

Florian Glatz

Florian Glatz, founder of Fundament, is a lawyer, software developer and entrepreneur with many years of experience in the blockchain sector. In addition to his work for Fundament, he is President of the German Blockchain Association and founding member of the European Blockchain Association INATBA. In this function, he advises the Federal Government and the European Commission on the development of a national and European blockchain strategy.

He started the “Blockchain Embassy” co-working and meetup space in Berlin, as well as the Legal Tech Center which organizes hackathons and conferences in Berlin and Zürich. With a background in research, his most recent attribution is co-authoring the book “Legal Tech” as well as co-publishing the legal tech magazine “Rethinking Law”.

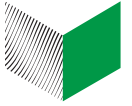

Robin Matzke

Robin Matzke, Founder of Fundament, is a lawyer, researcher and entrepreneur. Since 2018, he has been an advisor to the German Parliament (Bundestag) on issues in the context of digitalization and law.

— In addition to his role with the Bundestag, Robin has worked with Humboldt-University Berlin for a number of years, during which time he has published several academic papers in the most relevant German law journals and contributions to book projects. He is currently finishing up his PhD thesis on Phantom Stocks at Humboldt-University Berlin.

—
