The Greater Orlando Aviation Authority (GOAA) uses an online solicitation platform powered by Mercell Source-to-Contract (formerly knowns as Negometrix USA) to:

- Post only for Request for Proposals (RFP), Invitation For Bids (IFB) and Statement of Qualifications (SOQ)
- Post and accept submissions for Request For Quotes (RFQ) and Request for Information (RFI)

GOAA encourages you to register on the Mercell USA platform and to add commodity codes to your account so that you will automatically be notified of solicitation opportunities with GOAA that may be of interest to your firm.

Register on Mercell Source-to-Contract

Registration is a simple and free process that takes only a few minutes. Please click the link below and fill out the registration form. If you already have a Mercell Source-to-Contract (Negometrix 4) profile, you will not need to register again to participate in GOAA bids. https://app.negometrix.com/registration.

You can find all current GOAA bids at: https://app.negometrix.com/buyer/5681

Additional Information

Vendors can check out the support video in the link below for a full walkthrough of the Mercell Source-to-Contract platform, after registering to submitting your first solicitation: https://youtu.be/4mpFfFaPp2M

Need Assistance?

The Service Desk for the Mercell Source-to-Contract platform is available from Monday – Friday, 7:00 am – 11:00 am EST for any assistance you may need. You can check out frequently asked questions on their Support Page

https://help.negometrix.com/en/support/home, or find the contact information below:

Contract

This Agreement/Contract is made and entered into effective as of the **1st** day of **April** **2023**, by and between the **GREATER ORLANDO AVIATION AUTHORITY**, a public and governmental body, existing under and by virtue of the laws of the State of Florida, hereinafter called the Aviation Authority, and **JSM Airport Services, LLC**, hereinafter called Contractor.

WITNESSETH, that the said Contractor, for and in consideration of the payments hereinafter specified and agreed to be made by the Aviation Authority, hereby covenants and agrees to provide all labor, supervision, management oversight, training, materials, tools, equipment, submissions, reports, consumables, uniforms and all other items and services necessary, proper for, or incidental to performing twenty-four (24) hours per day seven (7) days per week, on-site maintenance, repair and operation, Corrective Maintenance (CM), Preventative Maintenance (PM) and Predictive Maintenance (PdM), to utilize, generate and maintain data into the specified site of the Aviation Authority's Enterprise Asset Management System EAMS Maximo, the management of spare parts inventory for the Baggage Handling System (BHS) Operation, Maintenance and Repair Services and all other items necessary or proper for, or incidental to, performing its obligations under **Purchasing Proposal 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services, at the Orlando International Airport**, in accordance with the Contract Documents which consist of the Contract, Proposal Price Form Page, the General Information, the Special Conditions, the Specifications, the Terms and Conditions, the Federal Provisions, any Addenda issued prior to the execution of the Contract, and the Request for Proposals, each of which are incorporated herein by this reference.

If the Contractor shall fail to comply with any of the terms, conditions, provisions, or stipulations of the Contract Documents, then the Aviation Authority may avail itself of any or all remedies provided in the Contract Documents, or which are otherwise available by applicable law or in equity, and shall have the right and power to proceed in accordance with the provisions thereof.

An extension of time for performance shall be the Contractor's sole and exclusive remedy for any delay of any kind or nature caused by Aviation Authority, and in no event shall Contractor be entitled to recover from Aviation Authority any indirect, incidental, special or consequential damages in any proceeding arising out of or relating to this Contract or the breach thereof.

It is also agreed and understood that the acceptance of the last payment pursuant to the Terms and Conditions for work performed hereunder by the Contractor shall be considered as a release in full of all claims against Aviation Authority and its members, officers, agents and employees arising out of, or by reason of, the Contract obligations or work.

In consideration of the Contractor's obligations set forth in the Contract Documents, Aviation Authority agrees to pay to the Contractor upon satisfactory completion of such obligations, and subject to the Contract provisions, the compensation as set forth in **Proposal Price Form Page** subject to such additions and deductions as may be provided in the Contract Documents and any duly approved and executed amendments thereto.

IN WITNESS WHEREOF, the said **GREATER ORLANDO AVIATION AUTHORITY** has caused this Contract to be executed in its name by its Chief Executive Officer, attested by its Secretary or Assistant Secretary, and the said Contractor has hereunto set its hand and seal.

Performance Bond Expiration Date: 03/31/2024

PERFORMANCE BOND FORM

GREATER ORLANDO AVIATION AUTHORITY

KNOW ALL MEN BY THESE PRESENTS that JSM Airport Services, LLC, hereinafter called Principal, and NGM Insurance Company, a corporation organized under the laws of the State of Florida and licensed to do business in the State of Florida, hereinafter called Surety, are held and firmly bound unto the Greater Orlando Aviation Authority, hereinafter called Aviation Authority, in the Penal Sum of **Six Million Dollars ($6,000,000)**, for the payment of which sum well and truly made, Principal and Surety bind ourselves, our heirs, personal representatives, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, Principal has by written agreement entered into a Contract with Aviation Authority for **Contract 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance And Repair Services**, at Orlando International Airport for the term of 04/01/2023 to 03/31/2024, in accordance with the Contract Documents which are incorporated therein by reference and made a part thereof, and which collectively are herein referred to as the Contract.

WHEREAS, Surety is authorized to do business in the State of Florida.

NOW, THEREFORE, the condition of this obligation is such that if Principal:

1. Promptly and faithfully performs each of its obligations under said Contract, including, but not limited to, any warranty provisions, in the time and manner prescribed in the Contract; and

2. Pays Aviation Authority all losses, damages (liquidated or actual, including, but not limited to, damages caused by delays in the performance of Principal, or latent defects in the goods or services furnished by Principal), expenses, costs and attorneys' fees for and in connection with all trial and appellate proceedings, that Aviation Authority sustains resulting directly or indirectly from any breach or default by Principal under the Contract; and

3. Pays Aviation Authority all losses, damages, expenses, costs, attorneys' fees and other legal costs (including, but not limited to, those for investigative and legal support services) for and in connection with all trial, appellate and bankruptcy proceedings, that the Aviation Authority sustains resulting directly and indirectly from conduct of the Principal, including, but not limited to, want of care or skill, negligence, patent infringement, or intentionally wrongful conduct on the part of the Principal, its officers, agents, employees or any other person or

DocuSign Envelope ID: EB27E0AE-3638-4C2B-8FDF-EEB27C05887B

entity for whom the Principal is responsible, then this bond is void; otherwise it remains in full force and effect.

In the event that the Principal shall fail to perform any of the terms, covenants or conditions of the Contract during the period in which this Performance Bond is in effect, the Surety shall remain liable to the Aviation Authority for all such loss or damage (including, but not limited to, reasonable attorneys' fees and other legal and court costs) resulting from or in connection with any failure to perform up to the amount of the Penal Sum.

In the event the Surety fails to fulfill its obligations under this Performance Bond, then the Surety shall also indemnify and save the Aviation Authority harmless from any and all loss, damage, cost and expense, including, but not limited to, reasonable attorneys' fees and other legal and court costs for all trial, appellate and bankruptcy proceedings, resulting directly or indirectly from or in connection with the Surety's failure to fulfill its obligations hereunder. This paragraph shall survive the termination or cancellation of this Performance Bond. The obligations set forth in this paragraph shall not be limited by the Penal Sum of this Bond.

The Surety's obligations hereunder shall be direct and immediate and not conditional or contingent upon Aviation Authority's pursuit of its remedies against Principal, and shall remain in full force and effect notwithstanding (i) amendments or modifications to the Contract entered into by Aviation Authority and Principal without the Surety's knowledge or consent, (ii) waivers of compliance with or any default under the Contract granted by Aviation Authority to Principal without the Surety's knowledge or consent, (iii) the discharge of Principal from its obligations under the Contract as a result of any proceeding initiated under the Bankruptcy Code of 1978, as the same may be amended, or any similar state or federal law, or any limitation of the liability of Principal or its estate as a result of any such proceeding, or (iv) any other action taken by Aviation Authority or Principal that would, in the absence of this clause, result in the release or discharge by operation of law of the Surety from its obligations hereunder.

The institution of suit upon this Bond is subject to the limitations period in accordance with Section 95.11, Florida Statutes.

Any changes in or under the Contract Documents (which include, but are not limited to, the Specification and compliance or noncompliance with any formalities connected with the Contract or the changes therein shall not affect Surety's obligation under this Bond, and Surety hereby waives notice of any such changes. Further, Principal and Surety acknowledge that the Penal Sum of this bond shall be increased or the term of this bond extended in accordance with any amendments or other modifications to the Contract Documents entered into by Aviation Authority and Principal.

DocuSign Envelope ID: EB27E0AE-3638-4C2B-8FDF-EEB27C05887B

IN WITNESS WHEREOF, the Principal and Surety have executed this instrument under their several seals on the _6th__ day of _____March_____, 20_23_, the name and corporate seal of each corporate party being hereto affixed and these presents fully signed by its undersigned representative, pursuant to the authority of its governing body.

NGM INSURANCE COMPANY
A member of The Main Street America Group

POWER OF ATTORNEY

KNOW ALL MEN BY THESE PRESENTS: That NGM Insurance Company, a Florida corporation having its principal office in the City of Jacksonville, State of Florida, pursuant to Article IV, Section 2 of the By-Laws of said Company, to wit:

> "SECTION 2. The board of directors, the president, any vice president, secretary, or the treasurer shall have the power and authority to appoint attorneys-in-fact and to authorize them to execute on behalf of the company and affix the seal of the company thereto, bonds, recognizances, contracts of indemnity or writings obligatory in the nature of a bond, recognizance or conditional undertaking and to remove any such attorneys-in-fact at any time and revoke the power and authority given to them. "

does hereby make, constitute and appoint **Courtney DeCroes** its true and lawful Attorney-in-fact, to make, execute, seal and deliver for and on its behalf, and as its act and deed, bond number S-319572 dated April 1, 2023.

on behalf of JSM AIRPORT SERVICES, LLC

in favor of Greater Orlando Aviation Authority

and to bind NGM Insurance Company thereby as fully and to the same extent as if such instrument was signed by the duly authorized officers of the NGM Insurance Company; the acts of said Attorney are hereby ratified and confirmed.

This power of attorney is signed and sealed by facsimile under and by the authority of the following resolution adopted by the Directors of NGM Insurance Company at a meeting duly called and held on the 2nd day of December 1977.

> Voted: That the signature of any officer authorized by the By-Laws and the company seal may be affixed by facsimile to any power of attorney or special power of attorney or certification of either given for the execution of any bond, undertaking, recognizance or other written obligation in the nature thereof; such signature and seal, when so used being hereby adopted by the company as the original signature of such officer and the original seal of the company, to be valid and binding upon the company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, NGM Insurance Company has caused these presents to be signed by its Vice President, General Counsel and Secretary and its corporate seal to be hereto affixed this 7th day of January, 2020.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

Schedule

Any Person or Organization on whose behalf you are required to obtain this waiver of our right to recover from under a written contract or agreement.

The premium charge for the endorsement is reflected in the Schedule of Operations.

All other terms and conditions of the policy remain unchanged.

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective Date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy unless another expiration date is shown below.

Amendment to Policy Declarations – Named Insured Endorsement

It is understood and agreed as follows:

The **Policy Declarations** is amended as follows:

A. Addition of **Named Insured**s:

The following are added as **Named Insured**s:

Name and Address of **Named Insured**
JSM & ASSOCIATES, LLC
JSM AIRPORT SERVICES LLC
JSM GLOBAL PROPERTIES LLC
470 COUNTY ROAD 448 TAVARES, FL 32778-6107

B. Deletion of **Named Insured**:

The following are deleted as **Named Insured**s:

All other terms and conditions of the Policy remain unchanged.

This endorsement, which forms a part of and is for attachment to the Policy issued by the designated Insurers, takes effect on the effective date of said policy at the hour stated in said Policy, unless another effective date is shown below, and expires concurrently with said Policy.

Copyright CNA All Rights Reserved.

1. ADDITIONAL INSUREDS

a. **WHO IS AN INSURED** is amended to include as an **Insured** any person or organization described in paragraphs **A.** through **I.** below whom a **Named Insured** is required to add as an additional insured on this **Coverage Part** under a written contract or written agreement, provided such contract or agreement:

(1) is currently in effect or becomes effective during the term of this **Coverage Part**; and

(2) was executed prior to:

(a) the **bodily injury** or **property damage**; or

(b) the offense that caused the **personal and advertising injury**,

for which such additional insured seeks coverage.

b. However, subject always to the terms and conditions of this policy, including the limits of insurance, the Insurer will not provide such additional insured with:

(1) a higher limit of insurance than required by such contract or agreement; or

(2) coverage broader than required by such contract or agreement, and in no event broader than that described by the applicable paragraph **A.** through **I.** below.

Any coverage granted by this endorsement shall apply only to the extent permissible by law.

A. Controlling Interest

Any person or organization with a controlling interest in a **Named Insured**, but only with respect to such person or organization's liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of:

1. such person or organization's financial control of a **Named Insured**; or

2. premises such person or organization owns, maintains or controls while a **Named Insured** leases or occupies such premises;

provided that the coverage granted by this paragraph does not apply to structural alterations, new construction or demolition operations performed by, on behalf of, or for such additional insured.

B. Co-owner of Insured Premises

A co-owner of a premises co-owned by a **Named Insured** and covered under this insurance but only with respect to such co-owner's liability for **bodily injury**, **property damage** or **personal and advertising injury** as co-owner of such premises.

C. Engineers, Architects or Surveyors Engaged By You

An architect, engineer or surveyor engaged by the **Named Insured**, but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** caused in whole or in part by the **Named Insured's** acts or omissions, or the acts or omissions of those acting on the **Named Insured's** behalf:

a. in connection with the **Named Insured's** premises; or

b. in the performance of the **Named Insured's** ongoing operations.

But the coverage hereby granted to such additional insureds does not apply to **bodily injury**, **property damage** or **personal and advertising injury** arising out of the rendering of or failure to render any professional services by, on behalf of, or for the **Named Insured**, including but not limited to:

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

1. the preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

2. supervisory, inspection, architectural or engineering activities.

D. Lessor of Equipment

Any person or organization from whom a **Named Insured** leases equipment, but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** caused, in whole or in part, by the **Named Insured's** maintenance, operation or use of such equipment, provided that the **occurrence** giving rise to such **bodily injury**, **property damage** or the offense giving rise to such **personal and advertising injury** takes place prior to the termination of such lease.

E. Lessor of Land

Any person or organization from whom a **Named Insured** leases land but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of the ownership, maintenance or use of such land, provided that the **occurrence** giving rise to such **bodily injury**, **property damage** or the offense giving rise to such **personal and advertising injury** takes place prior to the termination of such lease. The coverage granted by this paragraph does not apply to structural alterations, new construction or demolition operations performed by, on behalf of, or for such additional insured.

F. Lessor of Premises

An owner or lessor of premises leased to the **Named Insured**, or such owner or lessor's real estate manager, but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of the ownership, maintenance or use of such part of the premises leased to the **Named Insured**, and provided that the **occurrence** giving rise to such **bodily injury** or **property damage**, or the offense giving rise to such **personal and advertising injury**, takes place prior to the termination of such lease. The coverage granted by this paragraph does not apply to structural alterations, new construction or demolition operations performed by, on behalf of, or for such additional insured.

G. Mortgagee, Assignee or Receiver

A mortgagee, assignee or receiver of premises but only with respect to such mortgagee, assignee or receiver's liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of the **Named Insured's** ownership, maintenance, or use of a premises by a **Named Insured.**

The coverage granted by this paragraph does not apply to structural alterations, new construction or demolition operations performed by, on behalf of, or for such additional insured.

H. State or Governmental Agency or Subdivision or Political Subdivisions – Permits

A state or governmental agency or subdivision or political subdivision that has issued a permit or authorization but only with respect to such state or governmental agency or subdivision or political subdivision's liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of:

1. the following hazards in connection with premises a **Named Insured** owns, rents, or controls and to which this insurance applies:

   a. the existence, maintenance, repair, construction, erection, or removal of advertising signs, awnings, canopies, cellar entrances, coal holes, driveways, manholes, marquees, hoistaway openings, sidewalk vaults, street banners, or decorations and similar exposures; or

   b. the construction, erection, or removal of elevators; or

   c. the ownership, maintenance or use of any elevators covered by this insurance; or

20020000770153133074038

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

2. the permitted or authorized operations performed by a **Named Insured** or on a **Named Insured's** behalf.

The coverage granted by this paragraph does not apply to:

a. **Bodily injury**, **property damage** or **personal and advertising injury** arising out of operations performed for the state or governmental agency or subdivision or political subdivision; or

b. **Bodily injury** or **property damage** included within the **products-completed operations hazard.**

With respect to this provision's requirement that additional insured status must be requested under a written contract or agreement, the Insurer will treat as a written contract any governmental permit that requires the **Named Insured** to add the governmental entity as an additional insured.

I. Trade Show Event Lessor

1. With respect to a **Named Insured's** participation in a trade show event as an exhibitor, presenter or displayer, any person or organization whom the **Named Insured** is required to include as an additional insured, but only with respect to such person or organization's liability for **bodily injury**, **property damage** or **personal and advertising injury** caused by:

a. the **Named Insured's** acts or omissions; or

b. the acts or omissions of those acting on the **Named Insured's** behalf,

in the performance of the **Named Insured's** ongoing operations at the trade show event premises during the trade show event.

2. The coverage granted by this paragraph does not apply to **bodily injury** or **property damage** included within the **products-completed operations hazard.**

2. ADDITIONAL INSURED - PRIMARY AND NON-CONTRIBUTORY TO ADDITIONAL INSURED'S INSURANCE

The **Other Insurance** Condition in the **COMMERCIAL GENERAL LIABILITY CONDITIONS** Section is amended to add the following paragraph:

If the **Named Insured** has agreed in writing in a contract or agreement that this insurance is primary and non-contributory relative to an additional insured's own insurance, then this insurance is primary, and the Insurer will not seek contribution from that other insurance. For the purpose of this Provision **2.**, the additional insured's own insurance means insurance on which the additional insured is a named insured. Otherwise, and notwithstanding anything to the contrary elsewhere in this Condition, the insurance provided to such person or organization is excess of any other insurance available to such person or organization.

3. ADDITIONAL INSURED – EXTENDED COVERAGE

When an additional insured is added by this or any other endorsement attached to this **Coverage Part**, **WHO IS AN INSURED** is amended to make the following natural persons **Insureds**.

If the additional insured is:

a. An individual, then his or her **spouse** is an **Insured**;

b. A partnership or joint venture, then its partners, members and their **spouses** are **Insureds**;

c. A limited liability company, then its members and managers are **Insureds**; or

d. An organization other than a partnership, joint venture or limited liability company, then its executive officers, directors and shareholders are **Insureds**;

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

but only with respect to locations and operations covered by the additional insured endorsement's provisions, and only with respect to their respective roles within their organizations.

Please see the **ESTATES, LEGAL REPRESENTATIVES, AND SPOUSES** provision of this endorsement for additional coverage and restrictions applicable to **spouses** of natural person **Insureds.**

4. BOATS

Under **COVERAGES**, **Coverage A – Bodily Injury And Property Damage Liability**, the paragraph entitled **Exclusions** is amended to add the following additional exception to the exclusion entitled **Aircraft, Auto or Watercraft**:

This exclusion does not apply to:

Any watercraft owned by the **Named Insured** that is less than 30 feet long while being used in the course of the **Named Insured's** inspection or surveying work.

5. BODILY INJURY – EXPANDED DEFINITION

Under **DEFINITIONS**, the definition of **bodily injury** is deleted and replaced by the following:

Bodily injury means physical injury, sickness or disease sustained by a person, including death, humiliation, shock, mental anguish or mental injury sustained by that person at any time which results as a consequence of the physical injury, sickness or disease.

6. BROAD KNOWLEDGE OF OCCURRENCE/ NOTICE OF OCCURRENCE

Under **CONDITIONS**, the condition entitled **Duties in The Event of Occurrence, Offense, Claim or Suit** is amended to add the following provisions:

A. BROAD KNOWLEDGE OF OCCURRENCE

The **Named Insured** must give the Insurer or the Insurer's authorized representative notice of an **occurrence**, offense or **claim** only when the **occurrence**, offense or **claim** is known to a natural person **Named Insured**, to a partner, executive officer, manager or member of a **Named Insured**, or to an **employee** designated by any of the above to give such notice.

B. NOTICE OF OCCURRENCE

The **Named Insured's** rights under this **Coverage Part** will not be prejudiced if the **Named Insured** fails to give the Insurer notice of an **occurrence**, offense or **claim** and that failure is solely due to the **Named Insured's** reasonable belief that the **bodily injury** or **property damage** is not covered under this **Coverage Part.** However, the **Named Insured** shall give written notice of such **occurrence**, offense or **claim** to the Insurer as soon as the **Named Insured** is aware that this insurance may apply to such **occurrence**, offense or **claim.**

7. BROAD NAMED INSURED

WHO IS AN INSURED is amended to delete its Paragraph **3.** in its entirety and replace it with the following:

3. Pursuant to the limitations described in Paragraph **4.** below, any organization in which a **Named Insured** has management control:

a. on the effective date of this **Coverage Part**; or

b. by reason of a **Named Insured** creating or acquiring the organization during the **policy period**,

qualifies as a **Named Insured**, provided that there is no other similar liability insurance, whether primary, contributory, excess, contingent or otherwise, which provides coverage to such organization, or which would have

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

20020000770153133074039

provided coverage but for the exhaustion of its limit, and without regard to whether its coverage is broader or narrower than that provided by this insurance.

But this **BROAD NAMED INSURED** provision does not apply to:

(a) any partnership, limited liability company or joint venture; or

(b) any organization for which coverage is excluded by another endorsement attached to this **Coverage Part.**

For the purpose of this provision, management control means:

A. owning interests representing more than 50% of the voting, appointment or designation power for the selection of a majority of the Board of Directors of a corporation; or

B. having the right, pursuant to a written trust agreement, to protect, control the use of, encumber or transfer or sell property held by a trust.

4. With respect to organizations which qualify as **Named Insureds** by virtue of Paragraph **3.** above, this insurance does not apply to:

a. **bodily injury** or **property damage** that first occurred prior to the date of management control, or that first occurs after management control ceases; nor

b. **personal or advertising injury** caused by an offense that first occurred prior to the date of management control or that first occurs after management control ceases.

5. The insurance provided by this **Coverage Part** applies to **Named Insureds** when trading under their own names or under such other trading names or doing-business-as names (dba) as any **Named Insured** should choose to employ.

8. CONTRACTUAL LIABILITY – RAILROADS

With respect to operations performed within 50 feet of railroad property, the definition of **insured contract** is replaced by the following:

Insured Contract means:

a. A contract for a lease of premises. However, that portion of the contract for a lease of premises that indemnifies any person or organization for damage by fire to premises while rented to a **Named Insured** or temporarily occupied by a **Named Insured** you with permission of the owner is not an **insured contract**;

b. A sidetrack agreement;

c. Any easement or license agreement;

d. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

e. An elevator maintenance agreement;

f. That part of any other contract or agreement pertaining to the **Named Insured's** business (including an indemnification of a municipality in connection with work performed for a municipality) under which the **Named Insured** assumes the tort liability of another party to pay for **bodily injury** or **property damage** to a third person or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement.

Paragraph **f.** does not include that part of any contract or agreement:

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(1) That indemnifies an architect, engineer or surveyor for injury or damage arising out of:

(a) Preparing, approving or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or

(b) Giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage;

(2) Under which the **Insured**, if an architect, engineer or surveyor, assumes liability for an injury or damage arising out of the insured's rendering or failure to render professional services, including those listed in **(1)** above and supervisory, inspection, architectural or engineering activities.

9. ESTATES, LEGAL REPRESENTATIVES, AND SPOUSES

The estates, executors, heirs, legal representatives, administrators, trustees, beneficiaries and **spouses** of any natural person **Insured** or living trust shall also be insured under this policy; provided, however, coverage is afforded to such estates, executors, heirs, legal representatives, administrators, trustees, beneficiaries and **spouses** only for **claims** arising solely out of their capacity or status as such and, in the case of a **spouse**, where such **claim** seeks **damages** from marital community property, jointly held property or property transferred from such natural person **Insured** to such **spouse.** No coverage is provided for any act, error or omission of an estate, heir, legal representative, or **spouse** outside the scope of such person's capacity or status as such, provided, however, that the **spouse** of a natural person **Named Insured**, and the **spouses** of members or partners of joint venture or partnership **Named Insureds** are **Insureds** with respect to such **spouses'** acts, errors or omissions in the conduct of the **Named Insured's** business.

10. EXPECTED OR INTENDED INJURY – EXCEPTION FOR REASONABLE FORCE

Under **COVERAGES**, **Coverage A – Bodily Injury And Property Damage Liability**, the paragraph entitled **Exclusions** is amended to delete the exclusion entitled **Expected or Intended Injury** and replace it with the following:

This insurance does not apply to:

Expected or Intended Injury

Bodily injury or **property damage** expected or intended from the standpoint of the **Insured.** This exclusion does not apply to **bodily injury** or **property damage** resulting from the use of reasonable force to protect persons or property.

11. GENERAL AGGREGATE LIMITS OF INSURANCE - PER LOCATION

A. A separate Location General Aggregate Limit, equal to the amount of the General Aggregate Limit, is the most the Insurer will pay for the sum of:

1. All **damages** under **Coverage A**, except **damages** because of **bodily injury** or **property damage** included in the **products-completed operations hazard**; and

2. All medical expenses under **Coverage C**,

that arise from **occurrences** or accidents which can be attributed solely to ongoing operations at that location. Such payments shall not reduce the General Aggregate Limit shown in the Declarations, nor the Location General Aggregate Limit of any other location.

B. All:

1. **Damages** under **Coverage B**, regardless of the number of locations involved;

20020000770153133074040

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

2. **Damages** under **Coverage A**, caused by **occurrences** which cannot be attributed solely to ongoing operations at a single location, except **damages** because of **bodily injury** or **property damage** included in the **products-completed operations hazard**; and

3. Medical expenses under **Coverage C** caused by accidents which cannot be attributed solely to ongoing operations at a single location,

will reduce the General Aggregate Limit shown in the Declarations.

C. For the purpose of this **GENERAL AGGREGATE LIMITS OF INSURANCE - PER LOCATION** Provision, "location" means:

1. a premises the **Named Insured** owns or rents; or

2. a premises not owned or rented by any **Named Insured** at which the **Named Insured** is performing operations pursuant to a contract or written agreement. If operations at such a location have been discontinued and then restarted, or if the authorized parties deviate from plans, blueprints, designs, specifications or timetables, the location will still be deemed to be the same location.

For the purpose of determining the applicable aggregate limit of insurance, premises involving the same or connecting lots, or premises whose connection is interrupted only by a street, roadway, waterway or right-of-way of a railroad shall be considered a single location.

D. The limits shown in the Declarations for Each Occurrence, for Damage To Premises Rented To You and for Medical Expense continue to apply, but will be subject to either the Location General Aggregate Limit or the General Aggregate Limit, depending on whether the **occurrence** can be attributed solely to ongoing operations at a particular location.

E. When coverage for liability arising out of the **products-completed operations hazard** is provided, any payments for **damages** because of **bodily injury** or **property damage** included in the **products-completed operations hazard**, regardless of the number of locations involved, will reduce the Products-Completed Operations Aggregate Limit shown in the Declarations.

F. The provisions of **LIMITS OF INSURANCE** not otherwise modified by this **GENERAL AGGREGATE LIMITS OF INSURANCE - PER LOCATION** Provision shall continue to apply as stipulated.

12. IN REM ACTIONS

A quasi in rem action against any vessel owned or operated by or for the **Named Insured**, or chartered by or for the **Named Insured**, will be treated in the same manner as though the action were in personam against the **Named Insured**.

13. INCIDENTAL HEALTH CARE MALPRACTICE COVERAGE

Solely with respect to **bodily injury** that arises out of a **health care incident**:

A. Under **COVERAGES**, **Coverage A – Bodily Injury And Property Damage Liability**, the **Insuring Agreement** is amended to replace Paragraphs **1.b.(1)** and **1.b.(2)** with the following:

b. This insurance applies to **bodily injury** provided that the professional health care services are incidental to the **Named Insured's** primary business purpose, and only if:

(1) such **bodily injury** is caused by an **occurrence** that takes place in the **coverage territory**.

