An aerial photograph of a large industrial complex, possibly a power plant or manufacturing site. The facility consists of numerous large, interconnected buildings with flat roofs, some featuring skylights. A railway line with multiple tracks runs through the center of the complex. The surrounding area includes parking lots, smaller structures, and some greenery. The background shows a dense residential neighborhood with many small houses. The overall scene is captured in a slightly dim, dusk-like lighting.

What is SafetyCulture?

iAuditor by SafetyCulture is an inspection, issue capture and corrective action platform for teams that's used over 50,000 times a day in over 85 countries. It's a simpler way to get the information you need to drive quality, efficiency, and safety — all in the one place.

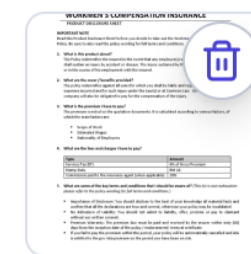

SafetyCulture is the operational heartbeat of working teams around the world. Its mobile-first operations platform helps identify issues and opportunities for businesses to improve everyday.

WORKMEN'S COMPENSATION INSURANCE PRODUCT DISCLOSURE SHEET

IMPORTANT NOTE
Read this Product Disclosure Sheet before you decide to take out the Workmen's Compensation Insurance Policy. Be sure to also read the policy wording for full terms and conditions.

- What is this product about?**
The Policy indemnifies the insured in the event that any employee(s) in the insured's immediate service shall sustain an injury by accident or disease. The injury sustained by the employee(s) must arise out of or in the course of his employment with the insured.
- What are the cover / benefits provided?**
The Policy indemnifies against all sums for which you shall be liable and responsible for all the costs and expenses incurred and for such injury under the Law(s) or at Common Law. Under this policy, the company will also be obligated to pay for the compensation of the injury.
- What is the premium I have to pay?**
The premium is noted on the quotation documents. It is calculated according to various factors, of which the main factors are:
 - Scope of Work
 - Estimated Wages
 - Nationality of Employees
- What are the fees and charges I have to pay?**

Type	Amount
Services Tax (ST)	6% of Gross Premium
Stamp Duty	RM 10
Commission paid to the insurance agent (when applicable)	15%

5. **What are some of the key terms and conditions that I should be aware of?** (This list is non-exhaustive; please refer to the policy wording for full terms and conditions.)

- Importance of Disclosure: You should disclose to the best of your knowledge all material facts and confirm that all the declarations are true and correct; otherwise your policy may be invalidated.
- No Admission of Liability: You should not admit to liability, offer, promise or pay to claimant without our written consent.
- Premium Warranty: The premium due must be paid and received by the insurer within sixty (60) days from the inception date of the policy / endorsement/ renewal certificate.
- If you fail to pay the premium within the period, your policy will be automatically cancelled and AIG is entitled to the pro rata premium on the period you have been on risk.

Onboarding

Get **early** access

A smartphone mockup displays the FreshServe mobile application. The interface is clean and modern, with a white background and blue accents. At the top, the time is 9:41, and the signal, Wi-Fi, and battery icons are visible. The app header shows the FreshServe logo and a user profile icon. The main content area is titled 'Onboarding 4 Today (1-1 of 1)'. It lists four completed items: 'CREDENTIAL Working at Heights' (Expires 10 Feb 2025), 'CREDENTIAL White Card' (Expires 10 Feb 2025), 'TRAINING Site Safety' (Completed 31 Jul 2024), and 'TRAINING Employee Policy' (Completed 31 Jul 2024). Each item has a green 'Completed' badge. At the bottom of the screen, there are two buttons: a blue 'Sign up for free' button and a white 'Login' button. The bottom navigation bar contains four icons: Home, Library, Explore, and More.

Ask AI

Increase worker **productivity**

Provide instant, accurate **answers**

The image displays the 'Ask AI in Documents' interface from SafetyCulture. On the left, a smartphone shows the mobile version of the app. The desktop version is shown on the right. The desktop interface includes a navigation menu with 'Home' and 'Search', a search bar, and a list of document categories such as 'Standards', 'Assets', 'SOP', 'Risk Management', 'Emergency response plan', 'Installation Manual', 'Forklift User Manual', 'Circular Saw User Manual', 'Document Control Policy', 'Corrective Action Procedure', 'SOP Supplier Approval', and 'Approved Supplier List'. A 'Ask AI' button is visible in the top right of the desktop interface. The mobile app shows a search for 'safe handling of ammonia' and provides a detailed answer under the heading 'Safe Handling of Ammonia'. The answer includes sections for 'Storage and Handling' and 'Protective Equipment' with specific instructions. A disclaimer at the bottom of the mobile app states: 'AI can make mistakes. Please review all content to verify accuracy and reliability.'

safe handling of ammonia

Safe Handling of Ammonia

Ammonia is a hazardous substance that requires careful handling to ensure safety. Here are some key points to consider for the safe handling of ammonia based on the retrieved documents:

- 1. Storage and Handling:**
 - Use equipment made of compatible materials of construction that are rated for cylinder pressure.
 - Store full ammonia containers in a well-ventilated area like an open compound to ensure proper air circulation.
 - Follow all regulations and local requirements for storing ammonia containers.
 - Periodically check stored containers for leaks and general condition.
- 2. Protective Equipment:**
 - When handling ammonia cylinders, it is recommended to wear safety glasses. Additionally, a full faceshield should be worn.
