SW-23 Mobile Parts Washer

Fits every application with its unique design, large sink size, mobility and amazing features. It includes an extra long angled brush/hose for those hard to reach places and a customised dolly with a footstep that makes it really easy to move around.

SW-37 Heavyweight Parts Washer

Tough enough for the big jobs, it has an enormous 454 kg load capacity, moves easily through the workshop area on a mobile dolly or can stay in one place with locking casters and provides a large, oversized sink to accommodate large and small parts.

SW-25 Signature Parts Washer

Fits every budget and has everything you need in a manual parts washer and then some: toggle switch controls, a flow control timer, adjustable thermostat, and a super capacity pump.

SW-28 SuperSink Parts Washer

Bigger is better with the SuperSink Parts Washer. This model is loaded with features and includes an extra large work surface for all jobs, large and small. A second brush allows two people to work at the same time.

SCAN FOR MORE INFO

SmartWasher®
BIOREMEDIATING parts washing system

QUICK MAINTENANCE GUIDE

STEP 1 CHANGE OZZYMAT® EVERY 4 WEEKS

Remove existing Ozyzmat® by lifting off the false bottom and set new Ozyzmat® on filter mat support grid. Pick a date each month to change the filter e.g. 1st or 15th.

Important Notes

- a) Each Ozyzmat® comes with weekly peelable layers which can be removed when heavily soiled.
- b) The Ozyzmat® holds the microbes that clean the fluid. Even if Ozyzmat® does not look soiled it is vital it is changed out every 4 weeks so the bioremediation process works effectively.

STEP 2 CHECK FLUID LIGHT REGULARLY

If fluid light is RED, the Ozyzjuice® level is too low and fluid will go cold. Ensure you top up with a FULL pail of Ozyzjuice® when refilling.

STEP 3 KEEP CONSUMABLES ON HAND

Have at least 2 - 3 Ozyzmat® and 1 - 2 Ozyzjuice® Pails on hand to ensure regular maintenance is upheld.

LUBRICANTS & PENETRANTS

Belt Dressing Permastraw

CRC Belt Dressing minimises squeals in automotive belts. It forms a non-drying, water-resistant film, extending belt life by reducing tension, slipping, and dirt build-up. Belts stay pliable without glazing or hardening, reducing squeaking noise.

- Recommended for use in the automotive industry. Suitable for:
- Multi-ribbed
 - Alternator
 - Steering belts and other accessory belts
- Features & benefits:
- Extends the life of old and worn belts
 - Acts as a conditioner
 - Reduces belt tension
 - Non-tacky and non-drying
 - Ideal for the automotive trade

\$19.95 Ex GST 350g
ITEM CODE CRC1753472

808 Silicone Spray

- Revives, lubricates, reduces friction, waterproofs, cleans and shines
- Clear, odourless, non-staining – no need for messy greases and oils
- Harmless to most materials – metals, plastics, rubber, adhesives, wood, fabrics, glass, inks and paints
- Provides ongoing protection over a wide range of temperatures & pressures
- Does not damage surfaces or leave marks or stains

\$14.95 Ex GST 500ml
ITEM CODE CRC3055

Silicone Grease

- Seals, lubricates, protects, insulates and waterproofs
- Temperature resistant – maintains performance level year round. Will not harden, freeze, dry or melt due to temperature fluctuations
- Safe on most rubber and plastics – will not degrade seals, gaskets or plastic insulators

\$14.95 Ex GST 75ml
ITEM CODE CRC3036

Engine Start

- Significantly reduces the energy required for immediate combustion
- Easy and convenient to use
- Useful for cold or humid conditions
- Protects vital engine parts – guards against expensive maintenance and engine breakdowns

\$19.95 Ex GST 400ml