(2) the **bodily injury** first occurs during the **policy period**. All **bodily injury** arising from an **occurrence** will be deemed to have occurred at the time of the first act, error, or omission that is part of the **occurrence**; and

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

B. Under **COVERAGES**, **Coverage A – Bodily Injury And Property Damage Liability**, the paragraph entitled **Exclusions** is amended to:

i. add the following to the **Employers Liability** exclusion:

This exclusion applies only if the **bodily injury** arising from a **health care incident** is covered by other liability insurance available to the **Insured** (or which would have been available but for exhaustion of its limits).

ii. delete the exclusion entitled **Contractual Liability** and replace it with the following:

This insurance does not apply to:

Contractual Liability

the **Insured's** actual or alleged liability under any oral or written contract or agreement, including but not limited to express warranties or guarantees.

iii. to add the following additional exclusions:

This insurance does not apply to:

Discrimination

any actual or alleged discrimination, humiliation or harassment, including but not be limited to **claims** based on an individual's race, creed, color, age, gender, national origin, religion, disability, marital status or sexual orientation.

Dishonesty or Crime

Any actual or alleged dishonest, criminal or malicious act, error or omission.

Medicare/Medicaid Fraud

any actual or alleged violation of law with respect to Medicare, Medicaid, Tricare or any similar federal, state or local governmental program.

Services Excluded by Endorsement

Any **health care incident** for which coverage is excluded by endorsement.

C. **DEFINITIONS** is amended to:

i. add the following definitions:

Health care incident means an act, error or omission by the **Named Insured's employees** or **volunteer workers** in the rendering of:

a. **professional health care services** on behalf of the **Named Insured** or

b. Good Samaritan services rendered in an emergency and for which no payment is demanded or received.

Professional health care services means any health care services or the related furnishing of food, beverages, medical supplies or appliances by the following providers in their capacity as such but solely to the extent they are duly licensed as required:

a. Physician;

20020000770153133074041

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

b. Nurse;

c. Nurse practitioner;

d. Emergency medical technician;

e. Paramedic;

f. Dentist;

g. Physical therapist;

h. Psychologist;

i. Speech therapist;

j. Other allied health professional; or

Professional health care services does not include any services rendered in connection with human clinical trials or product testing.

ii. delete the definition of **occurrence** and replace it with the following:

Occurrence means a **health care incident.** All acts, errors or omissions that are logically connected by any common fact, circumstance, situation, transaction, event, advice or decision will be considered to constitute a single **occurrence**;

iii. amend the definition of **Insured** to:

a. add the following:

the **Named Insured's employees** are **Insureds** with respect to:

(1) bodily injury to a co-**employee** while in the course of the co-**employee's** employment by the **Named Insured** or while performing duties related to the conduct of the **Named Insured's** business; and

(2) bodily injury to a **volunteer worker** while performing duties related to the conduct of the **Named Insured's** business;

when such **bodily injury** arises out of a **health care incident.**

the **Named Insured's volunteer workers** are **Insureds** with respect to:

(1) bodily injury to a co-**volunteer worker** while performing duties related to the conduct of the **Named Insured's** business; and

(2) bodily injury to an **employee** while in the course of the **employee's** employment by the **Named Insured** or while performing duties related to the conduct of the **Named Insured's** business;

when such **bodily injury** arises out of a **health care incident.**

b. delete Subparagraphs **(a)**, **(b)**, **(c) and (d)** of Paragraph **2.a.(1)** of **WHO IS AN INSURED.**

D. The **Other Insurance** condition is amended to delete Paragraph **b.(1)** in its entirety and replace it with the following:

Other Insurance

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

b. Excess Insurance

(1) To the extent this insurance applies, it is excess over any other insurance, self insurance or risk transfer instrument, whether primary, excess, contingent or on any other basis, except for insurance purchased specifically by the **Named Insured** to be excess of this coverage.

14. JOINT VENTURES / PARTNERSHIP / LIMITED LIABILITY COMPANIES

A. Past Joint Ventures, Partnerships, Limited Liability Companies

The following is added to **WHO IS AN INSURED:**

If the **Named Insured** was a joint venturer, partner, or member of a limited liability company and such joint venture, partnership or limited liability company terminated prior to or during the **policy period**, such **Named Insured** is an **Insured** with respect to its interest in such joint venture, partnership or limited liability company but only to the extent that:

a. any offense giving rise to **personal and advertising injury** occurred prior to such termination date, and the **personal and advertising injury** arising out of such offense, first occurred after such termination date;

b. the **bodily injury** or **property damage** first occurred after such termination date; and

c. there is no other valid and collectible insurance purchased specifically to insure the partnership, joint venture or limited liability company.

If the joint venture, partnership or limited liability company is or was insured under a **consolidated (wrap-up) insurance program**, then such insurance will always be considered valid and collectible for the purpose of paragraph **c.** above. But this provision will not serve to exclude **bodily injury**, **property damage** or **personal and advertising injury** that would otherwise be covered under the **Architects, Engineers And Surveyors General Liability Extension Endorsement** provision entitled **WRAP-UP EXTENSION: OCIP, CCIP, OR CONSOLIDATED (WRAP-UP) INSURANCE PROGRAMS.** Please see that provision for the definition of **consolidated (wrap-up) insurance program.**

B. Participation In Current Professional Joint Ventures

The following is added to **WHO IS AN INSURED**:

The **Named Insured** is also an **Insured** for participation in a current joint venture that is not named on the Declarations, but only if such joint venture meets all of the following criteria:

a. Each and every one of the **Named Insured's** co-venturers are architectural, engineering or surveying firms only; and

b. There is no other valid and collectible insurance purchased specifically to insure the joint venture.

However, the **Named Insured** is an **Insured** only for the conduct of such **Named Insured's** business within such a joint venture. The **Named Insured** is not insured for liability arising out of the acts or omissions of other co-venturers, nor of their partners, members or employees.

C. WHO IS AN INSURED is amended to delete its last paragraph and replace it with the following:

Except as provided under this **Architects, Engineers And Surveyors General Liability Extension Endorsement** or by the attachment of another endorsement (if any), no person or organization is an **Insured** with respect to the conduct of any current or past partnership, joint venture or limited liability company that is not shown as a **Named Insured** in the Declarations.

20020000770153133074042

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

15. LEGAL LIABILITY – DAMAGE TO PREMISES / ALIENATED PREMISES / PROPERTY IN THE NAMED INSURED'S CARE, CUSTODY OR CONTROL

A. Under **COVERAGES, Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended to delete exclusion **j. Damage to Property** in its entirety and replace it with the following:

This insurance does not apply to:

j. Damage to Property

Property damage to:

(1) Property the **Named Insured** owns, rents, or occupies, including any costs or expenses incurred by you, or any other person, organization or entity, for repair, replacement, enhancement, restoration or maintenance of such property for any reason, including prevention of injury to a person or damage to another's property;

(2) Premises the **Named Insured** sells, gives away or abandons, if the **property damage** arises out of any part of those premises;

(3) Property loaned to the **Named Insured**;

(4) Personal property in the care, custody or control of the **Insured**;

(5) That particular part of real property on which the **Named Insured** or any contractors or subcontractors working directly or indirectly on the **Named Insured's** behalf are performing operations, if the **property damage** arises out of those operations; or

(6) That particular part of any property that must be restored, repaired or replaced because **your work** was incorrectly performed on it.

Paragraphs **(1), (3)** and **(4)** of this exclusion do not apply to **property damage** (other than damage by fire) to premises rented to the **Named Insured** or temporarily occupied by the **Named Insured** with the permission of the owner, nor to the contents of premises rented to the **Named Insured** for a period of 7 or fewer consecutive days. A separate limit of insurance applies to Damage To Premises Rented To You as described in **LIMITS OF INSURANCE.**

Paragraph **(2)** of this exclusion does not apply if the premises are **your work.**

Paragraphs **(3), (4), (5)** and **(6)** of this exclusion do not apply to liability assumed under a sidetrack agreement.

Paragraph **(6)** of this exclusion does not apply to **property damage** included in the **products-completed operations hazard.**

Paragraphs **(3)** and **(4)** of this exclusion do not apply to **property damage** to:

i. tools, or equipment the **Named Insured** borrows from others, nor

ii. other personal property of others in the **Named Insured's** care, custody or control while being used in the **Named Insured's** operations away from any **Named Insured's** premises.

However, the coverage granted by this exception to Paragraphs **(3)** and **(4)** does not apply to:

a. property at a job site awaiting or during such property's installation, fabrication, or erection;

b. property that is **mobile equipment** leased by an **Insured**;

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

c. property that is an **auto**, aircraft or watercraft;

d. property in transit; or

e. any portion of **property damage** for which the **Insured** has available other valid and collectible insurance, or would have such insurance but for exhaustion of its limits, or but for application of one of its exclusions.

A separate limit of insurance and deductible apply to such property of others. See **LIMITS OF INSURANCE** as amended below.

B. Under **COVERAGES, Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended to delete its last paragraph and replace it with the following:

Exclusions **c.** through **n.** do not apply to damage by fire to premises while rented to a **Named Insured** or temporarily occupied by a **Named Insured** with permission of the owner, nor to damage to the contents of premises rented to a **Named Insured** for a period of 7 or fewer consecutive days.

A separate limit of insurance applies to this coverage as described in **LIMITS OF INSURANCE.**

C. The following paragraph is added to **LIMITS OF INSURANCE**:

Subject to **5.** above, $25,000 is the most the Insurer will pay under **Coverage A** for **damages** arising out of any one **occurrence** because of the sum of all **property damage** to borrowed tools or equipment, and to other personal property of others in the **Named Insured's** care, custody or control, while being used in the **Named Insured's** operations away from any **Named Insured's** premises. The Insurer's obligation to pay such **property damage** does not apply until the amount of such **property damage** exceeds $1,000. The Insurer has the right but not the duty to pay any portion of this $1,000 in order to effect settlement. If the Insurer exercises that right, the **Named Insured** will promptly reimburse the Insurer for any such amount.

D. Paragraph **6.**, Damage To Premises Rented To You Limit, of **LIMITS OF INSURANCE** is deleted and replaced by the following:

6. Subject to Paragraph **5.** above, (the Each Occurrence Limit), the Damage To Premises Rented To You Limit is the most the Insurer will pay under **Coverage A** for **damages** because of **property damage** to any one premises while rented to the **Named Insured** or temporarily occupied by the **Named Insured** with the permission of the owner, including contents of such premises rented to the **Named Insured** for a period of 7 or fewer consecutive days. The Damage To Premises Rented To You Limit is the greater of:

a. $500,000; or

b. The Damage To Premises Rented To You Limit shown in the Declarations.

E. Paragraph **4.b.(1)(a)(ii)** of the **Other Insurance** Condition is deleted and replaced by the following:

(ii) That is property insurance for premises rented to the **Named Insured**, for premises temporarily occupied by the **Named Insured** with the permission of the owner; or for personal property of others in the **Named Insured's** care, custody or control;

16. LIQUOR LIABILITY

Under **COVERAGES, Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended to delete the exclusion entitled **Liquor Liability.**

This **LIQUOR LIABILITY** Provision does not apply to any person or organization who otherwise qualifies as an additional insured on this **Coverage Part.**

20020000770153133074043

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

17. MEDICAL PAYMENTS

A. **LIMITS OF INSURANCE** is amended to delete Paragraph **7.** (the Medical Expense Limit) and replace it with the following:

7. Subject to Paragraph **5.** above (the Each Occurrence Limit), the Medical Expense Limit is the most the Insurer will pay under **Coverage C** for all medical expenses because of **bodily injury** sustained by any one person. The Medical Expense Limit is the greater of:

(1) $15,000 unless a different amount is shown here: $N,NNN,NNN,NNN; or

(2) the amount shown in the Declarations for Medical Expense Limit.

B. Under **COVERAGES**, the **Insuring Agreement** of **Coverage C – Medical Payments** is amended to replace Paragraph **1.a.(3)(b)** with the following:

(b) The expenses are incurred and reported to the Insurer within three years of the date of the accident; and

18. NON-OWNED AIRCRAFT

Under **COVERAGES, Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended as follows:

The exclusion entitled **Aircraft, Auto or Watercraft** is amended to add the following:

This exclusion does not apply to an aircraft not owned by any **Named Insured**, provided that:

1. the pilot in command holds a currently effective certificate issued by the duly constituted authority of the United States of America or Canada, designating that person as a commercial or airline transport pilot;

2. the aircraft is rented with a trained, paid crew to the **Named Insured**; and

3. the aircraft is not being used to carry persons or property for a charge.

19. NON-OWNED WATERCRAFT

Under **COVERAGES, Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended to delete subparagraph **(2)** of the exclusion entitled **Aircraft, Auto or Watercraft**, and replace it with the following.

This exclusion does not apply to:

(2) a watercraft that is not owned by any **Named Insured**, provided the watercraft is:

(a) less than 75 feet long; and

(b) not being used to carry persons or property for a charge.

20. PERSONAL AND ADVERTISING INJURY –DISCRIMINATION OR HUMILIATION

A. Under **DEFINITIONS**, the definition of **personal and advertising injury** is amended to add the following tort:

Discrimination or humiliation that results in injury to the feelings or reputation of a natural person.

B. Under **COVERAGES**, **Coverage B – Personal and Advertising Injury Liability**, the paragraph entitled **Exclusions** is amended to:

1. delete the Exclusion entitled **Knowing Violation Of Rights Of Another** and replace it with the following:

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

This insurance does not apply to:

Knowing Violation of Rights of Another

Personal and advertising injury caused by or at the direction of the **Insured** with the knowledge that the act would violate the rights of another and would inflict **personal and advertising injury.** This exclusion shall not apply to discrimination or humiliation that results in injury to the feelings or reputation of a natural person, but only if such discrimination or humiliation is not done intentionally by or at the direction of:

(a) the **Named Insured**; or

(b) any **executive officer**, director, stockholder, partner, member or manager (if the **Named Insured** is a limited liability company) of the **Named Insured.**

2. add the following exclusions:

This insurance does not apply to:

Employment Related Discrimination

discrimination or humiliation directly or indirectly related to the employment, prospective employment, past employment or termination of employment of any person by any **Insured.**

Premises Related Discrimination

discrimination or humiliation arising out of the sale, rental, lease or sub-lease or prospective sale, rental, lease or sub-lease of any room, dwelling or premises by or at the direction of any **Insured.**

Notwithstanding the above, there is no coverage for fines or penalties levied or imposed by a governmental entity because of discrimination.

The coverage provided by this **PERSONAL AND ADVERTISING INJURY –DISCRIMINATION OR HUMILIATION** Provision does not apply to any person or organization whose status as an **Insured** derives solely from

Provision **1. ADDITIONAL INSURED** of this endorsement; or

attachment of an additional insured endorsement to this **Coverage Part.**

21. PERSONAL AND ADVERTISING INJURY - CONTRACTUAL LIABILITY

A. Under **COVERAGES**, **Coverage B –Personal and Advertising Injury Liability**, the paragraph entitled **Exclusions** is amended to delete the exclusion entitled **Contractual Liability**.

B. Solely for the purpose of the coverage provided by this **PERSONAL AND ADVERTISING INJURY - LIMITED CONTRACTUAL LIABILITY** provision, the following changes are made to the section entitled **SUPPLEMENTARY PAYMENTS – COVERAGES A AND B:**

1. Paragraph **2.d.** is replaced by the following:

d. The allegations in the **suit** and the information the Insurer knows about the offense alleged in such **suit** are such that no conflict appears to exist between the interests of the **Insured** and the interests of the indemnitee;

2. The first unnumbered paragraph beneath Paragraph **2.f.(2)(b)** is deleted and replaced by the following:

So long as the above conditions are met, attorney's fees incurred by the Insurer in the defense of that indemnitee, necessary litigation expenses incurred by the Insurer, and necessary litigation expenses incurred

20020000770153133074044

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

by the indemnitee at the Insurer's request will be paid as **defense costs.** Such payments will not be deemed to be **damages** for **personal and advertising injury** and will not reduce the limits of insurance.

C. This **PERSONAL AND ADVERTISING INJURY - LIMITED CONTRACTUAL LIABILITY** Provision does not apply if **Coverage B –Personal and Advertising Injury Liability** is excluded by another endorsement attached to this **Coverage Part.**

This **PERSONAL AND ADVERTISING INJURY - CONTRACTUAL LIABILITY** Provision does not apply to any person or organization who otherwise qualifies as an additional insured on this **Coverage Part.**

22. PROPERTY DAMAGE – ELEVATORS

A. Under **COVERAGES**, **Coverage A – Bodily Injury and Property Damage Liability**, the paragraph entitled **Exclusions** is amended such that the **Damage to Your Product** Exclusion and subparagraphs **(3)**, **(4)** and **(6)** of the **Damage to Property** Exclusion do not apply to **property damage** that results from the use of elevators.

B. Solely for the purpose of the coverage provided by this **PROPERTY DAMAGE – ELEVATORS** Provision, the **Other Insurance** conditions is amended to add the following paragraph:

This insurance is excess over any of the other insurance, whether primary, excess, contingent or on any other basis that is Property insurance covering property of others damaged from the use of elevators.

23. RETIRED PARTNERS, MEMBERS, DIRECTORS AND EMPLOYEES

WHO IS INSURED is amended to include as **Insureds** natural persons who are retired partners, members, directors or employees, but only for **bodily injury**, **property damage** or **personal and advertising injury** that results from services performed for the **Named Insured** under the **Named Insured's** direct supervision. All limitations that apply to **employees** and **volunteer workers** also apply to anyone qualifying as an **Insured** under this Provision.

24. SUPPLEMENTARY PAYMENTS

The section entitled **SUPPLEMENTARY PAYMENTS – COVERAGES A AND B** is amended as follows:

A. Paragraph **1.b.** is amended to delete the $250 limit shown for the cost of bail bonds and replace it with a $5,000. limit; and

B. Paragraph **1.d.** is amended to delete the limit of $250 shown for daily loss of earnings and replace it with a $1,000. limit.

25. UNINTENTIONAL FAILURE TO DISCLOSE HAZARDS

If the **Named Insured** unintentionally fails to disclose all existing hazards at the inception date of the **Named Insured's Coverage Part**, the Insurer will not deny coverage under this **Coverage Part** because of such failure.

26. WAIVER OF SUBROGATION - BLANKET

Under **CONDITIONS**, the condition entitled **Transfer Of Rights Of Recovery Against Others To Us** is amended to add the following:

The Insurer waives any right of recovery the Insurer may have against any person or organization because of payments the Insurer makes for injury or damage arising out of:

1. the **Named Insured's** ongoing operations; or

2. **your work** included in the **products-completed operations hazard.**

However, this waiver applies only when the **Named Insured** has agreed in writing to waive such rights of recovery in a written contract or written agreement, and only if such contract or agreement:

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

1. is in effect or becomes effective during the term of this **Coverage Part**; and

2. was executed prior to the **bodily injury**, **property damage** or **personal and advertising injury** giving rise to the **claim.**

27. WRAP-UP EXTENSION: OCIP, CCIP, OR CONSOLIDATED (WRAP-UP) INSURANCE PROGRAMS

Note: The following provision does not apply to any public construction project in the state of Oklahoma, nor to any construction project in the state of Alaska, that is not permitted to be insured under a **consolidated (wrap-up) insurance program** by applicable state statute or regulation.

If the endorsement **EXCLUSION – CONSTRUCTION WRAP-UP** is attached to this policy, or another exclusionary endorsement pertaining to Owner Controlled Insurance Programs (O.C.I.P.) or Contractor Controlled Insurance Programs (C.C.I.P.) is attached, then the following changes apply:

A. The following wording is added to the above-referenced endorsement:

With respect to a **consolidated (wrap-up) insurance program** project in which the **Named Insured** is or was involved, this exclusion does not apply to those sums the **Named Insured** become legally obligated to pay as **damages** because of:

1. **Bodily injury**, **property damage**, or **personal or advertising injury** that occurs during the **Named Insured's** ongoing operations at the project, or during such operations of anyone acting on the **Named Insured's** behalf; nor

2. **Bodily injury** or **property damage** included within the **products-completed operations hazard** that arises out of those portions of the project that are not **residential structures.**

B. Condition **4. Other Insurance** is amended to add the following subparagraph **4.b.(1)(c)**:

This insurance is excess over:

(c) Any of the other insurance whether primary, excess, contingent or any other basis that is insurance available to the **Named Insured** as a result of the **Named Insured** being a participant in a **consolidated (wrap-up) insurance program**, but only as respects the **Named Insured's** involvement in that **consolidated (wrap-up) insurance program.**

C. DEFINITIONS is amended to add the following definitions:

Consolidated (wrap-up) insurance program means a construction, erection or demolition project for which the prime contractor/project manager or owner of the construction project has secured general liability insurance covering some or all of the contractors or subcontractors involved in the project, such as an Owner Controlled Insurance Program (O.C.I.P.) or Contractor Controlled Insurance Program (C.C.I.P.).

Residential structure means any structure where 30% or more of the square foot area is used or is intended to be used for human residency, including but not limited to:

1. single or multifamily housing, apartments, condominiums, townhouses, co-operatives or planned unit developments; and

2. the common areas and structures appurtenant to the structures in paragraph **1.** (including pools, hot tubs, detached garages, guest houses or any similar structures).

However, when there is no individual ownership of units, **residential structure** does not include military housing, college/university housing or dormitories, long term care facilities, hotels or motels. **Residential structure** also does not include hospitals or prisons.

CNA PARAMOUNT

Blanket Additional Insured - Owners, Lessees or Contractors - with Products-Completed Operations Coverage Endorsement

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

It is understood and agreed as follows:

I. **WHO IS AN INSURED** is amended to include as an **Insured** any person or organization whom you are required by **written contract** to add as an additional insured on this **coverage part**, but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** caused in whole or in part by your acts or omissions, or the acts or omissions of those acting on your behalf:

A. in the performance of your ongoing operations subject to such **written contract**; or

B. in the performance of **your work** subject to such **written contract**, but only with respect to **bodily injury** or **property damage** included in the **products-completed operations hazard**, and only if:

1. the **written contract** requires you to provide the additional insured such coverage; and

2. this **coverage part** provides such coverage.

II. But if the **written contract** requires:

A. additional insured coverage under the 11-85 edition, 10-93 edition, or 10-01 edition of CG2010, or under the 10-01 edition of CG2037; or

B. additional insured coverage with "arising out of" language; or

C. additional insured coverage to the greatest extent permissible by law;

then paragraph **I.** above is deleted in its entirety and replaced by the following:

WHO IS AN INSURED is amended to include as an **Insured** any person or organization whom you are required by **written contract** to add as an additional insured on this **coverage part**, but only with respect to liability for **bodily injury**, **property damage** or **personal and advertising injury** arising out of **your work** that is subject to such **written contract.**

III. Subject always to the terms and conditions of this policy, including the limits of insurance, the Insurer will not provide such additional insured with:

A. coverage broader than required by the **written contract**; or

B. a higher limit of insurance than required by the **written contract.**

IV. The insurance granted by this endorsement to the additional insured does not apply to **bodily injury**, **property damage**, or **personal and advertising injury** arising out of:

A. the rendering of, or the failure to render, any professional architectural, engineering, or surveying services, including:

1. the preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; and

2. supervisory, inspection, architectural or engineering activities; or

B. any premises or work for which the additional insured is specifically listed as an additional insured on another endorsement attached to this **coverage part.**

V. Under **COMMERCIAL GENERAL LIABILITY CONDITIONS,** the Condition entitled **Other Insurance** is amended to add the following, which supersedes any provision to the contrary in this Condition or elsewhere in this **coverage part**:

2002000077015313307 4046

Blanket Additional Insured - Owners, Lessees or Contractors - with Products-Completed Operations Coverage Endorsement

Primary and Noncontributory Insurance

With respect to other insurance available to the additional insured under which the additional insured is a named insured, this insurance is primary to and will not seek contribution from such other insurance, provided that a **written contract** requires the insurance provided by this policy to be:

1. primary and non-contributing with other insurance available to the additional insured; or

2. primary and to not seek contribution from any other insurance available to the additional insured.

But except as specified above, this insurance will be excess of all other insurance available to the additional insured.

VI. Solely with respect to the insurance granted by this endorsement, the section entitled **COMMERCIAL GENERAL LIABILITY CONDITIONS** is amended as follows:

The Condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended with the addition of the following:

Any additional insured pursuant to this endorsement will as soon as practicable:

1. give the Insurer written notice of any **claim**, or any **occurrence** or offense which may result in a **claim**;

2. send the Insurer copies of all legal papers received, and otherwise cooperate with the Insurer in the investigation, defense, or settlement of the **claim**; and

3. make available any other insurance, and tender the defense and indemnity of any **claim** to any other insurer or self-insurer, whose policy or program applies to a loss that the Insurer covers under this **coverage part.** However, if the **written contract** requires this insurance to be primary and non-contributory, this paragraph **3.** does not apply to insurance on which the additional insured is a named insured.

The Insurer has no duty to defend or indemnify an additional insured under this endorsement until the Insurer receives written notice of a **claim** from the additional insured.

VII. Solely with respect to the insurance granted by this endorsement, the section entitled **DEFINITIONS** is amended to add the following definition:

Written contract means a written contract or written agreement that requires you to make a person or organization an additional insured on this **coverage part**, provided the contract or agreement:

A. is currently in effect or becomes effective during the term of this policy; and

B. was executed prior to:

1. the **bodily injury** or **property damage**; or

2. the offense that caused the **personal and advertising injury**;

for which the additional insured seeks coverage.

Any coverage granted by this endorsement shall apply solely to the extent permissible by law.

All other terms and conditions of the Policy remain unchanged.

This endorsement, which forms a part of and is for attachment to the Policy issued by the designated Insurers, takes effect on the effective date of said Policy at the hour stated in said Policy, unless another effective date is shown below, and expires concurrently with said Policy.

Copyright CNA All Rights Reserved. Includes copyrighted material of Insurance Services Office, Inc., with its permission.

BUSINESS AUTO COVERAGE FORM

Various provisions in this policy restrict coverage. Read the entire policy carefully to determine rights, duties and what is and is not covered.

Throughout this policy the words "you" and "your" refer to the Named Insured shown in the Declarations. The words "we", "us" and "our" refer to the company providing this insurance.

Other words and phrases that appear in quotation marks have special meaning. Refer to **SECTION V – DEFINITIONS.**

SECTION I – COVERED AUTOS

Item Two of the Declarations shows the "**autos**" that are covered "**autos**" for each of your coverages. The following numerical symbols describe the "**autos**" that may be covered "**autos**". The symbols entered next to a coverage on the Declarations designate the only "**autos**" that are covered "**autos**".

A. Description Of Covered Auto Designation Symbols

Symbol	Description Of Covered Auto Designation Symbols	
1	Any "**Auto**"	
2	Owned "**Autos**" Only	Only those "**autos**" you own (and for Covered Autos Liability Coverage any "**trailers**" you don't own while attached to power units you own). This includes those "**autos**" you acquire ownership of after the policy begins.
3	Owned Private Passenger "**Autos**" Only	Only the private passenger "**autos**" you own. This includes those private passenger "**autos**" you acquire ownership of after the policy begins.
4	Owned "**Autos**" Other Than Private Passenger "**Autos**" Only	Only those "**autos**" you own that are not of the private passenger type (and for Covered Autos Liability Coverage any "**trailers**" you don't own while attached to power units you own). This includes those "**autos**" not of the private passenger type you acquire ownership of after the policy begins.
5	Owned "**Autos**" Subject To No-fault	Only those "**autos**" you own that are required to have no-fault benefits in the state where they are licensed or principally garaged. This includes those "**autos**" you acquire ownership of after the policy begins provided they are required to have no-fault benefits in the state where they are licensed or principally garaged.
6	Owned "**Autos**" Subject To A Compulsory Uninsured Motorists Law	Only those "**autos**" you own that because of the law in the state where they are licensed or principally garaged are required to have and cannot reject Uninsured Motorists Coverage. This includes those "**autos**" you acquire ownership of after the policy begins provided they are subject to the same state uninsured motorists requirement.
7	Specifically Described "**Autos**"	Only those "**autos**" described in Item Three of the Declarations for which a premium charge is shown (and for Covered Autos Liability Coverage any "**trailers**" you don't own while attached to any power unit described in Item Three).

