

June 15, 2017

Enclosed please find a copy of the build card for your 1966 Plymouth Barracuda. The original Selling dealer was Poquoson Motors, Inc. located in Hampton, VA.

At this time, we are unable to offer a full decoding of your build card due to projects and limited staff within the archives.

Please note, we cannot reprint build cards any differently. The build cards were put on microfilm many years before they arrived to the archives. Everything possible has been done to provide you with the best copy from our files. We cannot make the build cards any larger or clearer, than what has been provided to you. To help assist with reading the build record, please find a copy of a blank 1967 build record. The model years 1966 and 1967 used the same format. I apologize for the inconvenience this may have caused you.

I hope that you find this information useful.

Regards,

Danielle Szostak-Viers

My name is Noe Barrera. We were in Warren Mi and hoping to get historical info on our 1966 Barracuda. I went to MOPAR HQ in Center Line and I spoke with Renee Moran. They took my information and said Joe Brodnicki would call me with any information he could find. He found nothing. He referred me to you. Hope you can provide me with any information you find. We brought the car in San Antonio, TX in 1967.
An Alum card on the right fender weld has what I believe the following information is on the original owner:

Chrysler Corp Certicard
Vehicle Identification
BP29D62519189

The car is original with the following modifications:

Replace the 273 2BL with 340 4 BL from a Duster
Replaced 4 BL with 3-2 BL
Repainted the lavender paint to black.
