**CAUTION:** indication of exhaust/accessory type-approval in a specific country only applies to that country. For the rest of the world, the same exhaust/accessory must be considered to be of the “racing” type, i.e. designed for competition vehicles used only on closed racetracks. It is forbidden by law to use the bike outside of closed racetracks with this exhaust/accessory installed and therefore it is not allowed to install the exhaust/accessory on bikes intended for road use.

Some of the images of the accessories contained in this catalogue are still provisional and/or 3D renderings included for illustrative purposes; do not consider them final yet.

Ducati Performance accessories are designed by the Ducati Style Centre and created in collaboration with important, well-known firms in the sector.

From the first design to the final product, it can take up to 12 months to create an accessory that respects the criteria of quality, design and functionality for which Ducati products stand out. During the development phase, all original accessories undergo dynamic testing, carried out by professional test riders and development engineers working in a specific Ducati R&D area.

Ducati Corse is involved in developing certain accessories destined for the more sporty bikes, to achieve a result that perfectly coheres with track use in terms of performance, aerodynamics or ergonomics.

You can choose between accessories that enhance the aesthetics of your bike, such as billet aluminium elements, or those that prioritise performance, like the full exhaust kit or magnesium wheels, or even touring, with the side panniers. Ducati also offers a series of packages comprising various accessories, with which to equip your bike based on your riding style and needs. Packages include Sport, Racing, Touring and Urban. You can consult the full catalogue on our website and use the virtual configurator to create the bike of your dreams.

