# TESTIMONIALS

### DOESN'T GET MUCH BETTER THAN THIS!

We recently switched to the Grain-Free Chicken, Turkey and Duck Recipe, and would highly recommend this product. I have two adventure cats, and this is amazing food for their active lifestyle. My cats have had digestion issues in the past, but the added probiotics in this product is helping them maintain healthy digestion. The best fuel for my energetic cats!

### LAMBLICIOUS

I feed lamb skin and coat to my previous dog. So when I got my first rescue dog I already knew what food I was going to feed. Mushu my rescue dog likes the food and has even eaten it plain. Which is a big deal for a rescue who can be too nervous too eat. Six months later his fur is smooth and shiny and doesn't shed like he did when he first came home.

### VERY HAPPY WITH THIS FOOD!

I have two large breed dogs, a puppy and a two year old. They both eat this food, and they are doing really great on it. They both get so many compliments about how beautiful their coat is, and my adult dog, who used to lose a lot of fur, barely sheds anymore. My puppy has a lot more energy than when she was on the food they gave her at the shelter, and my adult dog, who is a VERY picky eater, loves her food so much that I can use it for training.
