The  
***JANUARY***  
2026 Edition

# January Trends

New year, new job, new you? Career and Lifestyle communities lead the pack in January 2026. Health & Wellness follows, but not in the way you might expect. Shuffle dancing and somatic healing beat out more typical, broad fitness & nutrition communities.

Faith-based communities also had a strong showing, from Muslim dads to women's Bible studies, to an "emergent Dharma community."

**The standout pattern? Specificity wins.** Horsemanship, dog training, photography coaching, digital art, investing, interior design...**the fastest-growing communities aren't trying to be everything to everyone. They're serving a particular transition and identity, and reaping the benefits.**

Did your Mighty Network make the list? Celebrate it, share it, and keep going.
