COUPON POLICY

Coupons are available for select sample displays and packages if purchased at the full price on the order form.* These coupons are valued at \$50 each and are activated when the sample invoice for which the selected display/sample package has been paid. Once the coupons are activated, they are available to use at your discretion.

Please note that coupons expire 12 months from the date of invoice (not when the invoice is paid).*

Coupons can be applied by referencing the coupon number on a payment remittance or within email correspondence with the Credit department.

If you are unsure of the coupons available, please email Calhoun.credit@mannington.com and a Credit Analyst will send a listing.

*Coupons are issued only if the amount paid is the full amount of the display and/or package. No coupons are issued/activated on discounted displays/packages.

To submit a credit application, please go to <https://manningtoncommercial.force.com/AccountManagement/s/>

SureSoftSDN™

SOLUTION DYED NYLON

Commercial grade stain protection in a residential carpet. Our SureSoftSDN™ cationic nylon fibers repel acid-based stains. No worries about spills like wine, spaghetti sauce or pet stains.

Color through the entire fiber, not just on the surface. Our SureSoftSDN™ fibers are Solution Dyed, meaning they have the dye all the way through the fiber, like a carrot. Which means no fading and after years of wear from cleaning and wear & tear, the color of the carpet will still shine through.

Warranted for Stairs – How many carpets can you name that are warranted for stairs? We stand by our durability and performance of our SureSoftSDN™ fibers so much, this carpet is warranted for the stairs.

SureSoftSD™

SOLUTION DYED POLYESTER

Get lost in the feeling of SureSoftSD™ carpet fibers. Excellent stain and soil resistance make it easy to clean and maintain, so relax and enjoy the comfort of your carpet without worries about spills or pet messes. Fade resistance ensures this carpet won't fade in the sun. Rest assured your new carpet will meet all your household needs.

Phenix SureSoft™ Solution Dyed Fibers

The color is all the way through the fiber, like a carrot.

The color of non solution dyed fibers is only on the surface like a radish, making the carpet dull over time due to wear.

The benefit of having the color all the way through the fiber is the color of the carpet lasts longer. It resists stains, fading, and wear and tear. Surface dyed fibers become dull over time because the color is worn away.

Built to withstand the “uh-ohs” that come with furry family members, 24/7, with enhanced pet performance and exceptional warranties for stain and spill protection, as well as product durability.

Microban® Surface Protection

							
Enhanced Pet Protection	Stain + Spill Protection	Durability Guaranteed	Kid Friendly	100 Day Satisfaction	Warranted for Stairs		Helping to Keep Your Floors Cleaner
							24/7 SURFACE PROTECTION 99% CLEANER

MICROBAN®

Your Phenix carpet helps protect 24/7 against the growth of bacteria, mold and mildew, and remain 99% cleaner than untreated surfaces. Learn more at Floors.com/Microban

SureSoftSDN™ Solution Dyed Nylon

Commercial-grade stain performance in a residential carpet. Livable luxury is the best way to describe SureSoftSDN™ carpet fibers. This state of the art fiber provides inherent stain, soil, and fade resistance while maintaining superior protection for your home. Bring on the kids and pets, this durable nylon fiber will bounce back time and time again to ensure your carpet looks newer longer.

Asthma & Allergy Friendly*

Phenix Flooring carpets help you breathe easier by reducing airborne allergens.

* See the Carpet and Rug Institute's "Asthma and Allergy" fact sheet at carpet-rug.org

| Our Difference is in the Details

1 Commercial-grade stain protection in a residential carpet OurSuresoftSDN™ cationic nylon fibers repel acid-based stains. No worries about spills like wine, spaghetti sauce or pet stains.

2 Colorthrough the entire fiber, not just on the surface. Our SureSoftSDN™ fibers are Solution Dyed, meaning they have the dye all the way through the fiber, like a carrot. Which means no fading and after years of wear from cleaning and wear and tear, the color of the carpet will still shine through.

3 Microban® Surface Protection Helping to protect 24/7 against the growth of bacteria, mold and mildew, and remain 99% cleaner than untreated surfaces.

4 Warranted for Stairs How many carpets can you name that are warranted for stairs? We stand by our durability and performance of our SureSoftSDN™ fibers so much, this carpet is warranted for the stairs.

NO DYE LOTS

ANNOUNCING NO DYE LOTS ON SURESOFT™SD SOFT SURFACE FLOORS

This includes all Microban® Polyester and PH styles that are manufactured after September 1, 2023.

Our manufacturing and product development teams have worked for well over a year so we can confidently offer No Dye Lots on our Polyester soft surface floors. We are working to offer the same benefit for Nylon in the future.

