TRUTH MATTERS

Truth isn't relative – it's objective.

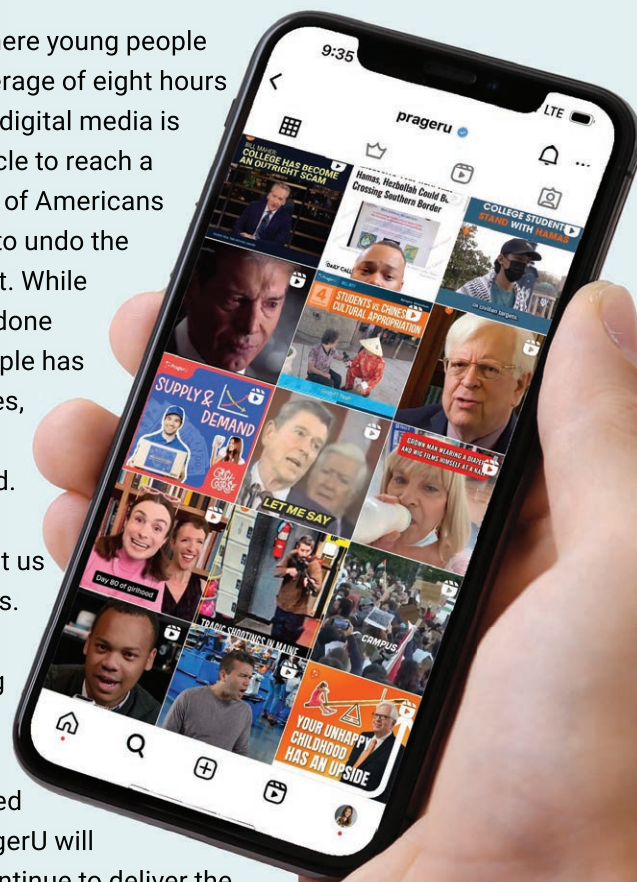

The left makes up its own “truth.” Using cradle-to-grave messaging, these lies about America and Judeo-Christian values are told to Americans on a massive scale. If these lies are told often enough—without being challenged— young people will believe them. Not because they make sense, but because that's the only thing they hear.

At PragerU, we strap a rocket to the truth. It's at the core of everything we do. It inspires every piece of edu-taining content that we create for ages 4-104!

We are dedicated to: A life guided by Biblical values, protecting children's innocence, celebrating America's exceptional history, civic responsibility, rejecting woke culture, and defending free speech.

In a world where young people spend an average of eight hours a day online, digital media is the only vehicle to reach a critical mass of Americans fast enough to undo the lies of the left. While the damage done to young people has taken decades, our solution must be rapid.

Education got us into this mess. Education is the only thing that will get us out. With your continued support, PragerU will be able to continue to deliver the truth to millions every day.

A MESSAGE FROM OUR CEO

MARISSA STREET

How do I know what PragerU is doing is working?

It's not only because we have more than 9 billion views, or because our subscribers and followers top 17 million, or because our videos routinely go viral. It's because the left validates our work at every turn. This year alone, we've had nearly 600 media hit pieces.

While I'm proud to share our metrics with you illustrating our reach and impact, it's the attacks that truly confirm how effective we are. The left is losing its mind over states approving (five states to date and counting) our K-12 educational materials for schools.

These are just a few examples of headlines and excerpts from articles. Please read the "PragerU in the News" section of this Annual Report for many more:

“
PragerU doesn't downplay the evils of slavery, as we've been accused of doing. We hate slavery! We teach that racism is evil.

TIME

"...PragerU has 'just taken a strategic hilltop'...PragerU now has that 'status' conferred by being a state's official vendor to schools. And with it, the platform to elevate its ideas to a wider audience of impressionable young people."

DAILY BEAST

"Right-Wing PragerU Material Can Now Appear in Montana Textbooks"

[NH JOURNAL]

"...They denounced PragerU and expressed concerns that curious students might become intrigued and begin exploring other content from the conservative nonprofit."