© Copyright Insurance Services Office, Inc., 2012

8	Hired "**Autos**" Only	Only those "**autos**" you lease, hire, rent or borrow. This does not include any "**auto**" you lease, hire, rent or borrow from any of your "**employees**", partners (if you are a partnership), members (if you are a limited liability company) or members of their households.
9	Non-owned "**Autos**" Only	Only those "**autos**" you do not own, lease, hire, rent or borrow that are used in connection with your business. This includes "**autos**" owned by your "**employees**", partners (if you are a partnership), members (if you are a limited liability company) or members of their households but only while used in your business or your personal affairs.
19	Mobile Equipment Subject To Compulsory Or Financial Responsibility Or Other Motor Vehicle Insurance Law Only	Only those "**autos**" that are land vehicles and that would qualify under the definition of "**mobile equipment**" under this policy if they were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where they are licensed or principally garaged.

B. Owned Autos You Acquire After The Policy Begins

1. If Symbols **1, 2, 3, 4, 5, 6** or **19** are entered next to a coverage in Item Two of the Declarations, then you have coverage for "**autos**" that you acquire of the type described for the remainder of the policy period.
2. But, if Symbol **7** is entered next to a coverage in Item Two of the Declarations, an "**auto**" you acquire will be a covered "**auto**" for that coverage only if:
   a. We already cover all "**autos**" that you own for that coverage or it replaces an "**auto**" you previously owned that had that coverage; and
   b. You tell us within 30 days after you acquire it that you want us to cover it for that coverage.

C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos

If Covered Autos Liability Coverage is provided by this Coverage Form, the following types of vehicles are also covered "**autos**" for Covered Autos Liability Coverage:

1. "**Trailers**" with a load capacity of 2,000 pounds or less designed primarily for travel on public roads.
2. "**Mobile equipment**" while being carried or towed by a covered "**auto**".
3. Any "**auto**" you do not own while used with the permission of its owner as a temporary substitute for a covered "**auto**" you own that is out of service because of its:
   a. Breakdown;
   b. Repair;
   c. Servicing;
   d. "**Loss**"; or
   e. Destruction.

SECTION II – COVERED AUTOS LIABILITY COVERAGE

A. Coverage

We will pay all sums an "**insured**" legally must pay as damages because of "**bodily injury**" or "**property damage**" to which this insurance applies, caused by an "**accident**" and resulting from the ownership, maintenance or use of a covered "**auto**".

We will also pay all sums an "**insured**" legally must pay as a "**covered pollution cost or expense**" to which this insurance applies, caused by an "**accident**" and resulting from the ownership, maintenance or use of covered "**autos**". However, we will only pay for the "**covered pollution cost or expense**" if there is either "**bodily injury**" or "**property damage**" to which this insurance applies that is caused by the same "**accident**".

We have the right and duty to defend any "**insured**" against a "**suit**" asking for such damages or a "**covered pollution cost or expense**". However, we have no duty to defend any "**insured**" against a "**suit**" seeking damages for "**bodily injury**" or "**property damage**" or a "**covered pollution cost or expense**" to which this insurance does not apply. We may investigate and settle any claim or "**suit**" as we consider appropriate. Our duty to defend or settle ends when the Covered Autos Liability Coverage Limit of Insurance has been exhausted by payment of judgments or settlements.

1. Who Is An Insured

The following are "**insureds**":

a. You for any covered "**auto**".

b. Anyone else while using with your permission a covered "**auto**" you own, hire or borrow except:

(1) The owner or anyone else from whom you hire or borrow a covered "**auto**".

This exception does not apply if the covered "**auto**" is a "**trailer**" connected to a covered "**auto**" you own.

(2) Your "**employee**" if the covered "**auto**" is owned by that "**employee**" or a member of his or her household.

(3) Someone using a covered "**auto**" while he or she is working in a business of selling, servicing, repairing, parking or storing "**autos**" unless that business is yours.

(4) Anyone other than your "**employees**", partners (if you are a partnership), members (if you are a limited liability company) or a lessee or borrower or any of their "**employees**", while moving property to or from a covered "**auto**".

(5) A partner (if you are a partnership) or a member (if you are a limited liability company) for a covered "**auto**" owned by him or her or a member of his or her household.

c. Anyone liable for the conduct of an "**insured**" described above but only to the extent of that liability.

2. Coverage Extensions

a. Supplementary Payments

We will pay for the "**insured**":

(1) All expenses we incur.

(2) Up to $2,000 for cost of bail bonds (including bonds for related traffic law violations) required because of an "**accident**" we cover. We do not have to furnish these bonds.

(3) The cost of bonds to release attachments in any "**suit**" against the "**insured**" we defend, but only for bond amounts within our Limit of Insurance.

(4) All reasonable expenses incurred by the "**insured**" at our request, including actual loss of earnings up to $250 a day because of time off from work.

© Copyright Insurance Services Office, Inc., 2012

(5) All court costs taxed against the "**insured**" in any "**suit**" against the "**insured**" we defend. However, these payments do not include attorneys' fees or attorneys' expenses taxed against the "**insured**".

(6) All interest on the full amount of any judgment that accrues after entry of the judgment in any "**suit**" against the "**insured**" we defend, but our duty to pay interest ends when we have paid, offered to pay or deposited in court the part of the judgment that is within our Limit of Insurance.

These payments will not reduce the Limit of Insurance.

b. Out-of-state Coverage Extensions

While a covered "**auto**" is away from the state where it is licensed, we will:

(1) Increase the Limit of Insurance for Covered Autos Liability Coverage to meet the limits specified by a compulsory or financial responsibility law of the jurisdiction where the covered "**auto**" is being used. This extension does not apply to the limit or limits specified by any law governing motor carriers of passengers or property.

(2) Provide the minimum amounts and types of other coverages, such as no-fault, required of out-of-state vehicles by the jurisdiction where the covered "**auto**" is being used.

We will not pay anyone more than once for the same elements of loss because of these extensions.

B. Exclusions

This insurance does not apply to any of the following:

1. Expected Or Intended Injury

"**Bodily injury**" or "**property damage**" expected or intended from the standpoint of the "**insured**".

2. Contractual

Liability assumed under any contract or agreement.

But this exclusion does not apply to liability for damages:

a. Assumed in a contract or agreement that is an "**insured contract**", provided the "**bodily injury**" or "**property damage**" occurs subsequent to the execution of the contract or agreement; or

b. That the "**insured**" would have in the absence of the contract or agreement.

3. Workers' Compensation

Any obligation for which the "**insured**" or the "**insured's**" insurer may be held liable under any workers' compensation, disability benefits or unemployment compensation law or any similar law.

4. Employee Indemnification And Employer's Liability

"**Bodily injury**" to:

a. An "**employee**" of the "**insured**" arising out of and in the course of:

(1) Employment by the "**insured**"; or

(2) Performing the duties related to the conduct of the "**insured's**" business; or

b. The spouse, child, parent, brother or sister of that "**employee**" as a consequence of Paragraph **a.** above.

This exclusion applies:

(1) Whether the "**insured**" may be liable as an employer or in any other capacity; and

© Copyright Insurance Services Office, Inc., 2012

(2) To any obligation to share damages with or repay someone else who must pay damages because of the injury.

But this exclusion does not apply to "**bodily injury**" to domestic "**employees**" not entitled to workers' compensation benefits or to liability assumed by the "**insured**" under an "**insured contract**". For the purposes of the Coverage Form, a domestic "**employee**" is a person engaged in household or domestic work performed principally in connection with a residence premises.

5. **Fellow Employee**

"**Bodily injury**" to:

a. Any fellow "**employee**" of the "**insured**" arising out of and in the course of the fellow "**employee's**" employment or while performing duties related to the conduct of your business; or

b. The spouse, child, parent, brother or sister of that fellow "**employee**" as a consequence of Paragraph **a.** above.

6. **Care, Custody Or Control**

"**Property damage**" to or "**covered pollution cost or expense**" involving property owned or transported by the "**insured**" or in the "**insured's**" care, custody or control. But this exclusion does not apply to liability assumed under a sidetrack agreement.

7. **Handling Of Property**

"**Bodily injury**" or "**property damage**" resulting from the handling of property:

a. Before it is moved from the place where it is accepted by the "**insured**" for movement into or onto the covered "**auto**"; or

b. After it is moved from the covered "**auto**" to the place where it is finally delivered by the "**insured**".

8. **Movement Of Property By Mechanical Device**

"**Bodily injury**" or "**property damage**" resulting from the movement of property by a mechanical device (other than a hand truck) unless the device is attached to the covered "**auto**".

9. **Operations**

"**Bodily injury**" or "**property damage**" arising out of the operation of:

a. Any equipment listed in Paragraphs **6.b.** and **6.c.** of the definition of "**mobile equipment**"; or

b. Machinery or equipment that is on, attached to or part of a land vehicle that would qualify under the definition of "**mobile equipment**" if it were not subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged.

10. **Completed Operations**

"**Bodily injury**" or "**property damage**" arising out of your work after that work has been completed or abandoned.

In this exclusion, your work means:

a. Work or operations performed by you or on your behalf; and

b. Materials, parts or equipment furnished in connection with such work or operations.

Your work includes warranties or representations made at any time with respect to the fitness, quality, durability or performance of any of the items included in Paragraph **a.** or **b.** above.

Your work will be deemed completed at the earliest of the following times:

(1) When all of the work called for in your contract has been completed;

© Copyright Insurance Services Office, Inc., 2012

(2) When all of the work to be done at the site has been completed if your contract calls for work at more than one site; or

(3) When that part of the work done at a job site has been put to its intended use by any person or organization other than another contractor or subcontractor working on the same project.

Work that may need service, maintenance, correction, repair or replacement, but which is otherwise complete, will be treated as completed.

11. Pollution

"**Bodily injury**" or "**property damage**" arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "**pollutants**":

a. That are, or that are contained in any property that is:

(1) Being transported or towed by, handled or handled for movement into, onto or from the covered "**auto**";

(2) Otherwise in the course of transit by or on behalf of the "**insured**"; or

(3) Being stored, disposed of, treated or processed in or upon the covered "**auto**";

b. Before the "**pollutants**" or any property in which the "**pollutants**" are contained are moved from the place where they are accepted by the "**insured**" for movement into or onto the covered "**auto**"; or

c. After the "**pollutants**" or any property in which the "**pollutants**" are contained are moved from the covered "**auto**" to the place where they are finally delivered, disposed of or abandoned by the "**insured**".

Paragraph **a.** above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "**pollutants**" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "**auto**" or its parts if:

(1) The "**pollutants**" escape, seep, migrate or are discharged, dispersed or released directly from an "**auto**" part designed by its manufacturer to hold, store, receive or dispose of such "**pollutants**"; and

(2) The "**bodily injury**", "**property damage**" or "**covered pollution cost or expense**" does not arise out of the operation of any equipment listed in Paragraphs **6.b.** and **6.c.** of the definition of "**mobile equipment**".

Paragraphs **b.** and **c.** above of this exclusion do not apply to "**accidents**" that occur away from premises owned by or rented to an "**insured**" with respect to "**pollutants**" not in or upon a covered "**auto**" if:

(a) The "**pollutants**" or any property in which the "**pollutants**" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "**auto**"; and

(b) The discharge, dispersal, seepage, migration, release or escape of the "**pollutants**" is caused directly by such upset, overturn or damage.

12. War

"**Bodily injury**" or "**property damage**" arising directly or indirectly out of:

a. War, including undeclared or civil war;

b. Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

c. Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

© Copyright Insurance Services Office, Inc., 2012

13. Racing

Covered "**autos**" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. This insurance also does not apply while that covered "**auto**" is being prepared for such a contest or activity.

C. Limit Of Insurance

Regardless of the number of covered "**autos**", "**insureds**", premiums paid, claims made or vehicles involved in the "**accident**", the most we will pay for the total of all damages and "**covered pollution cost or expense**" combined resulting from any one "**accident**" is the Limit Of Insurance for Covered Autos Liability Coverage shown in the Declarations.

All "**bodily injury**", "**property damage**" and "**covered pollution cost or expense**" resulting from continuous or repeated exposure to substantially the same conditions will be considered as resulting from one "**accident**".

No one will be entitled to receive duplicate payments for the same elements of "**loss**" under this Coverage Form and any Medical Payments Coverage endorsement, Uninsured Motorists Coverage endorsement or Underinsured Motorists Coverage endorsement attached to this Coverage Part.

SECTION III – PHYSICAL DAMAGE COVERAGE

A. Coverage

1. We will pay for "**loss**" to a covered "**auto**" or its equipment under:

a. Comprehensive Coverage

From any cause except:

(1) The covered "**auto's**" collision with another object; or

(2) The covered "**auto's**" overturn.

b. Specified Causes Of Loss Coverage

Caused by:

(1) Fire, lightning or explosion;

(2) Theft;

(3) Windstorm, hail or earthquake;

(4) Flood;

(5) Mischief or vandalism; or

(6) The sinking, burning, collision or derailment of any conveyance transporting the covered "**auto**".

c. Collision Coverage

Caused by:

(1) The covered "**auto's**" collision with another object; or

(2) The covered "**auto's**" overturn.

2. Towing

We will pay up to the limit shown in the Declarations for towing and labor costs incurred each time a covered "**auto**" of the private passenger type is disabled. However, the labor must be performed at the place of disablement.

3. Glass Breakage – Hitting A Bird Or Animal – Falling Objects Or Missiles

If you carry Comprehensive Coverage for the damaged covered "**auto**", we will pay for the following under Comprehensive Coverage:

© Copyright Insurance Services Office, Inc., 2012

a. Glass breakage;

b. "**Loss**" caused by hitting a bird or animal; and

c. "**Loss**" caused by falling objects or missiles.

However, you have the option of having glass breakage caused by a covered "**auto's**" collision or overturn considered a "**loss**" under Collision Coverage.

4. **Coverage Extensions**

a. **Transportation Expenses**

We will pay up to $20 per day, to a maximum of $600, for temporary transportation expense incurred by you because of the total theft of a covered "**auto**" of the private passenger type. We will pay only for those covered "**autos**" for which you carry either Comprehensive or Specified Causes Of Loss Coverage. We will pay for temporary transportation expenses incurred during the period beginning 48 hours after the theft and ending, regardless of the policy's expiration, when the covered "**auto**" is returned to use or we pay for its "**loss**".

b. **Loss Of Use Expenses**

For Hired Auto Physical Damage, we will pay expenses for which an "**insured**" becomes legally responsible to pay for loss of use of a vehicle rented or hired without a driver under a written rental contract or agreement. We will pay for loss of use expenses if caused by:

(1) Other than collision only if the Declarations indicates that Comprehensive Coverage is provided for any covered "**auto**";

(2) Specified Causes Of Loss only if the Declarations indicates that Specified Causes Of Loss Coverage is provided for any covered "**auto**"; or

(3) Collision only if the Declarations indicates that Collision Coverage is provided for any covered "**auto**".

However, the most we will pay for any expenses for loss of use is $20 per day, to a maximum of $600.

B. Exclusions

1. We will not pay for "**loss**" caused by or resulting from any of the following. Such "**loss**" is excluded regardless of any other cause or event that contributes concurrently or in any sequence to the "**loss**".

a. **Nuclear Hazard**

(1) The explosion of any weapon employing atomic fission or fusion; or

(2) Nuclear reaction or radiation, or radioactive contamination, however caused.

b. **War Or Military Action**

(1) War, including undeclared or civil war;

(2) Warlike action by a military force, including action in hindering or defending against an actual or expected attack, by any government, sovereign or other authority using military personnel or other agents; or

(3) Insurrection, rebellion, revolution, usurped power or action taken by governmental authority in hindering or defending against any of these.

2. We will not pay for "**loss**" to any covered "**auto**" while used in any professional or organized racing or demolition contest or stunting activity, or while practicing for such contest or activity. We will also not pay for "**loss**" to any covered "**auto**" while that covered "**auto**" is being prepared for such a contest or activity.

© Copyright Insurance Services Office, Inc., 2012

3. We will not pay for "**loss**" due and confined to:

   a. Wear and tear, freezing, mechanical or electrical breakdown.

   b. Blowouts, punctures or other road damage to tires.

   This exclusion does not apply to such "**loss**" resulting from the total theft of a covered "**auto**".

4. We will not pay for "**loss**" to any of the following:

   a. Tapes, records, discs or other similar audio, visual or data electronic devices designed for use with audio, visual or data electronic equipment.

   b. Any device designed or used to detect speed-measuring equipment, such as radar or laser detectors, and any jamming apparatus intended to elude or disrupt speed-measuring equipment.

   c. Any electronic equipment, without regard to whether this equipment is permanently installed, that reproduces, receives or transmits audio, visual or data signals.

   d. Any accessories used with the electronic equipment described in Paragraph **c.** above.

5. Exclusions **4.c.** and **4.d.** do not apply to equipment designed to be operated solely by use of the power from the "**auto's**" electrical system that, at the time of "**loss**", is:

   a. Permanently installed in or upon the covered "**auto**";

   b. Removable from a housing unit which is permanently installed in or upon the covered "**auto**";

   c. An integral part of the same unit housing any electronic equipment described in Paragraphs **a.** and **b.** above; or

   d. Necessary for the normal operation of the covered "**auto**" or the monitoring of the covered "**auto's**" operating system.

6. We will not pay for "**loss**" to a covered "**auto**" due to "**diminution in value**".

C. Limits Of Insurance

1. The most we will pay for:

   a. "**Loss**" to any one covered "**auto**" is the lesser of:

      (1) The actual cash value of the damaged or stolen property as of the time of the "**loss**"; or

      (2) The cost of repairing or replacing the damaged or stolen property with other property of like kind and quality.

   b. All electronic equipment that reproduces, receives or transmits audio, visual or data signals in any one "**loss**" is $1,000, if, at the time of "**loss**", such electronic equipment is:

      (1) Permanently installed in or upon the covered "**auto**" in a housing, opening or other location that is not normally used by the "**auto**" manufacturer for the installation of such equipment;

      (2) Removable from a permanently installed housing unit as described in Paragraph **b.(1)** above; or

      (3) An integral part of such equipment as described in Paragraphs **b.(1)** and **b.(2)** above.

2. An adjustment for depreciation and physical condition will be made in determining actual cash value in the event of a total "**loss**".

3. If a repair or replacement results in better than like kind or quality, we will not pay for the amount of the betterment.

© Copyright Insurance Services Office, Inc., 2012

D. Deductible

For each covered "**auto**", our obligation to pay for, repair, return or replace damaged or stolen property will be reduced by the applicable deductible shown in the Declarations. Any Comprehensive Coverage deductible shown in the Declarations does not apply to "**loss**" caused by fire or lightning.

SECTION IV – BUSINESS AUTO CONDITIONS

The following conditions apply in addition to the Common Policy Conditions:

A. Loss Conditions

1. Appraisal For Physical Damage Loss

If you and we disagree on the amount of "**loss**", either may demand an appraisal of the "**loss**". In this event, each party will select a competent appraiser. The two appraisers will select a competent and impartial umpire. The appraisers will state separately the actual cash value and amount of "**loss**". If they fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding. Each party will:

a. Pay its chosen appraiser; and

b. Bear the other expenses of the appraisal and umpire equally.

If we submit to an appraisal, we will still retain our right to deny the claim.

2. Duties In The Event Of Accident, Claim, Suit Or Loss

We have no duty to provide coverage under this policy unless there has been full compliance with the following duties:

a. In the event of "**accident**", claim, "**suit**" or "**loss**", you must give us or our authorized representative prompt notice of the "**accident**" or "**loss**". Include:

(1) How, when and where the "**accident**" or "**loss**" occurred;

(2) The "**insured's**" name and address; and

(3) To the extent possible, the names and addresses of any injured persons and witnesses.

b. Additionally, you and any other involved "**insured**" must:

(1) Assume no obligation, make no payment or incur no expense without our consent, except at the "**insured's**" own cost.

(2) Immediately send us copies of any request, demand, order, notice, summons or legal paper received concerning the claim or "**suit**".

(3) Cooperate with us in the investigation or settlement of the claim or defense against the "**suit**".

(4) Authorize us to obtain medical records or other pertinent information.

(5) Submit to examination, at our expense, by physicians of our choice, as often as we reasonably require.

c. If there is "**loss**" to a covered "**auto**" or its equipment, you must also do the following:

(1) Promptly notify the police if the covered "**auto**" or any of its equipment is stolen.

(2) Take all reasonable steps to protect the covered "**auto**" from further damage. Also keep a record of your expenses for consideration in the settlement of the claim.

(3) Permit us to inspect the covered "**auto**" and records proving the "**loss**" before its repair or disposition.

(4) Agree to examinations under oath at our request and give us a signed statement of your answers.

© Copyright Insurance Services Office, Inc., 2012

3. **Legal Action Against Us**

   No one may bring a legal action against us under this Coverage Form until:

   a. There has been full compliance with all the terms of this Coverage Form; and

   b. Under Covered Autos Liability Coverage, we agree in writing that the "**insured**" has an obligation to pay or until the amount of that obligation has finally been determined by judgment after trial. No one has the right under this policy to bring us into an action to determine the "**insured's**" liability.

4. **Loss Payment – Physical Damage Coverages**

   At our option, we may:

   a. Pay for, repair or replace damaged or stolen property;

   b. Return the stolen property, at our expense. We will pay for any damage that results to the "**auto**" from the theft; or

   c. Take all or any part of the damaged or stolen property at an agreed or appraised value.

   If we pay for the "**loss**", our payment will include the applicable sales tax for the damaged or stolen property.

5. **Transfer Of Rights Of Recovery Against Others To Us**

   If any person or organization to or for whom we make payment under this Coverage Form has rights to recover damages from another, those rights are transferred to us. That person or organization must do everything necessary to secure our rights and must do nothing after "**accident**" or "**loss**" to impair them.

B. **General Conditions**

1. **Bankruptcy**

   Bankruptcy or insolvency of the "**insured**" or the "**insured's**" estate will not relieve us of any obligations under this Coverage Form.

2. **Concealment, Misrepresentation Or Fraud**

   This Coverage Form is void in any case of fraud by you at any time as it relates to this Coverage Form. It is also void if you or any other "**insured**", at any time, intentionally conceals or misrepresents a material fact concerning:

   a. This Coverage Form;

   b. The covered "**auto**";

   c. Your interest in the covered "**auto**"; or

   d. A claim under this Coverage Form.

3. **Liberalization**

   If we revise this Coverage Form to provide more coverage without additional premium charge, your policy will automatically provide the additional coverage as of the day the revision is effective in your state.

4. **No Benefit To Bailee – Physical Damage Coverages**

   We will not recognize any assignment or grant any coverage for the benefit of any person or organization holding, storing or transporting property for a fee regardless of any other provision of this Coverage Form.

© Copyright Insurance Services Office, Inc., 2012

5. Other Insurance

a. For any covered "**auto**" you own, this Coverage Form provides primary insurance. For any covered "**auto**" you don't own, the insurance provided by this Coverage Form is excess over any other collectible insurance. However, while a covered "**auto**" which is a "**trailer**" is connected to another vehicle, the Covered Autos Liability Coverage this Coverage Form provides for the "**trailer**" is:

(1) Excess while it is connected to a motor vehicle you do not own; or

(2) Primary while it is connected to a covered "**auto**" you own.

b. For Hired Auto Physical Damage Coverage, any covered "**auto**" you lease, hire, rent or borrow is deemed to be a covered "**auto**" you own. However, any "**auto**" that is leased, hired, rented or borrowed with a driver is not a covered "**auto**".

c. Regardless of the provisions of Paragraph **a.** above, this Coverage Form's Covered Autos Liability Coverage is primary for any liability assumed under an "**insured contract**".

d. When this Coverage Form and any other Coverage Form or policy covers on the same basis, either excess or primary, we will pay only our share. Our share is the proportion that the Limit of Insurance of our Coverage Form bears to the total of the limits of all the Coverage Forms and policies covering on the same basis.

6. Premium Audit

a. The estimated premium for this Coverage Form is based on the exposures you told us you would have when this policy began. We will compute the final premium due when we determine your actual exposures. The estimated total premium will be credited against the final premium due and the first Named Insured will be billed for the balance, if any. The due date for the final premium or retrospective premium is the date shown as the due date on the bill. If the estimated total premium exceeds the final premium due, the first Named Insured will get a refund.

b. If this policy is issued for more than one year, the premium for this Coverage Form will be computed annually based on our rates or premiums in effect at the beginning of each year of the policy.

7. Policy Period, Coverage Territory

Under this Coverage Form, we cover "**accidents**" and "**losses**" occurring:

a. During the policy period shown in the Declarations; and

b. Within the coverage territory.

The coverage territory is:

(1) The United States of America;

(2) The territories and possessions of the United States of America;

(3) Puerto Rico;

(4) Canada; and

(5) Anywhere in the world if a covered "**auto**" of the private passenger type is leased, hired, rented or borrowed without a driver for a period of 30 days or less,

provided that the "**insured's**" responsibility to pay damages is determined in a "**suit**" on the merits, in the United States of America, the territories and possessions of the United States of America, Puerto Rico or Canada, or in a settlement we agree to.

We also cover "**loss**" to, or "**accidents**" involving, a covered "**auto**" while being transported between any of these places.

© Copyright Insurance Services Office, Inc., 2012

8. Two Or More Coverage Forms Or Policies Issued By Us

If this Coverage Form and any other Coverage Form or policy issued to you by us or any company affiliated with us applies to the same "**accident**", the aggregate maximum Limit of Insurance under all the Coverage Forms or policies shall not exceed the highest applicable Limit of Insurance under any one Coverage Form or policy. This condition does not apply to any Coverage Form or policy issued by us or an affiliated company specifically to apply as excess insurance over this Coverage Form.

SECTION V – DEFINITIONS

A. "**Accident**" includes continuous or repeated exposure to the same conditions resulting in "**bodily injury**" or "**property damage**".

B. "**Auto**" means:

1. A land motor vehicle, "**trailer**" or semitrailer designed for travel on public roads; or

2. Any other land vehicle that is subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged.

However, "**auto**" does not include "**mobile equipment**".

C. "**Bodily injury**" means bodily injury, sickness or disease sustained by a person, including death resulting from any of these.

D. "**Covered pollution cost or expense**" means any cost or expense arising out of:

1. Any request, demand, order or statutory or regulatory requirement that any "**insured**" or others test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to, or assess the effects of, "**pollutants**"; or

2. Any claim or "**suit**" by or on behalf of a governmental authority for damages because of testing for, monitoring, cleaning up, removing, containing, treating, detoxifying or neutralizing, or in any way responding to, or assessing the effects of, "**pollutants**".

"**Covered pollution cost or expense**" does not include any cost or expense arising out of the actual, alleged or threatened discharge, dispersal, seepage, migration, release or escape of "**pollutants**":

a. That are, or that are contained in any property that is:

(1) Being transported or towed by, handled or handled for movement into, onto or from the covered "**auto**";

(2) Otherwise in the course of transit by or on behalf of the "**insured**"; or

(3) Being stored, disposed of, treated or processed in or upon the covered "**auto**";

b. Before the "**pollutants**" or any property in which the "**pollutants**" are contained are moved from the place where they are accepted by the "**insured**" for movement into or onto the covered "**auto**"; or

c. After the "**pollutants**" or any property in which the "**pollutants**" are contained are moved from the covered "**auto**" to the place where they are finally delivered, disposed of or abandoned by the "**insured**".

Paragraph **a.** above does not apply to fuels, lubricants, fluids, exhaust gases or other similar "**pollutants**" that are needed for or result from the normal electrical, hydraulic or mechanical functioning of the covered "**auto**" or its parts, if:

(1) The "**pollutants**" escape, seep, migrate or are discharged, dispersed or released directly from an "**auto**" part designed by its manufacturer to hold, store, receive or dispose of such "**pollutants**"; and

© Copyright Insurance Services Office, Inc., 2012

(2) The "**bodily injury**", "**property damage**" or "**covered pollution cost or expense**" does not arise out of the operation of any equipment listed in Paragraph **6.b.** or **6.c.** of the definition of "**mobile equipment**".

