

Automate Your Planning

Skarpur is developing an innovative software solution to revolutionize project planning. The system automatically generates optimized plans, enabling you to respond quickly in changing environments, freeing you from manual labor, and taking your planning to a new level of efficiency and effectiveness.

The Planning Cycle

Generate Plan

Automatically generate an optimal plan according to your data.

Commit

Analyze your plan and commit once you're happy with it.

Change Occurs

Employee gets sick, project priority changes, etc.

Why Us?

We offer a distinctive blend of engineering and computer science expertise, enabling us to understand both the business and technical side. We have developed a proprietary optimization model to automatically create plans along with a user interface to interact with the model and all relevant data.

Unique Value Proposition

Our solution provides an automatic re-scheduling feature which our competitors lack. We believe that the ability to automatically update your plans will create tremendous value by making sure you **Do the right things at the right time.**

Why Now?

The fourth industrial revolution is starting, and companies are increasingly seeking new technologies to improve their operations. The COVID-19 pandemic has highlighted the vital role of change management, revealing a notable gap in the market due to the lack of automation in current planning solutions.

Follow Our Journey

Currently we are building the foundation of the company and the product and aim to seek funding next year. Do not hesitate to contact us and subscribe to our newsletter on skarpur.com!

Sales & Service

First paying customer, and two trial customers, streamlined sales and service processes.

Q4 2023

Prep for Scaling

Get security certificate, develop training strategy for future staff. Only paying customers.

Q2 2024

Scale to New Market

1M USD yearly revenue. Expand to other countries, and explore new markets. Twelve new customers.

Q4 2024

Q3 2023

Beta Version

Finish beta version, get first trial customer, apply for Fræ grant, and streamline the development process.

Q1 2024

Purchasing

Develop the purchasing part of the system, and get feedback from customers.

Q3 2024

Small Growth

Break even. Seven new clients in the manufacturing industry.
