Saved Where Clause: ((workorder.woclass = 'WORKORDER' or workorder.woclass = 'ACTIVITY') and workorder.historyflag = 0 and workorder.istask = 0

Dynamic Where Clause:

3.4 Reimbursable Operating Expenses:

Contractor shall invoice the Aviation Authority for the actual Reimbursable Operating Expenses incurred and paid for by the Contractor during the prior month.

a. The Reimbursable Operating Expenses **shall be limited** to the following:

1) Replacement Parts: The Aviation Authority will reimburse the Contractor for parts purchased by the Contractor for the BHS. Reimbursement will be done in conjunction with the monthly invoice. Original parts purchased invoices must be submitted monthly as parts are purchased and received. Along with the original parts invoice the Contractor must submit proof that purchased part were placed into EAMS Maximo inventory.

2) Annual Certification/Inspection - Fees for Annual Scale Certification paid to the Florida Department of Agriculture Services and EDS machine Crane Inspection/Certification paid on behalf of The Aviation Authority by the Contractor.

3) Subcontracted Work: The Aviation Authority will reimburse the Contractor for actual subcontractor cost for goods and services incurred in the performance of Aviation Authority (AAR) approved projects. Invoices for all subcontracted goods and services shall be provided and shall clearly indicate a description of the work and the total cost. The Contractor shall include a copy of the actual invoice received from its subcontractor along with its invoice to the Aviation Authority for "Subcontracted Work", and only those charges supported by the documentation shall be payable. There shall be no mark-up associated with the subcontracted work.

a) The term "subcontractor" here does not refer to or include the Contractor's permanent scope provided by the MWBELDB subcontractor(s).

b. The Contractors aggregate annual invoices for Reimbursable Payroll and Operating Expenses shall not exceed the total Reimbursable Payroll and Operating Expenses Budget for the applicable year, unless prior authorization had been obtained from the Aviation Authority. If not specifically set forth in Sections 3.3 and 3.4, any other expenses incurred by Contractor shall not be reimbursed and shall be paid for by the Contractor.

c. Only the Reimbursable Payroll and Operating Expenses set forth in Sections 3.3 and 3.4 shall be reimbursable by the Aviation Authority. If not specifically set forth in Sections 3.3 and 3.4, any other expenses incurred by Contractor shall not be reimbursed by the Aviation Authority and shall be paid for by the Contractor.

ADDENDUM NO. 2
TO
PURCHASING PROPOSAL 23-282-RFP
BAGGAGE HANDLING SYSTEM (BHS) OPERATION, MAINTENANCE AND REPAIR SERVICES
ORLANDO INTERNATIONAL AIRPORT
ORLANDO, FLORIDA

December 14, 2022

This addendum forms a part of the Proposal Documents described above. The original Proposal Documents remain in full force and effect except as modified by the following which shall take precedence over any contrary provisions in the prior documents.

ITEM 1: Replace RFP Detail Proposal Pricing Sheet with corrected RFP Detail Proposal Pricing Sheet. Change in format correction.

ITEM 2: Attached is the revised PowerPoint Presentation and Pre-Bid Sign-in/GoToMeeting Roster. Address correction on slide 38.

ITEM 3: Question: How many radios are required for this Contract?
Answer: Please see section 4.15.c on page 57.

6 December 13, 2022

Scope of Work

- Preventive Maintenance
- Predictive Maintenance
- Corrective Maintenance
- Computerized Maintenance Management System EAMS Maximo – Utilization and Data Entry Requirements
- Library – Initial setup and maintenance
- Historical Records
- Safety Protection
- Staffing Wage Plan
- Adding or Replacing Equipment
- Performance Measurement/Tracking
- Compensation Adjustment
- Deductions Based on Equipment Non-Operational Time
- Deductions Adjustments

Work Hours

(Refer to Section 4.4)

- The Contractor shall be solely responsible for the assignment and utilization of employees to ensure all required work is conducted as specified herein. The Contractor's employees engaged to perform work under this Contract shall be regular full-time personnel.
- The Contractor shall maintain management, supervision and staff on-site, twenty-four (24) hours per day, 365 days per year, including Holidays in quantities and with qualifications sufficient to perform the work described herein.

Mandatory and Minimum Requirements

(Refer to Section 2.1)

a. Proposer shall have a minimum of five (5) years successful, continuous, and recent experience in the business of providing baggage handling system, operation, maintenance and repair services.

b. Proposer must be registered to do business in the State of Florida. Provide a copy of such registration to the Aviation Authority with the RFP submission.

c. Proposer shall have performed services in loading and unloading of conveyors, baggage alignment, and the clearing of bag jams on the conveyor systems, and manual bag recoding/sorting functions.

d. Proposer shall have performed services in an airport handling a minimum of twenty-five thousand (25,000) outbound bags per twenty-four (24) hour period.

Mandatory and Minimum Requirements

(Refer to Section 2.1)

e. Proposer shall have, or have had within the past five (5) years, at least one maintenance and repair Contract at one (1) airport where the total number of feet of conveyor line maintained is at least twenty-thousand (20,000) linear feet.

f. Proposer must presently have, or have had within the past five (5) years at least one (1) maintenance and repair Contract where the Contractor maintained and repaired a system that has multiple In-Line Explosive Detection Screening machines (EDS) machines at one (1) airport.

g. Proposer shall submit a complete and responsive proposal. Refer to Section 7.0. Proposal Submittal Requirements.

h. Provide documentation that demonstrates Proposer has had first-hand experience since January 1, 2018, in providing the Services listed in Section 4.0 Scope of Work/Specifications herein.

Mandatory and Minimum Requirements

(Refer to Section 2.1)

i. Proposer shall provide an affirmative statement that it is independent of the Aviation Authority.

j. Proposer must demonstrate financial responsibility and must be financially capable of performing the terms of the Agreement in the sole determination of the Aviation Authority.

k. If the Proposer is a partnership, joint venture, or newly formed entity (e.g. limited liability company or corporation), the minimum requirements set forth in Section 3.0 (and throughout the RFP) must be satisfied by the entity or individual(s) that owns and controls a majority equity interest (at least 51 %) of the partnership, joint venture or newly formed entity.

Contractor's Personnel

(Refer to Sections 4.27 through 4.41)

- The following list of positions includes but is not limited to all personnel necessary to satisfactorily meet the requirements of this Contract. **All personnel performing under this Contract shall be full time employees dedicated solely to the operation of this contract at MCO. Companies currently doing business with the Aviation Authority or other entities at the airport will not be allowed to cross utilize any management or employees to satisfy the requirements of this contract.**
  - On-Site Manager
  - Assistant Managers
  - Administrative Staff
  - EAMS Maximo Administrator/Supervisor
  - Supervisors
  - Technicians
  - Support Staff

EAMS Maximo Database Contractor's Responsibilities
(Refer to Section 4.35 through 4.36)

- Ensure EAMS Maximo integrity of information, accuracy and timely entry of asset and work order information.
- Generate reports
- Provide administration and day to day support of Production
- Train users including Contractor and the Aviation Authority's personnel.
- Provide testing support for software, patch management, upgrades and integration.
- PM Schedules
- Job Plans
- Work Orders
- Follow-up Work Orders

EAMS Maximo Database Contractor's Responsibilities
(Refer to Section 4.35 through 4.36)

- Corrective Work Orders
- Work Order Scheduling/Assignment
- Work Order Completion
- Work Close-Out
- Asset Data
- Meter and Condition Data
- Inventory Data

Repair Parts
(Refer to Section 4.43 through 4.48)

- Repair Parts Bench Stock
- Reimbursement for Parts
- Additional Repair Parts, Inventory & Storage
- Withdrawing Parts from the Aviation Authority Inventory
- Material And Part Disposal
- Tools, Equipment, and Supplies

Performance Tracking
(Refer to Section 4.49 through 4.75)

- The Contractor is given the first 90 days of the Contract to inspect and repair any deficiencies in the BHS during which time no penalties shall be applied.
- Performance Measurements are applied collectively across all Contractor responsible areas/assets.
- Non operational time (downtime) is to be tracked daily and finalized within 24 hours
- Downtime in the calendar month is determined as described in section 4.50
- See section 4.59 for applicable operational deductions and calculations

Performance Tracking Cont.
(Refer to Section 4.49 through 4.75)

- Safety is paramount. Review the Safety/Security Violations as indicated in section 4.61
- Service and jam calls must be responded to within five (5) minutes of notification
- Bag jams in excess of 6 minutes shall be included in downtime calculations
- BHS failures resulting in missed baggage may result in penalties of 100.00 per bag to a maximum of $2,500 per day
- Baggage delayed due to a BHS issue that results in air carrier(s) holding flights to accommodate delayed baggage may result in a deduction up to and including $1,500 per day

Evaluation of Proposal Award
(Refer to Section 2.2)

- The Aviation Authority reserves the right to award the Proposal to the responsive and responsible Proposer submitting the Proposal which is deemed the most advantageous to the Authority, price and other factors being considered.
- The following are the evaluation criteria that will be considered in determining which Proposal is most advantageous to the Aviation Authority. Proposer(s) must meet the minimum mandatory requirements as stated.
  - Meet Mandatory and Minimum Requirements.
  - Experience and Background.
  - The ability of the proposed team, particularly the Site Manager, to demonstrate the level of experience with and knowledge of Baggage Handling System (BHS) Operation, Maintenance and Repair Services relevant to the scope of services set forth in this RFP.

Evaluation of Proposal Award

(Refer to Section 2.2)

- Proposer's (i) staffing; (ii) customer service; (iii) training; (iv) safety; (v) quality control/continuous improvement; and (vi) transition plans will be evaluated.
- Adherence to Aviation Authority Contractual Agreement and Minimum Insurance Coverage.
- Prior or Pending Convictions, Indictments, Investigations, Fines or Regulatory Investigations and Claims Information.
- Financial Strength.
- Management Fee/Pricing.

PERFORMANCE BOND REQUIREMENTS

(Refer to Section 2.5)

A Performance Bond or Irrevocable Standby Letter of Credit **is** required for this Contract.

Performance Bond shall be current and in compliance at all times during the Initial Term of the Contract in a penal sum equal to ***Six Million Dollars ($6,000,000) for 60 months***.

INSURANCE REQUIREMENTS

(Refer to Section 2.6)

TYPE	AMOUNT
General Liability	$5,000,000
Automobile Liability	$5,000,000
Workers Compensation	Statutory limits
Pollution/Environmental Liability Insurance.	Insurance for bodily injury, property damage, defense costs, clean-up and restoration expenses resulting from pollution/pollutant(s) or other environmental impairments which arises out of, or in connection with, Contractor's work with limits not less than $1,000,000 per claim.
Additional Insured Endorsement	Contractor agrees and shall cause the Authority and the City and their members (including, without limitation, members of the Authority's Board and the City's Council and members of the citizens' advisory committees of each), officers, employees, and agents to be named as additional insureds under such policy or policies of commercial general and automobile liability insurance.

Other Special Conditions

- **Section 2.7 Verification of Employment Status**
  Prior to the employment of any person under this Contract, the Contractor shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the Contract.
- **Section 2.8 Identification and Access Requirements**
  All employees assigned to the Contract MUST qualify for an airport badge. Contractor is required to conduct a qualifying employee background check, and/or require its Subcontractors to perform a qualifying employee background check. All persons operating on this Contract must also meet the requirements of qualifying for a US Customs Seal (Customs background check) as required to have a US Customs Seal on their airport issued identification.
- **Section 2.10 Airport Security**
  The successful Proposer will be required to comply with all applicable regulations of the Transportation Security Administration (TSA) and of the Aviation Authority relating to Airport security, including those relating to access to the Aircraft Operations Area (AOA) of Orlando International Airport, as such regulations may be in effect or changed from time to time.

MINORITY AND WOMEN BUSINESS ENTERPRISE (MWBE)
AND/OR
LOCAL DEVELOPING (LDB)
VETERAN BUSINESS ENTERPRISE (VBE)
PARTICIPATION PROGRAMS

MWBE Participation

(Refer to Section 2.11)

MINORITY AND WOMEN BUSINESS ENTERPRISE PARTICIPATION PROGRAMS

- **The Aviation Authority has established a MWBE Participation Goal of 30%**
- The Proposer will be considered non-responsive to the Proposal and rejected if the Bidders fail to demonstrate, to the reasonable satisfaction of the Aviation Authority, as required by the MWBE policy, that the Proposer has met or has made a good faith effort to meet the established MWBE goal.
- All Proposers shall comply with the Small Business requirements. Bidders are required to submit, with their Proposal, MWBE information by completing Attachment F - MWBE form.

MWBE Participation

- After the Proposals are opened and prior to an award of the Contract, the Aviation Authority may request, receive and consider omitted and supplemental information from the Proposers as to the certification of Proposers , if applicable, and of any Proposer's Subcontractor, supplier or joint venture in order to determine MWBE status.
- The successful Proposer shall enter into subcontract(s)/purchase orders with the MWBE(s) identified in the Proposer's submittal documents which the Aviation Authority relied upon in awarding this Contract, subject only to the Aviation Authority's right to approve all Subcontractors.

MWBE Participation

- If the Proposer is unable to utilize another MWBE for performance of that portion of this Contract, the Proposer shall provide the Aviation Authority with documentation, in a form satisfactory to the Aviation Authority, showing that it is not possible to replace the terminated MWBE with another MWBE.
- The MWBE percentage for participation must not decrease below the percentage proposed during the term of the Contract.
- The successful Proposer shall submit to the Aviation Authority a Disbursement Form with each invoice submitted for payment, indicating the amount of money spent with each MWBE(s) since the previous invoice.

MWBE Participation

A list of currently certified MWBEs may be obtained via the internet at www.orlandoairports.net/small_business, or from the Authority's Office of Small Business Development by calling (407) 825-3143.

Proposers may contact the Office of Small Business Development for any questions or information concerning the MWBE or the LDB Participation Program.

Orlando Santiago Perez, MSEP, C.M.
407.825.7134

Proposers shall be solely responsible for ensuring all MWBEs and LDBs are capable of performing the services. Certification of eligibility as an MWBE or LDB should be obtained prior to submission of the Proposal.

LDB Participation

(Refer to Section 2.12)

LOCAL DEVELOPING BUSINESS PARTICIPATION PROGRAM

- **The Aviation Authority has established a LDB Participation Goal of 3%**

Good Faith Effort for MWBE/LDB Participation

(Refer to Section 2.13)

If the Proposer fails to meet the MWBE/LDB Participation Goals, the Aviation Authority will require Proposer to submit evidence of good faith efforts within 2 business days of request.

Additional information on meeting good faith efforts can be found by going to https://orlandoairports.net/airport-business/.

COMPENSATION – INVOICE & PAYMENT FOR SERVICES

(Refer to Section 3.0)

- The Aviation Authority shall pay the Contractor, subject to authorized deductions, and subject to the provisions of the following Sections 3.1, 3.2, and 3.3: the Management Fee; the Reimbursable Payroll and Operating Expenses up to the amounts set forth on Section 7 – Proposal Pricing Form, Management Fee for Contractor Staff that is authorized by the Authority as required by the Specification.
- The Contractor shall invoice the Aviation Authority for the following: the Management Fee; and the Reimbursable Payroll and Operating Expenses; by the tenth (10th) day of each month following the month in which the services were performed by the Contractor in conformity with Contract requirements.

Management Fee

(Refer to Section 3.2)

- All payroll and associated costs for the On-Site Manager, Assistant Manager(s), Administrative Staff and any other positions deemed necessary by the Contractor and not listed in the Reimbursable Payroll Expenses Section 3.3 and 3.4 below.
- The Management Fee for the Contractor and Sub-Contractor(s) shall also include all other expenses not listed in the Reimbursable Payroll Section 3.3 below, including, but not limited to:
  - Contractor overhead and profit.
  - Sub-Contractor's Management Fee.
  - All required insurances as outlined in Section 3.4 – Insurance Requirements.
  - Cost of Performance Bond.
  - Workers compensation per Section 5.7 for all employees including management and reimbursable positions.
  - Recruiting expenses.
  - Badges and keys.
  - Office equipment and supplies.

Management Fee

(Refer to Section 3.2)

- Vehicles, Lifts, Golf Carts, Lull and all other motorized equipment.
- Tools and equipment, to include the repairs of Contractors equipment.
- Communication equipment, i.e. Radios, Cell Phones, etc.
- Consumables.
- Record retention obligation (4 Years Post-Contract).
- Cost associated with all pre-approved training (i.e. trainer, training materials, etc.). The Aviation Authority will only reimburse for the hours to attend the training for the reimbursable positions.
- Non-resident administrative, legal, bookkeeping, executive personnel expenses and off-site general office expenses.
- Cost for internet services and associated connectivity costs for Contractor provided computers and devices.

Management Fee

(Refer to Section 3.3)

- Costs associated with the cleaning services for the interior space of all office areas.
- Cost of any other benefits for management fee and reimbursable positions, i.e. retirement plan, life insurance, etc.
- Health insurance premiums for the positions in the Management Fee.
- Health Insurance premiums in excess of: $500 per month for Year 1, $525 per month for Year 2, and $550 per month for Year 3, $575 per month for Year 4, $600 per month for Year 5, per position for the reimbursable positions participating in the Contractor provided Health Care Plan.

Reimbursable Payroll Expenses

(Refer to Section 3.3)

- The Reimbursable Payroll Expenses shall be **limited to** the following:

- Supervisors
- Technicians
- EAMS Maximo Data Entry Staff
- Inventory Control Staff
- Baggage Operation Staff
- Overtime hours as approved in advance by the AAR.
- Associated payroll taxes: Social Security, Medicare, Federal & State Unemployment.
- Actual paid time-off taken (vacation, sick, bereavement and jury duty) and holiday pay as approved by the AAR.
- Health Insurance premiums for up to $500 per month for Year 1; up to $525 per month for Year 2; up to $550 per month for Year 3; up to $575 per month for Year 4; up to $600 per month for Year 5; per position for the reimbursable positions participating in the Contractor provided Health Care Plan.

Reimbursable Operating Expenses

(Refer to Section 3.4)

- The Reimbursable Payroll Expenses shall be **limited to** the following:
- Replacement Parts: The Authority will reimburse the Contractor for parts purchased by the Contractor for the BHS in conjunction with the monthly invoice. The Contractor must submit proof that purchased parts were put into EAMS Maximo inventory.
- Subcontracted Work: The Authority will reimburse the Contractor for actual subcontractor cost for goods and services incurred in the performance of Authority (AAR) approved projects. There shall be no mark-up associated with the subcontracted work.
  - The term "subcontractor" here does not refer to or include the Contractor's permanent scope provided by the MWBE/LDB subcontractor(s).

Non-Reimbursable Expenses

(Refer to Section 3.5)

The following expenses shall not be reimbursed by the Aviation Authority:

- Any accrued vacation or sick leave hours at the time of Contract expiration, at the end of any Contract year, or upon employee termination for any reason.
- Costs or expenses of legal representation, or of union negotiations and administration.
- Costs of any and all interest, late charges, penalties, and fines paid by the Contractor and/or its employees.
- Taxes accrued above Federal or State wage limitation will not be reimbursed. Only Federal and State Unemployment taxes actually paid will be reimbursed.
- Any other costs or expenses not specified under Section 3.3 and 3.4 – Reimbursable Payroll Expenses and Reimbursable Operating Expenses.

Non-Reimbursable Expenses

(Refer to Section 3.5)

- Contractor shall pay all costs and expenses connected with its operations when due and submit to the Aviation Authority, on or before the 10th day of each month, itemized statements of all approved Reimbursable Payroll and Operating Expenses incurred and paid for during the previous calendar month. Each such statement shall be accompanied by such proof of charges and disbursements and other supporting documents as the Aviation Authority may from time to time request, including, but not limited to, paid invoices, payroll registers and other payroll records.
- Reimbursement of reasonable, allowable expenses shall be made by the Aviation Authority within approximately 30 days of its receipt from Contractor of monthly itemized statements submitted provided that (i) the statements are in the format required by the Aviation Authority, (ii) all appropriate supporting documents are attached to each statement, (iii) the statement contains a statement that the Aviation Authority has not previously reimbursed the Contractor for any of the itemized expenses, and (iv) the statement is complete and accurately reflects the actual costs incurred.

Proposal Submittals

- Proposal packages shall be sealed and clearly labeled. Must be submitted to:

Greater Orlando Aviation Authority
Purchasing Office
5855 Cargo Road, Annex Building
Orlando, Florida 32827-4399

- One original Proposal clearly marked:

"Baggage Handling System (BHS) Operation, Maintenance and Repair Services"

- **One Copy clearly marked**
- One exact electronic copy of the Proposal must be included with the Original Proposal on an individual electronic USB Flash Drive.

Proposal Submittals

- Tab 1 – Table of Contents
- Tab 2 – Executive Summary
- Tab 3 - Proposer's Knowledge, and Experience
- Tab 4 – References
- Tab 5 – Operational Plan
- Tab 6 – Proof of Insurance
- Tab 7 – Prior or Pending Claims
- Tab 8 – Financial Background Information
- Tab 9 – Additional Information
- Tab 10 - Attachments

Proposal Submittals
(Refer to Section 7)

Attachment A - Proposer's Certification Form.

Attachment B - Proposal Price Form

Attachment C – Addendum Receipt Verification

Attachment D – Proposer's Questionnaire

Attachment E – Conflict of Interest Disclosure Form

Attachment F - Scrutinized Company Certification Form

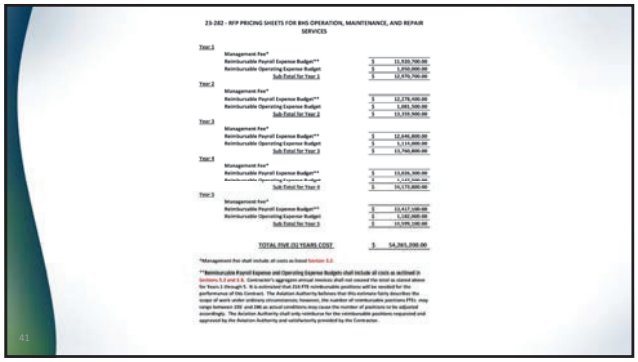
Attachment G –. MWBE Forms

Attachment H - Proposer's W-9

Attachment I - Letter of Bondability.

Attachment J – E-Verification Certification Form.

Attachment K - No Proposal Response Form.



23-282 - RFP PRICING SHEETS FOR BHS OPERATION, MAINTENANCE, AND REPAIR SERVICES

Year 1
Management Fee*
Reimbursable Payroll Expense Budget** $ 11,920,700.00
Reimbursable Operating Expense Budget $ 1,850,000.00
Sub-Total for Year 1 $ 12,970,700.00

Year 2
Management Fee*
Reimbursable Payroll Expense Budget** $ 12,279,400.00
Reimbursable Operating Expense Budget $ 1,905,500.00
Sub-Total for Year 2 $ 13,339,900.00

Year 3
Management Fee*
Reimbursable Payroll Expense Budget** $ 12,640,800.00
Reimbursable Operating Expense Budget $ 1,114,000.00
Sub-Total for Year 3 $ 13,760,800.00

Year 4
Management Fee*
Reimbursable Payroll Expense Budget** $ 13,020,300.00
Reimbursable Operating Expense Budget $ 1,143,200.00
Sub-Total for Year 4 $ 14,173,800.00

Year 5
Management Fee*
Reimbursable Payroll Expense Budget** $ 13,417,100.00
Reimbursable Operating Expense Budget $ 1,182,400.00
Sub-Total for Year 5 $ 14,599,100.00

TOTAL FIVE (5) YEARS COST $ 54,844,300.00

*Management Fee shall include all costs as listed Section 3.2

**Reimbursable Payroll Expense and Operating Expense Budgets shall include all costs as outlined in Sections 3.2 and 3.3. Contractor's aggregate annual invoices shall not exceed the total as stated above for Years 1 through 5. It is estimated that 316 FTE reimbursable positions will be needed for the performance of this Contract. The Aviation Authority believes that this estimate fairly describes the scope of work under ordinary circumstances, however, the number of reimbursable positions FTEs may range between 290 and 386 as actual conditions may cause the number of positions to be adjusted accordingly. The Aviation Authority shall only reimburse for the reimbursable positions requested and approved by the Aviation Authority and satisfactorily provided by the Contractor.

Proposal Opening

Proposal Opening will consist of reading aloud the Proposer's Name only. Proposal Pricing will not be read aloud in accordance with State Of Florida Statute 119.071 (1):

Sealed Proposals, received by an agency pursuant to a competitive solicitation are exempt from FS. 119.07(1) and s. 24(a), Art. I of the State Constitution until such time as the agency provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.

Notice of Intended Decision will be posted to OrlandoAirports.net within 30 days.

ADDENDUM NO. 1
TO
PURCHASING PROPOSAL 23-282-RFP
BAGGAGE HANDLING SYSTEM (BHS) OPERATION, MAINTENANCE AND REPAIR SERVICES
ORLANDO INTERNATIONAL AIRPORT
ORLANDO, FLORIDA

December 8, 2022

This addendum forms a part of the Proposal Documents described above. The original Proposal Documents remain in full force and effect except as modified by the following which shall take precedence over any contrary provisions in the prior documents.

ITEM 1: Replace Page 1, Page 137 and Page 160 with corrected Page 1, Page 137 and Page 160. Change the Sealed Proposal opening date from 10:00 a.m., January 5, 2023 to 11:00 a.m., January 12, 2023.

ITEM 2: Question: Will there be a job walk after the pre-bid meeting?

Answer: The Authority will allow a site visit on December 13, 2022 immediately proceeding the Pre-bid meeting scheduled. The site visit will be limited to two individuals from each company that attends the Pre-Bid meeting. Participants are respectfully requested to RSVP to vlad.opreanu@goaa.org with their company name and contact information by 1:00 p.m. on December 12th.

ITEM 3: Question: We would respectfully request a two week extension, which would allow us ample time to prepare the proper response.

Answer: The Authority will allow a one week extension (see item 1).

ITEM 4: Question: On Page 16 of 160, the RFP specification states: Please clarify if a Bid Bond is required for this solicitation:
Bid Bonds provided to the Aviation Authority in connection with Contracts shall be duly issued by an insurer or corporate surety (a) on a bond form provided by Aviation Authority, or on a form substantially the same as Aviation Authority's form; (b) obligating the surety for at least ninety (90) days following the date on which Bids are publicly opened; and (c) by an insurer or corporate surety that is authorized to conduct insurance business in the State of Florida.

Answer: Solicitation 23-282-RFP requires a Performance Bond per Section 2.5 page 14. A Bid Bond has not been established for this solicitation.

7.0 PROPOSAL SUBMITTAL REQUIREMENTS

7.1 Opening

a. Sealed proposals are exempt in accordance with Florida Statute 119.071(1) (b) 2. The names of the firms submitting a competitive solicitation will be read aloud at the time of the opening. No details of the competitive solicitation will be released until such time as the Aviation Authority provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.

b. Submittals must be submitted no later than **11:00 a.m. Eastern Time on Thursday, January 12, 2023** in sealed envelopes bearing the words "**Purchasing Proposal 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services,, for the Orlando International Airport".**

c. Each Proposer shall submit three (3) complete sets of the Submittal:

One hardcopy marked "ORIGINAL".

One hardcopy marked "COPY".

One COMPLETE electronic copy on a USB drive in PDF format. The Submittal in PDF format shall have *na i ational oo ar s* inserted in lieu of any tabs required in the hard copy. The entire submittal shall not exceed a single USB Flash Drive. In cases where there are discrepancies between the electronic PDF and hard copy, the hard copy shall take precedence.

7.2 Delivery of Proposal

a. It is the sole responsibility of the Proposer to ensure that their submittal reaches the Purchasing Department. All proposals, unless otherwise specified, must be delivered to the following address no later than the time and date specified in the solicitation:

Greater Orlando Aviation Authority
GOAA Annex Building,
Purchasing Department
5855 Cargo Road, Orlando, FL 32827- 4399

b. Proposer should include the Proposal Number and Name, Name and Address of Proposer, and the Date of the opening on the outside of the box or envelope. Proposals submitted by e-mail, telephone or fax shall not be accepted. An e-mailed or a faxed submittal shall be rejected as non-responsive regardless of where or when it is received.

Proposers are cautioned that they are solely and strictly responsible for delivery to the specific location cited prior to the specified opening date and time. Therefore,

1.0 GENERAL INFORMATION

1.1 Solicitation Information

Solicitation documents may be examined and are available for download from the Aviation Authority's Purchasing Department's website or by visiting the Aviation Authority's online solicitation platform powered by Mercell Source-to-Contract (Mercell) at www.orlandoairports.net/purchasing or https://app.negometrix.com/buyer/5681

a. Mercell provides supplier registration services, document fulfillment and other purchasing related services to the Aviation Authority and to suppliers doing business with the Aviation Authority. **There is no charge to the Proposer to register and any award resulting from this solicitation will not require any payment by the Proposer to Mercell.**

b. If you received this solicitation document from any source other than Mercell, please promptly register your interest in this solicitation with Mercell.

c. If a Pre-Proposal Conference is held, please see the Cover Page of this solicitation for the location, date, and time. The purpose of any Pre-Proposal Conference is to review and discuss the solicitation (and any addenda) as published. Attendance is not mandatory but is highly encouraged. Proposers are expected to be familiar with the Proposal Documents.

d. Questions regarding this Solicitation are to be directed to the Senior Purchasing Agent listed on the Cover Page of this Solicitation. The last date for questions pertaining to this Solicitation is listed on the Cover Page of this solicitation. Questions after this date and time will not be answered.

e. Questions will be answered via addendum and posted to https://app.negometrix.com/buyer/5681.

.

f. If the Purchasing Department determines that it is necessary to change these dates or times prior to the Proposal due date, the change will be announced via an addendum and posted on Mercell's website.

g. Late Proposals, as determined by the official time clock located in the Purchasing Department's Office will not be considered and may be returned to the Proposer as non-responsive.

h. Proposal openings shall be public, opened on the date and at the time specified on the Proposal form. The Proposer's name and verification of bond submittal, if applicable, will be publicly announced aloud at the Proposal opening.

i. The Proposal Summary is posted on the Aviation Authority's Purchasing Department's website: www.orlandoairports.net/purchasing and on Mercell's website: https://app.negometrix.com/buyer/5681

j. All prospective Proposers/Proposers shall thoroughly examine and become familiar with the Proposal package and carefully note the items which must be submitted with the Proposal as detailed in **Section 7.0**, Proposal Submittal Requirements.

k. Submission of a Proposal shall constitute an acknowledgment that the Proposer has read and understands the Proposal Documents. The failure or neglect of a Proposer to receive or examine any Proposal Document shall in no way relieve it from any obligations under its Proposal or the Contract. No claim for additional compensation will be allowed which is based upon a lack of knowledge or understanding of any of the Contract Documents or the scope of work.

l. **Proposers shall submit** *1* **.**

m. Proposer's Proposal prices shall remain firm for the duration of the initial term of the Contract. Any anticipated increases in Proposer's costs during the initial term of the Contract must be reflected in its prices set forth in its Proposal. The Aviation Authority shall not be obligated to renegotiate or increase any price for any work during the initial term of the Contract based on a Proposer's mistake or miscalculation of prices, underestimation of costs, or for any other reason. All of the Proposer's overhead costs, including, but not limited to, costs of the required bonds and insurance coverages, shall be included in such Proposer's prices listed in its Proposal.

1.2 Intent and Purpose

a. The Greater Orlando Aviation Authority (GOAA), Orlando International Airport, Orlando, Florida, (Aviation Authority) is soliciting sealed Proposals from qualified and experienced firms to provide all labor, supervision, management oversight, training, materials, tools, equipment, submissions, reports, consumables, uniforms and all other items and services necessary, proper for, or incidental to performing twenty-four (24) hours per day seven (7) days per week, on-site maintenance, repair and operation for the Baggage Handling Systems (BHS) Operation which includes, Corrective Maintenance (CM), Preventative Maintenance (PM) and Predictive Maintenance (PdM), to utilize, generate and maintain data into the specified site of the Aviation Authority's Enterprise Asset Management System EAMS Maximo, the management of spare parts inventory for the BHS Operation, Maintenance and Repair Services at the Orlando International Airport ("OIA") in accordance with the Contract Documents.

b. The Contract work may be divisible or if an award is made the, Contract may be awarded to a single Proposer. The agreement between the successful Proposer(s) and the Aviation Authority will be non-exclusive.

1.3 Exceptions to Terms and Conditions within the RFP

If the Proposer desires to take exception(s) to any portion of the terms and conditions of this RFP, the exception(s) must be taken during the question and answer period, and response will be included in an addendum. Exceptions noted within the response submittal will cause the response to be deemed non-responsive.

1.4 Contract Period

The Contract period will be for sixty (60) **months** with the **Contract Term** to commence on or about April 1, 2023. The original contract prices shall be firm for the entirety of the initial contract period.

1.5 Communications; Questions Regarding Specifications or Proposal Process

a. All communication and contact regarding this solicitation shall be directed to the Senior Purchasing Agent referenced on the Cover Page of this solicitation.

b. Any official communication from a Proposer during the Proposal process should be submitted in writing to the Greater Orlando Aviation Authority, **GOAA Annex Building, Purchasing Department, 5855 Cargo Road, Orlando, FL 32827- 4399** or to the email address as directed during the Proposal process. A copy of the Administration Policies (Sections 180.01 and 180.03) is available upon request from the Manager of Board Services.

c. In accordance with the above-referenced policies, any communication directly or indirectly to seek to encourage any specific result in connection with an Aviation Authority selecting process, including but not limited to, written communications, any and all forms of electronic communications or messaging, including social media, oral communications either in person or by telephone, initiated by a Proposer or through a lobbyist, agent or third person, to any Aviation Authority staff and/or Committee/Board member who is a member of any committee constituted for the purposes of ranking Solicitations, making recommendations or making an award, is prohibited from the time that the Solicitation is released to the time that the award is made.

1.6 Notice of Intent to Award Contract

Unless all Proposals are rejected by the Authority, a Notice of Intent to Award is anticipated to be provided within ninety (90) days from the opening of Proposals to the responsible and responsive Proposer(s) submitting the Proposal(s) deemed to be most advantageous to the Aviation Authority, price and other factors being considered. For all procurements, the Aviation Authority reserves the right to reject any or all Proposals and to cancel the procurement or to solicit new Proposals.

1.7 Public Meetings/Public Records

Please be aware that all meetings of the Aviation Authority's Board are duly noticed public meetings and all documents submitted to the Aviation Authority as a part of or in connection with a Proposal will constitute public records under Florida law regardless of any person's claim that proprietary or trade secret information is contained therein.

1.8 Code of Ethics and Business Conduct Policy

The Aviation Authority has adopted a Code of Ethics and Business Conduct Policy (Section 204.01) which addresses, the obligation of the Aviation Authority's Board members and employees to follow the Florida Statutes in reference to these issues. This includes, but is not limited to, the obligations of the Aviation Authority's Board members and employees with respect to having an interest in business entities, outside employment, gratuities, divulgence of information, unauthorized compensation and acceptance of gifts. Please be aware that any violation of this policy by a Proposer and/or any attempt to influence an Aviation Authority Board member or employee to violate the policy is sufficient cause for the denial of the right of the Proposer to Proposal on any Contract or sell any materials, supplies, equipment, or services to the Aviation Authority for a period of time that is determined by the Chief Executive Officer. A copy of this policy is available upon request from the Manger of Board Services.