The Guardian

"Florida may be just the first of other states to follow in adopting PragerU's anti-progressive materials..."

The media and their allies (teachers unions) are doing everything in their power to stop teachers from using PragerU content to help teach their students history, civics, financial literacy, and character development. What is in our videos that is so upsetting to them? I'll tell you. There are two videos in particular that the left is focusing on—both are part of Leo & Layla's History Adventures (an animated series for elementary kids). These examples will give you a good idea of how the left operates.

In one cartoon adventure, brother and sister duo Leo and Layla visit the abolitionist, Frederick Douglass. According to the left, we put words in the great man's mouth. Keep in mind that Leo & Layla videos are made for children ages 8-11, not PhD candidates. Do we paraphrase? Of course. The real issue is this: are we fairly depicting Douglass's views? Here's an excerpt from the script that has been criticized for "putting words in his mouth he would have never said":

Layla: "So, you are trying to work for change inside of the American system?"

Douglass: "Precisely, Layla. Our system is wonderful, and the Constitution is a glorious liberty document! We just need to convince enough Americans to be true to it."

The phrase *"the Constitution is a glorious liberty document!"* is taken directly from Douglass's famous 1852 Fourth of July speech, one of the greatest speeches in American

history. It should be required reading for every American high school student.

Douglass personally experienced the worst of slavery; he hated the institution with every fiber of his being. But he also understood that he had to work within the system to abolish it. That's why he joined the Republican Party and encouraged free blacks to join the Union Army. Like Martin Luther King Jr., Douglass wanted Americans to live up to their Constitution. If they did that, then slavery would vanish, and blacks would be given the rights they deserve—the rights that all Americans deserve.

PragerU doesn't downplay the evils of slavery, as we've been accused of doing. We hate slavery! We teach that racism is evil. We offer important age-appropriate context, something that is sorely lacking in the contemporary teaching of history.

In another cartoon episode, Leo and Layla visit with Christopher Columbus. At one point, they discuss slavery with the great explorer.

Layla: "Yeah, but what about slavery?"

Columbus: "Slavery is as old as time and has taken place in every corner of the world, even amongst the people I just left."

Later, Layla pushes back against Columbus:

"Well, in our time, we view slavery as being evil and terrible." (Of course, the

left chooses to ignore this line.)

Why didn't we have Columbus condemn slavery in this cartoon? Because that would be inaccurate. Slavery was common in Columbus's day. From his perspective, it was just the way the world worked. Again, we don't minimize the evils of slavery, nor do we deny that it was an awful part of American history. We do, however, judge people by the standards of their own time.

Of course, you know what the left wants to teach instead—that America was, is, and always will be racist, free market capitalism is evil and must be destroyed, and promoting chemical castration and surgery, a.k.a. "gender-affirming care," is mandatory to properly teach kids "sex ed."

Not on our watch. It's taken the left decades to brainwash America's young people. We know we can undo that damage with our videos. The left knows it, too!

Thank you for standing beside us. Your continued support is critical for PragerU to double down on our efforts to combat evil and protect America's young people.

AMERICAN HISTORY & CIVICS MATTER

America is the only nation in the world teaching its citizens to hate their own country. Millions of our youth think that the U.S. is rooted in systemic oppression that continues to this very day. They are told America's Founders are nothing but racists, and that the U.S. Constitution is an obstacle to progress and must be discarded. This causes significant strife among citizens,

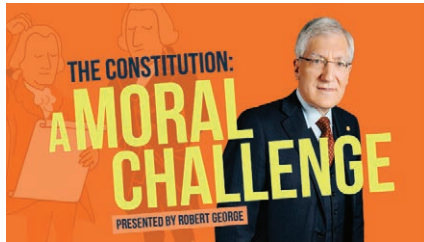

a rise in anxiety and hopelessness, and fewer good people willing to serve in our military and law enforcement. There is also the very real danger of people giving up their rights without realizing what they are surrendering.

