# The Future of TV

We **integrate** ourselves deeply **into Assistants** (Google Home, Amazon Alexa, Apple Siri) and ensure that TV content can be found in equal measure.

We draw conclusions from the usage data and **recommend exciting content** to users based on this information. We use **Machine Learning** to do so.

We are working on **reducing streaming latency** and are continuously **improving the UX** and expansion of the platform, especially for smart TV.

For us, the future of TV is **climate neutral**. That is why we calculate and **offset** our CO2 emissions and **reduce** our consumption through targeted measures.

# The Future of TV is climate neutral

## Our Climate Goals

We put the topic of **climate action** in the **focus of our business** and integrate sustainability as **part of our corporate values**.

We use resources responsibly and **aim for a small corporate carbon footprint**.

We set a **good example** and use our reach to **encourage** others to act sustainably.

# TV streaming via a wind turbine

Together with **Westfalenwind**, we are working on the carbon neutral television of the future. With the wind farm operator's **windCores project**, we're bringing our data center **directly into a wind turbine**.

# Dynamic Ad Substitution

Live

Dynamic Ad Substitution (DAS) is the dynamic delivery of targeted advertising spots during live TV commercials.

A targeted spot is seamlessly stitched into the regular live ad break or inserted in VOD content.

DAS enables the combination of quality and awareness of TV advertising with the targeting and measurement technology of online advertising.

# Was sind FAST Channels?

## Definition

«FAST bezeichnet sogenannte Free Ad Supported TV Sender. Das sind Sender, die zwar einem linearem Sendeschema folgen und ebenfalls über Werbung finanziert und damit für den Zuschauer kostenfrei angeboten, diese aber ausschliesslich über das Internet (Streaming) zum Endkonsument transportiert werden.»

### Free

Für TV-Zuschauerinnen und Zuschauer erhöht sich die qualitative Angebotsvielfalt von Fernsehinhalten.

### Ad

Werbekunden erhalten Zugang zu attraktiven TV-Zielgruppen.

### Supported

Die Werbung wird mittels Dynamic Ad Substitution (DAS & DAI) eingespielt.

### TV

Lineares Angebot von spannenden TV-Spartensendern auf dem Connected-TV (CTVs mit über 80 % Nutzungsanteil).
