

696 ABS ANNIVERSARY

Model Year 2013

MONSTER

Chassis prefix:
Cylinder capacity: 696

003000013
SPARE PARTS CATALOGUE
en-US

The present spare parts order exactly the right spare parts.

When ordering specify:

1. the part's code number followed by its description and quantity needed;
2. the motorcycle's serial number, stamped on the steering head.

Reference to right and left apply to the vehicle in terms of its direction of movement.

Spare parts drawings are general and do not represent the part.

The contents of this catalogue are general and can undergo changes without prior notice.

The image shows the top portion of a white rectangular label. At the top, the word "DUCATI" is printed in a large, bold, italicized black font. Below it, the words "GENUINE PARTS" are printed in a smaller, bold, black font. At the bottom of this section, there is a table with three rows and one column. The first row contains the text "Part - code N.". The second row contains the text "Quantity N.". The third row contains the text "Made in Italy".

This exploded view diagram illustrates the assembly of a carburetor. The central component is the carburetor body (3), which features a throttle valve (14) and a choke valve (16). The diagram shows the following parts and their assembly sequence:

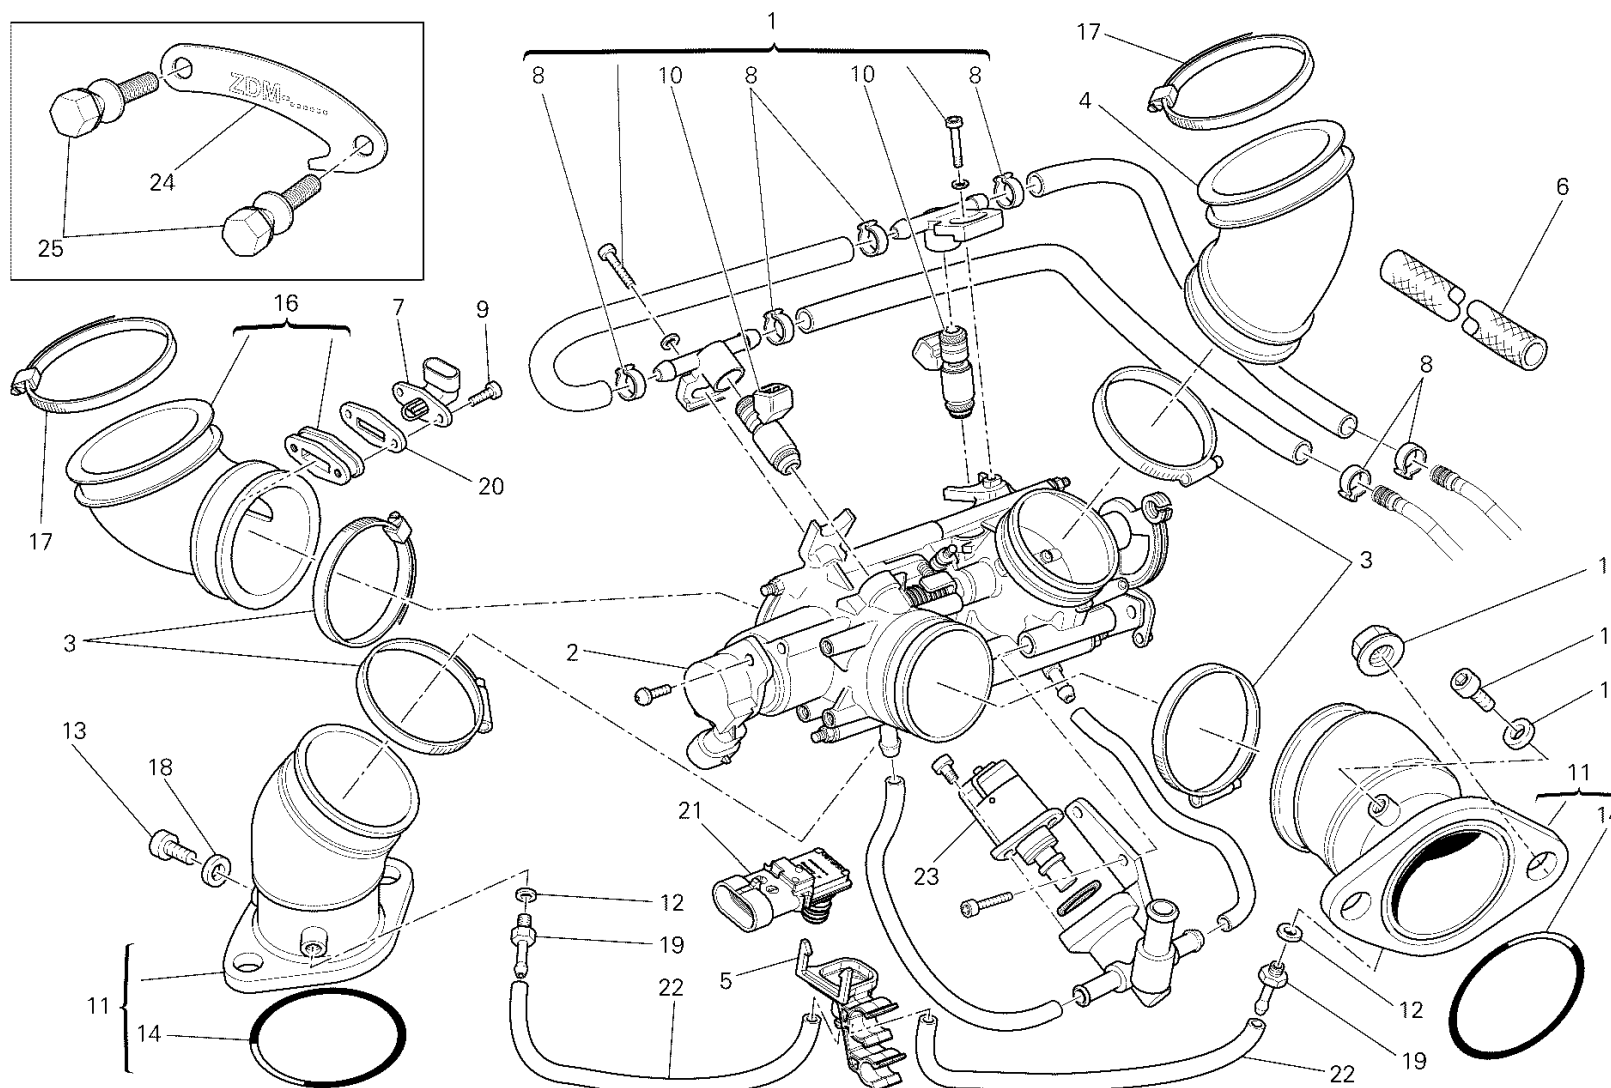

- Top Cover (12):** Consists of the top cover (11) and a gasket (12). It is secured with a screw (13).
- Throttle Linkage (14):** Includes the throttle cable (10), throttle lever (14), and throttle valve (16).
- Choke Linkage (16):** Includes the choke cable (10), choke lever (16), and choke valve (18).
- Internal Components:** The carburetor body (3) contains the throttle valve (14), choke valve (16), and a float valve (18). The float valve (18) is connected to the float (11) and the float bowl (12).
- Assembly Sequence:** The diagram shows the assembly of the carburetor body (3) with the throttle valve (14), choke valve (16), and float valve (18). The float valve (18) is connected to the float (11) and the float bowl (12). The top cover (11) is then attached to the carburetor body (3) with the gasket (12) and screw (13).