2.0 SPECIAL CONDITIONS

2.1 Proposer's Mandatory and Minimum Requirements

Proposers must meet the following mandatory requirements to be considered for the award of the contract. Proposers will address each mandatory requirement specifically in their Proposal. Each Proposer must acknowledge on company letterhead and provide written documentation that their firm meets the Minimum Requirements.

a. Proposer shall have a minimum of five (5) years successful, continuous, and recent experience in the business of providing baggage handling system, operation, maintenance and repair services, and addressing experience with baggage handling systems.

b. Proposer must be registered to do business in the State of Florida. Provide a copy of such registration to the Aviation Authority with the RFP submission.

c. Proposer shall have performed services in loading and unloading of conveyors, baggage alignment, and the clearing of bag jams on the conveyor systems, and manual bag recoding/sorting functions.

d. Proposer shall have performed services in an airport which steady handles a minimum of twenty-five thousand (25,000) outbound bags per twenty-four (24) hour period.

e. Proposer shall have, or have had within the past five (5) years, at least one maintenance and repair Contract at one (1) airport where the total number of feet of conveyor line maintained is at least twenty-thousand (20,000) linear feet.

f. Proposer must presently have, or have had within the past five (5) years at least one (1) maintenance and repair Contract where the Contractor maintained and repaired a system that has multiple In-Line Explosive Detection Screening machines (EDS) machines at one (1) airport.

g. **Proposer shall submit a complete and responsive proposal. Refer to Section 7.0. Proposal Submittal Requirements.**

h. Provide documentation that demonstrates Proposer has had first-hand experience since January 1, 2018, in providing the **Services listed in Section 4.0 Scope of Work/Specifications herein.**

i. Proposer shall provide an affirmative statement that it is independent of the Aviation Authority.

j. Proposer must demonstrate financial responsibility and must be financially capable of performing the terms of the Agreement in the sole determination of the Aviation Authority.

k. If the Proposer is a partnership, joint venture, or newly formed entity (e.g. limited liability company or corporation), the minimum requirements set forth in this Section 3.0 (and throughout the RFP) must be satisfied by the entity or individual(s) that owns and controls a majority equity interest (at least 51 %) of the partnership, joint venture or newly formed entity.

2.2 Evaluation of Proposal Award

The Aviation Authority, in its discretion, may award the Contract to the responsible and responsive Proposer submitting the Proposal which is deemed to be the most advantageous to the Aviation Authority, price and other factors being considered. The following are the evaluation criteria that will be considered in determining which Proposal is most advantageous to the Aviation Authority. Proposer(s) must meet the minimum qualifications as stated and demonstrate knowledge and experience providing Baggage Handling System (BHS) Operation, Maintenance and Repair Services, Conditional acceptance, applications in process, or any status short of full approval will not be accepted.

a. Meet Mandatory and Minimum Requirements.

b. Experience and Background.

c. The ability of the proposed team, particularly the Site Manager, to demonstrate the level of experience with and knowledge of Baggage Handling System (BHS) Operation, Maintenance and Repair Services relevant to the scope of services set forth in this RFP.

k. Proposer's (i) staffing; (ii) customer service; (iii) training; (iv) safety; (v) quality control/continuous improvement; and (vi) transition plans will be evaluated.

d. Adherence to Aviation Authority Contractual Agreement and Minimum Insurance Coverage.

e. Prior or Pending Convictions, Indictments, Investigations, Fines or Regulatory Investigations and Claims Information.

f. Financial Strength.

g. Management Fee/Pricing.

2.3 Evaluation Criteria of Proposal

a. The evaluation criteria does not have any specific predetermined relative weight. The consideration of individual criterion is merely a tool to assist the Aviation Authority in determining which Proposal is most advantageous, as a whole, to the Aviation Authority, price and other factors being considered.

b. The relative advantages of a Proposer's responses with respect to one criterion may outweigh shortcomings of that Proposer's responses in one or more other criterion, depending on the relative disparities in the qualities of the responses in each criterion and the relative importance of certain criteria to each other, as determined in the exclusive discretion of the Aviation Authority.

c. All parties desiring information regarding the award of the Contract may visit http://Orlandoairports.net or https://app.s2c.mercell.com/buyer/5681.

2.4 Selection Process

a. Responses to this RFP will be evaluated and ranked by the Procurement Committee (PC). The recommendation of the PC will be considered by the Aviation Authority Board for award.

b. The PC shall review the responses to evaluate whether the Proposers meet the requirements set forth in this RFP and have provided all required information as required per **Section 7.0 Proposal Submittal Requirements.**

c. The PC will then thoroughly evaluate the responses and may, at its discretion, invite one or more of the Proposers that appear to be the most highly qualified to perform the requested services to present/interview with the PC. The purpose of such an interview would be to allow Proposers to elaborate upon their Proposal before a recommendation for ranking of the Proposals is made. Interview responses, along with the written Proposal will become part of the Proposer's response to be evaluated by the PC.

d. Certain factors that will be considered in selecting the Proposers who may be shortlisted or for ranking purposes include: meeting the requirements, approach to providing the Services, ability to provide the required Services, prior experience on similar projects, past performance with the Aviation Authority (if applicable), past performance with other entities and pricing.

e. The Aviation Authority reserves the right to solicit from available sources relevant information concerning a Proposer's past performance and may consider such information in its selection of Proposers.

f. The PC may conduct a presentation and interview session with each of the short-listed Proposers. Following presentations/interviews, or in the event PC determines that presentations/interviews are not necessary, the PC shall make a final ranking and select in order of preference, in order to make a recommendation to the Aviation Authority's Board, the responsible, responsive Proposal which is deemed to be the most advantageous to the Aviation Authority, price and other factors being considered to perform the requested services.

g. Following the Aviation Authority Board approval of the PC ranking, the Aviation Authority may approve a Contract.

h. The Aviation Authority shall have the right, but not the obligation, to award all or any portion of the services. The extent and scope of the Services, along with the fees for such services, will be subject to final approval by the Aviation Authority. The Aviation Authority intends, but is not obligated, to enter into a non-exclusive agreement with the highest ranked Proposer to perform the required Services described herein. The Aviation Authority reserves its right to award any or all of the advertised services subject to the availability of funding.

i. The Aviation Authority reserves the right to waive any informality in the RFPs, to reject any and all RFPs, and to re-advertise or elect not to proceed with the services for any reason.

j. All recommendations and decisions regarding award of the services shall be made at open public meetings in accordance with the requirements of Florida Statute 286.011, and all interested parties are invited to attend such meetings. The meetings of the PC and Aviation Authority Board are public meetings.

2.5 Surety Bonds/Letters of Credit/Liability Insurance

A Surety Bond/Letter of Credit **is** required for this Contract.

a. Prior to Aviation Authority's execution of the Contract and within ten (10) business days of the award, the Contractor shall furnish to Aviation Authority a Performance Bond, and a Payment Bond if required, completed on the Aviation Authority's forms provided in the Contract Documents. Such Performance Bond shall be current and in compliance at all times during the Term of the Contract in a penal sum equal to **Six Million Dollars ($6,000,000.00).**

b. The Contractor may elect to provide the Aviation Authority, in lieu of the required Performance Bond (but not the Payment Bond if required by general law), a letter of credit in an amount equal to **Six Million Dollars ($6,000,000)**, and issued on the Aviation Authority's form of irrevocable standby letter of credit ("Letter of Credit"). The Contractor shall provide the Aviation Authority with a Letter of Credit that remains in effect for at least one year after the expiration or earlier termination of the term of the Contract including any renewal or other extended term. If the Contractor fails to perform any obligation required of it under the terms of the Contract including, but not limited to, providing the Aviation Authority with an acceptable renewal or replacement letter of credit within the required time limits, the Aviation Authority shall be entitled, in addition to any other remedies, to draw the full amount of the funds available under any Letter of Credit provided by Contractor to Authority and to hold such funds until such time as the Aviation Authority in its discretion shall determine the amount of damages, costs and expenses owing to it from the Contractor. The Aviation Authority shall retain from such funds an amount equal to its actual or anticipated damages, costs and expenses, and shall thereafter return the remaining amount of the funds, if any, to the Contractor.

c. Prior to the commencement of any renewal or extended term of the Contract, Contractor, at its own expense, shall provide to the Aviation Authority an acceptable renewal or replacement Performance Bond or Letter of Credit, rider to an existing Performance Bond or Letter of Credit, or continuation amendment to an existing Performance Bond or Letter of Credit .

d. Except as provided in this Performance Bond Section, the Aviation Authority will not accept any change or modification to the forms of Performance Bond or Letter of Credit attached to these Proposal Documents. The sole change to the forms of Performance Bond and Letter of Credit that the Aviation Authority will accept is that the Contractor may provide a Performance Bond or a Letter of Credit **that is for a period of less than the full initial term of the Contract but which still has an effective term of not less than twelve (12) months**. The Aviation Authority shall release any existing Letter of Credit provided by the Contractor upon the Aviation Authority's receipt and approval of a renewal or replacement Letter of Credit that complies with the requirements of this Contract.

e. If the Contractor is required to provide any renewal of the Performance Bond or Letter of Credit, rider to an existing Performance Bond or Letter of Credit, or continuation amendment to an existing Performance Bond or Letter of Credit (collectively, the "Replacement"), Contractor shall, at the discretion of the Aviation Authority, calculate the penal sum/amount (the "Amount") of any such Replacement as follows:

1) If the Renewal is provided in connection with the expiration of an existing Performance Bond or Letter of Credit prior to expiration of the initial term of the Contract but not in connection with an amendment to the Contract where the compensation to be paid to Contractor is increased, the Replacement shall be in an Amount equal to the Amount of the then current Performance Bond or Letter of Credit.

2) If the Replacement Performance Bond is provided in connection with an amendment of the Contract where the compensation to be paid to the Contractor during the period covered by the then current Performance Bond or Letter of Credit is increased for any reason, the Replacement shall be in an Amount equal to the Amount of the then current Performance Bond or Letter of Credit plus an amount that bears the same ratio to the increased compensation to be paid to the Contractor that the Amount of the then current Performance Bond or Letter of Credit bears to the total compensation to be paid to the Contractor prior to such amendment to the Contract.

3) If the Replacement is provided in connection with the renewal or extension of the Contract and the required Amount of the Performance Bond or Letter of Credit for the initial term of the Contract is stated as a fixed Amount, the Replacement shall be in an Amount equal to the lesser of either (i) the Amount required during the initial term of the Contract; or (ii) an Amount that bears the same ratio to the total estimated compensation

to be paid to the Contractor during the renewal term that the Amount required during the initial term of the Contract bore to the total estimated compensation to be paid to the Contractor during the initial term of the Contract.

4) If the Replacement is provided in connection with the renewal or extension of the Contract and the required Amount of the Performance Bond or Letter of Credit for the initial term of the Contract is stated as a fraction or percentage of the Contract price, the Replacement shall be in an Amount equal to the same annualized percentage of the total estimated compensation (including any reimbursable expenses) to be paid to the Contractor during the renewal term (i.e., if the initial Performance Bond or Letter of Credit is 1/6 of the total three year Contract cost, then the Replacement will be one-half of the total estimated compensation to be paid to the Contractor during the renewal year).

f. Failure to timely submit an acceptable Performance Bond or Letter of Credit prior to commencement of the Contract in addition to all other rights available to the Aviation Authority under law, shall give the Aviation Authority the right to withdraw the Notice of Intent to Award, without the need for providing the Contractor advance notice or the opportunity to cure. Contractor acknowledges responsibility for any damages or costs incurred by the Aviation Authority due to its failure to comply with this Section 3.6.

g. Surety Bonds delivered to the Aviation Authority in satisfaction of any requirement under this Contract must meet the following criteria:

1) Bid Bonds provided to the Aviation Authority in connection with Contracts shall be duly issued by an insurer or corporate surety (a) on a bond form provided by Aviation Authority, or on a form substantially the same as Aviation Authority's form; b) obligating the surety for at least ninety (90) days following the date on which Bids are publicly opened; and (c) by an insurer or corporate surety that is authorized to conduct insurance business in the State of Florida.

2) Performance and Payment Bonds provided to the Aviation Authority in connection with Contracts having a value of $500,000.00 or less shall be duly issued by an insurer or corporate surety which:

a) Is authorized to conduct insurance business in the State of Florida;

b) Currently holds a certificate of authority authorizing it to write surety bonds in the State of Florida; and

c) Is otherwise in compliance with the provisions of the Florida Insurance Code.

3) Performance and Payment Bonds provided to the Aviation Authority in connection with Contracts having a value in excess of $500,000.00 shall be duly issued by an insurer or corporate surety which:

a) Is authorized to conduct insurance business in the State of Florida;

b) Holds a currently valid certificate of authority by the U.S. Department of Treasury pursuant to 31 U.S.C. ss 9304-9308; and

c) Has no less than a "B+" Financial Rating and a Financial Size Category of "Class VI" or higher according to the most current edition of AM Best Rating Services.

d) Notwithstanding the provisions of (c) above, an insurer or corporate surety which is not rated by AM Best Rating Services may be accepted by Aviation Authority, but only if approved by Aviation Authority's Risk Manager and Department Director following a review or investigation of the insurance company's financial and performance standing, including without limitation, its capital adequacy, assets, earnings, of the insurance company's financial and performance standing, including without limitation, its capital adequacy, assets, earnings, liquidity and such other factors as the Aviation Authority's Risk Manager may deem appropriate.

h. Liability Insurance Companies furnishing insurance coverages required by these General Conditions shall (a) be currently authorized to conduct insurance business in the State of Florida, and (b) must have no less than a "B+" Financial Rating and a Financial Size Category of "Class VI" or higher according to the most current edition of AM Best Rating Services.

i. In the event that the Aviation Authority requests Contractor to purchase materials or as a condition to approval of a Subcontractor in accordance with Section 5 of the Standard Terms and Conditions, the Aviation Authority shall have the right to require Contractor to provide a payment bond in accordance with Section 255.05, Florida Statutes.

j. Letters of Credit shall be issued by a bank with an office located in the State of Florida and reasonably acceptable to the Aviation Authority's Chief Executive Officer or designee.

2.6 Insurance Requirements

The all portions listed in this by providing evidence of one of the following: Certificate of Insurance on Acord form or form acceptable to Aviation Authority, signed affirmation of ability to comply from a licensed insurance agent, or insurance quote.

If awarded a contract and prior to Notice to Proceed, the Awarded Contractor must attain and provide a Certificate of Insurance in compliance with this *Section*. At its sole expense, the Contractor shall maintain the following insurance during the term of this Contract, including any extensions or renewals and such insurance will apply to Contractor, its employees, agents, and Subcontractors.

a. **Commercial General Liability and Automobile Liability**:

1) Commercial General Liability insurance covering any and all claims for property damage and bodily injury (including death) and including, but not limited to premises, products and completed operations, and Contractual liability for Contractor's covenants, with a limit of liability not less than **One Million Dollars ($1,000,000)** per occurrence or not less than **Five Million Dollars ($5,000,000)** per occurrence, for AOA access; and

2) Automobile liability insurance covering each motor vehicle, including but not limited to owned, non-owned, or hired, used in conjunction with providing Services on Aviation Authority property resulting in property damage or bodily injury, including death with a limit of not less than **One Million Dollars ($1,000,000)** combined single limit per accident or not less than **Five Million Dollars ($5,000,000)** combined single limit per accident, for AOA access**;**

3) Additional Insured Endorsement. Such above referenced liability insurance shall name the Aviation Authority and the City of Orlando and their members (including, without limitation, members of the Aviation Authority's Board and the City's Council and members of the citizens' advisory committees of each), officers, employees, and agents as additional insureds.

b. Workers' Compensation and Employer's Liability.

The following insurance shall apply to all Contractor's employees who will be engaged on the Aviation Authority property in the performances of Services in this Contract: (i) workers' compensation insurance with statutory limits in accordance with Florida law, and (ii) employer's liability insurance policy limits not be less than $100,000 for each accident, $100,000 for disease each employee and $500,000 for disease policy limit. If the Contractor is self-insured, the Contractor shall provide proof of self-insurance and authorization to self-insure as required by applicable Florida laws and regulations. The Aviation Authority will not accept State of Florida exemptions.

c. Professional/Errors & Omissions Liability Insurance.

Not Applicable.

d. Garage Liability Insurance.

Not Applicable.

e. Garagekeepers Insurance.

Not Applicable.

f. Warehouse Operators Legal Liability.

Not applicable.

g. Motor Truck Cargo Policy.

Not applicable.

h. Crime Coverage.

Not applicable.

i. Pollution/Environmental Liability Insurance.

Insurance for bodily injury, property damage, defense costs, clean-up and restoration expenses resulting from pollution/pollutant(s) or other environmental impairments which arises out of, or in connection with, Contractor's work with limits not less than $1,000,000 per claim.

j. Cyber/Privacy Liability Insurance.

Not applicable.

k. Other Insurance Requirements. Contractor agrees to the following as it relates to all above required insurance:

1) Self-Insured Retention and Deductibles. Contractor's insurance policies shall not be subject to a self-insured retention or deductible exceeding Ten Thousand Dollars ($10,000), if the value of the Contract is less than $1,000,000, and not be subject to a self-insured retention or deductible exceeding One Hundred Thousand Dollars ($100,000), if the Contract is $1,000,000 or more, unless approved by the Aviation Authority's Chief Executive Officer. The above deductible limits may be exceeded if the Contractor's insurer is required to pay claims from the first dollar at 100% of the claim value without any requirement that Contractor pay the deductible prior to its insurer's payment of the claim.

2) Insurance policies shall be primary insurance and not contributory to any other valid insurance the Aviation Authority may possess, and that any other insurance the Aviation Authority does possess shall be considered excess insurance only.

3) Insurance shall be carried with an insurance company or companies be currently authorized to conduct insurance business in the State of Florida, and must have no less than a "B+" Financial Rating and a Financial Size Category of "Class VI" or higher according to the most current edition of AM Best Rating and said policies shall be in a form acceptable to the Aviation Authority.

4) Any liability insurance maintained by Contractor written on a claims-made form basis will maintain coverage for a period of time determined by the Aviation Authority to be appropriate to cover claims made after the Contractor has concluded its services to the Aviation Authority.

5) All insurance required for this Contract shall contain a waiver of subrogation clause, as allowed by law, in favor of the Authority and the City of Orlando.

6) A properly completed and executed Certificate of Insurance on a form provided or approved by the Aviation Authority (such as a current ACORD form) evidencing the insurance coverages required by this Section shall be furnished to the Aviation Authority upon the Notice of Intent to Award of the Contract and each renewal thereafter during the term of this Agreement and its renewal/extension. Contractor acknowledges that any acceptance of Certificate of Insurance by the Aviation Authority does not waive any obligations herein this Agreement.

7) The Aviation Authority is currently contracted with a third party for the management of all insurance certificates related to Aviation Authority Contracts. Contractors who enter into a Contract with the Aviation Authority will be contacted directly by the third party vendor for insurance certificates and related matters such as expired certificates. An introductory letter will be sent instructing each Contractor of the proper procedures for processing updated insurance certificates as well as any other insurance related matter that may arise over the term of the Contract. Contractors will respond as directed in the introductory letter as well as any further instructions they may receive.

8) The Contractor shall provide the Aviation Authority immediate written notice of any adverse material change to the Contractor’s required insurance coverage. For purposes of this Insurance Section, an “adverse material change” shall mean any reduction in the limits of the insurer’s liability, any reduction of any insurance coverage, or any increase in the Contractor’s self-insured retention and any non-renewal or cancellation of required insurance.

9) If any insurance coverage is canceled or reduced, Contractor shall, within forty-eight (48) hours remit to the Aviation Authority a Certificate of Insurance showing that the required insurance has been reinstated or replaced by another insurance company or companies acceptable to the

Aviation Authority. If Contractor fails to obtain or have such insurance reinstated, the Aviation Authority may, if it so elects, and without waiving any other remedy it may have against Contractor, immediately terminate this Contract upon written notice to Contractor.

10) The Aviation Authority's Chief Executive Officer shall have the right to alter the monetary limits or coverages herein specified from time to time during the term of this Contract, and Contractor shall comply with all reasonable requests of the Chief Executive Officer with respect thereto.

2.7 Verification of Employment Status

a. Prior to the employment of any person under this Contract, the Contractor shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the Contract term, and an express requirement that Contractors include in such subcontracts the requirement that Subcontractors performing work or providing services pursuant to the Aviation Authority. Contractors will utilize the E-Verify system to verify the employment eligibility of all new employees hired by the Subcontractor during the Contract term. For more information on this process, please refer to United States Citizenship and Immigration Service site at: http://www.uscis.gov/portal/site/uscis.

b. **Only those employees determined eligible to work within the United States shall be employed under this Contract.**

c. By submission of a Proposal in response to this solicitation, the Contractor affirms that all employees in the above categories shall undergo e-verification before placement on this Contract. The Contractor shall commit to comply with this requirement.

2.8 Identification and Access Requirements

a. Contractor is required to conduct an employee background check, or require its Subcontractors to perform an employee background check, in accordance with the requirements herein on each person proposed for employment at Orlando International Airport in connection with this Contract, if such person is an employee of Contractor or an employee of a Subcontractor for whom Contractor is required to sign the Aviation Authority's badge application ("Contractor Responsible Employees"). Such background check must be successfully completed prior to such person applying for an access control identification badge with the Aviation Authority. Each background check shall be performed to the following minimum requirements:

b. Each employee must provide a ten (10) year work history.

c. Contractor must confirm the last five (5) years of each employee's work history. Any gaps in employment of thirty (30) days or more during such five year period must be explained in writing by the employee and must be confirmed by

Contractor through W-2s, student transcripts, medical records, or written references of stay-at-home situations from credible local persons such as pastors or priests (which reference must indicate personal knowledge of employee's general work history during the gap period).

d. Contractor must check each employee's criminal history for the immediately preceding five years, with such check to be conducted in each county where the employee has lived or worked in such five year period.

e. Contractor shall not present any Contractor Responsible Employee to the Aviation Authority's Access Control Office for badging if such person has any unexplained gaps in their work history, has a criminal record that would disqualify them from receiving an access control badge or has an unacceptable termination record.

f. The Aviation Authority will issue, for a fee, as stated below to all Contractor Responsible Employees an identification badge that will display their picture, name, and other applicable information; and any key(s) required in the performance of the Contract, provided that such person meets the minimum criteria established to receive a badge. At all times while on airport property, the Contractor Responsible Employees are required to display such badges prominently on their uniforms in accordance with Aviation Authority's guidelines. Every new employee requiring unescorted access to a secure area of the airport must be electronically processed by the Aviation Authority's Access Control Office for a Criminal History Records Check and Security Threat Assessment before an identification badge is issued. In addition to this records check, the employee will be required to attend security training class (approximately 1 hour), and in the case of operating a vehicle on the Airport Operating Area (AOA) the employee will also be required to attend a driving safety class (approximately 1 hour); both training classes are provided by the Aviation Authority. The Contractor shall maintain, and shall require its Subcontractors to maintain, a permanent record in its files of the background information, including drug screening tests, on all current and former employees who are utilized in the performance of this Contract and, when requested, shall provide such information to Aviation Authority, TSA, or such other entity as deemed appropriate by the Aviation Authority. The Contractor further agrees to perform, or require its Subcontractors to perform, such additional employee background checks, fingerprinting, or other identification measures as may be required by any future security rules or applicable federal regulations.

g. <u>Fees Associated with Identification Badges and Keys</u>

Security Background Check	$11.00
New Issue	$25.00
Renewal/Defaced	$25.00
Name Change	$25.00 (paid at time of issuance)
Addition	$25.00 (i.e. adding company name, driver, etc.)
Deletion	$25.00

Lost	$50.00
Stolen	No Charge with proper documentation
Fingerprinting	$27.00 (every two years)
AOA Vehicle Decal	$25.00 per vehicle
New Hard Key	$10.00
Lost Hard Key	$50.00

Note: No personal checks or credit card payments are accepted. Companies will be assessed a $100.00 fee for each non-returned identification badge and key.

h. Contractor must maintain all information described above for a period of four (4) years following expiration of this Contract. Such information is subject to audit by the Aviation Authority and must be sufficient in scope and detail to permit verification of compliance by Aviation Authority audit. Actual damages to the Aviation Authority resulting from a breach by Contractor of its obligations hereunder will be difficult or impossible to determine. As a result, Aviation Authority shall be entitled to recover liquidated damages of $250.00 for every Contractor Responsible Employee presented to the Aviation Authority for access control badging (a) for whom the above background check has not been completely and accurately performed, or (b) who should not have been presented per the above guidelines. The amount payable hereunder by Contractor is not a penalty, is in addition to any access control badging application fee paid by the employee and is payable whether or not such employee is issued an access control badge by the Aviation Authority.

i. Contractor must co-sign with the Subcontractor all badge applications for any employee of a temporary employment agency engaged as a Subcontractor to provide personnel to Contractor on this Contract. All employees provided by temporary employment agencies for this Contract shall be Contractor Responsible Employees. Before submitting a badge application for an employee provided on this Contract by a temporary employment agency, Contractor or the temporary employment agency must submit to the Aviation Authority's Authorized Representative (AAR) for prior approval of such employee, a Contract between the temporary employment agency and such employee reflecting an intended assignment of such employee to the Contract for the remaining duration of the Contract or the duration of the Contractor's need for such position.

j. **Customs and Border Protection Badge**

1) The U.S. Customs and Border Protection required badge for the purposes of performing duties under the Contract is a hologram badge. The Contractor will comply with all U.S. Customs Service requirements in order to obtain and maintain a hologram to be affixed on the Aviation Authority badge. Currently a bond must be posted with U.S. Customs and Border Protection before any holograms are issued. Contractor should verify bond cost with U.S. Customs and Border Protection. The bond amount could change if the Contractor commits U.S. Customs and

Border Protection violations or if the U.S. Customs and Border Protection changes its rules or procedures.

2) Post a continuous CF 301 Bond (Type 1 or 2) or an Airport Security Bond. The bond is obtained from an authorized surety company as referenced in 19CFR113.37. The face value of the bond depends upon how many employees will require access to the Customs security areas.

Less than 15	$25,000.00
Between 15 - 25	$50,000.00
More than 25	$100,000.00

3) The CF 301 Bond can be designated as an import/broker bond, warehouse bond, international carrier bond, or a non-specific Airport Security Bond.

4) The Contractor must have a sufficient number of management staff as well as regular staff, (as permitted by local U.S. Customs and Border Patrol officials) badged with Federal Inspection Station (FIS) (US Customs and Border Patrol) credentials, to ensure adequate staff on all shifts are capable of responding to FIS calls without escort.

2.9 Airport Operations Area

a. The Contractor's personnel and vehicles shall not be allowed within the Airport Operations Area (AOA), which includes the ramp area and aprons, unless authorized by the Chief Executive Office. Contractor s personnel are required to successfully complete SIDA Training and demonstrate proficiency in all Airport Operations Instructions (OI s) regarding secured access to airfield and aircraft ramp and apron areas. No escorts of any type will be provided.

b. Airport Security: Contractor s services shall be performed in accordance with the Transportation Security Administration (TSA), Federal Aviation Administration (FAA), and any other governmental agency security directives, rules, and regulations. The FAA and the TSA may assess fines and penalties for Contractor's noncompliance with the provisions of Title 49 Code of Federal Regulations (CFR), Parts 1540 and 1542, as amended from time to time, or by other agencies for noncompliance with laws or regulations applicable to Contractor's operations. Within ten days of notification in writing, Contractor shall reimburse the City for any paid fines or penalties assessed against the City because of Contractor's noncompliance with 49 CFR 1540 and 1542 or other applicable laws or regulations.

c. The Contractor acknowledges that fines or penalties associated with non-compliance with security regulations must be reimbursed to MCO.

2.10 Airport Security

The successful Proposer will be required to comply with all applicable regulations of the TSA and of the Aviation Authority relating to Airport security, including those relating to access to the AOA of Orlando International Airport, as such regulations may be in effect or changed from time to time.

2.11 Minority and Women Business Enterprise ("MWBE") Participation Program

An MWBE participation goal has been established for this Contract. Such participation is encouraged, but will not be considered during the evaluation process for award of this Contract.

a. To encourage development and growth of MWBEs, the Aviation Authority has adopted a Non-Federally Funded Minority and Women Business Enterprise ("MWBE") Participation Program, which is available on the Aviation Authority's website https://orlandoairports.net/airport-business/.

b. It is the policy of the Aviation Authority that MWBEs shall have the maximum opportunity to participate in the purchase of goods and services, and the Aviation Authority has established the MWBE Participation Program to implement this policy. This participation can take the form of purchasing Contracts, subcontracts, joint ventures or similar arrangements.

c. **The Proposal will be considered non-responsive to the Request for Proposal and rejected if the Proposer fails to demonstrate, to the reasonable satisfaction of the Aviation Authority, as required by the MWBE policy, that the Proposer has met or has made a good faith effort to meet the established MWBE goal.**

d. For this Contract, the Aviation Authority has established a MWBE Participation Goal of 30%, which means that 30% of the total Contract expenditures by the Aviation Authority should be used to purchase goods or services under the Contract from MWBEs. All Proposers, including a Proposer which is an MWBE, shall comply with the MWBE requirements outlined in this Section by having MWBEs other than the Proposer, participate in the performance of the Contract services at a sufficient level to meet the participation goal.

e. Proposers are required to submit, with their Proposals, the Letter of Intent/Affirmation information by completing the form for each MWBE Firm. (Attachment F-1) The Proposer may make duplicates of this form as needed. Both the MWBEs and the Proposer are required to affirm the information provided by signing the form prior to submittal. After the Proposals are opened, but prior to award, the Aviation Authority may request, receive, and review additional information from Proposers in order to verify the accuracy of the level of information presented by Proposers with their Proposals and the good faith effort of Proposers to reach the MWBE goal.

f. After the Proposals are opened and prior to an award of the Contract, the Aviation Authority may request, receive and consider omitted and supplemental information from the Proposers as to the certification of Proposers, if applicable, and of any Proposal Subcontractor, supplier or joint venture in order to determine MWBE status.

g. The successful Proposer shall enter into subcontract(s)/purchase orders with the MWBEs identified in the Proposer's Proposal documents which the Aviation Authority relied upon in awarding this Contract, subject only to the Aviation Authority's right to approve all Subcontractors. The Contractual arrangements with the MWBEs shall incorporate such reasonable terms as are required to complete the work described therein while furthering the Aviation Authority's MWBE policy. The successful Proposer must submit copies of the signed subcontract(s)/purchase order(s) to the office of Small Business Development for each MWBE prior to commencement of performance under this Contract. Failure to enter into the subcontract(s)/purchase order(s) with the MWBEs identified in the Proposer's Proposal documents or failure to submit copies of the signed subcontract(s)/purchase order(s) may result in loss of the award to Proposer.

h. A Proposer shall not breach any of its obligations with the MWBEs. In the event Proposer desires to terminate or replace a MWBE, Proposer shall promptly notify the Aviation Authority of the impending termination, the reason for the termination and obtain the Aviation Authority's approval prior to proceeding with the termination. Following the termination Proposer shall replace the terminated MWBE with another MWBE. If the Proposer is unable to utilize another MWBE for performance of that portion of this Contract, the Proposer shall provide the Aviation Authority with documentation, in a form satisfactory to the Aviation Authority, showing that it is not possible to replace the terminated MWBE with another MWBE. The MWBE percentage for participation must not decrease below the percentage proposed during the term of the Contract.

i. The successful Proposer shall submit to the Aviation Authority a Disbursement Form with each invoice submitted for payment, indicating the amount of money spent with each MWBEs since the previous invoice.

j. Failure to carry out the requirements set forth herein or the commitments made by the Proposer (e.g. failure to subcontract with and use MWBEs, to pay MWBEs as committed in the Proposal documents, the failure to promptly pay MWBE Subcontractors in accordance with Section 5, subsection 50, etc.) shall constitute a breach by the Proposer of this Contract and may result in termination of the Contract by the Aviation Authority or such other remedy as the Aviation Authority deems appropriate. Additionally, Contractor is reminded two or more failures to satisfy the requirements set forth herein or the commitments made by Proposer may result in debarment under the Aviation Authority's Debarment of Contractors Policy 130.04.

k. A list of currently certified MWBEs may be obtained via the internet at https://orlandoairports.net/airport-business/. The Aviation Authority will provide this information as a convenience only, and Proposers shall be solely responsible for ensuring all MWBEs are capable of performing. Certification of eligibility as an MWBE should be completed prior to submission of a Proposal. During the Proposal process, Proposers may contact the Office of Small Business Development for any questions or information concerning the MWBE Participation Program.

l. Compliance with the MWBE policy of the Aviation Authority does not relieve Proposers of the equal employment opportunity obligations under state and Federal laws and regulations.

2.12 Local Developing Business ("LDB") Participation Program

An LDB participation goal has been established for this Contract. Such participation is encouraged, but will not be considered during the evaluation process for award of this Contract

a. The Aviation Authority has adopted a Local Developing Business ("LDB") Policy, effective January 1, 1999. The policy requires Proposers to ensure that LDB firms have an opportunity to participate in all Contracts.

b. It is the policy of the Aviation Authority that LDBs shall have the maximum opportunity to participate in the purchase of goods and services, and the Aviation Authority has established the LDB Participation Program to implement this policy. This participation can take the form of purchasing Contracts, subcontracts, joint ventures or similar arrangements.

c. **The Proposal will be considered non-responsive to the Request for Proposal and rejected if the Proposer fails to demonstrate, to the reasonable satisfaction of the Aviation Authority, as required by the LDB policy, that the Proposer has met or has made a good faith effort to meet the established LDB goal.**

d. For this Contract, the Aviation Authority has established a LDB Participation Goal of 3%, which means that 3% of the total Contract expenditures by the Aviation Authority should be used to purchase goods or services under the Contract from LDBs. All Proposers, including a Proposer which is an LDB, shall comply with the LDB requirements outlined in this Section by having LDBs other than the Proposer, participate in the performance of the Contract services at a sufficient level to meet the participation goal. The Aviation Authority's Chief Executive Officer has approved permitting, for this Contract only, Proposers to meet the LDB participation goal through the Veteran Business Enterprise (VBE) if the proposed VBE is certified by US Dept. of Veterans Affairs - Center of Verification and Evaluation or Florida Department of Management Services - Office of Supplier Diversity.

e. Proposers are required to submit, with their Proposals, the Letter of Intent/Affirmation information by completing the form on Attachment F-2 for each LDB Firm. The Proposer may make duplicates of this form as needed. Both the LDBs and the Proposer are required to affirm the information provided by signing the form prior to submittal. After the Proposals are opened, but prior to award, the Aviation Authority may request, receive, and review additional information from Proposers in order to verify the accuracy of the level of information presented by Proposers with their Proposals and the good faith effort of Proposers to reach the LDB goal.

f. After the Proposals are opened and prior to an award of the Contract, the Aviation Authority may request, receive and consider omitted and supplemental information from the Proposers as to the certification of Proposers, if applicable, and of any Proposal Subcontractor, supplier or joint venture in order to determine LDB status.

g. The successful Proposer shall enter into Contract(s) with the LDB(s) identified in the Proposer's Proposal documents which the Aviation Authority relied upon in awarding this Contract, subject only to the Aviation Authority's right to approve all Subcontractors. The Contractual arrangements with the LDB(s) shall incorporate such reasonable terms as required to complete the work described therein while furthering the Aviation Authority's LDB policy. The successful Proposer must submit copies of the signed subcontract(s)/purchase order(s) to the office of Small Business Development for each LDB prior to commencement of performance under this Contract. Failure to enter into the subcontract(s)/purchase order(s) with the LDB(s) identified in the Proposer's Proposal documents or failure to submit copies of the signed subcontract(s)/purchase order(s) may result in loss of the award to Proposer.

h. A Proposer shall not breach any of its obligations with the LDB(s). In the event Proposer desires to terminate or replace an LDB, Proposer shall promptly notify the Aviation Authority of the impending termination, the reason for the termination and obtain the Aviation Authority's approval prior to proceeding with the termination. Following the termination, Proposer shall replace the terminated LDB with another LDB. If the Proposer is unable to utilize another LDB for performance of that portion of this Contract, the Proposer shall provide the Aviation Authority with documentation, in a form satisfactory to the Aviation Authority, showing that it is not possible to replace the terminated LDB with another LDB. The LDB percentage for participation must not decrease below the percentage proposed during the term of the Contract. Additionally, Contractor is reminded two or more failures to satisfy the requirements set forth herein or the commitments made by Proposer may result in debarment under the Aviation Authority's Debarment of Contractors Policy 130.04.

i. The successful Proposer shall submit to the Aviation Authority a Disbursement Form with each invoice submitted for payment, indicating the amount of money spent with each LDB(s) since the previous invoice.

j. Failure to carry out the requirements set forth herein or the commitments made by the Proposer (e.g. failure to subcontract with and use LDBs, to pay LDBs as committed in the Proposal documents) of the total Contract price on an ongoing basis, etc.) shall constitute a breach by the Proposer of this Contract and may result in the termination of the Contract by the Aviation Authority or such other remedy as the Aviation Authority deems appropriate.

k. A list of currently certified LDBs may be obtained via the internet at https://orlandoairports.net/airport-business/. The Aviation Authority will provide this information as a convenience only, and Proposers shall be solely responsible for ensuring all LDBs are capable of performing. Certification of eligibility as an LDB should be obtained prior to submission of a Proposal. During the Proposal process, Proposers may contact the Office of Small Business Development for any questions or information concerning the LDB Participation Program.

l. Compliance with the LDB policy of the Aviation Authority does not relieve Proposers of the equal employment opportunity obligations under state and Federal laws and regulations.