1 Racing exhaust.

2

2 Headlight protection grille.

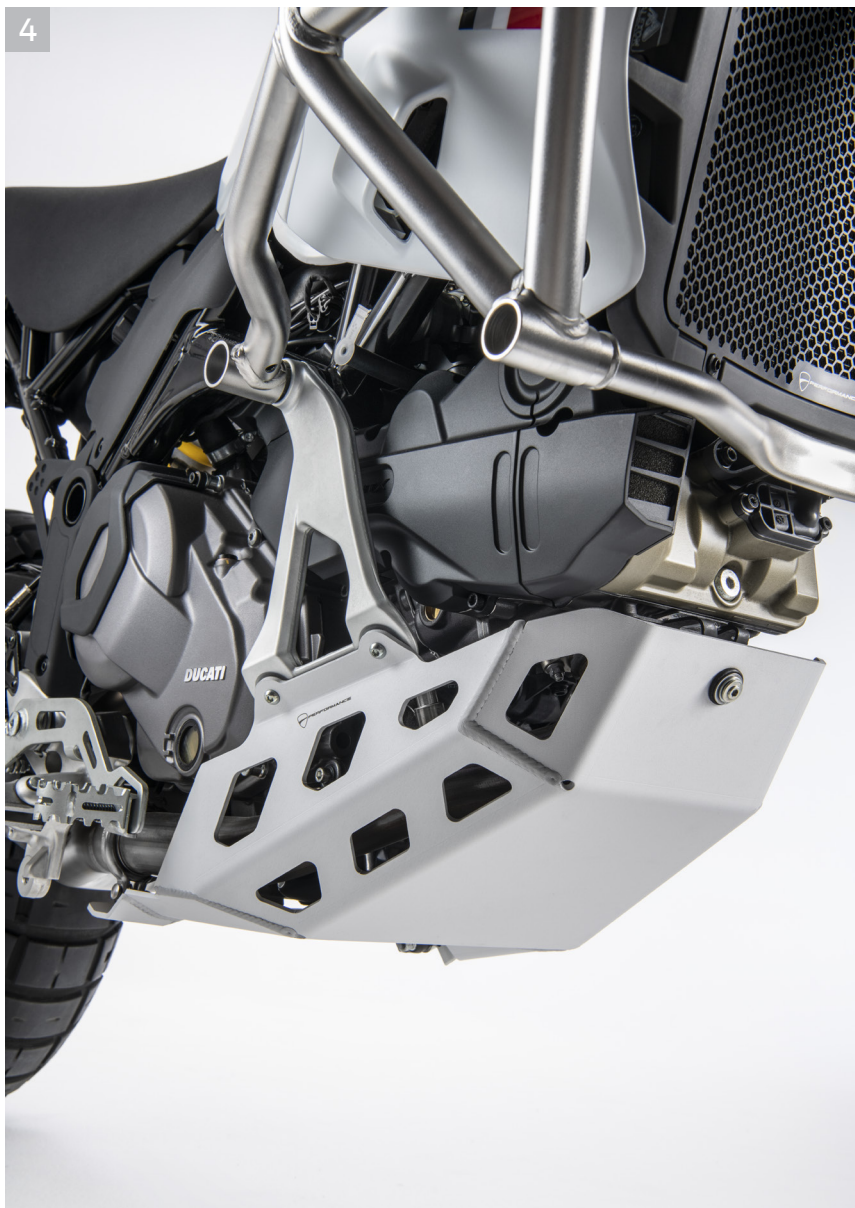

3

3 Protective mesh for water radiator.

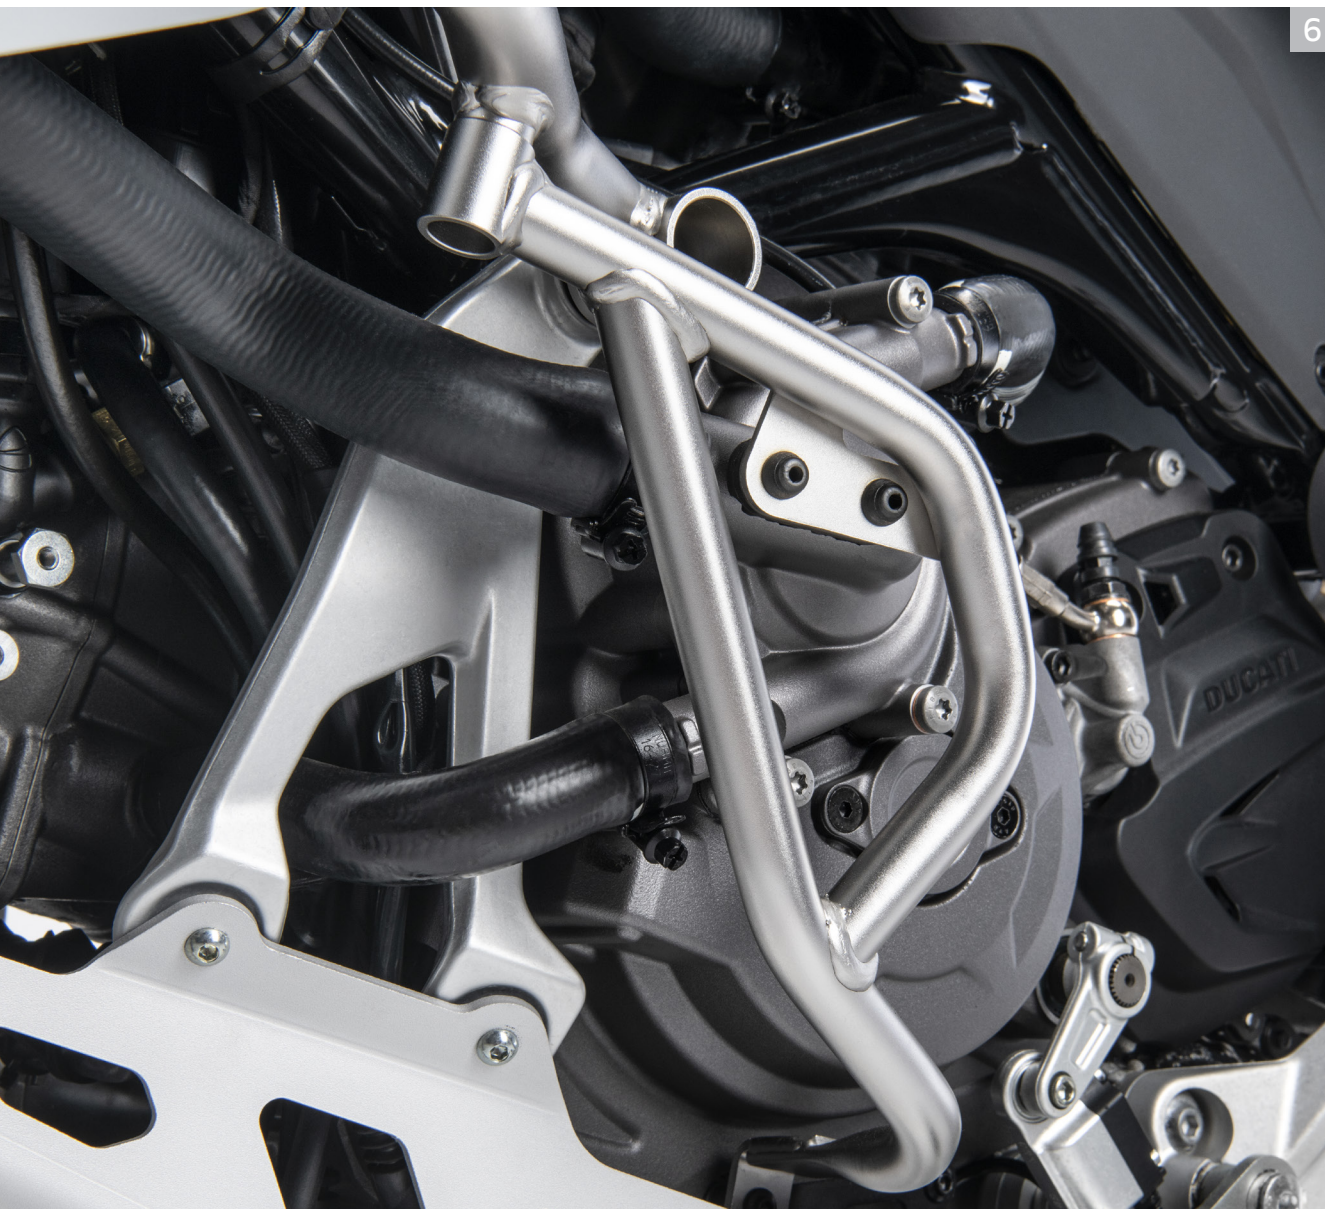

4 Engine guard plate.

 5 Engine cover in steel tubes.

6

6 Water pump protection.

7

7 Hand guards.

8

8 Indoor bike canvas.

9

9 Auxiliary tank.

10

10 Rally seat.

A close-up photograph of a motorcycle's engine and frame. The frame is painted a vibrant red, while the engine block is a metallic gold color. Various black plastic components, including the seat and side panels, are visible. A silver-colored metal bracket is attached to the frame. The text "MULTISTRADA V4" is overlaid in a white, italicized font on the right side of the image. In the bottom left corner, the name "POVIČ" is partially visible on a black surface.

19 Carbon front mudguard.

21 LH aluminium rear-view mirror.

20 Billet aluminium footpegs.

22 Front fork slider.

23 Billet aluminium tank cap.

A high-contrast, black and white photograph focusing on the rear section of a motorcycle. The primary subject is the black, contoured seat, which has a smooth, leather-like texture. Behind the seat, a silver-colored mesh backrest is visible, featuring a complex, repeating geometric pattern of interconnected loops. The lighting is dramatic, coming from the upper left, which creates bright highlights on the top edge of the seat and the mesh, while the rest of the scene is in deep shadow. The background is a solid, dark black. In the lower-left corner, parts of the motorcycle's frame and suspension are partially visible, showing metallic surfaces and mechanical components.

13 Billet aluminium clutch cover.

A 14 Front fork slider.

A 15 Mirror hole covers.

A close-up photograph of a motorcycle's front fork assembly. The central focus is a bright, polished gold fork tube that runs diagonally from the bottom center towards the top right. At the top, the fork is connected to a black, multi-tiered upper fork cap. To the left of the fork tube, a black plastic fairing with a fine, grid-like texture is visible. The background is dark and out of focus, showing parts of the motorcycle's frame and a hint of a red body panel on the right. The overall lighting is dramatic, highlighting the metallic sheen of the fork and the matte texture of the plastic.