Paragraphs **b.** and **c.** above do not apply to "**accidents**" that occur away from premises owned by or rented to an "**insured**" with respect to "**pollutants**" not in or upon a covered "**auto**" if:

(a) The "**pollutants**" or any property in which the "**pollutants**" are contained are upset, overturned or damaged as a result of the maintenance or use of a covered "**auto**"; and

(b) The discharge, dispersal, seepage, migration, release or escape of the "**pollutants**" is caused directly by such upset, overturn or damage.

E. "**Diminution in value**" means the actual or perceived loss in market value or resale value which results from a direct and accidental "**loss**".

F. "**Employee**" includes a "**leased worker**". "**Employee**" does not include a "**temporary worker**".

G. "**Insured**" means any person or organization qualifying as an insured in the Who Is An Insured provision of the applicable coverage. Except with respect to the Limit of Insurance, the coverage afforded applies separately to each insured who is seeking coverage or against whom a claim or "**suit**" is brought.

G. "**Insured contract**" means:

1. A lease of premises;

2. A sidetrack agreement;

3. Any easement or license agreement, except in connection with construction or demolition operations on or within 50 feet of a railroad;

4. An obligation, as required by ordinance, to indemnify a municipality, except in connection with work for a municipality;

5. That part of any other contract or agreement pertaining to your business (including an indemnification of a municipality in connection with work performed for a municipality) under which you assume the tort liability of another to pay for "**bodily injury**" or "**property damage**" to a third party or organization. Tort liability means a liability that would be imposed by law in the absence of any contract or agreement; or

6. That part of any contract or agreement entered into, as part of your business, pertaining to the rental or lease, by you or any of your "**employees**", of any "**auto**". However, such contract or agreement shall not be considered an "**insured contract**" to the extent that it obligates you or any of your "**employees**" to pay for "**property damage**" to any "**auto**" rented or leased by you or any of your "**employees**".

An "**insured contract**" does not include that part of any contract or agreement:

a. That indemnifies a railroad for "**bodily injury**" or "**property damage**" arising out of construction or demolition operations, within 50 feet of any railroad property and affecting any railroad bridge or trestle, tracks, roadbeds, tunnel, underpass or crossing;

b. That pertains to the loan, lease or rental of an "**auto**" to you or any of your "**employees**", if the "**auto**" is loaned, leased or rented with a driver; or

c. That holds a person or organization engaged in the business of transporting property by "**auto**" for hire harmless for your use of a covered "**auto**" over a route or territory that person or organization is authorized to serve by public authority.

I. "**Leased worker**" means a person leased to you by a labor leasing firm under an agreement between you and the labor leasing firm to perform duties related to the conduct of your business. "**Leased worker**" does not include a "**temporary worker**".

J. "**Loss**" means direct and accidental loss or damage.

© Copyright Insurance Services Office, Inc., 2012

K. "**Mobile equipment**" means any of the following types of land vehicles, including any attached machinery or equipment:

1. Bulldozers, farm machinery, forklifts and other vehicles designed for use principally off public roads;

2. Vehicles maintained for use solely on or next to premises you own or rent;

3. Vehicles that travel on crawler treads;

4. Vehicles, whether self-propelled or not, maintained primarily to provide mobility to permanently mounted:

a. Power cranes, shovels, loaders, diggers or drills; or

b. Road construction or resurfacing equipment such as graders, scrapers or rollers;

5. Vehicles not described in Paragraph **1.**, **2.**, **3.** or **4.** above that are not self-propelled and are maintained primarily to provide mobility to permanently attached equipment of the following types:

a. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting and well-servicing equipment; or

b. Cherry pickers and similar devices used to raise or lower workers; or

6. Vehicles not described in Paragraph **1.**, **2.**, **3.** or **4.** above maintained primarily for purposes other than the transportation of persons or cargo. However, self-propelled vehicles with the following types of permanently attached equipment are not "**mobile equipment**" but will be considered "**autos**":

a. Equipment designed primarily for:

(1) Snow removal;

(2) Road maintenance, but not construction or resurfacing; or

(3) Street cleaning;

b. Cherry pickers and similar devices mounted on automobile or truck chassis and used to raise or lower workers; and

c. Air compressors, pumps and generators, including spraying, welding, building cleaning, geophysical exploration, lighting or well-servicing equipment.

However, "**mobile equipment**" does not include land vehicles that are subject to a compulsory or financial responsibility law or other motor vehicle insurance law where it is licensed or principally garaged. Land vehicles subject to a compulsory or financial responsibility law or other motor vehicle insurance law are considered "**autos**".

L. "**Pollutants**" means any solid, liquid, gaseous or thermal irritant or contaminant, including smoke, vapor, soot, fumes, acids, alkalis, chemicals and waste. Waste includes materials to be recycled, reconditioned or reclaimed.

M. "**Property damage**" means damage to or loss of use of tangible property.

N. "**Suit**" means a civil proceeding in which:

1. Damages because of "**bodily injury**" or "**property damage**"; or

2. A "**covered pollution cost or expense**";

to which this insurance applies, are alleged.

"**Suit**" includes:

a. An arbitration proceeding in which such damages or "**covered pollution costs or expenses**" are claimed and to which the "**insured**" must submit or does submit with our consent; or

© Copyright Insurance Services Office, Inc., 2012

b. Any other alternative dispute resolution proceeding in which such damages or "**covered pollution costs or expenses**" are claimed and to which the insured submits with our consent.

O. "**Temporary worker**" means a person who is furnished to you to substitute for a permanent "**employee**" on leave or to meet seasonal or short-term workload conditions.

P. "**Trailer**" includes semitrailer.

EXTENDED COVERAGE ENDORSEMENT - BA PLUS

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

BUSINESS AUTO COVERAGE FORM

I. LIABILTY COVERAGE

A. Who Is An Insured

The following is added to **SECTION II, Paragraph A.1., Who Is An Insured:**

1. a. Any incorporated entity of which the Named Insured owns a majority of the voting stock on the date of inception of this Coverage Form; **provided that**,

   b. The insurance afforded by this provision **A.1.** does not apply to any such entity that is an **insured** under any other liability **policy** providing **auto** coverage.

2. Any organization you newly acquire or form, other than a limited liability company, partnership or joint venture, and over which you maintain majority ownership interest.

   The insurance afforded by this provision **A.2.**:

   a. Is effective on the acquisition or formation date, and is afforded only until the end of the policy period of this Coverage Form, or the next anniversary of its inception date, whichever is earlier.

   b. Does not apply to:

      (1) **Bodily injury** or **property damage** caused by an **accident** that occurred before you acquired or formed the organization; or

      (2) Any such organization that is an **insured** under any other liability **policy** providing **auto** coverage.

3. Any person or organization that you are obligated to provide Insurance where required by a written contract or agreement is an insured, but only with respect to legal responsibility for acts or omissions of a person for whom Liability Coverage is afforded under this policy.

4. An **employee** of yours is an **insured** while operating an **auto** hired or rented under a contract or agreement in that **employee's** name, with your permission, while performing duties related to the conduct of your business.

"Policy", as used in this provision **A. Who Is An Insured,** includes those policies that were in force on the inception date of this Coverage Form but:

1. Which are no longer in force; or
2. Whose limits have been exhausted.

B. Bail Bonds and Loss of Earnings

SECTION II, Paragraphs A.2.a.(2) and A.2.a.(4) are revised as follows:

1. In **a.(2),** the limit for the cost of bail bonds is increased from $2,000 to $5,000, and
2. In **a.(4),** the limit for the loss of earnings is increased from $250 to $500 a day.

C. Fellow Employee

SECTION II, Paragraph B.5 does not apply.

© Copyright CNA All Rights Reserved. Includes copyrighted material of the Insurance Services Office, Inc., used with its permission.

Such coverage as is afforded by this provision C. is excess over any other collectible insurance.

II. PHYSICAL DAMAGE COVERAGE

A. Towing

SECTION III. Paragraph A.2., is revised to include Light Trucks up to 10,000 pounds G.V.W.

B. Transportation Expenses

SECTION III, Paragraph A.4.a. is revised, with respect to transportation expense incurred by you, to provide:

a. $60 per day, in lieu of $20; subject to

b. $1,800 maximum, in lieu of $600.

C. Loss of Use Expenses

SECTION III, Paragraph A.4.b. is revised, with respect to loss of use expenses incurred by you, to provide:

a. $1,000 maximum, in lieu of $600.

D. Personal Property

The following is added to **SECTION III, Paragraph A.4.**

c. We will pay up to $500 for loss to **Personal Property** which is:

(1) Owned by an **insured**; and

(2) In or on the covered **auto**.

This coverage applies only in the event of a total theft of your covered **auto**.

This insurance is excess over any other collectible insurance and no deductible applies.

E. Rental Reimbursement

The following is added to **SECTION III, Paragraph A.4.:**

d. We will pay for rental reimbursement expenses incurred by you for the rental of an **auto** because of **loss** to a covered **auto**. Payment applies in addition to the otherwise applicable amount of each coverage you have on a covered **auto**. No deductibles apply to this coverage.

1. We will pay only for those expenses incurred during the policy period beginning 24 hours after the **loss** and ending, regardless of the policy's expiration, with the lesser of the following number of days:

(a) The number of days reasonably required to repair or replace the covered auto; or,

(b) 15 days.

2. Our payment is limited to the lesser of the following amounts:

(a) Necessary and actual expenses incurred; or,

(b) $25 per day subject to a maximum of $375.

3. This coverage does not apply while there are spare or reserve **autos** available to you for your operations.

4. If **loss** results from the total theft of a covered **auto** of the private passenger type, we will pay under this coverage only that amount of your rental reimbursement expenses which is not already provided for under the Physical Damage Coverage Extension.

© Copyright CNA All Rights Reserved. Includes copyrighted material of the Insurance Services Office, Inc., used with its permission.

F. **Hired "Autos"**

The following is added to **SECTION III. Paragraph A.:**

5. Hired **Autos**

If Physical Damage coverage is provided under this policy, and such coverage does not extend to Hired Autos, then Physical Damage coverage is extended to:

a. Any covered **auto** you lease, hire, rent or borrow without a driver; and

b. Any covered **auto** hired or rented by your **employee** without a driver, under a contract in that individual **employee's** name, with your permission, while performing duties related to the conduct of your business.

c. The most we will pay for any one **accident** or **loss** is the actual cash value, cost of repair, cost of replacement or $75,000 whichever is less minus a $500 deductible for each covered auto. No deductible applies to **loss** caused by fire or lightning.

d. The physical damage coverage as is provided by this provision will be limited to the types of physical damage coverage(s) provided on your owned **autos**.

e. Such physical damage coverage for hired **autos** will:

(1) Include loss of use, provided it is the consequence of an **accident** for which the Named Insured is legally liable, and as a result of which a monetary loss is sustained by the leasing or rental concern.

(2) Such coverage as is provided by this provision G.e.(1) will be subject to a limit of $750 per **accident**.

G. **Airbag Coverage**

The following is added to **SECTION III, Paragraph B.3.**

The accidental discharge of an airbag shall not be considered mechanical breakdown.

H. **Electronic Equipment**

SECTION III, Paragraphs B.4.c and B.4.d. are deleted and replaced by the following:

c. Physical Damage Coverage on a covered **auto** also applies to **loss** to any permanently installed electronic equipment including its antennas and other accessories

d. A $100 per occurrence deductible applies to the coverage provided by this provision.

I. **Diminution In Value**

The following is added to **SECTION III, Paragraph B.6.**

Subject to the following, the **diminution in value** exclusion does not apply to:

a. Any covered **auto** of the private passenger type you lease, hire, rent or borrow, without a driver for a period of 30 days or less, while performing duties related to the conduct of your business; and

b. Any covered **auto** of the private passenger type hired or rented by your **employee** without a driver for a period of 30 days or less, under a contract in that individual **employee's** name, with your permission, while performing duties related to the conduct of your business.

c. Such coverage as is provided by this provision is limited to a **diminution in value** loss arising directly out of accidental damage and not as a result of the failure to make repairs; faulty or incomplete maintenance or repairs; or the installation of substandard parts.

© Copyright CNA All Rights Reserved. Includes copyrighted material of the Insurance Services Office, Inc., used with its permission.

d. The most we will pay for **loss** to a covered **auto** in any one accident is the lesser of:

(1) $5,000; or

(2) 20% of the **auto's** actual cash value (ACV)

III. Drive Other Car Coverage – Executive Officers

The following is added to **SECTIONS II and III:**

1. Any **auto** you don't own, hire or borrow is a covered **auto** for Liability Coverage while being used by, and for Physical Damage Coverage while in the care, custody or control of, any of your **executive officers**, except:

   a. An **auto** owned by that **executive officer** or a member of that person's household; or

   b. An **auto** used by that **executive officer** while working in a business of selling, servicing, repairing or parking **autos**.

   Such Liability and/or Physical Damage Coverage as is afforded by this provision will be:

   (1) Equal to the greatest of those coverages afforded any covered **auto**; and

   (2) Excess over any other collectible insurance.

2. For purposes of this provision, **executive officer** means a person holding any of the officer positions created by your charter, constitution, bylaws or any other similar governing document, and, while a resident of the same household, includes that person's spouse.

   Such **executive officers** are **insureds** while using a covered **auto** described in this provision.

IV. BUSINESS AUTO CONDITIONS

A. Duties In The Event Of Accident, Claim, Suit Or Loss

The following is added to **SECTION IV, Paragraph A.2.a.**

(4) Your **employees** may know of an **accident** or **loss**. This will not mean that you have such knowledge, unless such **accident** or **loss** is known to you or if you are not an individual, to any of your executive officers or partners or your insurance manager.

The following is added to **SECTION IV, Paragraph A.2.b.**

(6) Your **employees** may know of documents received concerning a claim or **suit**. This will not mean that you have such knowledge, unless receipt of such documents is known to you or if you are not an individual, to any of your executive officers or partners or your insurance manager.

B. Concealment, Misrepresentation or Fraud

The following is added to **SECTION IV, Paragraph B.2.**

Your failure to disclose all hazards existing on the date of inception of this Coverage Form shall not prejudice you with respect to the coverage afforded provided such failure or omission is not intentional.

C. Policy Period, Coverage Territory

SECTION IV, Paragraphs 7.(5).(a). is revised to provide:

a. 45 days of coverage in lieu of 30 days

IV. DEFINITIONS

SECTION V. Paragraph C. is deleted and replaced by the following:

© Copyright CNA All Rights Reserved. Includes copyrighted material of the Insurance Services Office, Inc., used with its permission.

Bodily injury means bodily injury, sickness or disease sustained by a person, including mental anguish, mental injury or death resulting from any of these

© Copyright CNA All Rights Reserved. Includes copyrighted material of the Insurance Services Office, Inc., used with its permission.

EXECUTIVE SUMMARY

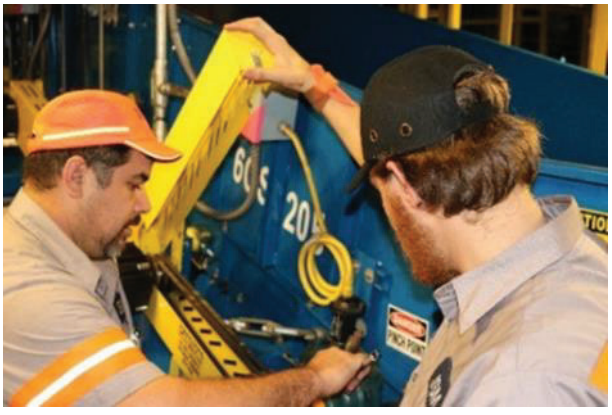
A. General Company Information – JSM Airport Services, a wholly owned subsidiary to JSM & Associates
   1. Contact Name: John Majewski, President

JSM & Associates
460 County Rd 448 Tavares, FL 32757
Office: 352.383.2600
Cell: 407.509.1850
johnm@jsmairports.com

   2. Type of Organization - JSM Airport Services, LLC is a limited liability corporation organized in the state of Florida.
   3. Federal Employer Identification Number - EIN: 85-3605931

The history of JSM Airport Services begins with the history of JSM & Associates, as JSM Airport Services is a wholly owned subsidiary of JSM Associates, LLC, a private company. JSM Associates is a professional engineering firm that was established in January 2008 for the purposes of providing a basket of services not found in the industry under one roof.

To do so, JSM management sought out the most talented professionals in the marketplace to provide a level of service lost by large conglomerates that attempt to service multiple industries. To best serve the industry JSM Associates established JSM Airport Services (JSM), to distinguish and broaden its brand and market position for delivering high quality maintenance services to airports worldwide. JSM Airport Services combines an army of mission-focused, highly skilled maintenance technicians with a robust support network.



This infrastructure and our culture are the result of listening to our clients tell us what they really want in a service partner. It is what JSM refers to as **"The Power of Partnership".** We have leveraged the talent of a hand-selected management team to build that client- focused culture from the ground up.

JSM Airport Services, LLC

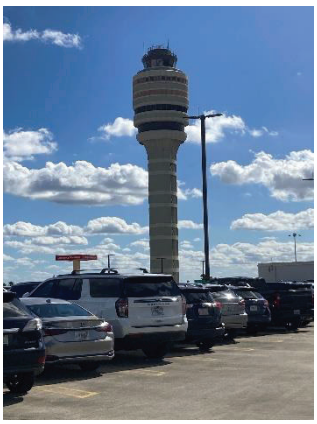
M. Vlad Opreanu, CPPB
Senior Purchasing Agent
Greater Orlando Aviation Authority
Purchasing Department
5855 Cargo Road, Orlando FL 32827-4399

RE: **Purchasing Proposal 23-282-RFP, Baggage Handling System (BHS) Operation, Maintenance and Repair Services for the Orlando International Airport**

Dear Mr. Opreanu:



JSM Airport Services, LLC (JSM) appreciates the opportunity to continue our business partnership with the Orlando International Airport (MCO). We are excited to submit our response to the Request for Proposal for MCO Baggage Handling System (BHS) Operation and Maintenance Services. JSM is a comprehensive group of airport industry professionals independent of the aviation authority offering a unique blend of ramp level services from our headquarters located at 470 County Road 448, 2nd Floor Tavares FL 32778, registered to do business in the State of Florida. JSM is the only LOCAL O&M Provider headquartered in Central Florida.

JSM has a customized program already deployed for MCO. We understand the needed attention to detail, and responsiveness required to deliver cost effective maintenance solutions. JSM's program delivers quality assurance and maximum equipment reliability, while managing maintenance efficiency and its cost to provide the value that our customers expect.

JSM'S COMPETITIVE EDGE

At MCO with regards to our unique position as the incumbent since 2015 in providing the BHS O&M Services, we confirm our commitment to never become complacent in our efforts to fully deliver all that we promise, building upon our industry leading reputation and to continue to be an integral partner with GOAA:

- ✓ **JSM is familiar with the special needs of the airport and contract**
- ✓ **JSM is qualified to perform the full scope of services as required**

- ✓ **JSM understands the current operation and challenges of selecting, training, and managing personnel to satisfy these requirements**
- ✓ **JSM has the detailed understanding of the client's (GOAA and MCO) specific requirements**

EXECUTIVE SUMMARY

JSM commits to continue building a sustainable program with a strong team to deliver the performance expected under the new agreement. This will be supported by the same key personnel that have overseen the O&M contract onsite for the last eight years as well as offsite teams that have supported the operation over the same time.

In our response, JSM will present project references and our five-year track record at MCO that will demonstrate our ability to continue performing the services requested in this important solicitation. In addition, our project team biographies will demonstrate subject matter expertise directly dedicated to the MCO operation. Their skill sets include BHS maintenance programs, policies, procedures, and OSHA safety requirements.

Only JSM Airport Services (JSM) truly understands the unique and critical aspects in satisfying the needs of the GOAA and its customers, and the traveling public.

As the selected provider, JSM will continue these cost-effective strategies that contribution to the overall success of the airport and its service to the traveling public. These strategies include:

- Utilizing Part Time Technicians to address bag jams during peak volume – labor savings
- Leveraging National Vendor Programs for deep discounts for spare parts- material savings
- Utilizing existing CMMS (Maximo), preconfigured, allows no hiccups or missing reports – labor savings
- Conduct routine Quality Control checks to verify maintenance – eliminating downtime – labor savings
- Utilize JSM in-house SMEs to train technicians – rapid skill development – training savings
- Leverage Thermal Imaging Cameras - Predictive Maintenance – eliminating downtime – labor and material savings

The JSM TEAM

JSM Airport Services (JSM) is a group of aviation professionals specializing in services for Baggage Handling Systems (BHS). JSM's sole focus is to serve the airport industry and to develop talent and processes that benefit airport operations. We do not engage in service agreements in any other industry, as such our approach is to offer complementary aviation industry services that directly and indirectly enhance operations, maintenance, and management of your baggage handling system. **JSM has direct knowledge of MCO's complex hybrid BHS that has equipment from 7 different OEMs.**

JSM management staff have many achievements to demonstrate our expertise in the execution of operations maintenance of the BHS at MCO. The members of JSM's management team have over 100 years of cumulative service working for both JSM and other service providers. More importantly, JSM's **Andy Neil**, our Site Manager has loyally served GOAA by performing BHS projects at MCO for more than twenty (20) years. From these experiences, it is evident that JSM has the bandwidth and the horsepower to effectively continue servicing MCO's baggage systems.

Why select JSM?

our approach

At JSM we continue to differentiate ourselves through the quality of service and high levels of customer satisfaction. Using our depth of experience, our programs have been customized over the past 7 years for MCO to consider factors such as: the age of equipment, optimized spare parts requirements, flexible shift schedules that are tailored to flight operations and preventive maintenance compliance through the meticulous use of the CMMS. JSM utilizes a multi-step, analytical process to develop the specific program characteristics for the MCO operation.

CONTINUING TO EXCEED the expectations of MCO

During the recent contract term JSM has worked tirelessly to optimize the operation and create value:

"Battle Tested" - fully trained staff with MCO expertise - local experts in operating the system during construction including any upcoming projects

Cost Effective – continuously maintaining the "right sized" team through COVID, numerous construction projects and the challenging local job market

Safety – The MCO operation is over one year injury free

Knowledge - Experienced and skilled technicians trained on the complexity of the system and geographic challenges, including recurrent training on all OEM equipment

Employee Longevity - High workforce retention, with key local management on site over 6 years

Diverse Workforce - JSM remains focused on advancing diversity as a key element of its culture, but also encouraging the development of historically underutilized multicultural businesses, as partners and suppliers in its industry

JSM Airport Services is proud of our relationship with MCO and our track record of service excellence over the first contract term, and enthusiastically look forward to continuing to serve GOAA in the years going forward.

Respectfully,

John Majewski

TAB 3 Proposer's Knowledge and Experience

PROPOSER'S KNOWLEDGE AND EXPERIENCE

A. Proposer's Knowledge and Experience

1. Contracts (Similar Size and Scope)

JSM Airport Services (JSM) is an owned subsidiary of JSM & Associates, LLC, a private company. Prior to creating JSM Airport Services (JSM) as a separate company to distinguish and broaden its brand and market position for delivering high quality maintenance services, JSM began providing expert Baggage Handling Systems operations and maintenance and Passenger Boarding Bridge maintenance services at CAT X airports since 2014. The JSM management team has been performing BHS PBB O M services since 2003 when they took over operations of Elite Line Services (ELS).

JSM has the advantage of having supported the BHS at Orlando International for that past 7 years.

Only JSM Airport Services (JSM) truly understands the unique and critical aspects in satisfying the needs of the GOAA and its customers, and the traveling public.

Our qualifications for providing the required services are demonstrated by our operations, maintenance, and repair services performance record at the nation's largest airports. At Orlando International Airport (MCO), JSM services over 4500 BHS assets, while at Denver International Airport (DEN) JSM services over 5,000 assets. In these locations, JSM supports the processing of over 60,000 bags per day.

JSM	CBIS Matrices	No. of EDS Machines	PGDS Version	PBBs & GSE	Operations & Maintenance	Annual Passengers (2021) (millions)	Bags Processed / Day	Spare Parts Inventory ($ millions)

2. Company Track Record

JSM Airport Services, LLC	
Year Established	January 2, 2008 – 15 Years
Total Number of Employees	350
Locations	Orlando, FL San Juan, PR Houston, TX Denver, CO Nashville, TN Orlando-Sanford, FL Cincinnati/Northern Kentucky, KY
Industries Served	**Aviation Focused:** Baggage Handling Systems Passenger Boarding Bridges Ground Support Equipment

Although we might not be one of the bigger players in this field, we're easily one of the most experienced. Our management team has over 200 years of combined operational experience in the BHS and PBB fields. We've performed over 200 BHS project installations around the country and performed O&M at 7 of the 10 largest airports in the US. We've successfully transitioned more than 35 airport O M contracts, some on very tight and challenging timelines.

Our senior management team has either owned or run, G T conveyor, and Ameribridge, and we've held management positions at virtually all of the other leading airport equipment/O M providers in the business.

JSM Qualifications

One of the key differences between JSM and most of our competitors is that we specialize in and exclusively serve the aviation industry – providing BHS/PBB operations maintenance and management services, as well as baggage system equipment rebuilds. For most of our competitors, the aviation sector represents somewhere between 20-60% of their overall business. **For JSM, it's 100%.**

We've successfully deployed refurb teams to resurrect often neglected baggage systems back to OEM standards, we've developed and performed site specific O&M programs for Cat X and large hub airports and have significant experience instituting CMMS systems from most of the major providers (including Maximo) for process standardization. We maintain the equipment assets from every major manufacturer in the industry. We've worked at over 50 airports in the US, and we have experience performing refurbs and overhauls within the scope of our contracts.

KEY PERSONNEL (Names and Faces GOAA Recognizes)

John Majewski – 28 years of BHS experience

Project Executive

Education: Bachelor of Science in Management (Operations and Efficiencies) Florida State University 1982

John has been involved with baggage handling systems for 3 decades. Having family in the BHS consulting business since the 70's, John has been immersed in the industry most of his life. John's management expertise will provide good communication channels with all the stakeholders and other trades.

Russ Niday – 31 Years BHS-PBB Experience

Vice President JAS – O&M Program

Education: MBA – Master of Business, University of Phoenix, B.S. Bachelor of Science in Professional Aeronautics, Embry-Riddle University

Mr. Mr. Niday has more than 30 years of experience in BHS Operations & Maintenance management and airport/aviation services. Russ has extensive experience in airport maintenance operations, strategic staffing, and employee development. He is well versed in all aspects of quality control, corrective, preventive and predictive maintenance programs associated with Passenger Boarding Bridges, Ground Support Equipment (GSE) and In-Line Baggage Handling Systems (BHS).

Marc Crisenbery– 20 years of BHS-PBB experience

Regional Director

Exceptional project coordination experience: expert at formulating and implementing corporate policies and procedures demonstrated through several contract start ups

Mr. Crisenbery has more than 20 years of experience in BHS Operations & Maintenance management and airport/aviation services. Marc is a focused and diligent professional offering strong qualifications developed with extensive years of continuous service in the management and technical arena of airline and airport maintenance.

Motivated and skilled at improving training, equipment, and methods used in the inspection, maintenance, and repair of BHS and PBB equipment, Marc has demonstrated expertise in leading and directing operations within maintenance departments. He possesses excellent work ethic combined with the initiative to go the "extra mile" to exceed customer expectations.

Andy Neil - 32 Years BHS Experience

Site Manager

OSHA Certifications, 20, 30, and Train the Trainer NFPA 70E

Mr. Neil is a BHS Operations and Maintenance Site Manager with over 32 years of experience. Andrew has managed both large hub and small hub sites over the past 10 years. Andrew's knowledge base was founded on sound principles, starting his career in the manufacturing of Baggage Handling Systems conveyor. His experience covers all spectrums and disciplines in manufacturing from pre-fab to welding; assembly to shipping systems to the field.

