**MY STORY**

You can add a keybinding in menu *File* → *Preferences* → *Keyboard* shortcuts.

```
{ "key": "cmd+k cmd+d", "command": "editor.action.formatDocument" }
```

Or **Visual Studio** like:

```
{ "key": "ctrl+k ctrl+d", "command": "editor.action.formatDocument" }
```

Voy a crear el asadito.js

¿Sos developer y tenes ganas de comer un asadito?  
Te lo hago yo y vos a cambio le explicas a un par de chicas que andan perdidas, algo de js. Si sos veggie me avisas y el asadito es como vos lo digas.

Se abren las inscripciones.

Translated from Spanish by Google

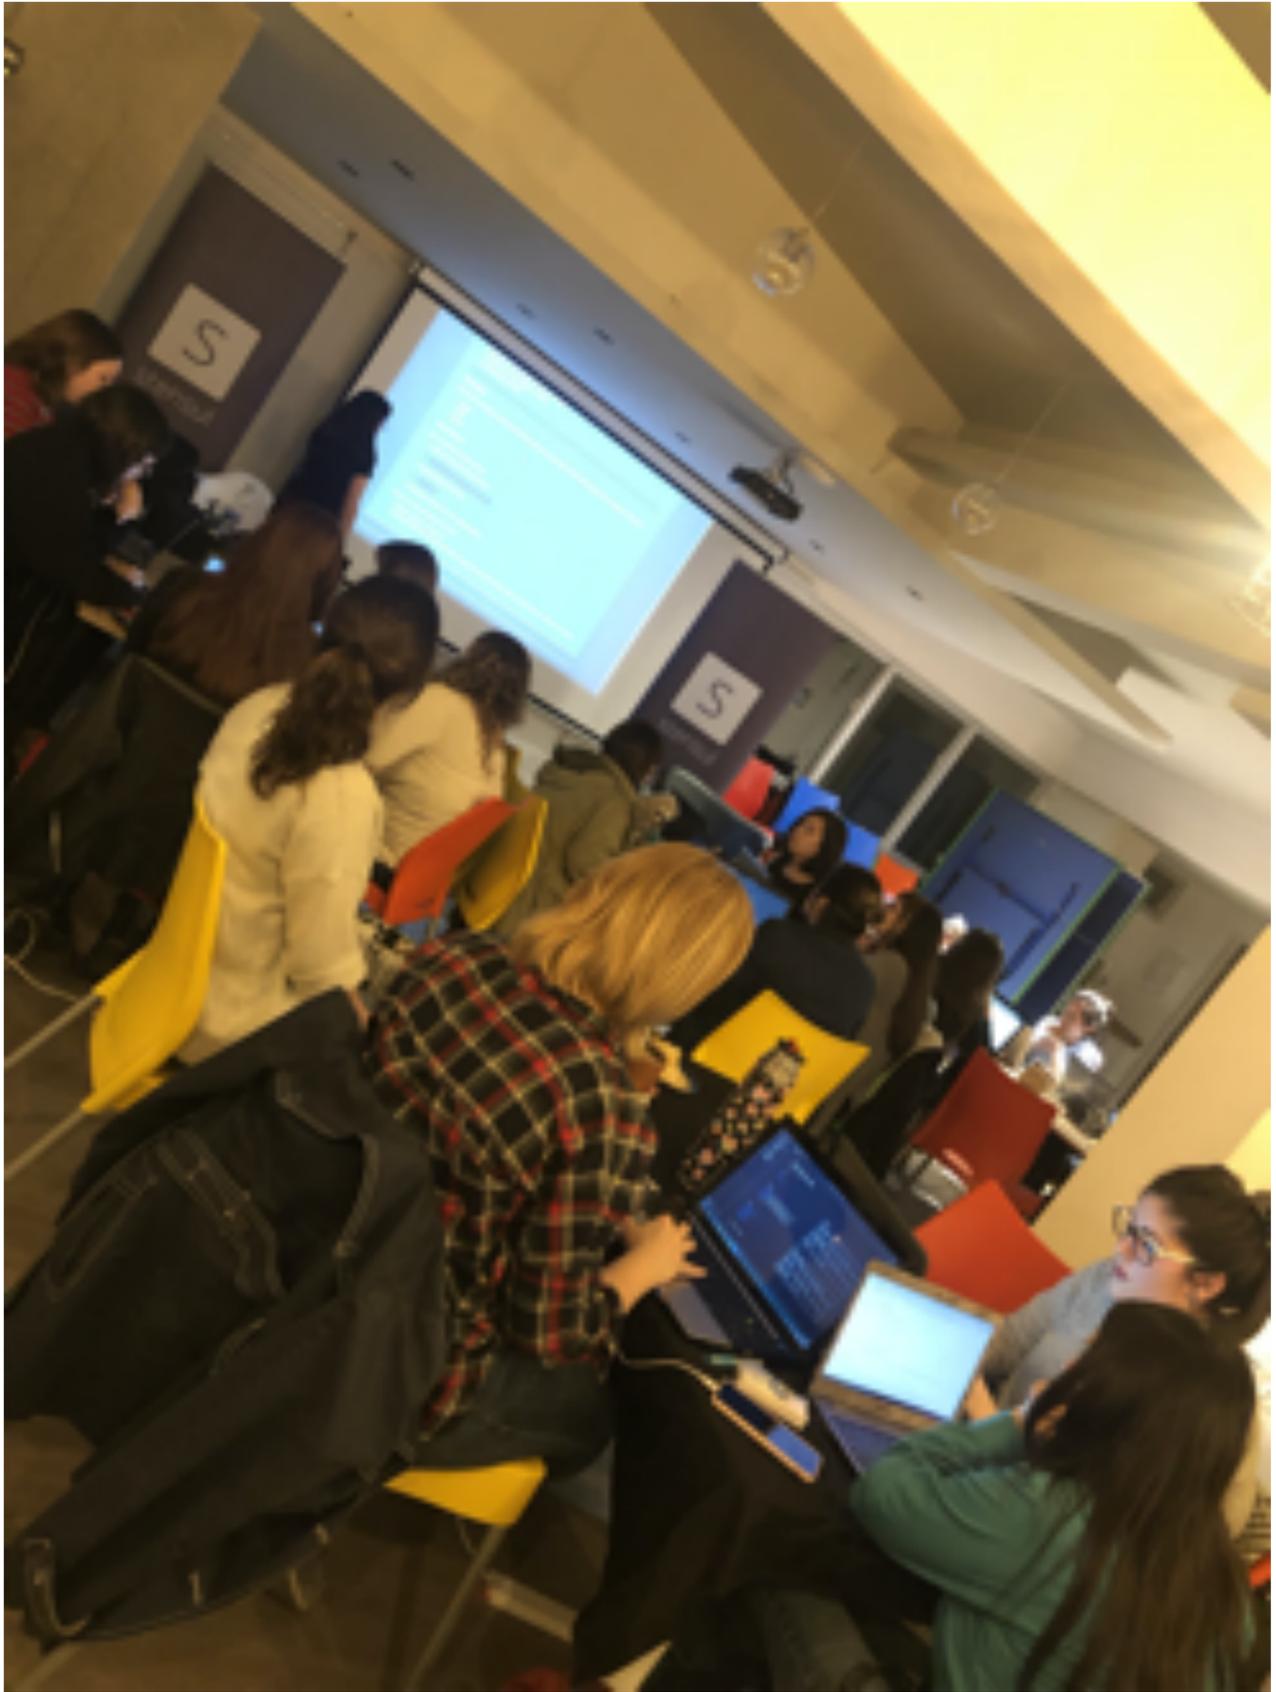

I'm going to create the asadito.js

Are you a developer and do you feel like eating a barbecue?

I do it to you and you in return explain to a couple of girls who are lost, something of js. If you are a veggie, let me know and the barbecue is as you say.

Registrations open.
