

GBM INNOVATION AWARD

Excellence in Methodological Innovation

Honoring an outstanding young scientist developing a novel, groundbreaking method

The GBM Innovation Award recognizes early-career researchers in biochemistry, molecular and cell biology, biochemical pharmacology and toxicology who are shaping the future of life sciences through transformative methodological advances.

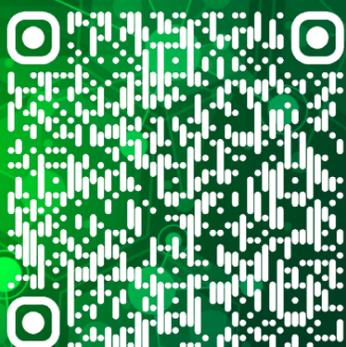

Who Can Apply?

- Master or Diploma Students
- MD or PhD Candidates
- Postdoctoral Researchers (early career stage)

Application Requirements

- Submission of an abstract to the STS Meeting
- Mandatory poster presentation (even if selected for oral talk)
- Personal attendance at the Award Ceremony during the annual meeting of the Signal Transduction Society

Submission Deadline: Sept. 1
