About Petcurean

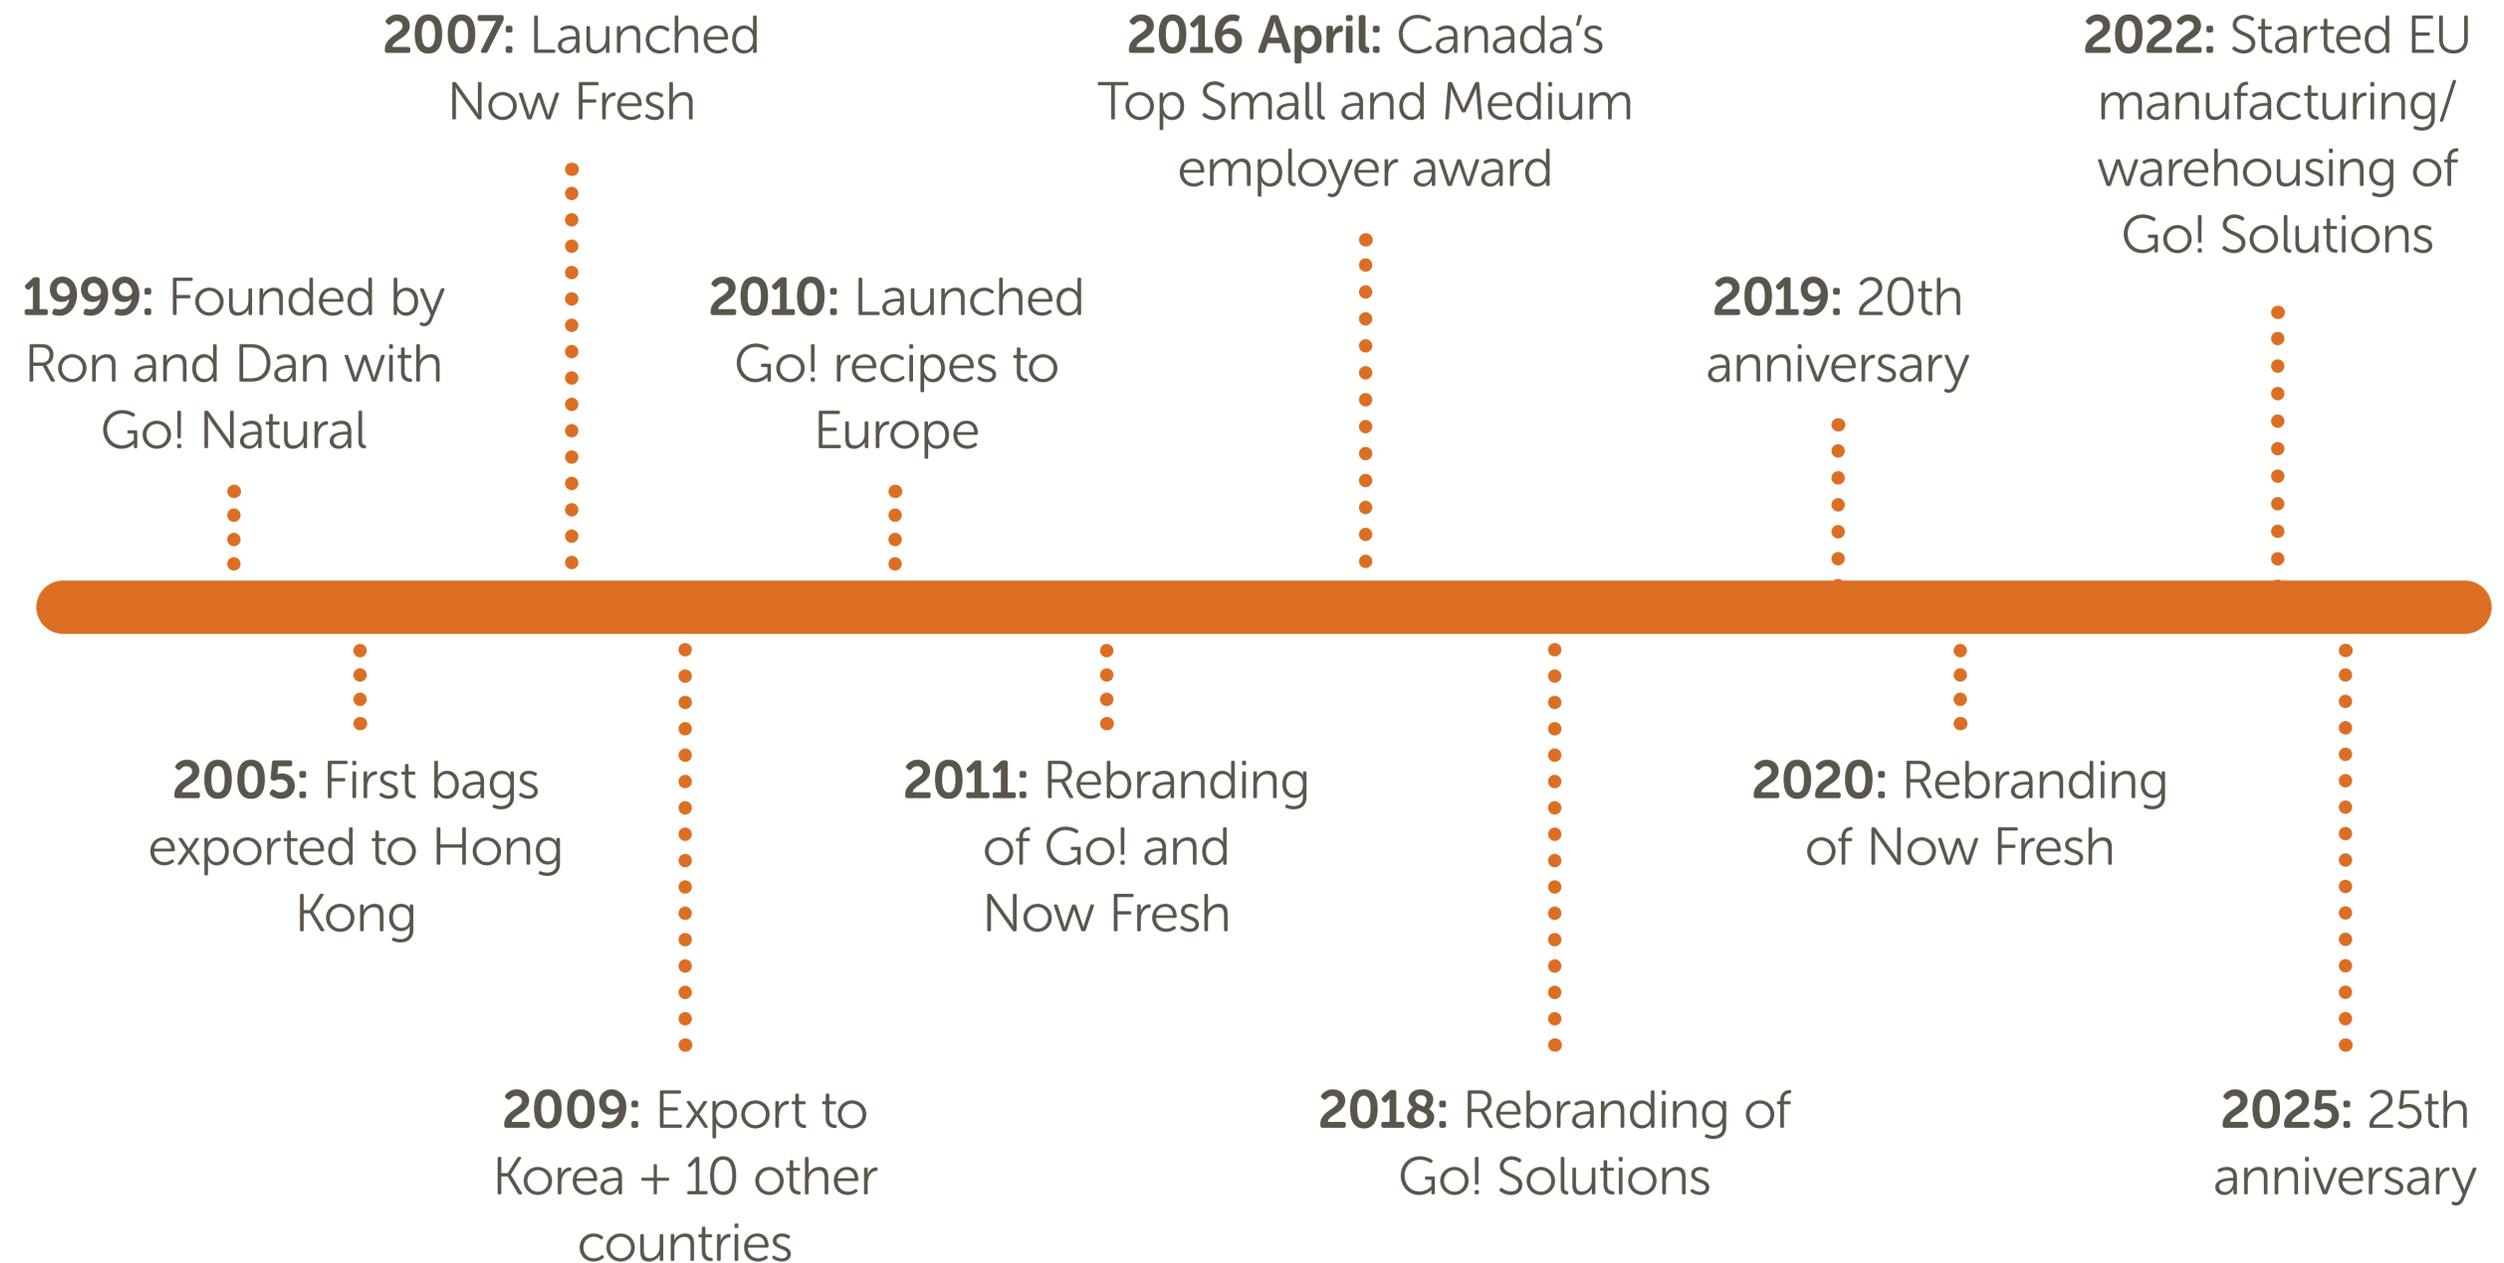

Helping pets live happy, healthy, & long lives

At Petcurean, we create premium quality, nutrient-rich food that's right for pets, to help our dogs and cats get the most out of their lives with us. We always have, since day one when two good friends started a little family operation in the Fraser Valley of British Columbia, Canada.

We're pet people, pet owners, pet advocates and yes, more than a little obsessed with proper pet nutrition. With over 25 years of experience, we're experts in crafting recipes designed to meet the needs of dogs and cats (and cats and dogs) of all different shapes, sizes, backgrounds and ages.

Our Petcurean history

The Petcurean difference

With every decision we make, every recipe we create, we put pets first.

From our production facility to our formulation, our manufacturing standards and ingredient sourcing – **we put pets first.**