2.13 Good Faith Effort for MWBE and LDB Participation Program

a. If the Proposer fails to meet the MWBE/LDB Participation Goals, the Aviation Authority will require Proposer to submit evidence of good faith efforts within two (2) business days of request; such evidence may include, but is not limited to the following:

b. Indicating the name and title of the person responsible for the Proposer's good faith efforts to reach the participation goal;

c. Provide evidence of attendance at Pre-Proposal Conference meeting, if any, scheduled by the Aviation Authority to inform MWBE/LDB firms of subcontracting opportunities under a given Contract;

d. Provide a list of MWBE/LDB firms contacted;

e. Provide copies of written correspondence to MWBE/LDB firms that their Proposal is being solicited, as well as certified return receipts to prove receipt or the reason for non-delivery;

f. Provide evidence of information provided to the MWBE/LDB firms about the specific work the Contractor intends to subcontract;

g. Provide evidence of information provided to MWBE/LDB firms on bonding and insurance requirements;

h. Provide copies of advertisements in general circulation media, trade association publications, and minority focus media advertising for MWBE/LDB firms interested in subcontracting;

i. Provide evidence that Proposer provided interested MWBE/LDB firms with assistance in reviewing the Contract plans, specifications, and the terms and conditions of the general Contract, subcontract and addenda;

j. Providing evidence that the Proposer provided MWBE/LDB firms prompt notice of addenda affecting specific trade Contractors;

k. Provide evidence that Proposer made follow-up inquiries after initial solicitations of interest from MWBE/LDB firms. Proposer shall maintain documentation of the date, time and name of individuals contacted. A telephone log is acceptable documentation of this activity;

l. Provide a list of quotes submitted by MWBE/LDB firms;

m. Provide documentation as to why MWBE/LDB firms were not utilized;

n. In those instances where a majority Subcontractor is selected for a scope of work for which MWBE/LDB Proposals were submitted, the Proposer shall submit records of all quotations received from MWBE/LDB firms and from the selected majority Subcontractor, and provide an explanation of the reasons why the MWBE/LDB firms will not be used during the course of the Contract. Receipt of a lower price quotation from a non MWBE/LDB firm prior to or at the time of Proposal Opening will not in itself excuse a Proposer's failure to meet participation goals. It is incumbent upon the Proposer to demonstrate that MWBE/LDB firms were not rejected as unqualified without a thorough and documented investigation of their capabilities and capacity.

o. Additional information on meeting good faith efforts can be found by going to https://orlandoairports.net/airport-business/.

3.0 COMPENSATION

3.1 Invoice and Payment for Services:

a. The Aviation Authority shall pay the Contractor, subject to the provisions of the following: the Management Fee; the actual Reimbursable Payroll and actual Operating Expenses up to the amounts set forth on Attachment B – Proposal Price Form as authorized by the Aviation Authority and as required by the Scope of Work/Specifications.

b. The Aviation Authority shall pay the Contractor, subject to any authorized deductions, and subject to the provisions of the following paragraphs, Management Fee, Reimbursable Payroll Expenses and Reimbursable Operating Expenses, up to the amounts set forth in the Contract for the Terminal A, B and Affiliated Areas Baggage Handling System (BHS) Operation, Maintenance and Repair Services.

c. The Contractor shall invoice the Aviation Authority for the Management Fee, Reimbursable Payroll Expenses and Reimbursable Operating Expenses by the tenth day of each month for the services performed by the Contractor during the prior month. The Contractor's invoice shall generally describe the service rendered, date rendered and shall contain such other information and be accompanied by such supporting documents and materials as the Authority shall request.

d. The Contractors aggregate annual invoices for Management Fee, Reimbursable Payroll Expenses and Reimbursable Operating Expenses for each of the five (5) years of the Contract shall not exceed the total Bid for the applicable year, as set forth on Attachment B – Proposal Price Form, unless prior authorization had been obtained from the Aviation Authority.

e. The Contractor's monthly invoices for Management Fees for each of the Five (5) years of the Contract shall not exceed one-twelfth (1/12th) of the Contractor's Proposal Management Fees for the appropriate year, as found on Attachment B – Proposal Price Form, unless prior authorization was obtained from the Aviation Authority.

f. If the term of this Contract shall end on a day other than the last day of a calendar month, the payment of Payroll Expenses, Operating Expenses and Management Fee for such month (and to the extent provided in Sections 3.2, 3.3 and 3.4 below), shall be prorated based upon the actual number of days in the month.

g. Notwithstanding any other provision hereof, the Authority shall have the right to deduct from funds due to Contractor for the Management Fee, Reimbursable Payroll Expenses, or Reimbursable Operating Expenses, any amounts due to the Aviation Authority from Contractor.

3.2 Management Fee:

Contractor shall invoice the Authority for the Management Fee as set forth on Attachment B – Proposal Price Form. The Management Fee shall include the following:

a. All payroll and associated costs for:

1) Site Manager.

2) Assistant Manager(s), BHS.

3) Assistant Manager(s), BHS Operation.

4) Administrative Staff.

5) Any other positions deemed necessary by the Contractor and not listed in the Reimbursable Payroll and Operating Expenses in Sections 3.3 and 3.4 below.

b. The Management Fee shall also include all other expenses not listed in the Reimbursable Payroll and Operating Expenses in Section 3.3 and 3.4 below, **including but not limited to**:

1) Contractor and Sub-Contractor overhead and profit.

2) All required insurances as outlined in Section 2.6 of the Special Conditions.

3) Workers compensation for all employees including management fee and reimbursable positions.

4) All Bond expenses (Performance Bond, Customs Bond, etc.)

5) Recruiting expenses.

6) Badges and keys.

7) Payroll processing expenses.

8) Costs associated with all pre-approved training. The Aviation Authority will only reimburse for the hours to attend the training for the reimbursable positions.

9) Office equipment and supplies.

10) Radios, batteries, accessories, and chargers purchase, maintenance and replacements.

11) All costs for Vehicles, Lifts, Golf Carts, and all other motorized equipment, including fuel, upkeep, insurance, and maintenance.

12) Tools and equipment.

13) Consumables.

14) Uniforms for all Contractor employees.

15) Costs for contractors cell phones and data.

16) Cost for internet services and associated connectivity costs for Contractor provided computers and devices.

17) Costs associated with the cleaning services for all office, work and storage areas.

18) Record Retention Obligation (4 Years Post-Contract)

19) Cost of benefits for all management and all reimbursable positions, including but not limited to, retirement contributions, life insurance, and any other Contractor provided benefits.

20) Health insurance premiums for the positions in the Management Fee.

21) Health Insurance premiums **in excess** of Five Hundred Dollars ($500) per month for contract year 1; Five Hundred Twenty-Five Dollars ($525) per month for Year 2; Five Hundred Fifty Dollars ($550) per month for Year 3; Five Hundred Seventy-Five Dollars ($575) per month for year 4; Six Hundred Dollars ($600) per month for year 5; per position for the reimbursable positions participating in the Contractor provided Health Care Plan.

22) Non-resident legal, administrative, bookkeeping, executive personnel expenses and off-site general office expenses.

23) All other costs associated with the performance of this Contract not listed in the Reimbursable Payroll and Operating Expenses in Sections 3.3 and 3.4 below.

c. The Management fee will not change even if the number of assets adjusts up or down. As asset numbers are adjusted up or down the Contractor shall manage the staff necessary to perform required maintenance functions.

d. In the event the performance of the Contract requires a permanent increase or decrease in the staffing of the reimbursable positions of twenty percent (20%) or more, Aviation Authority and Contractor may re-adjust the Management Fee.

3.3 Reimbursable Payroll Expenses:

Contractor shall invoice the Aviation Authority for the actual Reimbursable Payroll Expenses paid by the tenth day of each month for the services performed by the Contractor during the prior month. Approval of the Staffing Schedules shall not be construed as, and is not, authorization to exceed the annual Reimbursable Payroll Expenses Budget.

a. The Reimbursable Payroll Expenses **shall be limited** to the following:

1) EAMS Maximo Administrator/Supervisor.

2) EAMS Maximo Data Entry Staff.

3) Supervisors.

4) Technicians.

5) Parts/Inventory Control Supervisor.

6) Baggage Operation Supervisors.

7) Inventory Control Staff.

8) Baggage Operation Staff.

9) Overtime hours as approved in advance by the AAR.

10) Associated payroll taxes: Social Security, Medicare, Federal & State Unemployment.

11) Actual paid time-off taken (vacation, sick, bereavement and jury duty) and holiday pay as approved by the AAR. Contractor shall provide detailed leave and holiday plan for the AAR approval. The Authority will not reimburse Contractor for any accrued vacation or sick leave hours at the time of Contract expiration, at the end of any Contract Year, or upon employee termination for any reason. Contractor shall provide its policy on vacation and sick leave benefits prior to contract execution.

12) Reimbursement for Health Insurance premiums for up to Five Hundred Dollars ($500) per month for contract year 1; up to Five Hundred Twenty-Five Dollars ($525) per month for Year 2; up to Five Hundred Fifty Dollars ($550) per month for Year 3; up to Five Hundred Seventy-Five Dollars ($575) per month for year 4; up to Six Hundred Dollars ($600) per month for year 5; per position for the reimbursable positions participating in the Contractor provided Health Care Plan.

3.4 Reimbursable Operating Expenses:

Contractor shall invoice the Aviation Authority for the actual Reimbursable Operating Expenses incurred and paid for by the Contractor during the prior month.

a. The Reimbursable Operating Expenses **shall be limited** to the following:

1) Replacement Parts: The Aviation Authority will reimburse the Contractor for parts purchased by the Contractor for the BHS. Reimbursement will be done in conjunction with the monthly invoice. Original parts purchased invoices must be submitted monthly as parts are purchased and received. Along with the original parts invoice the Contractor must submit proof that purchased part were placed into EAMS Maximo inventory.

2) Annual Certification/Inspection - Fees for Annual Scale Certification paid to the Florida Department of Agriculture Services and EDS machine Crane Inspection/Certification paid on behalf of The Aviation Authority by the Contractor.

3) Subcontracted Work: The Aviation Authority will reimburse the Contractor for actual subcontractor cost for goods and services incurred in the performance of Aviation Authority (AAR) approved projects. Invoices for all subcontracted goods and services shall be provided and shall clearly indicate a description of the work and the total cost. The Contractor shall include a copy of the actual invoice received from its subcontractor along with its invoice to the Aviation Authority for "Subcontracted Work", and only those charges supported by the documentation shall be payable. There shall be no mark-up associated with the subcontracted work.

a) The term "subcontractor" here does not refer to or include the Contractor's permanent scope provided by the MWBELDB subcontractor(s).

b. The Contractors aggregate annual invoices for Reimbursable Payroll and Operating Expenses shall not exceed the total Reimbursable Payroll and Operating Expenses Budget for the applicable year, unless prior authorization had been obtained from the Aviation Authority. If not specifically set forth in Sections 3.3 and 3.4, any other expenses incurred by Contractor shall not be reimbursed and shall be paid for by the Contractor.

c. Only the Reimbursable Payroll and Operating Expenses set forth in Sections 3.3 and 3.4 shall be reimbursable by the Aviation Authority. If not specifically set forth in Sections 3.3 and 3.4, any other expenses incurred by Contractor shall not be reimbursed by the Aviation Authority and shall be paid for by the Contractor.

b. Costs or expenses of legal representation or of union negotiations and administration.

c. Cost of any interstate and intrastate local flat rate calls, extended calling services, long distance or directory assistance toll telephone service.

d. Cost of any and all interest, late charges, penalties, and fines paid by the Contractor and/or its employees.

e. Only Federal and State Unemployment taxes actually paid will be reimbursed. Taxes accrued above Federal or State wage limitation will not be paid.

f. Any other costs or expenses not specified under Sections 3.3 and 3.4 above.

g. Contractor shall pay all costs and expenses connected with its operations when due and submit to the Aviation Authority, on or before the tenth (10th) day of each month, itemized statements of all approved Reimbursable Payroll Expenses and Reimbursable Operating Expenses incurred and paid for during previous calendar month. Each such statement shall be accompanied by such proof of charges and disbursements and other supporting documents as the Aviation Authority may from time to time request, including, but not limited to, paid invoices, payroll register and other payroll records, paid checks and required expenditure reports.

h. Reimbursement of reasonable, allowable expenses shall be made by the Aviation Authority within approximately thirty (30) days of its receipt from Contractor of monthly itemized statements submitted provided that (i) the statements are in the format required by the Aviation Authority, (ii) all appropriate supporting documents are attached to each statement, (iii) the statement contains a statement that the Aviation Authority has not previously reimbursed Contractor for any of the itemized expenses, and (iv) the statement is complete and accurately reflects the actual costs incurred. Once a complete and accurate invoice is received, and provided no items are in dispute, the Aviation Authority shall review and pay such invoice in full within thirty (30) days. Within said thirty (30) day period the Aviation Authority shall notify Contractor of its objection to any item or items of expense which it deems to be non-reimbursable. Any such notice shall set forth the nature of the Aviation Authority's objection and shall be accompanied by the Aviation Authority's payment of the undisputed portion of such statement, except that the Aviation Authority shall not be required to make any reimbursement for any month until Expenditure Reports are submitted for such month as required.

i. Contractor shall be obligated to pay promptly all proper charges and costs incurred by Contractor for labor and materials used for the work performed hereunder. The Aviation Authority shall have the right, but not the obligation, to pay directly to third parties (including subcontractors) all past due amounts owed by Contractor to third parties for labor and materials used for the work hereunder, based on invoices submitted by such third party, and all such

amounts paid by the Authority shall be applied toward, and shall reduce, amounts owed to Contractor hereunder.

3.6 Labor Compensation

The Contractor's labor compensation for the reimbursable positions shall be fixed at the hourly labor rates as agreed upon with the Aviation Authority and shall not be subject to markups. The Contractor shall only be reimbursed for overtime hours as pre-authorized in writing by the AAR. Employees are required to utilize an automated time and attendance system. Employee's timesheets, printed records shall be included with the invoice and only actual hours worked and accounted for shall be billed.

3.7 Performance

a. The Aviation Authority shall, at regular intervals, monitor the performance of Contractor to determine whether the work to be performed under the Contract has in fact been accomplished to the Aviation Authority's satisfaction and/or completed in a timely manner.

b. The Aviation Authority shall notify the Contractor of any specific services that are unsatisfactory to the Aviation Authority, and if the Contractor has not addressed such item or items set forth in the notice to the Aviation Authority's satisfaction within the time frame set forth in the Aviation Authority's notice, the Aviation Authority in addition to all other rights provided under this Contract or by law or equity, may either remedy such unsatisfactory services itself or through a third party and the cost of providing the remedial services shall be deducted from the Contractor's invoice.

c. Contractor shall be financially responsible for all Federal civil penalties assessed against Authority for security/safety violations as a result of negligent acts or omissions by employees of the Contractor or sub-consultants and/or subcontractors.

d. The Aviation Authority shall pay the undisputed amount of Contractor's invoice per The Florida Prompt Act. Items in dispute shall be paid upon the resolution of the dispute in accordance with the Florida Prompt Payment Act.

e. Contractor shall be obligated to pay promptly all proper charges and costs incurred by Contractor for labor and materials used for the work performed hereunder.

f. The Aviation Authority shall have the right, but not the obligation, to pay directly to third parties (including Subcontractors) all past due amounts owed by Contractor to third parties for labor and materials used for the work hereunder, based on invoices submitted by such third party, and all such amounts paid by the Aviation Authority shall be applied toward, and shall reduce, amounts owed to Contractor hereunder.

g. The Contractor shall submit all invoices to: Greater Orlando Aviation Authority, Finance Manager, P.O. Box 620125, Orlando, Florida 32862-0125. Invoices may be sent electronically to accounts payable **goaa-ap@goaa.org.**

3.8 Health Insurance

a. Contractor shall provide health benefits in accordance with applicable Federal Laws (including Federal Affordable Care Act) to its employees working at the Airport, effective not more than sixty (60) days after the date of hire of each employee.

b. The Aviation Authority is only obligated to reimburse up to Five Hundred Dollars ($500) per month for contract Year 1; up to Five Hundred Twenty-Five Dollars ($525) per month for Year 2; up to Five Hundred Fifty Dollars ($550) per month for Year 3; up to Five Hundred Seventy-Five Dollars ($575) per month for Year 4; up to Six Hundred Dollars ($600) per month for Year 5; per position for the reimbursable positions participating in the Contractor provided Health Care Plan. All other Health benefits costs shall be included in the Management Fee. Nothing hereunder is intended to reduce or limit any obligation Contractor has to provide employee health insurance coverage under any union contract or applicable law.

c. The Contractor shall, at any time the Aviation Authority so requests, certify to the Aviation Authority that Contractor is in compliance with this Section. The Contractor's obligation to maintain records, and the Aviation Authority's right to examine such records, shall include records relating to the employee health insurance required to be provided pursuant to this Section.

4.0 SCOPE OF WORK/SPECIFICATIONS

4.1 Overview

This Contract will be to provide all labor, supervision, management oversight, training, materials, tools, equipment, submissions, reports, consumables, uniforms and all other items and services necessary, proper for, or incidental to performing twenty-four (24) hours per day seven (7) days per week, on-site maintenance, repair and operation for the Baggage Handling Systems (BHS) Operation which includes, Corrective Maintenance (CM), Preventative Maintenance (PM) and Predictive Maintenance (PdM), to utilize, generate and maintain data into the specified site of the Aviation Authority's Enterprise Asset Management System EAMS Maximo, the management of spare parts inventory for the BHS Operation, Maintenance and Repair Services at the Orlando International Airport ("OIA") in accordance with the Contract Documents.

a. The Contractor shall be responsible for the operation, inspections, maintenance, troubleshooting and diagnosing, adjustments, repairs, and replacement of parts, for all of the equipment and systems covered under this Contract.

b. The Contractor shall be responsible for monitoring equipment performance, resolving trouble calls and returning equipment to normal service in the most safe and expeditious manner possible.

c. The Contractor is expected to plan in advance, and utilize PdM techniques/tools, so that the replacement of wearing/worn-out parts can be scheduled for off-peak times rather than necessitating replacement during scheduled equipment operating periods or as a reaction to an unexpected breakdown. The replacement of wearing parts can be scheduled or predicted based on manufacturer's data for life-expectancy in terms of hours-in-operation, number-of-cycles, operating environment, maintenance/care, age, and/or similar measurement. The Contractor shall use PdM techniques/methods and routine inspection so as to replace wearing/worn-out parts prior to actual failure. The Contractor will utilize trend analysis of EAMS Maximo information as well as other predictive means to accomplish PdM. System availability/performance will be measured and deductions may be taken for failing to meet minimum performance requirements.

d. Contractor shall be prepared to provide staffing beyond what would be considered normal hours due to late flights or irregular operations that might arise. These activities may extend the labor hours of contracted personnel and consequently shorten the available maintenance downtime.

e. The Contractor shall perform all its obligations and functions under this Contract in accordance with the requirements and standards contained in this Contract in a professional and businesslike manner. The Contractor shall use its best efforts to coordinate its activities with, and adjust its activities to, the needs and requirements of the various users of the airport and to perform its

activities so as not to annoy, disturb, endanger, unreasonably interfere with or delay the operations or activities of any passengers, tenants, or occupants of the premises; or be offensive to others at the airport.

f. Any work required beyond that which is specified herein shall be reported in advance to the AAR. At no time, shall the Contractor work beyond the scope of this Contract without prior written authorization from the AAR.

g. No materials, tools or equipment shall be left unattended or stored in public or non-designated space at any time without prior approval from the AAR.

h. Contractor shall ensure that the entire BHS operates in an efficient manner including but not limited to manual baggage movement when necessary, loading and unloading of conveyors, baggage alignment, and the clearing of bag jams on the conveyor systems, manual bag recoding/sorting functions, collecting/distributing bag tubs, the cleaning on and around the baggage system and the bag room in general, as well as any other related customer service functions as directed by the AAR. NOTE: Air carriers provide skycap services to move tubs from the bag room to their ticket counters. Contractor will be asked to occasionally relocate tubs.

i. BHS equipment consists of the Baggage Handling System(s), the Baggage Handling System Controls, and all related equipment. A list of the equipment/items to be covered in this Contract is included in Exhibit ”4.1”. The primary types and manufacturers of the BHS are categorized below:

1) BHS category includes: (i) the conveyor belt systems; (ii) pier sort systems; (iii) In-line screening systems including the Explosive Detection System (EDS); (iv) flat plate carousels (bag claims and make-up areas); (v) slope plate carousels; and (vi) all associated equipment such as the drive motors, motor control centers/panels (MCC and MCP), gear boxes, belt/chain drives, power turns, pushers, diverters, baggage chutes, merge and queuing conveyors, ticket counter conveyors including the baggage scales, and security/fire doors. The Aviation Authority currently operates BHS conveyor equipment manufactured/ installed by Jervis B. Webb, BAE, G&T, Siemens, Stearns, Vanderlande, Transnorm, Portec Logan Teleflex and others.

2) The BHS Controls category includes all related controls, tracking, scanning, and monitoring hardware/software such as: (i) the automated tag readers (ATR); (ii) bar code hand scanners; (iii) camera scanner devices; (iv) multiplexers; (v) programmable logic controllers; (vi) logic control panels; (vii) relay logic systems; (viii) point-of-use Uninterruptible Power Supplies (UPS); (ix) photo-eyes; (x) tachometers; (xi) Programmable Logic Controller (PLC) monitoring and programming software, and/or custom software applications (such as Webb View and Siemens WinCC); (xii) and all other equipment and systems necessary for successful operation of the BHS. The BHS

currently consists of, but is not limited to, control technology/systems from Siemens, Webb, G&T Conveyor, and Alliant. There are approximately sixty-six (66) BHS Servers, including twelve (12) Video Servers, forty-five (45) Network Switches, two hundred twelve (212) PLCs and one (1) 288 port Keyboard, Video and Mouse (KVM) included in this Contract. Primary equipment manufacturers include Hewlett-Packard (Proliant ML/DL) for the servers, Alcatel and Cisco for the switches, and Allen-Bradley, Logan, and Siemens, for the PLCs. The information included here is ever changing as construction/demolition continues within the BHS.

j. The BHS Network maintenance and administration is described as follows:

1) BHS Network: Each BHS ("Area") has one or more PLC which is connected through an internal BHS network by cables and/or Fiber cabling to the BHS Servers located in the BHS Coordinating Center, also known as Area 20. The BHS network is used for controlling various BHS functions, operational monitoring, performance tracking and reporting. Panel view work stations, MCC panels, recode stations, control stations and related components are the responsibility of the Contractor.

2) The Contractor is not responsible for maintenance or repair of the video cameras or video camera connecting cables to the network.

3) The Contractor shall be responsible for the installation and replacement of monitors in the Coordination Center and remote area graphics monitors. The monitors will be provided by the Aviation Authority. The Contractor is also responsible for replacement and installation of Aviation Authority owned and Contractor maintained monitors located in the Checked Baggage Resolution Area (CBRA) rooms for each area (Pod) and at each Baggage make-up carousels.

4) The Contractor is responsible to maintain and repair the BHS network data cabling, excluding conduits, be proficient in testing and troubleshooting of the data transmission cables, cable ends, connectors, and the related switches, converters, routers, perform maintenance of the PLCs, and the cleaning of the filters and fans.

5) Contractor shall be proficient in troubleshooting any network communication problems (for example, determining if a problem is internal to a switch, if it is a cable, connection, converter (e.g. transmit or receive) problem, or if the problem is related to the program/software, or corrupted data.

6) The Contractor shall notify the AAR immediately when any problems are noted with the computers, servers, or switches. System downtime and performance deductions shall be counted and applied (exclusive of those reasons, issues, or causes as described in this section) until

such time, the Contractor restores operation, remedies the problem or notifies the AAR that the issue is internal to the computer, server, or switch. If the Contractor incorrectly diagnoses the problem and notifies the AAR that the problem is internal to a computer, server, or switch, the total downtime of the system or equipment including the time the Aviation Authority spends identifying that the problem is not in the computer, server, or switch shall be counted when calculating the performance deductions and downtime.

7) The Contractor is not responsible to repair the switches (Alcatel or Cisco), however shall be capable of determining if there is a problem internal to the switch and to notify the AAR of such problem immediately.

8) The Contractor is not responsible to repair the server(s); however shall be capable of determining if there is a problem internal to the server and to notify the AAR of such problem immediately.

9) The Contractor is not responsible to repair the sort computer(s), however shall be capable of determining if there is a problem internal to the computer and to notify the AAR of such problem immediately.

10) The Contractor shall be responsible for the maintenance and repair of the PLCs, which includes the replacement of internal components and (re)programming. Contractor shall be proficient in PLC.

11) Contractor shall have experience in troubleshooting BHS electrical and electronic systems with field experience in a baggage sortation operation and repair, including PCs, VFDs, and Programmable Logic Control (PLC).

12) Contractor shall be capable of troubleshooting and repairing computer/PLC system networks and network components of systems, including Device Net, Control Net, Ethernet, and Laser/Photo based Code Readers (Tag Readers).

13) The Contractor is responsible to maintain and repair TSA equipment such as, but not limited to, search tables, monitors, roller tables, in search room areas throughout the airport.

k. In addition to the requirements specified elsewhere in this Contract, the Contractor shall provide all personnel, labor, supervision as necessary to perform the work, and shall perform the work, identified below with respect to the equipment identified as covered under this Contract. Contractor shall perform the following:

1) Scheduled PM and PdM of all the equipment and systems covered under this Contract.

2) Unscheduled and scheduled CM for all the equipment and systems covered under this Contract. Contractor shall strive to make all scheduled repairs during non-peak times and/or when the system/equipment is not scheduled to operate.

3) In compliance with manufacturer's guidelines and the Contractor's Safety Plan, conduct a safety inspection of all equipment and devices on a regular basis and promptly report all current and/or potential issues to the AAR.

4) Conduct daily inspection of the conveyor system, BHS equipment, and system to identify any potential or developing problems. This is to be a visual and audible "walk-through" inspection, which is not as detailed an inspection as a PM inspection.

   The daily inspection shall begin at or prior to, system startup each day for each of the critical conveyor systems (i.e. the Pods, In-Line Screening systems and main conveyor lines in Areas 1 through 6 and Pods A through E, Remote Sorting Facility (RSF), as well as the airside conveyor and carousel systems). Inspections shall include, but are not limited to, identifying problems such as torn conveyor belting, belt misalignment, and belt lacing issues, identifying any unusual noises from bearings, motors, etc., and remedying any conveyor line(s) problems, correcting and/or repairing equipment that fails to start. The inspection shall also include reviewing the BHS graphics and reporting logs to identify and remedy any abnormalities from the previous day's operations. During the daily walk-through and throughout the operational day, the Contractor shall clean all debris and trash from on and around the baggage handling conveyors.

5) The Contractor shall possess a minimum of three (3) infrared (IR) cameras at the Contractor's expense in the performance of PdM (Predictive Maintenance). It is expected that these cameras will be used to identify, benchmark, and track high or increasing heat that may indicate an impending failure so that this condition can be cured before the equipment fails. These cameras can be used on, but not be limited to, Main Control Cabinet (MCC) panels, electrical connections, bearings, motors and reducers etc. By using these IR images as a baseline and comparing them to future images, possible internal breakdowns can be caught before catastrophic failure occurs. No less than quarterly, thermal imaging shall be completed on the entire BHS system.

6) Providing escort to specific areas or components related to the BHS and for Aviation Authority's personnel or designees (e.g. inspectors, Contractors, auditors) to perform inspections, equipment assessments, etc., and/or for any other reason deemed appropriate by the AAR, when such service is related to the equipment covered under this Contract.

7) Housekeeping of the work areas and storage space: Those areas over, under and/or directly adjacent to the BHS equipment, the entire Pod area(s), and the airside conveyor areas which includes the removal of trash and debris, accumulated conveyor residue, dirt and dust, baggage tags, stickers, decals, and similar items and debris as described in Section 4.60 – Cleaning of BHS. Cleaning of ground and above ground areas in, around, and near the BHS. The Contractor is responsible for proper storage of flammables, corrosives, high pressure commodities, other dangerous items, liquids, gels used for servicing BHS equipment. All such storage must meet segregation requirements and be in compliance with all Aviation Authority, Fire Department and applicable governmental and environmental regulations.

8) Providing maintenance, inspection, and repair of: (i) all baggage system and baggage claim devices including security doors and fire doors. Also responsible for access control systems and fire/smoke alarm integration into BHS equipment and systems.

9) Providing equipment operator familiarization, initial and refresher, to Aviation Authority, Airline, and/or Contractor's staff for all: (i) BHS equipment maintained, to include but not be limited to: conveyors, piers, and carousels, as well as ticket counters, doors, and access control system equipment.

10) Coordinating planned and unplanned operation, maintenance, and repair scheduling of the: (i) BHS with the AAR, Aviation Authority's Airport Operations Center (AOC) and BHS Coordination Center. Modifying and adjusting Contractor's work schedules as necessary to accommodate airline and Aviation Authority activities.

11) Utilizing and updating the Aviation Authority's EAMS Maximo program database for all BHS and affiliated equipment assets. This includes entering/updating asset attribute data, tracking asset maintenance and repair expense, and maintaining a list of repair parts and approved alternate parts specific to each asset.

12) Responding to service calls to restart equipment, verify correct operation, reset equipment or circuit-breakers or motor overloads, and/or to instruct operators in the proper use of the equipment. This includes responding to Aviation Authority or airline requests to check all equipment for proper operation even if the root cause of the service call is due to operator error, lack of operator training, knowledge, or due to an operator's action or inaction such as not following the proper startup sequence, not resetting an E-stop on a conveyor line, including repeat calls to same equipment location to verify proper equipment operation where the equipment is found to be operating properly each time or cannot be checked or tested when the technician arrives because the condition no longer exists, etc.

13) Providing the labor to clear and remove jammed bags or items from the conveyor system regardless of whether or not the jam was caused by improper bag placement or hygiene. The Contractor's personnel are responsible to clear all bag jams.

14) Readjustment and realignment of conveyor photo-eyes, regardless of the cause of the photo-eye misalignment.

15) Repairing or replacing any part or item as needed. This is regardless of the duration, time between the parts or items previous installation date and the date of failure. For example, if an electric motor or belting is replaced and then the replacement motor or belting fails a short time later before the end of the item's life-expectancy or design-life, the Contractor shall replace the failed part as described in Sections 4.17 and 4.44.

16) Daily Cleaning of the all Automated Tag Reader (ATR) heads prior to commencement of operations.

17) Performing debris clean up, equipment storage and other maintenance and repair functions following Aviation Authority declared emergency situation(s), severe weather events and other circumstances requiring unscheduled or non-routine attention and/or response ("Atypical Maintenance and Repair Services").

18) Communicating with the AAR and other Aviation Authority staff the condition of equipment including that which is out of service, reason for out of service, expected return to service, status of repairs, and if status of needed parts are not available expected delivery date of ordered parts. This communication may take many forms and frequency depending on the severity of the situation but at a minimum once per day. The Contractor should also plan to provide a daily response log to indicate equipment calls, times called and returned to service as well as statements as to what caused the failure or reason for the service request/e-call.

