

ASHLEY ZELINSKIE

CATALOG + NOV 2026 SOLO SHOW PREVIEW

ASHLEY ZELINSKIE

b. 1987 USA

Ashley Zelinskie is Brooklyn-based conceptual artist utilizing a post-New Media approach, wherein the media employed are merely vehicles in service of underlying concepts, she is attempting the process of translating our vast history into an eternal and universal language, while focusing on humanity as a small part of a larger whole. Her works span a variety of media, from sculpture, canvas and print works, to digital art, VR, and holograms. Each artwork is created using cutting edge technology such as 3D printing, computer-guided laser cutting, satellite plating technology, and gaming engines. Her work focuses on visualizing data in abstract forms and finding new and interesting ways to describe complex ideas.

Ashley's work has been featured by The New York Times, The New Yorker, Vice, Popular Science, Space.com, and Hyperallergic. Her work forms part of the permanent collection of the US Department of State Art in Embassies Program, The Whitney Museum's artport collection, and has been exhibited at Sotheby's New York, ArtScience Museum in Singapore and most recently Art Center Nabi in Seoul. Ashley is a former resident of New Inc.—the New Museum's Art and Technology Incubator—and the Shapeways x Museum of Art and design "Out of Hand" exhibition residency. She is currently working in coordination with NASA, the European Space Agency, and the Smithsonian and she is a member of Onassis ONX XR studio in New York City.

PRESS HIGHLIGHTS

"An Overly Optimistic Take on Our Post-Human Existence" Hyperallergic

"From the Depths of Space to the Walls of a Gallery" The New York Times

"Looking for Art in the James Webb Space Telescope" The New Yorker

"The Artist Who Speaks to Computers and Their Humans" Vice

HEFT

Heft is a contemporary gallery in New York City presenting artists who use systems to create meaningful new works. Partnering with a fluid roster of artists, the gallery shows a wide spectrum of work – emphasizing inventive uses of traditional materials, memorable experiences, and provocative artworks that are rapidly gaining recognition for advancing the generative art movement.

Featuring projects by pioneers and groundbreaking emerging artists, Heft collaborates closely to elevate their practice. These artists engage urgent cultural questions using the tools of their time – algorithms, systems, artificial intelligence, and other generative processes – to show broader audiences what this medium is and what it can become. Heft is led by artist, curator, and creative director Adam Heft Berninger, alongside a growing team of artists and insiders. His background spans traditional art disciplines and creative technologies, bringing a unique perspective to the gallery's vision and program. A RISD graduate with a lifelong art practice and decades of collaborative work, Berninger has also created digital experiences and brand platforms for arts organizations including MoMA, Public Art Fund, Paddle8, UOVO, the Gardner Museum, and Google Art Project.

With over 50 projects presented under Heft (formerly Tender), the gallery continues to engage a global collector base and participate in leading international fairs – such as Untitled Art Miami, Paris Photo, and Contemporary Istanbul – while presenting monthly exhibitions from its Lower East Side space in NYC.
