### To the Moon

SHORT ETHUSD, 60

User 5207 views · Sep 11

Hey traders, I was paying close attention to ETHUSD for a while as it started approaching a significant level of resistance. Finally on a daily RSI shows us clear divergence and very nice dodji.

## GBPUSD profit reached perfectly

BTCUSD, 1440 ^ LONG

Timwest PRO

9548 views · 17h

Hey traders, On the GBPAUD we have a bullish flag formation. For now I want to use a buy limit, but can also enter if we break the upside of the flag. Hope this one goes better than the previous GBPAUD setup :) Cheers

### To The Moon

SHORT BTCUSD, 60

User 5207 views · Sep 11

Hey traders, I was paying close attention to ETHUSD for a while as it started approaching a significant level of resistance. Finally on a daily RSI shows us clear divergence and very nice dodji.

# Figma Web API

The Figma Platform enables apps, websites and internal tools to integrate directly with the realtime state of design in Figma from a robust Web API and open JSON format.

[Access Developer Docs](#)

## What's possible

Use cases range from internal and external integrations to creative applications.

[See examples](#)

## Share Your Ideas

Check out the Spectrum channel and engage with Figma's community for inspiration or to inspire others.

[Share what you make on Spectrum](#)

## Platform Partners

Some amazing companies have already started using the Web API to integrate other design tools and streamline internal workflows

The workspace contains several design elements:

- Card**: A card component with a header, body text, and a footer, shown in Desktop 1024 Type 1, Tablet 768, and Mobile views.
- Components**: A collection of reusable UI components like buttons and form fields.
- Organisms**: Larger UI sections composed of multiple components, such as a search bar and a list of items.
- Main Page 3 Column**: A desktop layout with three columns of content.
- Main Page 2 Column**: A desktop layout with two columns of content.
- Main Page 1 Column**: A desktop layout with one column of content.
- Frame 8**: A mobile layout frame containing a card component.

## To the Moon

SHORT ETHUSD, 60

User 5207 views · Sep 11

Hey traders, I was paying close attention to ETHUSD for a while as it started approaching a significant level of resistance. Finally on a daily RSI shows us clear divergence and very nice dodji.

Grid Styles

A collection of yellow rectangular blocks of various sizes and orientations, demonstrating different grid layouts and spacing options.

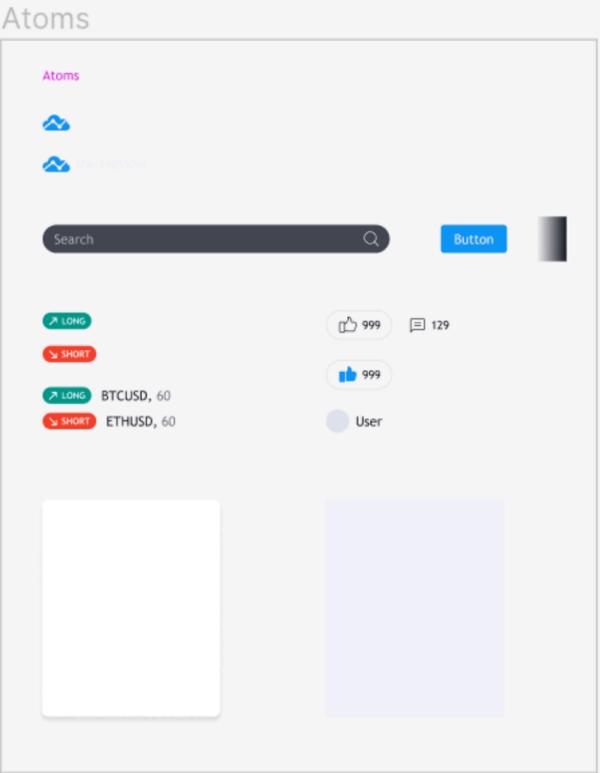

Icons

A set of small, light green icons including a thumbs up, thumbs down, speech bubble, envelope, and magnifying glass.

Spacers

A series of horizontal lines in shades of red and pink, representing different spacer or separator styles.

Atoms

A collection of UI components including a search bar, a blue button, a toggle switch, a list of items with status indicators (LONG, SHORT), and a user profile card.