4.2 Definitions

a. AAR – The Greater Orlando Aviation Authority's Authorized Representative.

b. AOC – Airport Operations Center. Located in the landside terminal, the AOC is staffed by Aviation Authority personnel 24/7 to provide information and coordinate Aviation Authority activities with the airlines. The AOC phone number is 407-825-3840. When the AOC receives calls from an air carrier, they will notify the Contractor of bag claim, ticket counter, bag scale, and other issues requiring Contractor attention. At times, they may relay other pertinent information and requests.

c. Bag Hygiene – The proper handling and placement of baggage on the conveyor belts. For example, small bags with straps should be placed in tubs, large bags should be placed flat side down wheels trailing on the conveyor, bag tags should be unwrinkled and facing up, and proper bag spacing should be adhered to. Poor bag hygiene can lead to bag jams, low bag tag read rates, bags going to recode (encode) stations for manual scanning, and increased system downtime. Bag hygiene typically starts with the airlines and/or TSA; however the BHS Operations and Maintenance personnel are also responsible to correct bag hygiene issues once the bag is in/on the BHS. The Contractor will have a responsibility to educate air carrier direct employees and sub-contractor's concerning bag hygiene.

d. Bench Stock - Parts and materials that are stored in the Aviation Authority's storage room(s). Bench Stock refers to parts/items as well as unused parts that are still on the shelf available for support of BHS maintenance through the term of the agreement. Bench Stock parts must be on hand for PM, PdM, and day-to-day CM, to reduce repair and down times. In conjunction with Aviation Authority representatives, incoming Contractor will conduct a joint inventory of current Bench Stock parts to determine actual stock being transitioned at initiation of incoming Contractor's assumption of responsibility.

e. Baggage Handling System (BHS) - Includes the conveyor belt systems, pier, carousel sort systems, In-line screening systems (excluding the EDS), flat plate carousels, Bag Claims and make up units, slope plate carousels, and all associated equipment such as the drive motors, motor control centers, panels (MCC and MCP), gear boxes, belt, chain drives, power turns, diverters, merge and queuing conveyors, ticket counter conveyors including the baggage scales, and the related security and fire doors.

f. BHS Operation Agent: Jams /Recode Stations / Baggage Support Personnel – Personnel assigned to work in the BHS to clear bag jams, operate the Recode Stations, Baggage Movement and perform other duties as described in the specifications or as required by the Aviation Authority.

g. BHS Coordination Center – Also referred to as "Area 20". An area staffed by Aviation Authority employees who monitor the BHS system while it is in operation. There are multiple video monitors in the Coordination Center which relay activity/conditions of the BHS system to the Coordination Center operators. Operators will relay jams/mechanical issues to the appropriate Contractor employees.

h. Child Asset - Also known as a subassembly asset. A child asset is an asset included in a grouping of a Parent Asset. – See "Parent Asset".

i. Consumables – Nuts, Washers, lubricants, rags, gloves etc. Items provided for the Contract that are included in the Management Fee and are not direct billed to the Aviation Authority.

j. Contractor's Storage Rooms – Aviation Authority will provide parts storage areas, secured rooms, caged, or fenced areas, etc. located in the airport terminal(s) for the Contractor's use to store its repair parts/items. These storage areas are secured and lockable and under the Contractor's control. Only the Contractor and specific Aviation Authority personnel, e.g. fire department will have access to the areas. The Contractor assumes responsibility for the safeguarding of all inventory and items stored within.

k. Corrective Maintenance (CM) – Also referred to as Repairs, includes the replacement of all worn out or broken parts and performance of associated labor for all the equipment and systems covered under this Contract. CM is the corrective action taken through the adjustment of, or replacement of, parts or components for the purpose of reestablishing equipment operation and services, restoring equipment design-life expectancy, and/or to maintain the original level of safety and/or performance characteristics of the equipment as was designed and intended by the original equipment manufacturer. The replacement of these parts or components may be scheduled or unscheduled, as determined or discovered during the observation, inspection and testing of components, through PdM, PM or due to equipment failure/ or breakdown.

l. Dutchman Repair – Baggage belt repair in which a new short piece of identical baggage belt is added to existing baggage belt to repair or replace a damaged section of conveyor belt. This type of repair avoids the requirement to replace an entire belt when only a small section may be damaged. The Aviation Authority will allow the use of Dutchmen repair(s) only on straight flat transport belts; a straight run with no diverters. The minimum size of a "Dutchman" is four (4) feet long. No more than two (2) "Dutchmen" are allowed per transport belt. On belts with diverters, belts less than twelve (12) feet long, or belts that are not a straight run, no "Dutchman" repairs are allowed.

m. EDS - Explosive Detection Screening machines provided by the TSA.

n. Enterprise Asset Management System EAMS Maximo - References the Aviation Authority's IBM Maximo System, currently operating on version 7.6 or future upgrades may be made as applicable. EAMS Maximo is a software program licensed by the Aviation Authority to be utilized by the Contractor for asset management, which includes scheduling jobs or work, assigning personnel, recording costs, and tracking relevant work repair information such as the cause of a problem, downtime involved, and labor hours and parts used to make repairs. EAMS Maximo allows the tracking of PM inspections, PdM, CM, and recording of data about assets, including their specifications, meter readings, warranty information, spare parts, approved alternate parts, purchase date, expected lifetime, etc. EAMS Maximo is also used in the management of spare parts inventory, such as recording where parts are stored, the value of inventory, determining when to restock materials and the turnover rate of inventory. The Aviation Authority will provide the Contractor access to the Aviation Authority's EAMS Maximo for tracking all work performed under this Scope of Work including software for laptops, Tablets,

etc., utilized by technicians. Damaged or loss of computer equipment must be replaced by the Contractor with the exception of normal wear and tear.

o. GOAA – Greater Orlando Aviation Authority. Also referenced as "Aviation Authority".

p. Operational – For equipment to be considered "operational" the equipment must be performing at the fully designed (manufacturer specification) capacity. Equipment operating below manufacturer specification will not be considered "operational".

q. Operational Period - The "operational period" is defined as the period during which a mechanical system is operational in a fully functioning manner acceptable to its operator, user and or appropriate Aviation Authority personnel. Operational periods can be variable and are most often based upon the operating airline's flight schedule.

r. Parent Asset - Also known as a top level asset. The Aviation Authority uses a Parent Asset as a phantom asset in EAMS Maximo to designate a grouping of child (subassembly) assets. A "parent asset" is a title used to identify a grouping of assets. For example: Area 2, Ticket Counter 2's Parent Asset would be A2-TC2. This ticket counter belt system is inclusive of the following child (subassembly) assets:

1) A2-TC2-1 Standard Belt Conveyor
2) A2-TC2-2 Power Turn
3) A2-TC2-3 Standard Belt Conveyor Decline
4) A2-TC2-4 Standard Belt Conveyor

s. Pod – The area(s) where the In-Line Explosive Detection Screening (EDS) equipment is located and the area(s) where the TSA conducts bag searches. There are five Pods (Pod A, B, C, D, and E) located in the landside terminal and one located in the Remote Screening Facility (RSF). Pods consist of the Checked Baggage Inspection System which is made up of the conveyor system and the in-line EDS. Each pod also has a Checked Bag Resolution Area (CBRA) commonly referred to as the search room.

t. The Remote Screening Facility (RSF) – The RSF is located on airport property approximately half (1/2) mile from the closest Airside Terminal.

u. Predictive Maintenance (PdM) – Activities involving continuous or periodic monitoring and diagnosis in order to forecast component degradations so that as needed, planned maintenance can be performed in accordance with this Contract prior to equipment failure. The Aviation Authority requires a PdM program that shall include but shall not be limited to IR camera usage and trend analysis for identification of predicted failures. While some Contractors may take a "run to failure" approach, the Aviation Authority requires that a PdM program be utilized to avoid failures of the baggage handling system equipment. The Aviation Authority will not accept a "run to failure" program.

v. Preventative Maintenance (PM) – PM is defined as regularly scheduled inspections, tests, servicing, repairs, replacements, cleaning, lubrication, adjustment, calibration, tracking, alignment and other tasks meeting or exceeding manufacturer's specifications to reduce the frequency and impact of equipment failures. Preventive maintenance is not a Corrective Maintenance or breakdown maintenance which includes repair or replacement activities not occurring on a regular schedule. PM includes scheduled preventive maintenance activities, predictive maintenance activities, and inspection activities. The objectives of our PM program are: 1) Minimize corrective and breakdown maintenance, maintain satisfactory, safe equipment conditions, and improve reliability through the use of PM activities, PdM activities, and inspection activities; and 2) Identify maintenance actions on equipment, and incorporate into the PM program those maintenance activities that result in the greatest reliability benefit.

w. Third-Party Damage – Equipment damages and/or failures resulting from, but not limited to, uncontrollable events or conditions, accidents/damages, misuse of equipment, vandalism/abuse, and/or other causes that directly or indirectly affect the operation of the equipment, and which have not been caused by the Contractor's employees or its subcontractors.

x. Trend Analysis - The practice of collecting information and attempting to spot patterns, or trends, in the information. It is expected that the Contractor shall utilize trend information available through EAMS Maximo and other sources to determine failure trends. Trending can be utilized to determine if proper repairs are or are not being completed. Trend analysis reports will be provided to the AAR in an agreed format and frequency as determined by the AAR.

4.3 Regulations

a. The Contractor shall comply with all applicable federal, state and local laws, ordinances, rules and regulations pertaining to the performance of the work specified herein. This will include all applicable safety rules including OSHA, NFPA, NEC, and Aviation Authority mandated safety and work practices.

b. The Contractor shall obtain all permits, licenses and certificates, or any such approvals of plans or specifications as may be required by Federal, State and local laws, ordinances, rules and regulations, for the proper execution of the work specified herein.

c. Contractor shall comply with Federal and State right-to-know laws if hazardous materials are used. The Safety Data Sheets (SDS) shall be made available to all workers and Aviation Authority's representatives. Contractor shall report immediately to: the Aviation Authority's Communication Center (911) and the AAR, followed as soon as practical to the Airport Operations Center (AOC) and BHS any spillage or dumping of hazardous materials by the Contractor's employees on Aviation Authority property. The Contractor shall be responsible for the cleanup and any costs incurred for all such incidents.

d. During the performance of this Contract, Contractor shall keep current and, if requested by the Aviation Authority, provide copies of any and all licenses, registrations or permits required by applicable governing agencies. Contractor shall keep a copy of any and all licenses, registrations and permits on the job site while performing the Contract work.

e. The Contractor shall comply with all American Society of Mechanical Engineers, Underwriter's Laboratories, National Electrical Code, National Fire Protection Association, Occupational Safety and Health Administration, and manufacturers' specifications/standards as applicable for PM, PdM and repair of the equipment specified herein.

f. All work is to be coordinated with the AAR, or his designee. All contact information will be provided at Contract startup. The AAR shall have no authority or liability to amend the Contract on behalf of the Aviation Authority.

4.4 Work Hours

a. The Contractor shall be solely responsible for the assignment and utilization of employees to ensure all required work is conducted as specified herein. The Contractor's employees engaged to perform work under this Contract shall be regular full-time personnel. The use of "short term temporary" and/or casual "day labor" employees will not be permitted, except as authorized by the Aviation Authority on a case-by-case basis in situations such as employee illness or disability, or unusually high traffic flow, or to enable the Contractor to offer employment to the incumbent employees for the shifts and hours the incumbent employees currently perform. This prohibition shall extend to the use of any temporary help or placement agencies, and all new employees that are not incumbent employees. The Aviation Authority on a case-by-case basis, with the AAR write approval, may authorize part-time personnel.

b. The Contractor shall maintain management, supervision and staff on-site, twenty-four (24) hours per day, 365 days per year, including Holidays in quantities and with qualifications sufficient to perform the work described herein.

4.5 Inclement Weather

a. Event preparation and post storm cleanup of debris in conveyor area, bag room, around airside carousels, equipment storage, and other maintenance and repair functions following Aviation Authority declared emergency situation(s), severe weather events, and other circumstances requiring unscheduled, or non-routine attention and/or response, will be required".

b. Other situations where extra personnel other than those already scheduled are desired may result in the AAR requiring an increase in staffing.

4.6 Emergency Response

All repairs services associated with an emergency response shall begin immediately upon notification by the AAR and shall continue until the AAR notifies the Contractor that the emergency has been terminated. The Site Manager or Assistant Site Manager shall remain on-site throughout the emergency condition.

4.7 Contractor's Personnel

a. The Contractor must provide all personnel deemed necessary to meet the requirements of the Contract.

b. The Contractor's employees shall be instructed that no gratuities shall be solicited or accepted for any reason whatsoever from the tenants, customers or other persons at Orlando International Airport.

c. The Contractor shall be responsible for ensuring that all "lost and found" articles found by its employees on Aviation Authority's premises are turned over to the Aviation Authority or the Aviation Authority's designated agent in charge of such articles.

d. Contractor shall transfer promptly from the Aviation Authority any employee or employees that the Aviation Authority advises are not satisfactory, and replace such personnel with employees satisfactory to the Aviation Authority; but in no event shall Aviation Authority be responsible for monitoring or assessing the suitability of any employee or agent of Contractor.

e. A valid Florida driver license (Commercial Driver License, if applicable) will be required of all personnel operating motor vehicles or motorized equipment on roadways in or around Orlando International Airport. Each of the Contractor's motor vehicles brought onto the Aviation Authority's premises shall have the Contractor's business name and/or logo prominently displayed on both front doors of such vehicle.

f. Contractor will abide by all State and Federal regulations on wages and hours of an employee dealing with the employment relationship between Contractor and its subsidiaries or related parties and its employees, including but not limited to the Florida Human Relations Act, the Federal National Labor Relations Act, the Federal Fair Labor Standards Act, the Federal Civil Rights Act of 1964, as amended, and the Americans with Disabilities Act.

g. Should the Contractor engage employees who are illiterate in English, it will be the Contractor's responsibility and obligation to train such employees to be able to identify and understand all signs and notices in and/or around the areas that relate to them or the services being performed by them pursuant to this Contract. In addition, the Contractor will have someone in attendance at all times who can communicate instructions to said employee.

h. Contractor shall maintain a drug-free workplace within the meaning of the Florida Drug-free Workplace Act. No employee shall be hired by a Contractor for work on Aviation Authority's premises prior to such employee having tested negative for drugs. In addition, existing employees of the Contractor must be subject to drug testing by the Contractor upon reasonable suspicion of drug use. Results of all such drug tests are to be retained by the Contractor. Copies shall be provided to the Aviation Authority, if requested.

i. While working on airport property all Contractor's employees shall wear neat-appearing uniforms with the company name and/or logo and footwear of a style that complies with all legal and safety requirements, including and without limitation, the requirements of OSHA, NFPA, NEC or other relevant regulations. The Aviation Authority reserves the right to approve or disapprove of company uniforms.

4.8 Minimum Pay Scale

The Contractor shall discuss a staffing and wage plan with the Aviation Authority for reimbursable positions so as to attract quality personnel to perform the requirements of this Contract. It is understood that Technicians of BHS systems require special skills and training. The Contractor is encouraged to solicit a portion of the start-up staff from the existing Contractor qualified employees.

4.9 Labor Compensation

The Contractor’s labor compensation for the reimbursable positions shall be fixed at the hourly labor rates as agreed upon with the Aviation Authority and shall not be subject to markups. The Contractor shall only be reimbursed for overtime hours as pre-authorized in writing by the AAR. Employees are required to utilize an automated time and attendance system. Employee’s timesheets, printed records shall be included with the invoice and only actual hours worked and accounted for shall be billed.

4.10 Removing Equipment From Service

The AAR may remove equipment from service at his/her discretion at any time during this Contract. In this event, the AAR may adjust staffing levels of persons needed to fulfill the requirements of this Contract. Staffing adjustments for equipment removal will not be taken if the equipment is removed from service for a period of less than thirty (30) days.

4.11 Adding Or Replacing Equipment

The Aviation Authority may add or replace equipment at its discretion at any time during this Contract. In this event, the Aviation Authority may authorize additional staffing or reductions in staffing as may be needed for the required completion of operations, PM, PdM and CM services. The Management fee will not change even if the number of assets adjusts up or down. As asset numbers are adjusted up or down

the Contractor shall manage the staff necessary to perform required maintenance functions.

4.12 Compensation Adjustment

Throughout the term of this Contract, at the end of each month thereof, the AAR may make payment deductions to the Contractor's invoice for the month ending. The deductions shall be based upon the total amount of countable equipment/system non-operational events for the month, collectively calculated in accordance with the requirements of Sections 4.50 through 4.59 of the Specifications. In addition, deductions may be taken for Contractor's failure to perform fully, or failure to perform to the AAR's satisfaction, those specific Contractual requirements specified herein.

4.13 Items Provided By The Aviation Authority

a. The Aviation Authority will provide the Contractor with reasonable job-related workshop, storage, and office space on a space available basis. The Aviation Authority will also provide the Contractor with shop and parts storage space in areas designated by the Aviation Authority.

b. The location of the office, storage and/or maintenance shop space may be changed at the Aviation Authority's discretion.

c. The Aviation Authority will provide a minimum of four (4) computers for the purpose of accessing the Aviation Authority's EAMS Maximo, for entering and retrieving work order information and records keeping. These computers will be on the Aviation Authority's network and shall only be used for accessing EAMS Maximo. EAMS Maximo software will also be utilized by technicians approved portable devices.

d. Ownership of the EAMS Maximo including all data shall be and shall remain the sole property of the Aviation Authority. This includes all data standards such as the issuing of part and asset numbering along with standards regarding the inventory, problem codes, and any other items that are not site specific or can cause a record conflict with other sites in Maximo.

e. The Aviation Authority shall provide licenses for the Contractor's use to access the Aviation Authority's EAMS Maximo program. The Aviation Authority shall retain ownership of the software, hardware and data; and allow the Contractor access to enter data and retrieve required information. Contractor will not have delete privileges to any global data.

f. The Aviation Authority shall provide local and long distance telephone service to existing wall jacks. The total number of phone devices will be determined by the Aviation Authority upon contract start.

g. Within the Aviation Authority provided space, the Contractor shall not store, stock, maintain or otherwise co-locate any items that are not for use in the performance of this Contract. Additionally, within the Aviation Authority

provided space, the Contractor shall not solicit, conduct or otherwise engage in business not pertaining to this Contract.

h. Utility cost associated with this Contract, such as electric, water, and sewage will be covered by the Aviation Authority.

i. The Aviation Authority shall coordinate the pickup and disposal of non-hazardous solid waste generated from the maintenance and repair of the BHS covered under this Contract from an AAR designated common pickup point. The Contractor shall place all waste materials in the Aviation Authority's dumpster or other such common trash pick-up point as approved by the AAR. Items too large for or prohibited in, the Aviation Authority's dumpster shall be delivered by the Contractor to an alternate location on the airport as specified by the AAR. The Contractor shall dispose old parts in accordance with AAR directions.

j. The Aviation Authority shall provide for the maintenance and repair of the Contractor's office, storage, and workshop space which is limited to the maintenance, repair, and/or replacement of electrical (excluding light bulbs), plumbing, HVAC equipment, fire and smoke alarm systems, and communication infrastructure provided such repairs are not the result of the Contractor's action or inaction. The Contractor is responsible for the housekeeping and cleaning in a neat and professional appearance of the supplied space. Any modifications or improvements to the space must be approved in advance in writing by the AAR and the cost of any such improvement is the sole responsibility of the Contractor.

k. The Aviation Authority will make every effort to provide available Equipment Service Manuals, Wiring Diagrams, Service/Technical/Engineering Bulletins, and related diagnostic equipment, maintenance, and repair literature. It is the Contractor's responsibility to verify that any information and manuals provided by the Aviation Authority are accurate and up-to-date, and to provide any manuals and diagrams or other information not provided by the Aviation Authority that is required to perform the work under this Contract as described in Section 4.19 Library. The Contractor shall maintain and return to the Aviation Authority updated manuals and other pertinent documentation at Contract termination.

l. The Aviation Authority will provide parking permits for each of the Contractor's on-site employees in the Aviation Authority's remote employee parking lot and Company vehicle parking permits for access to the AOA, Baggage Makeup area and/or the landside terminal loading dock while performing under this Contract at no cost to the Contractor.

m. The Contractor shall, at its sole expense, repair or replace promptly to the AAR's satisfaction, any damage or loss caused by the Contractor to Aviation Authority property. In the event the Contractor has not repaired or replaced any such damage or loss within the timeframe set forth in the AAR's written notice, the Aviation Authority may repair or replace such damage or loss at the

cost and expense of the Contractor and deduct such cost from the next amounts due the Contractor under the Contract.

n. The Contractor shall notify the AAR promptly in writing of any damage that the Contractor discovers whether or not such damage was caused by the Contractor, the Contractor's officers, employees, subcontractors or agents.

4.14 Equipment, Vehicles, Tools And Supplies

a. Based upon the Contractor's experience, industry standards and any recommendations from parts and/or service manuals, and/or from the manufacturers of the equipment, the Contractor shall provide, maintain, and store on-site, at the Contractor's risk of loss, all necessary tools, equipment, and supplies including specialized tools and any other diagnostic equipment necessary to perform the work specified herein and shall have such on hand at the beginning and throughout this Contract.

b. The Contractor shall furnish all of its administrative supplies, office furniture, printers, computers, copiers, mobile telephones, file cabinets, miscellaneous office equipment, work tables, chairs, benches, personnel lockers, cabinets, and any and all other items necessary to perform the work under this Contract, at no additional cost to the Aviation Authority.

c. The Contractor shall furnish all equipment, materials, supplies, and tools necessary for the efficient performance of the work of this Contract, at no additional cost to the Aviation Authority. This may include any specialty tools and equipment including but not limited to, all electronic test equipment, all types of ladders, mechanical or electrical lifts, welders, grinders, measuring equipment, etc.

d. The Contractor shall provide and maintain a sufficient number of vehicles to move its staff and materials so as to not delay its response to any service or repair for the systems and equipment covered in this Contract. The Contractor shall provide a minimum of three (3) pickups or vans and at least ten (10) golf type carts for material and personnel movement. All Contractor vehicles shall be kept clean, and all of the Contractor's vehicles shall be in good working condition, with no leaking fluid and no mechanical problems. Vehicles shall have appropriate exterior insignia that meets the approval of the Aviation Authority.

e. The Contractor shall provide, at no additional cost to the Aviation Authority, all necessary lifting equipment and safety apparatus and harnesses, which shall include a sufficient number of operational scissor lifts or equivalent type lifts to be stored on-site for jam clearing and the maintenance and repair of the BHS. The Contractor must have properly trained and licensed employees for the operation of all motorized equipment.

f. The Contractor shall provide a forklift capable of moving baggage conveyor sections and any other materials. The Contractor shall be required to provide

all equipment lifting devices and supporting safety stand devices as required for performing the PM, PdM, and/or CM tasks related to the BHS equipment covered under this Contract. The Contractor shall be responsible to repair any damages it causes to Aviation Authority property at Contractor's sole expense.

g. The Contractor shall provide a sufficient number of vacuum cleaners and Wet/Dry canister/drum vacuums to be utilized for required cleaning as described in Section 4.60.

h. The Contractor and its subcontractors shall provide and maintain identifying uniforms for all Contractor staff, at no additional cost to the Aviation Authority. The choice and selection of the uniforms are subject to approval by the AAR. The uniform shall include, but not limited to trousers, long and short sleeve shirts and/or T-shirts, appropriate safety shoes, bump caps, jackets, and rain gear for outdoor work in all seasons.

All uniforms shall present a neat and professional appearance at all times and shall have the name of the Contractor or subcontractors represented along with a name identifying the employee clearly marked and visible on the shirt and jacket. Selected uniforms must be high visibility/reflective and meet OSHA, NFPA, NEC, Aviation Authority and applicable safety regulator's requirements.

i. Should during the course of this Contract, the Contractor determine that it is necessary to replace, supplement, modify, add, or update any necessary equipment or tools, including without limitation any specialized tools or equipment, the cost of such replacement, supplementation, modification, addition, or update shall be the sole responsibility of the Contractor.

j. For purposes of identification, Contractor's provided power tools, toolboxes and non-motorized equipment brought onto the Aviation Authority's premises shall bear a permanent distinctive marking, identification, or engraving exclusive to the Contractor.

k. For purposes of identification, all of the Contractor motorized vehicles brought onto the Aviation Authority's premises shall be individually and prominently marked, on both front doors of such vehicles, with the Contractor's business name and/or logo.

l. The AAR shall have the right, but not the obligation, prior to the Contractor's commencement of work, and any time thereafter, to inspect and approve any tools, equipment, and vehicles, to include any specialized tools, and equipment, the Contractor intends to or has placed into use on the Aviation Authority's premises. If, at the discretion of the AAR or designee, any of such tools, equipment or vehicles becomes unsafe or not in good working condition, the Contractor shall remove said equipment, tool or vehicle from service and repair or replace it promptly.

m. The Contractor is responsible to maintain at its sole cost and expense, insurance to protect against losses due to theft, vandalism or other events

which might result in damage or loss of the Contractor's tools, equipment, vehicles, materials, or supplies.

4.15 Communication

a. The Contractor shall provide, at its sole cost, all communications equipment necessary to properly and efficiently perform its obligations under this Contract to include sufficient two-way radios (programmable to interface with GOAA radio system), mobile telephones, facsimile/copy machines, office computers, including all maintenance and repair services for its communications equipment, and all connectivity and retransmission requirements for same.

b. While on duty, all Contractor and Sub-Contractor operation and maintenance personnel shall be equipped with two-way radios. The Contractor's employees and subcontractors shall abide by the Aviation Authority's established radio use procedures and etiquette requirements at all times. Radios provided and maintained by the Contractor must be suitable/programmable to the Aviation Authority's radio frequency.

c. The Contractor shall provide and maintain throughout the term of the Contract a minimum of Eighty (80) operational two-way radios. All radios including replacements, chargers, batteries, maintenance and repair shall be provided at no additional cost to the Aviation Authority.

d. On the date of the Contract commencement, and as needed to reflect changes thereafter, the Contractor shall provide a list of all employees including name, position, and radio and/or cell phone contact numbers to the AAR. The Contractor shall assign a specific radio call number or ID ("call sign") to all its employees assigned radios so that the Aviation Authority can contact specific Contractor personnel directly by radio. The Contractor shall assign a universal radio call number or ID for the on-duty supervisor position and other key personnel in the organization structure that can be used on each shift so that the same radio call sign can be used to contact or dispatch the on-duty supervisor regardless of who the actual person on duty is. The AAR reserves the right to approve or deny any or all radio call signs.

e. For computer needs other than accessing EAMS Maximo, the Contractor shall be responsible to supply its own IT equipment including computers, faxes, modem, printers, network connectivity, etc. to its staff for normal business purposes. The Contractor's computers shall not be permitted access to the Aviation Authority's internal network. Employees will communicate via the Contractors email system to Aviation Authority Personnel.

f. The Contractor shall provide contact information for the Management staff, Supervisors and others as required where information requests can be forwarded or other exchanges of information may occur. E-mail services shall be on the Contractor's company provided e-mail system and shall be at the sole cost of the Contractor. If the Contractor chooses to have Internet Access available for its use, all costs shall be at the Contractor's sole expense. The

Contractor shall ensure only appropriate, business related websites are accessed from any computers located on the Aviation Authority premises.

g. The Contractor shall be responsible for any damage to, or loss of, any Aviation Authority provided equipment and shall return all such equipment to the Aviation Authority at the expiration of the Contract or earlier termination. The Contractor shall be responsible to reimburse the Aviation Authority for any lost or damaged equipment at its replacement cost.

4.16 Quality Assurance

a. The Contractor shall perform the services required hereunder in accordance with industry standards and any applicable manufacturer's instructions so that the manufacturer's warranty is not in any way void.

b. The Aviation Authority performs quality assurance assessments in which completed PM, CM or PdM may be inspected by the Aviation Authority or third party personnel for completeness. The process allows for a score to be applied to the inspection. Deficiencies may lead to deductions and corrective actions imposed by the Aviation Authority as described in Section 4.50 Deductions Based on Equipment Non-Operational Time and Section 4.52 Deductions and Adjustment. Inspected items may include but not be limited to timely and proper completion of all required tasks, cleanliness, safety items, other required tasks and work orders properly completed.

4.17 Warranty

a. Under no circumstances shall the repair or service of any equipment under this Contract be delayed as the result of a warranty issue, claim, or dispute.

b. The Contractor shall be responsible to track, maintain and enforce any and all applicable manufacturer's parts, equipment and system warranties for all equipment, parts or systems maintained, installed and/or placed into use by the Aviation Authority during this Contract.

c. For those parts and items that the Contractor is responsible for replacing which are covered by a manufacturer's or installer's warranty, it is Contractor's responsibility to coordinate with the warranty provider for warranty parts replacement.

d. Available warranty information such as warranty provider contact information, equipment installation dates, and terms of warranty must be maintained in the EAMS Maximo.

e. In the event that new, warranted equipment is added to this Contract, Contractor shall perform all maintenance and repairs to such additional equipment as required by this Contract, to include but not be limited to, services related to the warranty of the new equipment.

f. The Contractor shall enter the installation and purchase date and warranty terms and information of all new warranted equipment or items in the Aviation Authority's EAMS Maximo, including those repair parts or rebuilt or remanufactured items with warranties, when placed into use by the Contractor in the performance of this Contract.

g. In the event that the Contractor performs, or fails to perform, any action that voids the manufacturer's warranty, the Contractor shall assume the full liability and responsibility of the voided warranty and shall make all the necessary repairs including replacement parts through the end of the original warranty period.

h. The repair or replacement of any system component part either new or existing, which is covered under the manufacturer's and/or Contractor's warranty shall be a part of the work CM, PdM, or PM under the Contract as specified herein.

i. This warranty provision shall not serve as a limitation on any manufacturer's product warranties for parts and equipment installed on the Aviation Authority's premises.

4.18 Library

a. The Aviation Authority may provide available equipment manuals, wiring diagrams, service bulletins, and related equipment maintenance and repair literature. It is the Contractor's responsibility to verify that any information or manuals provided by the Aviation Authority are accurate and up-to-date and to provide any manuals, diagrams or other information not provided by the Aviation Authority that is required to perform the work under this Contract.

b. The Contractor shall keep the manuals in the office and shop space provided to the Contractor.

c. The Contractor shall provide all effort necessary for maintaining the Aviation Authority's library associated with the BHS equipment. Effort shall include, but is not limited to, initial cataloging, set-up, filing and posting of OEM updates, modifications, Service/Technical/Engineering Bulletins, Field Service Requirements, and all paperwork associated with maintaining the library. At the end of the Contract, the updated and complete library will be returned to the Aviation Authority.

d. It is the responsibility of the Contractor to keep up with, categorize, and include in the manuals library any manufacturer's maintenance bulletins, directives, and notifications. All ongoing changes must be made available to the Technicians and the Contractor will be responsible for ensuring all work, changes, and corrections to the equipment called for in these communications are adhered to including PM, PdM, and CM changes and special inspections. Completed bulletins are to be recorded in EAMS Maximo.

4.19 Preventive Maintenance (PM) and Corrective Maintenance (CM)

a. The Contractor shall maintain and repair all equipment in accordance with the Aviation Authority's schedule and detail unless the manufacturer requires a more stringent standard.

b. The Aviation Authority will provide the Contractor access to the BHS to perform its planned maintenance and repair activities. The Contractor shall expect that changes in airline activities will necessitate temporary and seasonal adjustments. The Contractor shall schedule its planned maintenance and repair activities on the BHS with the understanding that the availability, amount of time, of the BHS for maintenance and repair activities fluctuates according to airline or flight activity; therefore, the Contractor may have periods where the BHS is not shutdown on a particular evening and will need to perform its planned activities at a different time. The Contractor shall adjust its schedule accordingly and perform or complete the required work. There will be maintenance or repair opportunities where the system is shut down for longer periods and/or where unused BHS sections or equipment (such as a pier or ticket counter line) can be shut down while the BHS is still considered in operation. The AOC or AAR in coordination with the BHS Control Room will provide the Contractor with the airline or flight activity schedules, a schedule indicating which dates, times, and areas of the BHS will be available for maintenance and repair with as much advanced notice as possible but not less than one month in advance for known schedule changes so that the Contractor can plan its staffing and work requirements in accordance with the time slots available to work on the equipment.

c. Generally the Aviation Authority will provide the Contractor with four (4) to six (6) hours per twenty-four (24) hour period to perform maintenance and repair of the BHS; however, this may not be possible at all times. The Aviation Authority will make every effort to provide the Contractor twenty-eight (28) hours per week, on average, to maintain the BHS areas. This average will be measured by totaling all of the time in minutes that the BHS is shut down during the month and available to the Contractor for maintenance and repair activities per Area divided by the number of days in the month. For example, if Area 1 is shut down for a total of one hundred-twenty (120) hours during the entire month, for a month with thirty (30 days) then the average hours the system was available to the Contractor is equal to four (4.0) hours per day. Performance deductions will not be taken for any downtime related to equipment that has failed or broken because the PM and/or planned CM work could not be completed during the month because the Aviation Authority failed to provide the Contractor this minimum amount of time. The Contractor shall schedule and perform the PM and planned CM early in the month for all critical operational equipment, with a focus on single point of failure items.

d. The Contractor will be responsible for the same maintenance, bag jam clearance and cleaning actions in the RSF as are listed in the specifications for other areas of the baggage handling system (BHS).

e. The Aviation Authority has a PM software program in place in EAMS Maximo, which meets or exceeds the manufacturer's recommendations, and shall be available for the Contractor to utilize under this Contract. The current program is time based recurring frequency with specific tasks depending on the equipment type. The Contractor will be expected to utilize this PM program and may at its own choosing go above and beyond this program but never less than the directed tasking and frequency of the Aviation Authority PM program. The PM program is described in Exhibit "4.2".

f. All maintenance and inspections shall be tracked and recorded by the Contractor in the Aviation Authority's EAMS Maximo for every occurrence of PM, PdM, CM, and safety service bulletins maintenance actions for each individual piece of equipment, or subsystem thereof, or as may be directed by the AAR. All completed reports shall be available to the AAR within forty-eight (48) hours of completion of the work through direct access viewing in the EAMS Maximo program. Direct input from completed technician's mobile device is the fastest and preferred method of updating EAMS Maximo.

g. The Contractor shall replace worn out or broken parts on the equipment and systems covered under this Contract. The replacement of these parts or components may be scheduled or unscheduled, as determined or discovered during service calls, observation, inspection and testing of components, through PdM, PM or due to equipment failure/ or breakdown. The Contractor shall adjust or replace parts or components to reestablish equipment operation and services, restoring the design-life expectancy of the equipment, and/or to maintain the original level of safety and/or performance characteristics of the equipment as was designed and intended by the original equipment manufacturer.

h. The Contractor shall complete all CM repair work within fifteen (15) days of identification.

i. All completed reports shall be available to the AAR within forty-eight (48) hours of completion of the work through direct access viewing in the EAMS Maximo program. Direct input from completed technician's mobile device is the fastest and preferred method of updating EAMS Maximo.

4.20 Predictive Maintenance (PdM)

a. The Contractor shall plan in advance, develop and utilize a PdM program so that the replacement of wearing or worn-out parts can be scheduled for off-peak times rather than necessitating replacement during scheduled equipment operating periods or as a reaction to an unexpected breakdown. The replacement of wearing parts shall be scheduled or predicted based on the manufacturer's data for life expectancy in terms of hours in operation, number of cycles, operating environment, maintenance, care, age, and/or similar measurement. The Contractor shall use PdM techniques, methods and routine inspection so as to replace wearing or worn-out parts prior to actual failure.

b. The Contractor shall enlist a third-party Level 2 or Level 3 Certified Thermographer or have an equally qualified Thermographer on staff to utilize IR cameras on all electrical and mechanical systems and prepare reports as a part of the PdM strategy on a quarterly basis. Certifications and credentials of the Thermographer are subject to AAR approval. The Contractor shall utilize trend analyses of EAMS Maximo information; provided thermographic information, as well as other predictive means to accomplish PdM. BHS System availability and performance will be measured and deductions may be taken for failing to meet minimum performance requirements.

4.21 Computerized Maintenance Management System EAMS Maximo – Utilization And Data Entry Requirements

a) The Aviation Authority will provide the EAMS Maximo program for the Contractor to utilize and support. The Contractor shall provide related data entry and asset management services. Data entry and asset management services include, but are not limited to, the following:

1) Scheduling jobs and work orders.

2) Assigning personnel, labor resource leveling, meaning the assignment of PM, PdM, and CM work based on staffing resources and the estimated labor requirements to perform the work.

3) Recording labor costs for repairs, maintenance activities and additional work.

4) Tracking relevant work repair information such as the cause of a problem, total downtime of equipment involved, labor hours and parts used to make repairs.

5) Tracking of each Technician's starting and ending time, date and time, and the total hours worked for each work order.

6) Tracking of PM, and/or PdM inspections and resulting CM work.

7) Recording of data about the asset or equipment including its specifications, warranty information, spare parts, purchase date, expected lifetime, etc.

8) Managing the spare parts inventory such as recording where materials are stored, the value of the inventory in the Contractor's Storage Rooms per Aviation Authority's parts pricing information, determining when to restock materials, and the turnover rate of the inventory.

9) Maintaining a listing in the EAMS Maximo of every asset and its related attributes, motor size, type, belt size, parts numbers and store room locations, date in service, warranty period, and expiration date if applicable.

10) Tracking and recording replacement parts information, manufacturer information, part numbers, and quantity required per asset, initial cost and current value of asset for each specific asset.

11) Management and assignment of work for planned repairs and maintenance tasks based on the Aviation Authority provided schedules of when equipment is not being used.

12) Assigning specific cost tracking, billing information to work orders based on the type of work being requested or performed, normal maintenance and repair, repair due to third-party causes, repair due to misuse or vandalism, special project work, etc.

13) Asset or equipment condition tracking and reporting.

b) The Aviation Authority will provide direct access to the EAMS Maximo in the Contractor's office to Aviation Authority provided computers for creating, closing, printing, and editing work orders, entering and viewing data, preparing reports, maintaining and updating system data. All requested reports and information generated by the EAMS Maximo system shall be immediately available to the AAR after the initial installation and setup of the system is completed. Data shall be entered into the EAMS Maximo within forty-eight (48) hours of occurrence, completion of repair work, PM completion, PdM completion, receipt of new or updated information or data, inventory changes, etc.

c) The Contractor shall initially enter, and continuously update the Aviation Authority's asset database in the EAMS Maximo, whenever assets are added, deleted, modified, repaired, or replaced and shall at a minimum include the following information for each asset:

1) The Aviation Authority's Asset number or asset tag number for each equipment and item (e.g.: A1- T3-05, A3 MS1-05, A6-BC-30.

2) Asset's location (e.g.: Area 1, Area 3, Airside 1, etc.).

3) Asset and Equipment category (i.e. BHS).

4) Manufacturer data for each asset including the manufacturer's name, make, model, serial number, year manufactured (e.g. Portec power turn, 90 degree, flat, manufactured on December 10, 2013, installed on March 14, 2015, etc).

5) A listing of all major or significant components replaced or repaired and the date replaced (e.g. a 5HP motor replaced on Jan 1, 2014).

6) A listing of hour readings, Amperage, current draw readings, IR images, and/or condition of asset at the time the PM, PdM or CM was completed.

7) A listing of the “major” repair parts for each of the components that comprise each asset, such as width and length of the conveyor belting, computer boards, number and size of the drive motors, type, size, and model of clutch, brake, and their respective Aviation Authority and manufacturer part numbers. Major repair parts are those parts with long lead times, high dollar amounts over One Thousand Five Hundred Dollars ($1,500) and/or are unique or specialized for this application/location.

8) Date equipment was installed and the starting and ending dates of warranty period, including name of warranty provider when applicable.

d) The Contractor shall ensure that every asset listed in the EAMS Maximo, all assets and equipment covered under this Contract, have their preliminary attributes entered within three (3) months of the Contract commencement date and shall be maintained through the remainder of the Contract.

e) The Contractor shall enter and record every EAMS Maximo work order, and maintain in the Aviation Authority’s EAMS Maximo, the following data for each repair part or inventory item installed on the equipment and system:

1) Date installed asset number, quantity, and location where each part or item was installed.

2) Manufacturer’s and if applicable Aviation Authority’s part number for each part or item.

3) Manufacturer’s description for each part and item number.

