# About Carinthia

Carinthia, the southernmost province of Austria, is known for its alpine mountain landscape with majestic rock formations and crystal-clear, turquoise mountain lakes. Holiday guests encounter the perfect conditions for every imaginable summer and winter sport. In view of the snow-covered mountain peaks, it is almost unbelievable that Carinthia has an almost Mediterranean climate due to its geographical location and has higher temperatures than all other Austrian mountain regions. Clear indications of this are the lush green meadows, the diverse vegetation and the mild water temperature of the lakes. The largest river in Carinthia, the Drau, meanders through a picturesque valley basin lined with historic villages and towns. The old towns of Klagenfurt or Villach, as well as the mighty fortresses

tell stories of long forgotten times. The excellent infrastructure of the region also contributes to the fact that countless sports enthusiasts travel to Carinthia in winter to enjoy activities such as skiing, cross-country skiing and tobogganing.

In the sunny south of Carinthia, the Nassfeld region stands out above all for its natural diversity. Lake landscapes, mountain peaks and forest areas offer many beautiful spots and highlights worth exploring. The sporting possibilities are limitless all year round and cater to individual preferences. The special attitude to life in the region is reflected in culinary delights and culture. For the project GUT. SAUBER.FAIR., which promotes healthier and more responsible nutrition, as well as food and eating culture, businesses offer insights into food traditions and the history of products and recipes.

## Relax in the AlpinSPA

The AlpinSPA offers the perfect balance after a strenuous hike or a day on the slopes. The panorama sauna not only offers relaxation for tired muscles, but also a breathtaking view of the mountains. Furthermore, the wellness area is equipped with an infrared cabin, steam bath, bio sauna with light show and various relaxation rooms. Massages can be booked for deep relaxation.

### Highlights

- Finnish panoramic sauna
- bio sauna with light show
- steam bath
- infrared cabin
- salt grotto
- relaxation rooms

## Water fun!

On hot days, guests can cool off in the 500 m<sup>2</sup> natural swimming pond, as well as enjoy the heated outdoor pool with a separate children's pool. In winter and bad weather conditions, the indoor pool awaits with counter-swimming facilities and relaxation areas.

## Fun for all ages

From the climbing tower to pony rides and playgrounds to go-karting and a petting zoo, EuroParcs offers everything a kid's heart could desire.

During the school holidays, the little guests can take part in various activities such as joint handicrafts or complete a "wood driver's licence".

A speedy descent on the Pendolino on the 2-kilometre long summer toboggan run at Nassfeld promises even more adventure. At the Pressegger See awaits Carinthia's first adventure park.

The highlight for children is the adjacent FunPark, a three-storey tower with a play parcours, which, at almost seven metres high, ten metres long and five metres wide, gives up to 72 children the opportunity to experience their dexterity and the joy of movement. The ground floor marks the starting point for the climbing adventure: on the first floor, a speed course promises hours of fun. Those who climb up to the second floor reach a FunShooter arena with dozens of soft foam balls and need to shoot a moving target. The spiral tube slide down to the ground floor provides the final highlight.

## All wishes fulfilled

Guests can rent bicycles at the reception to explore the surrounding area. A ride to the Slow Trail at Pressegger See is particularly recommended here. Go-karts can be rented for the trails in the park.

Thanks to the summer and winter card, guests not only benefit from the many facilities at the holiday park, but also receive additional discounts at many other partner businesses in the region throughout the year. Many activities are also free of charge, including use of the mountain railways and regional buses.

Of course, our four-legged guests don't miss out either: the agility park is the perfect opportunity for your dog to get in your exercise workload for the day and train your speed and agility. There is also a dedicated dog shower in one of the sanitary facilities.

Guests can find everyday items such as groceries, snacks, toys and fresh pastries, as well as regional souvenirs at the shop. When the camp shop is closed, fresh bread for breakfast can be ordered and picked up at the reception.

## s'Wirtshaus

The view from the sunny terrace, paired with delicious Carinthian traditional dishes round off the visit to the s'Wirtshaus. The authentic Austrian furnishings in the restaurant create a cosy atmosphere. The chef and his team spoil guests with a wide selection of dishes, including classics and self-created highlights. Our recommendation: the EuroParcs Burger (vegan option available).