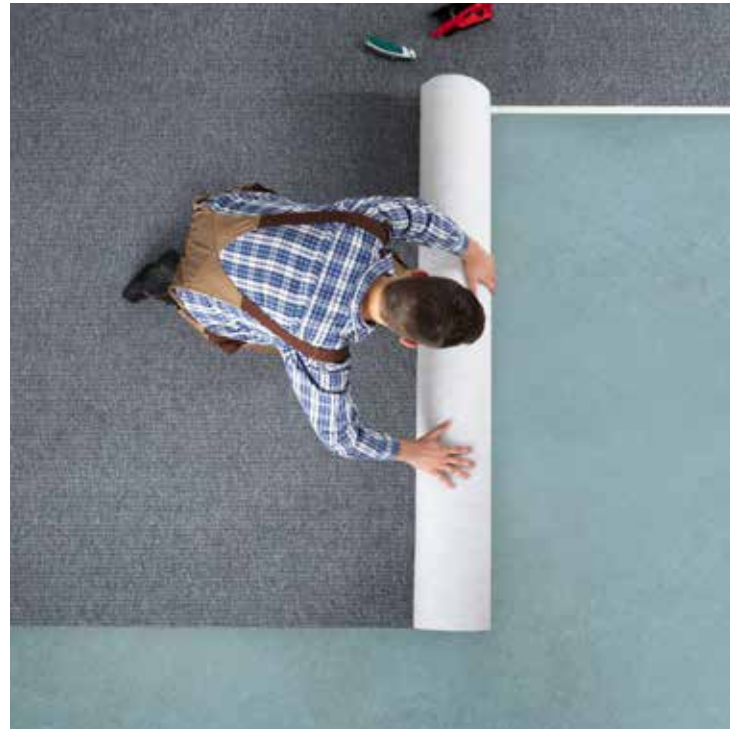

What is No Dye Lot?

No Dye Lot means that the color of the carpet will be the same from roll to roll, regardless of when it was manufactured.

Why Does This Matter?

There are a number of benefits for our retailers and for us:

1. Retailers no longer have to deal with the issue of short rolls when working on a job that requires more carpet than what they have on hand. They can use their short rolls along with a new roll or cut order to complete a job, without having to worry about if the carpet will match.
2. If they have a short roll on hand, they don't have to sell it at a discount. They can use it to start another job, leading to less waste for the retailer and higher profitability by not having to sell off short rolls.
3. Allows retailers to potentially get their carpet order from us faster. They will be given the option to buy shorter rolls verses waiting until the next time the carpet will be manufactured for a longer roll.
4. Having flexible options for retailers helps us to earn trust in our brand and floors and makes us easier to work with. For us, this helps us to better manage our own inventory and have less waste.

Have Confidence, Guaranteed

You can have confidence in our No Dye Lot benefit because we have the tightest tolerances than any other residential carpet manufacturer.

Our floors are guaranteed to match on any SureSoft™SD solution dyed polyester floor that is manufactured after September 1, 2023.

SureSoftSDN™

Solution Dyed Cationic Nylon

All Phenix Carpets Feature Solution Dyed Fibers

The difference is our Solution Dyed Fibers. Carpets made with solution dyed fibers look newer, longer. A solution dyed fiber's color is all the way through the fiber, like a carrot. Surface dyed fibers only have the color on the outside of the fiber, like a radish.

The benefit of having the color all the way through the fiber is the color of the carpet lasts longer. It resists stains, fading, and wear and tear. Surface dyed fibers become dull over time because the color is worn away.

We create two types of solution dyed fibers:

- **SureSoftSDN™** – A special solution dyed cationic nylon fiber
- **SureSoftSD™** – A solution dyed polyester fiber

SureSoftSDN™ — Solution Dyed Cationic Nylon

Livable luxury is the best way to describe SureSoftSDN™ carpet fibers. This state of the art fiber provides inherent stain, soil, and fade resistance while maintaining superior protection for your home. Bring on the kids and pets, this durable nylon fiber will bounce back time and time again to ensure your carpet looks newer longer.

SureSoftSD™ — Solution Dyed Polyester

Get lost in the feeling of SureSoftSD™ carpet fibers. Excellent stain and soil resistance make it easy to clean and maintain, so relax and enjoy the comfort of your carpet without worries about spills or pet messes. Fade resistance ensures this carpet won't fade in the sun. Rest assured your new carpet will meet all your household needs.

The color is all the way through the fiber, like a carrot.

The color of non solution dyed fibers is only on the surface, like a radish, making the carpet dull over time due to wear.

Steps:

- 1.) Fill out the above form in it's entirety.
- 2.) Submit form to directsamples@mannington.com.
- 3.) Carpet - TM's submit the request to the regional and regionals send the request to samples. Once quote is received, it is sent to upper management for approval. Once approved, purchase order is sent to sample vendor.
- 4.) A quote will be submitted to you within 5 business days.
- 5.) Once the quote is approved and all questions are answered, the project will begin.

NOTE - Once a custom order is approved and production has begun, we are unable to cancel the order.

*Room scenes may not be available in every size - custom artwork & printing will incur additional costs and lead time.

NOTE: Mannington is not responsible for samples produced with non-Mannington approved sample vendors.

Upper Management approval is required for the following:

- Processing of custom samples
- Setup of private label names
- Changes to warranties

Stainmaster requires we use their approved warranty side labels.

The final proof must be approved by the customer prior to printing. Any changes after the samples have been processed will be at the customer's expense.
