Who We Are

Tucked away in Winter Park, our hotel + site provide guests with a genuine escape from everything except what's in from of them: the great outdoors (and a craft cocktail). Guests leave their worries behind when they join us — and, our calming and comfortable grounds make that escape seamless and simple.

We've established a completely new standard of mountain-side hospitality in the Colorado mountains with our cozy, curated cabins and French, après-inspired F&B experience at A-Frame Club. Celebrating our surroundings — settled in the heart of the wild — we're providing guests with a true chance to unplug and enjoy nature.

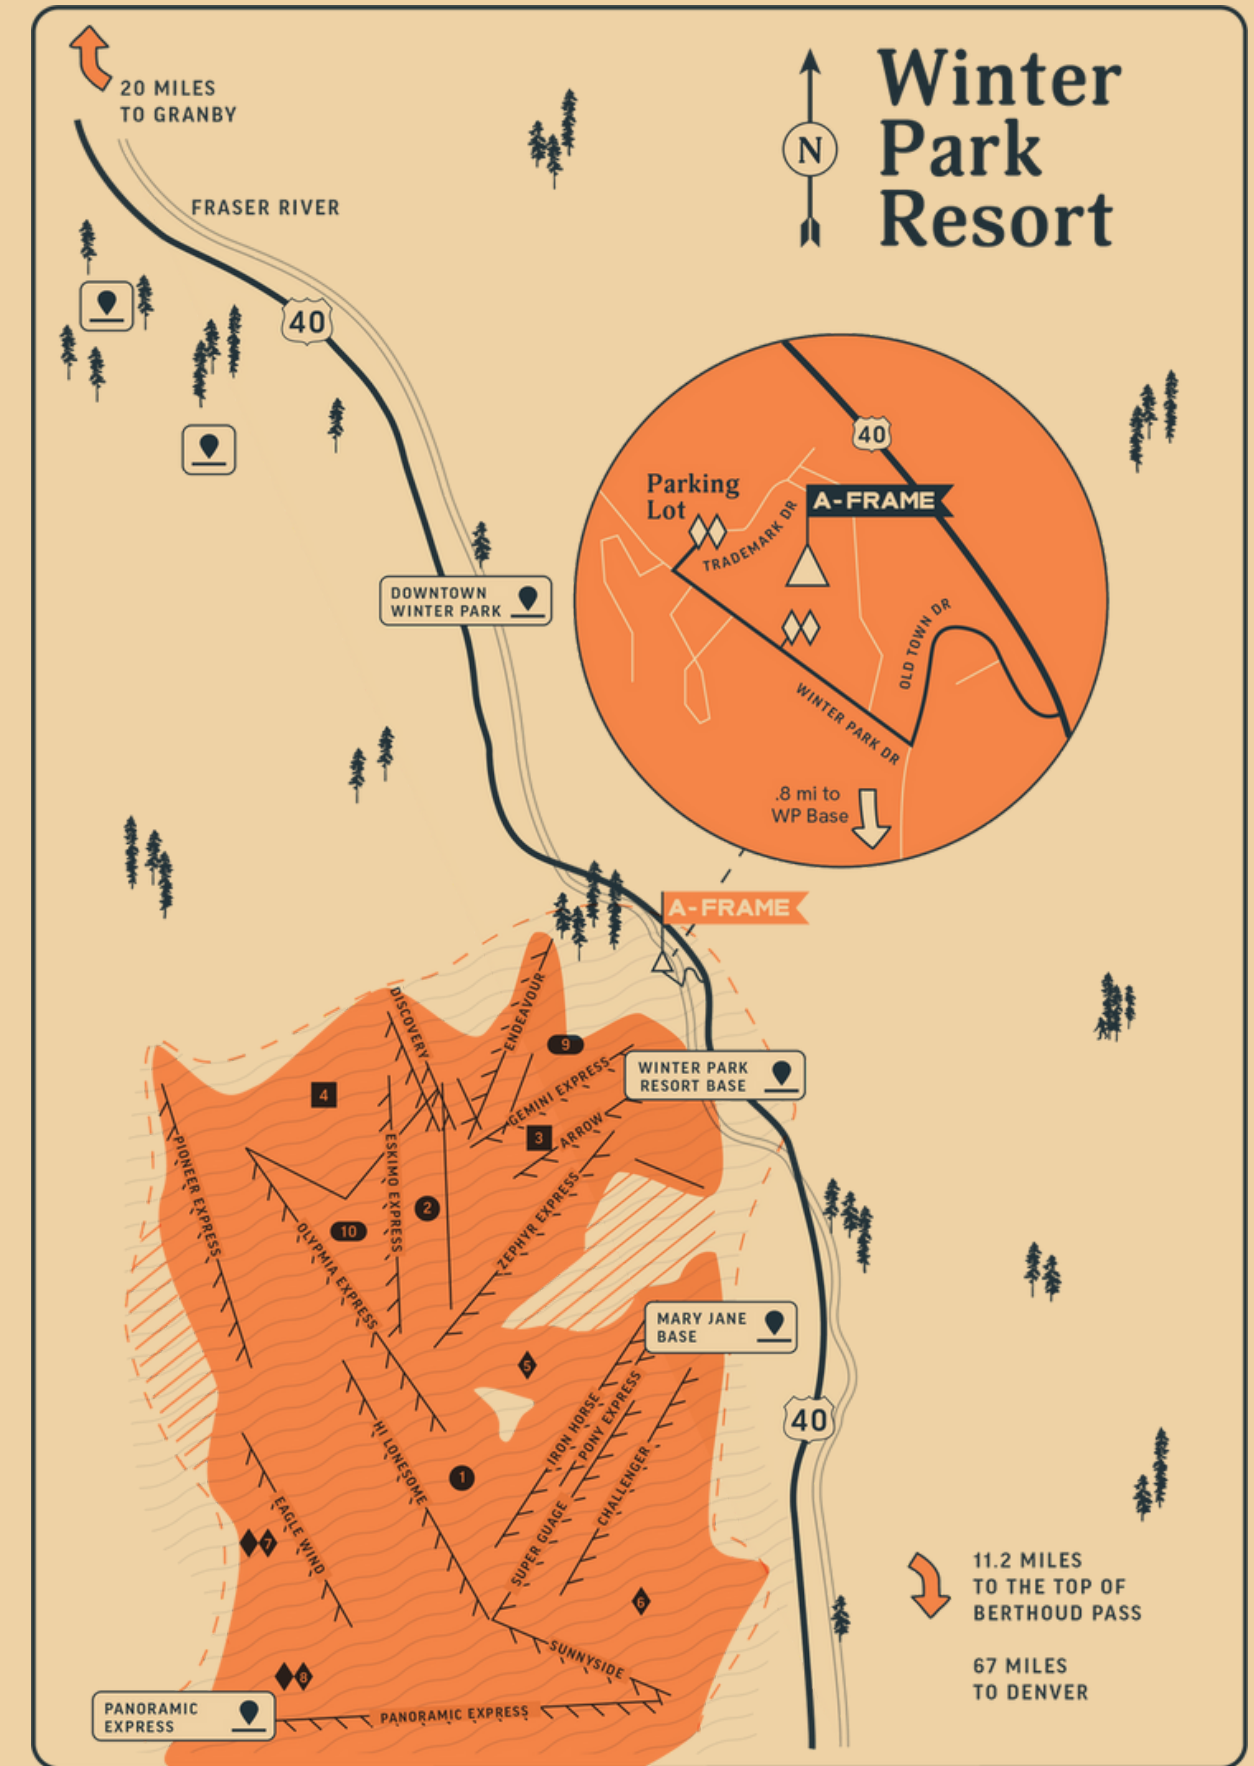

Winter Park/ CO 39° N, 105° W

A Sanctuary To Stir Your Senses.

Our 31 A-Frame Cabin hotel is nestled between the Fraser River and Winter Park Ski Resort. This 2-acre site is the heart of Old Town Winter Park and is conveniently located to access the great outdoors, the ski resort or shops, and entertainment downtown.

