

Open access is a key part of our mission to help researchers advance science for societal progress

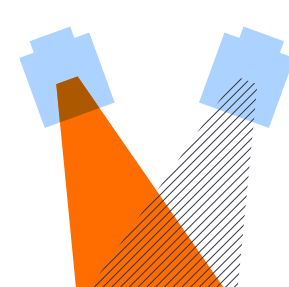

Nearly all of Elsevier's journals enable open access publishing. In 2023, we published over **190,000** open access articles, a year-on-year growth rate of over **23%**. Today Elsevier is one of the world's fastest-growing open access publishers.

Whatever your discipline, there's an open access home for your research. With over **2,900** journals that offer gold open access publishing options, and over **800** fully open access journals, we've got you covered.