4) Cost of each part/item may be partially obtained from data automatically derived/down-loaded from the Aviation Authority’s financial program, Oracle program into EAMS Maximo.

f) The Contractor shall provide recommendations with regard to additions, deletions, or changes in the quantities or specific repair parts items to be stocked by the Aviation Authority based on the Contractor’s experience, equipment condition, historical parts usage, and expected parts usage.

g) The Contractor shall utilize the EAMS Maximo to provide reports and graphs, to the AAR.

h) Ownership of EAMS Maximo and all data maintained therein is the sole property of the Aviation Authority. The Aviation Authority shall provide all licensing, and incidentals required for the Contractor to operate, maintain and support the EAMS Maximo during the term of this Contract.

i) All work orders and/or forms that are produced by the Contractor as a result of this Contract remain the property of the Aviation Authority and shall be

surrendered to the Aviation Authority, if in the possession of the Contractor, upon request of the AAR.

4.22 Third Party Damage

a. The Contractor shall retain any evidence proving Third-Party Damage and document as much as possible including photographing the problem or cause when such action does not significantly delay the repair. The Contractor shall complete, and submit to the AAR, a report documenting discovery of third party damage to aid the Aviation Authority in billing responsible parties.

b. The BHS Coordination Center or AOC will dispatch Aviation Authority personnel to document the damage event and to create an incident or damage report. If the cause of the repair is not readily determined, the AAR or designee shall make the determination based on Contractor's statements, evidence collected, and the operations report.

c. Should the Contractor claim that Third-Party damage is the cause of any damage, the reason for a stoppage or failure of any system or equipment, or the cause of any additional costs and expenses to the Contractor, where the Contractor intends to seek an exclusion from any resulting performance deduction, the Contractor must be able to show physical proof of a Third-Party damage cause. Power spikes, surges, overweight baggage, claims of construction projects, work, or other Contractor, airline activities, actions or inactions, bag jams, etc., shall not be considered Third-Party-Damage unless there is physical evidence to support the claim or a witness who is not an employee or subcontractor of the Contractor.

4.23 Subcontracted Costs

The Aviation Authority will reimburse the Contractor for actual subcontractor cost incurred with no mark-up in the performance of Aviation Authority (AAR) approved projects. Invoices for all subcontracted work, labor and materials shall be provided and shall clearly indicate a description of the work and the total cost. The Contractor shall include a copy of the actual invoice received from its subcontractor along with its invoice to the Aviation Authority for "Subcontracted Work", and only those charges supported by the documentation shall be payable. The term "subcontractor" here does not refer to or include the Contractor's permanent employees who may be provided by another company (e.g. subcontracted for MWBE/LDB participation or to perform computer maintenance, etc.) to perform the contractual work defined in these specifications.

4.24 Third Party Contractor

The AAR reserves the right to retain parties, other than the Contractor to perform special projects. In this event and during the warranty period of any such work, the Contractor shall be required to respond to equipment failures and malfunctions, even where failure or malfunction may be related to the "the third party contractor work"; however the Contractor will not carry out the repairs unless authorized by the AAR.

4.25 Historical Records

The Contractor shall provide all work associated with the preparation, documentation and maintenance of a chronological, up-to-date historical record of all reports, PM/Inspections, PdM and CM repairs and provide access to or copies of the history to the AAR upon request.

4.26 Safety And Protection

a. In situations where lack of immediate repair may result in injury to a person or damage to the BHS, the Contractor shall immediately place the equipment out of service utilizing required Lock-Out-Tag-Out (LOTO) procedures and notify the AAR as soon as possible.

b. The Contractor shall provide any barricades, and/or signage that might be required to protect, and/or notify others of inoperable equipment, restricted areas, potential hazards, ladders in a roadway, and unsafe conditions.

c. The Contractor shall be solely and completely responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the work as described herein. The Contractor shall take all necessary precautions to ensure the safety of, and shall provide the necessary protection to, prevent damage, injury, or loss, to all employees on the work site and other persons including, but not limited to, the general public who may be affected thereby.

d. The Contractor and its subcontractors shall ensure proper hearing and eye protection and other necessary safety precaution items, per OSHA and other relevant regulator’s requirements, for their supervisors, maintenance, and operations employees at no additional cost to the Aviation Authority. All other required Personal Protective Equipment (PPE) which may include hard hats, bump caps, steel toed shoes/boots, arc flash equipment etc. shall also be provided by the Contractor or the employee at its sole expense.

e. The Contractor shall comply with Federal and State right-to-know laws if hazardous materials are used. The Safety Data Sheets (SDS) shall be made available to all workers and Aviation Authority's representatives.

f. The Contractor shall comply with ASME, UL, NFPA, OSHA, EPA, NEC, Aviation Authority and all other applicable regulators and manufacturers specifications and safety standards in relation to work performed.

4.27 Staffing

a. The Contractor shall provide adequate staffing on each shift with the understanding that the majority of the PM, PdM and planned CM work on the BHS equipment and systems, including the BHS Network systems

administration computer and network, will most frequently be conducted during air carrier non-operational hours.

b. The Contractor shall familiarize its employees and subcontractors with the operational and maintenance procedures and responsibilities for the equipment covered under this Contract.

4.28 Staffing Levels

a. The Contractor shall continuously provide a sufficient number of qualified technicians, operations personnel and other key skilled and support personnel to ensure that all operations, PM, PdM and CM are performed in accordance with the Aviation Authority and manufacturer specifications and that there are a sufficient number of qualified personnel available on-site at all times to respond in a timely manner in the event of multiple equipment failures, jams or other unanticipated problems. The Contractor understands that time is of the essence and shall have a sufficient number of appropriately skilled and trained staff available at all times.

b. Contractor must have sufficient personnel with U.S. Customs and Border Protection Clearance, as described in Section 2.9, Identification and Access Requirements, to maintain baggage belt, baggage carrousels, and all other Aviation Authority's baggage handling systems in the international flight operational areas (FIS). Personnel coverages are required for all shifts and all days.

c. The Contractor shall notify the AAR as soon as possible if a vacancy in the staffing plan occurs and shall provide the AAR with the Contractor's plan and time table to refill such vacancy.

d. Upon request, a copy of the staffing schedule, time sheets, and or employee time cards shall be provided to the AAR or other Aviation Authority representatives who may have need for this information.

e. The Contractor shall be prepared to provide staffing beyond what would be considered normal hours due to late flights or irregular operations that might arise. These activities may extend the labor hours of the contracted personnel and consequently shorten the available maintenance downtime. The Contractor shall also increase staffing during peak travel periods as requested by the AAR.

f. Supervisor coverage is required for all shifts twenty-four (24) hours per day, seven (7) days per week inclusive of holidays. The Contractor supervisor staff is expected to work five (5), eight (8) hour shifts or four (4), ten (10) hour shifts. Having supervisors scheduled in this manner aids in communication and the Aviation Authority shall require the Contractor to schedule supervisors accordingly. Final work schedules will be approved by the AAR.

g. It is understood and agreed that should a particular area have a realignment of flight activity that personnel assigned to that area will be reassigned to another work area when practical or if necessary a reduction in force, elimination of positions or employees will result. The Aviation Authority reserves the right to change personnel requirements in relation to work requirements.

4.29 Staffing Requirements

a. The AAR will require that “key personnel” provide certifications, and/or resumes indicating their experience knowledge and ability to perform the requirements of their positions. The Aviation Authority reserves the right to deny any employee selected for any position at any time.

b. The number one responsibility of Contractor personnel is safety of the public, employees, facilities, and equipment while supervising and operating the BHS systems.

c. The Aviation Authority reserves the right to approve or disapprove a Contractor employee’s qualifications to serve in contracted positions. The Aviation Authority reserves the right to require adjustment or replacement of any Contractor position or personnel at any time at the sole discretion of the AAR.

d. The Contractor must advise the AAR in writing within forty-eight (48) hours of receipt of a notice of resignation or the termination of personnel in the management fee positions and Supervisors.

e. The following list of positions includes but is not limited to all personnel necessary to satisfactorily meet the requirements of this Contract. The Contractor must also provide any other personnel deemed necessary to meet the requirements of the Contract.

4.30 Site Manager

a. The Contractor shall employ at the Airport an experienced Site Manager, authorized to represent and act on behalf of the Contractor in matters pertaining to Contractor's operations and activities and otherwise carry out the provisions of this Contract on a daily basis. All instructions and notices given by the Aviation Authority to the Site Manager shall be as binding as if given to the Contractor, and all statements made by the Site Manager or acting Site Manager shall be as binding as if made by the Contractor.

b. The Site Manager for this Contract shall be a full-time employee of Contractor based at the terminal complex and shall devote his/her time exclusively to managing Contractor's operations related to this BHS Contract at the Orlando International Airport.

c. The Site Manager shall, have overall responsibility for the work to be performed by the Contractor under this Contract. When the Site Manager is off airport property, an acting Site Manager shall be designated and always available to

the Aviation Authority to act in the capacity of the Site Manager. The Site Manager shall be able to respond to the site at the airport within sixty (60) minutes.

d. The Aviation Authority shall be advised, in writing, of the names of all acting Site Managers, which may include Assistant Site Managers or other similar positions. Because of the importance of management in the performance by the Contractor hereunder, the Site Manager proposed by the Contractor shall be subject to the approval of the Aviation Authority. The Contractor shall advise the Aviation Authority in writing of the name and qualifications of its intended Site Manager, at least two (2) weeks before hiring any substitute or replacement of the existing Site Manager.

e. The Contractor shall furnish a full-time Site Manager for forty (40) hours per week, Monday through Friday, 8:00 a.m. to 5:00 p.m. The Site Manager shall have at least seven (7) year experience in managing maintenance service operations with at least five (5) year experience in the aviation, baggage material-handling industry. The Site Manager shall have experience in managing Contracts of similar size and scope as anticipated herein, including managing supervisory staff and personnel, handling employment issues, inventories, and utilizing computerized maintenance management software.

f. On the twenty-second (22nd) consecutive calendar day (and all subsequent days) of absence by the permanent site manager, for any reason, a deduction of Four Hundred Seventy Five Dollars ($475.00) per calendar day may be imposed at the discretion of the AAR. This deduction may be imposed even though a temporary site manager has been designated.

g. The Site Manager shall be fully responsible per the Specification of this Contract for the operation and maintenance of the BHS inclusive of all aspects of manual baggage handling, jam clearing and bag hygiene as well as repair and maintenance actions. The Site Manager shall:

1) Represent the Contractor and shall be responsible for the supervision and training of his/her employees to ensure compliance with all provisions of this Contract.

2) Have the responsibility to ensure the safety of the public, employees, facilities, and equipment while managing the operation and maintenance of all equipment covered herein.

3) Must develop and oversee an effective work safety program. Program shall be presented to the AAR.

4) Shall maintain ultimate responsibility for adherence to all safety regulations and standards as prescribed by OSHA, NFPA, NEC as well as all other federal, state, local and Aviation Authority mandated safety requirements.

5) Responsible for all day-to-day operations and maintenance, performance, supervision, and control of services provided under this Contract and ensure that these services are performed in an effective and efficient manner.

6) Must be fully familiar with the requirements of the Contract, the schedules and ensure the proper skilled staffing levels are met.

7) Must meet with the AAR, Aviation Authority, and the Contractor's corporate management on matters relating to the services performed with a view toward obtaining effective coordination of all operations and maintenance.

8) Shall implement policies and procedures of the Aviation Authority and the Contractor related to all services covered by the contract specifications.

9) Shall provide reports and summaries to the AAR as required and upon request.

10) Shall develop and implement with the AAR’s written approval, long-range maintenance and repair plans for equipment and systems.

11) Shall be responsible for training of the Contractor's personnel in the performance of their duties.

12) Must ensure that the work responsibilities are allocated properly among personnel by the development and implementation of schedules.

13) Shall establish and coordinate PM, PdM, CM, work methods, procedures, and work-scheduling programs to result in a safe, reliable, efficient operation ensuring the ability to meet required goals.

14) Shall be responsible for the establishment of performance standards.

15) Shall establish and maintain a program for the acquisition, storage, and accountability of all operating materials, parts, tools, and equipment.

16) Shall when necessary, acquire the services of outside subcontractors, evaluate quotes, make recommendations to the Aviation Authority, and supervise subcontract work to its completion.

17) Shall make regular inspections of the condition of all equipment and systems under this Contract. Report findings to the AAR, and the actions required in correcting any deficiencies.

18) Shall serve as the point of contact for manufacturers of equipment in use at the Airport including adherence to standard practices, safety bulletins, notices and maintenance and operational manuals.

19) Shall be capable and licensed to drive a motor vehicle.

20) Shall perform any additional duties as required by the AAR.

4.31 BHS Assistant Managers

a. The primary responsibility of the Assistant Manager is to ensure the safety of the public, employees, facilities, and equipment while managing the operation and maintenance of all equipment covered herein.

b. The Contractor shall provide a minimum of five (5) Assistant Managers as follows: Five (4) Assistant Manager BHS, and One (1) Assistant Manager BHS Baggage Support. Each Assistant Manager shall be scheduled for a minimum of forty (40) hours per week.

c. The Assistant Managers shall assist the Site Manager in achieving management coverage of twenty-four (24) hours a day, seven (7) days a week. The Assistant Managers shall also cover as the Site Manager for times the Site Manager is not on site including weekends, nights, time-off and as needed.

d. On the twenty-second (22^{nd}) consecutive calendar day (and all subsequent days) of absence by an Assistant Manager, for any reason, a deduction of Three Hundred Seventy Five ($375.00) per calendar day may be imposed at the discretion of the AAR. This deduction may be imposed even though a temporary Assistant Manager has been designated.

e. The Assistant Managers shall have at least five (5) years' experience in maintenance service operations with a minimum of three (3) years' experience: (i) in a BHS associated equipment maintenance environment in either an electrical or mechanical position with comparable experience as defined herein for a Technician; and (ii) supervisory experience to include supervising shift operations on contracts of similar scope as anticipated herein, including managing technical and maintenance personnel, employment issues, inventories, and utilizing computer maintenance management software.

f. The Assistant Managers are responsible for safety and day-to-day oversight of maintenance and operation of the BHS systems including direction, supervision, performance and control of all administrative, operation, maintenance, repair, and related services of the Contract and shall include but not be limited to the following:

1) Must be familiar with the requirements and schedules of this Contract. Must implement and adhere to the Aviation Authority's policies and procedures.

2) Maintain and adjust staffing and personnel levels to provide the level of service that meets or exceeds requirements of the Contract.

3) Assist with establishment of PM, PdM and CM programs work methods, procedures, and schedules and coordinate programs for effective and efficient operation.

4) Oversee the assigned BHS portion of EAMS Maximo through work order generation, initiating, tracking, scheduling, updating, planning, reconciling, etc.

5) Establish and implement a quality control program to include tracking and reviewing all work orders.

6) Establish and implement a materials and parts usage procedure from work orders to update inventory.

7) Coordinate agendas of monthly meetings among the Aviation Authority and the Contractor, ensuring follow through of actions and timelines of meetings.

8) Maintain and reconcile accurate quarterly inventories of Aviation Authority issued keys; daily inventory of radios, tools and any other Aviation Authority owned or issued equipment as needed to ensure availability. Inventory schedule is subject to change as required and at AAR discretion.

9) Shall be capable and licensed to drive a motor vehicle.

10) Perform any additional duties on an as required basis where such duties are required by the AAR.

4.32 Training, Safety, Quality Control and Quality Assurance Programs

The Site Manager and Assistant Managers shall be responsible for training, safety, quality control and quality assurance programs which includes but is not limited to the following:

a. Ensure all performed services meet the established standards of quality including reliability, usability and performance.

b. Develop and administer all training. Identify training needs and organize training interventions to meet quality standards.

c. Determine what needs to be taught, finding or creating materials/classes and working with subject matter experts while selecting appropriate training delivery methods.

d. Develop and Implement Quality Assurance and Quality Control Programs.

e. Participate in internal and external quality control inspections.

f. Prepare reports to communicate outcomes of quality activities.

g. Evaluate audit findings and recommend/implement appropriate corrective actions.

h. Inspect, evaluate and monitor operations, the environment, equipment, and processes in working areas to ensure compliance with, government safety regulations, Aviation Authority safety procedures and industry standards.

i. Protect employees, customers, aircraft, equipment and the environment by eliminating hazardous conditions/activities shall be the primary focus.

j. Recommend policy/procedure changes to protect workers, educate employees on how to prevent health problems/accidents through the use of safety training programs and assist with safety regulation enforcement.

k. Ensure that Occupational Safety and Health Administration training is completed by all employees before the employee is allowed to perform initial duties and ongoing basis as may be pertinent.

l. Ensure and coordinate recurrent required safety training. Responsible Safety personnel will assist in investigations of accidents to identify their root cause(s) and determine/recommend potential changes to prevent similar occurrences in the future.

4.33 Administrative Staff

a. The Contractor shall provide a minimum of two (2) full-time Administrative Staff. The administrative staff shall provide support and assistance to management staff, and others as required.

b. The administrative staff provides support and assistance to the Site Manager, Assistant Managers, and others as required.

c. The administrative staff duties and responsibilities shall include but are not limited to the following:

1) Manage employee payroll and benefits. Track employee work hours and maintain and submit accurate payroll reports. Responsible for maintenance of personnel files.

2) Assist in recruiting and any other Human Resources matters.

3) Manage office supplies and ordering replacement stock.

4) Generate and enhance production of new and existing forms, documents and graphs.

5) Assist with compiling data for and producing the finalized monthly reports. Compile monthly invoices for submittal to the AAR.

6) Create, distribute maintain and track memorandums and letters.

7) Create and maintain binders of current technical information.

8) Assist as needed with the compilation and input of data, which includes an inventory of equipment, vendor data, labor codes, employee records, etc. to maintain EAMS Maximo.

9) Assist as needed with collecting information from daily work orders for inventory updates as well as, with physical inventory of parts, equipment, and tools.

10) Manage, collect, file, and distribute, Service/Technical/Engineering Bulletins received from the Aviation Authority and equipment and system manufacturers for the Contractor and subcontractor(s) staff.

11) Any other duties as required.

d. On the twenty-second (22nd) consecutive calendar day (and all subsequent days) of absence by an Administrative Staff, for any reason, a deduction of Two Hundred Fifty ($250.00) per calendar day may be imposed at the discretion of the AAR.

4.34 Other Management Fee Positions

a. The Contractor, as part of their proposal, shall list and describe any additional proposed management or administrative positions deemed necessary for the performance of this Contract.

b. If the Contractor fails to provide such proposed management position, on the twenty-second (22nd) consecutive calendar day (and all subsequent days) of absence for any reason, a deduction of Three Hundred Fifty ($350.00) per calendar day may be imposed at the discretion of the AAR.

4.35 EAMS Maximo Administrator/Supervisor

a. The EAMS Maximo Administrator/Supervisor shall serve as the EAMS Maximo expert for the Contractor and will have an advanced knowledge of the EAMS Maximo program.

b. The EAMS Maximo Database Administrator/Supervisor's duties and responsibilities shall include but are not limited to the following:

1) Oversee the EAMS Maximo and integrity of information.

2) Responsible for the accurate, complete, and timely entry of information into the Aviation Authority's EAMS Maximo system.

3) Generate reports requested by Contractor leadership and/or authorized Aviation Authority personnel.

4) Provide administration and day to day support of production EAMS Maximo environments.

5) Train users including Contractor and Aviation Authority's personnel on EAMS Maximo, document and import and export data.

6) Provide testing support for software, patch management, upgrades and integration.

7) Provide first line of support for Contracted users EAMS Maximo.

8) Provide support for the expansion of EAMS Maximo program capabilities.

9) Provide EAMS Maximo training to all Contractor and Aviation Authority EAMS Maximo users.

10) Assist with the compilation and input of data, which includes an inventory of equipment, vendor data, labor codes, employee records, etc. to maintain EAMS Maximo.

11) Convert technical knowledge into easily understood terms.

12) Shall provide reports as needed to meet Contract performance guidelines.

13) Shall perform any additional duties on an as required basis where such duties are required by the AAR.

4.36 EAMS Maximo Data Entry Staff

a. The EAMS Maximo Staff shall be responsible for the accurate and timely entry of asset and work order information as specified herein. The EAMS Maximo Staff shall attend an EAMS Maximo Immersion course offered by IBM or an authorized business partner at the Contractor's cost, or demonstrate suitable proficiency with EAMS Maximo version 7.6 (or future upgrades) from prior work experience.

b. The EAMS Maximo Staff shall be responsible for the accurate, complete, and timely entry of information into the Aviation Authority's EAMS Maximo system. The Aviation Authority shall have full access to the Contractor entered data at any time. All entered data becomes the property of the Aviation Authority.

c. The EAMS Maximo modules and applications shall be utilized and are essential to the efficient management of the Aviation Authority's assets and the Contractor's effective utilization of the EAMS Maximo.

d. The EAMS Maximo Staff shall be proficient with the EAMS Maximo Asset Module including Condition Monitoring, Failure Codes, and Meters applications, and shall utilize said applications in the performance of this Contract.

e. The EAMS Maximo Staff shall be proficient with the EAMS Maximo Inventory Module including the Condition Codes, Inventory, and Store Rooms applications, and shall utilize said applications in the performance of this Contract.

f. The EAMS Maximo Staff shall be proficient with the EAMS Maximo PM Module and shall utilize said application in the performance of this Contract.

g. The EAMS Maximo Staff shall be proficient with the EAMS Maximo Work Order Module and shall utilize said application in the performance of this Contract.

h. Data entry and asset management services include, but are not limited to, the following:

1) PM Schedules – All regularly scheduled maintenance and inspection activities shall be established in the EAMS Maximo application to allow the automatic generation of PM work orders.

2) Job Plans – All routine maintenance activities, such as scheduled inspections, routine PM and common repairs shall be established as Job Plans in EAMS Maximo, including estimated labor requirements, material usage, and duration. Job Plans must be utilized on all PM schedules and repetitive maintenance work orders.

3) Work Orders – All automatically generated PM work orders shall be scheduled and assigned within a reasonable time frame. Once work is completed, the EAMS Maximo work order must be identified as completed within forty-eight (48) hours to allow for accurate estimation of next due dates.

4) Follow-up Work Orders – Any maintenance and repair activity found as a result of a PM inspection shall be generated as a "follow-up" work order in EAMS Maximo. These work orders shall be completed within a reasonable time at the sole discretion of the AAR based on the priority of the work and criticality of the equipment affected; updates to the EAMS Maximo work order shall be posted within forty-eight (48) hours of work completion.

5) Corrective Work Orders – All corrective and repair work identified by the Contractor, Airline, or Aviation Authority staff shall cause a corrective

work order to be created in EAMS Maximo. In some cases Aviation Authority staff with access to EAMS Maximo may create these work orders directly. These work orders shall be completed within a reasonable time frame based on the priority of work and criticality of the equipment affected; updates to the EAMS Maximo work order shall be posted within forty-eight (48) hours of work completion. Cost tracking and billing information shall be assigned to work orders based on the type of work being requested or performed (e.g. normal maintenance and repair, repair due to third-party causes, repair due to misuse, vandalism, etc.)

6) Work Order Scheduling/Assignment – All EAMS Maximo work orders shall have a target finish date assigned as determined by the PM schedule or the work priority. Each work order shall be scheduled based on available resources, work backlog and work priority and the scheduled date entered on the EAMS Maximo work order with the assigned personnel. The Contractor shall utilize the EAMS Maximo System for resource leveling functions to include scheduling of PM and repair work orders based on availability of manpower, normal and abnormal (holiday, weekend, vacation, emergency) work schedules, equipment, normal operating and normal non-operating times.

7) Work Order Completion – All EAMS Maximo work orders shall be marked with a status of Complete in EAMS Maximo within the identified time frame based on the type of work. The following data shall be entered on work order completion as a minimum:

   a) Labor hours (including specific personnel, rates, hours worked, and date, time of work initiation and completion.)

   b) Parts usage from Aviation Authority or the Bench Stock supplied materials.

   c) Failure report problem, cause and remedy if corrective/repair activity.

   d) Meter readings (not required for bag jams).

   e) Downtime including downtime start, duration, end, and reason.

   f) Follow-up work required if applicable.

   g) Work log including technician comments and notes.

8) Work Close-Out – All completed EAMS Maximo work orders must be closed periodically after all relevant data has been entered. Under no circumstances will completed work with no further activity remain unclosed for more than fifteen (15) days.

9) Asset data – All Aviation Authority assets covered by this Contract shall be accurately tracked in EAMS Maximo. As new assets are installed, new records must be created in EAMS Maximo to reflect the new asset within forty-eight (48) hours of asset installation or receipt of new asset data from the Aviation Authority. As assets are removed, old asset data must be inactivated in EAMS Maximo within forty-eight (48) hours of asset removal. Must maintain Aviation Authority's current methodology for asset numbering**.** Asset data shall include, but not be limited to:

   a) Asset details – Asset name, description, location, serial number, install date, tag number, vendor, manufacturer, purchase replacement cost, expected life, etc.

   b) Specifications – Nameplate data such as type, size, material, capacity, etc.

   c) Spare Parts – Inventory spare parts used to maintain the asset, including manufacturer information and quantity required.

   d) Safety – Special safety requirements and SDS information.

   e) Warranty – Warranty contracts terms, and expiration date.

   f) PM schedules/job plan – Based on manufacturers' recommendations.

10) Meter and Condition Data – The Contractor shall update meter data to reflect current meter readings for mileage, run-time, or other appropriate measure of usage and condition on a monthly basis as a minimum; these values may be used in formulating PM, PdM, schedules for asset inspection and maintenance. This data shall be used to compare and trend data from similar equipment types.

11) Inventory Data – All inventory used in association with this Contract, shall be recorded in EAMS Maximo: where the materials are stored, the value of inventory cost, quantity on-hand and re-stock requirements. The Contractor must maintain Aviation Authority's current methodology for item numbering.

12) In addition, the Contractor shall provide recommendations with regard to additions, deletions, or changes in the quantities or specific items to be stocked by the Aviation Authority based on the Contractor's experience, equipment condition, historical parts usage, and expected parts usage.

13) The Contractor shall provide reports as needed to meet Contract performance guidelines.

14) The Contractor shall perform any additional duties on an as required basis where such duties are required by the AAR.

4.37 Supervisors

a. The primary responsibility of the Supervisor is to ensure the safety of the public, employees, facilities, and equipment while operating and supervising maintenance and operations of all equipment and procedures covered in this specification.

b. The Contractor shall provide Supervisors to sufficiently cover operations twenty-four (24) hours a day, seven (7) days a week. The Supervisors shall be fully responsible for overseeing the operation and all repair and maintenance actions that occur during their shift(s). The Contractor may use Technicians on a temporary basis to fill a Supervisor position vacancy. All temporarily assigned Supervisors must have full supervisory power.

c. The Supervisors' responsibilities include safety of the operation, providing direct oversight of the Contractor's maintenance/repair and BHS operations personnel including but not limited to, the performance and control of the operation, and the scheduling and coordination of maintenance and repair services. The Supervisor shall supervise Contract related tasks and projects as assigned by the Site Manager or Assistant Managers, and shall provide technical support and coordination for non-routine repairs and/or replacements.

d. The Supervisor shall supervise subcontractors in performing work. The Supervisor's duties and responsibilities shall include but not be limited to the following:

1) Provide coordination and oversight of work orders and concerns/problems.

2) Receive and assign personnel to service calls, take immediate action to resolve emergency situations or breakdowns, and oversee the PM, PdM programs.

3) Oversee the operation and maintenance requirements of the assigned shifts including ensuring that all such services are accomplished in a safe, effective and efficient manner.

4) Coordinate the maintenance effort from 1st shift, to 2nd shift, to 3rd shift and then back to 1st shift. Shall record and coordinate events for follow up to be completed from earlier shifts or to be left for later shift completion.

5) Operate elements of the systems in accordance with prescribed procedures and performance limitations per manufacturer's specifications.

6) Receive and respond to any maintenance requests from the Aviation Authority and advise management of actions taken and any unresolved problems.

7) Comply with and enforce the Aviation Authority and Contractor's policies and procedures as outlined in applicable manuals and industry standard safety guidelines.

8) Implement those elements of the PM, PdM programs that are assigned to the shift using EAMS Maximo.

9) Retrieve asset information from EAMS Maximo such as equipment specific information (e.g. equipment components/parts such as motor or belting type/part number), current PM, PdM or CM status including the percent of total outstanding scheduled work orders for PM, PdM and CM, the date, description of problem/remedy, and technician's name(s) regarding any previous work performed on a specific piece of equipment.

10) Issue directions, instructions, tasking and assignments to assigned shift personnel as required.

11) Provide quality control/quality assurance on CM, PM, PdM, and any other maintenance actions performed by Technicians.

12) Ensure that the required operating logs and maintenance forms are completed accurately and clearly and submitted to management in a timely manner.

13) Control, maintain accountability, and oversee the issuance, and use of spare parts, tools, and equipment.

14) Ensure proper troubleshooting techniques are utilized per OEM specifications and industry standards.

15) Maintain a safe, accident free, workplace and exercise common sense and good judgment, when performing duties.

16) Respond to alarms of any nature, determine which Contractor or subcontractor to inform if fault not due to equipment covered under this Contract, provide assistance where required, and identify nuisance alarms for adequate follow up.

17) Conduct equipment inspections and perform/coordinate repairs and/or appropriate action as necessary.

18) Determine historical parts usage, expected parts usage and make

parts stock recommendations.

19) Communicate to the AAR and to the appropriate Aviation Authority personnel regarding equipment condition, return to service during any service interruptions, or planned maintenance that could disrupt air carrier operations.

20) During system operational hours shall have a frequent presence in the BHS Coordination Center to coordinate with Aviation Authority staff and provide leadership communication and direction to staff.

21) Notify BHS Coordination Center when equipment is taken out of service or returned to service. Shall coordinate with Aviation Authority staff to determine official “out of service” and “return to service” times for real time events that occur on the Supervisor’s shift.

22) Respond immediately to emergency situations and contact immediately: (i) Aviation Authority’s Communication Center (911); (ii) BHS Control Center; (iii) Management; and (iv) the AAR.

23) Review operational reports to determine repetitive jams, missing photo eye reports, unknown bags, ATR read rates and other reported instances as available from the operational systems covered by this Specification. Ensure necessary corrective procedures are implemented to avoid continued failures.

24) Perform additional duties as required.

4.38 Technicians

The highest priority of technicians is safety of the public, employees, facilities, and equipment while carrying out the responsibilities of their specified position. The descriptions below identify the experience, skills, knowledge, and abilities that Contractor’s technical staff shall have to successfully perform the responsibilities of this Contract:

a. Industrial Mechanical - Experience in troubleshooting and repairing industrial mechanical systems, including direct experience performing general mechanical repairs such as replacing bearings, gearboxes, drive belts, sheaves, chains, sprockets, pulleys and shafts, conveyor belts and belt lacings, etc. Shall be familiar with the use of hand and power tools and be skilled in light metal working, fabrication and the use of cutting tools.

b. Technicians performing welding activities shall have experience in the field with the required certifications. Certifications and credentials shall be submitted to the AAR.

c. Industrial Electrical – Experience in the direct troubleshooting of electrical and electronic control systems, including a PLC environment. Shall be capable of

reading and interpreting electrical schematics, one line diagrams, blue prints, and symbols, PLC and VFD programming, troubleshooting and repair. Shall be capable of troubleshooting, repairing, and replacing AC and DC motors including single and poly phase motors, as well as associated motor controls, brakes, and clutches.

1) The Contractor shall have on staff qualified industrial certified electrician(s) of a minimum “Journeyman” status with industrial electrical motor controls experience and electrical automation experience. Prior experience with baggage handling systems, is preferred. Shall provide electrical guidance, maintenance and oversight of all mechanical/electrical systems of Baggage Handling equipment covered under this Contract, assist technicians with challenging electrical repairs, troubleshoot electrical issues, assist with PM development, coordination, implementation and auditing of all mechanical and electrical systems covered under this Contract, perform PdM, CM and PM, participate and lead recommendation and procurement of electrical and mechanical spare parts, cooperate, coordinate with and assist the Aviation Authority concerning electrical issues on the BHS located at OIA.

d. Shall be skilled cross-crafted electrical and mechanical technicians with experience in an airport environment of similar size and scope as OIA.

e. Shall display mechanical and electrical aptitude and strong skills and experience with industrial control devices.

f. Responsibilities include but are not limited to maintenance and repair of all electrical, mechanical, motors and control devices, equipment and components associated with the baggage handling system such as controls, PLCs, and scanner systems etc.

g. Shall also be responsible for the daily operation of the baggage handling systems as well as to operate, maintain, troubleshoot and repair the mechanical, electrical, belting and control systems related to the baggage handling systems.

h. Technicians shall be highly skilled and capable of performing major BHS equipment work including but not limited to, installation and removal, refurbishment, and major repairs.

i. Responsibilities also include:

1) Monitor daily operations and statistics of the BHS to determine problem areas.

2) Troubleshoot and repair all mechanical, electrical, and control components of the BHS.

3) Analyze all data from the baggage handling system to determine problems, trends, and issues which may lead to baggage processing problems.

4) Conduct preventative, predictive and corrective maintenance on various styles/manufacturers BHS.

5) Additional duties as required.

j. Scale Calibration Technician – The Contractor shall have on staff, onsite seven (7) days per week, Technician(s) certified by the state to calibrate scales as well as repair and return to service all baggage scales. The Contractor shall perform calibration and certification on a bi-annual basis to coincide with the annual and semi-annual PM. The bi-annual adjustment and calibration documentation shall be submitted to the AAR. Scales require appropriate stickers and documentation to meet state or county approval standards indicating required calibration and certification. Contractor shall be able to provide the AAR certification documentation for each individual scale calibrated.

k. Thermography Specialist: The Contractor shall have certified thermography technicians. This requires a Level 2 or 3 certified thermographer who will utilize infrared (IR) cameras as a part of the PdM to perform duties as described in this Specification. The thermographer shall have experience in the field with the required certifications with preferred experience in the aviation field.

l. Perform additional duties as required.

4.39 Parts/Inventory Control Supervisor

The duties and responsibilities shall include but are not limited to the following:

a. Oversee inventory accuracy and ensure labor and materials are correctly entered into EAMS Maximo system. Ensure that parts are available for repair.

b. Supervise the Parts/Inventory Control staff and oversee the Parts and Inventory process.

c. Be the primary contact for parts acquisitions, delivery and shipment to site, ensure adequate parts are in stock or readily available, quantities are sufficient and the proper parts are available for all applications.

d. Establish and implement a materials and parts usage procedure from work orders to update inventory.

e. Ensure that all the major equipment and systems listed, and identified in the EAMS Maximo database have the correct OEM replacement parts and

approved alternate parts listed. Example: Specific conveyor line and loading bridge would have a listing in EAMS Maximo for its replacement motor, drive belt, chain, conveyor belting, etc.

f. Provide periodic reviews of the Aviation Authority's parts inventory and make recommendations to the Aviation Authority regarding: (i) changes in the quantities of items stocked; (ii) additions or deletions of inventory based on parts usage history; (iii) installed systems, equipment; (iv) part lead times; and (v) research and recommend changes in parts models, brands, or manufacturers when such change is to improve safety, quality, part longevity, and/or to reduce repair efforts, downtime and/or costs to the Aviation Authority.

g. Perform additional duties as required.

4.40 Parts /Inventory Control Staff

The duties and responsibilities shall include but are not limited to the following:

a. Function must be covered twenty-four (24) hours per day, seven (7) days per week. The primary work tasks for this position include but are not limited to:

b. Record and update inventory usage of supplies and parts through EAMS Maximo.

c. Ensure that the EAMS Maximo work order information and reports contain the correct and most current pricing and parts descriptions.

d. Manage spare parts inventory. Ensure all parts are identified and readily available in secure locations.

h. Housekeeping of parts storage rooms and the disposal of used parts as pre-approved by the AAR.

i. Ensure and coordinate the timely reconditioning of those items warranting refurbishment and reconditioning versus replacement as approved by the AAR.

j. Create, compile and submit proper documentation for monthly invoice and billing to the AAR.

k. Conduct, document and complete a full inventory of all spare parts on a minimum quarterly basis.

l. Perform additional duties as required.