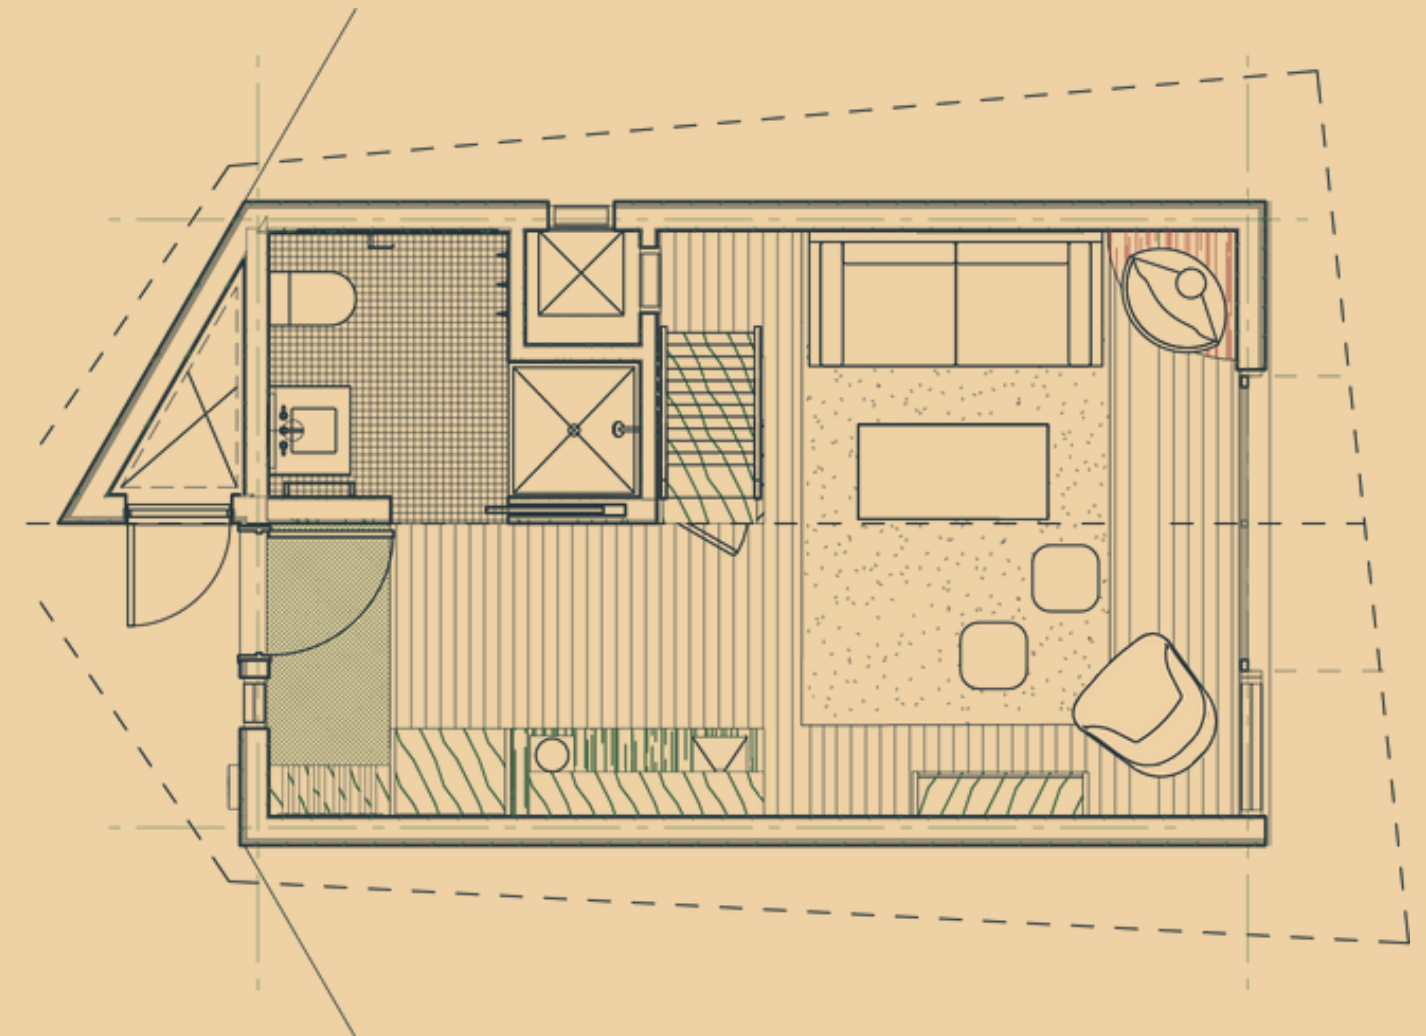

Our on-site Saloon and Restaurant create additional gathering space for guests to grab a stiffy, lounge, or plugin. Our sprawling event lawn invites groups to convene by the river's edge. A-Frame Club inspires the playful side in all of us.

Cabins

Our mid-century-inspired, A-Frame cabins offer guests their own sanctuaries to stay cozy all four seasons. Tall ceilings, beautiful birch wood throughout, special touches like a soaking tub, custom Malm fireplaces and incredible views — you experience a better kind of mountain life when you stay with us.