Many young people have never been exposed to the ideas and values that made America the freest, most

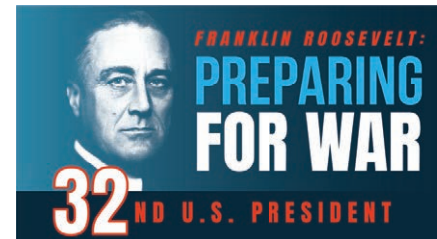

prosperous, most generous nation in the history of mankind. PragerU is teaching millions of young Americans about our country's true history, its brilliant founding documents, and how important it is to honor those who serve our country and communities. Foundational knowledge of history and civics is critical to strengthening and protecting America.

"I'm excited to announce this initiative with PragerU Kids today. These additional resources will help ensure quality instruction in American history and values, and will enrich educational opportunities for our students."

—OK Superintendent Ryan Walters

”

PROTECTING CHILDREN'S INNOCENCE MATTERS

PragerU is committed to shining a light on evil in all its forms. The sexualization and exploitation of children are at the top of that list. Children are subjected to early sexualization in entertainment, social media, and schools. This puts kids in real danger—from a teen epidemic of anxiety and depression to minors being manipulated in the name of “gender-affirming care”, and millions of children being exploited in our very own communities. This insanity must be stopped. PragerU is educating millions about our duty to protect children’s innocence and the dangers of “gender-affirming care.”

“

“I am a psychologist who refers to and shares PragerU videos with my clients. They are a great aid in becoming mature and developing a healthy physiological perspective. If more people watched and absorbed the material presented by PragerU, I would have to find another line of work.”

—Social Media Follower ✕

”

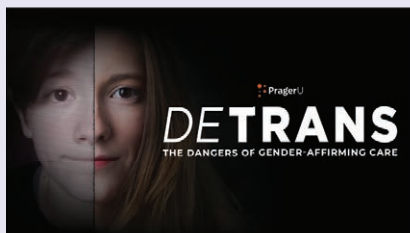

Our content exposes and addresses this dangerous ideology:

Man on the Street:

Aldo interviews parents and performers at the LA Zoo's "family-friendly" drag show—an "all ages" event featuring drag queens that show themselves online in bondage, stripping, and holding bloody decapitated heads!

Short Documentary:

Manipulated by social media and pushed into hormones and surgery by medical professionals, brave detransitioners share their heartbreaking personal journeys to warn others about the lies and true ramifications of "gender-affirming care."

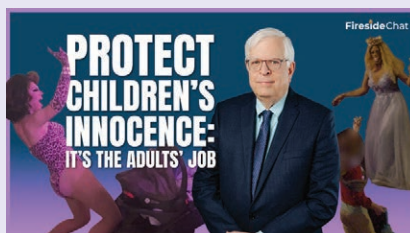

Stories of Us:

At the tender age of 11, Chloe was pushed to change her gender, take hormones, and eventually underwent surgery to remove her healthy breasts—she now deeply regrets the decision as she looks forward to being a mother someday.

Light in the Darkness:

Real-life footage of the true story that inspired the movie *Sound of Freedom* is featured in this 8-part series shining a light on the horrors of trafficking and the heroic efforts to save children.

Fireside Chat:

Dennis tackles the inexcusable failures of parents and teachers who not only refuse to protect our precious children from the psychological and emotional harm of early sexualization, but actively encourage it.

Real Talk with Marissa:

Marissa and Jaco Booyens, renowned anti-sex-trafficking activist, discuss the sexualization of children, its direct impact on sex crimes, and empowering parents to protect their children.

Real Talk with Marissa:

Marissa and Landon Starbuck cover concrete steps parents can take to counter the early sexualization of our kids by schools and the media.

5-Minute Video:

Exposing the lie being told to an entire generation of boys and girls—that irreversibly changing their bodies will fix the emotional distress they are experiencing.