4.41 Baggage Operation Staff

Responsible for day to day operation of the BHS system. This requires safety conscious individuals who provide outstanding customer service, are motivated and

could receive training for career advancement. Responsibilities include but are not limited to:

a. Perform a variety of tasks including recode stations, clearing bag jams, bag portering and assisting Technicians with maintenance and cleaning of the BHS system and surrounding areas. Must successfully utilize a two-way radio.

b. The Contractor shall provide additional persons for contingency baggage movement in the event of system or component failure.

c. BHS Operation Staff may be assigned other tasks in their work areas but must be ready and available at a moment's notice to mobilize for the movement of bags at ticket counters or within the BHS.

d. Additional duties as assigned and approved by the AAR.

4.42 Contractor Provided and Required Training

a. Contractor's conducted training shall be performed by an individual designated through their training record as a trainer.

b. No training will be considered complete until a training attendance roster which includes the instructor's printed name and signature, date of training, length of training hours, subject matter, and printed names and signatures of employees that received the training is on file at the Contractor's office. The Aviation Authority requires that a copy of the training roster and record be presented.

c. The Contractor shall provide all necessary initial and recurrent training of its personnel/employees who perform operations, maintenance, and/or repair services pursuant to this Contract. Before assignment to perform services under this Contract, all personnel shall have successfully completed the appropriate training enabling them to perform the work. Aviation Authority personnel shall have the right to participate in such training. Training shall be conducted in compliance with all requirements of the Aviation Authority and/or other Governmental Agencies and shall not interfere with the normal operation of the airport. Contractor shall maintain complete and accurate training programs and records of completed training.

d. The Contractor shall provide at least two (2) hours of safety training, or more as applicable, or in accordance with governmental regulations to each employee per quarter. This training can be in person or computer web based in accordance with applicable regulations and must be documented in each employee's training records. Training is not limited to but shall cover, electrical, Lock Out, Tag Out (LOTO), ladder, working at heights, fire, vehicle, support equipment (e.g. fork lifts, scissor lifts, etc.), working around industrial equipment, general safety, and any and all other pertinent safety topics.

e. The Contractor shall provide all Technicians and all Supervisors a minimum of two (2) hours on-site training per month covering mechanical, electrical,

diagnostic, and PM and repair of the equipment and systems covered in this Contract. At least once per year, the Contractor shall provide all Technicians and all Supervisors a minimum of one (1) eight (8) hour training session where the training shall be conducted by one (1) of the manufacturers of the equipment and systems covered in this Contract. Manufacturer provided training may be conducted on or off-site. A Contractor's designated employee trainer who receives the manufacturer conducted training and certification as a trainer shall train others who were not able to attend the manufacturers' training sessions.

f. The Contractor shall ensure that all Supervisors and all Technicians receive a minimum of eight (8) hours combination of hands-on and classroom training by each of the following companies: (i) Jarvis B. Webb Corporation, Siemens Corporation, G&T, for diagnosis and repair of respective baggage processing systems within ninety (90) days of the commencement date of the contract. Only those Contractor's employees who receive this training and are certified by the manufacturer as a trainer shall train others who were not able to attend the manufacturers' training session.

g. The Aviation Authority will cover the hourly wage of the training attendees for the reimbursable positions. Training hours for non-reimbursable positions shall be included in the Management fee. All other costs associated with the training and the training materials shall be included in the management fee.

4.43 Repair Parts Bench Stock

a. The Aviation Authority currently has a bench stock (Exhibit "E") . The incoming Contractor will conduct a joint audit of the bench stock with Aviation Authority personnel and confirm the correct quantities are represented in EAMS Maximo. The Contractor must have the ability to furnish all parts and materials necessary to perform repairs and routine services. If the current bench stock is determined to be insufficient, the Contractor shall seek authorization and pre-approval from Aviation Authority for consideration to increase bench stock. The Aviation Authority will reimburse the Contractor for those repair parts purchased, at the Contractor's actual cost, which is defined as the actual invoice price submitted to the Contractor by the subcontractors or by parts vendors for payment from the Contractor. The parts vendors' invoice prices shall reflect all trades and cash discounts including core charge refunds as well as volume and special incentive discounts or rebates that apply to any purchases by the Contractor.

b. As parts are pulled from bench stock, the Contractor is responsible for ordering and maintaining necessary stock on hand. It is recommended that the Contractor maintain a "minimum and maximum" number for each part and order additional parts as the minimum number (minimum that must be in stock at all times) is approached.

4.44 Reimbursement for Parts

a. The Aviation Authority will reimburse the Contractor for parts. Reimbursement will be done in conjunction with the monthly invoice. Original parts purchased invoices must be submitted monthly as parts are purchased to replenish bench stock. Along with the original parts invoice the Contractor must submit proof that purchased part was input into EAMS Maximo inventory.

b. No less than annually, the Contractor must seek competitive quotes from a minimum of three (3) sources on any single item which may exceed One Thousand Dollars ($1,000.00) in cost or as directed by the AAR. This does not apply to items clearly identified and recorded as sole source and not available from alternate vendors. The competitive quotes must remain on file for Aviation Authority inspection upon request. The Contractor shall obtain written agreements with major and continuing parts suppliers, exclusive of emergency purchases, stating and verifying pricing structure under which the Contractor shall purchase parts and materials. The Contractor shall provide the AAR with copies of such written agreements and updates as required. The Contractor shall fully assist the AAR in his efforts to verify the quality and cost of parts and materials.

c. All replacement parts shall be new, Original Equipment Manufacturer (OEM) type. Repaired and rebuilt parts shall be allowed, with approval of the AAR. The repaired or rebuilt part must be equivalent or superior to new OEM parts.

d. If new or remanufactured OEM parts are no longer available, or in instances where the AAR approves, the Contractor may have old parts repaired or rebuilt. Parts that require rebuild by personnel other than Contractor's personnel will have rebuild costs reimbursed in the monthly parts reimbursement allocation when original rebuild invoice is presented along with proof of part entering EAMS Maximo. Rebuilt parts must be distinguished in EAMS Maximo inventory with an "R" prior to the part number. Salvage, additional, or used parts must be distinguished in EAMS Maximo inventory with a "U" after the part number and at a "$0" value.

e. Parts and items the Contractor chooses to obtain in the open market shall be the same make, model, and part number, etc. as what was originally provided and/or installed by the equipment or system manufacturer and/or installer. Any equivalent or substitute parts the Contractor desires to provide must be approved by the AAR in advance.

f. Any parts ordered by the Contractor and approved for reimbursement as per Contract provisions shall be maintained in EAMS Maximo as an available spare part until utilized for the maintenance or repair of airport BHS systems. Once used, the spare part must be traceable through EAMS Maximo to the allocated asset.

g. If a discount, rebate, core charge, or other sales initiative is made available to the Contractor after the Aviation Authority has received an invoice for a part or materials, the Contractor shall reflect the monetary value of such as a credit to the Aviation Authority on the Contractor's next invoice to the Aviation Authority.

h. Inventory control of the bench stock shall be the responsibility of the Contractor. The Contractor must store spare parts and maintain a clean and organized setting within the allocated spare parts storage space.

i. A monthly inventory of available spare parts shall be conducted and include the following information as a minimum for each spare part:

1) Part Number.
2) Manufacturer's Number.
3) Part Name/Description.
4) Location (Bin Number).
5) Quantity on Hand.
6) Unit Price.

j. Lost parts are the responsibility of the Contractor. The Contractor must replenish any lost bench stock or reimburse the Aviation Authority in the monthly invoice after the discrepancy is identified. Should an inventory indicate there are more parts on hand than reflected in EAMS Maximo; Maximo will be adjusted to reflect the actual number of parts on hand.

k. The Contractor shall hold a valid Florida Sales Tax Resale Certificate. The Contractor shall procure parts and negotiate prices, and shall furnish copies of written vendor agreements and provide the Aviation Authority access to vendors' invoices and receipt records, to ensure the best possible price and quality parts are obtained. The Aviation Authority will not pay or reimburse the Contractor for sales tax, pick up fee or any other miscellaneous fee associated with the purchase or return of parts.

l. The Contractor shall retain any damaged, broken or worn parts when such part is chargeable or billable to the Aviation Authority, or when such part is the subject of a warranty claim for at least thirty (30) calendar days after completion of the replacement work, in a designated holding area for inspection by the AAR. Final disposal of these parts shall be coordinated with the AAR.

m. When disputes arise concerning suitability of parts or items selected for use in replacement work that is already accomplished, the Contractor shall at no additional cost to the Aviation Authority remove, and/or replace, such parts or items until compliance with the Aviation Authority's requirements are satisfied.

n. All parts or items installed on the Aviation Authority's systems or equipment become the property of the Aviation Authority once installed, free of any encumbrances or liens.

o. The Contractor shall assume responsibility for the safeguarding of its inventory and shall carry sufficient insurance to protect against loss or damage.

p. Currently the Aviation Authority utilizes a first in, first out (FIFO) method of tracking parts in EAMS Maximo. This tracking method is subject to change at the Aviation Authority's discretion.

4.45 Additional Repair Parts, Inventory And Storage

a. Separate from the Aviation Authority's bench stock, the Aviation Authority maintains an inventory of replacement and repair parts that will be available for the Contractor's use in the maintenance and repair of the BHS equipment covered by this Contract. This available stock is stored in the Aviation Authority's Material Control Warehouse. This inventory consists of those parts the Aviation Authority believes are critical, has high usage, and/or has long-lead times and as a result is necessary to store on-site to ensure expedient repairs. The Aviation Authority does not warrant that all of the critical and/or long-lead parts are stocked in Material Control Warehouse or that the Aviation Authority will continue to maintain an inventory of replacement and repair parts in this location. It is the Contractor's responsibility to provide all of the replacement and repair parts and to determine from which source, Aviation Authority's warehouse or elsewhere, to procure the parts. The repair parts that the Aviation Authority stocks in its warehouse are as described in Exhibit "4.3". The Aviation Authority's inventory is subject to change at the Aviation Authority's discretion. A revised inventory list will be provided when the Aviation Authority's inventory is changed. The Contractor must use its best judgment and experience to ensure that all parts necessary for the efficient operation of the BHS equipment is on hand. Lack of parts on hand will not be used as a means for avoiding deductions for downtime or system failures.

b. In the event that replacement work requires a part or item that is not a stocked part or item in the bench stock or the Material Control inventory, it is required that the Contractor use the most expedient method to obtain the part, and regardless of what shipping service company the Contractor uses, the delivery time should not exceed the delivery time of UPS Express freight or FedEx Express Freight. The Contractor must keep in mind that the deduction costs while awaiting parts will continue to escalate; therefore it is in the Contractor's best interest to obtain needed parts in the most expeditious manner. The AAR reserves the right to require the Contractor to use overnight or next day delivery at the Contractor's cost.

4.46 Withdrawing Parts From Aviation Authority Inventory

a. When the Contractor withdraws or removes any parts from the Aviation Authority's Material Control inventory, the Contractor may be required to complete the Aviation Authority's electronic requisition through the Aviation Authority's financial system, Oracle, by the end of the next business day. If required, the Aviation Authority will provide the Contractor's personnel access to Oracle in accordance with the Aviation Authority's procedures. The Contractor's personnel shall comply with all Authority policy and procedures

required for access to Oracle and complete the Aviation Authority's Oracle training program.

b. The Aviation Authority's Material Control warehouse is staffed from 07:30 to 16:00, subject to change, Monday through Friday except for Aviation Authority recognized holidays. During this time, the Aviation Authority will provide assistance to the Contractors staff. If the Contractor needs to retrieve or acquire parts from the Aviation Authority's Material Control inventory outside of the staffed times, the Aviation Authority will provide an escort for the Contractor. The Contractor shall notify operations or the control plant by radio or phone that access to the warehouse is needed. In this event, the Aviation Authority will provide an escort as quickly as possible.

c. When the Contractor uses an Aviation Authority Material Control stocked part or item, the Aviation Authority will handle replenishment of stock for the used part at the Aviation Authority's discretion.

d. Aviation Authority provided parts or items, shall only be used on the Aviation Authority's equipment and under no circumstance shall any Aviation Authority provided parts or items be removed from the airport property.

4.47 Material And Part Disposal

a. Contractor shall retain all parts for a minimum period of thirty (30) days when the part is removed from operation. Final disposal of these parts shall be coordinated with the AAR.

b. Contractor shall comply with all applicable federal, state and local laws, regulations, administrative rulings, orders, ordinances, and requirements, and Aviation Authority Sustainability Management Plan, pertaining to the protection of the environment, including but not limited to those regulating the use, storage, handling and disposal of materials, and other hazardous waste materials. Disposal records shall be provided to the Aviation Authority.

4.48 Tools, Equipment, and Supplies

a. The Contractor shall furnish, at no additional cost to the Aviation Authority, all tools, equipment, vehicles, miscellaneous shop supplies, services, training, and technical support necessary to properly perform the routine services as specified herein. Miscellaneous shop supplies shall include, but not be limited to cleaning supplies, office supplies printer ink/toner, paper, computer backup media (CDs, tape, digital media, etc.), safety equipment, common nuts, bolts, screws, cotter pins, cable ties and other ordinary hardware; lubricants (e.g. grease, gear oil, hydraulic oil, etc.), rags, cleaners, degreasers, solvents, flashlight batteries, and any other common and miscellaneous shop supplies necessary to perform the services specified herein.

b. The Contractor shall maintain on-site a complete set of operating and maintenance instructions for each type, brand and model of equipment, tool

and item of supply used in the performance of the work required hereunder and shall provide the Aviation Authority upon request a photocopy of all such operating and maintenance instructions. The Contractor shall ensure that all tools, equipment and supplies used by its employees shall be used in accordance with the manufacturer's instructions and all applicable safety practices. All tools, equipment and supplies used by the Contractor in the performance of these services shall meet all applicable safety requirements. All electrical equipment shall operate at full rated performance levels using existing building electrical circuits. It shall be the responsibility of the Contractor to prevent the operation or attempted operation of electrical equipment or combinations of equipment which require power exceeding the capacity of existing electrical circuits.

c. The Contractor shall develop and implement procedures and controls to ensure that all tools, equipment and supplies remain in clean and proper working condition at all times.

d. All equipment and tools shall have non-marking wheels, adequate bumpers and guards, to prevent marking or scratching of fixtures, furnishings or building surfaces.

4.49 Performance Measurement And Tracking

a. Performance measuring and tracking of the Baggage Handling System (BHS) will be applied as follows: (i) to each of the systems located at the landside terminal and the BHS at Airside 1 and 4 and associated carousels and baggage claims. The landside BHS consists of six (6) independent systems "Areas" which include the EDS "Pods" as described in Exhibit "F". The Airside BHS is described in Exhibits "G" and "H".

b. The Remote Screening Facility (Exhibit "I") is located on airport property approximately half (1/2) mile from the closest Airside Terminal. Passenger baggage in this facility is trucked from remote locations (terminals, hotels, cruise lines, etc.) and is processed through TSA screening. The size of the RSF is comparable to a single pod in the main terminal. The RSF consists of four (4) in-line screening machines and a CBRA with Explosive Trace Detection (ETD) tables. Cleared baggage is sorted by two (2) independent feed lines with Automatic Tag Readers (ATRs) which feed three (3) slope plate baggage carousels. Air carrier staff claims the baggage from the carousels. Contractor shall be responsible for the same maintenance, bag jam clearance and cleaning actions in the RSF as are listed in the specifications for other areas of the baggage handling system (BHS).

c. Each Area covered in this specification will be measured collectively to determine overall performance of the equipment.

d. Performance measurement and deductions shall apply to all systems and equipment covered under this Contract. The actual dollar amount of a deduction is dependent on overall downtime in the calendar month. The

actual downtime procedures and deduction amounts are described in Section 4.50 of this Specification.

e. Compensation Adjustment - In addition to performance measurement deductions, the Contractor may be subject to additional deductions for Contractor performance and/or response times as detailed herein. Deductions will not be taken for any equipment failure where such failure is due to elements outside of the Contractor's control as described in Section 4.50, Performance Measurements Exceptions. Performance Measurement Exceptions are determined by the AAR in his/her sole discretion.

f. The Contractor shall make every effort to provide the highest system and equipment performance, reliability and availability possible.

g. In addition to deductions that may be taken for collective system downtime, the following performance measurements will also be used by the AAR to evaluate the Contractor's performance regarding this Contract.

1) Maintain the BHS in such a manner as to achieve a monthly BHS baggage tracking and Automated Tag Reader (ATR) read rate accuracy of 90% within the baggage screening matrix. The tracking of this performance measurement shall be done by the Aviation Authority reporting and tracking software.

2) Complete 100% of all scheduled PM work within the calendar month and close out all associated work orders. The tracking of this performance measurement shall be done by the EAMS Maximo.

3) Complete 100% of all scheduled, non-critical CM (repair) work within fifteen (15) days of identification and close out the work order. Exceptions may be considered based on extenuating circumstances and approval will be at the sole discretion of the AAR. The tracking of this performance measurement shall be done by EAMS Maximo.

4) For each month during the term of the Contract that any specified measurable performance is below the Contractual percentage specified herein, the Contractor shall at its expense promptly undertake reviews of its staffing, operations, maintenance methods, PM/PdM/CM schedules, procedures and training programs, and propose a plan of action, acceptable to the AAR, to correct the situation.

5) Deductions may be taken for failure to meet PM quality specifications on a monthly basis.

h. The Contractor is responsible, and performance deductions may be taken, for those downtime and failures that result from faulty installation or workmanship by the Contractor, the original system installer, and/or previous maintenance or repair Contractor, including but not limited to, loose electrical connections in panels, switches and motors, lose or missing wire nuts, crimps, skinned or

chaffed wires, PLC and/or computer programming errors, equipment alignment or installation issues, or previously made incorrect adjustments or settings.

i. The Contractor is expected to inspect and verify all previous work and conditions, to notify the AAR of any pre-existing problems or issues, and to make necessary corrections during the first ninety (90) days of the Contract during which applicable performance deductions will be phased in.

4.50 Performance Measurement Exceptions

a. Deductions for Service Disruptions/Failures:

1) Non-Operational time will not be counted in the event that a conveyor section fails to operate and the Contractor's personnel manually move the baggage over or around that section so that there is no impact to airline operations.

Moving baggage in the public areas from one ticket counter to another is considered impacting airline operations and will result in appropriate deductions. In order to be considered as "no impact to airline operations", the corrective action must be completely invisible to the public, no bags miss flights, no flights were delayed, and the Aviation Authority and airline personnel are not impacted; or

2) Non-Operational time will not be counted for failures caused by actions of persons not employed by the Contractor (air carriers, ground handlers, federal agencies, etc.), or due to circumstances beyond the control of the Contractor. Examples are: airline or TSA staffing issues, one or more EDS Machines in a Pod is inoperative causing a backup on the conveyors, etc. when such action is evident and reported by the Contractor to the Baggage Coordination Center or the AAR at the time of the incident or event, and for which the Contractor is not required to protect against; or

3) Non-Operational time will not be counted for a scheduled or planned Maintenance activity pre-approved by the AAR and documented in advance, such as the AAR pre-approving the Contractor to make a major repair that will take longer than the maintenance time allotted. (Repairs that can't be completed after system shut down but before system start-up due to the complexity of repair.) The Contractor shall not request approval for additional time to complete repairs due to a lack of staffing or ability. Approval is at the discretion of the AAR; or

4) Non-Operational time will not be counted for failures caused by loss of primary power or communications for which the Contractor is not

responsible to protect against.

4.51 Restoration Of Service In A Timely Manner

a. In the event that the Contractor's on-site personnel do not, or cannot, restore service in a timely manner, timely being at the discretion of the AAR, the AAR has the right to require the Contractor to utilize outside technical support or manufacturer's support, at Contractor cost, when such support service is available.

b. If "remote" or offsite support by phone, VPN - modem connection, etc. is required, as determined at the discretion of the AAR, it shall begin within one (1) hour of notification. The Contractor shall have arrangements in place to support its requirement, such as manufacturers' support contact names, phone numbers, support agreements, VPN access, passwords, etc., prior to the need arising.

c. In the event "on-site" technical assistance or support is required (Manufacturer needs to send support personnel to remedy a problem), such service or support shall be on-site commencing repairs within twelve (12) hours of notification during normal business hours and within twenty-four (24) hours of notification during non-business hours and/or Aviation Authority approved holidays.

d. The Aviation Authority shall not reimburse the Contractor for any additional costs it may incur as a result of the requirements described in Section 4.51 herein. The Contractor is expected to have personnel with sufficient skill levels and knowledge so that outside non-Contractor support will not be needed.

e. Should the AAR determine the Contractor is repeatedly relying on manufacturer's support on equipment, the AAR has the right to require the Contractor to provide its personnel with additional training from a manufacturer approved training program or a training program that has been approved by the AAR, and/or shall provide qualified personnel with the skill levels and knowledge necessary to perform the diagnostic and repair work in-house to make repairs in a timely manner.

f. All training conducted by the manufacturer shall be conducted or recorded in accordance with the following: (i) manufacturer provided training may be conducted on or off-site; (ii) a training attendance roster shall be maintained by Contractor which indicates the date of training, subject matter, printed names and signatures of employees that received the training and the name of the person conducting the training; (iii) the training record and roster shall be made available to the AAR upon request; (iv) persons designated as a trainer and train the trainer shall have documentation from the manufacturer indicating their designation as a trainer; (v) Contractor's designated employee, the trainer who receives manufacturer conducted training shall then train others in the Contractor's organization who were not able to attend the manufacturers' training session.

g. With AAR approval, the Contractor may utilize the Aviation Authority's computer and IT staff to assist in the diagnosis and repair of BHS related computer or IT equipment or systems. In this event, the Contractor shall reimburse the Aviation Authority for this service at the hourly rate of Four Hundred-Fifty Dollars ($450.00) per hour. The Aviation Authority may, but is not obligated to, provide this support; however, support staff may not be available at all times. It is the Contractor's responsibility to have its own staff on-site with the computer and IT technical skills necessary to maintain, diagnose, and repair the BHS. The hourly payment requirement can be waived by the AAR on a case-by-case basis.

4.52 Compensation and Adjustment

a. Performance measurement and tracking shall be implemented. There shall be no performance deduction for the first three (3) full months of the Contract. The fourth full calendar month of the Contract and all subsequent months thereafter shall result in normal deduction application. It is important for the Contractor to be aware that the AAR will implement and utilize the deduction schedule as identified in this Contract throughout the Contract period.

b. The Contractor is provided with this three (3) months grace period to allow for PM, inspections, adjustments, and corrections of any pre-existing deficiencies that may cause system non-operational time and/or impact system performance.

4.53 Deductions Based On Equipment Non-Operational Time

a. Service calls and out of service reports are used as the base to calculate equipment non-operational periods and system downtime.

b. Non-operational periods, individual repair times, and downtime associated will be tracked, recorded and calculated by the Aviation Authority's BHS Control Room on a daily basis. A daily report will be provided to the designated Contractor's Representative for review and acknowledgement no later than twenty four (24) hours after recording and calculation. The Contractor's Representative shall verify all recorded information, sign, date, and return the report to the Aviation Authority's Control Room within twenty four (24) hours. Any discrepancies or disagreements shall be immediately discussed with the BHS Control Room. Discrepancies or disagreements shall be mutually resolved and corrections recorded as required on a daily basis. The Contractor's Representative acknowledgment of all identified non-operational periods, individual repair times, and downtime shall be as binding as if discussed, verified and acknowledged by the Contractor.

c. AT NO TIME WILL SAFE WORK PRACTICES BE COMPROMISED OR NOT FOLLOWED!

d. Deductions will be applied to equipment non-operational periods in

accordance with the following plan:

1) A deduction for failure to achieve the required performance levels, as specified within this document, shall be assessed as follows:

The Performance Requirements shall be measured in terms of "Availability" of the BHS equipment. The time duration **(measured in hours)** of baggage jams, maintenance outages, "Tracking Accuracy", maintenance outages all of which are defined below.

1) Availability (A):

In the following, Availability "A" Scheduled Operational Time ("ST") minus Repair Time ("RT") divided by Scheduled Operation Time ("ST").

$$\frac{(ST-RT)}{ST} = A$$

2) Example: The Scheduled Operational Time for the month of June is 2,226,960, the Repair Time is 415.

$$\frac{(2{,}226{,}960 - 415)}{2{,}226{,}545} * 100 = 99.981\%$$

The performance per asset for the month of June will be 99.981%

2) The Availability will be measured and reported daily. For the purpose of deductions it will be measured on a calendar month basis.

4.54 Scheduled Operational Time (ST)

a. Total hours required to operate for air carrier or customer requirements. Operational is defined as fully functioning as designed by the equipment manufacturer. The Scheduled Operational Time is defined as planned time that it is needed for operation.

# of Assets * # of Hours/Day * # of Days/ Month = ST

b. Example: The number of Assets for the month of June is 4,124, the Operational Hours is currently 18 hours (0300 to 2100 hours) and the number of days for the month of June is 30. The Operational Hours for the month of June will be 2,226,960.

4,124 * 18 * 30 = 2,226,960 (Operational hours in June)

4.55 Repair Time (RT)

a. Repair Time is the combined total of all system repair time, system non-operational time, where the contractor has been notified by an Aviation Authority representative that an asset requires repair. A fifteen (15) minute grace period will be granted to the Contractor when repairs start within allotted time and are completed within fifteen (15) minutes after notification. Repair time shall be accumulated for repairs that result in non-operational time greater than fifteen minutes and shall be counted from the time of notification until completion. Repair time shall also be counted for issues reported by the Contractor that result in non-operational time greater than fifteen (15) minutes. Repair time shall also accumulated for all bag jams that exceed Six (6) minutes to clear. Repair time shall be accumulated to a total for the calendar month.

b. Individual Repair Time events are defined as the interval of time from the notification of the Contractor of a required repair until the contract technician has remedied the problem, returned the system to operation and called the Aviation Authority with notification that the asset is back in service. Example: 415 hours in June, of total Repair Time.

c. Individual Repair Time events may be caused by any malfunction of the BHS, any subsystem, component, assembly, or sub assembly, which stops operations beyond six (6) minutes. The following shall not be classified as failures: Malfunctions due to causes outside of the system or equipment such as sabotage, power outage not related to Contractor responsibility, EDS machine downtime etc.

4.56 Bag Jams and Tracking Accuracy

The Contractor shall clear all normal baggage jams within six (6) minutes. A normal baggage jam is a jam that results in the BHS system being restarted without having to disassemble equipment or equipment damage not resulting in mechanical repair or does not involve a failure as defined below. Any delay in clearing normal baggage jams beyond Six (6) minutes shall be identified in Performance Reports and included in the calculation of Repair Time.

4.57 Tracking Accuracy

a. All non-operational time reported to the Contractor by an Aviation Authority's representative is counted towards the accumulated monthly total of repair time, regardless of the time of day or night as long as the system is expected to be operational for the use of our customer air carriers.

b. The Contractor is encouraged to pro-actively find and remedy issues during the operational day. A fifteen (15) minute grace period will be granted per asset per day for any discrepancies identified by the Contractor's personnel. Any non-operational time greater than fifteen minutes during the operational day proactively initiated by a Contractor representative shall be counted as repair time for the monthly Repair Time (RT) total. All Repair Time is accumulated into a grand total for the calendar month.

NOTE: If the BHS system has stopped due to mechanical issues (including overloads) the grace period does not apply.

c. Tracking Accuracy for BHS System - It is defined as the BHS' ability to identify and control the location of baggage from the start point of tracking (at first ATR/scanner) to the correct output decision point and shall be the ratio of miss tracked occurrences to bag volume.

d. The Contractor shall maintain all tracking devices (e.g. shaft encoders, ATRs, etc.) and other related components to achieve continuous tracking accuracy of no less than ninety (90%) percent calculated and reported on a weekly basis, for the total number of bags input into the BHS system (less any loss of bag tracking that can be identified as being the direct result of an EDS machine fault error) These results shall be compared to TSA standards, as amended from time to time, to establish test readiness.

4.58 System Downtime and Applicable Deductions

System downtime and applicable deductions will be recorded and calculated at the end of each month based on the following guidelines:

4.59 Applicable Deductions:

a. 99.9% will always be expected. Deductions will be driven by the second (2^{nd}) and third (3^{rd}) digit following the 99.9**XX.** In the April example, the performance percentage per asset was 99.**81**%. Therefore, the applicable deduction is determined by the **81**.

b. The following scale will be utilized to determine monthly applicable performance deductions:

PERFORMANCE RATE	DEDUCTIONS
99.982+	No Deduction
99.981 - 99.9819	$5,000
99.980 - 99.9809	$10,000
99.979 - 99.9799	$15,000
<99.979	$20,000

c. Because 99.9**81** is below the minimum requirement for no deduction (99.9**82**$^{+}$), the applicable deduction would be determined by the .9**81**. An operational deduction of Five Thousand Dollars ($5,000) would be assessed on the monthly invoice. Had the performance been 99.9**82**, no deduction would have been applicable. Had the performance been 99.9**78** or below, a maximum deduction of Twenty Thousand ($20,000) Dollars would have been applicable.

d. Any two (2) months of 99.978 or below performance (months do not need to

be consecutive) during a rolling twelve (12) month period will require that the Contractor submit a written corrective action plan, to the AAR. Any three (3) combined months of performance of 99.978 or below (months do not need to be consecutive) during a rolling twelve (12) month period may result in the issuance of a Notice to Cure and potential termination of Contract.

e. The amount of a resulting deduction for equipment non-operational time is based upon the amount of time the equipment has been out of service or not performing properly. Deductions shall only apply to equipment/systems that fail to operate as/when needed and/or while in use. This deduction does not apply to equipment/systems that are purposefully removed from service by the Aviation Authority.

f. When equipment downtime is extended because repair parts need to be ordered, the total amount of the deduction may be adjusted at the sole discretion of the AAR based on, the availability of parts, age of the asset, probability of a failure, the expediency of the part shipping/delivery arrangements made by the Contractor, etc. The Contractor has full responsibility to ensure that all parts necessary for the maintenance or repair of the BHS are on hand and available at the immediate time of need.

4.60 Other Deductions and Adjustments

All deductions indicated below are in addition to any other deduction or fine that may be imposed by other agencies or authorities and does not limit any other remedies provided in these Contract documents, including termination. Deductions will be identified through written communication from the AAR.

4.61 Safety/Security Violation

a. The violation of any Aviation Authority Safety and Security policy, including, but not limited to, examples described in this Section may subject the Contractor to a deduction per incident, at the sole discretion of the AAR.

b. Leaving tools, equipment, or materials unattended which may pose a hazard. Leaving substances or materials such as spilled oil, parts, or tools that could pose a slipping, tripping or security hazard.

c. Permitting the use of the equipment such as baggage conveyor, carousel by operators, airline personnel or the public, with a safety device or switch by-passed, deactivated, or with an equipment safety cover/guard removed.

d. Permitting the use of any equipment by the public, air carrier or contract personnel such as a bag claim device when the equipment is not fully safe and may be a potential hazard to the user. An example may be, a bag claim device with excessive wear of the track or chain resulting in gaps between the plates where an individual could be exposed to pinch-points.

e. Failing to lock-out/tag-out electrical circuits or baggage systems as required

by NEC, NFPA, OSHA, and Aviation Authority policy.

f. Incidents resulting in injury to employees or the public or damage to facilities as a result of negligence may result in a safety deduction separate from any other applicable fees, settlements, or deductions of Twenty Five Thousand Dollars ($25,000). This deduction will be determined by the AAR in his/her sole discretion.

4.62 Late or Slow Response to Callback, Service Call/Request, or Equipment Malfunction

When a late or slow response time is identified and required herein may be subject to a deduction of Two Hundred Fifty ($250.00) per incident, at the discretion of the AAR. It is expected that a Contract representative will respond to all service and jam calls within five (5) minutes of the call. Other applicable deductions outlined in this document may be imposed in addition to this deduction.

4.63 Scheduled PdM Program

Failure to implement a PdM Program inclusive of no less than quarterly thermal imaging of all heat generating assets in the BHS, by the end of the sixth (6th) month of this Contract may result in a deduction of Two Hundred Fifty ($250.00) per day.

4.64 Recurring and Repeating Problems

The AAR will review return calls to fix a recurring problem with the same asset. If in the discretion of the AAR appropriate corrective action/repairs were not completed on the first response (or subsequent responses), the AAR may impose a deduction of Two Hundred Fifty ($250.00) per incident.

4.65 Failure of the Contractor to Maintain the EAMS Maximo or Update the Data or Information

Deductions may apply for failure to close out work orders, updating asset information to reflect equipment changes, and maintaining an accurate parts inventory for those items in the Contractor's storage rooms. All updates must be accurately finalized within forty-eight (48) hours of the completion of the work, or any other condition or situation which warrants updates to EAMS Maximo. Failures may subject the Contractor to a deduction of Two Hundred Fifty Dollars ($250) per incident per day, at the discretion of the AAR.

4.66 Non-Compliance or Failure of Contractor to Begin Utilizing "Outside Support"

In accordance with the requirements of Section 4.51 when instructed by the AAR to begin utilizing outside support, or in the event the Contractor is found to be in noncompliance with any other Contractual requirement described herein and has not complied within a reasonable time once said item is brought to the attention of the Contractor, a deduction of Two Hundred Fifty Dollars ($250) per incident, per day may be imposed at the discretion of the AAR. Actual deductions will be dependent

on the severity or potential consequences of the incident.

4.67 Failure of Contractor to Maintain an Average Read Rate of Ninety (90%) Percent or Better by the ATR in Any Individual Pod (A, B, C, D or E)

Should the ATR average read rate fall below ninety (90%) in any individual Pod for a period exceeding two (2) days, a deduction in the amount of Five-Hundred ($500.00), on day three (3) and any consecutive subsequent day may be assessed at the sole discretion of the AAR. Failure to maintain an overall average read rate for all ATRs of ninety percent (90%) or above may result in a five (5%) addition to the month's applicable performance deduction. This deduction is applied to the base performance deduction and is not accumulative or based on other added deductions.

4.68 PM Work Completion

The required goal for completion of PM work monthly is one hundred percent (100%) percent. Deductions will apply when the completed percentages fall within the following scale:

COMPLETION	ADDITION TO NON-OPERATIONAL PERFORMANCE DEDUCTION
97 - 99.9%	10%
95-97%	20%
Below 95%	50%

This deduction is applied to the base performance deduction and is not accumulative based on other added deductions.

4.69 Scheduled PM Work within the Calendar Month includes closing out all Work Orders

a. The tracking of this performance measurement shall be done by the EAMS Maximo software. Work completed in the final days of a calendar month will not be counted as complete unless proper documentation has been fully completed in the EAMS Maximo system. Work completed in the last days of the month must be input by the end of the last day of the month to be considered complete. There is no forty-eight (48) hour allowance for entry into EAMS Maximo in this circumstance. The Contractor will not be held responsible for delays in completing PMs due to circumstances beyond its control or responsibility; however the Contractor shall be responsible to document such circumstances and provide documentation to the AAR at the end of the month.

b. Failure of the Contractor to complete less than ninety-five percent (95%) of all scheduled PMs during a calendar month for three (3) months which does not need to be consecutive, in a rolling twelve (12) month period may result in a notice to cure and/or termination of the Contract.

4.70 PM Quality Assurance Checks

PM quality assurance checks will be conducted by the AAR, or his/her designated representative on Parent Assets and their associated “children” (individual conveyor section) by randomly selecting from EAMS Maximo, PM Work orders completed within the previous ten (10) days. The Contractor will be notified of PM deficiencies with the Parent Asset after which the Contractor will have five (5) days to correct the deficiencies. Deficiencies not corrected during the five (5) day correction period will result in a deduction for each Child Asset within the Parent Asset. Deductions will be charged at Fifty Dollars ($50.00) per Child Asset within the Parent Asset containing the incomplete PM with a minimum charge of Two Hundred–Fifty Dollars (250.00). A Parent Asset is considered the entire line, carousel, or other device. There can be as few as one (1) or as many as fifty (50), or more “children” for a main line. Any one (1) failure of a Child Asset will cause the entire Parent Asset to fail and result in the deduction multiplied by the number of “children” in the Parent Asset. E.G. A Parent Asset containing five (5) “children”, would result in a deduction of Two Hundred and Fifty Dollars ($250.00 = $50.00 x 5 Children Assets) should an identified failure not be corrected within five (5) days of notification of the failed PM.

