

VETERINARY EMERGENCY  
& SPECIALTY HOSPITAL  
SOUTH DEERFIELD

## Join a Research Study with your Dog

### Does your dog have an upset stomach?

Veterinarians near you are participating in a research study for a new treatment for chronic inflammatory enteropathy (CIE) in dogs. If your dog has been experiencing ongoing GI issues, ask your vet if this study could be right for you and your dog!

### Who can join?

Dogs experiencing chronic or intermittent vomiting, diarrhea, decreased appetite, or weight loss for at least 3 weeks

### What's involved?

- Diet adjustments for your dog to a hydrolyzed protein diet (if needed)
- 8 study visits over 4 month study duration
- All study related visits, treatments, and diagnostics are covered at no cost to the pet owner

## WANT TO PARTICIPATE IN THIS STUDY?

Email your clinic at  
[internalmedicine@veshdeerfield.com](mailto:internalmedicine@veshdeerfield.com)  
to learn more about enrollment.
