Join a Research Study with your Dog

Does your dog have an upset stomach?

Veterinarians near you are participating in a research study for a new treatment for chronic inflammatory enteropathy (CIE) in dogs. If your dog has been experiencing ongoing GI issues, ask your vet if this study could be right for you and your dog!

Who can join?

Dogs experiencing chronic or intermittent vomiting, diarrhea, decreased appetite, or weight loss for at least 3 weeks

What's involved?

- Diet adjustments for your dog to a hydrolyzed protein diet (if needed)
- 8 study visits over 4 month study duration
- All study related visits, treatments, and diagnostics are covered at no cost to the pet owner

WANT TO PARTICIPATE IN THIS STUDY?

Email your clinic at