CHALLENGES AND LESSONS LEARNED

JSM has performed critical maintenance repairs over the past 5 years at MCO. Lessons learned include:

- Navigating a complex system to reducing bag jam response times
- Baggage Hygiene - JSM has worked closely with MCO to communicate a standard MCO Bag Hygiene Policy to all airlines

Challenges overcome include:

- Reconfiguration of BHS system reduced capacity
- JSM has successfully maintained a high level of system performance working through the challenges of COVID
- JSM has successfully managed multiple construction projects – including multiple OEMs and contractors with no measurable effect on system performance / operations
- Hybrid BHS considering of many active and obsolete OEMs
- JSM successful dealt with supply chain issues

JSM collaborated with all stakeholders to ensure no impacts were made to operations. Our battle-tested technicians provided these solutions for MCO:

Project Picture	Project Description	Solution
	Replace of Transnorm Power-Turn 3ML1-15 (2015)	Replaced with Portec, equipment in a tight location completed overnight with no impact to operations
	Replaced Webb Merge Bodies	Merge Bodies were made LOCAL and replaced overnight no impact to operations
	Siemens Take Away Merges (2016)	Upgraded to stronger pipe and made them removable

	Siemens FP Claims - Refab links (2017-2018)	Continuous Improvement, Strategic Sourcing
	Glidepath MU upgrades (10) (2018)	Performance Improvement
	MU-20 - Replacement Device without interrupting SW Airlines Operations (2019)	Rescue for Mission Critical Heavy Use Device
	Upgraded Oversize Slide for SouthWest Airlines	Operational Efficiency
	Siemens HSD (2022)	Operational Efficiency

Other challenges and solutions:

Airport	Challenge	Solution
BNA Nashville International Airport	Previous Vendor left system in array and poorly maintained	At BNA, JSM successfully and efficiently transitioned into service from long standing incumbent—emergency rescue of 5 out of service bridges and 2 carousel make-up units.
HOUSTON AIRPORTS	Airport asked JSM to facilitate a quick transition and avoid impacts to operations	At IAH, JSM successfully transitioned into service in nine (9) days. Hired 26 personnel and equipped the site with all tools and heavy equipment.
CVG CINCINNATI/NORTHERN KENTUCKY INTERNATIONAL AIRPORT	Airport asked JSM to facilitate a quick transition and avoid impacts to operations	At CVG, JSM successfully assumed control of the site in just twenty-one (21) days. Stabilized system with additional personnel to handle aging system.

MCO NOTABLE ACHIEVEMENTS

It is our commitment to never become complacent in our efforts to deliver what we promise, building upon our industry leading reputation – "The Power of Partnership"

- ✓ JSM directed and coordinated numerous projects and innovative solutions throughout our current agreement to introduce efficiencies to both BHS maintenance and its support operations. These improvements have enabled GOAA employees to focus on other aspects of airport operations that improve the overall experience for its tenants and traveling public
- ✓ JSM coordinated frequent and regular meetings with key stakeholders to facilitate collaboration to improve system reliability
- ✓ JSM is an active member of the airport community with sponsorships and partnerships with various charities
- ✓ JSM is currently performing scale certifications every 6 months
- ✓ JSM has received recognition in the MCO Cares Employee Recognition Program on numerous occasions

ORGANIZATION STRUCTURE

JSM's management style is structured as to differentiate ourselves from our competition. **JSM is a purposefully flat organization** for the express purpose of delivering high levels of customer service. Our upper management is by design accessible and proximate to the airports we serve. GOAA routinely sees our senior management team as we frequent our customer locations.

We will communicate the good news as well as the bad news in a timely manner. When challenged with obstacles, JSM will be prepared to offer solutions, not just identify that there is a problem. Because of our additional support services and our flat organization, JSM is very flexible and can nimbly move inside the contract without having to traverse multiple management groups in different business units inside siloed organizations.

JSM Airport Services

SUMMARY OF EXPERIENCE

John Majewski has extensive experience within the Checked Baggage Inspection System (CBIS) industry in Program Management, Critical Path Analysis, Cost Accounting, Design, Engineering, Manufacturing, Installation, Commissioning and Operations & Maintenance of Airport Baggage Handling Systems (BHS) and Passenger Boarding Bridges (PBB).

John has a dedicated 28 years of experience servicing the aviation industry. This experience brings a great understanding of how to keep airport BHS and PBB at an exceptionally high availability status by anticipating challenges. In addition, John was engaged in the initial Check Baggage Inspection Systems roll-out by the TSA mandate, followed by all three (3) changes in the TSA's Planning Guidelines and Design Standards (PGDS).

John Majewski formed JSM & Associates in 2008 with the idea of bringing a unique blend of professional services to the aviation industry. JSM has a focused attention on the United States and with a highly experienced team of experts in the field of design and consultation, program management, and operations and maintenance.

HIGHLIGHTED RELEVANT EXPERIENCE

BHS / PBB Operations & Maintenance | Orlando International Airport, Orlando, FL
President: Contract Executive. JSM & Associates was originally contracted to evaluate and bring the BHS, PBB, GPU and PCAir systems up to current OEM standards at Orlando International Airport. JSM was also tasked to review the preventive/corrective maintenance software (Maximo) for accuracy. After our findings and report, GOAA requested JSM take-over the existing maintenance contract and continue making improvements to the GSE equipment.

Currently JSM is maintaining over 4,500 BHS assets, 95 boarding bridges, 95 Ground Power Units and 95 Pre-Conditioned Air units. JSM is currently supplying the following services for the Landside and FIS facilities at Airside 1 and Airside 4 (over 4500 assets more than 20,000 LF of conveyor)

BHS Operations & Maintenance | Denver International Airport, Denver, CO
President: Contract Executive. JSM & Associates was awarded the Preventive / Corrective Maintenance Contract for the Baggage Handling System inclusive of ticket counters, Checked Baggage Inspection System (CBIS), Checked Baggage Reconciliation Area and outbound sortation subsystems at DEN.

JSM's experience at successfully keeping other large hub airports operational during recapitalizations and optimizations was viewed as an essential capability for their chosen O&M provider as DEN has embarked on an aggressive schedule of major BHS projects. JSM is supplying O&M services for over 3800 BHS assets at DEN.

DEN, the fifth busiest airport by total passenger boarding, operates around the clock 365 days a year. The Airport serves more than 61 million passengers annually, supported by more than 9 miles of baggage conveyor.

BHS / PBB Operations & Maintenance | Sanford-Orlando International Airport, Sanford, FL
President: Contract Executive. JSM currently provides a customized baggage handling system, passenger boarding bridge and associated ground service equipment maintenance program that is flexible and cost efficient. SFB serves an average of more than 296,083 International passengers per year.

Vice President JAS - O&M Program

JSM Airport Services

SUMMARY OF EXPERIENCE

Mr. Niday has more than 30 years of experience in BHS Operations & Maintenance management and airport/aviation services. Russ has extensive experience in airport maintenance operations, strategic staffing, and employee development. He is well versed in all aspects of quality control, corrective, preventive and predictive maintenance programs associated with Passenger Boarding Bridges, Ground Support Equipment (GSE) and In Line Baggage Handling Systems (BHS). Before joining JSM, he managed the implementation of Support Contracts at Raleigh-Durham, Chicago, and Memphis International Airports. Russ also managed implementation, hiring and employee development and commissioning of a Facility and Package Sortation System contract at the FedEx Hub in Greensboro, N.C.

Russ is very adept at executing airport service contracts. He has been very successful at developing successful teams that exceed customer expectations. He has initiated start ups at many sites where it was critical to identify asset deficiencies and prioritize repairs to ensure operational readiness.

HIGHLIGHTED RELEVANT EXPERIENCE

BHS / PBB Operations & Maintenance | Orlando International Airport, Orlando, FL
Vice President: Operations. JSM & Associates was originally contracted to evaluate and bring the BHS, PBB, GPU and PCAir systems up to current OEM standards at Orlando International Airport. JSM was also tasked to review the preventive/corrective maintenance software (Maximo) for accuracy. After our findings and report, GOAA requested JSM take-over the existing maintenance contract and continue making improvements to the BHS equipment.

Currently JSM is operating and maintaining over 4,500 BHS assets and maintaining 93 boarding bridges, 93 Ground Power Units and 93 Pre-Conditioned Air units. JSM is currently supplying the following services for the Landside and FIS facilities at Airside 1 and Airside 4 (more than 20,000 LF of conveyor).

BHS Operations & Maintenance | Denver International Airport, Denver, TX
Vice President: Operations. JSM Airport Services was selected by the City and County of Denver to manage, operate, and maintain the current BHS system for the entire airport at DEN. Russ is the main interface between COC and JSM and ensures operations meet critical key performance metrics and baggage making their scheduled flights for departure. JSM is responsible for all six (6) EDS mods and maintain their uptime during construction.

BHS Operations & Maintenance | Houston Intercontinental Airport, Houston, TX
Vice President: Operations. JSM Airport Services has been contracted by Houston Airport Systems to manage, operate, and maintain the current BHS system for Terminals A& D for Houston Airport Systems at IAH. Russ was instrumental in assuming control of the operation in just two (2) weeks upon receipt of a contract.

BHS / PBB Operations & Maintenance | Raleigh Durham International Airport, Raleigh, NC
Site Director. Managed implementation of a Boarding Bridge and In-Line BHS contract. Developed and provided a comprehensive quality control and preventive maintenance program for associated jet bridges.

PBB Operations & Maintenance | Jacksonville International Airport, Jacksonville, FL
Regional Director. Monitored and managed resources, skill sets and protocol implementation for repair and maintenance of Passenger Boarding Bridges.

SUMMARY OF EXPERIENCE

Mr. Crisenbery has more than 20 years of experience in BHS Operations & Maintenance management and airport/aviation services. Marc is a focused and diligent professional offering strong qualifications developed with extensive years of continuous service in the management and technical arena of airline and airport maintenance.

Motivated and skilled at improving training, equipment, and methods used in the inspection, maintenance, and repair of BHS and PBB equipment, Marc has demonstrated expertise in leading and directing operations within maintenance departments. He possesses excellent work ethic combined with the initiative to go the "extra mile" to exceed customer expectations.

Before joining JSM, he managed the implementation of Support Contracts for AERO Bridgeworks and Elite Line Services. Marc is very adept at executing airport service contracts.

HIGHLIGHTED RELEVANT EXPERIENCE

BHS Operations & Maintenance | Phoenix International Airport, Phoenix, AZ
Site Manager. Oversee and provide primary direction to a 34-HC crew concerning preventive and corrective maintenance. Manage CMMS work orders for PM's and CM's as well as parts inventory. Work closely with customer to support warranty work compliance by the OEM mfg. of baggage conveyor. Manage the overall operation and maintenance contract with the City for outbound BHS.

BHS Operations & Maintenance | Little Rock International Airport, Little Rock, AK
Site Manager. Manage crews for emergency repairs, delegate priorities, as well as conduct studies on parts. Work closely with customer to support warranty work compliance by the OEM mfg. of baggage conveyor.

BHS/PBB Operations & Maintenance | Orlando Intercontinental Airport, Orlando, FL
Site Manager: Operations. Manage daily operations of inline EDS baggage system as well as over 90 passenger boarding bridges. Respond to call outs as well as perform corrective and preventative maintenance. Ensure team has proper training, materials, and parts to keep operations at MCO running safely and efficiently.

BHS / PBB Operations & Maintenance | Detroit Metropolitan Airport, Detroit, MI
Sr. Technician. Perform corrective and preventative maintenance on online EDS baggage systems as well as support for over 120 passenger boarding bridges at DTW. Travel as required to multiple out stations to perform the same as well as all variations of ground support equipment working on gasoline, diesel engines and electrically powered units. Supported GPU's, PCA's, and PWC's. Learn and train others in PLC program troubleshooting efforts.

- Training and Mentorship

SUMMARY OF EXPERIENCE

Mr. Neil is a BHS Operations and Maintenance Site Manager with over 32 years of experience. Andrew has managed both large hub and small hub sites over the past 10 years. Andrew's knowledge base was founded on sound principles, starting his career in the manufacturing of Baggage Handling Systems conveyor. His experience covers all spectrums and disciplines in manufacturing from pre-fab to welding; assembly to shipping systems to the field.

Andrew is a Baggage Handling System Specialist with expertise in product asset analysis, installation, testing and commissioning of all types of Baggage Handling Systems and Checked Baggage Inspection Systems (BHS/CBIS). Andrew has directed some of the most complex change-overs from normal outbound baggage handling systems to direct tie-in of multifaceted Check Baggage Inspection Systems (CBIS) in the United States.

Andrew can interface with multiple trades and skill sets (mechanical, electrical and IT) when managing system performance. His keen knowledge of BHS and their operation affords him the opportunity to troubleshoot and assess the whole system as well as components, ensuring proper and efficient operations.

HIGHLIGHTED RELEVANT EXPERIENCE

BHS Operations & Maintenance | Orlando International Airport, Orlando, FL
Site Manager. Andy took over operations and maintenance of all of MCO's assets in 2013. Andrew was responsible for bringing all 4500 BHS assets back to OEM standards and stabilized the throughput of the CBIS and sortation systems. Andrew has guided MCO through upgrade of all 5 EDS matrices in the landside building as well as overhaul of the Airside 4 FIS conveyors.

BHS Operations & Maintenance | Orlando-Sanford International Airport, Orlando, FL
Site Manager. Andrew assumed control of the maintenance of all the BHS assets at SFB in 2019. Andrew was responsible for managing the original CBIS system and the new CBIS system brought online in 2020. Andrew was also responsible for all inbound baggage systems including the FIS baggage claims.

Remote Screening Facility | Orlando International Airport, Orlando, FL
Senior Maintenance Manager. Andrew assumed control of the maintenance of all the BHS assets at MCO in 2019. Andrew was responsible for managing the original CBIS system and the new CBIS system brought online in 2020. Andrew was also responsible for all inbound baggage systems including the FIS. baggage claims.

Terminal BC Outbound EDS System | Luis Muñoz Marín International Airport, Carolina, PR
Owner's Authorized Representative (OAR). Andrew has selected to provide BHS O&M consultancy services to Aerostar Airport Holdings (AAH) for the baggage system at SJU. Andrew provided a report on the equipment by assessing the BHS equipment's condition versus OEM standards.

Checked Baggage Inspection System (CBIS) Modifications | Luis Muñoz Marín International Airport, Carolina, PR *Project Manager.* Andrew managed the installation and integration of the CBIS modifications to the Termina A system. Andrew was able to get the system recertified on the first test run.

No clients to whom JSM provided the Baggage Handling Operation, Maintenance and Repair Services have terminated services prior to the end of the Agreement Term.

TAB 5 Operational Plans

Management and Staffing Plan

-Project Approach

JSM's offering in this proposal is to provide a robust program to effectively Operate, Maintain and Manage the Baggage Handling System in a manner that provides a seamless flow of baggage from Check-In to Baggage Make-Up that coincides with the flow of passengers from curbside to the gate. JSM industry expert's approach will provide a customized program that will ensure continuous, uninterrupted operation of the baggage handling system through the following efforts.

- Continue providing a tailored operation and maintenance program through a scientific methodology:
  - Analysis of data
    - Mapping of baggage volumes from MCO flight schedules
      - To determine peak volumes and timing
      - To determine equipment usage by airline
      - To determine peak staffing requirements

    - Studying the equipment manifest to
      - Sort by equipment by type and age
      - Determine skill sets and staff requirements as a function of the equipment quantities
  - Placement of proper personnel in strategic places to effectively handle bag jams
    - To meet the 5-minute response time to clear jams
- Effectively maintain the componentry to OEM standards throughout its lifecycle
  - Proactively pursue warranty items and componentry repair during the warranty period
  - Manage and maintain an effective spare parts program to support predictive, preventive and corrective maintenance of the BHS
- Manage the BHS so that it performs as a system in the manner it was designed for through
  - Continued analysis of the system and its effective delivery of baggage to its proper destination
  - Trend monitoring to predict failures of components before they fail
  - Report analysis
    - To detect sortation accuracy
    - To detect read rates on ATRs
- Utilize established best practices developed around the world to effectively manage various functional units of our offering and to develop a culture which aims for spontaneous and continuous improvement of working environment and working conditions

- Utilize the CMMS for
  - Spare parts management (utilization and inventory)
  - Execution of scheduled Preventive Maintenance work orders
  - Operational tracking and reporting

Overall Approach to BHS Operations and Maintenance Services

JSM shall fulfill all requirements of this Contract in accordance with the best commercial practices, consistent with the intended design and usage as defined in the BHS operations manuals, and as acceptable to MCO. We shall provide for the continuous movement of baggage from check-in to the loading carousels for each carrier. JSM shall provide the continuous movement of out-of-gauge baggage and to ensure all in-transit baggage entered into the in-line baggage screening system is delivered to the appropriate carrier. JSM will continually strive to improve system performance through detailed equipment inspections, providing thorough preventive and corrective maintenance, and by identifying and providing solutions to critical components that need to be repaired, replaced, or improved. Additionally, JSM will utilize its expertise to determine if any installation errors are causing excessive wear.

BHS Assessments

JSM will conduct a detailed inspection of the BHS equipment covered under this contract within the first 30 days of the contract award. This will be used to establish a baseline from which progress can be shown in returning the equipment back to OEM standards. A deficiency report will be generated to identify all operational and performance deficiencies of each piece of equipment covered under the specification. This process will include visual inspection, basic testing, and evaluation as well as operational assessments of the referenced equipment. The assessment will also include detailed written lists of all components that require repair or replacement beyond ordinary preventive maintenance in order to function efficiently. List details will include dates, locations, deficiency issues, impacts on operation and in-service time, parts and materials lead times, labor durations and/or possible method of repair and resolution options among other items. Pricing will be provided for all listed issues covered in the assessment report. In addition to the areas above, the assessment will focus on safety issues, performance of the equipment, anticipated failures, and perceived long term operational reliability of the equipment and facilities. Any life safety issues relating to code violations will be identified and addressed immediately.

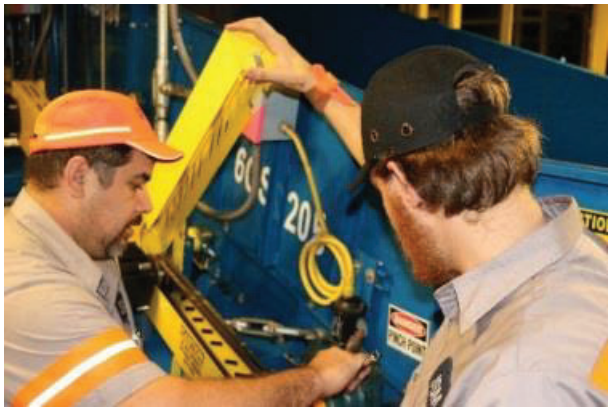
Daily Inspections

JSM will perform daily inspection of the conveyor system to identify any potential or developing problems. This is to be a visual and audible ("walk-through") inspection, which is not as detailed an inspection as a PM inspection, which will begin at or prior to, system startup each day. Inspections will include, but are not limited to, identifying such problems as torn conveyor belting, belt misalignment, belt lacing issues, identifying any unusual noises (bearings, motors, etc.), and remedying any conveyor line(s) problems and/or correcting/repairing equipment that fails to start. The inspection will also include reviewing the BHS graphics/reporting logs to identify and remedy any abnormalities from the previous day's operations.

Corrective and Preventive Maintenance

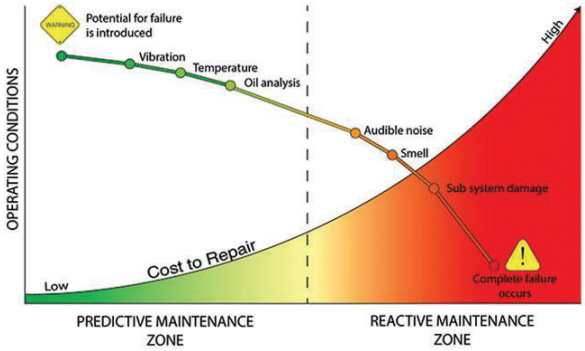
Corrective Maintenance (CM)

Our goal is to minimize operational impact on tenant airlines. JSM's 24/7 manned operations at MCO will receive all maintenance/repair calls and immediately dispatch personnel for all Baggage Handling System call outs. The time of receipt of the call will be recorded and a work order will be initiated. Upon arrival at the failure area, the JSM technician will call, radio or otherwise officially communicate his arrival time. Upon notification, the time will be logged into the CMMS by JSM assigned personnel. System failure point and the initial assessment will be called into other technicians, and work will begin to repair the system.



Repair Time (RT) will be measured from the time the work order is issued until the time the work is completed and the system returned to operation. JSM technicians will advise JSM Control Room personnel at MCO that the repair is complete, and the work order can be closed. JSM will track equipment problems and parts usage using the Site's CMMS. This history allows our maintenance staff to identify continuous problem areas that need attention, so these can be addressed with the manufacturers. The system also provides a system to track all manufacturers' warranties to ensure that costs associated are recovered from the OEM. Each equipment/system failure that occurs will be recorded in the CMMS system, which will track everything from the type of failure and material parts used, to which employee performed the repair. Report capabilities will allow tracking of equipment/systems history by multiple categories, allowing for comprehensive analysis of all recurring quality concerns.

Preventive Maintenance (PM)



JSM will execute preventive maintenance tasks at their associated frequencies or as defined in the BHS O&M manuals. Should JSM have recommended changes or additions to the information contained in the O&M manuals we shall notify GOAA, in writing, and provide justification for the proposed changes. Preventive maintenance action-start and action-completion times will also be annotated for data entry into the CMMS database. Preventive maintenance will be performed during non-operational hours or when system availability dictates. JSM will execute these preventive maintenance tasks at their associated frequencies or as defined in the BHS O&M manuals. Should JSM have recommended changes or additions to the information contained in the O&M manuals we shall notify the Authority, in writing, and provide justification for the proposed changes.

JSM will perform safety inspections of all equipment and devices on a regular and systematic basis and promptly report all current and/or potential issues to GOAA.

Approach to Scheduling & Performing PMs

JSM has compiled the information to demonstrate our approach to scheduling and performing the preventive maintenance requirements described in the RFP documents. The matrix below includes schedules showing the frequency of each type of required maintenance and the type of personnel assigned to perform each effort.

		Maintenance Frequencies - By Major Equip Category							Maintenance Performance - By Personnel					
		Scheduled Preventive Mtx (PMs)			Inspections (4 senses)				Primary Technical Lead on Equip Mtx (PMs/CMs/EMs)					
	Equipment Type	Monthly	Qtrly	Semi-/ Annual	Daily	Weekly	Monthly	Qtrly	Supvr.	Electr. Tech	Mech. Tech	General Tech	Jam Runner/ Encoder	CRO
BHS Maintenance	Claim Units	8	2	1/1	X					X	X			
	Make-up Units	8	2	1/1	X					X	X			
	Diverters (HSDs & PFDs)	8	2	1/1			tracking cycles		X		X			
	Fire/Security Doors	8	2	1/1	X					X	X			
	Motors	8	2	1/1			Infrared		X	X				
	Power Turns	8	2	1/1		X				X	X			
	Tip Chutes	8	2	1/1		X					X	X		
	Transport Conveyor	8	2	1/1		X				X		X		
	PLCs	8	2	1/1			X			X				
	Manual Encode	8	2	2/1			X			X				
	Queues & Merges	8	2	1/1		X				X	X	X		
BHS Operations	Duty													
	Control Room / CMMS								X					X
	Jam Clearing / Encoding											X	X	
	System & Ramp Hygiene											X		
	Parts Admin								X			X		
	Predictive Mtx								X	X	X	X		
	Quality Control Checks								X	X				

Clearing Bag Jams

JSM's 24/7 manned operations at MCO will receive all bag jam alarms/ control room calls and immediately dispatch personnel for all Baggage Handling Systems call outs to ensure a five (5) minute response is attained. We will utilize all of our staff and technicians to conduct bag jam clearing when the incident occurs. During a more extensive system failure, JSM will utilize our Standard Operating Procedure (SOP) which includes detailed Emergency/Contingency Plans that we will develop with GOAA, other airlines, TSA and other stakeholders for our MCO operation. This plan covers our procedures during the failure of each individual line and how JSM will mitigate the failure to minimize system downtime and impact on airline tenants. In addition to clearing bag jams, JSM System Operators will provide baggage default monitoring. Technicians will be dispatched by Control Room Operators and will report back to the control room when "on-site" and again when the jam has been cleared. If there is a malfunction, they will report the status of the system and act according to JSM SOPs and the contingency plan.

Contingency Planning

To maintain operational efficiencies of the Baggage Handling System, it is important to implement contingency plans that will provide sustained operation in the event of unscheduled equipment failure. JSM provides contingency planning at all its BHS sites and works with Airport Authorities, TSA, and airline managers to initiate and continually update plans that counter unexpected malfunctions and ensure continued baggage movement.

Housekeeping

JSM believes that housekeeping is a very important part of every job. Not only does it improve the overall appearance of the shop or work area, it also has a major impact on performance and safety. JSM understands the emphasis MCO places on maintaining a clean environment and will exceed the cleanliness expectations of Airport officials.

Troubleshooting/System Analysis

JSM's deep industry knowledge and experience is manifest in numerous ways. Our highly experienced site management team's operational acumen will be readily apparent as they demonstrate sound processes and procedures that have been developed over many years and project types. From our corporate management team, it will be obvious that this team knows how to build a customized O&M program that is tailored to the unique requirements of MCO. Our engineering staff, with Bachelor of Science degrees in Mechanical, Electrical, Structural and Industrial Engineering will support our O&M team with extensive knowledge of systems and their ability to troubleshoot and provide qualified solutions to BHS issues that cannot be remedied through a directionless remove and replace process. We recognize it is our people and who we align ourselves with that make the difference.

JSM believes our "engineered approach" to providing operations and maintenance services generates a true BHS management platform. It is through this approach that not only predictive maintenance measures can be implemented but also predictive operations can be achieved. Through these analyses, JSM can predict when equipment will fail and take positive action against it so that operations are not interrupted. Additionally, with our ability to model the system, JSM can predict next day operational loads in ten-minute intervals and proactively position personnel in strategic spots when the system is at its most vulnerable. The predictive operations method is an especially valuable tool to assist in determining effects of partially completed construction efforts.

JSM is changing the paradigm by which the traditional Baggage Handling System operation and maintenance is conducted. For far too long the service has been limited to the "nuts and bolts" repair and replace model. JSM brings a new dimension to the platform of BHS Operations and Maintenance, that platform is based on full BHS management. JSM's approach to these services is an enterprise view with the added dimension of system engineering. Broken down, this means that we are able to look at the BHS as a system, not just a collection of individual sections of conveyor.

By having experts in both BHS design and new BHS technologies as well as truly understanding the system aspects of baggage handling, JSM is perfectly suited to deliver the next generation of BHS operations and maintenance. Couple this expertise with a thorough understanding of emerging trends, a deep relationship with the TSA and a finger on the pulse of where the TSA is going with their programs in the coming years, JSM is reigning in a new era of BHS management.

Staffing Plan

JSM is proposing a total headcount of 224 for the MCO BHS operation. Staffing headcount broken out by provider and shift schedules are outlined as follows:

BHS 1st Shift

BHS Staffing Plan							
Orlando International Airport							
1st Shift	Sun	Mon	Tue	Wed	Thu	Fri	Sat
Site Manager		ON	ON	ON	ON	ON	
Assistant Manager	0600-1800	0600-1800	0600-1800	0600-1200

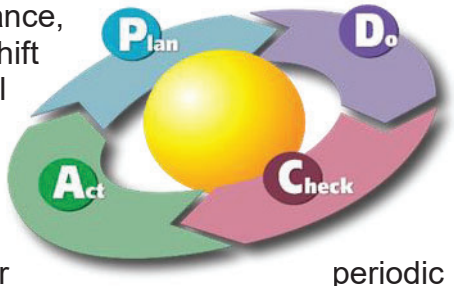
Quality Control Plan

JSM Quality Statement:

Our goal is to achieve customer satisfaction through xcellence in airport servic s. L veraging our culture, our drive and the expertise of ach individual mployee, we ar uniquely positioned to provide b st-in-class s rvices to our airport services customer base.

Quality is a crucial component to the success of any service provider. As such JSM performs tasks in a manner to ensure that the quality of services is achieved and maintained throughout the contract. The main components (PDCA) that are required to successfully maintain quality are outlined below as specifically considered for Airport Maintenance:

PLAN – JSM establishes and documents proactive goals and target metrics for all maintenance activities such as preventative maintenance and response performance. Standard Operating Procedures (SOPs) for management, safety and maintenance are part of JSMs quality management system documentation. JSMs training methods and associated technical course materials are also part of the quality system and subject to the same feedback loop and continuous improvement effort.



