Protecting the most at risk

Strictly **avoid** contact with anyone with COVID-19 symptoms

Do not leave your house

Do not attend any gatherings

Food or medication deliveries should be left at the door

Keep in touch with phone, internet, and social media

Use the **phone** or go **online** to contact your **GP** or other essential services

GETTING ASSISTANCE WITH FOODS AND MEDICINES IF YOU ARE REDUCING SOCIAL CONTACTS

Ask family, friends and neighbours to support you and use online services. If this is not possible, then the public sector, business, charities, and the general public are gearing up to help those advised to stay at home.

It is important to speak to others and ask them to help you to make arrangements for the delivery of food, medicines and essential services and supplies, and look after your physical and mental health and wellbeing.

If you receive support from health and social care organisations, organised by Isle of Anglesey County Council, these services will not be impacted and will continue as normal.

CLEANING

When cleaning you should use your usual household products, like detergents and bleach, as these will be very effective at getting rid of the virus on surfaces. Clean frequently touched surfaces such as door handles, handrails, remote controls and table tops. This is particularly important if you have an older or vulnerable person in the house.

SHOPPING AND GROCERIES

All the UK's major supermarket chains are now providing elderly and vulnerable priority shopping hours. Please check with your local stores and online for more information. Food shops and pharmacies will remain open and stores have also reassured customers they are doing all they can to ensure their shelves remain full and their supply chains running smoothly.