5-Minute Video:

A war is being fought between parents and school boards over pornographic, gender-bending LGBTQ content that is pushed on kids in the name of "sex ed."

Protect Children's Innocence: Take the Pledge @prageru.com/petitions

FREE SPEECH MATTERS

Nearly 60% of Millennials agree that the U.S. Constitution “goes too far in allowing hate speech in modern America” and should be rewritten.

Is “hate speech” anything that offends anyone in our woke, politically correct culture? Who gets to determine what hate speech is? The government? What would prevent the government from labeling any speech they don’t like as “hate speech”?

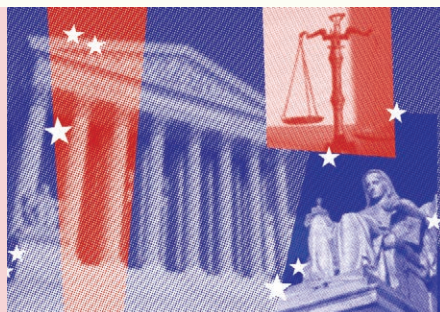

America is suffering from amnesia. Millions of young Americans don’t know where we

come from or what has led to our freedom and prosperity. They aren’t being taught that our country wouldn’t exist as we know it without the First Amendment. When you don’t know your past, this vacuum can easily be filled with bad ideas—from “hate speech” legislation to socialism/ Marxism, Critical Race Theory, and general anti-American sentiment. Big Tech “fact-checkers” like NewsGuard, employed by media, corporate, and political elites, censor opposing viewpoints, while promoting biased narratives to millions of young people. If this continues, we will lose the America we know and love.

Did you know?

The Supreme Court has agreed to hear Missouri v. Biden—this case could impact PragerU’s battle against censorship!

“
What a scam! NewsGuard should be disbanded immediately.” - **Elon Musk on X**

BIBLICAL VALUES MATTER

“Thank you so much for this [video]...it really reassures me that I’m not crazy, especially the part about how there is no solid morality without God...”

—YouTube Follower 

Young people are bombarded all day long by the left’s anti-Judeo-Christian worldview. Seduced by the left’s “religions” of racial injustice, transgenderism, and climate hysteria, young people hope to find meaning and purpose—but instead find depression and despair. This is not only tragic for the young people personally affected but for society

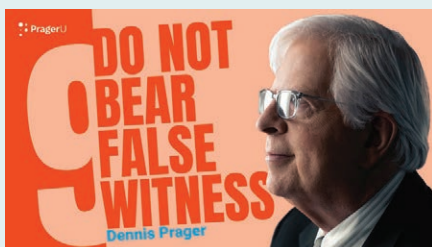

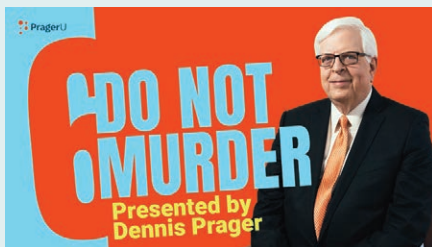

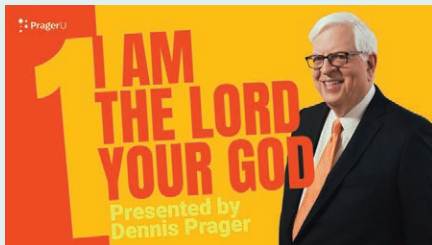

as a whole. Dennis Prager has spent his entire career explaining the necessity for God and Biblical values. PragerU meets millions of viewers where they are, whether atheist, agnostic, casually religious, or devout. We educate everyone about the importance of Judeo-Christian values in their own lives, and to the future of Western Civilization.

