Species: White Oak  
Finish: Night Sky  
Wood Fill: Quartz  
(no tendril art on this one - wood fill only)

Species: Maple  
Finish: Night Sky  
Tendril Art: Quartz

**When lightening strikes the bolts are called tendrils.**

We are able to re-create this by directing electromagnetic conduction to the surface of the wood and etch a pattern. By using this process there are never two a like.

Adding minerals and color accentuates the tendrils creating an artful and organic effect.

Shown here are a few examples.