4.71 Outstanding CM Work Orders

a. In the event more than five percent (5%) of the CM (repair) work orders remain incomplete in the EAMS Maximo program at the end of a calendar month, a deduction may apply as follow:

COMPLETION	ADDITION TO NON-OPERATIONAL PERFORMANCE DEDUCTION
90 - 95%	5%
Below 90%	10%

b. This deduction may not apply to work that is in progress (actively being worked on), waiting on approval from the AAR to begin work, or waiting for parts which have been ordered at the sole discretion of the AAR. This deduction may apply even when the CM work is completed but the work order has not been closed out by the end of the calendar month. The Contractor will not be held responsible for delays due to circumstances beyond its control or responsibility; however, the Contractor shall be responsible to document such circumstances and provide documentation to AAR at the end of the calendar month. This deduction is applied to the base performance deduction and is not accumulative based on other added deductions.

4.72 Continued Poor Performance

Should it be noted that the Contractor is failing to maintain equipment properly, PM, PdMs are not properly completed, or system efficiency is low, the AAR may at his/her sole discretion impose an additional deduction of One Thousand Dollars ($1,000.00) per day. The deduction shall apply for every day the situation is not corrected.

4.73 Missed Bags

Should it be identified that BHS system failures or Contractor's movement of baggage resulted in impact to airline operations with bags missing flights, the AAR may at his/her sole discretion impose an additional deduction of One Hundred Dollars ($100.00) per bag, up to Two Thousand Five Hundred Dollars ($2,500.00) per day.

4.74 Flight Delays

Should it be identified that BHS system failures or Contractor's movement of baggage resulted in impact to airline operations with flight delays due to late delivery of bags to the appropriate make up units, the AAR may at his/her sole discretion impose an additional deduction of Fifteen Hundred Dollars ($1,500.00) per day.

4.75 Failure of Contractor to Enter Preliminary Data into the EAMS Maximo, as Required for the Assets Covered

a. A deduction of Two Hundred-Fifty ($250) Dollars per-day shall be applied for each and every day that "preliminary data" is not fully entered for each asset. Deduction(s) shall be applied to the monthly invoice(s). Fully entered means that every asset in the EAMS Maximo database has the required and applicable data entered and the AAR approves in writing that this contract requirement has been met. The AAR will use random sampling of the database (assets) to verify compliance. After the AAR acknowledges in writing that the preliminary data has been entered (or is in the EAMS Maximo database), this section will not be applied again. However, the Contractor shall continue to update the EAMS Maximo and failure to do so in accordance with these Contract requirements may result in a deduction.

b. The Contractor must coordinate closely with any construction company performing installation or removal of equipment within the BHS. No later than seven (7) days after notification of demolition or install of BHS equipment, the Contractor must have the required information updated in EAMS Maximo. Failure to properly update EAMS Maximo may result in a deduction of Two Hundred Fifty Dollars ($250.00) per day until EAMS Maximo is properly updated.

4.76 Cleaning

The following guideline is the expected time frame for actions necessary to maintain a professional, clean appearance of the BHS equipment and associated areas. If more frequent cleaning is necessary to maintain a professional, clean appearance, the Contractor is solely responsible to take all necessary action for cleaning to meet the required standard.

4.77 BHS Equipment Cleanliness

a. The BHS and all floor and overhead areas within ten feet (10 ft.) adjacent to the equipment covered by this Contract shall be kept free from accumulations of dirt, dust and debris at all times. The Contractor shall sweep all BHS areas

in the Landside and the Airside BHS systems including, but not limited to, under conveyors and BHS areas concealed by ceilings, and shall dispose of all dirt and debris. The Contractor shall empty and clean all catch pans under the conveyor belts. Napkins placed in catch pans under motors shall be changed to present a clean appearance. Napkins under motors shall have the date written on a corner representing the date the napkin was changed and inspected. Multiple dates may accumulate on a clean napkin.

b. Pod cleaning includes sweeping the floor, picking up trash, wiping down conveyor equipment including after maintenance and repair activities, removing dust from BHS equipment surfaces, and emptying trash cans. Contractor shall use a vacuum to clean the conveyors and related BHS equipment. Use of Brooms for floors is acceptable. Powered Air Blowers are not permitted to be used indoors.

4.78 BHS Floor Areas

Interior floor areas of the baggage carousels shall be broom swept. All trash and debris shall be swept and/or picked up from the interior areas of the carousels. This requirement does not apply to those carousels where the interior area or space is covered by carpeting (for example, the two carousels (8A and 28B) on Level 1 of the Landside Terminal). The Aviation Authority will be responsible for the cleaning of carpeting in the public spaces.

4.79 Debris Under BHS Belts and Areas Concealed by Ceilings

Bag tags, dust, trash and similar accumulated debris collecting under the conveyor belts or in catch pans shall be cleaned and removed regularly. Cleaning shall also be conducted as part of the PM of the equipment. Cleaning will be required if debris is unsightly, affects the operation of the equipment or poses a hazard. Conveyors may run through areas that are not easily accessible such as public areas, offices, drop ceilings, drywall enclosed sections. The Contractor is responsible to thoroughly clean these areas with every PM Inspection.

4.80 Banned Cleaning Tools for BHS Enclosed Areas

Powered Air Blowers or compressed air shall not be used in enclosed areas such as Bag Make-up and Pods where blown (air-borne) dust and debris may settle onto equipment (such as conveyor photo eyes) or create respiratory concerns for workers in the area. Vacuum cleaners and manual sweeping or brooms shall be used in enclosed areas. Powered Air Blowers may be used outdoors. The Contractor shall provide and use brooms and vacuum cleaners for dust and dirt removal.

4.81 Use of Premises

During the progress of the work specified herein, the Contractor shall keep the premises free from accumulations of dust, dirt, waste materials, and other debris. At the completion of daily work, the Contractor shall remove all waste materials and debris from and about the premises. All tools, equipment, and surplus materials must

be properly stored. The Contractor shall be responsible for disposing of all waste materials per the terms of this Contract and in accordance with all applicable laws and regulations.

4.82 Other Scheduled Cleaning

Quarterly, the BHS operating areas, surrounding area within twenty-five (25) feet of equipment, shall be checked for accumulation of debris which may or may not be related to the equipment or its operation. When such debris is present, the AAR shall be notified and the Aviation Authority, in conjunction with the Contractor, shall dispose of such debris. Examples of this debris would be broken bag tubs, discarded construction materials, trash remaining from other Contractors or airline activities, broken pallets, etc.

4.83 Necessary Care When Cleaning

Extraordinary care must be used when cleaning overheads so as not to disrupt air carrier operations or impact those employees working in the affected areas. It is expected that catwalk and all overhead cleaning will be done after shutdown or when there is no activity below the area being cleaned.

5.0 AVIATION AUTHORITY STANDARD TERMS AND CONDITIONS

5.1 Awards

As the best interest of the Aviation Authority may require, the right is reserved to make award(s) by individual items, group of items, all or none, or a combination thereof; to reject any and all Proposals or waive any minor irregularity or technicality in Proposals received. Contractors are cautioned to make no assumptions unless their Proposal has been determined as meeting the Minimum Requirements and being responsive and responsible. All awards made as a result of this Proposal shall conform to applicable policies of the Aviation Authority. The Aviation Authority may return, for full credit, any unused items received which fail to meet the Aviation Authority's performance standards. The Aviation Authority reserves the right to cancel an awarded Proposal upon due cause—i.e., Contractor misrepresentation, Contractor negligence, non-performance, etc. via written notice.

5.2 Additional Terms & Conditions

The Aviation Authority reserves the right to reject Proposals containing any additional terms or conditions not specifically requested in the original special conditions and/or the terms and conditions.

5.3 Purchasing Agreements With Other Governmental Entities

Aviation Authority permits the awarded Contractor(s) to extend the pricing, terms and conditions of this solicitation to other governmental entities at the Contractor's discretion. Each governmental entity that utilizes this solicitation or resulting Contract will be responsible for execution of its own requirements with the awarded Contractor (s).

5.4 Lobbying Statement

All firms are hereby placed on notice the Aviation Authority Board and staff shall not be contacted about this Proposal. Firms and their agents are hereby placed on notice that they are not to contact members of the Aviation Authority staff and/or Committee/Board member (with the exception of designated Purchasing Liaison). Public meetings and public deliberations of the Selection Committee are the only acceptable forum for the discussion of merits of products/services requested by the Request for Proposal; and written correspondence concerning Proposals may be submitted to the Purchasing Department. An appropriate official or employee of the Aviation Authority may initiate communication with a Proposer in order to obtain information or clarification needed to develop a proper and accurate evaluation of the Solicitation. Any official communication from a Proposer during the Proposal process should be submitted in writing to the Greater Orlando Aviation Authority, **GOAA Annex Building, Purchasing Department, 5855 Cargo Road, Orlando, FL 32827-4399** or to the email address as directed during the Proposal process. A copy of the Administration Policies (Sections 180.01 and 180.03) is available upon request from the Chief Administrative Officer. Failure to adhere to these requirements could result in Board action to disqualify your firm from consideration of award.

Respondents to this solicitation or persons acting on their behalf may not contact, between the release of the solicitation and the end of the 72-hour period following the agency posting the notice of intended award, excluding Saturdays, Sundays, and state holidays, any employee or officer of the executive or legislative branch concerning any aspect of this solicitation, except in writing to the procurement officer or as provided in the solicitation documents. Violation of this provision may be grounds for rejecting a response. (F.S. 287.057 (23))

5.5 Whistle Blower Reporting Line

The Aviation Authority is committed to the highest level of integrity in its operations and is fully committed to protecting the organization, its operations, and its assets against fraud, waste or abuse. The Aviation Authority has established a Whistle Blower Reporting Line with a third-party service provider as a means for employees, Contractors, vendors, tenants and the general public to report suspected fraud, waste or abuse in connection with Aviation Authority operations. Should Contractor suspect any fraud, waste or abuse in connection with any work under this Contract, including any work of its Subcontractors or laborers, it shall promptly report such activity at 877-370-6354, through email: GOAA@integritycounts.ca, or through the online reporting form at www.integritycounts.ca/org/GOAA. The Contractor shall include this reporting requirement in all subcontracts and vendor agreements. The Contractor is further encouraged to report any suspected fraud, waste or abuse it suspects in connection with any other airport operation or project.

5.6 EEO Statement

Contractors must ensure that employees and applicants for employment are not discriminated against for reasons of race, color, age, religion, sex, national origin, or handicapped status. Minority and female-owned businesses are encouraged to participate. The Aviation Authority is an equal opportunity employer.

5.7 Federal Fair Labor Standards Act

All Contracts and subcontracts that result from this Contract incorporate by reference the provisions of 29 CFR part 201, the Federal Fair Labor Standards Act (FLSA), with the same force and effect as if given in full text. The FLSA sets minimum wage, overtime pay, recordkeeping, and child labor standards for full and part time workers. The Consultant has full responsibility to monitor compliance to the referenced statute or regulation. The Consultant must address any claims or disputes that arise from this requirement directly with the U.S. Department of Labor – Wage and Hour Division.

5.8 Occupational Safety And Health Act of 1970

All Contracts and Sub-Contracts that result from this Contract incorporate by reference the requirements of 29 CFR Part 1910 with the same force and effect as if given in full text. Contractor (also known as Consultant) must provide a work environment that is free from recognized hazards that may cause death or serious physical harm to the employee. The Consultant retains full responsibility to monitor its compliance and their Subcontractor's compliance with the applicable requirements of the Occupational Safety and Health Act of 1970 (20 CFR Part 1910). Consultant must address any

claims or disputes that pertain to a referenced requirement directly with the U.S. Department of Labor – Occupational Safety and Health Administration.

5.9 Discounts

All discounts, EXCEPT THOSE FOR PROMPT PAYMENT, shall be considered in determining the lowest net cost for Proposal evaluation purposes.

5.10 Pricing

Firm prices shall be proposed and include FOB DESTINATION, for all packing, handling, shipping charges, fuel surcharges and delivery, unless otherwise indicated, to any point within the Aviation Authority to a secure area or inside delivery. All prices, costs, and conditions shall remain firm and valid for 90 days from the date of opening. The obligations of Aviation Authority under this award are subject to the availability of funds lawfully appropriated for its purpose by the State of Florida and/or the Aviation Authority Board.

5.11 Incurred Cost

The Aviation Authority is not liable for any cost incurred by any Contractor prior to an award. Costs for developing a response to this request for Proposal are entirely the obligation of the Contractor and shall not be chargeable in any manner to the Aviation Authority.

5.12 Errors

In the event of extension error(s), the unit price will prevail. In the event of addition error(s), the extended totals will prevail. In either case, the Contractor’s total offer will be adjusted accordingly.

5.13 Taxes

The Aviation Authority is exempt from Federal excise taxes and all sales taxes.

5.14 Silence of Specifications

The apparent silence of the specifications and any supplemental specifications as to any details or the omission from same of any detailed description concerning any point, shall be regarded as meaning that only the best commercial practices are to prevail and only materials of first quality be provided.

5.15 Assignment

Neither this Contract nor any of the Contractor's rights or obligations hereunder may be assigned by the Contractor without the Aviation Authority's prior written consent, which consent may be granted or withheld in the Aviation Authority's sole discretion. Any transfer of this Contract by merger, consolidation or liquidation, change in federal identification number or, any change in ownership of or power to vote a majority of the outstanding voting stock or ownership interests of the Contractor shall constitute

an assignment of this Contract for purposes of this Section. In the event the Contractor assigns or subcontracts or attempts to assign or subcontract any right or obligation arising under this Contract without the Aviation Authority's prior written consent, the Aviation Authority shall be entitled to terminate this Contract. Assignments require at least 60 days prior notice.

5.16 Indemnification

The successful Contractor shall indemnify, defend and hold completely harmless the Aviation Authority and the City of Orlando, Florida ("City"), and the members (including, without limitation, members of the Aviation Authority's Board and the City's Council, and members of the citizens' advisory committees of each), officers, employees and agents of each, from and against any and all liabilities (including statutory liability and liability under Workers' Compensation Laws), losses, suits, claims, demands, judgments, fines, damages, costs and expenses (including all costs for investigation and defense thereof, including, but not limited to, court costs, paralegal and expert fees and reasonable attorneys' fees) which may be incurred by, charged to or recovered from any of the foregoing: (a) by reason or on account of damage to or destruction or loss of any property of Aviation Authority or the City, or any property of, injury to or death of any person resulting from or arising out of or in connection with the performance of this Contract, or the acts or omissions of Contractor's directors, officers, agents, employees, Subcontractors, licensees or invitees, regardless of where the damage, destruction, injury or death occurred, unless such liability, loss, suit, claim, demand, judgment, fine, damage, cost or expense was proximately caused solely by Aviation Authority's negligence or by the joint negligence of Aviation Authority and any person other than Contractor or Contractor's directors, officers, agents, employees, Subcontractors, licensees, or invitees, or (b) arising out of or in connection with the failure of Contractor to keep, observe or perform any of the covenants or agreements in this Contract which are required to be kept, observed or performed by Contractor, or (c) arising out of or in connection with any claim, suit, assessment or judgment prohibited by this condition or in favor of any person described in below, or (d) arising out of or in connection with any action by Contractor or its directors, officers, agents, employees, Subcontractors, licensees or invitees. Aviation Authority agrees to give Contractor reasonable notice of any suit or claim for which indemnification will be sought hereunder, to allow Contractor or its insurer to compromise and defend the same to the extent of its interests, and to reasonably cooperate with the defense of any such suit or claim. In carrying out its obligations under this section, Contractor shall engage counsel reasonably acceptable to Aviation Authority. In any suit, action, proceeding, claim or demand brought in respect of which the Aviation Authority may pursue indemnity, the Aviation Authority shall have the right to retain its own counsel. The fees and expenses of such counsel shall be at the expense of the Aviation Authority unless the Contractor and the Aviation Authority shall have mutually agreed to another arrangement. In the event Contractor fails, within a reasonable time to retain counsel satisfactory to the Aviation Authority, the Aviation Authority may retain counsel and Contractor shall be responsible for such legal fees, costs and expenses. In the event, the Aviation Authority and the Contractor are both named parties in any such proceeding and, in the sole judgment of the Aviation Authority, representation of both the Aviation Authority and the Contractor by the same counsel would be inappropriate due to actual or potential differing interests between them then Aviation Authority shall obtain its own counsel and Contractor shall

be responsible for such legal fees, costs and expenses. The indemnification provisions of this Section 5 shall survive the expiration or earlier termination of this Contract with respect to any acts or omissions occurring during the term of the Contract. No recourse under or upon any obligation, covenant or agreement contained in this Contract, or any other agreement or document pertaining to the work or services of the Contractor hereunder, as such may from time to time be altered or amended in accordance with the provisions hereof, or any judgment obtained against Aviation Authority, or the City, or by the enforcement of any assessment or by any legal or equitable proceeding by virtue of any statute or otherwise, under or independent of this Contract, shall be had against any member (including, without limitation, members of the Aviation Authority's Board or the City's Council, or members of the citizens advisory committees of each), any officer, employee or agent, as such, past, present, or future of Aviation Authority or City, either directly or through the Aviation Authority or the City or otherwise for any claim arising out of or in connection with this Contract or the work or services conducted pursuant to it, or for any sum that may be due and unpaid by Aviation Authority. Any and all personal liability of every nature, whether at common law or in equity, or by statute or by constitution or otherwise, of any such member, officer, employee, or agent, as such, to respond by reason of any act or omission on his or her part or otherwise for any claim arising out of or in connection with this Contract or the work or services conducted pursuant to it, or for the payment for or to Aviation Authority, or any receiver therefore or otherwise, of any sum that may remain due and unpaid by the Aviation Authority, is expressly waived and released as a condition of and in consideration of the execution of this Contract and the, promises made to Contractor pursuant to this Contract. In any and all claims against the Aviation Authority or the City, or any of their officers, members, agents, servants or employees, by any employee of the Contractor, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation of Contractor under this Section shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefit payable by or for the Contractor or any Subcontractor under Workers' Compensation Acts, disability benefit acts or other employee benefit acts. No provisions of this condition shall be construed to negate, abridge, or otherwise reduce any other right of indemnity that Aviation Authority may have as to any party or person described therein.

5.17 Patents and Royalties

The Contractor, without exception shall indemnify and save harmless the Aviation Authority and its employees from liability of any nature of kind including cost and expenses for or on account of any copyrighted, patented, or unpatented invention, process, or article manufactured or used in the performance of the Contract, including its use by the Aviation Authority. If the Contractor uses any design, device, or materials covered by letters, patent or copyright, it is mutually agreed and understood without exception that the Proposal prices shall include all royalties or cost arising from the use of such design, device, or materials in any involved in the work.

5.18 Software License to Contractor

If this purchase is for the license of software products and/or services, and unless otherwise agreed, Contractor hereby grants to the Aviation Authority , a perpetual,

irrevocable, nonexclusive, nontransferable, royalty free license to use the software. This software is “proprietary” to Contractor, and is licensed and provided to the Aviation Authority for its sole use for purposes under this Agreement and any attached work orders or invoices. The Aviation Authority may not use or share this software without permission of the Contractor; however the Aviation Authority may make copies of the software expressly for backup purposes.

5.19 Warranty Against Infringement of Intellectual Property

Contractor warrants that the goods or services do not infringe upon or violate any United States patent, copyright, or trade secret. Contractor will defend at its expense any action against the Aviation Authority or the Aviation Authority as licensee to the extent that it is based on a claim that goods used or services provided used within the scope of the license hereunder infringe upon a United States patent, copyright or trade secret, and Contractor will pay any and all costs and damages finally awarded against the Aviation Authority or the Aviation Authority as licensee in such actions which is attributable to such claim. Should the products or services become, or in Contractor's opinion be likely to become, the subject of any claim of infringement, Contractor shall either: (a) procure for the Aviation Authority the right to continue to use the goods or services; or (b) modify the goods or services to make them non-infringing, provided that such modification does not materially adversely affect the Aviation Authority’s authorized use; or (c) replace the goods or services with equally suitable, compatible, and functionally equivalent non-infringing goods or services at no additional cost to the Aviation Authority; or (d) if none of the foregoing alternatives is reasonably available to Contractor, terminate this agreement and refund to the Aviation Authority the payments actually made to Contractor under this agreement.

5.20 Optional Ownership of Work Product

Contractor agrees that any and all analyses, evaluations, reports, memoranda, letters, ideas, processes, methods, programs, and manuals that were developed, prepared, conceived, made or suggested by the Contractor for the Aviation Authority pursuant to a Work Order, including all such developments as are originated or conceived during the term of the Contract and that are completed or reduced to writing thereafter (the “Work Product”) and Contractor acknowledges that such Work Product may be considered “work(s) made for hire” and will be and remain the exclusive property of the Aviation Authority. To the extent that the Work Product, under applicable law, may not be considered work(s) made for hire, Contractor hereby agrees that this Agreement effectively transfers, grants, conveys, and assigns exclusively to the Aviation Authority, all rights, title and ownership interests, including copyright, which Contractor may have in any Work Product or any tangible media embodying such Work Product, without the necessity of any further consideration, and Aviation Authority shall be entitled to obtain and hold in its own name, all Intellectual Property rights in and to the Work Product. Contractor for itself and on behalf of its Contractors hereby waives any property interest in such Work Product.

5.21 Personal Identifiable Information (PII), Personal Health Information (PHI), Sensitive Security Information (SSI), Payment Card Industry (PCI)

In the course of performing the Agreement work, Contractor may gain access to Sensitive Data Types including but not limited to Personal Identifiable Information (PII), Personal Health Information (PHI), Sensitive Security Information (SSI), Payment Card Industry (PCI), Financial Information and/or other confidential information of the Aviation Authority. Contractor agrees to hold such information in confidence and to make such information known only to its employees, affiliates, agents, Subcontractors, and sub-consultants who have a legitimate need to know such information and who are under a similar obligation of confidentiality. The Contractor shall seek the Aviation Authority's prior written consent before releasing, disclosing, or otherwise making such confidential information available to any other person. This provision shall not apply to information required to be released by applicable law, legal subpoena, or other lawful process. The Contractor must notify the Aviation Authority as soon as practicable in the event Contractor is notified of or discovers any compromise and/or breach or suspected breach, such as unauthorized access to, theft of, misuse of and unintentional releases or of any security/sensitive data types, or confidential information of the Aviation Authority and/or Individuals ("Data Breach") involving Contractor controlled systems such as, but not necessarily limited to, web sites, transmission infrastructure, voice response unit, and retrieval and storage systems. This notification should include, to the extent known, the type of Data Breach, type of data compromised and/or breached, and results of any forensic investigation. To the extent Contractor is responsible for the Data Breach and upon mutual agreement of the parties, Contractor shall be responsible to implement, in coordination with the Aviation Authority, a commercially reasonable Remediation Plan to address and respond to a Data Breach. Such commercially reasonable "Remediation Plan" will include certain administrative requirements associated with addressing and responding to such Data Breach to the extent necessary under the circumstances, and may include but is not necessarily limited to: (i) preparation and mailing or other transmission of legally required notifications, (ii) preparation and mailing or other transmission or communication to impacted Individuals such as may be required by applicable law or regulation; (iii) offering potentially impacted Individuals the opportunity to enroll in a credit monitoring service offered by a vendor of Contractor's choice for a two-year period, or other period as required by applicable law, at no charge to the impacted Individuals; and (iv) payment of applicable reasonable legal, audit, accounting and administrative expenses associated with the investigation, notifications and recovery arising from the Data Breach. The remedies provided for in the Remediation Plan shall be in addition to any other remedies available to the Aviation Authority under this Agreement. The provisions of this Section shall survive the expiration or earlier termination of the Agreement.

5.22 Acceptance

Items may be tested for compliance with the Specifications. Items delivered not conforming to specifications may be rejected and returned at Contractor's expense. Any increase in cost may be charged against the Contractor.

5.23 Safety Warranty

The selling dealer, distributor, supplier, and manufacturer shall be responsible for having complied with all Federal, State and local standards, regulations, and laws concerning the equipment specified and the use thereof, applicable and effective on the date of manufacture including safety and environmental standards as apply to both private industry and governmental agencies.

5.24 Warranty

The Contractor agrees that, unless otherwise specified, the supplies and/or services furnished under this Solicitation shall be covered by the most favorable commercial warranty the Contractor gives to any customer for comparable quantities of such supplies and/or services and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the Aviation Authority by any other provision of this Solicitation.

5.25 Conflict of Interest:

The award hereunder is subject to provisions of State of Florida Statutes. All Contractors must disclose with their bid the name of any officer, director, or agent who is also an employee of the Aviation Authority. Further, all Contractors must disclose the name of any Aviation Authority employee who owns, directly or indirectly, an interest of ten percent (10%) or more in the Contractor's firm or any of its branches.

5.26 Drug-Free Workplace

Whenever two or more Proposals, which are equal with respect to price, quality, and service, are received by the Aviation Authority for the procurement of commodities or Contractual services, a Proposal received from a business that has implemented a drug-free workplace program per 287.087, Fla. Stat. shall be given preference in the award process.

5.27 Discriminatory Vendor List

An entity or affiliate placed on the Discriminatory Vendor List shall not submit a Proposal for a Contract to provide goods or services to a public entity, shall not submit a Proposal on a Contract with a public entity for the construction or repair of a public building or perform any public work, shall not submit Proposals for leases of real property to a public entity, shall not award or perform work as a Contractor, supplier, Subcontractor, or consultant under any Contract with any public entity, and shall not transact business with any public entity per 287.134(3)(d), Fla. Stat.

5.28 Public Entity Crimes

All Contractor are hereby placed on notice that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a Proposal on a Contract to provide any goods or services to a public entity, may not submit a Proposal on a Contract with a public entity for the construction repair of a public building or public work, may not submit Proposals on leases of real property

to a public entity, may not be awarded or perform work as a Contractor, supplier, Subcontractor, or consultant under a Contract with a public entity, and may not transact business with any public entity in excess of the threshold amount provided in 287.017 Fla. Stat. for CATEGORY TWO (currently $35,000) for a period of thirty-six (36) months from the date of being placed on the convicted vendor list.

Convicted Vendor List / Vendor Registration and Vendor Lists / State Agency Resources / State Purchasing / Business Operations / Florida Department of Management Services - DMS (myflorida.com)

5.29 Scrutinized Companies

Awarded Contractor shall certify that it and its Subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S. If the Agreement is for more than $1,000,000 the Contractor further certifies that it and its Subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. For Contracts of any amount, if the Aviation Authority determines the Contractor submitted a false certification under Section 287.135(5) of the Florida Statutes, or if the Contractor has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, the Aviation Authority shall either terminate the Contract after it has given the Contractor notice and an opportunity to demonstrate the Aviation Authority's determination of false certification was in error pursuant to Section 287.135(5)(a) of the Florida Statutes, or on a case-by-case basis the Aviation Authority may choose to maintain the Contract if the conditions of Section 287.135(4) of the Florida Statutes are met. For Contracts $1,000,000 and greater, if the Aviation Authority determines the Contractor submitted a false certification under Section 287.135(5) of the Florida Statutes, or if the Contractor has been placed on the Scrutinized Companies with Activities in the Sudan List, or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, the Aviation Authority shall either terminate the Contract after it has given the Contractor notice and an opportunity to demonstrate the Aviation Authority's determination of false certification was in error pursuant to Section 287.135(5)(a) of the Florida Statutes, or on a case-by-case basis the Aviation Authority may choose to maintain the Contract if the conditions of Section 287.135(4) of the Florida Statutes are met. The Contractor agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under this Agreement. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize these Contracting prohibitions, this section shall become inoperative and unenforceable.

5.30 Licenses and Certifications

The awarded Contractor will be required to secure, at its expense and show proof of the proper business tax receipt and/or any other license/certification required of the applicable service/work being performed. Prior to award, the apparent low Contractor will be required to provide proof of license and/or certification within two (2) business days of the posted awarded recommendation and submit copies of license/certifications to the Purchasing Department. The successful Contractor is responsible for obtaining all permits necessary to construct the project. The Aviation

Authority does not exempt itself from permitting requirements. The Contractor shall pay all Aviation Authority permit, inspection and impact fees required for the project or services required under this Contract; all other fees for permits required by agencies/municipalities other than the Aviation Authority shall be the responsibility of the awarded Contractor.

5.31 Subcontractors

The Contractor shall be fully responsible for all acts and omissions of the Subcontractors and of persons and organizations directly or indirectly employed by them and of persons and organizations for whose acts and omissions of persons directly employed by the Contractor. In the event a qualified Subcontractor is employed, the Contractor shall:

a. Obtain approval in advance by the Aviation Authority.

b. Continuously monitor the Subcontractor's performance, and remain fully responsible to ensure that the Subcontractor performs as required and the Contractor shall perform or remedy any obligations or functions which the Subcontractor fails to perform properly. Nothing contained herein shall be construed to prevent a Contractor from using the services of a common carrier for delivering goods to the Aviation Authority.

c. To the extent feasible, the provisions of this Contract shall apply to any such Subcontractor in the same manner as they apply to the Contractor. However, such application shall neither make any Subcontractor a party to this Contract, nor make such Subcontractor a third party beneficiary hereof.

d. The Aviation Authority may require that copies of invoices for all work (including invoices submitted to the Contractor for work performed by a Subcontractor) shall be submitted to the Aviation Authority by the Contractor and the Aviation Authority shall pay all compensation to the Contractor.

e. It shall be the sole responsibility of the Contractor to deal with a Subcontractor with respect to the collecting and submission of invoices and the payment of compensation. In no event shall the Aviation Authority have any obligation or liability hereunder to any Subcontractor, including, in particular, any obligations of payment.

f. If the Contractor has qualified as an MWBE or LDB program participant with respect to this Contract, Contractor may not subcontract the performance of services hereunder to an entity that has not received MWBE or LDB certification, unless the MWBE and LDB Participation Goals are separately met by a qualified portion of the Contract being performed by the Contractor or by one or more other Subcontractors that are MWBE and/or LDB certified.

5.32 Verbal Instructions

No negotiations, decisions, or actions shall be initiated or executed by the Contractor as a result of any discussions with any Aviation Authority employee. Only those communications, which are in writing from an authorized Aviation Authority representative, may be considered. Only written communications from Contractors, which are signed by a person designated as authorized to bind the company, will be recognized by the Aviation Authority as duly authorized expressions on behalf of the Contractor.

5.33 Litigation Venue

All litigation shall take place either in the State Courts of Florida, wherein venue shall lie in Orange County, Florida, or in the Federal Courts wherein venue shall lie in the Middle District in and for the State of Florida. The Contractor expressly waives venue in any other location.

5.34 Addition, Deletion, or Modification of Services

The Aviation Authority reserves the right at its sole discretion to increase, decrease, or delete any portion of this agreement/Contract at any time without cause, and if such right is exercised by the Aviation Authority, the total fee shall be reduced or increased by a prorated basis. If work has already been accomplished on the portion of the Contract to be increased, decreased, or deleted, the Contractor shall be paid for the correct portion on the basis of the estimated percentage agreed upon by the Aviation Authority, the Contractor, and the AAR upon completion of such portion.

5.35 Operation During Dispute

In the event the Aviation Authority has not canceled the Contract in accordance with the terms of the Contract, and there remains a dispute between the Contractor and the Aviation Authority, the Contractor agrees to continue to operate and perform under the terms of the Contract while such dispute is pending. Further, the Contractor agrees that, in the event a suit is filed for injunction or other relief, it will continue to operate until the final adjudication of such suit by the court.

5.36 Funding

Obligation of the Aviation Authority for payment to a Contractor is limited to availability of funds appropriated in a current fiscal period, and continuation of contract into a subsequent fiscal period is subject to appropriation of funds, unless otherwise authorized by law.

5.37 Federal Funding Limitation

Contractor understands that funds to pay for Contractor's performance under this Contract are anticipated to be made available from the United States Department of Transportation through the Federal Transit Administration (FTA). All funds must be approved and administered by FTA. The Aviation Authority's obligation hereunder is payable from funds that are appropriated and allocated by FTA for the performance

of this Contract. If funds are not allocated, or ultimately are disapproved by FTA, The Aviation Authority may terminate or suspend Contractor's services without penalty. The Aviation Authority shall notify Contractor promptly in writing of the non-allocation, delay, or disapproval of funding.

5.38 Force Majeure

Except for defaults of subcontractors, neither party shall be responsible for delays or failures in performance resulting from acts beyond the control of the offending party. Such acts shall include but shall not be limited to acts of God, fire, flood, hurricane, tornado, other natural disaster, nuclear accident, strike, terrorism, lockout, riot, freight embargo, public regulated utility, pandemic and other CDC imposed health restrictions, or governmental statutes or regulations superimposed after the fact. If a delay or failure in performance by the Contractor arises out of a default of its subcontractor, and if such default arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not liable for damages of such delay or failure, unless the supplies or services to be furnished by the subcontractor were obtainable from other sources in sufficient time to permit the Contractor to meet the required performance schedule.

5.39 Contract Termination

The Contract resulting from this Proposal shall commence upon issuance and acceptance of the fully executed Contract. The Aviation Authority retains the right to terminate the Contract, in part or in its entirety, with or without good cause, upon thirty (30) days prior written notice or as stated herein. In the event of termination by the Aviation Authority, provided herein, the awarded Contractor shall be paid for services performed through the date of termination.

a. **Termination for Cause**: If, through any cause, Contractor shall fail to fulfill in a timely and proper manner its obligations under this Agreement, or if Contractor shall violate any of the covenants, agreements, or stipulations of this Agreement, the Aviation Authority shall thereupon have the right to terminate this Agreement by giving written notice to Contractor of such termination and specifying the effective date.

b. Notwithstanding the above, Contractor shall not be relieved of liability to the Aviation Authority for damages sustained by the Aviation Authority by virtue of any breach of this Agreement by Contractor, and the Aviation Authority may withhold any payments to Contractor for the purposes of set-off until such time as the exact amount of damages due the Aviation Authority from Contractor is determined. This provision shall survive the termination of this agreement and shall not relieve Contractor of its liability to the Aviation Authority for damages.

c. **Termination for Convenience of Aviation Authority**: The Aviation Authority may terminate this Agreement at any time for any reason or no reason at all by giving at least thirty (30) days' notice in writing to the Contractor. If the Agreement is terminated by the Aviation Authority as provided herein, Contractor will be paid for the services performed through the Termination Date.

d. **Termination for Convenience of Contractor**: The Contractor may terminate this Agreement by giving at least 180 days' notice to the Aviation Authority. Upon receipt of notice of termination by the Aviation Authority from the Contractor, Contractor shall perform the services through the end of Termination Date and shall be paid for the services performed through the Termination Date.

5.40 Contractor Responsibilities

Contractors, by submitting a Proposal, certify that it understands all planning, coordinating, and implementation of the described services shall be done through personal contact between the Contractor and the AAR, and that telephone contact and mail correspondence may, in some cases, not be appropriate. Aviation Authority approved representatives of the Contractor shall be available to meet with the AAR, as may be required, to accomplish the Aviation Authority's objectives as effectively and efficiently as possible, during all phases of this agreement/Contract/Proposal.

5.41 Supervision of Contract Performance

During the term of this Contract, the AAR or designee, shall act on the behalf of the Aviation Authority, but in no event shall the AAR have authority to modify or terminate this Contract, or make final decisions with respect to amendments, time extensions, assignments, cost or payment adjustments or payment disputes. These must be approved by the CEO or the Aviation Authority Board depending on the circumstances.

5.42 Monitoring of Work

The Contractor shall provide the AAR with every reasonable opportunity to ascertain whether or not the work, as performed, is in accordance with the requirements of the Contract. The Contractor shall designate, in writing, a person to serve as liaison between the Contractor and the Aviation Authority.

