# Choosing flowers

We're here to help you say your best goodbye and we understand the important role flowers can play at a funeral. That's why we're on hand to help you, from choosing the type of flowers to creating a uniquely personal and meaningful floral display that celebrates your loved one's life.

## Our range of flowers

We have a huge range of hand-crafted flowers to choose from in an array of colours. You could opt for a favourite type of flower, flowers in a particular colour, or a unique design that reflects their personality, hobbies or interests.

We'll liaise with the florist on your behalf, so there's one less thing for you to think about. We'll work within your budget and carefully guide you through the cost and all the details.

Funerals can be a celebration of a life and flowers can help to create a beautiful backdrop to a unique service. You can rest assured that all our flower arrangements are made by hand using the highest quality and freshest stems.

You can also find our range online at [coop.co.uk/flowers](http://coop.co.uk/flowers) and the price list is enclosed within this brochure.

## Personalised flower arrangements

If you have something unique in mind, we work closely with carefully chosen, trusted local florists to create special designs that symbolise a person's life, activities or interests. We can also add a much-loved item to any of our tributes to make it even more personal, or create a one-off design that's based on treasured memories.

Talk to us about what you have in mind, and we'll work with the florist to create a truly individual display.

You can find examples of personalised flower arrangements on page 6 of this brochure. If you're looking for some further inspiration, our website has more examples of personalised tributes which we've arranged. Find out more at [coop.co.uk/personalisedflowers](http://coop.co.uk/personalisedflowers)

## Harry's story

From a young age, Harry was never seen – or heard – without his beloved guitar. He was always strumming a tune or practising with his bandmates. Harry just loved sharing his passion with all who would listen – he even taught his granddaughter to play and carry on his legacy. Including Harry's guitar with his flower arrangement was a natural tribute.

## Personalised flower arrangements

A personalised arrangement can be designed and made to perfectly reflect a person's life and personality. You could even choose a symbol or icon to signify their faith. You decide the shape, flowers and colours, and our talented local florists will create a fitting tribute. We'll talk through your ideas and the options available that suit your budget.

Another idea for a personal touch is to add a cherished item to any of the floral arrangements in this brochure. This is also a cost-effective way of creating a truly personal tribute. If someone was a keen walker, for example, we can incorporate their walking boots into a display, or it can be as simple as including an item of clothing or a photograph within the arrangement.

More examples of personalised tributes are on pages 7 and 8.

Whatever your faith, religion or culture, we can work together to create something beautiful and meaningful to you. Here are some examples of religious and cultural tributes.

Also known as double-ended sprays, they're large, diamond-shaped arrangements that lie on top of the coffin on the journey to the funeral and during the funeral service. They are traditionally chosen by the family or the person organising the funeral.