Our team of certified nutritionists carefully formulate each and every one of our recipes to meet the specific dietary needs of dogs and cats.

We've established ourselves internationally and currently export to over 20 countries through Exclusive International Distribution Partners supported by a dedicated international team.

Sustainability achievements

Quality Assurance Testing

Every kibble batch undergoes microbial safety testing, nutritional verification, and visual inspection to ensure consistent, safe nutrition.

Lower-Carbon Manufacturing

United Pet, our EU manufacturing partner, runs on 68% clean energy from hydro, wind, solar, biofuel, nuclear, and natural gas.

Supporting Pets Across Europe

We donated 101,500 meals to animal welfare organizations across Europe.

International regulatory standards

Our products meet or exceed standards by:

Regulatory Standards:

EU - European Union

FDA – US Food and Drug Administration

CFIA – Canadian Food Inspection Agency

3rd Party Certifications:

GFSI - Global Food Safety Initiative

ISO Certifications

The benefits of production in Europe

Support EU Demand: Ability to support future EU sales and beyond.

Speed: Time-saving from a closer warehouse. Now orders will be ready to pick up within 2 weeks of ordering.

Ensure consistent capacity: Petcurean continues global expansion and needs to ensure we diversify our production.

Sustainability: We reduce our carbon footprint by producing closer to the market.

Who is United Petfood?

Founded in 1994, United Petfood is an exclusive private label producer of high-quality dry & wet pet food and snacks.

United Petfood has 27 kitchens around the world, and the premium-quality Petcurean foods are produced in the Wimille, France location.

Main sustainability initiatives:

- Member of the Pet Sustainability Coalition
- Locally sourced ingredients
- Energy and waste efficiency
- Windmills & solar panels
