% more** likely to believe AR is important in their lives.²

But, AR is not just for Gen Z; Millennials and Gen X show the highest affinity for AR.³

Snapchatters are **2x** as likely to use AR frequently compared to Non-Snapchatters.⁴

**56%** of Snapchatters believe AR is important to their lives.⁵

Q: How many of your friends and family do you think use AR today? | Q: Sometimes brands will create AR experiences through an app camera (e.g., a big movie company makes an AR experience where the heroes of a movie are fighting next to you, or a restaurant provides you a lens/filter/effect that turns you into a hamburger). What impact, if any, does interacting with that AR experience have on your perception of that brand?
Brands and people connect better with AR experiences

40%

more likely to be considered if they have a branded AR experience.¹

Snapchatters are 20% more likely than Non-Snapchatters to share a brand’s AR experience with friends and family.²

¹: 2021 Global Deloitte Digital Study commissioned by Snap Inc.
Base = People who use AR all the time (n=95)
Q: How familiar are you with AR? | A: I use AR all the time | Q: Sometimes brands will create AR experiences through an app camera (e.g., a big movie company makes an AR experience where the heroes of a movie are fighting next to you, or a restaurant provides you a lens/filter/effect that turns you into a hamburger). What impact, if any, does interacting with that AR experience have on your perception of that brand? | A: I am more likely to pay more attention to the brand, I am more likely to share a brand’s AR experience with friends and family, I am more likely to consider their products

²: Base = Snapchatters (n=144), Non-Snapchatters (n=124)
Q: Sometimes brands will create AR experiences through an app camera (e.g., a big movie company makes an AR experience where the heroes of a movie are fighting next to you, or a restaurant provides you a lens/filter/effect that turns you into a hamburger). What impact, if any, does interacting with that AR experience have on your perception of that brand? | A: I am more likely to share a brand’s AR experience with friends and family, I am more likely to consider their products
AR builds consumer confidence

61% of Snapchatter shoppers agree that AR gives them more confidence about product quality.¹

Over half of people want to use AR technology to assess products, allowing for a risk-free, “try-before you buy”, experience.²

Nearly 3 in 4 consumers say they’re willing to pay more for a product that promises the total transparency that AR can provide.³

Returns are a $550 billion problem, which AR can help fix. AR-guided purchases led to a 25% decrease in returns.⁴

- Learn Something New: 31%
Consumers are becoming creators

Everyday consumers have more access to technology tools that enable them to be creators of digital content.

AR is a creative vehicle

71% believe AR allows them to be more creative.¹

46% believe they are AR creators in their everyday lives.²

Snapchatters are 1.4x as likely to be AR creators.³

53% Snapchatters

39% Non-Snapchatters

Snapchatters vs. Non-Snapchatters have used tools to create AR.

¹ 2021 Global Deloitte Digital Study commissioned by Snap Inc. Base = Aggregate (n=721)
² Q: How much do you agree or disagree with each of the statements below? AR allows me to be more creative | Agree/strongly agree
³ Q: Have you ever used tools (e.g. Snapchat Lens Studio, Facebook for Developers Spark AR, Instagram for Developers, TikTok for Developers) to create your own AR filters/lenses/effects? | A: Yes
Australians want to use AR as a medium to continue to create new memories. AR gives [us] the ability to create these.”

Adrian Mills
Creative Brand & Advertising Business Lead
Deloitte Digital
Conclusion

Consumers continuously expect more personalized and engaging experiences that enable them to interact with the world. **AR is delivering that to consumers, today, but there remains untapped potential for so much more.**

Brands know the consumer appetite for AR is already here – consumers are far more likely to pay attention to brands using AR. There is a content imperative for brands to meet consumers AR demand, and now is the time to meet this demand. Brands that meet the demand for AR experiences may be more likely to gain market share in the future.