DO – Managers implement the staffing plans, monitor performance, and provide regular (WEEKLY) customer interface meetings. Shift Supervisors and Leads provide direct oversight, technical support, and inspections for the ongoing preventative maintenance and E-call response activities. Properly trained technicians perform the tasks. The “do” phase also involves data collection which JSM technicians dependably provide through a work order documentation system. Examples of other periodic data collection functions related to PM include amp readings and infrared readings.

CHECK – JSM uses actual measured results to assess adherence to the quality objectives and performance measures. JSM utilizes multiple performance evaluation tools including the Computerized Maintenance Management System (CMMS), the BHS Management Information System (MIS) and internal documentation such as the work orders. Equipment repairs are checked using qualified measurement tools according to the standard operating procedures and the operation and maintenance specs.

ACT–JSM utilizes continuous improvement methods to prevent recurrence of non-conformities and ensure that performance goals are not met. JSM has in-place clearly defined procedures for acting on non-conformities, starting by identifying the root cause and which parts of the quality or training systems need improvement. When such improvements are made to the quality or training systems and rolled out to the entire team via auto-notifications and team meetings. In some cases, team members will be required to take mandatory amended training courses.

Monitoring and Evaluating Performance

Our maintenance management team will analyze performance and develop strategies to fulfill the KPI's, using several reporting sources such as HR reports, asset management system (CMMS) reports, BHS maintenance diagnostic system reports (MDS) and the training system reports. These reports are to be provided monthly but, in some cases, more frequently, such as for outstanding work orders. The following list contains some of the typical reports that provide critical performance monitoring feedback.

Type	Report	Source
Equip	Ranked Equipment Cost (Labor Material) by type/class	CMMS
Equip	Ranked Part usage by type/class	CMMS
Equip	Ranked Equipment Failures MTTR/MTBF	CMMS/MDS
Equip	Failure analysis of equipment and failure type	CMMS/MDS
WOs	% And number of PM's completed on time	CMMS
WOs	Avg. response times and durations analysis	CMMS
WOs	% And number of CO, PM, ECall work orders	CMMS
WOs	% Of work orders waiting for parts	CMMS
WOs	Outstanding work orders	CMMS
WOs	Average age of repairs	CMMS
WOs	Work order distribution over equipment/ equipment types	CMMS
WOs	Routine vs. non-routine work orders	CMMS
Labor	% of overtime hours over standard	HR
Labor	Turnover Rates by employee type/dept.	HR
Labor	Avg. Hours per WO by employee and WO type	CMMS
Labor	Avg. Hours per PM's vs. Repairs	CMMS
Labor	Training Safety/Skills elements required/completed by employee	Training Sys

Continuous Improvement

Our management team will periodically analyze performance feedback information to determine if performance is not as expected. Root cause analysis is then conducted to determine the actions that need to be taken to meet the performance objectives. The actions could take the form of improved methods, a training supplement, manpower adjustments or a special aligning tool, for example.

Transition Plan

As the incumbent provider, JSM is uniquely able to deliver a seamless, “zero-risk” transition/mobilization period. Renewing the contract with JSM eliminates the risks and costs of transitioning to a new vendor, unexperienced with the unique challenges of the MCO baggage system. As opposed to the lengthy process of transitioning a new vendor with a long list of checklist items prior to launch, JSM will begin the new contract only needing to complete a handful of items.

When GOAA looks to obligate this important part of their operation to a service provider, they are looking beyond cost reduction, efficient delivery, and process standardization. The emphasis shifts to value-added services such as analytical capabilities, access to better talent and technology, continuous process improvements, and innovation. Therefore, this service provider is viewed as a strategic partner who can bring in world-class service standards, automate parts of the operation, and enhance current capacity to fuel fast growing passenger volumes. So when GOAA awards this contract, there are many challenges that may arise including:

Insufficient information

Anytime an organization changes course there is a possibility that knowledge of the existing system is lost or misunderstood through the management and staffing changes. With continuous on-going construction and asset changes, information and database updates tend to lag or get lost. So the new service provider may have to make do with only partial information, which will affect the level of service that the new provider can deliver, especially if operations are complex and span across a large campus. As the incumbent provider, there will be no loss of continuity of information for JSM.

Knowledge sharing

The co-operation of the incumbent team is vital for a successful transition as they are likely to be more knowledgeable about the client’s environment than the in-coming team. Sharing of information on business processes, operations, applications, architecture, configuration and tools has to take place. **As the incumbent provider, there is no threat of reluctance to share knowledge.**

Planning

End-of-contract switchover allows for better planning and exit strategies to secure the co-operation of the incumbent bag jamming team. When a switchover takes place with little time for proper planning, knowledge transfer and training, the new service provider is typically not well-prepared to take over the operations and this may lead to disruptions in operations. As the incumbent provider, JSM will ensure there will be no disruptions to operations.

Timeline Pressures

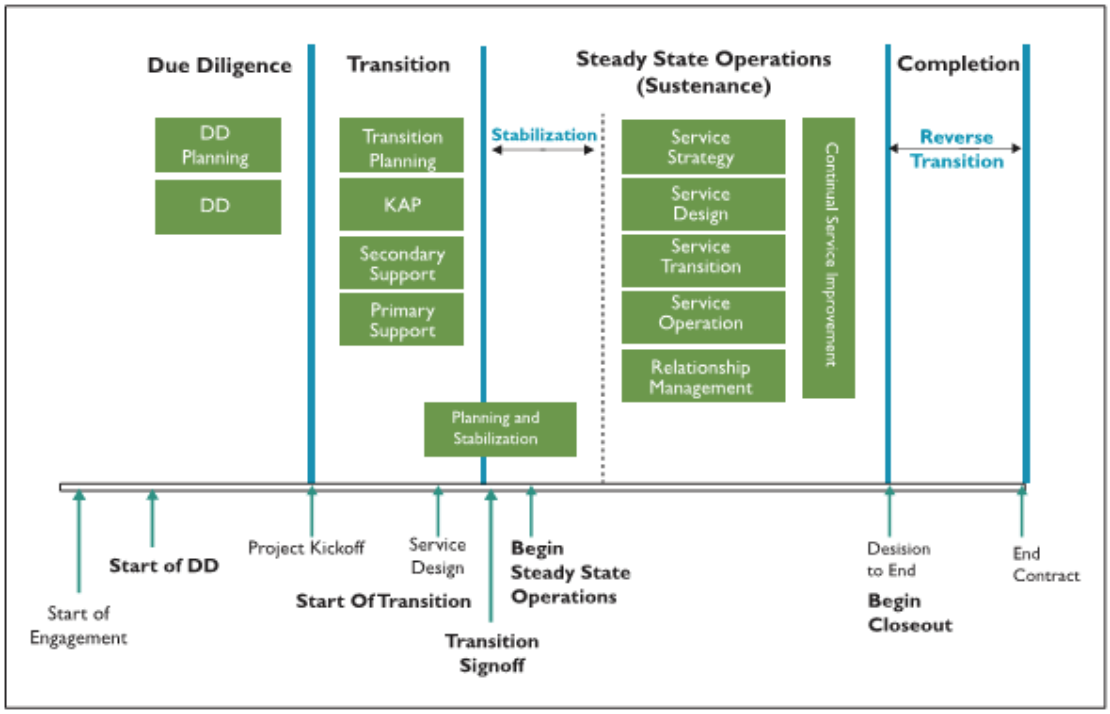
With the amount of BHS construction projects currently being executed at MCO, a provider switchover could mean added pressure on timelines for the transition. And if the switchover is mid-contract, it could further push back existing projects currently being executed.. So getting the project back on track might become a key operational priority, and tight timelines could prevent proper planning, training and execution. With the key personnel JSM provides, GOAA should see a seamless transition as it relates to the projects currently in progress.

People Management

During the transition, the outgoing provider, the incoming provider and GOAA as a whole need to work together, but their end goals are different. Besides technical skill sets, project management, people management and prior transition experience play an important role. The organization structure, reporting levels and stakeholder incentives may not be in sync for a smooth transition. Staffing issues, such as not having the right people with the right skill sets to do the job, can also adversely affect the transition. A smooth transition requires careful planning, execution and performance measurement and involves people, processes, technology, infrastructure, and tools.

To succeed it requires effective project and people management, good governance and adoption of best practices and standards**. If awarded this contract, JSM's structure, reporting levels and stakeholder incentives will be in sync and extended to the personnel transitioning from the bag jamming contract. JSM will encourage the in-coming personnel to share their best practices and will incorporate into JSM's work practice standards.**

JSM envisions the necessary transition to take the following path towards a steady state condition with our current and new M/WBE and LDB partners.

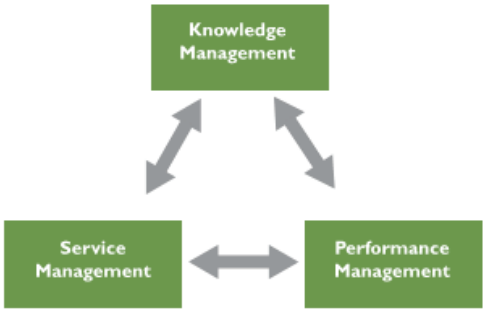


Knowledge Acquisition and Retention

The first step in a transition is for the incoming service provider to obtain a baseline of the operation's existing environment (the "as is" state). The outgoing team may or may not be under contractual obligation to co-operate with the incoming provider in the knowledge transfer process. Should JSM not be awarded this contract, GOAA can expect JSM to provide a proper transfer of knowledge. With all the BHS construction projects underway at OIA, this proves to be a very critical time to attempt a transfer of providers. **GOAA can trust that JSM will not leave them in a precarious situation, should GOAA decide to go a different direction.**

If JSM is awarded this contract, we will endeavor to make the transfer of knowledge from JSM to our M/WBE and LDB partners a structured process through the use of transition quality control gates such as:

- Facilities responsibility check-list review
- Standard Operating Procedure (SOP)
- documentation review
- Work instruction review and sign-off
- JSM Company processes and procedures
- review
- Safety Training to ensure cohesive compliance
- Training of transitioned personnel to be the first
- responders of assistance with matters beyond a
- bag jam (we will train them to be problem
- solvers instead of just problem alerters)



Governance Model

Good governance and oversight are instrumental to the success of a transition. Service level objectives and goals for each phase of the engagement will be clearly defined in the contractual agreements with our M/WBE partners to avoid a gap in expected scope of supply.

Communication Plan

An outsourcing of M/WBE participation is likely to have multiple stakeholders. Timely communication across both horizontal and vertical levels is crucial in a transition, to address issues that may arise during the course of the transition early on. JSM will establish clear lines of communication with our M/WBE and LDB partners so they understand how we will communicate (structure) and to whom we will communicate (people) to ensure roles and responsibilities are understood.

Operational stability

Operational stability is an important requirement of service delivery. To ensure a smooth transition, mock drills of critical support elements and training of incoming personnel is necessary. Once the switch-over to JSM takes place and a steady state is reached, the sustenance team will take over from the transition team. Stabilizing operations to meet performance and cost targets become the key focus of the sustenance team. Over time, a

Service Improvement Plan (SIP) will be developed for Continuous Service Improvement (CSI) to continually improve the effectiveness and efficiency of processes and service delivery.

With the airport undergoing many BHS construction projects that involve the Checked Baggage Inspection System, JSM offers the airport the unique ability to maintain current resources who have assisted GOAA through this difficult time of upheaval. With JSM & Associates unique blend of skill sets, GOAA has at its disposal BHS installation expertise, BHS commissioning and testing expertise as well as a full BHS go-live support team to help bring these construction projects to a successful completion. JSM see this as an important differentiator between us and the other proposers.

Assuming Control

JSM & Associates will welcome our new members to the JSM Team. JSM will state our major goals for successful execution of the work to our partner firms and get buy in to the metrics we will use to grade ourselves. JSM will meet with the management personnel of our team members and share our strategies to execute the work in a manner that exceeds GOAA's expectations. Specific scopes of work and area coverage expectations will be confirmed. Once an integrated zonal-staffing plan is completed, the integrated JSM team will sit down with the appropriate GOAA personnel and present our team's detailed approach for final approval.

Training Plan

Employee Training

JSM University (JSMU) is our online training system developed using the **VECTOR SOLUTIONS** Web based platform and technology. Using this media JSMU provides top notch skills assessment, training program courses, certifications, and employee development tracking.

Roles and Responsibilities:

- Training System Manager – A dedicated manager operating as part of our corporate Human Resources group will administer the training programs. This includes managing and updating the course materials, as well as supporting the motoring, reporting, and planning functions for the training program.

- Operations Managers – Managers will corroborate in the development and definition of required training materials, the training regimens for the various employee's types. Managers will provide the ongoing review and enforcement of training within their teams and assist employees in progressing toward advanced skills and roles.

Effective assessment is the starting point for improving competency levels and for enhancing the performance of current employees, new hires, and contractors. New hires undergo a comprehensive evaluation process that includes background

checks and verification of previous education, training and certifications and licenses. As a first priority, employees will be trained, and attain certifications as required, for safety as it relates airports and equipment. Workplace policies, ethics and procedures also be part of the initial training.

Continuous Improvement: As improved methods arise, training materials will be updated by the training system manager and rolled out in the form of a training bulletin to the managers. Training bulletins are then added to the requirements for all affected employees and tracked.

-Outline of Training Requirements

Training Plan Overview:

- Workplace Rules and Ethics
- Health, Safety and Environment
- Basic BHS Operation and Orientation
- Professional Development

Training Plan Examples

Training Program – JAX			
Personnel type:	BHS Operation (Required for Bag Jammers)		
Course	**Media**	**Hours**	**Recurrence**
Orientation	Classroom on-site	8	1 time
Workplace Policies	JSMU	4	Annually
General Safety	JSMU	4	Annually
BHS Operation	JSMU/Hands-on	16	1 time
BHS Operation Updates(1)	JSMU/Hands-on	8	Annually as Needed

Below are the training courses that our MCO personnel participate in as part of our employee development program. This listing includes courses to be completed at initial indoctrination / new employee orientation as well as mandatory safety and regulatory compliance, given on a recurring basis. Also included are role-specific courses for the BHS operation support. Courses are delivered in a combination of instructor-led, CBT and hands-on (OJT) training methods. Completed training is assigned and tracked; completed courses are requirements for pay adjustments as well as promotion & advancement. Individuals are held accountable for the completion of the assigned courses. Courses are administered by the Site Manager, Shift Supervisors, and administrative support, both local and corporate.

Date	Course Title
JAN	**LOTO for Affected Employees** **Walking and Working Surfaces**
FEB	**Personal Protective Equipment (PPE)** **Injury/Incident Investigation** **Discrimination in the Workplace**
MAR	**Ladder Safety** **Hazard Communication GHS**
APR	**Heat Stress** **Bloodborne Pathogens**
MAY	**Severe Weather (e.g., Hurricane)** **Electrical Safety - General Awareness** **Violence in the Workplace**
JUN	**First Aid Initial Steps** **Confined Space**
JUL	**Severe Weather (e.g., Tornadoes)** **Hydraulic Pressure Safety (Hydraulic Fluid Safety)** **Diversity, Equity and Inclusion (DE&I)**
AUG	**Shop Safety** (Back Safety/Safe Lifting) **Slips, trips and falls**
SEP	**Fall Prevention and Protection** **Active Shooter**
OCT	**Fire Extinguisher Safety** **Fire Safety**
NOV	**Cold Stress** **Anti-Harassment Trng for All Employees**
DEC	**Severe Weather (e.g., Winter)** **Sexual Harassment**

Safety Training

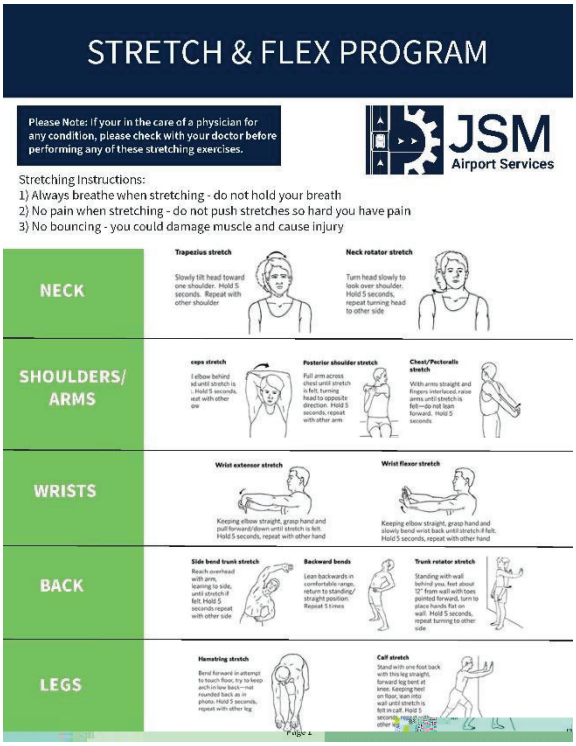
Through our robust Training Program established in our curriculum at JSM University (powered by VECTOR SOLUTIONS ®) and our traditional classroom training curriculum, JSM offers a complete set of safety courses to give our staff all the tools necessary to work safely. Our staff are committed to each other to create a safe work environment. Our management staff will routinely visit our sites to provide refresher training and recertifications.

Safety Training Courses (Sample)

General Safety and Health	Regulatory Compliance
TPC Training Systems' General Safety and Health Series deals with safety and health issues that are important to employees in their day-to-day job functions, Such as back safety ergonomics, fire safety, and much more.	TPC Training Systems, Regulatory Compliance Series is comprised of training products that help organizations comply with relevant laws and regulations, mandated by Occupational Safety and Health Administration (OSHA), the Environmental Protection Agency (EPA), and the Department of Transportation (DOT). Essential topics are covered in this series including personal protective equipment (PPE), lockout/tagout, confined space, bloodborne pathogens, and more.
Sample Courses	**Sample Courses**
Accident Investigation	Aerial Lifts in Industrial and Construction Environments
The ANSI/MSDS	Asbestos Awareness
Arc Flash	Confined Space Entry
Back Safety	DOT HAZMAT Series
Computer Workstation Safety	Emergency Planning
Driving Safety	Forklift Safety
Electrical Safety	Hearing Conservation and Safety
Ergonomics	OSHA Lead Standards
Eye Safety	OSHA Recordkeeping
Fall Protection	Personal Protective Equipment
First Aid	Scissor Lifts in Construction Environments
Hand & Power Tool Safety	Supported Scaffolding Safety
Dealing with Hazardous Spills	GHS Container Labeling
Ladder Safety	GHS Safety Data Sheets
Safety Audits	Hazardous Communication
Sexual Harassment	Lock-Out / Tag-Out
Slip, Trips & Falls	Bloodborne Pathogens
Welding Safety	Suspended Scaffolding Safety

Safety courses will be assigned according to job duties and the types of hazards they might potentially encounter.

In addition to our commitment to safety, JSM implements a Stretch and Flex Program to promote health and prevent muscle strain.



STRETCH & FLEX PROGRAM

Please Note: If your in the care of a physician for any condition, please check with your doctor before performing any of these stretching exercises.

JSM Airport Services

Stretching Instructions:
1) Always breathe when stretching - do not hold your breath
2) No pain when stretching - do not push stretches so hard you have pain
3) No bouncing - you could damage muscle and cause injury

NECK

Trapezius stretch

Slowly tilt head toward one shoulder. Hold 5 seconds. Repeat with other shoulder

Neck rotator stretch

Turn head slowly to look over shoulder. Hold 5 seconds, repeat turning head to other side

SHOULDERS/ ARMS

Posterior shoulder stretch

Pull arm across chest until stretch is felt, turning head to opposite direction. Hold 5 seconds, repeat with other arm

Chest/Pectoralis stretch

With arms straight and fingers interlaced, raise arms until stretch is felt—do not lean forward. Hold 5 seconds

WRISTS

Wrist extensor stretch

Keeping elbow straight, grasp hand and pull forward/down until stretch is felt. Hold 5 seconds, repeat with other hand

Wrist flexor stretch

Keeping elbow straight, grasp hand and slowly bend wrist back until stretch if felt. Hold 5 seconds, repeat with other hand

BACK

Side bend trunk stretch

Reach overhead with arm, leaning to side, until stretch if felt. Hold 5 seconds repeat with other side

Backward bends

Lean backwards in comfortable range, return to standing/ straight position. Repeat 5 times

Trunk rotator stretch

Standing with wall behind you, feet about 12" from wall with toes pointed forward, turn to place hands flat on wall. Hold 5 seconds, repeat turning to other side

LEGS

Hamstring stretch

Bend forward in attempt to touch floor, try to keep arch in low back—not rounded back as in photo. Hold 5 seconds, repeat with other leg

Calf stretch

Stand with one foot back with this leg straight, forward leg bent at knee. Keeping heel on floor, lean into wall until stretch is felt in calf. Hold 5 seconds, repeat with other leg

Maintenance Plan

The uptime KPI of successfully providing system availability will be met by controlling all the processes that influence this indicator. Preventing downtime is the primary focus for maintenance and this is accomplished by strict adherence to the preventive and predictive maintenance plans and schedules. PM plans are generated from CMMS for all equipment on a weekly basis. This report translates into work orders that are closely monitored by our supervisors. We will ensure that PMs are carried out effectively and on-time.

Meeting the throughput KPI also requires that when equipment does break down, fast and effective repairs are made. By having an experienced and balanced workforce, proper training, supervision, and tools we will drive our mean time to repair (MTTR) to less than 1 hour for conveyor components and 2 hours for belting.

JSM Quality Assurance is further defined by our maintenance program methodology. This philosophical approach can be best described as vigilance to the cause. This vigilance is borne of additional measures that are taken to ensure the quality of delivery. A few of these steps are:

- **Every PM** is reviewed by a supervisor for accuracy of performance.
- Our personnel are taught to use four (4) of our senses to assess proper functionality. They will:
  - Listen for noises/sounds that indicate failure
  - Smell for odors that indicate wear and tear
  - Touch for indications of excessive heat, vibration and/or fraying of material
  - Look at equipment for misalignment, leaks, or wear

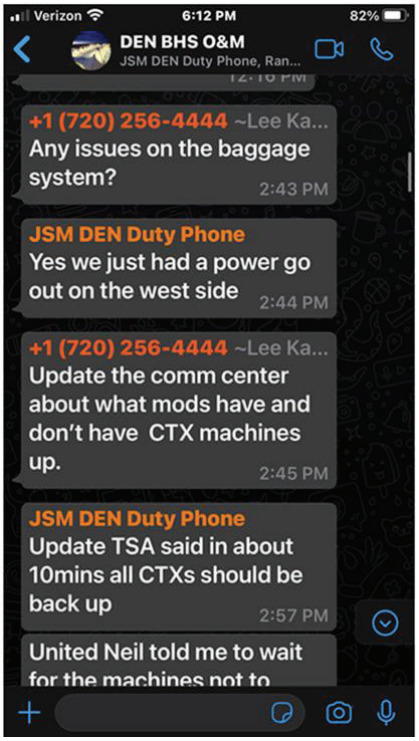
- Predictive Maintenance – Use of thermographic technologies to determine and baseline heat signatures of the equipment (motors, bearings, rollers). JSM will employ the use of FLIR guns to perform these functions. Currently, JSM has a level 2 FLIR certified technician to perform these periodic checks.
- Predictive Operations – JSM can provide next day flight simulations that will produce expected baggage volumes seen on both the inbound and outbound operations. These are especially useful in Florida as the seasonal influx of traffic drives operations.
- Corrective and Repair maintenance responsiveness – triage communications to a list of stakeholders – identify the event and give feedback when the plan has been executed.
- Routine Work Planning – CMMS generated PMs will be coordinated with the authority if volumes are expected to exceed norms and negatively impact morning start-up or nighttime shut down of the system.
- Spare parts and consumables – JSM will assess, report and predict usage of consumable materials and establish a baseline of use and determine causality of any excessive consumption.
- Strong Non-Conforming Parts – red tag and review for reparability and/or disposal of used equipment in an eco-friendly manner.
- Safety Programs – Corporate support for safety training. We can train to OSHA 30 certifications
- Contingency Planning – Plans will be built for all single-point failure identified equipment. Work arounds will be developed so that operations can continue without disruption

- Warranty Administration – JSM will guarantee all work performed to be free from defects in workmanship for a minimum of ninety (90) days from the date the work is accepted by the authority, and for up to thirty (30) days following the termination of the agreement.
- Innovative initiatives as it relates to Inbound & Outbound Baggage Handling Systems (BHS) Operations and Maintenance that have been implemented at other airport locations.

Innovative Initiatives
Technologies
JSM recommends utilizing many newer, but proven technologies when they can be a driver of operational efficiency and/or of mutual benefit to the stakeholders of a service operations.

WhatsApp

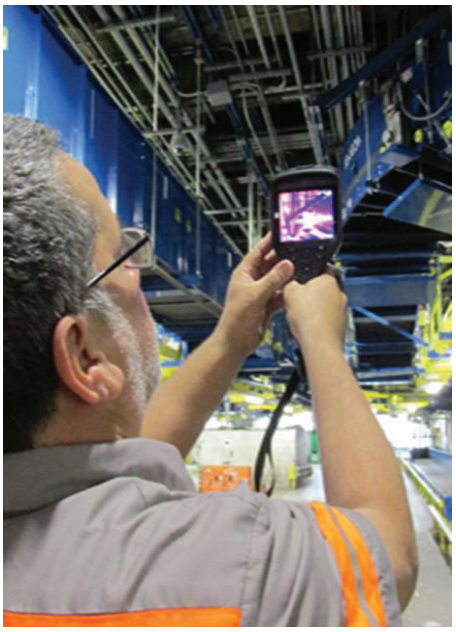
One such technology available to be used at MCO is WhatsApp. WhatsApp is a real-time group communication application that can be utilized from smartphone and computer. It allows for written communication and photos to be sent (like text) to specific, pre-defined groups of users.
In an operation and maintenance environment, this allows the JSM to provide key and specific stakeholders with immediate updates about the health and availability of the equipment under their responsibility. Because the application utilizes SMS technology, the messages can be broadcast to any point in the world with phone reception. Specific messages can be shared with relevant stakeholders which include direct customers such as Aerostar, airline employees (gate agents, station managers), airport employees (ground operations, facilities) and others (local TSA, CBP, 3rd party baggage handlers).



- Communicates real-time to all stakeholders or limited/pre-defined groups of stakeholders
- Ability to effectively record date/time stamps on service issues (initial downtime, time returned to service)
- Send pictures of service issues to communicate nature and severity of events.
- Creates a readily accessible log of service events
- Messages can be downloaded and archived

FLIR products are used to troubleshoot equipment by identifying an unusually high temperature associated with the operation of that equipment. This is a useful tool to:

- Identify when a motor is drawing too many amps and is subject to failure at anytime
- Identify when an MCP is not being properly ventilated and the ambient temperature inside the cabinet is beyond the recommended operations environment for the components use.



The RJS Inspector Barcode Verifier allows for easy detection of poorly printed barcodes which lead to diminished read rates for the SICK Scanners. Early detection and remediation will eliminate bags ending up at the “jackpot carousel”.

WHY JSM?

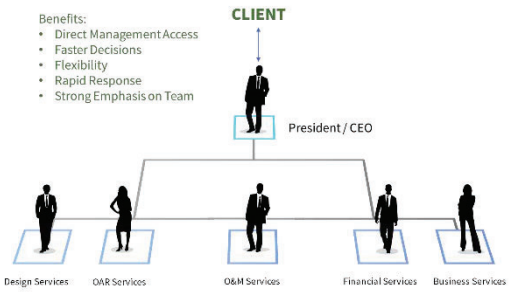
Processes

We Are Nimble – JSM & Associates can adapt quickly to our client's needs. JSM was awarded the operations and maintenance of the baggage handling systems in Terminal A & D at Houston Intercontinental Airport. In just twelve (12) days after NTP, JSM assumed control of the program.

- Got our staff badged and into interim uniforms
- Onboarded Twenty-Four (24) 24 FTEs and two (2) subcontractors with four (4) additional FTEs
- Performed wall to wall parts counts in five (5) locations
- Established emergency supply lines for spare parts

In-Depth Skill – JSM supports all OEMs. JSM is adept at supporting BAE, Buemer Group, G&S, G&T Conveyor, Pteris Global, Siemens Airport Logistics, VanDerLande Industries and Daifuku/ Webb.

