NAME A FUTURE is a movement to ignite, evoke, and share the pride we all feel as members of the NAF network with each other, our families, our friends, colleagues, and most of all, with YOU.

Check out the video from a NAF alum who is naming her future each day!

"To become an engineer, I first had to learn what an engineer was. To build the future of my dreams, I first had to name it.

We live in an era of "manifesting"—and as NAF students, we manifest our future success by putting in the work.

With NAF, we’ve got the tools, opportunities, and confidence to first NAME A FUTURE—then make it happen."

- What brings you joy?
- What are you passionate about?
- What careers align with your passion?
- What do you see your future self doing?
- What skills do you already have that can help others?
- Who is someone you look up to professionally? What is it they do that you like or admire?
Take a look at the #NAMEAFUTURE student posters below and think about these questions:

- Is your story similar to any of theirs?
- Are there any words or phrases in the background image that resonate with you?