The convergence of use cases and the networking effects is expediting AR adoption. But to unlock AR’s potential, **brands, developers, and platforms need to work together to accelerate content development and grow the AR ecosystem.**
Thank you
Consumers are redefining the digital experience by using AR.

Augmented Reality (AR) is the next form of mobile engagement that is exciting consumers, driving an enhanced engagement with brands, elevating consumer experiences and increasing brand revenues.

Augmented Reality refers to experiences in which the real-world environment seen through your phone, computer, app camera, or an AR headset is altered or enhanced with the addition of images, objects, text, or other digitally-added information. Augmented Reality could be applied to both visuals of the front facing (selfie) and outward facing (world) cameras.¹

Report Methodology

Research Overview
Australia Report, Quantitative Online Survey

• 20-minute online survey among 15,000 international respondents
• Survey in field from February 23, 2021 – April 5, 2021

Alignment with Interdisciplinary Experts

• Experts within the AR industry participated in in-depth interviews to provide context for survey findings and contribute guidance on the future of AR in society.

Respondent Qualification

• n=1000 per market
  • Ages 13-50
  • 500 Snapchatters who use Snapchat at least once daily, split evenly amongst age groups 13-17, 18-24, and 25-50
  • To ensure a representative read on Snapchatters, cell weighting based on nested gender and age were applied to each country to correct for demographic imbalances due to set sampling size.
  • 500 Non-Snapchatters, who do not have Snapchat downloaded/have never heard of Snapchat, minimum of N=100 in all three age groups
• Markets: Australia, Canada, France, Germany, India, Japan, Malaysia, Mexico, The Netherlands, Norway, Saudi Arabia, Sweden, United Arab Emirates, United States, United Kingdom

Local Market Additions and Exceptions

• US: Ethnicity quota (maximum 65% white respondents, maintained only for Snapchatters; Non-Snapchatters sample should be roughly nationally representative)
• KSA and UAE: Representative expat / citizen quotas (88% expat in UAE; 30% expat in KSA for both Snapchatters and Non-Snapchatters).
• Norway: Sample recruited for n=1000 to be representative of social media and communication app users in that market, with a skew on ages reflective of other markets (evenly distributed across 13-17, 18-24, and 25-50)
• Japan: Sample recruited for n=1000 to be representative of smartphone users in that market, with a skew on ages reflective of other markets (evenly distributed across 13-17, 18-24, and 25-50)
Frequent AR Users Methodology

2021 Baseline

Frequent AR Users

People who use AR weekly or daily based on responses to 2021 Global Deloitte Digital Study commissioned by Snap Inc.¹ and extrapolated to population

Population Base

2021 Global Population Base: People ages 13-69 = 5.61B worldwide in 2020²
2021 Social and Communications App Population Base: Global Population x Social Media Penetration Rate (48% in 2021)³ = 2.71B

AR Adoption Rate

AR Adoption Rate of Total Population
AR Adoption Rate of Social and Comms App Population

Note: Assumes no increase or decrease in population. Base from 2021 stays same across five years

2022-2025 Forecast

2022 Baseline

See above

2000 Growth Rate of Smartphone Users

Note: 2021 AR Users is at 1999 smartphone user’s adoption level since AR is in the Toy-phase of adoption; if we look at where this transition took place with mobile phones, one can argue that this was when games like ‘snake’ started being available (e.g., 1997: Nokia 6110 device released, 1999: emojis were invented, 2000: Nokia 3310 launched, and the first commercially available camera phone launched in Japan)

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. In the United States, Deloitte refers to one or more of the US member firms of DTTL, their related entities that operate using the “Deloitte” name in the United States and their respective affiliates. Certain services may not be available to attest clients under the rules and regulations of public accounting. Please see www.deloitte.com/about to learn more about our global network of member firms.

This publication contains general information only and Deloitte is not, by means of this publication, rendering accounting, business, financial, investment, legal, tax, or other professional advice or services. This publication is not a substitute for such professional advice or services, nor should it be used as a basis for any decision or action that may affect your business.