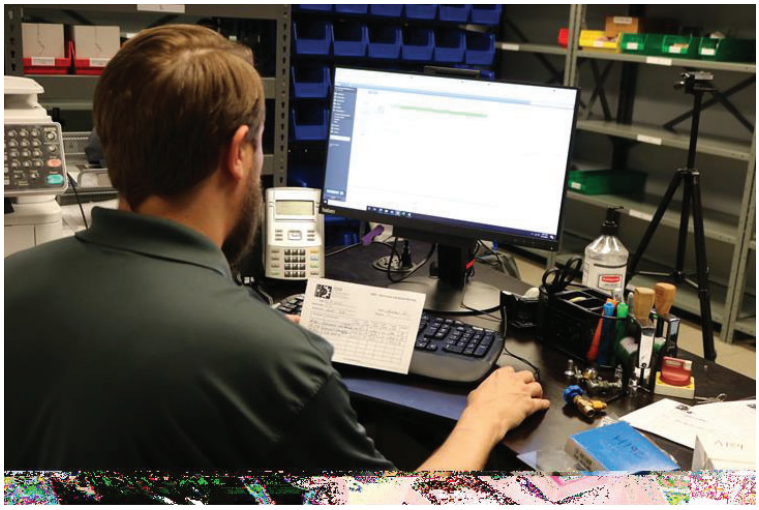
No Bureaucracy – JSM is easy to work with. We are a flat organization that takes a collaborative approach to working with the airports we serve. JSM empowers our site managers with the authority to make local decisions and get to resolutions in quick fashion. MCO will not have to suffer multiple layers of approval authority to hurdle.



Scalability – JSM has the ability to scale up or down to meet the client's needs. With our deep bench of professionals and our relationships with labor service providers, JSM can easily provide qualified personnel when we take-over a site as well as when we ramp up operations within a contract to provide coverage during peak holiday demand. At Orlando International Airport, our largest operational site, we see extremely heavy activity numerous times a year (Thanksgiving, Christmas/New Year, Spring Break, and other large events), we routinely provide additional operational assistance to handle the rush. Conversely, in the time of COVID, we have provided our clients with a reduction in staff count to meet the Authority's current operational needs.

Commitment to Safety – JSM is committed to working safely. JSM has a safety program that is structured to reduce injuries and lost workdays. JSM's Safety Program is supported by our QA/QC Program and our Training Program, each contributing to the creation of a safe work environment.

Superior Parts Management – JSM has part management down to a science. JSM will provide judicious management of our use of MCO spare parts ensuring inventory is handled in the same manner as if it were JSM inventory. We will provide usage reports and periodic auditing of on-site spares to ensure accurate and correct inventory levels.



- Utilizing Best Practices – JIT, Min/Max Planning, local vendor depots, ABC analysis
- Strategic Procurement Network - Deep relationships / heavy volume history
    - ABB (Baldor/Dodge), Interroll Portec, Honeywell Transnorm, SICK, SEW, Nord, Forbo
    - Broad distributor network: BDI, Kaman

A Power User for most Major CMMS (Maximo, Maintenance Connection Infor, Fiix) –JSM has approached this offering with COVID-19 impacts in mind. JSM has configured our custom approach to services with a crew size commensurate with the current level of travel at MCO. As stated above, JSM is proficient in scalability and can easily increase staff as passenger demand begins to return to 2019 levels. JSM is committed to working with GOAA to develop a format to incrementally increase staff to match passenger demand.

Customer Service

JSM endeavors to make a difference in someone's travel experience not only assisting wayward passengers we pass along the way but also by the excellence in which we perform our job of providing an efficient system. JSM understands our customers are not only GOAA's customers but also MCO personnel, the airlines, TSA, CBP, Ground Service Providers, Sky Caps and the various contracting companies performing services at the airport. It is through a high level of cooperation with these groups that true customer service can begin. Most importantly we must take care of the passengers. It is why we are all here. JSM takes great pride in being part of an Orlando Team that was awarded the highest customer satisfaction for US airports by J.D. Power and Associates.

JSM has set of shared attitudes, values, goals, and practice that characterizes our organization. Our personality, matrix of features, and shared values make us uniquely different from any other company in the marketplace.
Below is JSM's Mission Statement and bullet point list of our culture and values.

Mission Statement: JSM is committed to using our experience, innovation, and integrity to provide the highest quality, value-added BHS maintenance services to the aviation community.

Open Communication – Between Employees, Between Employees and Management, Between Company and Clients Clear, Transparent, Productive, Honest.

Respect –JSM's people are our most valued asset where unity and family values are the key to employee/company success. We are committed to establishing an environment of **respect** for each employee and client.

Efficient - We nurture creative thinking that adds value, enhances productivity, improves operations, and utilizes our resources effectively. In turn helping our clients provide top notch customer service to their traveling passengers.

Customer Focused (Airports) - Our experience enables us to quickly understand the challenges of our customers, helping Airports solve problems, and develop cost saving alternatives.

Integrity - We are transparent, honest, and responsible for following through on our commitments.

We Are Nimble – JSM can adapt quickly to our client's needs.

No Bureaucracy – JSM is easy to work with. We are a flat organization that takes a collaborative approach to working with the airports we serve. JSM empowers our site managers with the authority to make local decisions and get to resolutions in quick fashion.

Commitment to Safety – JSM is committed to working safely. JSM has a safety program that is structured to reduce injuries and lost workdays. JSM's Safety Program is supported by our QA/QC Program and our Training Program, each contributing to the creation of a safe work environment.

SERVICE – We are committed to assisting the airport staff, the multiple vendors and other service personnel succeed in our shared goal of a positive customer experience.

Employee Empowerment and Diversity – comes from our structure and recognition of brilliant work.

Promote Effective Collaboration- weekly meetings, outside work activities. Employees who have fun together experience more cohesion and more willingness to support one another.

Technologically Adaptive – Promoting innovation by marrying available tools with best practice processes.

Excellence - Experienced and skilled technicians knowledgeable in their craft. Able to provide expert analysis that lead to permanent solutions to recurring issues.

MWBE/LDB Participation Plan

For the past several years, JSM has enjoyed a productive relationship with our MWBE and LDB partners at MCO. To allow added flexibility and ensure optimum coverage, we will be adding a new partner – Associated Cost Engineers Inc. ACE is a State of Florida Licensed Certified General Contractor and Construction Manager that self performs different trades. ACE manages commercial construction projects and manages residential projects for municipalities in the State of Florida. ACE has a significant presence in Orlando and will greatly enhance the stability and productivity of the operation. They will provide the MWBE portion of the Contract. For the LDB portion, our long-standing partner JRS Industrial will provide the required staff to fulfill that obligation Utilizing this strong combination of partners will enable JSM to meet/exceed the contract goals of 30% MWBE and 3% LDB.

WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule. This agreement applies only to the extent that you perform work under a written contract that requires you to obtain this agreement from us.

This agreement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

Schedule

Any Person or Organization on whose behalf you are required to obtain this waiver of our right to recover from under a written contract or agreement.

The premium charge for the endorsement is reflected in the Schedule of Operations.

All other terms and conditions of the policy remain unchanged.

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective Date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy unless another expiration date is shown below.

JSM Acknowledges Our Outstanding Employees, Subcontractors and Vendor Partners

Subcontractor and Vendor relationships are a vital part of JSM's success. We pride ourselves on building quality relationships with our vendors and subcontractors. We appreciate the companies and people who work with us to help us get the work completed efficiently and safely.

Our vendors and subcontractors have come to understand that JSM excels in working with our partners through the proposal phase and into service implementation to the benefit of all.

Sustainability

JSM has been an advocate for initiating and implementing sustainable operations and maintenance procedures for our airport clients; it has become one of our core principles. A clean work environment helps keep our planet and JSM Team healthier. Below are some examples utilized.

Technology

Technology is crucial for innovation. JSM has a number of low-cost, value-added technologies that allow for better predictive maintenance capabilities as well as platforms that allow for better communication with stakeholders while improving efficiencies and the bottom line.

Applied Technologies include:

- Web-based (CMMS) Computerized Maintenance Management Systems
- Thermographic Imaging as an aspect of Predictive Maintenance
- Real-time Communications via Radio and WhatsApp

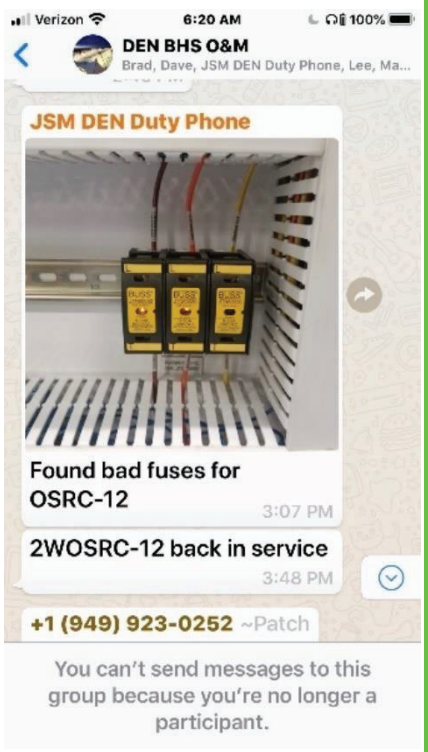
MP2 MAINTENANCE CONNECTION IBM maximo

PAGENET PAGING NETWORK, INC. WhatsApp everbridge

JSM recommends utilizing many newer, but proven technologies when they can be a driver of operational efficiency and/or of mutual benefit to the stakeholders of a service operations.

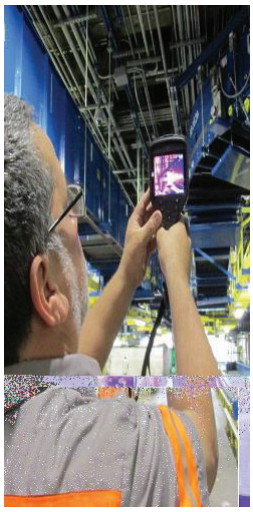
One such technology available to MCO is WhatsApp. WhatsApp is a real-time group communication application that can be utilized from smartphone and computer. It allows for written communication and photos to be sent (like text) to specific, pre-defined groups of users.

WhatsApp



In an operation and maintenance environment, this allows the JSM team to provide key and specific stakeholders with immediate updates about the health and availability of the equipment under their responsibility. Because the application utilizes SMS technology, the messages can be broadcast to any point in the world with phone reception. Specific messages can be shared with relevant stakeholders which include direct customers, airline employees (gate agents, station managers), airport employees (ground operations, facilities) and others (local TSA, CBP, 3rd party baggage handlers). Some of the key features are:

- Communicates real-time to all stakeholders or limited/pre-defined groups of stakeholders
- Ability to effectively record date/time stamps on service issues (initial downtime, time returned to service)
- Send pictures of service issues to communicate nature and severity of events.
- Creates a readily accessible log of service events
- Messages can be downloaded and archived



FLIR products are used to troubleshoot equipment by identifying an unusually high temperature associated with the operation of that equipment. This is a useful tool to:

- Identify when a motor is drawing too many amps and is subject to failure at anytime
- Identify when an MCP is not being properly ventilated and the ambient temperature inside the cabinet is beyond the recommended operations environment for the components use.

Hiring and Retaining Quality Personnel

As part of its strategy to recruit permanent staff for its resident maintenance programs, JSM utilizes a national network of specialty recruitment firms including:

What sets our service levels apart? Our employees!

Employees – we hire, train, and retain top talent

Why? – to provide consistent and sustained level of high-quality service

✓ Provide robust benefits – low deductible health insurance, rich 401k match

✓ Provide site-specific technical training as well as soft skill/leadership training

✓ Provide the right tools for the job; keeping the site properly equipped

✓ "Put our money where our mouth is" regarding employee safety as a key element in our culture

✓ Provide for further career advancement into leadership; both local and other JSM sites

✓ Provide corporate support and routine visits from HR, Safety, Training, Quality, Corporate leadership

✓ Provide employees with multiple venues and opportunities to voice their opinion and ideas

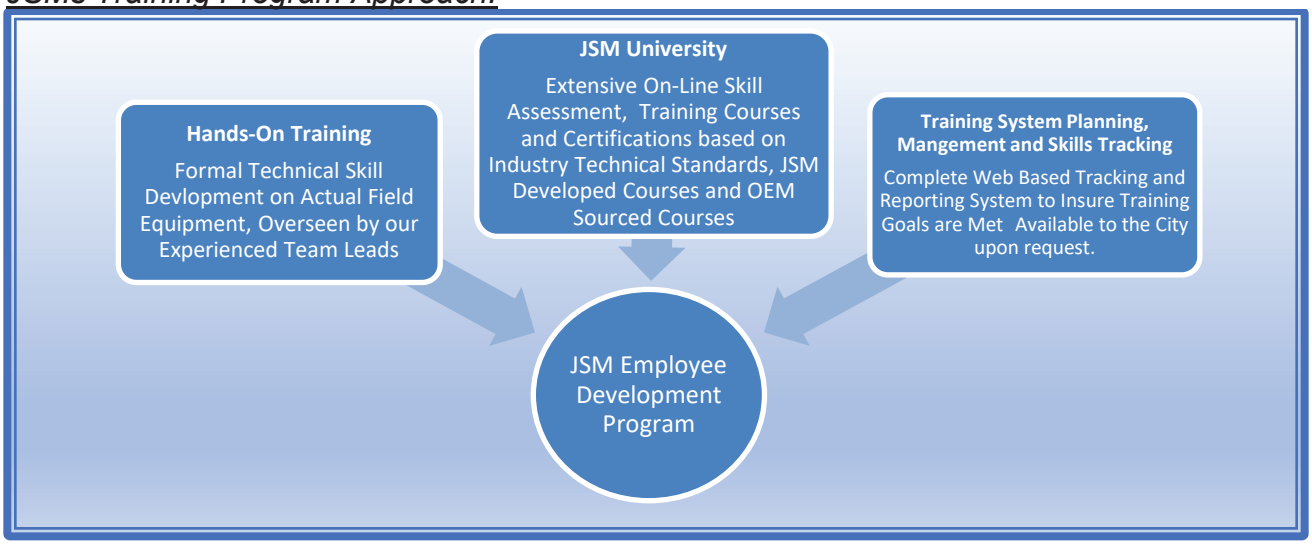
How do we do it?

JSM is able to retain top talent through a robust benefits package that supports the physical and financial health of the employee. Additionally, we look to grow our employees through career enhancement programs that include public recognition of exceptional effort as well as tuition reimbursement for skills and knowledge advancement.

JSM's Approach to Employee Training & Development

JSM's management is committed to the goal of providing the highest quality training and development opportunities for all employees. To provide the best level of training, JSMs training program utilizes a combination of online classroom training with hands-on training that is optimized for the sites' specific equipment and matched to the requirements to each type of personnel. It is our core belief that a well-trained employee will respond confidently, efficiently and in a safe manner realizing all the quality objectives of our customers.

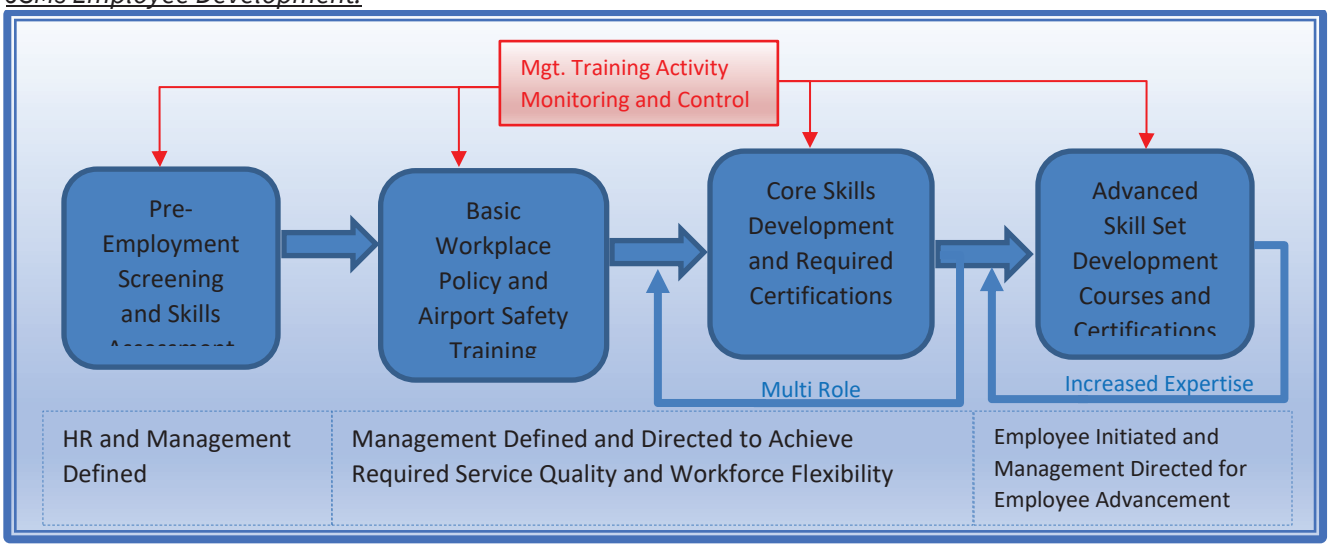
JSMs Training Program Approach:



Hands-On Training - JSMs highly qualified managers and technical lead personnel, having vast experience with airport equipment, are the foundation of our hands-on training. Equipment specific hands-on training modules are established and monitored by a JSM maintenance manager. Managers will certify an employee as having completed a module after a defined set of training tasks are met. These training modules normally include a combination of instructor lead training at the actual equipment or equipment mock-ups and the completion of certain maintenance tasks with an experienced maintenance team lead. Employee progress for hands-on training is defined, tracked, and reported through our web-based system.

JSM University (JSMU) is our online training system developed using the **Vector / Convergence** web-based platform and technology. Using this media JSMU provides top-notch skills assessment, training program courses, certifications and employee development tracking.

JSMs Employee Development:

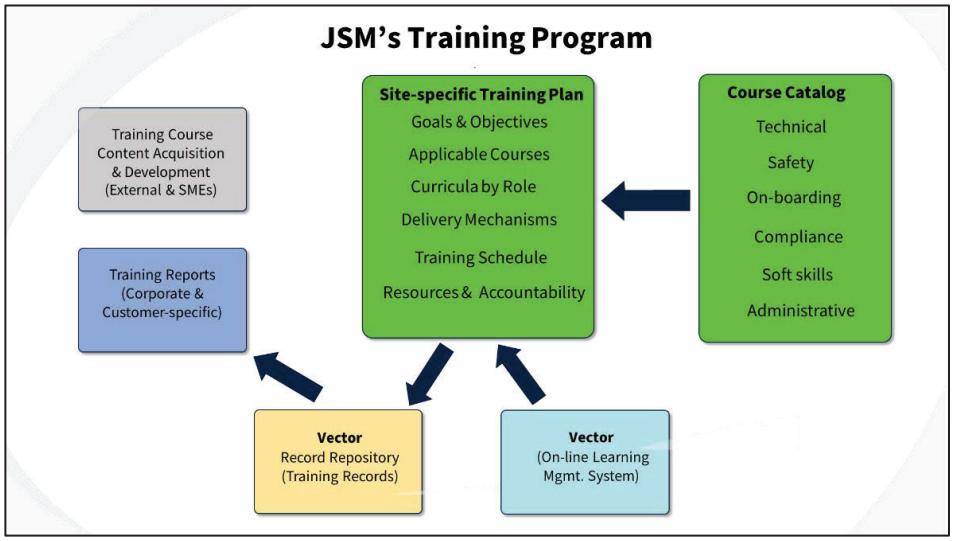


Roles and Responsibilities:

- Training System Manager – A dedicated manager operating as part of our corporate Human Resources group will administrate the training programs. This includes managing and updating the course materials, as well as supporting the motoring, reporting and planning functions for the training program. This is the Web based JSMU system and other training materials.
- Maintenance Managers – Managers from each maintenance discipline will corroborate in the development and definition of required training materials, the training regimes for the various employee types.
- Managers will provide the ongoing review and enforcement of training within their teams and assist employees in progressing toward advanced skills and roles.
- Lead/Senior Technicians – Our lead technicians will facilitate the hands-on training by transferring their knowledge and techniques to an employee. Leads will also observe and sign-off on the proper completion specific hands-on maintenance training tasks

Effective assessment is the starting point for improving competency levels and for enhancing the performance of current employees, new hires and contractors. New hires undergo a comprehensive evaluation process that includes background checks and verification of previous education, training and certifications and licenses. New hires are then evaluated by interview process and by formal pre-employment testing that is targeted for the technical skill requirements of the specific employment position being applied for. Requirements for new employees vary; technicians will generally receive a minimum of 40 hours training their first year and a minimum of 20 hours each year thereafter.

As a priority, employees will be trained, and attain certifications as required, for safety as it relates airports and equipment. Workplace policies, ethics and procedures will also be part of the initial training. Then core skill training will be required for each employee as required by the defined training plan.



It is JSM's policy to promote talent from within and our ongoing training program provides employees with clearly defined curriculum for each job classification that will serve as a development pathway throughout their career. The site manager will assist the employee by creating and maintaining individual career development files. Employee are provided the resources to succeed in the form of Web based and hands-on training courses. Our goal is to continuously strengthen our employee's skills and competencies to ensure customer satisfaction and quality levels of service.

All JSM employees will then be certified on a yearly basis in various equipment and systems as defined by management, site requirement or regulatory requirements.

Continuous Improvement: As improved methods arise, training materials will be updated by the training system manager and rolled out in the form of a training bulletin to the managers. Training bulletins are then added to the requirements for all affected employees and tracked.

Outline of Training Requirements

Training Plan Overview:

- Workplace Rules and Ethics
- Health, Safety and Environment
- Basic BHS Operation and Orientation
- Mechanical Maintenance
- Electrical Maintenance
- Professional Development

Local Developing Business (LDB) & Minority/Women Business Enterprise (M/WBE) Certification
Expiration Date: October 13, 2023

Dear Mr. Soto:

The Small Business Development Department of the Greater Orlando Aviation Authority (Authority) is pleased to announce that your firm, **JRS Industrial, LLC** has been certified as both a **Local Developing Business (LDB) & Minority/Women Business Enterprise (M/WBE)**, under the Authority's Local Developing Business (LDB) & Minority/Women Business Enterprise Policies.

LDB & M/WBE certifications are not equivalent and should not be construed as certification under the Authority's Disadvantaged Business Enterprise (DBE) or Airport Concessions Disadvantaged Business Enterprise (ACDBE) Policies promulgated pursuant to the Department of Transportation's regulations, or the Authority's Small Business Enterprise (SBE) or Veteran Business Enterprise (VBE) Policies.

LDB and M/WBE certifications are NOT a guarantee of work, but enable the firm to compete for, and perform, contract work on all Authority projects as an **LDB and/or M/WBE** contractor, sub-contractor, consultant, sub- consultant or material supplier.

Your company's **LDB and M/WBE** certifications with the Authority will be effective through **October 13, 2023.** For re-certification at the end of this period you must reapply for **LDB** and **M/WBE** certification. Your **renewal application** should be submitted ninety (90) days prior to expiration of your current certification. You may complete your renewal application online at https://goaa.diversitycompliance.com. **Failure to submit your renewal application ninety (90) days in advance of your expiration may result in a lapse in your certifications.**

If there is a material change in the firm, including, but not limited to: ownership, officers, directors, scope of work being performed, daily operations, affiliations with other businesses or individuals, physical location of the firm, or the owner's PNW exceeds $750,000 prior to your renewal date you must promptly notify this office in writing. Notification should include supporting documentation.

Congratulations on your **LDB and M/WBE** certifications. Please contact our office at 407-825-7133 or certifications@goaa.org if you have any questions or if we can be of any assistance.

Sincerely,

George I. Morning

CITY OF ORLANDO

September 13, 2021

Mr. JaJa Wade
Associated Cost Engineers, Inc. of Delaware
801 North Pine Hills Road
Orlando, FL 32808

e-mail: jwade@aceconstructionmanagement.com

SUBJECT: CITY OF ORLANDO M/WBE CERTIFICATION AWARD LETTER

Dear Mr. Wade:

We are pleased to inform you that Associated Cost Engineers, Inc. of Delaware has been certified as a MBE by the City of Orlando. This certification is valid until 9/30/2023. This Certification is specifically for the approved line(s) of business specified and does not automatically certify your company in any other commodity or service. Associated Cost Engineers, Inc. of Delaware will be listed in the City of Orlando's MWBE Directory with the certified line(s) business listed on the following page. The directory can be accessed via the City's internet at link provided below.

https://cityoforlando.mwdbe.com/directory.asp

As a condition of continued certification you must file a Re-Certification Application not less than sixty (60) days prior to the date of expiration of the existing certification. Failure to file this application will result in the termination of your certification. However, if at any time the ownership, control, location and/or minority/women-owned business status of your firm changes, the City of Orlando MBE Official should be notified immediately of the changes.

Please be advised that all M/WBE provisions of Chapter 57, Articles II & III of the Code of the City of Orlando must be maintained in order for your firm to retain its M/WBE Certification status. Be advised that failure to maintain compliance with the above noted requirements will result in termination of certification.

Your firm's participation on City of Orlando contracts will be credited only toward MBE goals for the certified line(s) of business listed. While your participation on City of Orlando contracts is not limited to your certified line(s) of business, credit towards MBE goals will be given only for work done in the area(s) which your firm is certified for.

Thank you for your continued interest in the City of Orlando's program.

Sincerely,

Janeiro Coulter

Janeiro Coulter, MBE Division Manager

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.
JSM Airport Services, LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶ S

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.
470 County Road 448, 2nd Floor

Requester's name and address (optional)

6 City, state, and ZIP code
Tavares, Florida 32778

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number
[ ][ ][ ] – [ ][ ] – [ ][ ][ ][ ]

or

Employer identification number
8 5 – 3 6 0 5 9 3 1

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9.*

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

Attachment 1 - Letter of Bondability or Letter of Credit

As described in Section Three – Special Conditions the Performance Bond the Aviation Authority will not accept any change or modification to the forms of Performance Bond or Letter of Credit contained in the Submittal Documents.

Each Proposer shall provide with its Submittal a Letter of Bondability on a surety company letterhead or a letter from a US Bank for a letter of credit confirming that Pro o er can obtain one or the other and understands only the Performance Bond or Letter of Credit form will be accepted.

ADDENDUM NO. 3
TO
PURCHASING PROPOSAL 23-282-RFP
BAGGAGE HANDLING SYSTEM (BHS) OPERATION, MAINTENANCE AND REPAIR SERVICES
ORLANDO INTERNATIONAL AIRPORT
ORLANDO, FLORIDA

December 29, 2022

This addendum forms a part of the Proposal Documents described above. The original Proposal Documents remain in full force and effect except as modified by the following which shall take precedence over any contrary provisions in the prior documents.

ITEM 1: Attachment 1 has been added to this addendum. Reimbursable Payroll and Operating Expenses.

ITEM 2: Attachment 2 has been added to this addendum. Service Calls

ITEM 3: Replace Page 35 with corrected Page 35. This adds 3.4.a.2 Annual Certification/Inspection

ITEM 4: Question: What is the extent of the Contractor's responsibilities regarding the cranes in the BHS? How many cranes are there?

Answer: The Contractor will be required to coordinate crane inspections and escort the inspecting personnel to the crane locations.

ITEM 5: Question: TSA slide tables – Is the Contractor responsible for maintaining and repairing the TSA Slide Tables? How many are there?

Answer: The contractor will be responsible for the maintenance of the sliding tables and there are approximately 14 tables currently in use by the TSA in search areas.

ITEM 6: Question: What is the monthly cost to the Contractor to provide fiber connectivity to the BHS and Parts room spaces?

Answer: The Aviation Authority will provide the initial low-voltage connectivity to the access points. The Contractor shall be responsible for the monthly fiber lease, currently up to $0.03 per linear foot per strand (2 strands per channel).

Contact the Aviation approved companies, AT T, Summit and Spectrum directly for fiber based internet connection for costs. All service must be provided through Single Mode Fiber.

ITEM 7: Question: Parts location – Will BHS parts be maintained in one location? Where will that location(s) be located?

Answer: BHS Parts are maintained at multiple locations at the Airport. Parts location will be discussed with the awarded Contractor.

ITEM 8: Question: Office space – With a potential of 246 employees, where will the office spaces be located? How many workstations would be included in that space?

