BASE COATS

EPOXY MAX™ 100 100% SOLIDS BASE COAT

The backbone every installer needs. Designed to flow out smooth and true, it is packed with premium resins, and gives you the perfect canvas for any system—clear, solid color, flake, or metallic.

Sizes: 3 Gallon Kit
Coverage: 20-200 ft²/gallon

EPOXY MAX™ 100 LV LOW VISCOSITY 100% SOLIDS BASE COAT

Formulated for smooth flow and consistent coverage. Designed with solid color and flake floors in mind, its more workable body makes application faster at a more economical price point.

Sizes: 3 Gallon Kit
Coverage: 20-200 ft²/gallon

VAPOR-TEK™ 440 MOISTURE VAPOR BARRIER

Engineered to control emission rates up to 20lbs / 24hr / 1,000 ft². Locks down moisture, cutting vapor transmission for whatever comes next: epoxy, vinyl, rubber, tile, overlays, terrazzo, wood, even carpet. Built to meet ASTM F3010.

Sizes: 3 Gallon Kit
Coverage: 100 ft²/gallon

VAPOR-TEK™ 440 FC FAST CURE MOISTURE VAPOR BARRIER

Unlike slow-curing MVB systems, it sets fast, cutting downtime in half and letting you top coat the same day. Locks down the slab and keeps your projects running on schedule. Built to meet ASTM F3010.

Sizes: 3 Gallon Kit
Coverage: 100 ft²/gallon

METALLICS & SOLID COLORS COLOR ADDITIVES

Mix directly into epoxy to unlock limitless design options. Create dynamic, light reflective depth or bold, uniform coverage. Build anything from clean and sleek to high-impact and custom.

Sizes: 16oz Liquid / 270g Powder
Coverage: 1 per 3 gallons

EPOXY MAX™ RESINS RISE ABOVE THE COMPETITION

This isn't just another coatings line—it's complete and built to flip the industry on its head. We start with top-tier resins and a systematic, industrial-quality approach, then pack it into everything you need: epoxies, polyaspartics, metallic pigments, color pigments, topcoats, and MVBs. The chemistry speaks for itself: tighter bonds, stronger resistance, faster cures, and finishes that installers can trust to perform every time.

What sets us apart is simple: you get top-tier chemistry at competitive pricing. That's why elite installers trust our products, and why they've been used on high-profile projects.

Higher Performance. Higher Expectations.

POLYASPARTIC 930 RAPID CURING TOP COAT

Delivers serious protection where it counts. Built for tough environments exposed to fuel, spills, and heavy equipment. It cures rapid-fire — making it the go-to solution for commercial spaces that can't afford downtime.

Sizes: 2 Gallon Kit
Coverage: 100 ft²/gallon

POLYASPARTIC 980 DURABLE TOP COAT

Ultra-High solids (98%) topcoat built for the harshest conditions. Low odor and VOC compliant, it lays down a crystal-clear shield that stands up against UV, traffic, and extreme temps. Keeps floors looking sharp and will stand the test of time.

Sizes: 2 Gallon Kit
Coverage: 100 ft²/gallon

ARMOR-TEK™ 835 QUARTZ MINERAL TOP COAT

High-gloss shield for those who demand more. An invisible next-gen sol-gel fuses directly to epoxy, locking in a hard quartz barrier — No grinding, no sanding, no wasting time. Engineered to fight back against stains keeping metallics looking new and fresh.

Sizes: 1 Gallon Kit
Coverage: 400-600 ft²/bottle

SIGNATURE 410 HIGH GLOSS DESIGNER TOP COAT

Ultra-High solids (98%) topcoat built for the harshest conditions. Low odor and VOC compliant, it lays down a crystal-clear shield that stands up against UV, traffic, and extreme temps. Keeps floors looking sharp and will stand the test of time.

Sizes: 2 Gallon Kit
Coverage: 100 ft²/gallon

FLAKES / CHIPS POLYMER BLEND

Brings color, texture, and durability together in one seamless finish. Designed for broadcasting into epoxy coatings, these slip-resistance flakes hide imperfections, add depth and create style. Available in a bunch of colors and blends.

Sizes: 40lbs
Coverage: 1/8" flake = 250-300 ft²/box
1/4" flake = 300-350 ft²/box
