# Multicoin Capital

FALL SUMMIT 2020

## Featured Programs

### Crypto: Past, Present, Future

TUESDAY, OCTOBER 06, 2020 | DOMESTIC 12:00 PM ET | INTERNATIONAL BROADCAST 10:00 PM ET / 10:00 PM CHINA STANDARD TIME

As is our custom, Tushar Jain will open the summit with opening remarks and an update on the firm followed by the first keynote of the summit delivered by Kyle Samani.

This presentation will explore the process of thesis formation in crypto, starting with a look back at the last three years, what has transpired and what has not, followed by a forward-gazing exploration of where crypto markets are headed in the years ahead.

CO-FOUNDER • MULTICOIN CAPITAL

**Tushar Jain**

Tushar is a Co-Founder and Managing Partner at Multicoin Capital, a thesis-driven investment firm that invests in cryptocurrencies, tokens, and blockchain companies. He is passionate about the new economic paradigm enabled by blockchain technology and focuses on decentralized financial products, token economics, and blockchain go-to-market strategies.

CO-FOUNDER • MULTICOIN CAPITAL

**Kyle Samani**

Kyle is a Co-Founder and Managing Partner at Multicoin Capital. As a former engineer, Kyle leads technical thesis formation and diligence. He is the more outwards facing partner, owning relationships with entrepreneurs and other investors. He is widely recognized in the crypto ecosystem for his writing and system-level analysis.

### Fireside Chat with Solana

WEDNESDAY, OCTOBER 07, 2020 | DOMESTIC 12:00 PM ET | INTERNATIONAL BROADCAST 10:00 PM ET / 10:00 PM CHINA STANDARD TIME

**SOLANA**

Join Kyle and Tushar in a conversation with co-founders, Anatoly Yakovenko and Raj Gokal, to explore the origins of Solana. Solana is by far the most performant layer 1 blockchain and has recently captured the imagination of developers in the space.

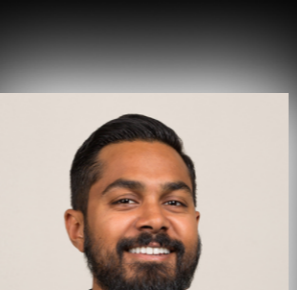

This discussion will cover the core innovations of the platform, recent developments (including Project Serum), and the unique relationship between Multicoin Capital and Solana over the past two years. This presentation will conclude by looking forward and exploring new high-speed applications in decentralized development.

CO-FOUNDER • SOLANA

**Anatoly Yakovenko**

Anatoly is the creator of Solana. He led development of operating systems at Qualcomm, distributed systems at Mesosphere, and compression at Dropbox. He holds 2 patents for high performance Operating Systems protocols, was a core kernel developer for BREW (100m+ devices), and made Project Tango (VR/AR) possible on Qualcomm phones.

CO-FOUNDER • SOLANA

**Raj Gokal**

Raj is the COO of Solana. He leads operations, product, and finance. Previously he was a venture capital investor at General Catalyst. He also started the consumer medical device company Sano which attracted over \$20m in investment, and led product management at Omada Health as it grew tenfold.

### Fireside Chat with Helium

THURSDAY, OCTOBER 08, 2020 | DOMESTIC 12:00 PM ET | INTERNATIONAL BROADCAST 10:00 PM ET / 10:00 PM CHINA STANDARD TIME

**helium**

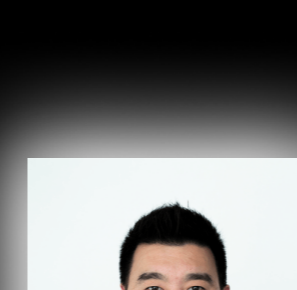

Join Kyle and Tushar in a conversation with Amir Haleem, CEO, and Frank Mong, COO, to explore the origins of Helium. Helium is the world's first peer-to-peer wireless network. The network recently crossed a major milestone by deploying more than 8,000 hotspots worldwide. This conversation will highlight how traditional companies can leverage crypto-native infrastructure and incentives to launch new businesses that weren't previously possible. The discussion will touch on coverage mining, the near term potential for IoT devices, and the upcoming possibilities with decentralized WiFi networks.

CO-FOUNDER • HELIUM

**Amir Haleem**

Amir is the CEO & co-founder of Helium. Prior to Helium, Amir served as CTO at gaming startup Diversion, and member of the original team behind Battlefield 1942 at DICE in Stockholm, Sweden. Outside of work, Amir is a former world champion esports gamer, and co-founder of the popular esports community esreality.com.

CO-FOUNDER • HELIUM

**Frank Mong**

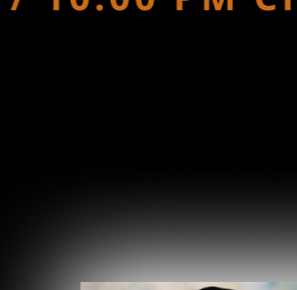

Frank Mong is COO at Helium, where he is responsible for sales, marketing and business development for the company. Before Helium, Mong spent 20 years in cyber security including CMO at Hortonworks, SVP of Marketing at Palo Alto Networks, and VP/GM of security at HP.

### Fireside Chat with Ribbit Capital

FRIDAY, OCTOBER 09, 2020 | DOMESTIC 12:00 PM ET | INTERNATIONAL BROADCAST 10:00 PM ET / 10:00 PM CHINA STANDARD TIME

**Ribbit Capital**

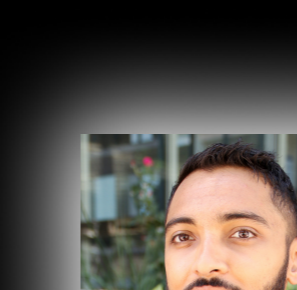

Last but certainly not least, on our final day Tushar Jain will interview Micky Malka, the managing partner of Ribbit Capital. Ribbit Capital is widely regarded as one of, if not the best, fintech investors in the world. Their portfolio includes companies like Coinbase, Brex, Wealthfront, Gusto, Affirm, Credit Karma, Xapo, and Robinhood. This conversation will explore Micky's journey into bitcoin, the intersection of fintech and crypto, and how Ribbit thinks about investing in companies and funds. Crypto is rapidly permeating into various sectors of the economy, and Micky is at the forefront of evaluating how it will increasingly impact legacy businesses.

MANAGING DIRECTOR • RIBBIT CAPITAL

**Micky Malka**

Micky Malka is the Managing Director of Ribbit Capital. Micky grew up in Venezuela where he learned the impact of devaluation and hyperinflation at a very young age. He is deeply knowledgeable about the complexities of building financial products and has invested in some of the most successful fintech companies in the world.

CO-FOUNDER • MULTICOIN CAPITAL

**Tushar Jain**

Tushar is a Co-Founder and Managing Partner at Multicoin Capital, a thesis-driven investment firm that invests in cryptocurrencies, tokens, and blockchain companies. He is passionate about the new economic paradigm enabled by blockchain technology and focuses on decentralized financial products, token economics, and blockchain go-to-market strategies.