## Learn more about our accessories: ducati.com

Ducati has always placed great emphasis on safety and encourages its customers to use their motorcycles sensibly and responsibly in compliance with traffic regulations, to always wear a type-approved helmet and adequate protective gear and to make sure their passengers do the same when riding two-up.

**Special Warnings:** The pictures of the catalogue may refer to prototypes, subject to possible major changes upon mass production and they serve only as a reference, for your information, they are not binding in any way for Ducati Motor Holding S.p.A. - a sole shareholder Company - a Company subject to the Management and Coordination activities of AUDI AG - ("Ducati"). Ducati reserves the right to make changes and improvements to any product without any obligation to give prior notice or to carry out

such changes to products already sold. This catalogue, including but not limited to the brands, logos, texts, images, graphics and index contained within it, are the property of Ducati or Ducati holds the reproduction rights; any reproduction, modification or other use of the catalogue and its contents is strictly forbidden without prior consent from Ducati. Have products shown in this catalogue installed, mounted, removed and/or repaired exclusively by entities belonging to Ducati Authorised Network (dealers and/or authorised workshops). Ducati does not guarantee nor can be held responsible or liable in case these products are not used as intended, are installed, serviced and/ or modified by the customer or by third parties not authorised by Ducati. For more information please visit [ducati.com](http://ducati.com).

Date of printing November 2018.

### Base warranty terms and conditions

#### 1) Consumer warranty rights

1.1 Ducati Motor Holding S.p.A. - a sole shareholder Company - a Company subject to the Management and Coordination activities of AUDI AG - (hereinafter "Ducati") - via Cavaliere Ducati, 3 - 40132 Bologna, Italy - warrants all new products included in the present catalogue for a period of twenty-four (24) months from delivery date by the dealer to the first owner. This warranty covers the manufacturing faults acknowledged and ascertained by Ducati in all the countries being part of Ducati sales and service network ("Official Network").

1.2 The purchase of the accessory entails the express acceptance of this Ducati base warranty as offered to purchasers, for which legal guarantees shall also apply. This base warranty entitles the consumer to obtain the free repair or replacement of the defective parts, at Ducati's discretion.

1.3 The defective products replaced under warranty become property of Ducati.

1.4 This warranty keeps unchanged the unbreakable rights acknowledged to the consumer by the relevant local imperative regulations, such as, but not limited to, the 99/44/EC directive, as implemented by every single country.

#### 2) Exclusions

2.1 The warranty offered by Ducati does not cover: a) the products used on motorcycles in any kind of sports competitions; b) the parts on hired motorcycles; c) the products showing defects originated by accidents, negligence or overload; d) the defects originated by normal wear, oxidation or bad weather conditions; e) the defects the consumer was aware of or could not be unaware of according to ordinary diligence upon product delivery and receipt; f) the parts which were disassembled, modified, installed and/ or repaired by people other than Official Network personnel; g) the faulty products due to misuse or abuse of the concerned product or motorcycle.

2.2 This base warranty as offered by Ducati on the product does not extend to the motorcycle where the product has been installed.

#### 3) Consumer's obligations

3.1 The following indications shall be accomplished in order to maintain general warranty conditions validity: a) keep the tax document certifying the purchase of the product involved showing the relevant purchase date; b) notify any possible defects to Ducati, via the Official Network, within 2 months from the day faults were detected; c) strictly comply with the instructions and warnings given by Ducati and coming with the product.

3.2 Failure to meet obligations under Section 3.1 will make this standard warranty issued by Ducati become null and void.

#### 4) Liability

4.1 Ducati guarantees that the products contained in the present catalogue are suitable to their intended use and have the properties declared by Ducati. Ducati does not guarantee in any way that these products are suitable to other purposes than those they are manufactured for. Ducati disclaims all responsibility or liability for any defects due to misuse, actions or changes made by unauthorized third parties or by the customer, i.e. accidental or intentional damages occurred after product delivery.

4.2 Any defects or delays in repairs or replacements by the Official Network do not entitle the consumer to any compensation or warranty extension from Ducati.

4.3 Ducati reserves the right to make any changes and improvements to the products it markets, with no obligation to make such changes to the motorcycles sold prior to change introduction.
