

Assistive Devices

Our team can recommend the best assistive devices to help your pet. Whether it be temporary ambulation assistance or life-long, permanent changes, orthotic devices such as braces and wheel-carts are excellent ways to help your pet live happy with the support they need.

PRP Therapy (Platelet Rich Plasma)

Platelets are blood cells which contain proteins that can help heal your your pet’s body. The platelets used in a PRP treatment are collected from a sample of your pets’s blood by removing the red blood cells. The left-over concentrated PRP can be injected directly into sites of inflammation such as joints. PRP has been proven to promote healing and reduce inflammation.

CANINE PHYSICAL REHABILITATION

Rehabilitation Packages

All Physical Rehabilitation Packages include Underwater Treadmill therapy, Therapeutic Ultrasound, Electrical Stimulation (NMES/TENS), Massage, a Nutrition Plan, and L.A.S.E.R therapy. The appropriate package and modalities will be recommended based on the needs of the patient.

Physical Rehabilitation Packages - five sessions - \$499

Physical Rehabilitation Packages - ten sessions - \$899

Physical Rehabilitation Packages - twenty sessions - \$1,699

Comfort Care Package:

Five sessions - \$375

Ten sessions - \$700

Twenty sessions - \$1,350

Comfort care packages are recommended for arthritic patients, long-term pain management treatment, and palliative care. Sessions include a Therapeutic Massage, Therapeutic Ultrasound, and L.A.S.E.R

LASER (photobiomodulation) Therapy

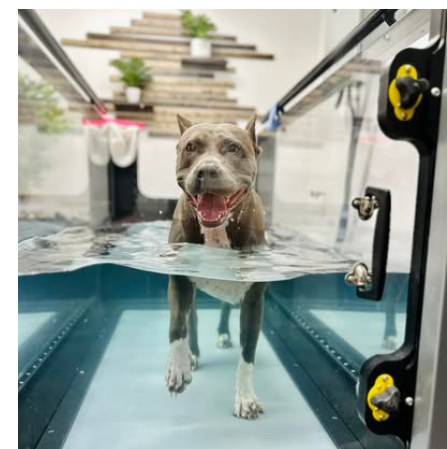

Photobiomodulation, commonly known as laser therapy, has been scientifically proven to be successful in treating post-surgical pain and many acute and chronic conditions.

LASER Therapy - five sessions - \$325

LASER Therapy - ten sessions - \$600

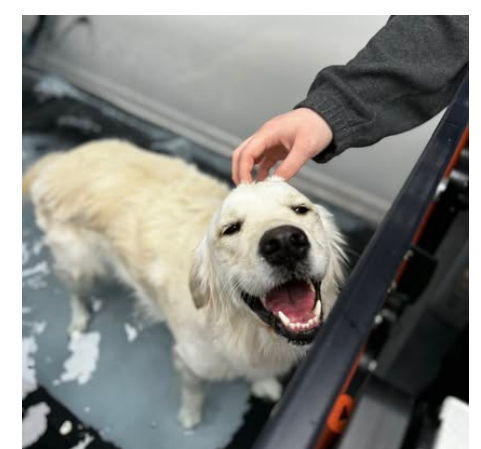

LASER Therapy - twenty sessions - \$1,000

Underwater Treadmill Therapy:

Five Sessions - \$450

Ten Sessions - \$810

During underwater treadmill therapy, the buoyancy of water significantly decreases the impact of joints while promoting muscle strength and joint motion.
