About us

Founded in 2013. Dynamics ATS is a Microsoft Gold Application Developer and ISV Cloud Embed partner focused on extending the features and functionality of Microsoft Dynamics 365 to suit the needs of recruiting, staffing, and executive search professionals and businesses around the world.

We've been in the Staffing, HR, Sales, and Recruiting business collectively for 30+ years and have seen and used more than a few customer/candidate relationship management, and applicant tracking systems during that time. Watching systems become more click-intensive, convoluted, un-customizable, and not to mention costly inspired us to build an alternative solution. We partnered with some Certified Microsoft CRM Technology specialists and application developers to build Dynamics ATS.

Why you will love Dynamics ATS

Dynamics ATS helps you make more placements and better client and candidate relationship management. It increases sales and recruiting productivity, reduces time to fill, and offers fantastic customer support.

Dynamics ATS integrates with:

Customer testimonials

"Having used the product for about 4 years I can tell you we have grown our business with this application, it has all the best-of-breed CRM ATS features and is constantly getting better. I highly recommend this app for Staff Augmentation and Executive search companies."

BOBBY GROHMANN, SR TECHNICAL RECRUITER, IMPROVING

"We have been working with the Dynamics ATS team for several years and their product is a great, inexpensive solution to post jobs and manage applicants. Highly recommended!"

DOUG CUSSIMANIO, SYSTEMS MANAGER - QUIKTRIP