Answer: For Contractor job-related work, storage, and office space, refer to Section 4.13, Items provided by the Aviation Authority, Page 53 through 55.

ITEM 9: Question: Will the Contractor be provided designated space for lockers for all technical personnel?

Answer: For Contractor job-related work, storage, and office space, refer to Section 4.13, Items provided by the Aviation Authority.

ITEM 10: Question: Will costs incurred by Contractor in obtaining any unavailable Prints, Drawings & Manuals at the beginning of the contract be reimbursed?

Answer: Prints, Drawings & Manuals are not reimbursable expenses. Refer to Section 4.18, Library.

ITEM 11: Question: Please provide a list of O&M manuals that will be provided to the Contractor.

Answer: Refer to Section 4.18, Library.

ITEM 12: Question: The RFP calls out for the Contractor to provide 3 cameras for thermography. Please provide camera specs on the cameras the Airport Authority requires.

Answer: It is recommended that the vendor provide Flir E76 cameras or newer/upgraded model to complete the responsibilities of the contract regarding thermography.

ITEM 13: Question: What are the current operating times for inbound and outbound baggage systems?

Answer: Refer to Section 4.4, Work Hours.

ITEM 14: Question: What is the available system downtime for PM completion?

Answer: Downtime varies by location at the Airport and is driven by Operational Airline schedule and are subject to change. Refer to Section 4.19, PM Maintenance.

ITEM 15: Question: Is the contractor allowed to take lines OOS during operations to perform PMs and/or correctives?

Answer: The Contractor shall coordinate with Control Room to determine availability for removing lines from service.

ITEM 16: Question: What is the current actual hourly/daily throughput for each pod?

Answer: The following is the average bags per day for November 2022 with 29 operational days in the month (MCO was closed one day for a hurricane)

A POD 700 bags per day
(Major construction has a number of check-in positions closed)
B POD 6,797 bags per day
C POD 9,470 bags per day
D POD 6,991 bags per day
E POD 11,951 bags per day
Total average bags per day = 35,909

ITEM 17: Question: Please describe in detail what the Contractor's operational responsibilities are within the search room?

Answer: Operational responsibilities vary by pod and includes but is not limited to white light reintroduction, marking and counting reintroduced bags, movement of bags from inbound baggage lines to TSA search positions, realignment of the MITs on their track, etc.

ITEM 18: Question: Please define what the airport authority refers to as "Quarterbacking."

Answer: Quarterbacking is not a defined term in the solicitation.

ITEM 19: Question: Is the Contractor responsible to provide Quarterbacking in the Search Room?

Answer: Refer to Item 17 and 18.

ITEM 20: Question: Is the Contractor responsible for clearing jams in the L3 machines?

Answer: Yes the Contractor is responsible for clearing jams in the L3 machines.

ITEM 21: Question: Will the Contractor's system downtime measurements be adjusted for downtime of the L3 machines?

Answer: Feedlines going into and out of L3 machines are considered for downtime measurements. Downtime of the physical L3 machine does not count towards downtime measurements.

ITEM 22: Question: What were the average ATR rates per array for the past 6 months?

Answer: Area 1 ATRML - 90.13
Area 1 ATRMS1 – 93.43
Area 2 ATRML1 – 94.51
Area 2 ATRML2 – 92.91
Area 2 ATRMS1 – 93.79
Area 2 ATRMS2 – 94.79
Area 3 ATRML1 – 91.69
Area 3 ATRML2 – 94.96
Area 3 ATRCLM1 – 92.18
Area 3 ATRCLM2 – 93.40
Area 4 ATRML – 90.87
Area 4 ATRMS1 – 84.92
Area 6 ATRML1 – 94.09
Area 6 ATRML2 – 91.66
Area 6 ATRMS1 – 95.84
Area 6 ATR1MS1 – 95.93

ITEM 23: Question: What were the average bag jam counts per day for the past 6 months?

Answer: During the period July 2022 through December 21, 2022 bag jams averaged 684 per day.

ITEM 24: Question: Please provide any detailed plans/timing to replace obsolete equipment (Vanderlande HCD 1&1 and Siemens HSDs 1&2) within this contract term.

Answer: The Aviation Authority plans on replacing HCD and HSD within the next 3 years.

ITEM 25: Question: Will the Contractor be responsible for installation of any equipment replacements within the contract price and term?

Answer: The Contractor shall be responsible for operation, maintenance and Repair of the entire BHS system at the Aviation Authority as described in this request for proposal.

ITEM 26: Question: What type of work would be considered extra from the base work scope?

Answer: The Contractor shall be responsible for operation, maintenance and Repair of the entire BHS system at the Aviation Authority as described in this request for proposal.

ITEM 27: Question: Scales / yearly permit? Is the cost to the contractor responsible for the yearly permit for scales certification reimbursable?

Answer: See Item 3.

ITEM 28: Question: Who is responsible for Bag Tag print quality?

Answer: Bag Tag print quality is the responsibility of the Airlines and the Aviation Authority Common Use System (CUS) Contractor.

ITEM 29: Question: The RFP is calling for 3 trucks and 10 golf carts. Please list the number of dedicated parking spaces and their locations in the BHS.

Answer: The Aviation Authority will provide adequate parking spaces.

ITEM 30: Question: Please provide specifications/requirements for the 3 trucks to be provided by the Contractor.

Answer: Trucks must be less than 7 feet tall and have at least a five foot bed. Any other requirements will be coordinated with the awarded Contractor.

ITEM 31: Question: Within the management fee does the Airport Authority expect the contractor to include dedicated resources for project accounting, training, quality, HR functions, and all clerical functions required under the contract within the management fee?

Answer: Refer to Section 4.33, and 4.34.

ITEM 32: Question: Please confirm that the Airport Authority expects the Contractor to bill on a monthly basis?

Answer: The Aviation Authority expects monthly invoices.

ITEM 33: Question: Will the Airport Authority allow the Contractor to bill on a bi-monthly basis in order to support cash flow requirements by the LDB/MWBE?

Answer: The Aviation Authority expects monthly invoices.

ITEM 34: Question: Please confirm that the financial information is to be included on the USB drive.

Answer: Financial information shall be provided in a separate sealed envelope.

ITEM 35: Question: Please confirm that Davis Bacon does not apply to this contract.

Answer: The Davis Bacon Act is not applicable to this Contract.

ITEM 36: Question: Who has the responsibility to initiate software support activities – contractor or GOAA?

Answer: The Contractor is responsible to initiate software support activity and notify the AAR immediately.

ITEM 37: Question: Will airport authority provide all necessary access, hardware, software, licensing to allow contractor to access BHS controls?

Answer: Level of access to the system will be coordinated with the awarded Contractor.

ITEM 38: Question: Does the airport authority require or prefer that the Contractor include a controls house as a subcontractor for controls support?

Answer: The Aviation Authority does not require that the Contractor include a subcontractor for control support.

ITEM 39: Question: For equipment which is off market/obsolete, what is GOAAs approach for acquiring spare parts?

Answer: The Aviation Authority requires the Contractor to aquire all parts for the BHS system.

ITEM 40: Question: Please provide the maximum dollar amount for the monthly performance measure deductions and compensation adjustments.

Answer: The Aviation Authority does not have a maximum dollar amount for the monthly performance deductions.

ITEM 41: Question: Please describe in detail the operation and maintenance requirements to support the MIT within this work scope.

Answer: Refer to Section 4.1 and 4.19.

MIT maintenance procedures are to be conducted in accordance with the OEM's specifications.

ITEM 42: Question: Section 4.44.i – Please confirm that GOAA only wants monthly inventory report, not a monthly inventory count.

Answer: A monthly inventory count is required to comply with requirements of Section 4.44.i.

ITEM 43: Question: Section 4.44.e – Related to training, please provide a list of all manufacturer equipment and systems within the work scope of this contract.

Answer: See 23-282-RFP Exhibits Package Section 4.84.

ITEM 44: Question: Please confirm that the Airport Authority will evaluate pricing based on the five year total amount.

Answer: The Aviation Authority will evaluate pricing on the total five year pricing.

ITEM 45: Question: Please confirm that the Contractor's key personnel are to be dedicated only to this BHS contract, and not to other contracts at MCO or other airports.

Answer: All positions included in this Contract shall be dedicated solely to this Contract at MCO. Cross utilization of personnel currently working on a contract other than the Aviation Authority's Contract to meet the personnel requirements and/or contractual obligations of this Contract is not permitted.

ITEM 46: Question: Please provide the minimum number of days between notice to proceed and service startup.

Answer: The Aviation Authority anticipates up to 45 days once a Notice of Intent to Award is issued.

ITEM 47: Question: Section 4.13.b – Are the contractor's expenses for relocation of any administrative/parts areas reimbursable?

Answer: Relocation is not a reimbursable expense. Reimbursable items are limited to Section 3.3 and 3.4.

ITEM 48: Question: Can the Contractor use the same MWBE/LDBE Company to fulfill both MWBE and LDBE participation percentage requirements?

Answer: Although nothing prohibits a Proposer to meet both MWBE and LDB requirement with the same vendor (as long as they are certified on both programs and the scope of work is clearly defined per program), the Small Business Development Department believes that this contract is large enough to support multiple vendors thus maximizing opportunities for small businesses.

ITEM 49: Question: How many of the employer-paid holidays will be reimbursed by GOAA as part of the reimbursable labor expenses?

Answer: Refer to Section 3.3.a.11.

ITEM 50: Question: Please provide the headcount per role and the related base pay for each role used to create the Reimbursable Payroll Expense Budget for Year one. This information is vital to calculating the other labor costs included the contractors management fee.

Answer: See Item 1.

ITEM 51: Question: Insurance Requirements: Clarify (1) whether higher deductibles than the required deductible limits stated in 2.6(k)(1) will be acceptable, and (2) whether the Pollution Liability stated in 2.6(i) will be required.

Answer: A higher deductible or self-insured retention may be requested and coordinated with Risk Management by the Department. The Contractor must be able to demonstrate financial stability for the requested self-insured retention or deductible. Financial stability will be demonstrated by Letter of Credit, audited financials, or other documentation as deemed appropriate by the Aviation Authority. Approval will be at the discretion of the Chief Executive Officer. Pollution Liability is a requirement for this solicitation.

ITEM 52: Question: Indemnification: Revise Section 5.16, Indemnification, as shown:
The successful Contractor shall indemnify, defend and hold completely harmless the Aviation Authority and the City of Orlando, Florida ("City"), and the members (including, without limitation, members of the Aviation Authority s Board and the City's Council, and members of the citizens' advisory committees of each), officers, employees and agents of each, from and against any and all liabilities (including statutory liability and liability under Workers' Compensation Laws), losses, suits, claims, demands, judgments, fines, damages, costs and expenses (including all costs for investigation and defense thereof, including, but not limited to, court costs, paralegal and expert fees and reasonable attorneys' fees) which may be incurred by, charged to or recovered from any of the foregoing: (a) by reason or on account of damage to or destruction or loss of any property of Aviation Authority or the City, or any property of, injury to or death of any person resulting from or ~~arising out of or in connection with the performance of this Contract, or~~ the negligent acts or omissions of Contractor's directors, officers, agents, employees, Subcontractors, licensees or invitees, regardless of where the damage, destruction, injury or death occurred, unless such liability, loss, suit, claim, demand, judgment, fine, damage, cost or expense was proximately caused ~~solely~~ by Aviation Authority's negligence or by the joint negligence of Aviation Authority and any person other than Contractor or Contractor's directors, officers, agents, employees, Subcontractors, licensees, or invitees, or ~~(b) arising out of or in connection with the failure of Contractor to keep, observe or perform any of the covenants or agreements in this Contract which are required to be kept, observed or performed by Contractor, or (c) arising out of or in connection with any claim, suit, assessment or judgment prohibited by this condition or in favor of any person described in below, or (d) arising out of or in connection with any action by Contractor or its directors, officers, agents, employees, Subcontractors, licensees or invitees.~~ Aviation Authority agrees to give Contractor reasonable notice of any suit or claim for which indemnification will be sought hereunder, to allow Contractor or its insurer to compromise and defend the same to the extent of its interests, and to reasonably cooperate with the

defense of any such suit or claim. ~~In carrying out its obligations under this section, Contractor shall engage counsel reasonably acceptable to Aviation Authority.~~ In any suit, action, proceeding, claim or demand brought in respect of which the Aviation Authority may pursue indemnity, the Aviation Authority shall have the right to retain its own counsel. The fees and expenses of such counsel shall be at the expense of the Aviation Authority unless the Contractor and the Aviation Authority shall have mutually agreed to another arrangement. ~~In the event Contractor fails, within a reasonable time to retain counsel satisfactory to the Aviation Authority, the Aviation Authority may retain counsel and Contractor shall be responsible for such legal fees, costs and expenses.~~ In the event, the Aviation Authority and the Contractor are both named parties in any such proceeding and, in the sole judgment of the Aviation Authority, representation of both the Aviation Authority and the Contractor by the same counsel would be inappropriate due to actual or potential differing interests between them then Aviation Authority shall obtain its own counsel and Contractor shall be responsible for such legal fees, costs and expenses. The indemnification provisions of this Section 5 shall survive the expiration or earlier termination of this Contract with respect to any acts or omissions occurring during the term of the Contract. No recourse under or upon any obligation, covenant or agreement contained in this Contract, or any other agreement or document pertaining to the work or services of the Contractor hereunder, as such may from time to time be altered or amended in accordance with the provisions hereof, or any judgment obtained against Aviation Authority, or the City, or by the enforcement of any assessment or by any legal or equitable proceeding by virtue of any statute or otherwise, under or independent of this Contract, shall be had against any member (including, without limitation, members of the Aviation Authority's Board or the City's Council, or members of the citizens advisory committees of each), any officer, employee or agent, as such, past, present, or future of Aviation Authority or City, either directly or through the Aviation Authority or the City or otherwise for any claim arising out of or in connection with this Contract or the work or services conducted pursuant to it, or for any sum that may be due and unpaid by Aviation Authority. Any and all personal liability of every nature, whether at common law or in equity, or by statute or by constitution or otherwise, of any such member, officer, employee, or agent, as such, to respond by reason of any act or omission on his or her part or otherwise for any claim arising out of or in connection with this Contract or the work or services conducted pursuant to it, or for the payment for or to Aviation Authority, or any receiver therefore or otherwise, of any sum that may remain due and unpaid by the Aviation Authority, is expressly waived and released as a condition of and in consideration of the execution of this Contract and the, promises made to Con tractor pursuant to this Contract. In any and all claims against the Aviation Authority or the City, or any of their officers, members, agents, servants or employees, by any employee of the Contractor, any Subcontractor, anyone directly or indirectly

employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation of Contractor under this Section shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefit payable by or for the Contractor or any Subcontractor under Workers' Compensation Acts, disability benefit acts or other employee benefit acts. No provisions of this condition shall be construed to negate, abridge, or otherwise reduce any other right of indemnity that Aviation Authority may have as to any party or person described therein. In no event shall the total aggregate liability of Contractor to GOAA under this Contract for any reason exceed the amount paid to Contractor hereunder or USD $2,000,000 whichever is lesser. Neither Contractor nor GOAA shall be liable to the other in contract, tort, or otherwise, directly or under indemnity, for any incidental, special, indirect, or consequential damages, including but not limited to, lost profits, loss of use or production, or damage to property or facilities, regardless of cause.

Answer: The Aviation Authority will not modify section 5.16.

ITEM 53: Question: Contract: Revise paragraph in Section 6.2, Contract, as shown:
An extension of time for performance shall be the Contractor's sole and exclusive remedy for any delay of any kind or nature caused by the Aviation Authority, and in no event shall either party ~~Contractor~~ be entitled to recover from the other party ~~Aviation Authority~~ any indirect, incidental, special or consequential damages in any proceeding arising out of or relating to this Contract or the breach thereof.

Answer: The Aviation Authority will not modify section 6.2.

ITEM 54: Question: Licenses: Does the Authority require any specific business or contractor licenses for this project or any specific licenses for trade classification or staff members?

Answer: Refer to Section 4.3 and 5.30.

ITEM 55: Question: Certificate of Insurance: Does the proposer need to submit copies of the Certificate of Insurance Liability (COI) with their proposal in accordance with the coverages and limits defined in the RFP specification?

Answer: The Proposer is required to show proof they have or can get the required insurance amounts.

ITEM 56: Question: Software Support Contract: Who is the current Third party service provider for the system software? What responsibilities if any does the BHS O&M Contractor have regarding the software maintenance support contract?

Answer: There is no third party service provider for the system software. The Aviation Authority is responsible for the software. The Aviation Authority will coordinate any software service calls with the Contractor.

ITEM 57: Question: Tools & Equipment: Will the Authority provide the BHS O&M Contractor with any equipment, tools and/or vehicles? If so, please provide a list.

Answer: The Aviation Authority will not provide any equipment, tools and/or vehicles. Refer to section 3.2 and 4.14

ITEM 58: Question: Preventive Maintenance Program: Please confirm that the Authority expect the Contractor to execute the established PM program currently uploaded in the EAMs Maximo database? Does the current database include all BHS assets?

Answer: The Contractor will be responsible for conducting the established preventive maintenance program. All assets in the BHS are currently reflected in EAMS Maximo. If assets are discovered that are not currently accounted for in EAMS Maximo, the Contractor will be required to add the asset(s) to EAMS Maximo and perform required preventive maintenance.

ITEM 59: Question: Employee Parking: Can you confirm the amount for the monthly costs per employee for parking fees at the Employee Parking Facility? Are there any other special parking services available to the Contractor if so, what are the costs?

Answer: Refer to Section 4.13.l.

ITEM 60: Question: Airport Badging: What is the current cost for Airport badging including fingerprinting for criminal history record check, US Custom Seals, and the actual SIDA badge costs?

Answer: Refer to Section 2.8.g.

ITEM 61: Question: Airport Badging: What is the estimated time for receiving SIDA badging and US Custom Seals?

Answer: Badging time can vary by applicant. Badges can be received as quickly as two days up to two weeks. Customs seals are typically approved in as little as 14 days to 30 days.

ITEM 62: Question: Mobile Phones: What management personnel or staffing members are required to carry mobile phones with communication access to the Authority?

Answer: Management fee positions (except administrative positions) and supervisory positions shall have mobile phones for on duty communication at all times. The site manager and assistant managers shall be available by cell phone twenty-four hour, 365 days.

ITEM 63: Question: CMMS Database: With the Authority providing the EAMS Maximo database for the Contractor to utilize, does this include the Maximo mobile application suite and licenses? If so, who is responsible to provide the mobile devices i.e., tablets?

Answer: The Aviation Authority will provide EAMS Maximo database for the Contractor to utilize including mobile application and licenses. The Aviation Authority is responsible for providing tablets.

ITEM 64: Question: Transition Plan: How much time is the Authority planning to give the Contractor from the date of intent to award to the date to go-live or startup date?

Answer: See Item 46.

ITEM 65: Question: KPI Deductions: Would the Authority please provide the average amount of deductions imposed on the current incumbent Contractor over the past 12-month period?

Answer: At this time the current incumbent has no deductions assessed for the past 12 months.

ITEM 66: Question: KPI Deductions: What payment deductions have been the most penalized over the life of the current five (5) contract by incumbent Contractor?

Answer: Downtime performance factors.

ITEM 67: Question: Local Utilities: Does the Authority provide all onsite utility services free of charge i.e., electricity, water, etc.?

Answer: Refer to Section 4.13.h.

ITEM 68: Question: Staffing: Can you please provide the current contractor's headcount and breakdown by position classifications?

Answer: The current contract structure is different than this solicitation. For this solicitation staffing level by classification refer to Item 1.

ITEM 69: Question: Staffing: Does the Airport have a preference on required work shift hours – 8, 10, or 12 hour shifts?

Answer: Staffing plan and work shift hours will be discussed with the awarded Contractor.

ITEM 70: Question: Trouble Calls: Can the Authority provide a list of all trouble calls for 2022 in an excel format?

Answer: See Item 2.

ITEM 71: Question: Square Footage: Can the Authority provide the square footage of each room that will be provided to the Contractor?

Answer: Refer to Section 4.13.a.

ITEM 72: Question: Radio: As the Contractor is required to provide the costs of two-way radios in the management fee, what make/model of radios are compatible with the Authority's system?

Answer:

AAH06RDN9RA1AN	**Motorola R7 4w 64 ch UHF Portable Radio**
AAH56RDN9RA1AN	**Motorola XPR7550E 4w 1000ch UHF Portable Radio**

ITEM 73: Question: Bag Jams: If clearing jams inside the EDS machines is required will the Authority provide security clearance and training?

Answer: The EDS are a TSA asset and the TSA will provide training to Contractor Staff on clearing bag jams.

ITEM 74: Question: Bag Scales: Would the Authority allow the Contractor to outsource the scale calibration services?

Answer: The Aviation Authority expects the Contractor to repair, maintain and calibrate scales 24/7 365 days a year. Should the Contractor elect to outsource calibration services, the cost will not be a reimbursable expense.

ITEM 75: Question: How many Manual Encode Stations are there?

Answer: The Aviation Authority currently has five (5) Manual Encode Stations.

ITEM 76: Question: How many manual encode stations need to be staffed and what are their locations?

Answer: All Manual Encode Stations need to be staffed.

ITEM 77: Question: How many bags are processed through each manual encode station on average daily?

Answer: The answers below are approximate
A pod – 350 bags per day
B pod – 870 bags per day
C pod – 1,000 bags per day
D pod – 625 bags per day
E pod – 860 bags per day

ITEM 78: Question: How many Parts Inventory Depots are there, do they need to be staffed and where are they located?

Answer: Parts Inventory location(s) will be determined at the time of award. All parts inventory locations shall be staffed.

ITEM 79: Question: Who is responsible for “non-conveyable” bags? Do airlines handle their own bags or would the O&M Service provider be required to perform the task? If so, how many bags/hr are considered “non-conveyable”?

Answer: Air Carriers are responsible for non-conveyable baggage.

ITEM 80: Question: The RFP (page 40) states “the Air carriers provide skycap services to move tubs from the bag room to their ticket counters. Contractor will be asked to occasionally relocate tubs.” Q: Please quantify what constitutes “occasionally”, how many tubs need to be managed, how frequent and from what location to location? What percentage of bags are tubbed?

Answer: Air Carriers have primary responsibility for the movement of tubs. The air carrier or their contractor will relocate tubs from the baggage make up area to the ticket counter for re-use. The Contractor will be responsible to move tubs in emergency situations and to transport new tubs from a holding area to be introduced for use in the BHS.

ITEM 81: Question: Is the O&M Service provider required to staff the Control Room? If so, how often and what tasks would be required? Would these resources fall under Management positions or Reimbursable positions?

Answer: There is no requirement for Contractor personnel in the control room in this solicitation.

ITEM 82: Question: What are the current bag-jam rates? Please provide this data overall for the airport and by bag system/pod.

Answer: For the airport in November, we handled roughly 1,041,379 bags. There were 20,191 jams for the month. 1.9% of bags were involved in a jam.

Area 1 had 568 jams while handling 20,310 bags for the month of November 2.79%

Area 2 had 5,083 jams while handling 202,748 bags for the month of November 2.5%

Area 3 had 4,496 jams while handling 274,635 bags for the month of November 1.6%

Area 4 had 3,739 jams while handling 197,101 bags for the month of November 1.9 %

Areas 5/6 had 6,305 jams while handling 346,585 bags for the month of November 1.8%

ITEM 83: Question: What are the current system read-rates? Please provide this data overall for the airport and by bag system/pod.

Answer: See Item 22.

ITEM 84: Question: What is the current baggage throughput of the different systems/pods?

Answer: During the month of November: (airport was closed 11/10 for a hurricane)

A Pod processed 20,310 bags (average 700 per day) (Under construction)

B Pod processed 197,101 bags (average 6,797 per day)

C Pod processed 274,635 bags (average 9,470 per day)

D Pod processed 202,748 bags (average 6,991 per day)

E pod processed 346,585 bags (average 11,951 per day)

ITEM 85: Question: Will the successful contractor inherit any existing tools, materials, equipment or supplies?

Answer: The contractor is expected to provide all tools, materials, equipment and supplies to operate this contract.

ITEM 86: Question: Is sufficient radio frequency available in all areas the contractor will be working? Is WIFI available in all areas? Who is responsible for providing adequate radio frequency throughout all airport terminals?

Answer: The Aviation Authority currently has sufficient radio frequency available in all work areas.

Wi-Fi is available and use is limited to Aviation Authority provided EAMS tablets for EAMS work.

ITEM 87: Question: Can one subcontractor holding both an WMBE and LDB certificate be counted towards both goals under this contract?

Answer: Although nothing prohibits a Proposer to meet both MWBE and LDB requirement with the same vendor (as long as they are certified on both programs and the scope of work is clearly defined per program), the Small Business Development Department believes that this contract is large enough to support multiple vendor thus maximizing opportunities for small businesses.

ITEM 88: Question: For the pricing sheet, are the headcounts provided accurate, or were those from the previous contract?

Answer: The counts on the pricing sheet footnotes are estimated for this solicitation.

ITEM 89: Question: What is the current FTE headcount?

Answer: See Item 1.

PURCHASING PROPOSAL 23-282-RFP
BAGGAGE HANDLING SYSTEM (BHS) OPERATION, MAINTENANCE AND REPAIR SERVICES

REIMBURSABLE PAYROLL AND OPERATING EXPENSES

	FTE	Year 1	Year 2	Year 3	Year 4	Year 5
Reimbursable Payroll Expenses*:						
- EAMS Maximo Database Administrator/Supervisor	1	$ 64,100	$ 66,030	$ 68,020	$ 70,070	$ 72,180
- EAMS Maximo Data Entry Assistants	2	$ 97,700	$ 100,640	$ 103,660	$ 106,770	$ 109,980
- Supervisors	6	$ 449,600	$ 463,090	$ 476,990	$ 491,300	$ 506,040
- Technicians: Industrial, Electronics, Electrician, Thermography, Mechanic…	74	$ 4,094,800	$ 4,217,650	$ 4,344,180	$ 4,474,510	$ 4,608,750
- Support Staff - Leads	9	$ 435,600	$ 448,670	$ 462,140	$ 476,010	$ 490,300
- Support Staff (Encode Line, Jammers, Baggage movement...)	120	$ 4,611,400	$ 4,749,750	$ 4,892,250	$ 5,039,020	$ 5,190,200
- Inventory Control Supervisors	1	$ 52,700	$ 54,290	$ 55,920	$ 57,600	$ 59,330
- Inventory Control	3	$ 128,700	$ 132,570	$ 136,550	$ 140,650	$ 144,870
- Overtime		$ 269,700	$ 277,800	$ 286,140	$ 294,730	$ 303,580
- Health Insurance		$ 777,600	$ 800,930	$ 824,960	$ 849,710	$ 875,210
- Payroll Taxes: Social Security, Medicare, State & Federal Unemployment		$ 938,800	$ 966,980	$ 995,940	$ 1,025,850	$ 1,056,540
	216	**$ 11,920,700**	**$ 12,278,400**	**$ 12,646,800**	**$ 13,026,300**	**$ 13,417,100**
Reimbursable Operating Expenses:						
- Parts Purchased by Contractor		$ 950,000	$ 978,500	$ 1,007,900	$ 1,038,200	$ 1,069,400
- Subcontracted Work (Excluding Participation) & Annual Certification		$ 100,000	$ 103,000	$ 106,100	$ 109,300	$ 112,600
		$ 1,050,000	**$ 1,081,500**	**$ 1,114,000**	**$ 1,147,500**	**$ 1,182,000**
Total Reimbursable Expenses - Not to exceed budget		**$ 12,970,700**	**$ 13,359,900**	**$ 13,760,800**	**$ 14,173,800**	**$ 14,599,100**

***Reimbursable Payroll Expense Budget shall include all costs as outlined in Section 3.3. Contractor's aggregate annual invoices shall not exceed the total as stated above for Years 1 through 5. It is estimated that 216 FTE reimbursable positions will be needed for the performance of this Contract. The Aviation Authority believes that this estimate fairly describes the scope of work under ordinary circumstances; however, the number of reimbursable positions FTEs may range between 190 and 246 as actual conditions may cause the number of positions to be adjusted accordingly. The Aviation Authority shall only reimburse for the reimbursable positions requested and approved by the Aviation Authority and satisfactorily provided by the Contractor.**
