We have talent to spare

If there's one thing that defines us as Colombians, it's the commitment and dedication we put into every one of our projects.

We developed this exportable offer catalog in partnership with the companies that show the greatest export potential in the Printing and Packaging, Food Safety, and Animal Protection and Welfare clusters.

All of this with the firm belief that through experience, quality, and innovation, they will elevate Colombia's name in international markets.

Do you want to discover the soul of this project?

Printing and Packaging Cluster

The Printing and Packaging Cluster seeks to drive and improve the printing, packaging, and container industry, supporting its growth with a focus on sustainability.

We promote the use of good ecodesign practices and innovation with new materials that enable cleaner production. Our goal is to strengthen the entire value chain to open doors to international markets with a solid and competitive exportable offer.