“

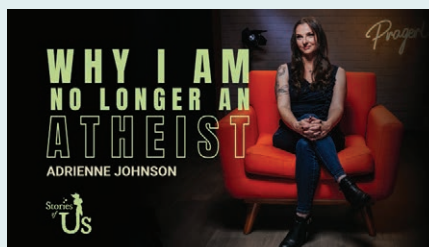

You shall teach these commandments diligently to your children, and shall talk of them when you sit in your house, and when you walk by the way, and when you lie down, and when you rise. (Deuteronomy 6:7)

PRAGERU IN THE NEWS

PragerU has received a massive amount of news coverage this year. If you've followed it, you might think we live in the Twilight Zone! The left is losing its mind over our exponentially growing impact—especially states

officially approving PragerU as an educational resource—and is attacking us on every issue. At the same time, our friends and millions of commonsense Americans are lining up to sing our praises.

TIME

"In the coming school year, Florida grade school students could be assigned PragerU Kids videos to watch in class or for homework, perhaps alongside longtime classroom aids like Scholastic and Highlights magazines."

RollingStone

"PragerU's Right-Wing Playbook for Infiltrating Public Education Is Working. New Hampshire's school board just voted to make one of the right-wing organization's courses count toward graduation credits, despite vocal opposition."

DAILY BEAST

"Right-Wing PragerU Material Can Now Appear in Montana Textbooks"

EducationWeek®

"PragerU, Creator of Controversial Social Studies Videos, Now Has a Toehold in Schools"

The Boston Globe

"What sets PragerU videos apart from other options is their proximity to content that advocates for conservative ideas and activism. Students and parents who view the first video in PragerU's financial literacy course are one mouse-click away from a 'Parent Action Guide' that urges scrutiny of any public official who parents suspect is involved in topics related to diversity, equity, and inclusion."

MotherJones

"...Florida became the first state in the nation to approve the use of 'educational' videos produced by the conservative organization Prager University Foundation...there's nothing to stop teachers from independently airing the material."

The New York Times

"Using Frederick Douglass to Rationalize Slavery? In Florida, Yes." (on PragerU's entry into Florida schools)

"I spoke at the New Hampshire School Board meeting, and I'm so excited to report that PragerU received a unanimous vote in favor of schools offering our financial literacy module. While the teacher unions showed up in full force to defeat us, they lost, and the students of New Hampshire won."

–CJ Pearson

"[PragerU Kids] provides vital resources so many parents so desperately need...I love that it provides a community of support. Every parent out there needs to know that they are not alone. There are other people that believe in and are fighting for the same things that they are for their kids..."

–Sarah Huckabee Sanders

"...our nation's founding, our founding documents, all of the founding principles... these are important things...that goes back to empowering families and being transparent about what you are teaching in your school..."

–Betsy DeVos

"Marissa, we are behind you 100%. I think PragerU is doing fabulous work here...it's unbelievably important to play offense in the educational realm. Very few groups are doing it. It's promising that we are finally taking some ground."

