

DF29

Product Data Sheet

DF29

29" Electric 3-Disc Planetary Floor Grinder

TECHNICAL SPECIFICATIONS

Weight (LB)	1296
Size (IN)	94.49 x 29.92 x 48.82
Motor (HP)	20
Voltage (V)	220
Current (Max)(AMP)	50
Disc Speed (RPM)	0-1800
Inverter (HP)	20
Grinding Disc (Size/Qty)	12.5 inches x 3
Grinding Width (IN)	29.5
Dust Port	2 inches x 1
Operation Method	Manual

DESCRIPTION

The DF29 is a powerful, production-driven machine built to maximize efficiency on large commercial projects. Featuring three planetary grinding heads, a robust gear-driven transmission, and a substantial 1,296 lb frame, it delivers consistent, high-performance results while covering ground quickly and smoothly. An integrated front transport wheel makes moving the unit effortless and LED lighting enhances visibility. With bidirectional rotating heads, this grinder is compatible with both propane and electric tooling setups, offering exceptional versatility and control—making it the ultimate solution for unlocking productivity on expansive floor installs.

At Maximus Grind™, we build machines that deliver uncompromising power, precision, and durability - engineered to transform any surface with ease. With a bold, modern design and pricing grounded in reality, we put elite performance within reach so every contractor can grind like a machine.
