

# CLIMATE CHANGE GAME

Journey through the labyrinth on your carbon-cutting quest. Along the way find out how CAFOD is working with partners affected by climate change and learn some top tips for you, your family and your school to take to become more climate friendly.

### You will need:

- A counter for each player
- A die
- Question cards

### Instructions:

- Roll the die – the person with the highest score starts, followed by the person to their left.
- If the player lands on an information or instruction square, they must read it out and follow any instructions.
- If a player lands on a green footprint square, another player must ask them a question from the green footprint cards.
- The winner is the first person to get to the centre. But you must throw the exact number to land on the earth.

**BE PART OF THE CLIMATE CHANGE SOLUTION**

**START**

**END**

**Whoops excuse me!!**

**Harvest in the Amazon**  
CAFOD supports farmers in finding environmentally friendly ways to grow crops in the rainforest in Brazil.

**Emergency rescue**  
In Mozambique and Zimbabwe, CAFOD food and essentials following Cyclone Idai.

**Farming in extreme weather**  
In Guatemala, floods, frosts and droughts can lead to poor harvests. CAFOD is helping farmers to learn about green farming techniques which are more environmentally friendly.

**You leave the tap on**  
While cleaning your teeth. This wastes water and the energy it takes to pump the water to your home. **Move back 2 spaces.**

**You go to bed and leave the TV on standby!** Switch it off next time – it's wasting energy! **Go back 2 spaces.**

**You persuade your parents to switch to a green energy supplier, which uses more renewable energy.** **Move forward 3 spaces.**

**Farming the land**  
CAFOD's local experts help people to cope with the changing climate. People like this man in Kenya are using the seeds and tools provided to grow crops.

**Monsoon floods and cyclones hit Bangladesh**  
CAFOD helps provide food, shelter and hope for the future.