–Charlie Kirk

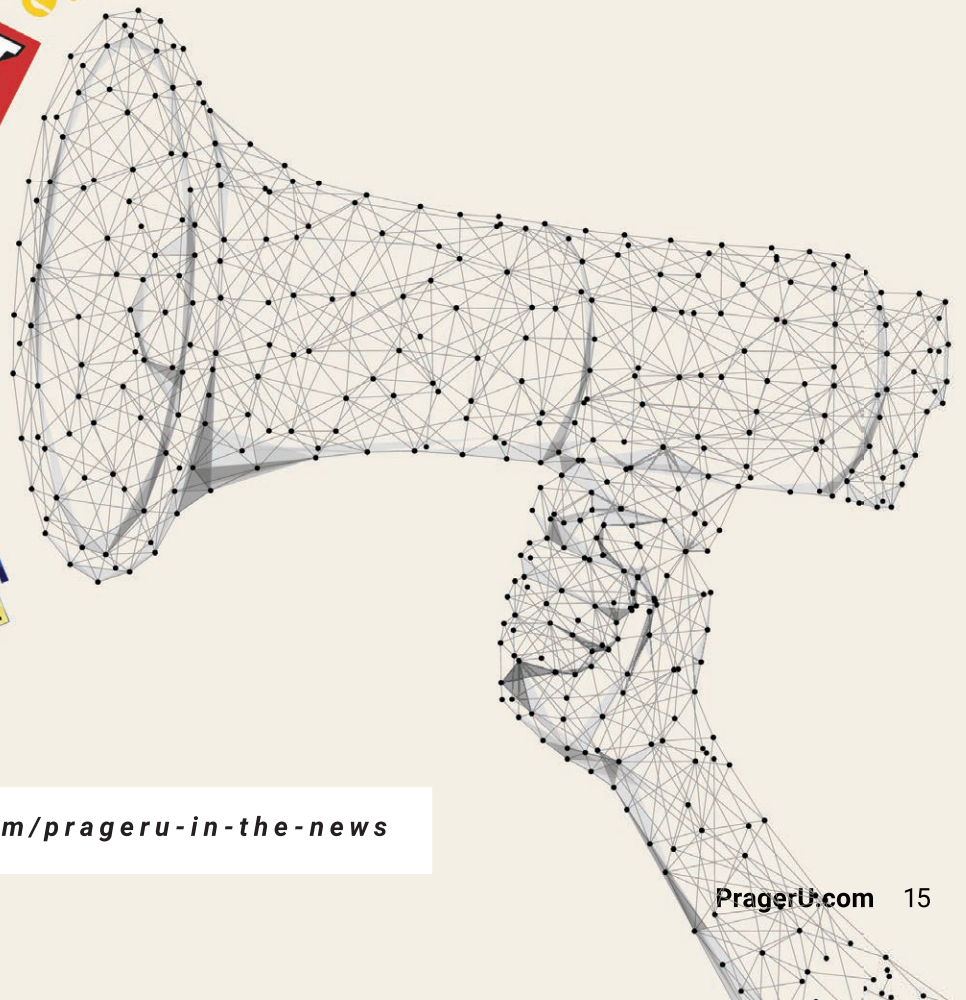

"Get it to all 50 states. And beyond. I would love to see PragerU Kids all over the world."

–Brandon Tatum

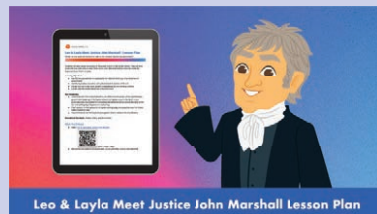

"Kudos to PragerU for telling the story they refuse to tell, and no wonder they [the left] are squealing about it..."

–Dinesh D'Souza

KIDS AT HOME AND

PragerU was founded to disrupt education. For over a decade, we've circumvented the left's gatekeepers—universities, teachers unions, media, and Hollywood—and reached Americans directly.

Our “direct-to-consumer” model has produced a groundswell of support, including millions of parents using

PragerU Kids to educate their children at home.

We began creating K-12 content less than three years ago. Our kids shows, books, and magazines have already been watched or read 42M times, and more than 1.5M households have downloaded our apps for phones, iPads, and TVs!

Families and educators are rightly concerned that children spend 7+ hours a day in classrooms that are turning traditional values upside down—and aren't teaching what should be taught. Conservatives have also worked tirelessly to secure thousands of educational leadership positions nationwide and need tools to enact change. They are asking PragerU for help.

NOW AT SCHOOL!

In the summer of 2023, we announced PragerU in Schools, expanding our influence in public, charter, private, and home schools nationwide with high-quality, wholesome, fun, educational resources. Our supplemental curriculum (lesson plans, worksheets, and more) strongly focuses on history, civics, financial literacy, and character. These topics shape the worldviews of young people—and will

shape the future of America. Florida was the first state to officially approve PragerU's new K-12 educational resources. We are now in Florida, Texas, Oklahoma, Montana, and New Hampshire. PragerU is just getting started—with many more states in the works!

