THE STORY

The Mallard family is in a bit of a rut. While dad Mack is content to keep his family safe paddling around their New England pond forever, mom Pam is eager to shake things up and show their kids—teen son Dax and duckling daughter Gwen—the whole wide world. After a migrating duck family alights on their pond with thrilling tales of far-flung places, Pam persuades Mack to embark on a family trip, via New York City, to tropical Jamaica.

As the Mallards make their way south for the winter, their well-laid plans quickly go awry. The experience will inspire them to expand their horizons, open themselves up to new friends and accomplish more than they ever thought possible, while teaching them more about each other— and themselves—than they ever imagined.

DUCK FACT

Ducks lay more eggs when they are exposed to more daylight.

DUCK FACT

Ducks have
incredibly water-
resistant feathers—
water simply rolls off
them!
