This exploded view diagram illustrates the assembly of a motorcycle engine. The central component is the engine block, which includes the cylinder head, cooling fins, and crankcase. Various parts are shown in their relative positions, with dashed lines indicating the assembly sequence and fitment. The numbered parts are as follows:

- 1, 2, 3, 4, 19, 20:** Components of the timing chain drive, including the timing chain, timing sprockets, and timing cover.
- 5, 6, 7, 10, 11, 12, 13, 14, 21, 22:** Components of the valve train, including the intake and exhaust valves, valve guides, valve springs, and valve covers.
- 8, 9, 16, 17, 18:** Components of the piston and connecting rod assembly, including the piston, connecting rod, and crankshaft.
- 15:** A component of the timing chain drive, likely a timing chain link or guide.

The diagram shows the engine block with the timing chain drive, valve train, and piston and connecting rod assembly. The timing chain drive is shown on the left, the valve train on the right, and the piston and connecting rod assembly at the bottom. The engine block is in the center, with the timing chain drive, valve train, and piston and connecting rod assembly shown in their relative positions. Dashed lines indicate the assembly sequence and fitment of the parts.