We're impacting culture from the "bottom up," building massive support by reaching

American families at home. Now, we're also working from the "top-down," working with state superintendents, departments of education, and education commissioners to bring PragerU to schools nationwide. PragerU Kids is serving families, schools, and young Americans through edu-taining, pro-American content and undoing the damage of leftist teachers unions.

ISRAEL MATTERS

The terrifying trend of antisemitism and anti-West hatred and lies is growing. Israel—the Middle East's democratic beacon and U.S. ally—is painted as the antagonist, the oppressor. Terrorists are portrayed as freedom fighters, and infanticide, rape, and mass murder are excused if done in the name of liberation.

Nowhere is this more prevalent or more pervasive than on social media and in our nation's schools and college campuses. Pro-Hamas students shout, "We are Hamas." They call for "Intifada" and chant, "From the River to the Sea, Palestine will be free," advocating for Israel to be wiped off the map.

Not long ago, these students shouted, "Defund the police!" and "No justice, no peace!" while claiming that America is institutionally racist and needs to be decolonized. This isn't sudden—it's the product of a decades-long strategy. Leftist ideologies now dominate classrooms. Our children are taught to admire Marxism, racial division, and moral relativism, and hate the values and traditions foundational to the West.

This is not a time for patriots to be silent, timid, or see how things shake out. This is our time to defend truth, correct misinformation, and affirm our values. To stand up for the West, for Israel and our allies, and to push back against the continued spread of Marxism, hatred, and lies.

Stand With Israel: Take the Pledge @prageru.com/petitions

“

Dennis Prager

"The Jews introduced to humanity the God in which most of the world believes; brought into existence the Bible that is the basis of the New Testament and the Qur'an; gave the Christian world its Messiah; and gave much of the world its morality through the Torah, the Prophets, and the Ten Commandments. Those who hate that moral code hate the Jews."

Marissa Streit

"You condemned Al Qaeda when they attacked the USA. You condemned ISIS when they attacked France. You condemned the Muslim Brotherhood when they attacked Egypt. Will you condemn Hamas for attacking Israel? There's no justification for terrorism anywhere."

CJ Pearson

"Colleges taught my generation to hate America. Are we surprised that they hate Israel, too? Anti-American sentiment that exists on college campuses today allows students to hate Israel."

Bassem Eid

"To my Palestinian brothers and sisters, and to anyone who supports the Palestinian people, I implore you: Please do not let Hamas brainwash you into thinking it has 'achieved' anything on our behalf."

”

Our Israel content has gone viral!

5-MINUTE VIDEOS:

ADDITIONAL CONTENT:

KIDS CONTENT:

EXPOSING ESG MATTERS

Do you want "degrowth"? Most Americans have no idea what ESG means or the damage it's doing to our country. Companies are being pressured to focus on ESG—Environmental,

Social, and Governance—and prioritize the left's proclaimed "social good" over profit. This is an insidious regressive policy aimed to eliminate many of the blessings of modern society through "degrowth."

"We see the outcome of overemphasizing ESG very clearly in the energy sector. Too rapid divestment in companies involved in energy has exacerbated the shortages we're seeing this winter and will lead to still-higher energy prices, increased reliance on OPEC (oil) and Russia (gas) and general inflation and job loss as manufacturing struggles for energy supplies."

—Instagram Follower 

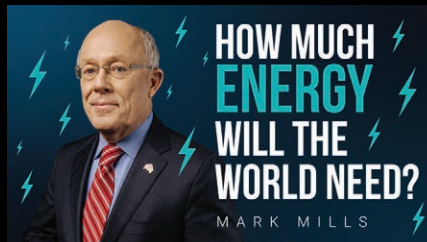

One of ESG's biggest and most harmful goals is mandating "green" energy. Young people are being brainwashed into thinking nuclear power is terrible, gas stoves should be banned, and wind and solar can save the planet.

PragerU is educating millions with the truth about climate change, energy, and the threat of ESG to our way of life, while promoting energy independence, preserving our natural environment, and encouraging the development of new technologies and innovations to secure a bright future for everyone.