5.43 Prompt Payment

For payment promptness, the Aviation Authority shall remit payment in accordance with the Florida Prompt Payment Act, Section 218.70, Fla. Stat., et seq. Aviation Authority does not expect to be billed in excess of the ordered quantity and will not pay for any quantity above the ordered quantity. Contractors may offer cash discounts for prompt payment but they will not be considered in determination of award. If a Contractor offers a discount, it is understood that the discount time will be from the date of satisfactory delivery, at the place of acceptance, and receipt of correct invoice, at the office specified, whichever occurs last. Requests for final payment for any work or services for which a permit is required shall include a copy of all required permits and copies of all required inspection reports. Failure to provide proof of acquisition of all required permits and successful completion of all required inspections shall represent an incomplete invoice and will delay payment. Contractor shall submit for payment by the Aviation Authority the amounts billed to Contractor by Subcontractors in the billing/payment request submitted first after receipt of the applicable

Subcontractor invoice. Contractor shall remit payment to Subcontractors/suppliers, based upon Subcontractors/suppliers invoice, not later than seven (7) days following receipt of payment from the Aviation Authority if Aviation Authority makes payment through an electronic funds transfer, and not later than fifteen (15) days from payment by the Aviation Authority if Aviation Authority makes payment through a paper draft or check. Contractor may not submit to the Aviation Authority for payment any amount based on an invoice of a Subcontractor that Contractor disputes. Contractor shall notify the Aviation Authority promptly of any subcontract/supplier dispute.

5.44 Right To Audit Records

In performance of this Agreement, the Contractor shall keep books, records, and accounts of all activities related to the Agreement, in compliance with generally accepted accounting procedures. All documents, papers, books, records, and accounts made or received by the Contractor in conjunction with the Agreement and the performance of this Agreement shall be open to inspection during regular business hours by an authorized representative of the Aviation Authority, and shall be retained by the Contractor for a period of five (5) years after termination of this Agreement—unless such records are exempt from section 24(a) of Article I of the State Constitution and section 119.07(1), Fla. Stat.

5.45 Copying Documents

Contractor hereby grants the Aviation Authority and its agents permission to copy and distribute any and all materials and documents contained in, comprising, or which are otherwise submitted to Aviation Authority with or in connection with the Contractor's Proposal or which are contained in the Contract Documents (the "Submittals"). The permission granted by the Contractor shall be on behalf of the Contractor and any and all other parties who claim any rights to any of the materials or documents comprising the Submittals. Such permission specifically authorizes the Aviation Authority and its agents to make and distribute such copies of the Submittals or portions thereof as may be deemed necessary or appropriate by Aviation Authority for its own internal purposes or for responding to requests for copies from any member of the public regardless of whether the request is specifically characterized as a public records request pursuant to Chapter 119, Florida Statutes. This provision shall survive the expiration or termination of the Contract.

5.46 Florida Public Records Law

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE AVIATION AUTHORITY'S CUSTODIAN OF PUBLIC RECORDS AT: www.orlandoairports.net/publicrecords; , PHONE NUMBER 407.825.2400; AND MAILING ADDRESS, GREATER ORLANDO AVIATION AUTHORITYY, PUBLIC RECORDS, ONE JEFF FUQUA BOULEVARD, ORLANDO, FL 32827. A Contractor with an Aviation Authority Contract for services, must comply with Florida Statute, Chapter 119.071, specifically to: Keep and maintain public records that ordinarily and necessarily would be required by the Aviation Authority in order to perform the service. Upon request from the Aviation Authority's custodian of public records, provide the

Aviation Authority with a copy of the requested records or allow the access to public records to be inspected or copied within a reasonable time on the same terms and conditions that the Aviation Authority would provide the records and at a cost that does not exceed the cost provided in Chapter 119.07, Florida Statutes, or as otherwise provided by law. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Contract term and following completion of the Contract if the Contractor does not transfer the records to the Aviation Authority. Upon completion of the Contract, meet all requirements for retaining public records and transfer, at no cost to the Aviation Authority, all public records in possession of the Contractor or keep and maintain public records required by the Aviation Authority to perform the service. If the Contractor transfers all public records to the Aviation Authority upon completion of the Contract, the Contractor shall, upon termination of the Contract, destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the Aviation Authority, upon request from the Aviation Authority's custodian of public records, in a format that is compatible with the information technology systems of the Aviation Authority. If a Contractor does not comply with a public records request, the Aviation Authority shall enforce the Contract provisions in accordance with the Contract.

5.47 Federal Compliance Provisions

Contractor agrees to recognize and comply with all applicable standards, orders or regulations issued pursuant to 2 C.F.R. Part 200, Appendix II. Standards, orders or regulations that are not applicable to the scope of work will not be required of the Contractor. To the extent applicable, the Contractor shall cause the inclusion of the provisions of these provisions in all subcontracts.

a. **Equal Employment Opportunity:** For any federally assisted construction Contract, as defined in 41 CFR 60-1.3, the Contractor, Subcontractor, subrecipient shall follow all of the requirements of the Equal Opportunity Clause as stated in 41 CFR 60-1.4.

b. **Davis–Bacon Act:** For any federally assisted construction Contract, in excess of two thousand dollars ($2,000), the Contractor, Subcontractor, subrecipient shall comply with all of the requirements of the Davis-Bacon Act (40 U.S.C. 3141 – 3148) as supplemented by Department of Labor Regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and assisted Construction"); and the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). For a definition of "Construction" see 48 CFR 2.101.

c. **Contract Work Hours and Safety Standards Act:** For any federally assisted Contract, in excess of one hundred thousand dollars ($100,000), that involves the employment of mechanics or laborers, the Contractor, Subcontractor,

subrecipient shall comply with all of the requirements of the Contract work Hours and Safety Standards Act (40 U.S.C. 3702 and 3704), as supplemented by Department of Labor Regulations (29 CFR Part 5).

d. **Byrd Anti-Lobbying Amendment (31 U.S.C. 1352):** Contractors that apply or Bid for an award exceeding one hundred thousand dollars ($100,000) must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal Contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

e. **Debarment and Suspension**:

1) Non-federal entities and Contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *e ar ent and S s ension* (1986) and Executive Order 12689, *e ar ent and S s ension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security s regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

2) Upon request, the vendor agrees to provide the Aviation Authority with subsequent certification(s) for it and/or its suppliers, Subcontractors and subconsultants after Contract award.

a) This Contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the vendor is required to verify that none of the vendor, its principals (defined at 2 C.F.R. § 80.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

b) The vendor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

c) This certification is a material representation of fact relied upon by County (subgrantee). If it is later determined that the vendor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Federal Government serving as grantee and the Aviation Authority as subgrantee, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

d) The vendor must comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this order/Contract is valid. The vendor further agrees to include a provision requiring such compliance in its lower tier covered transactions.

f. **Clean Air Act and the Federal Water Pollution Control Act:** For any federally assisted Contract, or subgrant, in excess of one hundred and fifty thousand dollars ($150,000), the Contractor, Subcontractor, subrecipient or subgrant recipient shall comply with all of the requirements of the Clean Air Act (42 U.S.C. 7401 -7671q.) and the Federal water Pollution Control Act as amended (33 U.S.C. 1251 – 1387).

g. **Energy Policy and Conservation Act**: The Contractor agrees to comply with the mandatory standards and policies relating to energy efficiency contained in the state energy conservation plan issued in compliance with the Energy Policy and Conservation Act 42 U.S.C. 6201.

h. **Federal System for Award Management**: A order/Contract shall not be made to parties listed on the government-wide exclusions set forth in the System for Award Management ("SAM") (found at www.sam.gov), which contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory Aviation Authority.

i. **Title Vi List of Pertinent Nondiscrimination Acts And Authorities**
During the performance of this Contract, the Contractor, for itself, its assignees, and successors in interest (hereinafter referred to as the "Contractor") agrees to comply with the following nondiscrimination statutes and authorities; including but not limited to:

1) Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d *et se* ., 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
2) 49 CFR part 21 (Non-discrimination In Federally-Assisted Programs of The Department of Transportation—Effectuation of Title VI of The Civil Rights Act of 1964);
3) The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (42 U.S.C. § 4601), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
4) Section 504 of the Rehabilitation Act of 1973, (29 U.S.C. § 794 *et se* .), as amended, (prohibits discrimination on the basis of disability); and 49 CFR part 27;
5) The Age Discrimination Act of 1975, as amended, (42 U.S.C. § 6101 *et se* .), (prohibits discrimination on the basis of age);
6) Airport and Airway Improvement Act of 1982, (49 USC § 471, Section 47123), as amended, (prohibits discrimination based on race, creed, color, national origin, or sex);

7) The Civil Rights Restoration Act of 1987, (PL 100-209), (Broadened the scope, coverage and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms "programs or activities" to include all of the programs or activities of the Federal-aid recipients, subrecipients and Contractors, whether such programs or activities are Federally funded or not);
8) Titles II and III of the Americans with Disabilities Act of 1990, which prohibit discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities (42 U.S.C. §§ 12131 – 12189) as implemented by Department of Transportation regulations at 49 CFR parts 37 and 38;
9) The Federal Aviation Administration's Non-discrimination statute (49 U.S.C. § 47123) (prohibits discrimination on the basis of race, color, national origin, and sex);
10) Executive Order 12898, Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations, which ensures non-discrimination against minority populations by discouraging programs, policies, and activities with disproportionately high and adverse human health or environmental effects on minority and low-income populations;
11) Executive Order 13166, Improving Access to Services for Persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination because of limited English proficiency (LEP). To ensure compliance with Title VI, you must take reasonable steps to ensure that LEP persons have meaningful access to your programs (70 Fed. Reg. at 74087 to 74100);
12) Title IX of the Education Amendments of 1972, as amended, which prohibits you from discriminating because of sex in education programs or activities (20 U.S.C. 1681 et seq).

j. **Procurement of Recovered Materials:**

1) In the performance of this Contract, the Contractor shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired.
2) Competitively procured within a timeframe providing for compliance with the Contract performance schedule;
3) Meeting Contract performance requirements; or
4) At a reasonable price.
5) Information about this requirement, along with a list of EPA-designated items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.
6) Awarded Contractors are required to fully comply with all requirements outlined in 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

5.48 Federal Emergency Management Agency (FEMA) Contract Requirements

In the event of a hurricane, civil disturbance, or other declared emergency, the Contractor will be required to begin response within one hour after notification and be on site no later than two hours after notification unless there are circumstances beyond control of the Contractor (roadway damage, etc.). **Cost of the service will be at the standard or non-standard working hours at the discretion of the Aviation Authority**. If State of Florida declares a State of Emergency, Contractor agrees to the terms outlined in the Federal Emergency Management Agency (FEMA) Contract Requirements. **https://www.fema.gov/grants/procurement**

5.49 Additional FEMA Requirements.

The Uniform Rules authorize FEMA to require additional provisions for non - Federal entity Contracts. FEMA, pursuant to this Aviation Authority, may require the following:

1) Access to Records. The following access to records requirements apply to this Contract:

   a) The Contractor agrees to provide the Florida Division of Emergency Management, Greater Orlando Aviation Authority, Orlando, Florida, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this Contract for the purposes of making audits, examinations, excerpts, and transcriptions.

   b) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

   c) The Contractor agrees to provide the FEMA Administrator or his authorized representatives' access to construction or other work sites pertaining to the work being completed under the Contract.

   d) In compliance with the Disaster Recovery Act of 2018, the non-federal entity and the Contractor acknowledge and agree that no language in this Contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

2) Compliance with Federal Law, Regulations, and Executive Orders.

   This is an acknowledgement that FEMA financial assistance will be used to fund the Contract only. The Contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

3) No Obligation by Federal Government.

The Federal Government is not a party to this Contract and is not subject to any obligations or liabilities to the non -- Federal entity, Contractor, or any other party pertaining to any matter resulting from the Contract.

4) Program Fraud and False or Fraudulent Statements or Related Acts.

The Contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Contractor s actions pertaining to this Contract.

5.50 AMERICANS WITH DISBAILITIES ACT

GOAA does not discriminate upon the basis of any individual's disability status. Anyone requiring reasonable accommodations as provided for the Americans with Disabilities Act or Section 86.26, Florida Statutes, should contact Amy Pendley, ADA Coordinator at 407-825-2006 as soon as possible, at least one full business day prior to any scheduled meeting.

6.0 CONTRACT

6.1 Contract Instructions

The Aviation Authority shall notify the Proposer of the Aviation Authority's intent to make an award and the Proposer shall submit a properly executed Contract within ten (10) calendar days of receipt of notice from the Notice of Intent. Unless such time is extended by the Aviation Authority, the failure of a Proposer to submit a properly executed form within said time period shall be cause for cancellation of the intended award by the Aviation Authority in its sole discretion. In the event that an intended award is cancelled, the award may then be made to the next lowest responsive and responsible Proposer. Unless otherwise agreed by the Aviation Authority in its sole discretion, the Contract shall be executed and notarized as follows:

a. If the Contractor is a corporation, the Contract shall be signed by an authorized corporate officer (i.e., President, Vice President, C.E.O, or C.O.O.).

b. If Contractor is a Partnership, the Contract shall be signed by a general or managing partner.

c. If the Contractor is a Limited Liability Company, the Contract shall be signed by a Manager or Managing Member having Aviation Authority to bind the company.

d. If Contractor is a sole proprietorship, the owner shall sign the Contract.

If an aforementioned signatory is not available and a different authorized signatory executes the form, a letter of authorization reflecting the signatory's Aviation Authority shall be submitted on the Contractor's stationery stating that the person who signed the form is duly authorized to enter into such Contract on behalf of the Contractor. Such letter of authorization shall be signed by one of the designated signatories above or such other representative as may be acceptable to the Aviation Authority.

If a Proposal is accepted by the Aviation Authority, the Contract will be executed by the Aviation Authority with respect to the items awarded and returned to the Contractor evidencing the Aviation Authority's acceptance of the Proposal. No award shall be final, and no Contractor shall have any entitlement to a Contract or award, until such time as the Aviation Authority has executed the Contract. Upon execution by both parties, the Contract will constitute the formal written Contract between the Aviation Authority and the Contractor.

6.2 Contract

This Agreement/Contract is made and entered into effective as of the _____ day of_____ **2023** , by and between the **GREATER ORLANDO AVIATION AUTHORITY**, a public and governmental body, existing under and by virtue of the laws of the State of Florida, hereinafter called the Aviation Authority, and _____, hereinafter called Contractor.

WITNESSETH, that the said Contractor, for and in consideration of the payments hereinafter specified and agreed to be made by the Aviation Authority, hereby covenants and agrees to provide all labor, supervision, management oversight, training, materials, tools, equipment, submissions, reports, consumables, uniforms and all other items and services necessary, proper for, or incidental to performing twenty-four (24) hours per day seven (7) days per week, on-site maintenance, repair and operation, Corrective Maintenance (CM), Preventative Maintenance (PM) and Predictive Maintenance (PdM), to utilize, generate and maintain data into the specified site of the Aviation Authority's Enterprise Asset Management System EAMS Maximo, the management of spare parts inventory for the Baggage Handling System (BHS) Operation, Maintenance and Repair Services and all other items necessary or proper for, or incidental to, performing its obligations under **Purchasing Proposal 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services**, at the Orlando International Airport, in accordance with the Contract Documents which consist of the Contract, Proposal Price Form Page, the General Information, the Special Conditions, the Specifications, the Terms and Conditions, the Federal Provisions, any Addenda issued prior to the execution of the Contract, and the Request for Proposals, each of which are incorporated herein by this reference.

If the Contractor shall fail to comply with any of the terms, conditions, provisions, or stipulations of the Contract Documents, then the Aviation Authority may avail itself of any or all remedies provided in the Contract Documents, or which are otherwise available by applicable law or in equity, and shall have the right and power to proceed in accordance with the provisions thereof.

An extension of time for performance shall be the Contractor's sole and exclusive remedy for any delay of any kind or nature caused by Aviation Authority, and in no event shall Contractor be entitled to recover from Aviation Authority any indirect, incidental, special or consequential damages in any proceeding arising out of or relating to this Contract or the breach thereof.

It is also agreed and understood that the acceptance of the last payment pursuant to the Terms and Conditions for work performed hereunder by the Contractor shall be considered as a release in full of all claims against Aviation Authority and its members, officers, agents and employees arising out of, or by reason of, the Contract obligations or work.

In consideration of the Contractor's obligations set forth in the Contract Documents, Aviation Authority agrees to pay to the Contractor upon satisfactory completion of such obligations, and subject to the Contract provisions, the compensation as set forth in **Proposal Price Form Page** subject to such additions and deductions as may be provided in the Contract Documents and any duly approved and executed amendments thereto.

IN WITNESS WHEREOF, the said **GREATER ORLANDO AVIATION AUTHORITY** has caused this Contract to be executed in its name by its Chief Executive Officer, attested by its Secretary or Assistant Secretary, and the said Contractor has hereunto set its hand and seal.

GREATER ORLANDO AVIATION AUTHORITY

KNOW ALL MEN BY THESE PRESENTS that_____
_____, hereinafter called Principal, and
_____
_____, a corporation organized under the laws of the State of _____ and licensed to do business in the State of Florida, hereinafter called Surety, are held and firmly bound unto the Greater Orlando Aviation Authority, hereinafter called Aviation Authority, in the Penal Sum of **Six Million Dollars ($6,000,000)**, for the payment of which sum well and truly made, Principal and Surety bind ourselves, our heirs, personal representatives, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, Principal has by written agreement entered into a Contract with Aviation Authority for **Contract 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services**, at Orlando International Airport, in accordance with the Contract Documents which are incorporated therein by reference and made a part thereof, and which collectively are herein referred to as the Contract.

WHEREAS, Surety is authorized to do business in the State of Florida.

NOW, THEREFORE, the condition of this obligation is such that if Principal:

1. Promptly and faithfully performs each of its obligations under said Contract, including, but not limited to, any warranty provisions, in the time and manner prescribed in the Contract; and

2. Pays Aviation Authority all losses, damages (liquidated or actual, including, but not limited to, damages caused by delays in the performance of Principal, or latent defects in the goods or services furnished by Principal), expenses, costs and attorneys' fees for and in connection with all trial and appellate proceedings, that Aviation Authority sustains resulting directly or indirectly from any breach or default by Principal under the Contract; and

3. Pays Aviation Authority all losses, damages, expenses, costs, attorneys' fees and other legal costs (including, but not limited to, those for investigative and legal support services) for and in connection with all trial, appellate and bankruptcy proceedings, that the Aviation Authority sustains resulting directly and indirectly from conduct of the Principal, including, but not limited to, want of care or skill, negligence, patent infringement, or intentionally wrongful conduct on the part of the Principal, its officers, agents, employees or any other person or

entity for whom the Principal is responsible, then this bond is void; otherwise it remains in full force and effect.

In the event that the Principal shall fail to perform any of the terms, covenants or conditions of the Contract during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Aviation Authority for all such loss or damage (including, but not limited to, reasonable attorneys' fees and other legal and court costs) resulting from or in connection with any failure to perform up to the amount of the Penal Sum.

In the event the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and save the Aviation Authority harmless from any and all loss, damage, cost and expense, including, but not limited to, reasonable attorneys' fees and other legal and court costs for all trial, appellate and bankruptcy proceedings, resulting directly or indirectly from or in connection with the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond. The obligations set forth in this paragraph shall not be limited by the Penal Sum of this Bond.

The Surety's obligations hereunder shall be direct and immediate and not conditional or contingent upon Aviation Authority's pursuit of its remedies against Principal, and shall remain in full force and effect notwithstanding (i) amendments or modifications to the Contract entered into by Aviation Authority and Principal without the Surety's knowledge or consent, (ii) waivers of compliance with or any default under the Contract granted by Aviation Authority to Principal without the Surety's knowledge or consent, (iii) the discharge of Principal from its obligations under the Contract as a result of any proceeding initiated under the Bankruptcy Code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability of Principal or its estate as a result of any such proceeding, or (iv) any other action taken by Aviation Authority or Principal that would, in the absence of this clause, result in the release or discharge by operation of law of the Surety from its obligations hereunder.

The institution of suit upon this Bond is subject to the limitations period in accordance with Section 95.11, Florida Statutes.

Any changes in or under the Contract Documents (which include, but are not limited to, the Specification and compliance or noncompliance with any formalities connected with the Contract or the changes therein shall not affect Surety's obligation under this Bond, and Surety hereby waives notice of any such changes. Further, Principal and Surety acknowledge that the Penal Sum of this bond shall be increased or the term of this bond extended in accordance with any amendments or other modifications to the Contract Documents entered into by Aviation Authority and Principal.

IN WITNESS WHEREOF, the Principal and Surety have executed this instrument under their several seals on the _____ day of _____, 20____, the name and corporate seal of each corporate party being hereto affixed and these presents fully signed by its undersigned representative, pursuant to the authority of its governing body.

IRREVOCABLE STAND-BY LETTER OF CREDIT

_____ [Date]

IRREVOCABLE LETTER OF CREDIT NO. _____

EXPIRY DATE: _____

AGGREGATE AMOUNT:**$6,000,000**

BENEFICIARY: Greater Orlando Aviation Authority
One Jeff Fuqua Boulevard
Orlando, FL 32827-4399

Dear Sir or Madam:

On behalf of _____ [Company Name] (the "Company"), we hereby issue this irrevocable stand-by letter of credit in your favor up to the aggregate amount stated above, available by one or more sight drafts drawn by you on us.

Each draft hereunder must state "Drawn on _____ [Bank Name] Irrevocable Letter of Credit No. _____, dated _____," and must be accompanied by a statement in the form attached hereto as Exhibit A (which is incorporated in this letter of credit by this reference). Such statement must be signed by the Chief Executive Officer of the Greater Orlando Aviation Authority (the "Aviation Authority"), or designee, and must provide the following:

A. Certification that the Company has failed to faithfully perform one or more of its obligations to the Aviation Authority under that certain **Contract 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services**, at Orlando International Airport, as such may be amended from time to time, by and between the Company and the Aviation Authority (the "Agreement"); and

B. Certification of the amount of damages or expenses which, in his belief or determination, the Aviation Authority has suffered or incurred, or is likely to suffer or incur, as a result of such failure by the Company; or

C. Certification (1) that the Company has failed to provide to the Aviation Authority an acceptable surety bond or stand-by letter of credit to replace this letter of credit, on or before the date the same was due under the terms of the Agreement in accordance with such terms, and (2) certification of the amount of the required replacement surety bond or letter of credit.

Additionally, each draft drawn hereunder shall be paid from the funds of _____ [Bank Name]. If a drawing is made by you hereunder at or prior to 11:00 a.m., local time, on a business day, payment shall be made to you or to your designee of the amount specified at our branch where such drawing is made, in immediately available funds, not later than 3:00 p.m., such local time, on the same business day or such later time and business day as you may specify. If a drawing is made by you after 11:00 a.m., such local time, on a business day, payment shall be made to you or to your designee of the amount specified, in immediately available funds, not later than 3:00 p.m., such local time, on the next business day thereafter, or such later time and business day as you may specify.

This letter of credit is subject to the Uniform Customs and Practice for Documentary Credits (2007 Rev.), International Chamber of Commerce Publication No. 600, except that, notwithstanding the provisions of Article 36 thereof to the contrary, if this letter of credit would have otherwise expired by its terms during a period when our business has been interrupted by Acts of God or other causes beyond our control, our obligations hereunder shall continue for thirty (30) days following the date of our resumption of normal business operations.

We hereby engage with you that all drafts drawn hereunder in compliance with the terms of this credit will be duly honored upon presentation to us as provided herein.

7.0 PROPOSAL SUBMITTAL REQUIREMENTS

7.1 Opening

a. Sealed proposals are exempt in accordance with Florida Statute 119.071(1) (b) 2. The names of the firms submitting a competitive solicitation will be read aloud at the time of the opening. No details of the competitive solicitation will be released until such time as the Aviation Authority provides notice of an intended decision or until 30 days after opening the bids, proposals, or final replies, whichever is earlier.

b. Submittals must be submitted no later than **11:00 a.m. Eastern Time on Thursday, January 12, 2023** in sealed envelopes bearing the words "**Purchasing Proposal 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services,, for the Orlando International Airport".**

c. Each Proposer shall submit three (3) complete sets of the Submittal:

One hardcopy marked "ORIGINAL".

One hardcopy marked "COPY".

One COMPLETE electronic copy on a USB drive in PDF format. The Submittal in PDF format shall have *na i ational oo ar s* inserted in lieu of any tabs required in the hard copy. The entire submittal shall not exceed a single USB Flash Drive. In cases where there are discrepancies between the electronic PDF and hard copy, the hard copy shall take precedence.

7.2 Delivery of Proposal

a. It is the sole responsibility of the Proposer to ensure that their submittal reaches the Purchasing Department. All proposals, unless otherwise specified, must be delivered to the following address no later than the time and date specified in the solicitation:

Greater Orlando Aviation Authority
GOAA Annex Building,
Purchasing Department
5855 Cargo Road, Orlando, FL 32827- 4399

b. Proposer should include the Proposal Number and Name, Name and Address of Proposer, and the Date of the opening on the outside of the box or envelope. Proposals submitted by e-mail, telephone or fax shall not be accepted. An e-mailed or a faxed submittal shall be rejected as non-responsive regardless of where or when it is received.

Proposers are cautioned that they are solely and strictly responsible for delivery to the specific location cited prior to the specified opening date and time. Therefore,

if your submittal is delivered by an express mail carrier or by any other means, it is solely your responsibility to ensure delivery to the above address.

d. **The time/date stamp clock located in the Purchasing Department shall serve as the official authority to determine lateness of any Submittal. The Submittal time shall be scrupulously observed. Under no circumstances shall Submittals delivered after the time specified be considered. Late Submittals will be returned unopened.**

7.3 Proposal Submittal and Format Requirements

a. In order to have a Proposal considered by the Aviation Authority, the Proposer must submit a complete Proposal. The Proposal requirements in this section are not meant to limit creativity in the presentation of a Proposal, but rather to list the minimum criteria elements that must be included in the Proposal. It is the Proposer's responsibility to incorporate all pertinent information to effectively present a Proposal Response and to communicate the Proposer's concept and meeting the requirements as listed in Section 2.2 Proposal Requirements and Section 2.3. Evaluation of Proposal Criteria.

b. The Proposer should prepare its proposal simply and economically, providing a straightforward, concise description of the Proposer's capability to satisfy the conditions and requirements of this competitive solicitation. Material shall be submitted in a loose leaf binder format, not as bound documents or with coil spines (plastic or metal).

c. To expedite the Aviation Authority's evaluation of the proposal, Proposals shall include the information requested in a single volume, with each response tabbed, numbered and ordered in the same manner as provided in this RFP. The information should be submitted on one-sided 8.5 X 11 inch pages in Arial font with no smaller than 12-pitch font, excluding required Attachments as listed in Tab 10, no more than 100 pages.

Tab 1 – Table of Contents

Please insert a set of tabs to identify each part of the Proposal to facilitate quick reference.

Tab 2 - Executive Summary

A. **General Company Information** - Provide the name of Proposer's company (including the name of any parent company), Include:

1. Contact name and complete contact information of individual responsible for account ("Lead Individual").

2. Type of organization (corporation, sole proprietor, partnership, other).

3. Federal employer identification number.

B. **Cover Letter** - The cover letter shall be signed by an authorized representative of the Proposer. The letter should indicate the Proposer's commitment to provide the services proposed and include the following:

1. Proposer must certify in writing with its Proposal that Proposer is registered to do business in the State of Florida. Please include a copy of such registration to the Aviation Authority with the RFP submission.

2. An affirmative statement that it is independent of the Aviation Authority.

3. An executive summary that is a brief overview of the overall strategy for implementation, and why their company is qualified to be selected.

4. Proposer shall have a minimum of **five** (**5**) years of continuous and recent experience providing services of the type described in the Scope of Services above, prior to the deadline of this RFP. Cover letter shall include an affirmative statement and documentary proof of such experience with the Proposal submission.

5. If the Proposer is a joint venture or partnership, the Experience and Qualifications may be satisfied by the Joint Venture or Partnership entity. Please state whether the entity is currently in existence, is being formed specifically for this project, or whether it will be formed upon award. If the Joint Venture is formed specifically for this agreement/project or will be formed upon award, please provide a copy of the Joint Venture or Partnership Agreement with the RFP.

Tab 3 - Proposer's Knowledge and Experience

A. **Proposer's knowledge and experience, including:**

1. Contracts (in similar size and scope to this RFP), with brief descriptions that demonstrate Proposer's experience in providing Baggage Handling System (BHS) Operation, Maintenance and Repair Services,

2. Company track record: Provide a summary of the company's background, history, locations, number of years in business, the total number of employees, key personnel, qualifications, experience, how business is organized, and notable achievements.

B. Key Personnel

1. The Proposer shall identify the Site Manager to be assigned to the Aviation Authority's account who has at least seven (7) years of successful experience in managing maintenance service operations with at least five (5) year experience in the aviation, baggage, material-handling industry, describing the Lead Individual's experience, which is with similar scope to that of the Orlando International Airport.

2. Provide names and titles of key personnel and an organizational chart of your proposed project team. Provide professional resumes of all key personnel.

3. Describe the key personnel experience with similar scope to that of the Orlando International Airport. Key personnel shall have at least five (5) years' experience in maintenance service operations with a minimum of three (3) years' experience in a baggage handling system environment with similar scope to that of the Orlando International Airport.

4. Proposer understands that the qualifications and experience of key personnel proposed will be factored into the evaluation process; therefore, key personnel must not be replaced without the approval of the Aviation Authority. Any approved substitutions must be with personnel of equal or better qualifications. In addition, any other commitments must not conflict with the level of commitment proposed for this project.

Tab 4 – References

The Proposers' references should demonstrate that it has the experience required, and reasonably has the reputation, to perform the Scope of Services described. It is the responsibility of the Proposer to provide references and information that most closely demonstrate experience with airport or public entity accounts of similar size, complexity, and risk exposure as the Aviation Authority. References shall be for work **substantially similar in scope and magnitude** shall be able to validate the Proposer's capabilities and experience.

1. Provide as many examples as relevant, up to a maximum of five (5) examples of airport and/or governmental entities Contracts, preferably in similar size and scope to this RFP, with brief descriptions that demonstrate the Proposer's experience relative to the Scope of Services listed in Section 4.0. A contact person shall be someone who has personal knowledge of the Proposer's performance for the specific requirement listed. Contact person must have been informed that they are being used as a reference and that the Aviation Authority may be contacting them. Do not list persons who will be unable to answer the specific questions regarding the requirements.

2. Proposer shall provide the following information for each reference:

    a) Name
    b) Address
    c) Contact person
    d) Telephone number and email address of contact person
    e) Brief Description of Major Project Components

        1) Overview of Work Performed
        2) Proposer's Role and Lead Individual and summary of work performed by Proposer. Indicate which team member(s) provided services.
        3) Provide the name of the firm member working with your firm that was the primary contact for the reference provided.

    f) Date of Services/Status (current or past client)

3. The Proposer authorizes the Aviation Authority, its staff or consultants to contact any of the references provided in the response and specifically authorizes such references to release either orally or in writing, any appropriate data with respect to the Proposer and its Engagement Team members.

4. Provide a list of all clients to whom the Proposer has provided the Baggage Handling System (BHS) Operation, Maintenance and Repair Services, Services on or after January 1, 2018, and to which any such services terminated prior to the end of the Agreement term. If services were terminated, the Proposer shall explain why.

Tab 5 – Operational Plans

A. **Management and Staffing Plan**: Describe in detail the proposed staffing plan necessary to meet or exceed the requirements of this Contract.

B. **Transition Plan**: Describe in detail the process that would be followed to implement the services to be provided pursuant to the Scope of Services. This plan shall also include time frames and information that would be required for such services to be fully operational and include a sample timeline (with an explanation of how this timeline would be used in the transition process.)

C. **Training Plan**: Describe in detail the training plan to ensure quality standards are met and all Contractor's employees are up-to-date in maintenance processes, procedures, and safety regulations.

D. **MWBE/LDB Participation Plan or Good Faith Effort**

Tab 6 – Proof of Insurance

A. all portions listed in Section 3.7 Insurance Requirements by providing evidence of one of the following:

1. Certificate of Insurance on Accord form or form acceptable to Aviation Authority,
2. or signed affirmation of ability to comply from a licensed insurance agent,
3. or an insurance quote.

B. If awarded a Contract and prior to Notice to Proceed, Proposer must attain and provide a Certificate of Insurance in compliance with Section 3.7 Insurance Requirements.

Tab 7 – Prior or Pending Convictions, Indictments, Investigations, Regulatory Investigations, Conflicts Of Interest, and Claims

A. The Proposer shall provide a description of all prior or pending convictions, indictments, investigations, and regulatory investigations, either civil or criminal that relate to conducting Baggage Handling System (BHS) Operation, Maintenance And Repair Services, in which Proposer or its affiliates, subsidiaries, parent company, directors, senior officers, senior regional officers, the Lead Individual, or Engagement Team members have been involved with in the last five (5) years immediately preceding the date of Proposer's response to this RFP. Or provide an affirmative statement that there are none.

B. Conflicts of Interest

Describe any conflicts of interest with the Aviation Authority that the Proposer's firm has or may have and how that conflict of interest would be mitigated, or provide an affirmative statement that there are none.

C. Claims Information

Disclose all lawsuits, arbitrations and claims filed or raised by or against the Proposer over the last five (5) years, specifically identifying the project involved; The parties involved, The nature of the claim(s), Amount at issue, Disposition or status and Litigation, case style, number, and jurisdiction.

Tab 8 - Financial Background Information

Include the following historical financial information for the Proposer. If Proposer is a joint venture, partnership or LLC, then the following information must be submitted for each separate entity in the joint venture, partnership or LLC:

A. Provide current Dun & Bradstreet or Standard and Poor's Summary, if available. If a summary is unavailable, state the reason.

B. Proposers must provide most recent audited annual financial statements for the last two years in order to evaluate the Proposer's ability to perform these Services. If audited annual financial statements are not available, provide balance sheets, income statements, and cash flow statements for the last two years.

C. This financial documentation shall be submitted in a sealed envelope, and included only with the original copy of the printed RFP. The sealed envelope should be clearly labeled as follows: **"Confidential Financial Records Submitted under Seal and Exempt from Florida Public Records Disclosure". Include the RFP NO: and Title: 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services, and the Proposer's firm name on the sealed envelope.** (Reference Florida Statutes Section 119.071(1)(c) for exemption on financial records.)

Tab 9 – Additional Information

If there is no additional information provide a statement: "No additional information."

Tab 10 – Attachments (Forms to be turned in to the Aviation Authority)

Attachment H - Current W9

Request for Taxpayer Identification Number and Certification ▶

Go to www.irs.gov/FormW9 for instructions and the latest information.

Attachment I - Letter of Bondability or Letter of Credit

As described in Section Three – Special Conditions the Performance Bond the Aviation Authority will not accept any change or modification to the forms of Performance Bond or Letter of Credit contained in the Submittal Documents.

Each Proposer shall provide with its Submittal a Letter of Bondability on a surety company letterhead or a letter from a US Bank for a letter of credit confirming that Proposer can obtain one or the other and understands only the Performance Bond or Letter of Credit form will be accepted.

Attachment J – E-Verification Certification Form

Effective January 1, 2021, public and private employers, contractors and subcontractors will be required to register with, and use the Employment Eligibility Verification System (E-Verify) to verify the work authorization status of all newly hired employees. The E-Verify system can be obtained at the U.S. Department of Homeland Security website: http://www/dhs.gov/E-Verify.

_____ means a person or entity that has entered or is attempting to enter into a contract with a public employer to provide labor, supplies, or services to such employer in exchange for salary, wages, or other remuneration (also referred to as Bidder, Vendor or Contractor).

_____ means a person or entity that provides labor, supplies, or services to or for a contractor or another subcontractor in exchange for salary, wages, or other remuneration (also referred to as Sub- Vendor or Sub-Contractor).

Vendor/Contractor/Subcontractor acknowledges and agrees to utilize the U.S. Department of Homeland Security's E-Verify System to verify the employment eligibility of:

- All persons employed by Vendor/Contractor/Sub-Contractor during the term of the contract, (including assigned sub-vendors/sub-contractors/sub-contractors), to perform employment duties within Florida and any work in pursuant to the contract with the Aviation Authority.
